> State. The year that Junior was promoted was 2001.

Interesting silence on the other end. Of course, we all know that government promotion committees aren't the least bit influenced by the fact that one candidate has a father in high places.

NOT.

The real truth is that most of the members of such a committee would be scared to death for their own futures if they didn't look the other way and let the promotion go through.

The watchword among government employees is "don't make waves," and it is usually scrupulously observed by the pussies who are career government managers. No one ever accused a government manager of taking risks.

> crossposting!

No you did more that that.

You made a cross posted bitch post about my request for another cross
poster not to cross post.

>>>>> I didn't know that I needed anybodies permission to not crosspost?

So again I ask, where did I ask YOU not to cross post.

> So I see You are the moron and Steven is the tard. If you idiots

Message-ID: <cacbc942.0410300830.558543df@posting.google.com>
Source record: 55877

Hello
My problrms with IC706 MKII are endless!!
I connected by accident the 8V ouput in the rear of TRX
to the Ground from the PC sound card!!!
Now the TRX is QRT.
Now Icom 706 MK-II won't power up.
When I push the power button I can hear a relay click in the radio,
and a thump in the speaker but that is it. I've checked the fuses
internal and external all are ok. For those who are familiar with
ic706MKII internal,
I made the followings measurements at the PLL unit
where the Internal 8V rehulator is located:
At the output of IC3..... 8.1 V
At the base of Q51 ..... 3.1 V
At the collector of Q51 ..... 2.32V
At the emetter of Q51 ..... 2.31V
At the collector of Q45 ..... 13.8V
At the emetter of Q45 ..... 0V !!

Because the Q45 is not SMD,I replaced itwith new one
But the problem stil exist.
Does anyone have any suggestions as
to fix this problem.

Hello,

I rebuilt an ugly balun
http://www.hamuniverse.com/balun.html
using PVC water pipes and now it comes to the point where i have to
decide about the jacks.

I will drive the balun between 3-40 MHz on a maximum of 200 watts. Which
jack type would be the best? PL is common but unfortunately i do not
have easy access to a supplier. Would BNC connectors be ok too?

Thank you,
Johann

True.

I just watched parts of Bumfights 2 and Bumfights 3. Basically, each a one-hour video of trailer trash fist-fighting with each other, males as well as females.

Each one of their votes cancels each one of yours. That bugs me, because they are almost certainly pro-Kerry.

Hopefully it will be a bad-weather day in the decision states. When the weather is bad, democrats don't turn out to vote as often. I guess that shows how much they care.

Now to keep this relevant, I will get to my point and add this:
Remember Monica-gate? Whenever I traveled to parts of Europe and Asia, I was constantly asked by people about Clinton and how Americans "feel" about what he did. Has anyone here ever gotten questions like that on the air?

Thanks, 73,
Dave

What difference does it make. IF the FCC is selling Ham down the tubes via the BPL and the ARRL was - 1. agreeing to it -or- 2. not powerful enough to stop it, it won't matter much longer. Soon Ham will be a bust, ARRL will be gone because there won't be a need for any members and so on. I dropped out of the ARRL a long time ago for a couple reasons. Personally, I think they got too big for their shorts, now they may have to eat them.

I met a couple of the losers who were voted in to be representatives. Man, they thought their shit didn't stink. Wonder what they'll do if the plug is pulled. They won't be able to act like big shots anymore.

It isn't necessary. I've seen enough of the damage that George Bush has
done to this country to know that ANYONE is preferable to him.

The corrupt bunch at ARRL HQ full well know their days are
numbered. ARRL is a shrinking organization, and with that in
mind, ARRL big wigs have been skimming off the profits for years.
Upper level ARRL types will enjoy a cushy retirement, at the
expense of all you suckers who have faithfully paid your sucker
dues each year. What is ARRL management's biggest fear?
A top to bottom audit by an unbiased outside accounting firm.

Remember incentive licensing? Remember cash contributions
to the HQ building fund in the 60s? Remember how the league
refused to bulk air mail QST to members in Hawaii?

Really? And have you taken the time to attempt to decode these
items? No, I didn't think so. Such a thing would never occur,
given your pea brain intellect.

Nothing is so ignorant as contempt prior to investigation.

73,

Lloyd

I have fixed the problem!!
The Q45 was burned out.
But when I was trying to put a new one,
I was putting it the wrong way!!!
So to All the owners of IC-706MKII:
If you short the pin1 to ground,
replace the big transistor Q45 located
at the PLL unit. and hop !!the TRX will power up
Thanks to everyone who did his best to help me

1890. To Decent Conservatives and Recovering Republicans:

Newsgroup: rec.radio.amateur.misc
Date: 2004-11-01 23:41:24 UTC
From: marklinbuyer@yahoo.com
Message-ID: <9075af62.0411011541.462bfec9@posting.google.com>
Source record: 55751

To Decent Conservatives and Recovering Republicans:

In your heart of hearts you know Bush is a miserable failure.
From having no plan on what to do in Iraq once he conquered Baghdad to the 380 missing tons of explosives that could be used to kill our brave young men and women, this guy doesn't have a clue how to fight and win a war. You should see the mail I've been getting lately from our troops over there. They know how much the Iraqi people hate them. They are sitting ducks anytime they go out on the road. Many believe we are not that far away from a Tet-style offensive inside the Green Zone with hundreds of Americans and Brits killed.
Bush refused to go after and capture Osama bin Laden. He fought, every step of the way, the investigation into the 9/11 attacks. Who on earth would oppose such a thing? If 3,000 people died at your place of work and your boss said we don't need to find out why or how it happened, he'd be thrown out on his ear. Bush's behavior after this great tragedy alone is reason enough for his removal.
You already know that George W. Bush is the farthest thing from a conservative. He's a reckless spender who has run up record-breaking deficits and the biggest debt in our history. He believes in having the government pry into everything from your library records to your bedroom. He has hit you with hidden taxes with his tax cuts for the rich.
I know many of you don't like Bush, but are unsure of Kerry. Give the new guy a chance. He won't raise your taxes (unless you are super-rich), he won't take your hunting gun away, and he won't make you visit France. He risked his life for you many years ago. He's asking for the chance to do it again. Scott McConnell at The American Conservative magazine has endorsed him. What more do you need?

1891. RFI from wireless 433Mhz systems ???

Why do you think the Bush bashing started? The Iraq fiasco is due
EXACTLY to contempt before investigation.

Thank you for noticing this fact of life.

"Lloyd" has been advertizing this:

My dearest fellow underaged child lover,

I am a fan of child pornography and for the past 14 years,I have been
able to gather quite a collection of it.
I have pictures, VHS tapes, posters, audio recordings, and games based
on child pornography.

I am selling my products (or trading for other child pornography).

I have a complete color catalog of all products now available. You can
purchase pictures (both normal kodak and computer JPEG's). Also, you
can purchase posters, VHS tapes, used boys underwear, and audio
recordings.

There are many products and services. Here are some prices:

Complete Color Catalog (160 pages).....$5.00
100 Pictures Little boys age 7-12.....$9.95
120 Pictures Little boys age 13-17.....$11.95
VHS tape, little boys "Bath Time for Uncle Lloyd".....$49.95
VHS tape, little boys "Happy B-day, Uncle Lloyd".....$49.95
VHS tape, teenage boys "Naked Pizza Party!".....$49.95
Personalized Audio tape.....$2.99

If you have child pornography, preferably little boys ages 7-9, I will
trade or buy them from you. If they are action shots, of an adult with
a little boy having sex, I am willing to trade big, or pay you a lot.
Please write to me for more details. Thanks.

You can send cash, checks, or money orders made out to FUN WITH
CHILDREN.

Please send your order to:

Fun With Children
c/o Uncle Lloyd
710 SOUTH CLINTON STREET #202

Wrong guess again, dumbfuck!

"breaddead" - LLoyd hasn't got anything upstairs in the oven

"defenseive" - Lardass is "defensive" of his ignorance

"counter-offenseive" - When LARDASS LLoyds attack

"nights" - Athens ASSHOLE was referring to last "night's" masturbation
session

"I forget to set the playlist in Winamp to repeat!" - Mongolloyd also
"forgets" the use of past tense, maybe he forgot!

"Techincal" - Lloyd just hates those "technical" things

"Dalkes" - Lloyd's granddad remembers when movies became "talkies" too
bad LARDASS learned to Dalk <sic>

"That it!" - When Mongolloyds get real mad, they talk like Tor Johnson

"Woger" - LARDASS closely identifies with Elmer Fudd with his lack of
hair and all

"decide on weather or not" - It's always "stormy weather" with Lloyd
deciding "whether" or not to use correct English

"can not" - Mongolloyd is wondering how he "cannot" seem to get ahead
in life

"is'nt" - "Isn't" LARDASS cute when he is mad?

"PAINFULL" - How LARDASS' bathroom scale feels when he steps on it in the morning, real "painful"

"I wish for Roger Wisemand" - Lloyd liked thosed thingd ford Rogerd

"alot" - Davies dreams he can communicate in English a lot

"thier" - Lavender Lloyd sure does lisp after a night behind the dumpster

"dont" - Lloyd says "dont", the rest of the world says "don't"

"Isreal" - Is FATASS Lloyd's retardation for real, or can he blame Israel?

"juist jelous" "extermenate" - A three for one post Athens Asshole axiom

"footting" - What LARDASS doesn't have, an equal "footing" anywhere

"Cant" - Emmanuel?

"th" - When Lloyd gets nervous, he stutte, er stutters

"enfighting" - Lloyd's two brain cells are infighting for control of his stupidity

"YOU STUPID JEW!" - Wasn't Jesus Jewish, so called Christian LLoyd?

"Tonite" - There's nothing in Lloyd's brain "tonight" or any night

"segmant" - What Lloyd's communications are, only sentence "segments"

"I just listening" - Too bad he doesn't listen to his poor English

"buffon" - The Athens, Alabama "buffoon" strikes again!

"museium" - Where LARDASS LLoyd keeps his "muse"

"nastey" - How everybody describes LARDASS' body stench, especially in the ghetto

"loose" - Lloyd's description of his spinchter muscles...

"wont" - Lloyd refuses to learn English, it's Lloyd's "wont"

"awhile" - It will be "a while" before Davies gets a clue

"freinds" - Lloyd's conglomeration of "friends" and "fiends"

"thier" - "There" just isn't any hope for LARDASS Lloyd "ill-educated" Davies

"backstabers" - Lloyd's version of the OJays' hit

"becuase" - Home of the "Deliverance Extras" spelling by LARDASS Lloyd

"obselete" - What LARDASS thinking is to him, others see it as 'obsolete'.....

"belive" - What fools like LARDASS Lloyd "believes"

"thier" - Ill-educated Xtian LARDASS Lloyd shows off his language skills!

"marshalls" - Mongolloyd spell "marshals" real good!

Wisemand - LARDASSd fucksd upd againd

"compay" - Mongolloyd never gets any female "compay," while others do get "company"

" But when we are winning," DUMBFUCK, YOU have NEVER WON anything in your miserable life!

"and do the nasty!" You don't really know what that means, do you, 30 year old VIRGIN?

"It's does" - Mongolloyd use good English

"momnet" - LARDASS Lloyd Davies misses his dead "momnet" for a "moment"

"seriuosly" - Lavender Lad President Mongolloyd wants to be taken "seriously" instead of "seriuosly"

"annouced" - Mongolloyd "announces" his stupidity again

"tonite" - Davies never lets his lack of education stop him from announcing to the world he's a fucking imbecile!

"nite" - When LARDASS Lloyd molests those kids he makes them say "nite, nite" at "night"

"weldare" - Calling Dr. Weldare, LARDASS needs his head out of his FATASS....put it on his welfare bill

"so fuck of" - When Mongolloyds who have man tits talk tough......

"fukcing funney" - Alabama deliverance extra Davies speak

"pictrue" - "Picture" yourself as a Davies Mongolloyd

"isseus" - Davies has "issues" too many to list here

"resortjng" - Is Lloyd from Finland?

"attsxks" - When LARDASS Davies "attacks" he uses illiteracy

"basturds"- What mental illness patient LARDASS Lloyd calls his nurses

"shkt" - Mongolloyd Davies' "Skittles", he likes that "Hershey rainbow"

"law suit" - LARDASS never leaves his HUD apartment with out his law suit

"opinionn" - When LARDASSn postsn whiln drunkn

"intrenet harrasssmint" - Tries to make LARDASS Lloyd's rotting teeth feel fresh

"sneeky" - The teachers always "sneaked" Lloyd through the next grade

"that' wasnet" - LLoyd was out that year of school that they went over English grammar

idiout! - "Lloyid" <sic> strikes out again!

"speling" - Mongolloyd Davies the "spelling" bee champ of the retards!

"reas isseus instaed" - Davies talking out of that cheap beer again

"atttacking" - LARDASS Lloyd stutters when he gets upset.....ttttt.....

"challegne" - When Mongolloyds drink and post

"metnal" - Mongolloyd just doesn't have the "mental" ability to debate......

"debste" - What Lloyd's mommy did to him in the bathtub

"cahllenge" - Mongolloyd speak for "call" and "challenge"

"basturds" - LLoyd ,Amanda's illegitimate "bastard" sure does have a scat fetish

"morsd" - Whend Daviesd drinkd andd postd

"wont" - It is Mongolloyd's "wont" to be stupid, "won't " you let him?

"youd" - Oops, LARDASS did it again!

"poinion" - Must be an Athens Alabama "Deliverance" thing

"Woger Wiseman"- LARDASS Lloyd's got that cocksucker's lisp

"isnt" - "Isn't" LARDASS cute when he slobbers?

"worfh" - Davies' cocksucking lisp has returned

"waset of spaceda" - When Lloyd's only friend Colt 45 malt liquor kicks in

"Oppulant" - The only thing "opulent" in LARDASS is that he is rich in ignorance

"obly" - LARDASS lisp from cocksucking shows when he tries to say his favorite fag artist "Moby"

"wood" - LARDASS LLOYD'S head "would" be made of "wood"

"dserve" - LARDASS lives in that ghetto where they say he sure does "dserve" those pizzas

"frum" - LARDASS LLOYD DAVIES wonders where his real father is "from"

"DISCUST" - Mongolloyd Davies' command of the English language is "disgusting"

"You worthless coward are scared of debating me." - Mongolloyd make good sentence

"jellous" - Most of LARDASS Lloyd's cellulite body is "jealous" of skinny, in shape people

"It just didn't wok out"
"wok out" - When LARDASS tried to stir fry those nutsacks for pizza topping, Pappa John's terminated him saying he didn't "work out".

"entact" - LARDASS' single brain cell isn't "intact" either.

"empahis" - Notice how LARDASS Lloyd's "emphasis" is always on his fucking stupidity.

"Fuck all fo you" - Christian LARDASS Lloyd showing that Jesus spirit.....

"bllod" - How LARDASS Lloyd spells "blood"

"did'nt" - LARDASS "didn't" do very well in school

"PLEASE by a clue" - LARDASS Lloyd's parents couldn't even "buy" him an education

"extrodinare!" - LARDASS is a moron "Extraordinaire"

"unsubsribe" - Mongolloyd Davies "subscribes" to the theory that ignorance is bliss...he must be in heaven

"Must've struck a cord" - LARDASS confuses his favorite sex fetish of tying his penis with a
light cord and masturbating to the word "chord".

"dumass" - Dumbass Davies trips and falls in shit again.

"Them two bigtime losers!" - Mongolloyd mentally ill Davies makes good sentence!

"straming" - Lardass usually has to wash his sheets from the "stream" of piss
when he wets the bed or not given his filthy HUD apartment

"surpassinf" - LARDASS is always "surpassing" his previous levels of stupidity.

"pleanty" - <guffaw!> "Plenty" of stupidity coming from LARDASS Lloyd.

"Cause i'll have law lock you up and throw away the key!" - Mongolloyd talk tough!

"pome" - When LARDASS WADSWORTHLESS Stubbyfellow writes a "poem"

"Once she here's my show" - Most people hears a show, LARDASS "here's" them!

"forgotton" - LARDASS has "forgotten" what he was taught in special Ed

"I want your seriousness" - LARDASS does his take on "I want your sex"

"I did'nt ask for your fucking grammer checking!" - LARDASS Lloyd revels in his ignorance!

"agrument" - When the voices in LARDASS Lloyd's mentally ill head collide they have an
"argument"

"craetive" - Mongolloyd Davies isn't very "creative" with his stupidity, however.

"You could have posted it, for we know!" - LARDASS make good sentence!

"bottem" - Mongolloyd likes those little boys' "bottoms" from hanging with Steve Holsten

"James Wickstrom talked about tonite that out threre, thier Sherriff's department" - Mongolloyd
shows off those Pulitzer prize writing skills.

"bring yer cents" - Mongolloyd show how he flunked out of school because he had no "sense"

"You peeks out" - LARDASS Lloyd and stupidity a symbiotic relationship.

"Be thier" - LARDASS Lloyd make good sentence!

"If you pussys have balls you confront me!!! Deep down you are scared of me. You our jellous
because I am the great almighty Time Lord!!!!
The Time Lord always wins in the end." - Does it really need to be said about Mongolloyd Davies?

"yerself", "hisself" - LARDASS picked up his language skills or lack thereof from the
niggers his mommy Amanda serviced.

"I lost TEN POUNDS on my diet simce first of the year!" - Too bad LARDASS didn't gain any language skills

"The best Amatuer Radio talk show ever!" - Chosen 5 to 1 over literacy by other ill-educated morons and Mongolloyd

"All of my Daleks have been dispached!" - Too bad some extra brain neurons haven't, Mongolloyd.

"satillite" - When LARDASS met the space between his ears

"Tuseday" - LARDASS' usual day to wear his pink tutu

"I am 210 punds now!" - LARDASS lies and fucks up again!

"jelous" - LARDASS Lloyd is "jealous" of those who can spell, read, and write.

"peoples" - LARDASS Lloyd the "people's" choice of the Biggest L-O-S-E-R!

"curtians" - LARDASS LLOYD DAVIES uses those "curtains" in his filthy apartment as a
masturbation rag

"depsised" - Mongolloyd Davies, who the entire real ham community has "despised" for his lack of ability
to pass a simple 5 wpm code test or General theory

"sicker" - When Lloyd Davies has a mouth full of cum he can't say "sticker"

"liceneses" - Mongolloyd Davies has one of those exclusive "licenses" on stupidity

"isseus" - LARDASS has "issues" with people of intelligence.

"conquor" - Mentally ill LARDASS Lloyd has yet to "conquer" his obesity and mental illness

"crakheads" - Retard Davies make good sentence!

"servent" - Roger Wiseman's willing "servant" makes another gaffe.

"lesibens" - When Benjamins take the wild side...the "lesbians" don't care, though!

"Los Angles" - Mongolloyd has the wrong "angle" about "Los Angeles"

"busses" - Do they take the motored "buses" or do they take the

"thier" - You say "their," Lardass says "thier".... to-may-to, to-mah-to.....

"eductional" - LARDASS Lloyd's writing is "educational" on how severe illiteracy is in his family.

"She sounded like she really whappy to here from me." - Mongolloyd get rejected again!

"This is morning I weigh at 207 pounds. This should prove to you, that I can succeed if I put my
mind to it. I know some your stupid critics can't see that, but I'm not here to please you." -
- LARDASS makes the "huh?" factor rise.

"This looks much more like sexy Lloyd" - Porky Pig lookalike stubby tubby Davies dreams
he looks like a skinny, tall Billy Zane

"I figured you the thought of me owning..." - Lardass dreams the impossible dream of thought

"I took you a long hour and a several minutes..." - Too bad LARDASS Lloyd didn't take and pass English

"I get a laugh over you!" - Mongolloyd make good sentence!

"did'nt" - "Didn't" Lardass ever pass any school subject?

"Proves to show" - Lavender Lloyd proves he is an imbecile

"It' paid off" - Alcoholic LARDASS Lloyd's bar and utility bills never are though.

"I wear if with" - Davies wears his stupidity well

"You need to get al ife and a job." Mongolloyd retardo Davies needs to get English lessons and
not dream of an "Al ife" with "Al Queda"

"I've never fucking pretending attorneys!" - LARDASSclown Davies never had to pretend to be stupid, either!

"...what your life must me like..." - Mongolloyd's life of pizza delivery and trashcan robots is really something
to want, too, isn't it?

"manor" - Lardassclown Davies' "manners" are like those of a hog....

"Christien" - Poor LARDASS Davies, he's shows why ignorance is bliss in the eyes of the Lord.

"reely" - Mongolloyd Davies is "really" stupid, isn't he?

"please don't imposter me more" - Mongolloyd make good sentence!

"distastful" - A description of LARDASSCLOWN DAVIES' eating habits.

"commnet" - Most people make "comments," ill-educated Lloyd Davies makes "commnets".

"None of you refuse to tell me who you are." - Huh, Mongolloyd?

"Millinium" - Even after a "millennium" LARDASS couldn't be smart!

"afriad" - LARDASSclown Davies isn't too smart, I'm "afraid"

"powerfull" - Mongolloyd Davies sure has a "powerful" command of the English language.

"conquor" - Lardass Lloyd has yet to "conquer" his idiocy.

"I always new that your stupidity would trip you up, Mr. Wiseman." - I just "knew" Llardass Lloyd couldn't pose as "Christy Davies" without fucking it up and outing himself.

"I have given it some though and decided to come back" - Mongolloyd has never given anything any "thought." (from another "I'm leaving" speech/lie)

"usaul" - As "usual" Lardass lloyd Davies fucks up!

"Secwet Woger " Llardass Llavender Llad Lloyd's been sucking so many cocks he's got a lisp!

"douters" - Even though he has his "doubters", it's "doubtful" Llardass Lloyd has an I.Q. over 70.

"bypolar" - Mongolloyd Davies is a "bipolar bisexual".

"desperite" - Lardass Lloyd is so "desperate" to win at something, anything.

"situtation" - Most people get in "situations, " but not our total fuck-up Lloyd.

"aholt" - Lardass Lloyd usually gets "a hold" of himself on a Saturday night, since he has no date!

"mysteriuos" - Mongolloyd Davies, "mysterious" survivor of a coat hanger abortion attempt.

"I've did" - Most people say " I did"

"Woger" - When cocksucking, lisping fags try to say " Roger."

"for sometime" - Lardass has been a mentally ill retard "for some time" now.

"mommie's" - When Mongolloyds say "Mommy's" as in "Mommy's house."

"drop out" - Lloyd was a High school and college " dropout."

"backpedalling" - "Backpedaling" is what Lardass does a lot of.

"Maybe two years back" - Mongolloyd speak.

"outted" - Lardass Lloyd's illteracy at work.

"I've riddled Woger for years as Arf! Arf!" - (Mongolloyd is Arf!Arf!)

"self esteme" - One thng is for sure, Lardass has it..."low self esteem," that is.
"short comings" - Lardass has many, many "shortcomings."
"yahoo" - Lardass always goes into the "Yahoo!" gay chat rooms.
"The truth hurts you see" - So does reading your mangling of the English language, Lardass.

"His stupidity can not be disguised for long." - Lardass' stupidity "cannot" be disquised at all.

"entireity" - Lardass is the embodiment of stupidity in its'
"entirety."

"bothe" - Lardass is "both" stupid and retarded.

"got hime" - Lardass has got "him" a case of the dumbass!

"evelope" - Mongolloyd pushes the stupidity "envelope" to the max.

"chiicken" - Lardass Lloyd should eat more "chicken" instead of
leftover pizzas.

"dont" - "Don't" ever improve your English skills, Lardass!

"likign" - Huh? More Mongolloyd Ebonics.
"you ignorant spawn of satin" - Lardass ironically confesses his love
of wearing lace!

Mongolloyd make good spells!

"shkt" - Mongolloyd Davies' "Skittles", he likes that "Hershey rainbow"

"law suit" - LARDASS never leaves his HUD apartment with out his law suit

"opinionn" - When LARDASSn postsn whiln drunkn

"intrenet harrasssmint" - Tries to make LARDASS Lloyd's rotting teeth feel fresh

"sneeky" - The teachers always "sneaked" Lloyd through the next grade

"that' wasnet" - LLoyd was out that year of school that they went over English grammar

idiout! - "Lloyid" <sic> strikes out again!

"speling" - Mongolloyd Davies the "spelling" bee champ of the retards!

"reas isseus instaed" - Davies talking out of that cheap beer again

"atttacking" - LARDASS Lloyd stutters when he gets upset.....ttttt.....

"challegne" - When Mongolloyds drink and post

"metnal" - Mongolloyd just doesn't have the "mental" ability to debate......

"debste" - What Lloyd's mommy did to him in the bathtub

"cahllenge" - Mongolloyd speak for "call" and "challenge"

"basturds" - LLoyd ,Amanda's illegitimate "bastard" sure does have a scat fetish

"morsd" - Whend Daviesd drinkd andd postd

"wont" - It is Mongolloyd's "wont" to be stupid, "won't " you let him?

"youd" - Oops, LARDASS did it again!

"poinion" - Must be an Athens Alabama "Deliverance" thing

"Woger Wiseman"- LARDASS Lloyd's got that cocksucker's lisp

"isnt" - "Isn't" LARDASS cute when he slobbers?

"worfh" - Davies' cocksucking lisp has returned

"waset of spaceda" - When Lloyd's only friend Colt 45 malt liquor kicks in

"Oppulant" - The only thing "opulent" in LARDASS is that he is rich in ignorance

"obly" - LARDASS lisp from cocksucking shows when he tries to say his favorite fag artist "Moby"

"wood" - LARDASS LLOYD'S head "would" be made of "wood"

"dserve" - LARDASS lives in that ghetto where they say he sure does "dserve" those pizzas

"frum" - LARDASS LLOYD DAVIES wonders where his real father is "from"

"DISCUST" - Mongolloyd Davies' command of the English language is "disgusting"

"You worthless coward are scared of debating me." - Mongolloyd make good sentence

"jellous" - Most of LARDASS Lloyd's cellulite body is "jealous" of skinny, in shape people

"It just didn't wok out"
"wok out" - When LARDASS tried to stir fry those nutsacks for pizza topping, Pappa John's terminated him saying he didn't "work out".

"entact" - LARDASS' single brain cell isn't "intact" either.

"empahis" - Notice how LARDASS Lloyd's "emphasis" is always on his fucking stupidity.

"Fuck all fo you" - Christian LARDASS Lloyd showing that Jesus spirit.....

"bllod" - How LARDASS Lloyd spells "blood"

"did'nt" - LARDASS "didn't" do very well in school

"PLEASE by a clue" - LARDASS Lloyd's parents couldn't even "buy" him an education

"extrodinare!" - LARDASS is a moron "Extraordinaire"

"unsubsribe" - Mongolloyd Davies "subscribes" to the theory that ignorance is bliss...he must be in heaven

"Must've struck a cord" - LARDASS confuses his favorite sex fetish of tying his penis with a
light cord and masturbating to the word "chord".

"dumass" - Dumbass Davies trips and falls in shit again.

"Them two bigtime losers!" - Mongolloyd mentally ill Davies makes good sentence!

"straming" - Lardass usually has to wash his sheets from the "stream" of piss
when he wets the bed or not given his filthy HUD apartment

"surpassinf" - LARDASS is always "surpassing" his previous levels of stupidity.

"pleanty" - <guffaw!> "Plenty" of stupidity coming from LARDASS Lloyd.

"Cause i'll have law lock you up and throw away the key!" - Mongolloyd talk tough!

"pome" - When LARDASS WADSWORTHLESS Stubbyfellow writes a "poem"

"Once she here's my show" - Most people hears a show, LARDASS "here's" them!

"forgotton" - LARDASS has "forgotten" what he was taught in special Ed

"I want your seriousness" - LARDASS does his take on "I want your sex"

"I did'nt ask for your fucking grammer checking!" - LARDASS Lloyd revels in his ignorance!

"agrument" - When the voices in LARDASS Lloyd's mentally ill head collide they have an
"argument"

"craetive" - Mongolloyd Davies isn't very "creative" with his stupidity, however.

"You could have posted it, for we know!" - LARDASS make good sentence!

"bottem" - Mongolloyd likes those little boys' "bottoms" from hanging with Steve Holsten

"James Wickstrom talked about tonite that out threre, thier Sherriff's department" - Mongolloyd
shows off those Pulitzer prize writing skills.

Source record: 55770

The Daily Blabster

-- AMERICA DECIDES -- QRZ SILENT -- K1MAN NERVOUS --

A request for a comment from
Fred Lloyd, editor at QRZ, on
why Glenn Baxter has been purged
from the QRZ database like a
jelly donut from the mouth
of a bulimic high schooler,
remained unanswered today as
millions thronged Americas polling places in hopes of sending Hanoi
John and his African American
bride back to the land of
Waffles and Botox, while others
simply chanted "One More Day."

Meanwhile, the US Dept. of Justice
and the FCC vie for jurisdiction
on Ham Radios newest scandal.
Does Glenn Baxter
(Mike Wallace Wannabe) have the
right to ignore state and
federal law by broadcasting
the contents of his answering
machine?

Will his next letter from the FCC contain a notification that his
license has been designated for non-renewal, or simply a revocation notice?

The AM community and all of Hamdom
were outraged in Mid-October when
K1MAN jammed 60-80 Boy Scouts on
80 meters during their Jamboree On
The Air. Baxters response
- blaming the Boy Scouts,
and laughing about
the QRM - mobilized Hams to
flood Riley Hollingsworth with
a stack of complaints regarding
the bloated broadcaster
from Maine. Following this
debacle, Baxter chose
to disclose the contents
of his answering machine over
amateur radio, despite the

protests of at least 3 hams
who specifically asked him not
to do so.

This outrage occurred on the
heels of a tape malfunction
that left a carrier in
the middle of 75 meters
for nearly 3 hours.

The Ham community is now in
open rebellion against the
obnoxious offender, as they
ridicule and revile Baxter on
the air.

Despite amateur distaste for
his steady diet of lies,
misperceptions, and audiotape,
Baxter claimed he was recalling
Rich Whiten from the
bench, where he has apparently been
warming up as Baxters co-host.

Hams will best remember Whiten for
his alleged colorful language
while describing people of color
as Brillo Heads, Niggers, Jungle Bunnies, Porch Monkeys and Spear Chuckers.

Stay tuned for updates from
Blabster HQ, your alternative
to K1MAN

Recently purchased a used (but in excellent condition) FT-1000 MK 5
with MD-200.

I am having trouble setting up the microphone, and am told my TX audio
is FLAT.

What are the best settings with this mic and radio, ie:-

What menu settings should be changed and to what value?

Where should the PROC knob be turned to, and also the MIC knob?

On the bottom the the mic is a switch, which way should it be set?
Also inside the mic is a rotatable control - again, how should this be
set?

Thanks for your help in advance.

Best Wishes...

Hello, Lloyd

Unfortunately, flame-wars can erupt over sensitive subjects and if someone is drawing attention to himself and/or his actions which some may find exceedingly objectionable, there comes a time when an owner has to make a decision. Either the person has to go or the site itself may end up going. Easy choice.

Best regards from Rochester, NY

A Newbie shouldn't have a FT1000MP.......but then again it's like any other hobby now...go out and buy a load of expensive equipment...get fed up...sell it and move on to next hobby ...do it all again.....

Hopefully lots of cheap second hand stuff going to be on Ebay then.
I still want my old TS520 back.
Analogue display, but very clean output and it even ran off 12V so you coul
duse it in the car.

I would second Chaney's suggestion except the I leave 4.4 at 1 to avoid
sounding like a Darlek.

http://www.va3cr.net/ has loads of pages of suggestion for the MP and MkV.
You can mess around with the offsets ad infinitum to adjust your audio.

Turn off the processor and set the mike gain so that voice peaks hit the
marker on the ALC part of the bargraph, then turn the processor back on, set
at 11 o'clock.

I also agree with the general theme of the thread - why are you using an
FT1000MP MkV as a first radio? Seems nuts to me.

Nick G4FAL

Sounds dramatic, but it's a patently false premise. If qrz.com knows anything at all about configuring their server, they also know how to limit anyone's ability to post information to their site. K1MAN, for example, could be left in the data base as a read-only entry and could be disallowed from posting (if that's how the alleged abuse took place).

K1MAN, on the other hand, can continue to abuse if he really wants to by means of false identities or by convincing other users of qrz.com to post material he has authored. K1MAN is not doing that, which tells you who is taking the high road.

Sure qrz.com is a private site, and the owner(s) can do what they want with it. But telling lies about why they are taking a particular action is quite another thing.

Hello everyone:

I recently picked up a used yaesu FT-767GX and it appears a 25khz/100khz calibrator is on all the time.

I'm unable to find any switch to turn that function off and i never received a manual for the radio.

Does anyone here in the group/s know how to turn the calibrator OFF ??

Any help would be greatly appreiated.

I have the processor at 10:00 and the mic gain at 12:00...4:4 set at 3...and I use a Heil headset pro-plus...the radio is fully loaded with all filters switched on...

The best way to set a MkV is to find a Yank on 20m using one...call in to him...if your settings are not to his satisfaction he will spend hours with you helping you to get it right...have you ever heard anyone from across the pond with a MkV that doesn't have audio you would die for!!!...

Or...if you ever hear me on 40 give me a call and I will run through the settings with you...my settings are no where near the factory settings...never be frightened to play in the menu you can always return to default...

1952. QRZ and K1MAN

Newsgroup: rec.radio.amateur.misc

Now that Fred (thanks) has removed the Belgrade Lakes Bozo from the QRZ database, it's time to keep cleaning house.

Fred, also remove the notorious splattering ND8V, the self proclaimed 14.275 Freq Policeman, who can't seem to locate the mic gain settings on his transceiver, from Kalamazoo. His actions are as illegal as K1MAN's.

WD4AWO, another jammer, who can't even address and envelope (read his QRZ Bio), has a puny signal though, and isn't too brite.

WA9KJI, the well known racist from Evansville, IN.

VE7KFM, need I say why????

K3VR, well this guy is just an idiot without much of a signal, but likes to keep shit stirred up.

K1KW, professional asshole.

I'll add more later.......

Its fred's box and he can run it any way he sees fit. he donates time and services on that box and has to pay for it out of his own pocket (plus some sales of software carried there).

if you don't like it, start your own. we'll see just how fast you start going the same route after a few run-ins with the netkooks.

from experience: being an administrator is a damned hard job. it takes a lot of time and, for the most part, things work well. However, its all the details involved that can give a person ulcers (as well I know this!).

so, unless you are willing to put up the $$$ for co-location facilities, provide the server box, install the software, manage the accounts, clean things up, and keep up the maintenance, you might as well STFU (or SYFM).

otherwise, all you do is come off looking foolish.

Well, Fred did leave Baxter's info in the 2004-2005 (Vol 24) QRZ Callsign Database. So, for the price of a CD one can find out where to send your letters of approval to this sore spot of American amateur radio. Buckmaster has K1MAN listed with some interesting info on his QSL manager - plus the following disclaimer: "Some or all of the information displayed here for K1MAN has been added to the HamCall database by an online user and has not been reviewed by the HamCall editors. This unverified data is shown in parentheses ( ) and in red type (on browsers which support font coloring). Due to the volume of updates we receive daily, verification can take some time. Please do not e-mail us about unverified data, we will contact you if neccessary."

When you try to start a dominance battle without having read the rest of the posts in the thread, you only serve as an illustration of the problems over at qrz.com. I'm not impressed by your posturing as an "administrator" - whatever you think that is.

But I'll repeat part of what you obviously haven't read: Any administrator worth his salt knows how to deal with abuse in an almost invisible way. Making the K1MAN entry read-only is a trivial starting point. Completely removing all information looks like a revenge move and makes the owner look petulant.

So as Fred stomps his tiny feet and has multiple temper tantrums about his users, he simultaneously drives his audience away to more professional sites.

It's called "competition." It always weeds out those who are unfit. Perhaps that description now applies to qrz.com.

Now that Fred (thanks) has removed the Belgrade Lakes Bozo from the QRZ database, it's time to keep cleaning house.

Fred, also remove the notorious splattering ND8V, the self proclaimed 14.275 Freq Policeman, who can't seem to locate the mic gain settings on his transceiver, from Kalamazoo. His actions are as illegal as K1MAN's.

WD4AWO, another jammer, who can't even address and envelope (read his QRZ Bio), has a puny signal though, and isn't too brite.

WA9KJI, the well known racist from Evansville, IN.

VE7KFM, need I say why????

K3VR, well this guy is just an idiot without much of a signal, but likes to keep shit stirred up.

K1KW, professional asshole.

I'll add more later.......

The question is in the subject line ;-)
The UK model only goes upto 7.1Mhz.. and now the band has opened upto
7.2Mhz.. I need to mod the rig without wideband TX.

Many things are legal that are not ethical or right. "Legal" just means you
probably won't go to jail for it, not that it's OK to do.

Amateur Radio Newsline™ Report 1421 November 5, 2004

Amateur Radio Newsline report number 1421 with a release date of Friday, November 5th, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. AMSAT says that the U Oh 22 ham-sat is dying and Israel says it may do away with Morse testing. Find out the details on Amateur Radio Newsline report number 1421 coming your way right now.

(Billboard Cart Here)

**

HAM RADIO IN SPACE: UO-22 MAY SOON BE S.K.

AMSAT U-K says that the UO-22 ham radio satellite is not in good shape, and its looks as though its useful life may be over. Bill Pasternak, WA6ITF, has more:

--

The AMSAT News Service which brought the first worked of the problem says that the cause if the satellite's demise is unknown. Bit says A-N-S, it may be related to problems with the satellites batteries which have been in space for more than 10 years.

UO-22 was launched in July 1991 from Kourou, French Guiana. It served for many years as the store and forward satellite for Amateur Radio packet and the world wide Sat Gate service. The latter is a linked series of packet radio networks in many countries.

The Ground Station control center at the University of Surrey has attempted several times in recent weeks to reactivate the UO-22 After one attempt it did come back to life, but only briefly. Other attempts have failed completely.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF, reporting.

--

As time permits, the Control Station at the University of Surrey may make further attempts at reviving the ailing bird, but says AMSAT U-K it seems unlikely that they will be completely successful. (ANS)

**

HAM RADIO IN SPACE: PC SAT RECOVERY SUCCESSFUL

Meantime, better news about another ham radio satellite. The P-C Sat ham radio bird continues to work perfectly following it's recovery two weeks ago.

To use P-C Sat, just QSY your APRS mobile station to 145.825 during a pass. You should not have to change any parameters. PCsat digipeats the aliases of RELAY and WIDE just like terrestrial digipeating. (ANS)

**

RESTRUCTURING: ISRAEL MAY DROP CW REQUIREMENT

Back on Earth, word that the state of Israel may be the next nation to do away with Morse testing. At least the possibility has been raised in the latest issue of the Israel Amateur Radio Club's English language publication Hagal International.

In a brief statement in the latest on-line edition, the magazine says that a proposal to abandon Morse testing has been raised by the nations Ministry of Communications. The publication notes that many European countries have been dropping the Morse requirement and that it expects to see a rather heated discussion among Israeli hams once the Ministry opens the debate for public discussion.

At the moment Israel maintains a 5 word per minute Morse testing requirement for access to the High Frequency bands. But it is also a signatory to the pan-European C-E-P-T licensing agreement and tends to abide by whatever regulations C-E-P-T adopts for its member nations.

More on what's happening in Israeli ham radio is on line at www.iarc.org (Hagal International)

**

REFARMING THE BANDS: FCC RELOCATION OF FEDERAL USERS INCLUDES SOME AMATEUR 2.3 GHz SPECTRUM

Meantime, here in the United States, the FCC has acted to include the first five 5 megahertz of the 2390 to 2417 MHz Amateur Radio Service primary allocation that it has opened up to accommodate federal users shifted from other bands. According to the ARRL Letter, the reallocations, which also involved non amateur spectrum at 2 GHz are aimed at making room for A-W-S or advanced wireless services including so-called third-generation wireless systems. In making the announcement the FCC said it worked with the US Department of Defense and the National Telecommunications and Information Administration to allow for relocation of critical military and other operations into the 2360 to 2395 MHz band. (ARRL)

**

RESCUE RADIO: DISASTER NUMBERS FOR 2003

If you are involved in emergency communications, these numbers will be of interest to you.

According to the International Federation of Red Cross and Red Crescent Societies, natural disasters killed 76,806 people in 2003. This is three times the number of victims than died in 2002 with the rise due in part to extremes in the global climate.

The joint society report noted that an earthquake that killed 31,000 people in the Iranian city of Bam and a heat wave in Europe that killed 35,000. They say that these were major contributing factors in the higher toll victim toll.

All of this is a good reason for hams to be prepared for any emergency situation. Here in the United States the best way is by signing up for one of the many communications training courses offered by the American Radio Relay League. Just visit their website at www.arrl.org to find out what's available to you right now. (ARNewsline(tm)) from information from International Red Cross and ARRL)

**

TELECOMMUNICATIONS LAW: RADIO DISTRACTED DRIVERS REDUX

Some good news for those of you who operate mobile. The head of the National Transportation Safety Board says that education rather than legislation is the best approach to getting people to minimize distractions including cellular telephones when they get behind the wheel of a car.

At a recent press conference National Transportation Safety Board Chairperson Ellen Engleman-Conners said there still are no definitive studies showing that talking on a cell phone is more dangerous than any number of other motorist activities. This includes such activities as eating, reaching for a drink or adjusting the car radio.

Last summer, federal regulators announced new guidelines for states to follow when reporting crashes. Investigating agencies are now asked to say whether the driver was distracted and if that distraction was caused by a cell phone, a two-way radio, or something else.

Engleman-Conners says that having the ability to call is a safety issue and cited the example of a 16-year-old girl who's driving home from the library late at night and has a flat tire. Engleman-Conners said people are more likely to embrace safety measures if they're educated about why they are important.

New York, New Jersey, the District of Columbia and a growing number of cities and towns are prohibiting drivers from using cell phones without hands-free devices. (NTSB reports)

ENFORCEMENT: SOCAL HAMS CLAIM EX-KG6IRO JAMMED EMERGENCY COMMS

From the some people never learn department comes the latest on Jack Gerritsen, the ex KG6IRO. The same Jack Gerritsen whom the FCC has recently told to pay a $10,000 fine for operating without a license.

And you would think that would be enough to catch anyone's attention. But hams on one Los Angeles area repeater say that even with this fine facing him that he, or someone claiming to be him, recently jammed ham radio communications of an emergency at sea. And this time the United States Coast Guard is involved. Amateur Radio Newsline's Bruce Tennant, K6PZW, has the latest:

--

The story starts with Al Geiger, KG6FB, sailing solo to Guadalupe Island on his 36 ft. sloop, following another boat which was about 20 miles ahead of him. On Tuesday night, October 26th they were caught in a bad storm. Al turned back when he lost his Jib sail in the high winds.

Both his VHF marine radio and his 2 meter ham radio amplifier had failed. Without his VHF marine radio, Al lost contact with the other boat.

The alleged jamming incident happened on the Catalina repeater on Friday morning, October 29th. The Coast Guard group in Los Angeles was interested in obtaining any information that KG6FB had about the other boat. So it had Bill Scholz, W1HIJ, who is the District Communications Officer for the Coast Guard Auxiliary, try to contact Al on the Catalina Repeater.

The QSO between KG6FB and W1HIJ started at 10:02 AM and continued off and on through about 11:40. The person alleged to be Jack Gerritsen showed up after the traffic began and refused to clear the frequency. Luckily, a tape recorder was going and here is a small part of what happened. The first voice you hear is that of Bill Scholz, W1HIJ followed by that alleged to be former ham Jack Gerritsen. This was recorded using VOX, so any dead air is missing.

--

W1HIJ: Wiskey One Hotel India Juliet, Coast Guard Auxiliary Upland Radio 1. This frequency is in use for emergency communications. This frequency in use for emergency communications. Please remain

off he frequency. This is W1HIJ, Upland Radio 1 out."

Unidentified Transmission: "Yeah whats your phone number. Ive never heard any emergencies on this damn frequency. You ever heard of 911 stupid?"

Repeater: "beep"

--

The station believed to be Gerritsen continued on. Not only did he pester W1HIJ verbally. He also played what can best be described as political recordings over and over again.

Soon, other stations believed to have come over from the 147.435 MHz repeater -- the one calling itself the "Animal Farm" -- also appeared on the Calalina machine. They began taunting and jamming the station believed to be Gerritsen, tying up the Catalina repeater frequency much of the time. The combined garbage made it impossible to continue the passing of emergency traffic and it was not until much later in the day that the other boat was confirmed as having arrived at Guadalupe Island, and that KG6FB had made it safely to Whites Landing.

Copies of the full recording of this incident have reportedly been forwarded to several government agencies that handle malicious interference to ongoing emergency radio traffic. We will have to see of any of them follow up on this one.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

Another ham, Tim Thompson, W6DCE, provided us with whats purported to be a phone message left on Gerritsen's answering machine by local FCC inspectors. The investigators reportedly went to his house on a complaint from the Coast Guard to perform a station inspection but were refused entry. On the recording they urge the person inside to permit them in. This, to avoid added fines or possible arrest.

You may recall that the last person prosecuted for bothering an emergency communications service was Rajib Mitra, of Brookfield, Wiisconsin. As reported here on Newsline, last June Mitra was convicted under the United States "Patriot Act" of interference to the communications of a local police department. He was sentenced to 8 years in a Federal prison for that crime. (ARNewsline (tm) with infrormation from K6PZW, W1HIJ, W6DCE, others)

**

ENFORCEMENT: YOU CAN'T OPERATE THERE

A pair of hams who operated the wrong part of 20 meters have caught the eye of the FCC enforcement folks. The agency's Daryl Duckworth, NN0W, has the details:

--

Duckworth: "Two warning notices went out for operation on 14.010 MHz. The first went to K0HUU, Donald Mullen, of Springfield, Missouri, for operation outside General class privileges. The second went to W6QEU, Peter Onnigian, of Sacramento, California, for operating outside Advanced class privileges."

--

Both operators were advised that such operation my lead to revocation of their licenses or to a monetary forfeiture. Also that no renewal or upgrade application will be considered until this matter is resolved. They were given 20 days from the October 18th date of the FCC's letter to them to respond. (FCC, RAIN)

**

ON THE WEB: QRZ.COM WEBSERVER DE-LISTS K1MAN

A popular ham radio callsign webserver has removed the listing of International Amateur Radio Network net manager Glenn Baxter, K1MAN, from its database. In a posting to his own QRZ.com website, owner Fred Lloyd, AA7BQ, says that he took the action because the staff at QRZ reached the collective opinion that K1MAN does not represent a view of amateur radio activities that is conducive to the furtherance of the hobby. His words -- not ours.

Lloyd has also started what he calls an informal survey of QRZ.com users to get their feelings as to whether or not this is the right course of action. As of Wednesday, November 4th, some 387 hams say that they support QRZ's decision to de-list K1MAN while only 19 feel the listing for Baxter should remain.

You can follow this one for yourself. Its on-line at www.qrz.com (QRZ.COM)

**

TOWER PROBLEMS: EXPLOSION ROCKS TEXAS TRANSMISSION TOWER

Remember our recent story about a fire bug in the Pacific Northwest burning down radio towers. Fires that cost one ham his home. Well that fire bug still has not been caught and authorities are still looking for leads in the case.

And while we do not know if there is any connection, but news reports say that Federal investigators are now looking into the circumstances surrounding an explosion at a power line transmission tower near Dallas, Texas on October 27th. The reports say that one leg of the support structure appeared to have been severed in two places.

Agents from the Federal Bureau of Investigation, the Bureau of Alcohol, Tobacco and Firearms, along with local police, are investigating. (Published reports)

**

TOWER PROBLEMS: VANDAL FELLS TWO TOWERS IN TEXAS

But that's not the only tower vandalism to report this week. Another instance is in Milwaukee, Wisconsin where a company that owns two power transmission towers that were deliberately toppled two weeks ago says that it is willing to pay big bucks to have the person who did it put behind prison bars.

The American Transmission Company is offering a $10,000 reward for information that leads to the arrest and conviction of those responsible for the criminal act that left 17,000 customers without electrical service. News reports in the one say that a person or persons unknown removed the base bolts from the eighty five foot towers causing them to tumble.

American Transmission says that it is installing two temporary wooden structures to support the downed power lines until such time as replacements can be put in. Meantime investigators want the person behind these criminal acts behind bars before he or she strikes again. (Published reports)

**

THE HAM BUSINESS CENTER: NEW RELEASES FROM CSS

From the ham radio business world comes word that Creative Services Software of Muscle Shoals, Alabama has announced the release of PacTerm 3 for Windows and P k Term 3 for Windows for preview. This latest software includes a new user interface in a single window, a built in generic logging program, the M T 63 soundcard mode, a PSK 62.5 mode, TCP/IP support and much much more. Both programs include a 30 day full featured demo version, so hams and MARS users can try before they buy. Creative Software Services is on the web at www.cssincorp.com (CSS)

**

THE SOCIAL SCENE: GREAT LAKES SUPER SWAP IN MICHIGAN IN NOVEMBER

Meantime, the combined 2004 Great Lakes Super Swap and ARRL Michigan State Convention takes place November 5th and 6th at the Harbor Lights School in Holland, Michigan. For more information on this fun event take your web browser over to www.hollandarc.org and click on the words swap info. (Via Internet)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

**

THE SOCIAL SCENE: HAMVENTION(r) ANNOUNCES 2005 THEME

"Bringing Hams Together From Around The World" will be the theme of the next Dayton Hamvention now slated for May 20th to the 22nd of 2005. The announcement was made this past week by the events General Chairman Gary Des Combes, N8EMO, who added a personal thank you to everyone who made suggestions and helped to select this theme. Des Combes said that all of these efforts were very valuable and sincerely appreciated. More information about Hamvention 2005 is on the World Wide Web at www.hamvention.org (Hamvention (r))

**

A HELPING HAM: GET WELL WISHES TO W4TBU

If you read the QCWA Journal, then you may remember an article about "Ultimate Elmer" Shirley Wilkerson, Jr., W4TBU, that appeared in the winter 2003 edition. A ham who loves sharing the hobby with others.

Now, Tom Webb, W4YOK, says over the QCWA remailer that Wilkerson, who is his close friend and personal Elmer, is seriously ill and confined to a hospital.

Tom says that Shirley is 84 years old and the situation has him depressed and he is refusing treatment. Tom says that this is so unlike Shirley who he describes as a person who loves life so much. And W4YOK says that hearing words of encouragement from the ham community might really help.

So we are going to ask that you take a moment, write out a QSL or post card and send it to W4TBU. Tell him how much you appreciate what he has done to make ham radio a better place.

Send your card to Shirley Wilkerson, Jr., W4TBU, Room 314, Community Methodist Hospital, Henderson, Kentucky, 42420.

Hams traditionally support one another in time of need. This is one of those times. (W4YOK, QCWA)

**

HAM RADIO IN SPACE: FINNISH CONTACT SUCCESSFUL

Students at a Senior High School, in Pori, Finland, spoke to cosmonaut Yuri Shargin, on October 19. They were able to ask 12

questions before the International Space Station went over the horizon. Students, teachers and members of the media attended the event. (ARISS)

**

WORLDBEAT - AUSTRALIA: COST PROHIBITIVE TO KEEP REPEATERS ON THE AIR

Several repeaters down-under are now off the air. This after Australia's telephone provider Telstra put site rental beyond the economic reach of ham radio. Felix Scerri, VK4FUQ, of the WIA News Service reports:

--

From 22nd October the UHF repeaters co sited on the Black Mountain Telstra Tower in Canberra have been removed from service. Telstra recently carried out an audit of the site and discovered there was no rental agreement that could be found for this ham gear to be on site.

After negotiations with Telstra, the rental offer made by Telstra is beyond the economic resources of the Canberra Region Amateur Radio Club and, sadly they had no option but to remove the equipment by Today October 31st .

Better news however is at Black Hill the ACT's 146.900 MHz service is on air however it may subject to further interruptions. Following last years bush fires there has been a considerable amount of work done by the Tibinbilla tracking station staff to get the site fully operational. The task of the refurbishment and repairs is almost complete.

--

The repeaters that lost their home operated on 438.025 MHz and 439.950 Mhz. They served the greater Canberra area. (WIA)

**

WORLDBEAT: UK 5 MHZ BEACONS COMING SOON

The Radio Society of Great Britain says that is close to installing and operating two new beacons on 5 point 290 kHz. The new beacons will operate under the callsigns GB3WES and GB3ORK. GB3WES will be located in Cumbria and GB3ORK in the Orkney Islands. Both will have a stepped transmit power sequence and a 30-second sounder sequence of 0.5ms pulses at 40 Hz and identical to that of the Oxfordshire GB3RAL beacon.

The new beacons will have transmit times will follow GB3RAL by one and two minutes respectively. Together the three beacons will provide an excellent spread of signal source from across Great Britain and offering experimenters worldwide a unique opportunity to study propagation effects at 5 MHz from their own QTH. (GB2RS)

**

ON THE AIR: USS SALEM ARC COMMEMORATES VETERANS DAY

In news of special event operations, the radio group supporting the U-S-S Salem will be activating K1USN on November 11th for Veterans Day. Activities will be on most bands using CW and SSB. During the operation the ship will be open to the public as well as radio amateurs. A special QSL has been created from the official 2004 Veterans Day Poster. Stateside QSL requests with a S.A.S.E. go to Harold Pugh, K1RV, at his callbook address. DX cards go via the W1 Bureau. More information is on-line at www.qsl.net/k1usn. (1VV)

**

ON THE AIR: VoIP TRANSCEIVER TO BE INSTALLED IN BAGHDAD

Former 73 Magazine Editor Keith Lamonica, W7DXX, plans to install a fully operational remotely controlled transceiver in Baghdad, Iraq, in the next few weeks. YI9DXX this will be available for any ham in the world who is registered with W7DXX to use his Voice over I P Internet system. For more information take your web browser over to www.lamonica.com and peruse the information you will find there. (G3ZHI)

**

DX

In D-X, word that Team Vertical will be operational from Taveuni Island, Fiji from November 20th to the 30th. Operations will be on 160 through 10 meters, mainly on CW. The group will have 6 low-power stations and ocean-front vertical arrays on all bands. QSL all Team Vertical 3-D-2 stations via WA4WTG. (Team Vertical)

And YT1CS who is currently active portable 5Z4 from Nairobi, has arranged a side trip to Lamu Island. He will be there through the 11th of November on 80 to 10 meters SSB using 100 watts to verticals and inverted-Vees. QSL as directed on the air. (RSGB)

**

THAT FINAL ITEM: RFID FOR COWS

And finally this week a cow sized idea. in fact, its an idea that combines radio R-F-I-D tags and cows in a system called the National Livestock Identification System or simply N-L-I-S for short. John Williams, VK2BUI, is in New South Whales, Australia, where the system is being tried out:

--

NLIS uses machine-readable Radio Frequency Identification (RFID) devices to identify cattle. Cattle are tagged with NLIS devices only once in their life. Cattle identified with NLIS devices can be electronically read as they move through the livestock chain. At

time of reading, each owner's PIC can be recorded and linked to the NLIS device. This transaction information is then stored in the secure central NLIS database.

RFID eliminates the need for "line of sight" reading necessary with barcode systems. The signal can penetrate through body tissue, wood, plastic, mud, manure and more. RFID in this application is passive and therefore requires no battery, meaning it will last for the life of the animal.

--

With Japan set to reopen import of U-S beef, government officials in that nation feel that it is more important than ever to be able to trace every animal from birth to marketplace. Many believe that a National Livestock Identification System using R-F-I-D tagging is the logical answer. (WIA News)

This sounds like more bovine scat from Mister Baxter himself. What happened?
Did Glenn run out of Felony Affidavits?
So, porcine Glenn wants to garner "culpable" witnesses? Amnesty? From what?
"Prosecution?"
From who?

Get off it, Glenn. Your oversized ego is fastly being replaced by your
equally oversized mouth
and obviously undersized mentality.

I long ago found a very simple cure for Baxter's Blabfests. I turn the VFO
to frequencies where REAL Hams operate.

Go ahead, Glenn. Really! I strongly urge you to pursue this frivolous
lawsuit! Don't just posture about it as you do the Felony Affidavits. Do it!
You have already made such a huge fool of yourself that a little more won't
hurt.

Were you ever in the military, Glenn? If not, ask someone who was. Ask them
what a sinking ship looks like.

(Name and callsign withheld to avoid harassment from Glenn Baxter, K1MAN.)

"Lloyd" <lloyd@no.spam> wrote in message

The American Amateur Radio Association, AARA, announced today that
ARRL is being added as Defendants in the 16 October 2004 Boy Scout
interference incident. Other Defendants will also be added, according
to AARA Executive Director Glenn Baxter, K1MAN. "We are still
investigating the case and collecting many sworn statements. Any
possibly culpable hams who come forward as a witness for the Plaintiff
will receive amnesty from prosecution, Mr. Baxter said today in a
brief interview. I am a Professional Engineer, not an attorney, but I
would suggest that hams should not rely on attorney Riley
Hollingsworth, K4ZDH, since he is the PRIMARY Defendant (personally)
in this civil action. We are seeking ten million dollars in damages
and also a Court writ of mandamus to ORDER the Justice Department to
prosecute the criminal side of this Sections 333 and 501 matter. It is
quite interesting to note that October 16, 2004 is exactly three
years, to the day, of K1MAN amateur bulletins returning to the air
after my two year sabbatical teaching high school chemistry, physics,
and math," Mr. Baxter said."

For the latest information on this federal lawsuit go to www.K1MAN.com
and click on "Breaking News."

"Papers will be served by federal marshals in late December; just in time for Christmas," Mr. Baxter went on to say.

Yes, but not applicable in this case. Who the heck do you think comprises the Presidents cabinet? Its generally powerful friends and supporters he has had over the years. Cabinets have always contained these types, and the same thing applies to other political appointments the next level down. This is NOT civil service; its political appointments.

You're looking for trouble where there is none.

That a statement that is complained of is true is a defence against a libel action but does not prevent that action from being brought.

Fair Comment is also a defence.

"Arabacle" is correct in her assertion.

Iï¿½m experiencing some strong interference across the 6 meter band which I believe is coming from a local (within 40 miles) TV channel 2. Where can I get a filter to deal with this? Is there a low pass filter with a cutoff at 54 MHz? I only work SSB and CW on 6 so Iï¿½m only interested in the lower portion of the band, if I cut off 52 MHz and above that would be fine by meï¿½..

news:792e029d.0411061807.1e74c597@posting.google.com...
As a paralegal, I can tell you this tort is flawed in that it does not
name the person/persons of cause. In this case it would be the Scout
station and specific operator on frequency that refused to move to
make way for K1MAN, who claims to hold legal ownership of said
frequency. But here a problem exists. This claim of ownership is in
direct opposition to the factuality of rule stated by the FCC that all
Amateur Service frequencies are shared and no Amateur Service license
holder has greater right of access to any frequency than any other.
Based on this and the fact that K1MAN has not named the specific
operator of cause in this action, the tort will be dismissed. This in
turn will permit those named by K1MAN to seek compensation through the
court system for malicious prosecution.

There is a very simple conclusion to all of this Baxter crap. Or
several...take your pick.

1. Baxter is a Blowgut.
2. Baxter is full of himself.
3. Baxter is selfish.
4. Baxter is a phony.
5. Baxter needs female companionship.
6. Baxter needs male companionship.
7. Baxter has no Contro Op.
8. Last but not least, Baxter is full of shit from top to bottom.

I agree Bill. Such mis-use of such a serious matter is one stop from
condoning such activities.

That's rich coming from Brian Reay who is a sick pervert
obsessed with sheep shagging, as the record of uk.radio.amateur
shows. Mr.Reay repeatedly and gratuitously published his obsession
and continued to do so over a period of many months.

Now, Mr.Reay holds a prominent position in the RSCB's
training hierarchy into which he must inevitably come into
contact with children.

I say that he is an unsuitable candidate for such a position because of
his repeatedly published obsession with sheep-shagging.

As to condoning such activities, ISTR that the behaviour of the
RSCB's Peter Kirby in seeming to condone such activity was
the origin of this thread.

Nick: >Take a real RAE

Can you explain that comment please? you really are stuck up your own fat-arse arent you, you fool.

Newbie shouldnt buy a Mk. 5?

Newbie shouldnt do this shouldnt do that.

Sell it cheap on Ebay?

Who the hell are you to tell me what I can and cant do?

The reason I have bought a mark 5 loser, is because I can - and have!

U must be jealous?

When I said "newbie" what I meant was a newbie to the mark 5, not a newbie to HF or to Amateur Radio you fucking idiots - I am sure all you pompus old duffers were new to a mark 5 when you first got yours, and had trouble setting it up and had to ask some help?

I have been a licensed radio amateur for over 15 years.

Its old "pillocks" like you who give this hooby a bad name.

All I was doing was asking for some help.

Pathetic Idiots.

Look in a mirror Matt.

How often do you display technical expertise on the NG? (Not often, you keep
getting it WRONG. Look back at Google if you disagree.)

Your behaviour isn't a model of good standards: you spend to much time
trying to ridicule those who are clearly better technically than you will
ever be and doing more to help others in the hobby that you ever will. Other
who claim to have standards think nothing of throwing a serious matter like
child abuse into their petty feuds.

Take the plank from your own eyes Matt.

Of course, they could be trying to mask their own activities.

One previous 'contributor' to this NG who had a thing about perverts was
himself once arrested for rape.

Possibly you could notch it out. Look around for a ARRL handbook and check out the subject.

Sometimes a hunk of coax with a trim cap can do the trick. Or you may have to get more elaborate. Start out simple. Again look it up in a ARRL handbook. I don't know about the new ones, since its all appliance ops now a days.

** EDITOR'S SPECIAL NOTICE: BARF80/OPDX's Mail Server (NSHORE.ORG) lost its system files early last week and was down pretty much all week. This means no one was able to subscribe or unsubscribe from the OPDX Mailing List. Also, some mail had to be re-routed to another E-mail address, but some mail was also "possibly" lost. If you do not see your DX announcement in this issue, please send it again. Currently, the E-mail to my system (BARF80) has been restored this past weekend, but as this was being typed, the OPDX Mailing List Server on NSHORE.ORG is still not working. So this week's bulletin will probably only be available via the OPDX Web page (provided by K8YSE), the DX Mailing Lists and the UseNet Groups. Please have patience, and pass the word on to OPDX subscribers. TNX and 73 de Tedd KB8NW.....

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 31st/October, through Sunday, 7th/November there were 234 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9V, 9Y, A3, A4, A5, A6, A7, A9, AP, BV, BY, C2, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FJ, FK, FM, FO, FP, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HH, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, J2, J3, J7, JA, JD/m, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PZ, S2, S5, S7, SM, SP, ST, SU, SV, SV5, SV9, T30, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TR,

TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9N, VK9X, VP2E, VP2M, VP5, VP8, VP8/g, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, XW, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3D2, FIJI (Update). Kenny, K2KW, wants to remind everyone that "Team Vertical's" operation from Taveuni Island (OC-016) is about two weeks away. In doing some research, Kenny reports that Fiji appears to be relatively rare on 160 meters, so they plan to be very active on the Top Band. They plan to be active daily on 160m beginning on November 21st, at around 0630z. Their 160m antenna will be the first antenna to go up. The team's transmit frequency will be 1825.5 kHz (up/down two as directed). Unfortunately, they will be limited to low power on 160m and all the other bands. George/W2VJN (3D2SS) will be the main operator for 160m (Kenny/K2KW/3D2KW and Tom/N6BT/3D2SS will also fill in). There are more details on the team's 160m operations and the expedition on Kenny's Web page at: http://www.k2kw.com/3d2
Remember, the "Team Vertical" will be 3D2XA in the CQWW DX CW Contest as a Multi/Multi entry. QSL via WA4WTG.

CROATIAN TELEGRAPHY CLUB. Chairman of the Croatian Telegraphy Club (CTC) Den, 9A3FO, invites you to become a CTC member and welcomes membership applications from telegraphy lovers from all parts of the world. He states, "If your membership application is submitted by E-mail then no fee is required and membership is gratuitous because it is the Club's principle of supporting CW which is far more important than any financial consideration."
Take a look at their Web page at: http://www.qsl.net/ctc
Their E-mail address is: ctc@hamradio.hr
Their mail address is: Croatian Telegraphy Club, Franjevacka 5, 42220 Novi Marof, Croatia - Europe.

CX, URUGUAY (IOTA Op). Shalom, 4X1UN, informs OPDX that he will be operating as CX/4X1UN from Gorriti and Lobos Islands (SA-039) between November 11-16th. Activity will be on 20/15 meters CW/SSB. He states that he has all the documentation and permission required. QSL via 4X1UN.

D4, CAPE VERDE. Alexander, 4L5A, will be active as D4B in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via K1BV. Please visit the Web page at: http://www.qsl.net/d44tt

FY, FRENCH GUYANA (IOTA Op). Operator Jean Pierre, F5AHO, will be active as FY/F5AHO from November 11-24th. He will also activate an IOTA, Salut Islands (SA-020, DIFO FY-008) from November 13-14th.

HS72, THAILAND (RAST News). Dietmar, DL3DXX, passed along the following news from Ray, HS0ZDZ (which has been edited and reformated): "HS72B has just passed its - 10,000 QSO milestone. This has been achieved with the difficulties of old and borrowed equipment and unsuitable WARC antennas

at the club station and the need for operators to travel to Koh Chang Island at other times. We are aware, from constant E-mail feedback, that this number of QSOs does not meet the large demand for WARC and LF DX counters for Thailand. Therefore, we are very happy to announce that help is coming. A group of experienced LF DXPeditioners (DL3DXX, DL5LYM, WA6CDR, N5IA and G4ODV) has offered to bring equipment and antenna hardware to help launch several intensive HS72B LF and WARC operations together with Thai operators. The proposed schedule is as follow:

November 19-21st: Look for HS72B from the SEANET Convention Hotel in Bangkok. Using a Titanex LP5 antenna (brought by DL3DXX) activity will be on most bands and modes. The operation will be by DXpedition members, SEANET visitors and Thai operators. There should be a lot of activity but not suitable for skeds and intensive weak signal operations.

November 23-28th: HS72B preparation and participation in the CQ WW CW Contest as a Multi-Multi, with a formidable LF set-up. This period will be predominantly on 10, 15, 20, 40, 80 and 160 meters with very strong emphasis on the LF bands. We expect a number of visitors to the SEANET Convention to stay on to join the Thai and DXpedition team for this operation.

November 29th
to Decenber 12th: HS72B SDXO (Special DX Operation). This period will be dedicated to LF and WARC band operations by the visiting DXpedition team, but if freak openings occur on 10m etc, some team members might not be able to resist. For skeds, please ask Dietmar, DL3DXX. We will announce more details later, including the very specific frequencies of operation. We are in the process of setting up a web-site at:
http://www.qsl.net/HS0AC
There we will post all information and an on-line log.

Overall coordination will be by Ray, HS0ZDZ (Station Manager HS0AC). The Logistics Manager and HS72B SEANET Station Leader will be Khun Winit, HS1CKC (Deputy Station Manager HS0AC). The Operational Leader of the CQ WW CW Contest and SDXO operations will be Dietmar, DL3DXX, who was the originator of this idea, and Chief Engineer par excellence will be Robin, WA6CDR, who will implement the most fantastic LF set up ever seen in Thailand. (If Robin is not constrained we may have to ask Bangkok Airport to divert air traffic during the operations). Robin will also be a most generous equipment donor to HS0AC. Consultant and also a most generous equipment donor to HS0AC will be Milt, N5IA. Many Thai DXers will remember Robin and Milt from the XZ0A DXpedition, and the donation of towers to HS0AC by the Central Arizona DX Association. QSL Manager will be Mann, E20NTS (QRZ.com OK). Software and Computer Network Manager is Thomas, DL5LYM.

Most of the existing equipment at HS0AC is 10 - 20 years old and has withstood the ravages of numerous contests, DXpeditions, and club station use, but it needs replacing with more modern equipment. RAST does not have the money do to this at present due to having committed a large part of its small income to a joint project with the Asian Institute of Technology and the YASME Foundation to rebuild the HS0AC Club Station. Therefore, any contributions of equipment or money to improve the chance of success of the proposed and future operations would be most welcome. The visiting team is donating some equipment and is shipping hardware at significant cost. Please contact Ray, HS0ZDZ < raynom(at)loxinfo.co.th > for general enquiries, and Dietmar <dl3dxx(at)DARC.de> about skeds for the SDXO and possible contributions..... 73, Ray HS0ZDZ"

IOTA NEWS.....
AF-019. Look for Fabio, IT9GSF, to be active as IG9A from Lampedusa Island in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/Single-Band (160m) entry. QSL via IT9GSF.

AS-076. JA5BEX and JE5HXJ were expected to operate from the Odesima Island (AS-076) (JIIA AS-076 - a new one for the Japanese IOTA Islands Award) in the Shikoku Island Group, November 6-7th. Both operators were to sign homecall/5. QSL via the Bureau or direct to their home callsign.

NA-079. Operators Nelson/NE4LS, Tom/K4THL, Bob/N4BP and Bruce/W4OV will be operating from the Dry Tortugas National Park on Garden Key (aka Fort Jefferson) from the afternoon of November 12th through the morning of November 15th. Activity will be on 40/30/20/15 meters 100% CW QRP. Their equipment will include two K1 rigs and an AT Sprint II. For antennas they will be using verticals of various home brew sorts. For those who collect reference numbers/indicators: County - Monroe, Florida; Grid Square - EL84NP; and Lighthouse - USA-316. For those who are not familiar with Fort Jefferson, here are a couple of links with the history and plenty of pictures.
http://www.shannontech.com/ParkVision/DryTortugas/DryTortugas.html
http://www.terragalleria.com/parks/np.dry-tortugas.all.html

OC-033. Masayoshi, JF1UIO, was expected to be active as FK/JF1UIO from the Loyalty Islands between November 4-8th. Activity was to be on 40-10 meters CW/SSB. QSL via JARL Bureau or QRZ.com.

SA-021. Look for Wood Islands to be activated for the first time between November 12-14th. These islands are a reserve comprised of Bahia Blanca, False Bahia and Green Bahia, created by the Legislature of Buenos Aires Province. It is located about 5 hours from the Ingeniero White Port. Everything is ready to start the expedition. A vessel has been hired to set off on Friday morning so as to arrive at daylight and immediately transfer the equipment/materials to a high area where water will not creep up to their camping area. Activity will be on all bands and modes (including the WARC bands and digimodes) depending on

propagation. Special callsigns will not be used, only their
personal calls "/D" (Buenos Aires Province). A special FULL
COLOR QSL CARD will be printed. QSL Manager is LU7DSY:
Carlos Almiron, P.O. Box 709, 8000 Bahia Blanca, Argentina.
For direct QSLs, please send 2 USDs or 2 IRC.

LX, LUXEMBOURG. Operators Joel/LX1ER, Helmut/DF7ZS and Robert/LX1RQ will
be active as LX5A in the WAEDC RTTY Contest (November 13-14th) as a Multi-
Single High Power entry. QSL via the bureau or LX1RQ (QRZ.com).

QSL INFO AND NEWS.....
Claude, F5PBL, informs OPDX readers: "Due to new internal rules of the
REF-Union, I can not receive anymore of my QSLs via their QSL bureau
starting 1st of January 2005." Please update your records with the
following info :
QSL 3W2KF: via LZ5KF (bureau) or F5PBL (direct only). (March 2001 -
cf. <http://www.qsl.net/f5pbl/3W2KF.htm>)
QSL F5PBL: via LZ5KF (bureau) or F5PBL (direct only).
QSL LZ5KF: via LZ5KF (bureau) or F5PBL (direct only).
F5PBL's address is (unchanged): Claude Terrier, 18 all�e du Mail,
F-92360 Meudon la For�t, France. QRZ.com is updated accordingly.

XE4IH QSLS. Enrique, XE1IH, QSL Manager for XE4IH Socorro Island (NA-030
Revillagigedo) operation, informs OPDX that he is having problems with
the Mexican Postal Office, and QSLs to be confirmed are not arriving
at his P.O Box. He announces now to please send QSLs to his home
address at: Enrique Garcia Munive, Av. Insula Edificio 15-A-301,
U. H. Acueducto de Guadalupe, 07270 Mexico City, MEXICO. It is suggested
to send your requests "registered".

R1, ANTARCTICA. Vlady, RU3HD, will be active for about the next four
months as R1ANN and RU3HD/ANT from the Saam Novolazarevskaya Base,
Antarctica (IOTA AN-016, A.A. UA-08, WW Loc: JB59VF, CQ-38, ITU-67).
His activity is planned for all HF bands. QSL via RZ3DJ (address QRZ.com).

SILENT KEYS.....
Joerg, DL1SDH, informs OPDX that Dieter, DL1SDN, became a "Silent Key"
on October 28th. Many may remember his callsign in numerous pile-ups
or many DXpeditions. Dieter was an enthusiastic DXer who was dedicated
to ham radio. He started as a SWL. After getting his VHF licence, he
soon became one of the top 2m DXers in Germany. He was active as A35DN,
3D2DS, DL1SDN/KH8 and some other destinations. He actively supported
DXing world-wide. He was a member of several DX associations like GDXF,
SDXG, DIG and NCDXF. OPDX and its readers would like to send out our
deepest sympathy to Dieter's family and friends.

Helmut, DL7MAE, informs OPDX that Albert, DL7MAT, became a "Silent
Key" on Tuesday, October 26th, at the age of 74. He "celebrated" his
last birthday in a Munich hospital. He was not only a keen DXer (with
only ZL8 left for a complete DXCC) but was furthermore the constructor
of one of the biggest ham stations in Bavaria. Many friends called him
"The King of DX" or the creator of the so called "Funkzentrum L��"

(radiocenter Luess). Luess was his QTH. He was one of the founding members of the "Bavarian DX Group" and the "Bavarian Contest Club". Also, he was active with EME and the host of numerous DX-friends and DXpeditioners. He was very active in the local DARC section. OPDX and its readers would like to send out our deepest sympathy to Albert's family and friends.

SPECIAL EVENT (Veterans' Day Activity). Look for K1USN to be activated from the U.S.S. Salem on Veterans' Day, Thursday, November 11th. Activity will be from the museum ship berthed in the Fore River in Quincy, Mass. A special event QSL card has been created borrowing the design of the official 2004 Veterans' Day poster. K1USN will be active on most HF bands on CW/SSB. K1USN will QSL all requests received. All U.S. stations are requested to include an SASE with their QSLs to: Harold "Pi" Pugh, K1RV, 78 Temple St, Abington, MA 02351. All DX stations are requested to QSL via the W1 QSL Bureau.

SPECIAL EVENT (Attention Prefix Hunters!). Members of the HB9MM ARS of Lausanne, Switzerland, have received permision to air the special callsign HE3RSI until December 4th. Their activity will be the former "Radio Suisse Internationale (RSI)" facilities. The RSI has stopped broadcasting on short waves, and all of the station will be dismantled after. Activity will be on 40-10 meters. The prefix hunters will have a chance to contact the "HE3" prefix for the first time. QSL via HB9MM. For more info, please visit the Web at: http://www.hb9mm.com

SPECIAL EVENT. To celebrate the 60th anniversary of the liberation of Strasbourg, the Haut Rhin Department and the F6KQV's ARS members will air the special callsign TM6OST between November 14-28th. Activity will be on the HF bands and CW/SSB/Digimodes. Also, look for 2 meter SSB/FM activity (Listen on the F, DL, LX, ON and HB repeaters). QSL via F5PWH. Each QSO will be confirmed by a special QSL card.

V5, NAMIBIA. Felix, DL5XL, will be active as V51/DL5XL in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry. He will also be activve a few days after the contest. This is another DXpedition by the Rhein Ruhr DX Association (RRDXA). QSL via DL5XL. QSL cards via the bureau are "OK". To request a direct card, please send QSL with return postage (1 USD or 1 IRC for Europe, 2 USD or 1 IRC for overseas) to: Felix Riess, Mittal 3, D-31073 Delligsen, Germany. Cards have already been printed and will be replied to in a timely manner. Visit Felix's Web page at: http://www.dl5xl.de

V7, MARSHALL ISLANDS. Four Japanese operators, Toshi/JA1ELY, Taki/JH3QFL, Nob/JA6WIF and Yasu/JA6WJL will be active from Majuro Island (OC-029) between November 20-24th. For Taki, Nob, and Yasu, this will be their first DXpedition, and they expect to be welcomed by many Europe and East Coast stations. They already applied for the callsigns V73EY, V73B, V73IF and V73WJ. They will be active on all HF bands and all modes with three stations. Toshi will concentrate on the low bands including 160 meters with a 500 watt amplifier. Yasu will concentrate on 15/12/10 meters, RTTY, SSTV and 10 meter FM. Nob will mainly operate on CW on any band.

Taki likes 20 meters and the WARC bands, either SSB and CW. The QSL
information is as follows:

V73EY via JA1ELY, Toshikazu KUSANO: Box 8, Kamata, Tokyo, 144-8691 JAPAN
V73B via JH3QFL, Takio HATA: 921-25 Rokujyo, Yasu, Shiga, 520-2412 JAPAN
V73IF via JA6WIF, Nobutaka NAGAISHI: Box 9, Omura, Nagasaki, 856-8691 JAPAN
V73WJ via JA6WJL, Yasumasa MAEDA: Box 9, Omura, Nagasaki, 856-8691 JAPAN

YW1,VENEZUELA. Members of the "Group DX Caracas" will be celebrating
their organization's 15th anniversary on November 16th. To celebrate
they organized a demonstration from Cayo Peraza (SA-089), Morrocoy National
Park between November 19-21st. They will use the callsign YW1F on all
bands and modes SSB/CW/Digital.

ZX0, SOUTH SHETLAND ISLANDS (Update). Roberto/PT2GTI and Jorge/PT2HF are
now heading to the Antarctica. It was reported this past week that they
have already received authorization from the commander of the ship,
"Ary Rongel", to operate in maritime mobile. They are using PT2DX the
callsign of the ABRA - DX Brazilian Association. They expect to be on the
air as ZX0GTI (PT2GTI) and ZX0ECF (PT2HF) from "Emilio Goeldi Refuge" (WAP
BRA-03) base station on Elephant Island (AN-010), from November 11/12th to
November 17-19th. Activity will be on 160-6 meters using CW, SSB, RTTY,
SSTV and PSK31. QSL both callsigns via PT2GTI: Roberto Franca Stuckert,
Shin QI 7 Conj 12 Casa 14, Lago Norte, DF-71515-120, Brazil.

> 42220 Novi Marof, Croatia - Europe.

>
> CX, URUGUAY (IOTA Op). Shalom, 4X1UN, informs OPDX that he will be
> operating as CX/4X1UN from Gorriti and Lobos Islands (SA-039) between
> November 11-16th. Activity will be on 20/15 meters CW/SSB. He states
> that he has all the documentation and permission required. QSL via 4X1UN.
>
> D4, CAPE VERDE. Alexander, 4L5A, will be active as D4B in the CQ WW DX
> CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry.
> QSL via K1BV. Please visit the Web page at: http://www.qsl.net/d44tt
>
> FY, FRENCH GUYANA (IOTA Op). Operator Jean Pierre, F5AHO, will be active
> as FY/F5AHO from November 11-24th. He will also activate an IOTA, Salut
> Islands (SA-020, DIFO FY-008) from November 13-14th.
>
> HS72, THAILAND (RAST News). Dietmar, DL3DXX, passed along the following
> news from Ray, HS0ZDZ (which has been edited and reformated): "HS72B has
> just passed its - 10,000 QSO milestone. This has been achieved with the
> difficulties of old and borrowed equipment and unsuitable WARC antennas
> at the club station and the need for operators to travel to Koh Chang
> Island at other times. We are aware, from constant E-mail feedback, that
> this number of QSOs does not meet the large demand for WARC and LF DX
> counters for Thailand. Therefore, we are very happy to announce that help
> is coming. A group of experienced LF DXPeditioners (DL3DXX, DL5LYM,
> WA6CDR,
> N5IA and G4ODV) has offered to bring equipment and antenna hardware to
> help launch several intensive HS72B LF and WARC operations together with
> Thai operators. The proposed schedule is as follow:
>
> November 19-21st: Look for HS72B from the SEANET Convention Hotel in
> Bangkok. Using a Titanex LP5 antenna (brought by
> DL3DXX) activity will be on most bands and modes. The
> operation will be by DXpedition members, SEANET
> visitors and Thai operators. There should be a lot
> of activity but not suitable for skeds and intensive
> weak signal operations.
>
> November 23-28th: HS72B preparation and participation in the CQ WW CW
> Contest as a Multi-Multi, with a formidable LF set-up.
> This period will be predominantly on 10, 15, 20, 40,
> 80 and 160 meters with very strong emphasis on the LF
> bands. We expect a number of visitors to the SEANET
> Convention to stay on to join the Thai and DXpedition
> team for this operation.
>
> November 29th
> to Decenber 12th: HS72B SDXO (Special DX Operation). This period will
> be dedicated to LF and WARC band operations by the
> visiting DXpedition team, but if freak openings occur
> on 10m etc, some team members might not be able to

> resist. For skeds, please ask Dietmar, DL3DXX. We will
> announce more details later, including the very
> specific frequencies of operation. We are in the
> process of setting up a web-site at:
> http://www.qsl.net/HS0AC
> There we will post all information and an on-line log.
>
> Overall coordination will be by Ray, HS0ZDZ (Station Manager HS0AC). The
> Logistics Manager and HS72B SEANET Station Leader will be Khun Winit,
> HS1CKC (Deputy Station Manager HS0AC). The Operational Leader of the CQ WW
> CW Contest and SDXO operations will be Dietmar, DL3DXX, who was the
> originator of this idea, and Chief Engineer par excellence will be Robin,
> WA6CDR, who will implement the most fantastic LF set up ever seen in
> Thailand. (If Robin is not constrained we may have to ask Bangkok Airport
> to divert air traffic during the operations). Robin will also be a most
> generous equipment donor to HS0AC. Consultant and also a most generous
> equipment donor to HS0AC will be Milt, N5IA. Many Thai DXers will remember
> Robin and Milt from the XZ0A DXpedition, and the donation of towers to
> HS0AC by the Central Arizona DX Association. QSL Manager will be Mann,
> E20NTS (QRZ.com OK). Software and Computer Network Manager is Thomas,
> DL5LYM.
> Most of the existing equipment at HS0AC is 10 - 20 years old and has
> withstood the ravages of numerous contests, DXpeditions, and club station
> use, but it needs replacing with more modern equipment. RAST does not have
> the money do to this at present due to having committed a large part of
> its small income to a joint project with the Asian Institute of Technology
> and the YASME Foundation to rebuild the HS0AC Club Station. Therefore, any
> contributions of equipment or money to improve the chance of success of
> the proposed and future operations would be most welcome. The visiting
> team is donating some equipment and is shipping hardware at significant
> cost. Please contact Ray, HS0ZDZ < raynom(at)loxinfo.co.th > for general
> enquiries, and Dietmar <dl3dxx(at)DARC.de> about skeds for the SDXO and
> possible contributions..... 73, Ray HS0ZDZ"
>
> IOTA NEWS.....
> AF-019. Look for Fabio, IT9GSF, to be active as IG9A from Lampedusa
> Island in the CQ WW DX CW Contest (November 27-28th) as a
> Single-Op/Single-Band (160m) entry. QSL via IT9GSF.
>
> AS-076. JA5BEX and JE5HXJ were expected to operate from the Odesima
> Island (AS-076) (JIIA AS-076 - a new one for the Japanese IOTA
> Islands Award) in the Shikoku Island Group, November 6-7th. Both
> operators were to sign homecall/5. QSL via the Bureau or direct
> to their home callsign.
>
> NA-079. Operators Nelson/NE4LS, Tom/K4THL, Bob/N4BP and Bruce/W4OV
> will be operating from the Dry Tortugas National Park on Garden
> Key (aka Fort Jefferson) from the afternoon of November 12th
> through the morning of November 15th. Activity will be on

> 40/30/20/15 meters 100% CW QRP. Their equipment will include
> two K1 rigs and an AT Sprint II. For antennas they will be
> using verticals of various home brew sorts. For those who
> collect reference numbers/indicators: County - Monroe, Florida;
> Grid Square - EL84NP; and Lighthouse - USA-316. For those who
> are not familiar with Fort Jefferson, here are a couple of links
> with the history and plenty of pictures.
>

> OC-033. Masayoshi, JF1UIO, was expected to be active as FK/JF1UIO from
> the Loyalty Islands between November 4-8th. Activity was to be
> on 40-10 meters CW/SSB. QSL via JARL Bureau or QRZ.com.
>
> SA-021. Look for Wood Islands to be activated for the first time between
> November 12-14th. These islands are a reserve comprised of Bahia
> Blanca, False Bahia and Green Bahia, created by the Legislature
> of Buenos Aires Province. It is located about 5 hours from
> the Ingeniero White Port. Everything is ready to start the
> expedition. A vessel has been hired to set off on Friday morning
> so as to arrive at daylight and immediately transfer the
> equipment/materials to a high area where water will not creep
> up to their camping area. Activity will be on all bands and
> modes (including the WARC bands and digimodes) depending on
> propagation. Special callsigns will not be used, only their
> personal calls "/D" (Buenos Aires Province). A special FULL
> COLOR QSL CARD will be printed. QSL Manager is LU7DSY:
> Carlos Almiron, P.O. Box 709, 8000 Bahia Blanca, Argentina.
> For direct QSLs, please send 2 USDs or 2 IRC.
>
> LX, LUXEMBOURG. Operators Joel/LX1ER, Helmut/DF7ZS and Robert/LX1RQ will
> be active as LX5A in the WAEDC RTTY Contest (November 13-14th) as a Multi-
> Single High Power entry. QSL via the bureau or LX1RQ (QRZ.com).
>
> QSL INFO AND NEWS.....
> Claude, F5PBL, informs OPDX readers: "Due to new internal rules of the
> REF-Union, I can not receive anymore of my QSLs via their QSL bureau
> starting 1st of January 2005." Please update your records with the
> following info :
> QSL 3W2KF: via LZ5KF (bureau) or F5PBL (direct only). (March 2001 -
> cf. <http://www.qsl.net/f5pbl/3W2KF.htm>)
> QSL F5PBL: via LZ5KF (bureau) or F5PBL (direct only).
> QSL LZ5KF: via LZ5KF (bureau) or F5PBL (direct only).
> F5PBL's address is (unchanged): Claude Terrier, 18 all&#65533;e du Mail,
> F-92360 Meudon la For&#65533;t, France. QRZ.com is updated accordingly.
>
> XE4IH QSLS. Enrique, XE1IH, QSL Manager for XE4IH Socorro Island (NA-030
> Revillagigedo) operation, informs OPDX that he is having problems with

> the Mexican Postal Office, and QSLs to be confirmed are not arriving
> at his P.O Box. He announces now to please send QSLs to his home
> address at: Enrique Garcia Munive, Av. Insula Edificio 15-A-301,
> U. H. Acueducto de Guadalupe, 07270 Mexico City, MEXICO. It is suggested
> to send your requests "registered".
>
> R1, ANTARCTICA. Vlady, RU3HD, will be active for about the next four
> months as R1ANN and RU3HD/ANT from the Saam Novolazarevskaya Base,
> Antarctica (IOTA AN-016, A.A. UA-08, WW Loc: JB59VF, CQ-38, ITU-67).
> His activity is planned for all HF bands. QSL via RZ3DJ (address QRZ.com).
>
> SILENT KEYS.....
> Joerg, DL1SDH, informs OPDX that Dieter, DL1SDN, became a "Silent Key"
> on October 28th. Many may remember his callsign in numerous pile-ups
> or many DXpeditions. Dieter was an enthusiastic DXer who was dedicated
> to ham radio. He started as a SWL. After getting his VHF licence, he
> soon became one of the top 2m DXers in Germany. He was active as A35DN,
> 3D2DS, DL1SDN/KH8 and some other destinations. He actively supported
> DXing world-wide. He was a member of several DX associations like GDXF,
> SDXG, DIG and NCDXF. OPDX and its readers would like to send out our
> deepest sympathy to Dieter's family and friends.
>
> Helmut, DL7MAE, informs OPDX that Albert, DL7MAT, became a "Silent
> Key" on Tuesday, October 26th, at the age of 74. He "celebrated" his
> last birthday in a Munich hospital. He was not only a keen DXer (with
> only ZL8 left for a complete DXCC) but was furthermore the constructor
> of one of the biggest ham stations in Bavaria. Many friends called him
> "The King of DX" or the creator of the so called "Funkzentrum L��"
> (radiocenter Luess). Luess was his QTH. He was one of the founding
> members of the "Bavarian DX Group" and the "Bavarian Contest Club".
> Also, he was active with EME and the host of numerous DX-friends and
> DXpeditioners. He was very active in the local DARC section. OPDX and
> its readers would like to send out our deepest sympathy to Albert's
> family and friends.
>
> SPECIAL EVENT (Veterans' Day Activity). Look for K1USN to be activated
> from the U.S.S. Salem on Veterans' Day, Thursday, November 11th. Activity
> will be from the museum ship berthed in the Fore River in Quincy, Mass. A
> special event QSL card has been created borrowing the design of the
> official
> 2004 Veterans' Day poster. K1USN will be active on most HF bands on
> CW/SSB.
> K1USN will QSL all requests received. All U.S. stations are requested to
> include an SASE with their QSLs to: Harold "Pi" Pugh, K1RV, 78 Temple St,
> Abington, MA 02351. All DX stations are requested to QSL via the W1 QSL
> Bureau.
>
> SPECIAL EVENT (Attention Prefix Hunters!). Members of the HB9MM ARS of
> Lausanne, Switzerland, have received permision to air the special callsign

> HE3RSI until December 4th. Their activity will be the former "Radio Suisse
> Internationale (RSI)" facilities. The RSI has stopped broadcasting on
> short waves, and all of the station will be dismantled after. Activity
> will be on 40-10 meters. The prefix hunters will have a chance to contact
> the "HE3" prefix for the first time. QSL via HB9MM. For more info, please
> visit the Web at: http://www.hb9mm.com
>
> SPECIAL EVENT. To celebrate the 60th anniversary of the liberation of
> Strasbourg, the Haut Rhin Department and the F6KQV's ARS members will
> air the special callsign TM6OST between November 14-28th. Activity will
> be on the HF bands and CW/SSB/Digimodes. Also, look for 2 meter SSB/FM
> activity (Listen on the F, DL, LX, ON and HB repeaters). QSL via F5PWH.
> Each QSO will be confirmed by a special QSL card.
>
> V5, NAMIBIA. Felix, DL5XL, will be active as V51/DL5XL in the CQ WW DX
> CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry.
> He will also be activve a few days after the contest. This is another
> DXpedition by the Rhein Ruhr DX Association (RRDXA). QSL via DL5XL. QSL
> cards via the bureau are "OK". To request a direct card, please send QSL
> with return postage (1 USD or 1 IRC for Europe, 2 USD or 1 IRC for
> overseas) to: Felix Riess, Mittal 3, D-31073 Delligsen, Germany. Cards
> have already been printed and will be replied to in a timely manner.
> Visit Felix's Web page at: http://www.dl5xl.de
>
> V7, MARSHALL ISLANDS. Four Japanese operators, Toshi/JA1ELY, Taki/JH3QFL,
> Nob/JA6WIF and Yasu/JA6WJL will be active from Majuro Island (OC-029)
> between November 20-24th. For Taki, Nob, and Yasu, this will be their
> first DXpedition, and they expect to be welcomed by many Europe and East
> Coast stations. They already applied for the callsigns V73EY, V73B, V73IF
> and V73WJ. They will be active on all HF bands and all modes with three
> stations. Toshi will concentrate on the low bands including 160 meters
> with a 500 watt amplifier. Yasu will concentrate on 15/12/10 meters,
> RTTY, SSTV and 10 meter FM. Nob will mainly operate on CW on any band.
> Taki likes 20 meters and the WARC bands, either SSB and CW. The QSL
> information is as follows:
>
> V73EY via JA1ELY, Toshikazu KUSANO: Box 8, Kamata, Tokyo, 144-8691 JAPAN
> V73B via JH3QFL, Takio HATA: 921-25 Rokujyo, Yasu, Shiga, 520-2412 JAPAN
> V73IF via JA6WIF, Nobutaka NAGAISHI: Box 9, Omura, Nagasaki, 856-8691
> JAPAN
> V73WJ via JA6WJL, Yasumasa MAEDA: Box 9, Omura, Nagasaki, 856-8691 JAPAN
>
> YW1,VENEZUELA. Members of the "Group DX Caracas" will be celebrating
> their organization's 15th anniversary on November 16th. To celebrate
> they organized a demonstration from Cayo Peraza (SA-089), Morrocoy
> National
> Park between November 19-21st. They will use the callsign YW1F on all
> bands and modes SSB/CW/Digital.
>

> ZX0, SOUTH SHETLAND ISLANDS (Update). Roberto/PT2GTI and Jorge/PT2HF are
> now heading to the Antarctica. It was reported this past week that they
> have already received authorization from the commander of the ship,
> "Ary Rongel", to operate in maritime mobile. They are using PT2DX the
> callsign of the ABRA - DX Brazilian Association. They expect to be on the
> air as ZX0GTI (PT2GTI) and ZX0ECF (PT2HF) from "Emilio Goeldi Refuge" (WAP
> BRA-03) base station on Elephant Island (AN-010), from November 11/12th to
> November 17-19th. Activity will be on 160-6 meters using CW, SSB, RTTY,
> SSTV and PSK31. QSL both callsigns via PT2GTI: Roberto Franca Stuckert,
> Shin QI 7 Conj 12 Casa 14, Lago Norte, DF-71515-120, Brazil.

> 3D2, FIJI (Update). Kenny, K2KW, wants to remind everyone that "Team
> Vertical's" operation from Taveuni Island (OC-016) is about two weeks
> away. In doing some research, Kenny reports that Fiji appears to be
> relatively rare on 160 meters, so they plan to be very active on the
> Top Band. They plan to be active daily on 160m beginning on November
> 21st, at around 0630z. Their 160m antenna will be the first antenna to
> go up. The team's transmit frequency will be 1825.5 kHz (up/down two as
> directed). Unfortunately, they will be limited to low power on 160m and
> all the other bands. George/W2VJN (3D2SS) will be the main operator for
> 160m (Kenny/K2KW/3D2KW and Tom/N6BT/3D2SS will also fill in). There are
> more details on the team's 160m operations and the expedition on Kenny's
> Web page at: http://www.k2kw.com/3d2
> Remember, the "Team Vertical" will be 3D2XA in the CQWW DX CW Contest
> as a Multi/Multi entry. QSL via WA4WTG.
>

>

> CX, URUGUAY (IOTA Op). Shalom, 4X1UN, informs OPDX that he will be
> operating as CX/4X1UN from Gorriti and Lobos Islands (SA-039) between
> November 11-16th. Activity will be on 20/15 meters CW/SSB. He states
> that he has all the documentation and permission required. QSL via 4X1UN.
>
> D4, CAPE VERDE. Alexander, 4L5A, will be active as D4B in the CQ WW DX
> CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry.
> QSL via K1BV. Please visit the Web page at: http://www.qsl.net/d44tt
>
> FY, FRENCH GUYANA (IOTA Op). Operator Jean Pierre, F5AHO, will be active
> as FY/F5AHO from November 11-24th. He will also activate an IOTA, Salut
> Islands (SA-020, DIFO FY-008) from November 13-14th.
>
> HS72, THAILAND (RAST News). Dietmar, DL3DXX, passed along the following
> news from Ray, HS0ZDZ (which has been edited and reformated): "HS72B has
> just passed its - 10,000 QSO milestone. This has been achieved with the
> difficulties of old and borrowed equipment and unsuitable WARC antennas
> at the club station and the need for operators to travel to Koh Chang
> Island at other times. We are aware, from constant E-mail feedback, that
> this number of QSOs does not meet the large demand for WARC and LF DX
> counters for Thailand. Therefore, we are very happy to announce that help
> is coming. A group of experienced LF DXPeditioners (DL3DXX, DL5LYM,
> WA6CDR,
> N5IA and G4ODV) has offered to bring equipment and antenna hardware to
> help launch several intensive HS72B LF and WARC operations together with
> Thai operators. The proposed schedule is as follow:
>
> November 19-21st: Look for HS72B from the SEANET Convention Hotel in
> Bangkok. Using a Titanex LP5 antenna (brought by
> DL3DXX) activity will be on most bands and modes. The
> operation will be by DXpedition members, SEANET
> visitors and Thai operators. There should be a lot
> of activity but not suitable for skeds and intensive
> weak signal operations.
>
> November 23-28th: HS72B preparation and participation in the CQ WW CW
> Contest as a Multi-Multi, with a formidable LF set-up.
> This period will be predominantly on 10, 15, 20, 40,
> 80 and 160 meters with very strong emphasis on the LF
> bands. We expect a number of visitors to the SEANET
> Convention to stay on to join the Thai and DXpedition
> team for this operation.
>
> November 29th
> to Decenber 12th: HS72B SDXO (Special DX Operation). This period will
> be dedicated to LF and WARC band operations by the
> visiting DXpedition team, but if freak openings occur
> on 10m etc, some team members might not be able to
> resist. For skeds, please ask Dietmar, DL3DXX. We will

> announce more details later, including the very
> specific frequencies of operation. We are in the
> process of setting up a web-site at:
> http://www.qsl.net/HS0AC
> There we will post all information and an on-line log.
>
> Overall coordination will be by Ray, HS0ZDZ (Station Manager HS0AC). The
> Logistics Manager and HS72B SEANET Station Leader will be Khun Winit,
> HS1CKC (Deputy Station Manager HS0AC). The Operational Leader of the CQ WW
> CW Contest and SDXO operations will be Dietmar, DL3DXX, who was the
> originator of this idea, and Chief Engineer par excellence will be Robin,
> WA6CDR, who will implement the most fantastic LF set up ever seen in
> Thailand. (If Robin is not constrained we may have to ask Bangkok Airport
> to divert air traffic during the operations). Robin will also be a most
> generous equipment donor to HS0AC. Consultant and also a most generous
> equipment donor to HS0AC will be Milt, N5IA. Many Thai DXers will remember
> Robin and Milt from the XZ0A DXpedition, and the donation of towers to
> HS0AC by the Central Arizona DX Association. QSL Manager will be Mann,

Look in a mirror Matt.

How often do you display technical expertise on the NG? (Not often, you keep
getting it WRONG. Look back at Google if you disagree.)

Your behaviour isn't a model of good standards: you spend too much time
trying to ridicule those who are clearly better technically than you will
ever be and doing more to help others in the hobby that you ever will.
Others
who claim to have standards think nothing of throwing a serious matter like
child abuse into their petty feuds.

Take the plank from your own eyes Matt.

There were commercial low pass filters on the market (Drake?) with a cut
off of
about 52MHz. Ratings were 1KW in the HF bands but only 100W on 6.
Worked well on 6 between the exciter and amp. I would suggest looking
for a surplus unit or building yourself as others have suggested.

"IF" I read the OP correctly, HE is the one being interfered with. A LOW pass isn't going to cure anything. That is for TRANSMIT on his end.. He needs to "notch" out the Channel 2 signal by whatever means from his receiver - when in the receive mode. I'm thinking a T on the back of the set

with a stub - open or shorted, but may be tricky so as not to interfere with the rest of the receiver frequencies or transmit. A little experimentation here can go a ways.

I have one I bought 20 years ago, but, boy, I can't recall the brand,
it might be a Drake, it also might be a B&W. But it has a cut-off of
52Mhz (3db point) and could handle over 500 CCC

Is there anyway to convert this amp to run in 6m? I know im probably
asking a stupid question but i want to get back into radio with a
simple vx-5r . I figured if I could get this amp to do 6m it would
allow me to work a few repeaters from pretty much anywhere on my
commutes. If not, any ideas for a economical amp that would do say
50-100 watts?
Thanks a bunch.

Source record: 55735

Hi Silvio,

The impedance of a Full Wave Delta Loop antenna is theoretically in the vicinity of 100 ohms. That is why I use a 75 ohm "Q section" to provide a perfect match to the 50 ohm coax. My Loop antenna is flat 1:1 VSWR around 3.875 Mhz and rises to about 2:1 SWR at 3.75 and 4 Mhz . So I cover the entire 75 meter band without using a tuner.

Here is How I Do It.

IMPORTANT - Connect the shield of a "Short Piece" of 75 ohm coax to one end of the loop antenna , Connect the center of the 75 ohm coax to the other end of the loop antenna. The length of the 75 ohm coax is most important. It will be used as a Q section.
To determine the length to use, Use this formula "Length in feet = 246 x VF / Freq in Mhz" VF = the Velocity Factor of the coax. So multiply 246 by the Velocity Factor of the coax , Then divide by the frequency .

If you use RG59 or RG11 with a Velocity Factor of 0.66 , For the 75 meter band the Piece of 75 ohm coax should be about 42 feet long , It doesn't need to be exact . RG59 and RG11 coax usually have a Velocity Factor of 0.66 , Foam dielectric coax such as RG6 might have a Velocity Factor of 0.81 or more.

Put a PL259 coax connector on the unused end of the 75 ohm coax, Screw a PL258 double female coax connector onto this PL259 coax connector. Then connect 50 ohm coax to the other side of the PL258 double female coax connector, Use any length 50 ohm coax needed to reach your Transceiver.

Phase and frequency modulation are very closely related, and it is possible to convert one into the other by properly processing the audio supplied to the modulator. For example, if the audio is phase shifted and given a 1/f amplitude response by a so-called audio integrator (a low-pass filter), it is theoretically possible to apply the resulting audio to a frequency modulator and to obtain the same result that a phase modulator would produce. However, as "f" approaches zero, 1/f becomes so large that the method runs into practical problems. Conversely, a phase modulator can be supplied with preemphasized audio whose amplitude is proportional to its frequency, and fm output will theoretically result.

Consult some texts on the subject for fuller explanations of practical methods and circuits. The only web discussion I could find after a quick Google search was at http://www.imec.be/esscirc/papers-97/47.pdf, but I'm sure that more careful searching will result in even better explanations.

Hey, Loser. Before you start slating my grammar, try looking at your
own> [Simon, the only reason *we* "pillocks] surely, your choice of
words should have been "us" and not "we"???.

By the sounds of your message, not only should you have used the word
"us" also you should have also replaced the word "pillocks" with
"fucking low-life dimwits"

I bet you read and re-read my post, trying to find any other spelling
mistakes that you could highlight and ridicule me with hey
"sissy-boy"???

I bet you are reading and re-reading this post, also trying to catch
another slip of my typing. Who do you think you are, my English
teacher, Sir?

>It used to have
> standards, both in technical expertise and behaviour. Your post only
> exemplifies the lack of both.

Err, can you please explain that statement too?

Hhmmm, can you tell me how your post was "technical expertise and
behaviour" (whatever that is meant to mean) You are the twat that
didnt even offer any help to my initial message - and you didnt even
put in any stupid comments until now... Very "techinical expertise
behaviour" from you, and thankyou for your valuable help and comments.

My post started as one thing. A simple, polite question on the
newsgroups asking for help with some settings on a Mark 5. And all I
got back apart from one or two helpful replies, was a barrage of
pathetic comments.

And now one from you. You Sir, are obviously nothing that can be
explained better, than a "nincumpoop".

There's a pretty good explanation of the relationship of the two in the ARRL General license class manual (the full manual not the question and answer book).

From: Doz <doz@doz.doz>
Message-ID: <418f8e13$0$27544$db0fefd9@news.zen.co.uk>
Source record: 55543

just had this back off Kenwood Communications UK.

"Originally we were told by the authorities that the extended 40-metre band limit wouldn't become an Amateur band until 2009 in our Region - the situation was very uncertain and OfComm were recently saying January 2005 (possibly) which then came down to "after the October consultation period".

Now of course, it has happened with minimal actual notice and the new limits are in force.

At the moment any of our HF rigs can be expanded to full general coverage TX by a simple dealer mod - there is no specific mod for 40-metres (or 5Mhz either) yet but production of new radios in Japan will be changed to reflect the new band limits.

We are keeping Japan up to date on this situation and I expect that they will produce firmware upgrades, if existing radios are suitable. Your TS-570 is actually their number one priority as it's probably our best selling model, so we are awaiting their advice on how this can be accomplished.

I suspect that it would probably be by a physical change, unsoldering and replacing a processor chip, so it would then be for customers to decide if they want to incur the cost of this work or have the much simpler and cheaper GC TX instead.
There is currently no modification that will expand only the 40 metres band.

As soon as we hear further from Japan on their plans I will of course contact you straight away."

Well, that clarifies it up a bit...

> audio supplied to the modulator.

Hi LLoyd, and YEP!

To further explain. One (frequency) is the integral of the other (phase)
(derivative visa-versa). You can't change one without changing the other.
Change the phase, and the freq jumps momentarily. Change the frequency and
the phase changes at a different rate.

> For example, if the audio is phase shifted

While present, phase shifting is a secondary effect of the frequency
shaping and unneeded for understanding.

> and given a 1/f amplitude response by a so-called audio
> integrator (a low-pass filter), it is theoretically possible

Not only theory here. This is how all two way transmitters were
modulated before synthesizers came into vogue.

> to apply
> the resulting audio to a frequency modulator and to obtain the same
> result that a phase modulator would produce. However, as "f"
> approaches zero, 1/f becomes so large that the method runs into
> practical problems. Conversely, a phase modulator can be supplied
> with preemphasized audio whose amplitude is proportional to its
> frequency, and fm output will theoretically result.

OOPS! I believe you have this backwards. I always have to look at the
intrgral/derivative carefully. Phase modulator and a "low pass" (constant,
in-band, 6 db per octave de-emphasis) gives FM. The Two-way FM transmitters
used a single pole (-6 dB per octave) low pass with a corner below 300 Hz.
for this required phase modulator shaping.

Ahead of that in the audio lineup was an amplitude limiter (Motorola
called it IDC Instantaneous Deviation Limiter) to limit the peak FM
deviation, so the two represented an FM modulator.

The practical problem mentioned above was that of the subaudible tone modulation (Motorola=PL, GE =? Channel Guard). With the Phase modulator/integrator approach, the low freq tones stretched its capability. The phase modulator needed to be very good to handle this amount of phase shift.

Point to ponder: (limited to narrow band, communication FM, not broadcast)
Because the normal FM scheme also uses (+6 dB per octave) preemphasis, there effectively is a preemphasis which cancels the FM/PM de-emphasis. They both could be eliminated IF a suitable RATE limiting circuit could be substituted ahead of the phase modulator to act as the peak deviation limiter. This would be a circuit which limits the rate of change of audio voltage going into the phase modulator...
Then... So, why have preemphasis ?? Do you know?

It is because frequency is given by "f"....

You will have seen "2*PI*f" which is the conversion
from frequency is cycles per second (Hertz) to frequency
in radians per second - a measure of by how much the
phase angle changes every second.

Therefore phase angle is the integral of frequency; frequency
is the differential of phase angle. Change one and you change
the other.

Interestingly, when it comes to measuring frequency stability
in a GSM phone it is done by differentiating the phase.

To quote Moe (of the Three Stooges), "Where were you when I needed you??!!"

I got one of those a while back and have had a blast with it ever since.
But I paid "new" price at HRO (well over $300).

For anyone who's not aware of what you can do with APRS, go to my home
page (http://www.bushong.org) and click on "Where's Dave" - at the
bottom/right.

I've also used the radio to remote-control my HF radio while walking
around the yard. Very cool.

It might, but it doesn't have to. Depends on how the repeater is set
up.

There are all sorts of combinations. There was one repeater in the
area I used to live in that had both carrier and tone access
capabilities. If the repeater was accessed by tone it would retransmit
a tone (can't remember if they used the same or different). If it was
accessed without tone, it wouldn't transmit tone.

Another repeater would transmit a brief tone if the repeater was
double keyed before the timer reset. It allowed users to monitor
on-hook without hearing QSOs in progress but their receivers would go
off-hook when breaking stations came into the conversation. This had
nothing to do with transmitted tone, however. At the time the repeater
was carrier access.

Baxter is toast on this if it is indeed true. The AARA is a farce, and filing a lawsuit like this is only going to get him sued in return and since this lawsuit if frivolous, Baxter may be end up on the short end of the stick - especially from a financial standpoint. I hope his insurance company is ready for this one. If he loses, he may have trouble getting insurance in the future. Insurance companies don't like to insure people who pull these kinds of tricks.

You're right, we Americans no longer care about the rest of the world. When we did, by feeding them, fighting for them, helping them rebuild, etc. The rest of the world crapped on us. Twice in the last century we had to save the damn Europeans in two World Wars. We give and give and give to countries starving and in need. We send our forces to restore peace. We help in earthquakes and famines.

So since we have always helped Europe and now Europe turns it back on us when we are in need, screw you all. Have a nice time fighting World War III by yourselves. We'll sit that one out thank you.

most repeaters use rather low power - so you only need low power to contact
one.
usually if you can hear it - you can break its squelch with 25 watts or
less.

I think Ace has you taken care of.
Matching sections are magic. I've used them to match dissimilar transmission
cables as well as antennas.
the quarter-wave 75-ohm section is especially useful for loops.

Rod,
Thanks for the information. Based on your info, I contacted a person (from a website link) that covers a particular repeater that I was interested in and found out that that repeated in fact does transmit a tone. The reason he gave for that particular repeater was that it is in an urban environment where there might be other traffic on the repeater frequency.

Our repeater does not require PL to access, It does however transmit 107.2
Hz for the purposes of using the auto patch.
Autopatch is for members only.
.
Reason for no PL for access is we want it open to visitors to the area. That
way they don't have to fiddle with setting PL while driving. It is a high
level machine and the area gets lots of vacationers, biz folks, and
tourists.

Another of our repeaters does require PL and transmits PL -- the access PL
prevents interference to another repeater.
The transmitted PL is again for purposes of autopatch -- (for members only).

No problem, now that you have explained your original intent.

By the way, there are several "Lloyds" in here (four, by my count), so
you have to make sure that you don't direct your comments to the wrong
one.

For example, one of the Lloyds recently announced that he was going
to put a streaming radio show on Shoutcast, and another Lloyd posted
something about beer and microchips. Neither of those was moi.

The last Lloyd seems to disappear whenever LRod posts, leading me to
have suspicions about a possible connection between those two.

It just shows that everybody wants to be Lloyd.

Good day,
Lloyd

The only connection between me and any lloyd is that I am periodically
compelled to wipe the newsgroup floor with the one from Athens, AL.

Also, that lloyd could not possibly have played in the thread about
frequency/phase modulation, or any other highly technical discussion..

Nah!!! It seems many have decided to talk over his
daily "ego-casts" on 3.975, 14.275 and 3.890 AM
like sooooooooo many hams have been doing this
past week. (be sure to listen during the 5 second pause
when he gives his "10 minute ID". The comments tossed
out 'in-the-clear' at that time are often quite humorous!!
One guy on 75 has taken to playing a clip of Moe from
The Three Stooges' classic clip: "...Quiet Numbskulls
I'm Broadcasting!!" at this point. (the first time I heard
that I actually *blew a whole mouthfull* of Pepsi-cola thru
and out my nose, it was THAT FUNNY !!!!!!!!)

baaaahahahahah!!

QRZdotCOM -

(AKA N9VTB?)

You are an ASSHOLE!

If you support the Belgrade
Bastard you are a pathetic RETARD.

Glenn Bastard is known for:

Qrming Boy Scouts
Bonnie supporting his shiftless ass
Not contributing to the Service
Riley beating him at every turn
Worthless Felony Affidavits
Sec. 333 and 501 - radio fiction!
Gail Fisk Malone whipping his ass
Being laughed at
Sounding shitty
Having a crappy signal
Having a racist co-host
Being a fat ass
Being a dumbass
Being a religious hypocrite
Being a wannabe lawyer
Amounting to less than nothing
Living on "Feces Pond"
Using outdated Collins shit
Having a scary looking skin ailment
Being queer
Being a janitor at Collins
Getting fired from Booz Allen Hamilton
Losing the AM power case
Losing his 10 million dollar suit
Walter Cronkite thinking hes a loser

Do any users of the kenwood mobile rigs with removable faceplates actually remove them and leave the rig in their vehicles? Gets Cold here in the midwest and I wonder if it is advisable to leave the radio in the car. What do the owners think/do? Thanks,John/WD9IWC

2083. K1MAN - Please Answer The Questions!

Newsgroup: rec.radio.amateur.misc
Date: 2004-11-11 18:14:27 UTC
From: Anonymous <BigappleRemailer@Optonline.Net>
Message-ID: <AX79YRIW38302.5517013889@anonymous>
Source record: 55594
Cross-posted to: rec.radio.amateur.misc,rec.radio.amateur.policy

What does the Nazi party signify to K1MAN?

Do remember the Nazis?

Do you believe there was a holocaust?

Why did you refer to Fred Lloyd as a Nazi?

Why did you refer to people who
complain about your broadcast as
Nazis?

Why do you trivialize Nazism and the Holocaust?

Are you sensitive to the victims
of the holocaust?

Why did you harass Len Schaier on your show?

Why do you send harassing email?

Have you ever sent harassing email
to a Jew?

Have you ever sent harassing email
to a Black person?

What was the Nazi view on African Americans?

Is the Nazi view on Africans a
view your co-host
Rich Whiten shares?

Do you hate Jews?

Have you ever attended a KKK rally?

Has your co-host ever attended a KKK rally?

Will you answer questions
regarding allegations of your KKK
involvement?

Are you afraid the Nazi party
will take offense at your
trivializing their party?

Rich Whiten acknowledges he called someone a Nigger.

Why do you call Rich a friend?

Are you proud to have a racist friend?

Do you believe your co-host was
wrong to call someone a Nigger?

Do you believe your co-host
was wrong to call someone a Spear-Chucker?

Are you a racist too?

Your co-host said African Women
can be stood on their heads to
scrub pots because their hair is
like a brillo pad.

Do you believe this too?

Are IARN and AARA racist orgs?

Do you share your co-hosts view that Blacks should go back to Africa?

Your co-host referred to Black people
as porch monkeys -

Do you agree?

Do you share your co-hosts view that African Americans are here for a free
lunch?

Will you answer questions about your co-hosts racism?

Are you afraid the NAACP will ask the FCC to revoke your license?

Why did you jam the Boy Scouts?

Why do you ignore what the Chief FCC Enforcement officer says about the
rules?

Who are the control operators
at K1MAN?

Where was the control op on when you jammed the Boy Scouts?

Why didnt you stop the broadcast when you found out you were jamming boy
scouts?

Do you plan to continue to interfere with other hams?

Who is on your law team specifically?

Why does Walter Cronkite think you
are a source of harm and damage to his
reputation?

How many people died because
you shipped communications equipment

to Bougainville?

Why do you think almost 1000 people on QRZ think you are a detriment to the hobby?

Why did you lose your lawsuit against K1KW?

Do you carry a gun?

Does Chris Murdock carry a gun?

Are you afraid peope will attack
you if they see you in public?

Is it true you were beaten up in high school?

Is it true Chris Murdock was beaten up in high school?

Is it true Sam Voron was beaten up in high school?

Have you ever sat in on a so-called "circle jerk?"

Will you try to sue ARRL or
is this more K1MAN propaganda?

Will you try to sue Riley
Hollingsworth?

How many lawsuits have you lost, all told?

Do you believe you ruined the AMers chances of power parity with your failed law suit?

Do you think most AMers despise you?

Why do you monopolize the AM window?

Do you run more than 375 watts
from your Collins AM transmitter?

Why do you interfere with hams on a daily basis?

Why do you think so many people hate K1MANs broadcast?

People say you are
mentally unbalanced are you?

Have you received
Psychiatric treatment?

Why not?

What medications do you take
for your Psychiatric problems?

Why do you avoid giving straight
answers about your Psychiatric

problems?

Are you or have you ever been a homosexual?

Are you or have you ever been a Communist?

Why did you assist the
Young Communists?

Did you ever jam any
Young communists?

Is Sam Voron a Communist?

Why dont you answer
questions about your alleged Communist sympathies?

Are you and Sam Voron lovers?

Are you and Chris Murdock lovers?

Is Sam Voron both a Communist and a homosexual?

Why wont you answer questions about your alleged homosexuality?

Have you ever used Viagara?

Have you and Chris Murdock ever used Vagara together?

When you make your "brief statements"
who is interviewing you exactly?

What method of control is used at
the transmitter point other than
a radio shack timer.

If you are not near the radio when broadcasting, how is it controlled?

How much emergency traffic did
K1MAN handle this hurricane season?

Who sent you this traffic?

Will you publish your emergency
traffic?

How many health and welfare
messages have you passed?

Will you publish the health and
welfare messages?

Why did you qrm the Salvation Army
net?

Why did you qrm the UFO net?

Are you an alien?

Why wont you answer allegations
that you may be an alien?

Is Chris Murdock and alien?

Is Chris Murdock a homosexual
communist alien?

Why wont you answer allegations
that you are a homosexual communist alien who jams boy scouts?

What is your favorite activity
when you invite Boy Scouts to your shack?

Have you ever invited Webelos to
your shack?

Why havent you invited girl scouts
to your shack?

Do you enjoy eating Brownies?

Can you tell us about the nature
of your packet messages?

Isnt it true the majority of your packet messages ridicule K1MAN?

Why do you feel you need to monopolize 14.275?

Do you believe 14.275 is your
frequency?

Do you hate Riley Hollingsworth?

Why do you hold Amateur rules in contempt?

Transcript of racist tape in question:

"Now theres a nigger if there ever
was one. Take your black ass and
go back to Africa. You better take another hit on that crack pipe,
boy. Lawd have mercy, I cant
believe these black people in here.
Ah hell, black woman got all that
black bushy hair, looks like a brillo
pad, turn her upside down and use her head to scrub your pots. This
damn porch monkey spear chucking
bubbas talking about good white
folks."

(unknown voice telling
Rich that he was recorded by the
amateur enforcement line)

"Good Im glad, you can take that
enforcement line and stick it clear up your ass, I dont like niggers,
N1GJT de WB2OTK. You know Jigaboo is worried about what goes on here."

Please answer the questions K1MAN.
The public has a right to know.

Idiot.

You aren't listed on my web page either.

That's because it's MY web page, not yours, just like it's QRZ's web page (not yours). You are still on the FCC's web page, for now. I checked today (212-479-7990) and those callsigns are still active.

Amateur Radio Newsline™ Report 1422 November 12, 2004

Amateur Radio Newsline report number 1422 with a release date of Friday, November 12, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. The FCC turns off the ham radio licensing computer and a big Aurora opening hits North America. Find out the details on Amateur Radio Newsline report number 1422 coming your way right now.

(Billboard Cart Here)

**

WITH THE FCC: HAM RADIO LICENSING STOPS AND STARTS DUE TO COMPUTER GLICH

Ham radio licensing came to a screeching halt on November 5th. This after a software glitch caused the computer that issues licenses to do some very strange things. Mark Abramovich, NT3V, has been following the developments from Philadelphia and gas more:

--

The FCC isn't offering any official comment on exactly what happened. But Amateur Radio Newsline has learned that the problems with the Universal Licensing System computer started after an Oct. 28 software upgrade installed by a government contractor.

The problems that followed prompted the FCC to order a five-day shutdown of the system which issues Amateur Radio licenses. The system came back on-line on Nov. 10. However, as of our deadline for this week's program, the FCC still planned a weekend shutdown of the U-L-S for maintenance and expected it to return to operation on Nov. 15.

The American Radio Relay League's Volunteer Examiner Coordinator Bart Jahnke, W9JJ, tells Amateur Radio Newsline he was among the first to detect problems while doing a routine check up on the application of a friend near the end of last month.

Jahnke says he discovered the application was - as he describes it - flagged or marked pending by the
FCC for a review by a live person. He says the automated system and its software are set up for minimal human intervention. Jahnke says such a classification immediately raised concerns that something had gone wrong.

Jahnke tells me once he called his contact at the FCC to report the problem, he was told the computer contractor would be notified to investigate.

A couple days later, Jahnke says he was told the problem was fixed. But, as Jahnke tells me, he checked and found that the computer problem had gotten worse. He says he and other VECs were finding the U-L-S had begun issuing Group D call signs - the 2 X 3 ones - to new licensees out of sequence. He says only the first and third call-district applications somehow escaped getting caught up in the problem.

At that point, Jahnke tells Amateur Radio Newsline he and other VECs called the FCC. He says the commission told the contractor to pull the plug on the system on Nov. 5, run some diagnostics and fix it. A message posted on the FCC's website on Nov. 5 said simply: "The granting of Amateur applications has been temporarily suspended. We apologize for the inconvenience."

Prospective hams who had passed VE exams earlier and were awaiting their call sign were getting nervous. Some who received the out-of-sequence call signs were wondering whether the call signs were OK to use. A few had even received a second call sign, cancelling the first. In all, Jahnke says about 130 licensees were affected and thousands of license applications were backed up in the system.

By Nov. 10, Jahnke says the FCC began issuing letters cancelling the out-of-sequence call signs and awarding the proper call signs to new licensees. For some, he says it was their third call sign in a matter of days.

Jahnke says the FCC deserves credit for responding as fast as it did. He also has praise for the other VECs across the country who were in touch the with FCC, too. Jahnke says he's crossing his fingers and hoping the planned weekend maintenance of the FCC U-L-S computer, won't undo the system fix.

For the Amateur Radio Newsline, I'm Mark Abramowicz, NT3V, in Philadelphia.

--

More on this situation in future Amateur Radio Newsline reports. (ARNewsline(tm), NT3V with input from FCC and ARRL)

**

UNEXPECTED VHF DX: THE BIG AURORA OPENING OF NOVEMBER 7

--

N6ZE: "The aurora was very bright most of the time and the magnetic bearing from the airplane extended from 300 degress through about 060 or 070. We saw this for about 3 hours and a distance of probably 1900 statute miles."

That's Pete Heins, N6ZE, describing last Sunday night and early Monday's magnificent Aurora from his vantage point in the right seat of a Boeing 757 jetliner. Pete was the co-pilot that night, flying from Los Angeles to New York's J-F-K International airport.

--

N6ZE: "At no time was the visability obscured by clouds, and for about the last 1 hour of the flight we did have about a 1/4 moon in the Eastern sky climbing, and we were still able to see the AU."

--

And while Pete was making his way across country, hams on the ground were sitting on 6 meters, 2 meters and all the bands above. And some like Dave Bernhardt, N7DB, in Boring, Oregon were hearing and working stations all over the place. Dave primarily operated 2 meters where according to the V-H-F reflector he worked W7IUV, K7XC, K7GS, WA6KLK and VE7DXG to name only a few. And Dave was not alone.

On the other side of the country, Jeff Klein, K1TEO, in Trumbull, Connecticut reports making Aurora propagation contacts on 2 Meters as far south as Alabama and Tennessee. To the west Jeff worked stations in Missouri, Iowa and Minnesota.

According to reports from NASA, the Auroral opening was caused by a Coronal Mass Ejection or C-M-E on the Sun. That event happened late on Friday, November 5th with the ionized particles reaching our Earth late on Sunday. Television news programs on Monday night showed pictures of this very bright Aurora as far South as Minnesota and northern Kansas.

On Tuesday the 9th two more solar shocks have arrived. Paul Kelly, N1BUG, in Milo, New Hampshire reported them on the VHF Reflector. The first hit just after 09:00 UTC but did not contain favorable magnetic field vectors or strength to produce Aurora at North American mid-latitudes. The second, arriving near 18:20 U-T-C did produce the classic Aurora buzzing. He later describe this event comig just in time for the natural late afternoon peak for auroral backscatter. He says that the Aurora came up fast and suddenly 2 meters filled with strong buzzing signals. He says over the reflector that he worked as far South as grid square E M 66.

And while hams who only operate the high frequency bands were complaining that 80 through 10 meter propagation had literally disappeared, those like N1BUG, N7DB and K1TEO on 6 meters, 2 meters and above were calling C-Q Aurora and making lots of contacts. All that is except Pete Heins, N6ZE, who landed his big silver bird at New York's J-F-K airport just as the sun was coming up. Then again, you have to admit that sitting at 37,000 feet on the flight deck of a 757, Pete probably had the best view of all. (ARNewsline(tm), N6ZE, VHF Reflector)

**

MORE ON PROPAGATION: WWW.HFRADIO.ORG/PROPAGATION

By the way, Dick Mannheimer, K6LAE, who was one of the first to alert us to the Aurora also passes along information on an excellent propagation website. Its in cyberspace at www.hfradio.org/propagation.html

The site is operated by Thomas Hood, NW7US. If the name and call sign sound familiar its because this is the same Thomas Hood who writes propagation columns for CQ, CQ VHF, Popular Communications and Monitoring Times magazines.

We have looked at the site. It's well worth bookmarking on your web browser. Again the URL is www.hfradio.org/propagation.html (K6LAE)

HELPING HAMS: UNITED WAY REPORTS HUGE HAM RADIO RESPONSE TO ARRL HOLIDAY TOY DRIVE

The United Way in Martin County, Florida, reports "a huge response" by the Amateur Radio community. This, to the ARRL's call to support a toy drive on behalf of the agency's "White Doves Holiday Project."

According to the ARRL Letter, Carol Hodnett, who directs the United Way of Martin County's Volunteer and Community Resource Center says League members from Maine to California have sent toys or money, and more is arriving every day. The League hopes to provide toys for youngsters left homeless or displaced by a string of hurricanes that hit the region earlier this year.

There is still time for you to take part in this very worthwhile project. All you need do is to purchase an unwrapped toy for a boy or girl aged 1 to 14. Please send it prior to Thanksgiving, Thursday, November 25th. Be sure to include a QSL card or 3x5 card displaying your call sign. Mail it to Ham Radio, The United Way White Dove Project, 50 Kindred St, Suite 207, Stuart, FL 34994.

In our view this is Amateur Radio at its very best. Hams helping kids in a true time of need. (ARRL)

**

ENFORCEMENT: ARE YOU THIS PERSON?

An FCC license holder who is likely a ham is being asked by the agency if he is the same person convicted of a number of criminal acts. And the agency has an important reason for asking. Spokesman Daryl Duckworth, NN0W, explains:

--

Duckworth: "Regarding qualifications to remain a licensee, in inquiry concerning criminal convictions for theft by deception and theft by failure to make required disposition of funds as the result of an investment scam went to a licensee in Johnstown, Pennsylvania."

--

According to the FCC release, the person involved is also under investigation by Pennsylvania Administrative Office of the Courts for a possible indecent assault. This is alleged to have been committed on July 30th, 2002.

The purpose of the probe is to determine if the person contacted is the same one as in the alleged and proven criminal cases. For that reason the FCC has withheld the persons identity or any other factual material to indicate whom he or she might be.

But if its the right person, he or she was given two options by the agency. The person can provide additional information on the convictions and charges for consideration by the Commission. Alternately, he or she can voluntarily submit a license for cancellation in order to avoid a hearing on the issue. (FCC, RAIN)

**

ENFOECEMENT: YOU CAN'T SELL THAT BEACON

Still with enforcement news, word that ACR Electronics, Inc. of Fort Lauderdale, Florida, has been fined $75,000. This, for marketing a personal location beacon to the general public that had not been approved by the Commission.

Now here's the ironic part? The CGC Communicator reports that some of the material submitted to the FCC by ACR helped make the case against the company.

It's all on line at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DOC-253871A1.doc and http://hraunfoss.fcc.gov/edocs_public/attachmatch/FCC-04-259A1.doc (CGC)

**

ENFORCEMENT: POWER - LESS POWER CAPTAIN

An unlicensed broadcaster's response to an FCC Notice of Violation has helped to clinch a $10,000 fine issued against him. Amateur Radio Newsline's Bill Pasternak, WA6ITF, has the details.

--

Well, the details really speak for themselves and we would be hard put to say it better than David Michael Oaks. Oaks is the one who received the $10,000 fine for allegedly operating an FM station at his residence in Beaverton, Oregon. This, without the benefit oof holding a valid license to do so.

Quoting from the FCC report and order affirming the fine, the agency says that in responding, Oaks did not deny the charge. Rather, he stated that he was attempting to correct the violation by lowering the power each time he received a notice that he was operating an unlicensed station.

But that's not all. The FCC goes on to say that Oaks asserted that the investigating agent told him that the effective range for a transmitter operating pursuant to Part 15 of the Rules is about 100 feet. Also, that if Oaks chose to do so, he could purchase a Part 15 certified wireless microphone to compare the range of that signal with that of his station.

Oaks did not choose to do so. Nor did he refrain from operating after receiving several written warnings. Based on all of this evidence, the FCC says that the $10,000 fine will stand.

For the Amateur Radio Newsline, I'm Bill Pasternak, WA6ITF, in Los Angeles

--

More on this case is on line at

RESCUE RADIO: PROPOSED RADIO JAMMING SYSTEM DROPPED FOR THE MOMENT

Some good news and some bad about an emergency information system proposed by Alert Devices International Corporation. The company has requested that the FCC to dismiss its Petition for Rule Making to create an Emergency Vehicle Signaling Service. This is the previously described service that would allow emergency vehicles to jam out authorized broadcast stations and replace them with emergency warning messages designed to attract the attention of affected motorists.

The good news is that the FCC has granted A-D-I's dismissal request. The bad news is that ADI - according to its latest filing - proposes to submit an "expanded version" of its Petition in the near future. Its all on the web at
http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-04-3521A1.doc
(CGC)

MORE POWER CAPTAIN: ELECTRICAL INDUSTRY CHASTISED FOR 2003 BLACKOUT

Those wonderful people that are now bringing you BPL have bigger problems to worry about. This after Federal regulators issue a scathing review of the electricity industry's voluntary efforts to make their power grids more reliable.

The report comes about a year after nation's worst blackout that hit on August 14th of 2003. According to staff at the Federal Energy Regulatory Commission, power industry audits play down shortcomings of the grid system, rely on ambiguous standards that often are ignored and reflect vast differences between the best and the worst performers.

But the agency's chairman Pat Wood did say that there have been improvements since the blackout that was caused by power line problems in Ohio and affected eight states from Michigan to New York as well as parts of Canada. (Published reports)

**

IN PRINT: ALL ABOUT TONE

And with more and more repeaters implementing some form of tone access, it is C-Q Magazine that's taking the lead in explaining how it works to the ham community. In his three page article in the November issue, writer Dave Ingram, K4TWJ, "How It Works" column traces the use of tone access and explains why it can be far more of a friend to hams than a way to keep them off a system they may want to try. You can read what Dave has to say in the November C-Q on newsstands right now. More information is on the web at www.cq-amateur.radio.com (CQ)

**

ON THE WEB: QRZ.COM NEEDS YOU

The giant Q-R-Zed dot com website says it needs some volunteers to help it better serve the needs of the world wide ham radio community. According to its owner Fred Lloyd, AA7BQ, the popularity has resulted in a need to enlist a few more volunteers to help out on the website operations.

Lloyd says that Q-R-Zed currently has openings for two types of volunteers,. These are board Moderators and Callsign Database Administrators. An explanation of the responsibilities of each is on line at the Q-R-Zed site. Its in cyberspace at www.qrz.com. (qrz.com)

**

BREAK 2

CHANGING OF THE GUARD: SHIRLEY WILKERSON JR. W4TBU S.K.

Some sad news to report. Word that Elmer Extraordinary, Shirley Wilkerson, Jr., W4TBU, died on Monday, November 8th. As reported last week, Wilkerson was 84 years old and had been hospitalized in declining health.

According to Tom Webb, W4YOK, Wilkerson was licensed in 1950 and was a one-time member of QCWA with his story featured in the winter 2003 edition of the Q-C-W-A Journal. He is survived by a sister. (W4YOK)

**

TELECOMMUNICATIONS SECURETY: PASSCODE FROM AMERICA ONLINE

Turning to the high tech page, America Online says that it will begin offering members a security device and service that has been used to safeguard business computer networks. This after parent company Time Warner Inc. announces that its AOL unit has signed a deal with Internet security company RSA Security Inc., to launch its new AOL PassCode.

Using an ever changing algorithm, the system is designed to add an additional layer of protection to member accounts. PassCode users will be provided with a small handheld six-digit numeric code key which refresh on the device every 60 seconds. To log onto an AOL account equipped with the service, users will have to type in the six-digits in addition to their regular password.

The price of the code-key device will be $9.95. Service costs will range from $1.95 to $4.95 per month. This, in addition to the usual America Online subscription fee. (AOL, published reports)

**

EMERGING TECHNOLOGY: FALSING CALLER ID

The Washington Post reports that a new technology can trick U.S. caller-ID services into displaying someone else's name and telephone number. The Web-based systems make the name and number appear in a call recipient's caller-ID box.

A company called Star38 that launched in September with plans to market to debt collectors has changed its strategy after consumers complained. Star38 admitted the approach was "flawed," and now says it will market their system to law enforcement agencies.

New Jersey-based Camophone says it will perform the service on a call-by-call basis for a fee of $5 and up. The company said it recognizes that the service could be abused but insists its intent is to help customers protect their privacy.

But consumers worry that the technology could be used by stalkers and debt-collection agencies, some consumers worry. The Direct Marketing Association said masking a marketer's identity is illegal under rules enforced by the Federal Trade Commission and the Federal Communications Commission. (Washington Post)

**

HAM RADIO IN SPACE: AO-51 E-MAIL REQUEST BOX

AMSAT North America has announced the establishment of an E-mail address for AO-51 users to submit requests and ideas for Experimenters Wednesday operations. AMSAT says that this is a chance for the ham community that uses AO-51 to request the modes that they are interested in* seeing operated on during the weekly Wednesday times. All input will be noted but do not expect a reply to your E-mail. Send your requests or ideas to ao51-modes@amsat.org (AMSAT-NA)

**

WORLDBEAT: VE3PU NEW TREASURER OF RAC

Back here on mother Earth, word from Radio Amateurs of Canada that Ken Pulfer, VE3PU has been appointed to the position of Treasurer. Pulfer will complete the unexpired term of Eric Ferguson VE3CR who recently resigned.

This is not Pulfer's first time in the job. He has served as R-A-C Treasurer in the past, and brings a wealth of experience to the position. (RAC)

**

WORLDBEAT - UK: FINAL G5RV LOGBOOK RETRIEVED FROM EBAY

Meantime, word from the United Kingdom that the final log book of one of the worlds best-known radio amateurs has been saved for posterity. This, after it was put up for auction on eBay.

The late Louis Varney, G5RV, of G5RV antenna fame was one of the founding members of the Chelmsford Amateur Radio Society in 1936. So when Chelmsford club member Duncan Munro, M0KGK spotted that G5RV's last ever logbook was being auctioned, the club decided to buy it.

Munro did the bidding. Despite fierce competition he managed to secure the logbook in the last eight seconds of auction.

The logbook shows that G5RV's final QSO's took place on the 11th January 2000 and were , appropriately enough recorded on page 73 of the logbook. The stations contacted were Ron Glover, G0WGP, in West

Sussix and club President Harry Heap, G5HF, in Chelmsford. Louis was, of course, using his famed G5RV antenna for all of the contacts. (GB2RS)

**

DX

In D-X, word that W-6-S-J, will be on the air from the Bahamas as C6AWS from November 26th through December 2nd. Activity will include a Single-Op/All-Band/Low-Power entry in the CQ World Wide DX CW Contest. During non-contest periods, he will concentrate on the WARC bands. QSL to his home call. (OPDX)

And Look for 7Q7LA back on the air from Malawi in a few weeks. This, as G0IAS, updates the OPDX that he is hand carrying some ham gear for Ron to be sure that it arrives safe and sound. G0IAS will leave the U-K on the 28th of this month and is expected to arrive at the Lakeshore on the 30th. The confirmation route for 7Q7LA remains direct to G0IAS. There is no QSL bureau in Malawi. (OPDX)

**

THAT FINAL ITEM: UK HAMS ON THE AIR WITH EXPANDED 40 METER PRIVELEGES

And finally this week, hams in the U-K have taken to the airwaves with their recently expanded privileges. RSGB Newsreader Jeramy Boot, G4NJH, is where it all took place:

--

UK radio amateurs gained access to new frequencies between 7.1 and 7.2MHz from 31st October.
After dark, the band between 7.1 and 7.2MHz is still full of powerful broadcast stations, although some clear frequencies can be found.

The band became available on the second day of the CQ World Wide DX Phone Contest. Many UK stations took advantage of the new band by making contest QSOs with stations in the USA on their own frequency, instead of having to work 'split' as had been the case when contacting North America on 40 metres SSB.

During the daytime, numerous UK stations are now able to have virtually interference-free inter-G contacts above 7.1mhz.

The new band is available to radio amateurs on a Secondary, non-interference, basis until 2009. After the end of March 2009, the broadcast stations should move to other frequencies and 7.1 to 7.2MHz will then become an amateur Primary band.

Jeremy Boot, G4NJH, in Nottingham.

--

Amateurs in the Republic of Ireland were also granted access to 7.1 to 7.2 MHz towards the end of October, joining those in Croatia, Norway and San Marino who already had access to these frequencies. Hams in Switzerland will also gain access to 7.1 to 7.2MHz from 1st January 2005. (GB2RS)
**

NEWSCAST CLOSE

With thanks to Alan Labs, AMSAT, the ARRL, the CGC Communicator, CQ Magazine, the FCC, the Ohio Penn DX Bulletin, Radio Netherlands, Rain, the RSGB and Australia's W-I-A News, that's all from the Amateur Radio Newsline(tm). Whether we wanted Bush or Kerry, makes no difference. We got who we got.
Time to put those differences aside and hope for the best. All the moaning
and groaning, bitching and complaining isn't going to change the facts of
who has claimed victory. This country needs some major remodeling and
someone - anyone - needs to roll up their sleeves and get to work.
Actually, the majority of the politicians are crooked as hell. Most of them
have been in too long.

As to the foreigners who wrote our fellow citizens trying to persuade them
who to vote for, I say BUTT OUT. You have enough trouble running your own
country - small as it is. We have gotten along 200+ years without your
input, and we'll get along another 200+ years. Yes, we have our squabbles,
and yes we may bitch and disagree... but dammit, when the shit hits the fan
as in 9/11, we get together and kick ass. WE left jolly ole England once -
we thought it was for good. Then we had to go back to save your asses. So,
kick back and relax and drink your tea. You mind the store there, we'll mind
ours - here.

IF you disagree with me, then do me and the rest of my fellow citizens a
favor........ don't ask for any more welfare.
One more thing - you hate Bush? Well... your Prime Minister is chiming along
with him, so let's see how well you do in your own election! PRACTICE WHAT
YOU PREACH. We'll be across the pond watching - not that we give a damned.
You won't see us writing any letters to your people to persuade them to vote
for anyone in particular. WE're #1, all else - pick a number. But don't
stand so close, we can't stand the stench.

2103. What is the best HF transceiver these days?

Newsgroup: rec.radio.amateur.misc
Date: 2004-11-14 03:50:20 UTC
From: lostcauses@earthlink.net
Message-ID: <8d456081.0411131950.756647bf@posting.google.com>
Source record: 55615

Hello,

I've been out of the hobby for years now, but want to purchase an HF rig, possibly with the 6m and 2m and even 70cm options. My main concern is that the radio have the best and most flexible receiver possible. I'd like to do some DSP work and if the receiver is a software receiver and is programmable, that would be very desirable.

I was looking at the TenTec site and they advertise a transceiver with 0.35 uV sensitivity at 10db S+N/N in a 3KHz SSB mode. On the other hand, the Kenwood 480 guys are claiming a 0.10 uV sensitivity, but didn't say what mode.

It looks to me like TenTec is the most technologically advanced, but then why the lower sensitivity? I wonder if Kenwood is not completely truthful.

Well anyway, what's going on? Are these the right brands to be looking at anyway?

Thank you,

StevenS

One would think that being put on Baxter's crap list would be a badge of
honor that one could wear proudly.
Get on it once, good for you. Get on it twice, you get a promotion. Get on
it three times? You enter the Glenn Baxter Hall Of Infamy!

Not at all. It means that JAZ is three times better than AMP! Give JAZ six
gold starz!
Give AMP two.
Everybody else gets one.

Is it any wonder that the rest of the world thinks of america as it does with bigots like you who
have their heads so far up their arse you cant tell the shit from the shit.
Thank goodness it may not be true.
Bush is no more representative of all Americans than Blair is of Brits.
They got elected, but that is politics.
Most politicians couldn't give a straight answer if it had a flagpole to hold it upright.
Marco
PS Apologies for top posting, it might save you having to read most of the claptrap that follows.

I think you can't go wrong with any of the major makers such as TenTec, Yaesu, Icom, and Kenwood. They are all good. In either case, the sensitivity is excellent and you as the operator probably won't notice the difference. Your antenna setup will make the major difference.

Instead, decide what features you want and how important each feature is to you. Then see how the various radios stack up. For example both my husband's Icom 741 and my Kenwood TS-2000 have built in keyers on which you can set the speed. However on his there is no readout as to what the speed is. You have to just set it by ear to the approximate speed that you want but within its range it is infinitely variable (i.e. not limited to whole number increments). On mine, I get a readout of the setting and can set it at a specific speed. but it is limited to whole number increments. So what do you prefer? His radio allows the add-on filters internally as well as having DSP. Mine does not. Again what is important to you?

Are you looking at the software defined radio angle?
There are a couple of those now being manufactured that
might be better platforms for doing DSP work.

Firstly, Ham Radio is not a hobby, it's a technical pursuit.

The best transceiver for any self-respecting _REAL_ Radio Ham is
the one that he conceives and makes for himself.

CBers, OTOH, have a hobby and buy their rigs off the shelf, even
sending them back to the emporium if needing repair.

You'd be surprised at how many CBers-Masquerading-As-Radio-Hams
there are to be found today!

2119. Re: What is the best HF transceiver these days?

Newsgroup: rec.radio.amateur.misc
Date: 2004-11-14 16:06:51 UTC
From: Keyboard In The Wilderness <Key@Kennel.net>
Message-ID: <woLld.141125$hj.57466@fed1read07>
Source record: 55631

Looking at sensitivity without examining the other receiver characteristics
won't tell you much.
You should take into account all of these:
Sensitivity
Dynamic range
Selectivity -- Filter Characteristics such as Shape factor (skirt
selectivity) and ripple
Intermodulation Distortion
Phase Noise - Noise floor
Minimum Discernable Signal
DSP performance
More

See Selecting a rig at URL:
http://www.arrl.org/tis/info/pdf/29379.pdf

Then read the reviews

The ARRL transceiver reviews is a good place to compare these specs and what
they mean.
http://www.arrl.org/members-only/prodrev/

A rig can have super sensitivity specs with lousy dynamic range -- it is
difficult to get both -- lots of tradeoffs in receiver design.
Dynamic range is a very important receiver spec as is selectivity as well as
sensitivity.

Look for high receiver intercept points, excellent dynamic range, sharp
selectivity and a low phase-noise synthesizer

Be careful when comparing a $1000 radio to a $3300 radio -- there are
usually good reasons for the higher price.

The Anon Keyboard
I doubt, therefore I might be

It was the Brits who "TRIED" to persuade "OUR" election. Stay the hell out of OUR business. We don't need your bull shit induced in our country. We told you that 200 years ago.

Bigots? Who the F#$K saved their asses????? (your's if in fact you are Brit) Huh?? You pansies sure can't save your own asses. You can't deny history! It is U.S. - the American Tax Payers who shell out our money to save the f&%king world, because the candy asses can't do it alone. IF "WE" didn't put all the "foreign" welfare bums on our welfare roles, we'd be far better off. OUR people wouldn't be hurting as they are. OUR seniors go without medicines and food cause we're too busy paying for the rest of the dead beats around the world.

IF it weren't for U.S.- you'd be speaking something other than English or whatever the hell you mutter. If it weren't for US, the Brits might STILL be in ruins. "WE" shelled out BILLIONS to rebuild their sorry asses and have YET to be repaid in full. WE have a right to be pissed. It is OUR money spent and OUR men and women who die for your sorry asses. It was said once, about 20 years ago, if the European countries would repay us for rebuilding them, our Social Security coffers would be well off til about the year 2075 or so. That is a LOT of money.

THE ONLY thing I agree with you on and you me, is the politicians being liars.

Quite frankly, I don't give a shit what the candy asses think of U.S. - They sure know where to turn for money! What they DO think, is we're a god damned Bank - better yet, one big "Grant" never to be repaid.. That shit should stop immediately. I can guaran-goddamn-tee you, we'd be hated for sure..... You can't say we wouldn't. WE give - give - give, and get kicked in the teeth every damned time. Every damned country we've helped has tried to screw us up the ass. THAT IS THE TRUTH. Iraq, Afghanistan, and I can go on. ALL got some of our money, now we are fighting them. FRANCE - stabbed us in the back. England, well, I'm sure in due time - they will too. We're TOO damned trusting and too damned liberal with our tax dollars when it comes to other countries. As long as I am a tax payer, I have every god damned right to be pissed off.

Paranoid? Nah, I don't think so.... We have no reason to fear. Some of us may die, but we'll take a hell of a lot more of the enemy with us. I will agree with Bush on one thing. You're either with us or against us. Truer words could never be spoken.
But the fact is, MOST who claim to "be" with us, stab us in the back. As I said in a previous post, we're TOO trusting.
WE need to just do it alone and be done with it. WE're doing most of it alone anyway.

Whether I like Bush or not, isn't even the question. I'm sick of our country being walked on by others - others who we have helped and continue to help - then you candy asses have the nerve to talk about us? YEAH RIGHT! Stuff it up your ass. Bush is our leader - right or wrong. It is the bigger picture I look at. ALL our women and children's safety. The economy of our country faltering while we act as saviors to the world. OUR men dying because the candy asses aren't man or woman enough to stand up on their own two feet.

Yeah, maybe we are stupid--- for giving a shit about the rest of the world. Guilty as charged. Our sentence is handed down daily in deaths and dollars.

TBA

Well when your nanny has picked up your rattle, get your daddy, if you know who he was, to change
your nappy.
Like I said, there is nothing wrong with the majority of American people, it is just the few
bigheaded morons who think the rest of the world owes them everything!!
Just remember your roots and be glad you have free speech.
Marco

Don't try and change the subject.
We were talking about SOME americans thinking the world owed them a living.
As for the UN, where is it situated? Who is the leading light?
The USA. I think you shot your own foot.

Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, WA1S, KF2TI, W2GB, NG3K, W3UR & The Daily DX, K4VUD, KJ4UY, N4AA & QRZ DX, K8YSE, DL1EK & The DX News Letter, DJ8NK, EA7FTR, F5CWU & La Gazette du DX, F5NQL & UFT, G3SWH, I1JQJ/IK1ADH & 425 DX News, IZ8BRI, JI6KVR & JA-IOTA Islands News, LU9ESD, LX2AJ, OH2IW/OH6UM and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 7th/November, through Sunday, 14th/November there were 209 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HI, HK, HK0/a, HL, HP, HR, HS, HV, HZ, I, IS, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, PA, PJ2, PJ7, PY, PZ, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T7, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V5, V7, V8, VE, VK, VK9L, VK9N, VP2E, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, XX9, YA, YB, YI, YJ, YK, YL, YN, YO, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3DA, SWAZILAND. Remember to look for Joe/AA4NN and Chuck/W4GMY to be active this week as 3DA0NN and 3DA0CG, respectively, from November 17-22nd. Activity will mainly be on CW on 160-10 meters. They will leave here and go to Mozambique (C9), November 24th, for the CQWW DX CW Contest.

8P, BARBADOS. Tom, W2SC, will once again be active as 8P5A in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via NN1N.

9N, NEPAL. Look for Rudolf/DJ3WE, Falk/DK7YY, Ben/DL6RAI and Roberto/ IV3IYH to be active this week as 9N7BCC between November 16th and December 5th. There is a possibility that some of the operators may receive their own private licence. Team members plan to have three stations on the air simultaneously. Check the usual DX frequencies on 160-15m and also possibly on 10 meters. However, their emphasis will be on the lower and WARC bands. Also, look for RTTY operations before and after the upcoming CQWW DX CW Contest. QSLs for 9N7BCC are via DK7YY.

A6, UNITED ARAB EMIRATES. "The Daily DX" reports that Don, N1DG, will be here between November 15-21st, and active during his spare time from the QTH of Saeed, A61AD. Activity will be on 40-10 meters with operations mainly on RTTY and PSK31, and CW on the WARC bands. QSL via N1DG.

C6, BAHAMAS. Dave, G4WFQ, will be active as C6AWF from Treasure Cay, Abaco Island (NA-080), April 15-29th. Activity will be on 80-10 meters including the WARC bands with operations mostly CW, RTTY with some SSB. QSL via G3SWH. There will be an online log on the following Web page, and the log will also be uploaded to the LoTW after the operation. The Web page is: http://www.g4wfq.btinternet.co.uk

CONTESTER/DXER GATHERING. The Contest Club Finland (CCF) and the OH DX Foundation (OHDXF) have announced and are inviting you to attend their 10th annual Contester/DXer meeting to be held aboard the Viking Line m/s "Gabriella" on January 21-23rd. The ship will leave from Finland (OH) and travel to the Aland Islands (OH0) to Sweden (SM) and then back the Aland Islands (OH0) and return to Finland. There is only a limited number of cabins availabe. Please notice that they have cabins from A to C-class, all with the same price. People booking their cruise first will get the best cabins. The preliminary agenda, prices and on-line registration forms are now available on the CCF Web page at: http://www.qsl.net/ccf/meet10th.htm Also, visit the OHDXF Web page at: http://www.ohdxf.fi

GJ, JERSEY. Operators Rich/K2WR, Dave/G4BUO, Ed/G3SQX and Gary/G4IFB will be active as GJ2A in the CQ WW DX CW Contest (November 27-28th) as a Multi-Single entry. QSL via K2WR.

HC8, GALAPAGOS ISLANDS. Operators Robert/N5KO, Daniel/K1TO, Stephen/K6AW and Zoli/HA1AG will be active as HC8N in the CQ WW DX CW Contest (November 27-28th) as a Multi-2 entry. QSL via W5UE.

HS AND XU, THAILAND AND CAMBODIA. Bruce, AA4XR, will busy over the next several weeks. He is expected to arrive in Bangkok Tuesday, November 16th, and should be operational that night as HS0ZCY. He will be active from his QTH between November 16-20th and December 1-7th. There will be a heavy emphasis on the low bands and CW/RTTY/PSK31. Larry will be attending the "SEANET Convention" (the Dayton of the Pacific) Friday/Saturday, November 19-20th. He will try to squeeze in some guest operating time as HS72B on the WARC bands. He will depart Sunday, November 21st, for Cambodia (XU)

and arrive in Komgpong Som midday on Monday, November 22nd. Larry states that he will be operational within a couple of hours after arrival as XU7ADF. He will stay 8 days (November 22-30th). His activity will be on all bands (including the WARC bands) 160-10 meters with an emphasis on RTTY and CW. Larry will also be operating from the IOTA Koh Pos (AS-133) as XU7POS (as a guest of Jacques/ON4AJV and the Belgian team there). Look for him to be active in the CQWW DX CW Contest (November 27-28th) as a Single-Op/Single-Band entry. He will be signing as XU7ADF. Larry states, "My partner in crime for the Cambodian trip is the legendary Thai Contest Guru (and 40wpm cw guy!) Champ, E21EIC. He will be very active using his callsign XU7ADE as well." QSL XU7ADF via AA4XR. QSL XU7ADE via E21EIC.

HS72B, THAILAND (Update to OPDX.684). Operators DL3DXX, DL5LYM, G4ODV, G4UZN, WA6CDR, HS0ZDZ, HS1CKC and HS0ZDX will be active as HS72B during the CQWW DX CW Contest (November 27-28th) as a Multi-Multi entry. QSL via E20NTS.

IOTA NEWS.....
AS-076. Look for JA5BEX and JA5BQX to be active as homecall/5 from Ogi Islands from November 27-28th. This activity will be a new one for the Japanese IOTA Island Award (JIIA AS-076). QSL via their home callsigns, direct or via the bureau.

NA-196. Bruce, KD6WW, is expected to be active as VY0/KD6WW from the Nunavut Group (Belcher Islands) from November 17-22nd. Activity will be on 40/30/20 meters. QSL via his CBA.

OC-121. Naoyuki, JK1FNL, will be active as 3D2NA from Mana Island, November 19-24th. Activity will be on 80-6 meters on CW/SSB and RTTY. QSL via JK1FNL; the bureau is OK.

SA-021. Activity from the Bahia Blanca DX Group from Wood Island took place this past weekend. The DXpedition's operators and callsigns were:
LU7DSY/D Carlos (Team Leader and QSL Manager)
LU9ESD/D Emmanuel
LU4ETN/D Charly
LU8EBJ/D Gabriel
LU5DRV/D Walter
LU4DRH/D Dario
LW9EVA/D Hugo
LW9EAG/D Gabriel
LU5DEM/D Eduardo
LU7AC/D Marcelo (Special Invited from Buenos Aires)

QSL Manager's address (LU7DSY): Carlos Almiron, P.O. Box 709, 8000 Bahia Blanca, Buenos Aires, Argentina. Please send 2 USD or 2 IRC for direct QSL. Bureau cards are 100%.

KG4, GUANTANAMO BAY. Tip, N4SIA (KG4AS), informs OPDX that he and 3 other operators will be active from here beginning January 18th for 8 days. Tip states that he will be active on CW/SSB and 6 meters. More

info is forthcoming.

KH0, MARIANA ISLANDS. Yoshiro, JL3SIK/N1VF, is expected to be active as N1VF/KH0 from Saipan (OC-086), November 20-22nd. Activity will be on 40-6 meters CW, SSB and the digital modes. QSL via JL3SIK, direct or by the bureau.

LX, LUXEMBOURG. The team of Jorgen/DL4SDW, Ralf/DL5SEJ, Bernd/DL8SCG and Philippe/LX2AJ will be active as LX7I in the CQ WW DX CW Contest (November 27-28th) as a Multi-Single entry. QSL via LX2AJ. QSL is "OK" via the Bureau or direct, but if you work them on 5 bands, you can request a direct QSL via E-mail from: lx2aj@gmx.net
Philippe informs OPDX that they will have monobanders for 160-10 meters. More information and an online log will be available on the LX2AJ/LX7I Web page at: http://www.qsl.net/lx2aj
Also, expect LX7I to be active in more contests next year.

NEW OFFICERS FOR 2005. It was announced this past week that following extensive campaigning and electioneering, the following North Jersey DX Association (NJDXA) members were elected to the following offices:
President K2WR Rich Gelber
Vice President KB2ENF Stephen Saposnik
Secretary KF2TI Steven Adell
Treasurer N2BIM Gene Ingraham

QSL INFO AND NEWS...................
OOOPPPSSS DEPARTMENT. Last week's OPDX.684 had a typo in it under "XE4IH QSLS". It should have read "XF4IH QSLS. Enrique, XE1IH, QSL Manager for XF4IH Socorro Island (NA-030 Revillagigedo) operation, informs OPDX that he is having problems with the Mexican Postal Office, and QSLs to be confirmed are not arriving at his P.O Box. He announces now to please send QSLs to his home address at: Enrique Garcia Munive, Av. Insula Edificio 15-A-301, U. H. Acueducto de Guadalupe, 07270 Mexico City, MEXICO. It is suggested to send your requests registered."

Phil Whitchurch, G3SWH, announced that effective immediately he has been appointed as QSL Manger for Bill Luo, BX3AC. Cards will be accepted and replied to either direct with return postage and SAE, via the bureau or via E-mail with a reply via the bureau. Phil's E-mail address is: phil@g3swh.demon.co.uk

NOT THE QSL MANAGER. Fran, EA7FTR, informs OPDX that a station in the CQWW DX SSB Contest, LQ5H, stated to QSL via EA7FTR. He states this is incorrect, and he is NOT the QSL Manager.

QSL MANAGER CHANGE. John, W2GB, informs OPDX to "PLEASE NOTE" that ALL requests for VP5X QSL cards go via Kari, OH3RB. This was a last minute change made by the team leader. At this time John is not the QSL Manager for VP5X.

The TX9 group has posted their log online and their statistics. Here are their Web links: http://www.df3cb.com/logsearch/tx9/index.php
http://www.df3cb.com/chesterfield/news.html

SILENT KEY. Ivan, CP1KI (ZS6IL), informs OPDX that Rene, CP1FQ, became a Silent Key (SK) on November 3rd. Ivan states, "He has not been active over the last couple of years due to illness but prior to this, he was a keen DXer (DXCC Honor Roll) and was very active on 6 meters giving many hams their first (and probably only) CP contact on 50Mhz. OPDX and its readers would like to send out our deepest sympathy to Rene's family and friends.

SPECIAL EVENT. Look for special event station TM6OSA to be active between now and November 28th. Activity is to commemorate the 60th anniversary of the liberation of the town of Saverne (30 kilometers of Strasbourg). Operations are expected to be on all bands and modes. QSL via F6GXL.

V4, ST. KITTS AND NEVIS. Larry, KJ4UY, and his wife Mel will be arriving on Nevis on December 23rd and will return to Florida on the night of January 2nd. Larry reports, "We will be celebrating Christmas and New Year's with our friends in St. Kitts and Nevis. I will try to ship some antennas to St. Kitts before we leave so I can operate from St. Kitts and Nevis. Not sure when and what bands/modes I will be on because of the holidays. As propagation directs, I will be on 6-160 meters/bands and modes. I have been working 14-15 hours/daily for a number of months and still trying to clean up after the hurricaines. Have no antennas up here yet after being antenna stripped. We look forward working as many as possibe while there."

VP9, BERMUDA. Look for Paul/K1XM, Ann/WA1S and Charlotte/KQ1F to be active as VP9/WA1S, VP9/K1XM and VP9/KQ1F from November 21-28th. The trio will also be active as VP9I in the CQWW DX CW Contest (November 27-28th) as a Multi-2 entry. QSL via KQ1F for VP9I, VP9/K1XM and VP9/KQ1F. QSL via WA1S for VP9/WA1S.

VU4, ANDAMAN ISLANDS. Charles Harpole, K4VUD and VU3CHE, sent out a "Please Help VU4 DXpedition" press release this past weekend. Basically, the release states that Bharathi Prasad, VU2RBI, is now within days of receiving official permission to do a legal DXpedition on the Andaman Island (VU4). She has plans to arrive in the capital, Port Blair, on or about December 1st. Charles states, "This is very short notice to obtain funding help from the ham community. I am now urgently seeking donations of any amount to fund the basic costs of this DXpedition. In the unlikely event that the trip does not happen in a timely manner, ALL donations will be fully refunded to the donors. Full keeping of donor records and addresses and amounts will be carried out. NCDX Foundation request has also been made but time is very short. Please feel free to relay this urgent message to all hams world-wide by any means." Donations in U.S. Dollar amounts via personal check or international postal money order or equivalent should be made out to and mailed to: Charles Harpole, 3100 N. Hwy. 426, Geneva, FL 32732-9761 USA. Charles, K4VUD, E-mail address is: k4vud@hotmail.com
Charles sent out a second press release that states: "Bharathi has appealed to VU2SON for help in getting permission to do a legal operation on VU4. She has asked for a month-long operating permission this December. Only native citizens of India are allowed to operate. Bharathi and her

family are of modest means. She does not have any money of her own to invest in this DXpedition. India culture indicates a proper married woman only travel with her husband, VU2DBP. She led the 1978 DXpedition to VU4. Please do not complicate matters by now making your own request to operate on VU4. Please allow Bharathi to work her magic for now. In a year, if we all behave and have patience, Andaman could be much more open to ham radio visits or an on-going presence. The DX community needs to understand that this VU4 DXpedition is likely to start as a 'mighty lite' for the reasons cited above. This is a PILOT project to prove ham radio is harmless on VU4. That is the immediate goal. Later, we hope to establish a long-term ham radio presence at a school in Port Blair. This effort will NOT be a mass arrival of crack operators with tons of gear. We appeal to the generousity, understanding, and patience of the world wide DX community. Please remember this is AMATEUR radio in a Developing Nation, and please give Bharathi's effort your patient support for this evolving project. Personally, I know how important a contact with VU4 is. The pent-up demand is huge. However, I appeal to all DXers to realize the delicate nature of getting permission, of quickly mounting this pilot effort, and of finding funds now. In American slang, 'please cut some slack' to this project and know that Bharathi and I are in this for the long haul so that ham radio can later establish a continuing presence there to answer the needs for all bands and all modes. ALL donations will be promptly refunded should this effort not go as announced. QSL card requests will go to a USA address for mail security."

VP2, ANGUILLA. Tom/DL2RUM and Jan/DJ8NK will be active as VP2ETL and VP2ENK, respectively, from November 16-30th. Activity will be on 160-10 meters, CW, SSB and RTTY. QSL via their home callsigns.

XU, CAMBODIA. Operators Wim/ON6TZ and Jack/ON4AJT will be active as XU7POS and XU7AJV, respectively, from here starting November 20th for about three months. Their QSL route and modes/bands of activity were not provided.

ZL6, NEW ZEALAND. Operators Brian/ZL1AZE, John/ZL1BYZ, Tony/ZL2AGY, Wilbert/ZL2BSJ, Andrei/ZL1TM and Chris/ZL1CT will be active as ZL6QH during the CQ WW DX CW Contest (November 27-28th) as a Multi-Multi entry. QSL via ZL2AOH. The operators are members of the Quartz Hill User Group. Visit their Web page at: http://www.zl6qh.com

ZX0, SOUTH SHETLAND ISLANDS. Roberto/PT2GTI is now active as ZX0GTI from Elephant Island (AN-010) from EMILIO GOELDI REFUGE (which has been numbered, according to WAP as BRA-05). He will be there until November 17th. As this was being written, activity has been mainly on 20 meters SSB.

>
> SILENT KEY. Ivan, CP1KI (ZS6IL), informs OPDX that Rene, CP1FQ, became
> a Silent Key (SK) on November 3rd. Ivan states, "He has not been active
> over the last couple of years due to illness but prior to this, he was
> a keen DXer (DXCC Honor Roll) and was very active on 6 meters giving many
> hams their first (and probably only) CP contact on 50Mhz. OPDX and its
> readers would like to send out our deepest sympathy to Rene's family and
> friends.
>
> SPECIAL EVENT. Look for special event station TM6OSA to be active between
> now and November 28th. Activity is to commemorate the 60th anniversary of
> the liberation of the town of Saverne (30 kilometers of Strasbourg).
> Operations are expected to be on all bands and modes. QSL via F6GXL.
>
> V4, ST. KITTS AND NEVIS. Larry, KJ4UY, and his wife Mel will be arriving
> on Nevis on December 23rd and will return to Florida on the night of
> January 2nd. Larry reports, "We will be celebrating Christmas and New
> Year's with our friends in St. Kitts and Nevis. I will try to ship some
> antennas to St. Kitts before we leave so I can operate from St. Kitts
> and Nevis. Not sure when and what bands/modes I will be on because of
> the holidays. As propagation directs, I will be on 6-160 meters/bands
> and modes. I have been working 14-15 hours/daily for a number of months
> and still trying to clean up after the hurricaines. Have no antennas up
> here yet after being antenna stripped. We look forward working as many
> as possibe while there."
>
> VP9, BERMUDA. Look for Paul/K1XM, Ann/WA1S and Charlotte/KQ1F to be
> active as VP9/WA1S, VP9/K1XM and VP9/KQ1F from November 21-28th. The
> trio will also be active as VP9I in the CQWW DX CW Contest (November

> 27-28th) as a Multi-2 entry. QSL via KQ1F for VP9I, VP9/K1XM and VP9/KQ1F.
> QSL via WA1S for VP9/WA1S.
>
> VU4, ANDAMAN ISLANDS. Charles Harpole, K4VUD and VU3CHE, sent out a
> "Please Help VU4 DXpedition" press release this past weekend. Basically,
> the release states that Bharathi Prasad, VU2RBI, is now within days of
> receiving official permission to do a legal DXpedition on the Andaman
> Island (VU4). She has plans to arrive in the capital, Port Blair, on or
> about December 1st. Charles states, "This is very short notice to obtain
> funding help from the ham community. I am now urgently seeking donations
> of any amount to fund the basic costs of this DXpedition. In the unlikely
> event that the trip does not happen in a timely manner, ALL donations
> will be fully refunded to the donors. Full keeping of donor records and
> addresses and amounts will be carried out. NCDX Foundation request has
> also been made but time is very short. Please feel free to relay this
> urgent message to all hams world-wide by any means." Donations in U.S.
> Dollar amounts via personal check or international postal money order
> or equivalent should be made out to and mailed to: Charles Harpole,
> 3100 N. Hwy. 426, Geneva, FL 32732-9761 USA. Charles, K4VUD, E-mail
> address is: k4vud@hotmail.com
> Charles sent out a second press release that states: "Bharathi has
> appealed to VU2SON for help in getting permission to do a legal operation
> on VU4. She has asked for a month-long operating permission this December.
> Only native citizens of India are allowed to operate. Bharathi and her
> family are of modest means. She does not have any money of her own to
> invest in this DXpedition. India culture indicates a proper married woman
> only travel with her husband, VU2DBP. She led the 1978 DXpedition to VU4.
> Please do not complicate matters by now making your own request to operate
> on VU4. Please allow Bharathi to work her magic for now. In a year, if we
> all behave and have patience, Andaman could be much more open to ham radio
> visits or an on-going presence. The DX community needs to understand that
> this VU4 DXpedition is likely to start as a 'mighty lite' for the reasons
> cited above. This is a PILOT project to prove ham radio is harmless on
> VU4.
> That is the immediate goal. Later, we hope to establish a long-term ham
> radio presence at a school in Port Blair. This effort will NOT be a mass
> arrival of crack operators with tons of gear. We appeal to the
> generousity,
> understanding, and patience of the world wide DX community. Please
> remember
> this is AMATEUR radio in a Developing Nation, and please give Bharathi's
> effort your patient support for this evolving project. Personally, I know
> how important a contact with VU4 is. The pent-up demand is huge. However,
> I appeal to all DXers to realize the delicate nature of getting
> permission,
> of quickly mounting this pilot effort, and of finding funds now. In
> American
> slang, 'please cut some slack' to this project and know that Bharathi and
> I are in this for the long haul so that ham radio can later establish a
> continuing presence there to answer the needs for all bands and all modes.

> ALL donations will be promptly refunded should this effort not go as
> announced. QSL card requests will go to a USA address for mail security."
>
> VP2, ANGUILLA. Tom/DL2RUM and Jan/DJ8NK will be active as VP2ETL and
> VP2ENK, respectively, from November 16-30th. Activity will be on 160-10
> meters, CW, SSB and RTTY. QSL via their home callsigns.
>
> XU, CAMBODIA. Operators Wim/ON6TZ and Jack/ON4AJT will be active as XU7POS
> and XU7AJV, respectively, from here starting November 20th for about three
> months. Their QSL route and modes/bands of activity were not provided.
>
> ZL6, NEW ZEALAND. Operators Brian/ZL1AZE, John/ZL1BYZ, Tony/ZL2AGY,
> Wilbert/ZL2BSJ, Andrei/ZL1TM and Chris/ZL1CT will be active as ZL6QH
> during the CQ WW DX CW Contest (November 27-28th) as a Multi-Multi entry.
> QSL via ZL2AOH. The operators are members of the Quartz Hill User Group.
> Visit their Web page at: http://www.zl6qh.com
>
> ZX0, SOUTH SHETLAND ISLANDS. Roberto/PT2GTI is now active as ZX0GTI from
> Elephant Island (AN-010) from EMILIO GOELDI REFUGE (which has been
> numbered,
> according to WAP as BRA-05). He will be there until November 17th. As
> this was being written, activity has been mainly on 20 meters SSB.

Hi,
Does anybody have a copy of "The Pegasus Book of Radio Experiments" by
F.G.Rayer that thue would be willing to sell?

Best Regards,

Nick

Marco,

Admit it, you suck. PERIOD. The U.S. has had to be the savior every god damned time. HISTORY proves it, and that was after we kicked your asses 200 years ago. GO suck on your momma's titty, ya pussy.

However, with his specific omission, can he still claim to offer a callbook which is a valid extract from the FCC records?

Isn't his callbook now a callbook of "selected records?" [With one non-selected record excluded....]

Did Fred ever state it was a "complete listing"?

I can think of a few more that need to go....

ND8V, and WD4AWO are the ones that come to mind.

Ole "Nerdy Dog Eight Vomit" Fat Mikey and Dumbo Bobby are MAN's main
audience.

Have you heard the phone calls that Dumbo Bobby has made to MAN's show.
Bobby is "real slow", if you get my drift...

Now some retard from Texas has joined in with Dog Vomit, and AWO (A Wet
OldFart, iow, SHIT).

I guess we can refer to them as the 3 Stooges.....

No, but doesn't he make a "selling point" on the number of listings (foreign and domestic) he has? Therefore, dropping a few here and there is contrary to his goal, disregarding the fact that the listings he is dropping are still (for the moment) licensed stations.

> I can think of a few more that need to go....

Then write the FCC and ask to get their licenses revoked.

Other persons, at their own request, have had their calls removed from the QRZ site. To my knowledge he's never claimed it was complete in every respect.

Besides, who cares?

73, de Hans, K0HB

Eh, i still need a cheap amp! I have seen one that is about 25 - 30
watts for hundred dollars somewhere but it was for 60mhz up. Any
ideas?

"Dan/W4NTI" <w4nti@get rid of this mindspring.com> wrote

> Had a good time during the sweeps.

Hi Dan,

I didn't hear your station all weekend.

For me, it was "A tale of two contests"!

Started out like gang busters. Scouting the bands before the bell I came across VY1JA handing out "placeholder" reports on 10M, so lurked there and put NT in the log as the 1st QSO. How much better can it be than that?

Then followed several good hours on 20 & 40, retreating down to 80M about midnight. At 0730Z break time I had a nice fat log, including 79-mults (missing VE4).

Hit the bands again at 1400Z, and found Derrick VE4VV on 20 to open the morning with my sweep in the bag, and started the day with some nice (for Sunday morning) runs on 20 & 15.

"HEY", sez I, "this may be my year!"

Alas it was not to be.

At around 1600Z things just collapsed (later found we'd had a massive case of 'freckles del sol'), with only 15 showing much life. Conditions fluctuated from bad to poor to fair to horrible the rest of the morning and all afternoon for me. At BIC=18-hours I decided I'd had more fun than I could stand, so I sent in my log.

CU in this weekend in the phone-phray?

Yes, the software defined radio is exactly what I want. Seems to me
that I want to get very good RF front ends and good A/D, then do the
rest in my PC. I have a signal processing background and want to
experiment on the signal processsing side. I don't want to get bogged
down with the RF amps, or building the transmitter side. Is there
some transceiver that gives me the a/d output and has great RF amps?

2151. Amateur Radio Elmers Resource Directory

rec.radio.amateur.misc,rec.radio.amateur.antenna,rec.radio.amateur.digital.misc,rec.radio.amateur.homebrew,rec.radio.info

The Amateur Radio Elmers Resource Directory, a list of experts, mentors, and gurus for amateur radio on the Internet, went on indefinite hiatus on June 1, 2000 after just over 9 years of service. This decision was not forced upon me by anyone for any particular legal or technical reason. Rather, I decided to retire from maintenance to focus on other personal and professional interests and obligations.

I also felt that I had taken this project to the limit of my expertise and spare time in terms of format, visibility, automation of maintenance, effective recruiting, and even good Web design. It's clear that the Internet had changed greatly over the 9 years that the Directory had been in existence. The Directory had evolved from a flat text file edited on a VAX running VMS to a well-featured Web site. However, in that time, much better amateur radio-related web sites had emerged (including QRZ, Ham Radio Online, and ARRL) that make my site rather simplistic by comparison. Also, it's clear that many more enhancements would be required to make the Directory more maintainable and secure. One requirement that the Directory did not address is reasonably shielding the Elmers from having their E-mail addresses harvested for junk-mail distribution lists.

I want to emphasize that I do believe that using the Internet, the Usenet Newsgroups, and the World-Wide Web to bring Elmers and amateurs requiring assistance together continues to be worthwhile. Because of this, I would consider a highly-qualified and motivated volunteer to take it over immediately. The Directory consisted of a moderate number of large text files, scripts, and other configuration files. It's neatly arranged, and can probably be easily transplanted to another Unix/Linux environment. I would also be willing to assist with importing the data into a database such as mySQL. To help transition this project to another maintainer, I had prepared a maintainer's guide, available on request. The ideal candidate will be a motivated self-starter and self-teacher possessing several years of experience in:

- Unix/Linux
- C or Java
- HTML
- Perl or Python
- Procmail
- Version control systems such as SCCS, RCS, CVS, etc.

(this also implies that you have the above tools installed in your environment)

preferably on or more of the following:

- SQL
- PHP
- CSS

and have approximately 4-6 hours of spare time per month for maintenance. A track history of successfully completing projects would be a firm requirement. Please note that hosting sites are already available. Offers to host the project, but not maintain it, are not being sought at this time.

Familiarity with news.answers formatting conventions and the auto-faq FAQ Management and Posting Package would be a plus. Concrete proposals for enhancing the Directory to be a top-10 amateur-radio-related Web site would also be desirable. I would also consider the Directory being incorporated into an existing commercial amateur-radio-related Web site as long as the essential non-commercial character of the Directory was maintained.

If you feel that you possess the interest, motivation, and immediate, hit-the-ground-running, skill set to do this, please send your statement of interest and any proposals you wish to make regarding your plans for future enhancements to elmers-request@novia.net.

I would like to thank all of the volunteer Elmers, as well as courteous users of the Directory, for making this service a success, as well as an enjoyable experience for me over 9 years.

Dave,

You make a valid point and I agree with prejudice. The following remarks are not intended directly at you, but to sort of address the issues a bit more.

MANY Americans disagree with Bush getting back in. In saying that, I'm not admitting to having voted or not - for him.
Some of his policies suck. What I do agree with, is his tone of "You're either with us or against us". But as I said, many of those who "claim" to be with us, end up stabbing us in the back.

Being our closest neighbor, yes... things could be "better" between the U.S. and Canada. They should be. While I may not agree with "everything" in principle, things could be much better.

Those who called us Stupid Americans, are A. Traitors from within or B. "so called" friends.

Though Bush won, Kerry could have had he had enough votes. So too could have Nader or any of the others in their individual parties. England or any other country has no reason whatsoever to try to sway our voting, nor do we of theirs or anyone else's. The voting machine has spoken - right or wrong, and we all must deal with it. LOTS of work in the U.S. alone needs done. There are domestic issues which need attended to. BUSH is capable of doing it, IF he chooses to do so.

Let's face it, the majority of all politicians are as crooked as a cork screw. It's always been that way and always will - regardless what country it is. It is up to the people to attempt change using the process as established. The other problem is, not many "qualified" or well rounded

candidates are there to choose from. Special Interest groups get their hands in it, and so on. IT SUCKS. But, we must deal with it. These last few elections it has gotten worse instead of better. They used to "Debate" policies, not get into the crap they've recently been doing. I don't give a shit if the man in the white house got a speeding ticket 20 years ago. I want to know what he's going to do NOW to give a helping hand to this country's needs. Actually, I'd like to see "Foreign" policy forgotten about for a while. Let the others do their thing whilest we take care of our own - for a change. So long as no one is fixing to attack us, I could give a shit less what they're doing. Live and let live!

"I" am not the one who started this thread of insults. But I'll be damned if I'll sit back as an American to have some half wit from another country cut down on us. Whether I like Bush or not, doesn't matter. HE IS THE PRESIDENT - as such, I have to respect that. BUT in the larger picture, I do my own part to defend their safety. Yes, we all have our disagreements and so on, what country doesn't? But we deal with it. We don't need outsiders casting their opinions when they aren't in any better position to do so. You can hate our government all you want, many of us do as well in some respects - be it the local, state or federal - especially if things aren't going our way... but to start a campaign of insults of our intelligence - man... that's biting a dog in the ass and sooner or later that dog will turn and bite back.

HOW DARE any one from another country call US - STUPID. IF you don't like it, come here and try to become a citizen, then you'll have every right to bitch and a chance to perhaps change things - at least with your vote since you must be an American {born here} to become President. You don't hear us whining about the Canadian/English or other governments do you? NO. Because WE DO NOT CARE. WE have enough problems here to take care of. SO, unless one is willing to put up - then SHUT UP. THAT is meant for the loud mouth who started this all and any of his supporters.. The jock straps that they are. The "government" gets involved more with the other countries, while most of us could care less. We're too busy eeking out our own existence. My opinion is to leave them all do their own thing, stay out of their business - even with foreign aid, which I'd love to see cut off forever. BUT - if they come here to attack or we hear of plans of an imminent attack on US - kick their asses and make them non returnable - period. Defend our borders and to hell with the rest. Let the other countries take care of their own problems - in every respect. This country does a hell of a lot for the world, we don't need the bull shit from the peons of society to dictate to us. Go back to your momma and grab a titty bottle, cause we're not listening.

I've said it once, I'll say it again.. IF you don't like the Americans... FINE - kindly remove yourselves from our Welfare roles. Don't cry wolf at every shadow - to have us come running to help. Put a pair of trousers on instead of your panties, step up to the plate and be a man - make a go of your own country and it's economy, and quit sponging off of U.S.

Dave
Absolutely agree, but some poster on here have their heads so stuck up b** that they cannot see the
reality of world life.
The world does not revolve around America (or any other country for that matter), and the sooner
they realise that no-one owes "them" a living, the soon that perhaps the whole world can live in
peace.
Well we can dream can't we ??
Marco

Ah, the ass hole farts again..... Excuse me, the rest of the world DOES revolve around US, with their revolving requests for our tax dollars and military aid. YOU need to realize - ASS HOLE, if it weren't for the US, YOU would be speaking German or Russian. DICK WAD..... READ YOUR F*&KING HISTORY BOOKS. Oooppps, I told you that before, so it's obvious you CAN'T read.

Problem is, you talk of dreaming, YOU ARE DREAMING. You never woke up to the reality that you speak of. Wake up and smell the tea.....

If I were to choose to make a website that has every ham with my last name, that is my option. If Mr. Smith is pissed off that he is not on the Bushong web site, screw him.

Fred at QRZ can do whatever the hell he wants. It is that simple.

If you want the facts, go to fcc.gov. If you want editorial, go to qrz.com. I think it's pretty simple.

If you are pretty simple, maybe you shouldn't have a computer.

I have a US Navy straight key (CTE-26003A) which is enclosed in
a fire proof housing.

Is there some trick to taking it apart for a look-see at its innards,
and possible routine maintenance?

I didn't want to force some screws . . .

I don't like the present way it adjusts the gap - it goes from
extreme narrow to very wide in what I think needs some readjusting
internally, to say nothing of a little fine parts oil.

Anyone knowing about this model - your advice would be appreciated.

Anyone have experience operating in Costa Rica? I am traveling there next month and wondered about bringing a little HF rig with me. I'd bring either my homebrew QRP (based on a Norcal 40), or use this as an excuse to buy an FT-857. I don't know (yet) what I'd use for an antenna. I'd be on a boat the whole time.

This post is primarily to solicit info on operating in the country of Costa Rica, how I'd get any required permits, etc., but other comments are of course welcome.

73,

Try calling the ARRL. They are generally up on this kind of info and will
probably be more accurate than info you can find elsewhere.

It's nice to see that the FCC has its priorities straight:

http://www.cnn.com/2004/SHOWBIZ/TV/11/17/fcc.indecency.ap/index.html

... and that the Christian Taliban Ministry for Morality makes sure no
tits are seen on TV. Four more years.

Anyone can find a message in any numbers using spiraling substituation, kind
of like the old saying that monkeys typing on typewriters would eventually
type Shakespeare, but I guarantee that you have not cracked the correct
message that was sent.

This mentions a program schedule.

Have you seen Operating Abroad at URL:
http://www.qsl.net/oh2mcn/ti.htm
Lots of info from OH2MCN

For bands -- see a DX Packet Cluster or telnet

Shows TI on 20M and 40M several times -- a few on 15M

Packet Cluster Telnet at URL:
http://www.ng3k.com/Misc/cluster.html

Use the command sh/dx/21 TI
That's a space between the 21 and the TI
The 21 will give the latest 21 DX spots (a page full) for Costa Rica

--
The Anon Keyboard
I doubt, therefore I might be

I believe it is called the SDR-1000. www.flex-radio.com

I don't know if it is exactly what you want, but probably the
closest thing. Send them an email and they can answer your
questions. I went to a talk by the guy who developed it. He's
a real nice guy.

As always it depends on propagation but I'd try 15m, 17m and 20m for daytime
with 40m and 80m for night time. If you're up on your CW, 30m should be
good also. Naturally if the solar flux rises decently, 10m and 12m may open
and they would also be good in the daytime.

If you'll google for DXView and Propview, you'll come up with a couple of easy-to-use propagation programs. They work under Windows. One of them shows a propagation prediction based on the geographical coordinates of the two stations involved and a sunspot number that you can get off the net and plug in. The other shows a world map so you can click on a site and it will plug the coordinates into the other one.

THIS WILL BE MY LAST TIME I PUT UP NEWSLINE HERE. I MOVE TO ZAKINTHOS IN TWO WEEKS AND HAVE NO AOL THERE. SOME ONE ELSE NEED TO TAKE OVER DOING JOB. IT BEEN LOTS OF FUN.

MR. RADIONEWS

Amateur Radio Newsline™ Report 1423 November 19, 2004

Amateur Radio Newsline report number 1423 with a release date of Friday, November 19, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. Ham radio in California says goodbye to the Tournament of Roses Parade and W7DXX speaks out on his Internet controlled remote base in Baghdad. And its not the first time. Find out the details on Amateur Radio Newsline report number 1423 coming your way right now.

(Billboard Cart Here)

**

PUBLIC SERVICE: HAMS QUIT TOURNAMENT OF ROSES PARADE - LIMIT SERVICE TO ATV

Ham radio will not be a major part of the 2005 Tournament of Roses Parade. Amateur Radio Newsline's Norm Seeley, KI7UP has the rest of the story:

--

Although it was never officially part of the Tournament of Roses, ham radio has been providing a communications link along the Rose Parade route for more than 40 years. And long before there was any official group, people like Tom O'Hara, W6ORG, of P-C Electronics were the early pioneers:

--

O'Hara: "I first got involved with the Rose Parade
communications
when I was one of the Emergency Coordinators for Pasadena. They asked us ti help out with some longer range stuff than what the CB operators were doing. This was in the middle 1960's."

--

Using video cameras and Amateur television, the ham radio volunteers were ever alert for any kind of an emergency situation that might develop. If they spotted something they would send their pictures

back to the parade coordinator who could then take the necessary action.

--

O'Hara: "Later on they added more and more ATV and more and more hams. At one time I think there were 17 camera positions."

--

Amateur Radio literally pioneered the use of closed circuit television for coordinating large scale events in the Tournament of Roses Parade. At one time hams even had Amateur Television transmitters sending back pictures from helicopters flying overhead. And they did this long before most television stations had camera equipped news choppers of their own.

--

O Hara: "Got involved with the helicopter with the first ATV in 1968. Put it in the Sheriff's helicopter. And when I got my own helicopter I put it in and flew around one year."

--

As the parade grew, so did the Amateur Radio communications effort. By the 1970's TORRA had unofficially been formed. TORRA stands for Tournament of Roses Radio Amateurs and in the 1980's the hams involved formalized as a club and with this came the golden days of ham radio supporting the parade.

Today TORRA has more than 300 active members who regularly volunteer their time. At least that's the way it had been until an incident occurred last year. That's when an incident took place that apparently caused things to go sour.

According to an article in the Pasadena Star News, a pair of ham radio operators were carrying equipment onto the grounds of Tournament House in preparation for the last parade. They were stopped by a senior Tournament official and their presence challenged. The unnamed official even went so far as to accuse the ham radio volunteers of lying to get on the grounds.

Now enter Nextel. The same Nextel that has patented the words push-to-talk.

Nextel is a corporate sponsor of the 2005 parade, and reportedly has donated a number of phones to the event. This means that most Tournament of Roses officials will have a Nextel phone with direct walkie-talkie service in their pockets.

Bill Flinn is the Tournament's chief operating officer. Talking about Amateur Radio's departure he was quoted by Pasadena Star News
as saying: "I think it's come to the end of a run. We are sorry to see them go."

But depending on the Nextel walkie-talkie phones as a primary form of communications could turn out to be a mistake for the parade and those that run it. Unlike hams, parade officials and their corps of volunteers are not trained communicators. Rather they have been used to handing a message to a ham radio operator and having an answer appear. Most are likely unaware that they will have to contend with numerous people calling at the same time. All with priority traffic and all demanding immediate answers.

With their years of experience, the hams were the buffers who learned how to work around these problems. But the cellphone provider is coming in cold with no experience in this specialized communications area. There will likely be no experienced net control stations and no way to prioritize needs.

On Thursday, November 18th, as this report was being prepared, we received a copy of a letter from TORRA Chair Jeanne Nordland, WD6BWN, thats being sent to all of the groups members. It confirms that hams will not be providing voice communications in 2005, but that A-T-V assistance to the parade will continue as it has in years past.

But ATV is only one part of the equation. the question still remains as to whether or not the Nextel phones can take the place of the hams and a structured voice communications network. This is something that nobody will really know until January 1st of 2005. That's when
the drama will be played out live to the world on their livingroom T-V screens -- on New Years Day. And likely, 10's of millions of people will be watching.

For the Amateur Radio Newsline, I'm Norm Seeley, KI7UP, reporting.

--

As Norm said, these days the Tournament of Roses Amateur Radio group currently has about 300 members. How many might return if they are asked back in 2006 is really, anyones guess.

To read the complete Pasadena Star News article on the departure of ham radio from the Tournament of Roses Parade, take your web browser to http://www.pasadenastarnews.com/Stories/0,1413,206%257E22097%257E2529574,00.html

**

THE BPL FIGHT: FCC ISSUES ERATTUM ON BPL R&O

The FCC has issued whats known as an Notice of Erratum. One that slightly modifys its Report and Order on the introduction of Broadband Over Powerline operations.

Two changes were made. First in Section 15.15 under General Technical Requirements section B now reads: "Except as follows, an
intentional or unintentional radiator must be constructed such that the adjustments of any control that is readily accessible by or intended to be accessible to the user will not cause operation of the device in violation of the regulations. Access BPL equipment shall comply with the applicable standards at the control adjustment that is employed. The measurement report used in support of an application for Certification and the user instructions for Access BPL equipment shall clearly specify the user- or installer-control settings that are required for conformance with these regulations."

Also, Section 15.31 is amended by revising a paragraph under Measurement standards to read:
"Measurements shall be performed at a sufficient number of radials
around the equipment under test to determine the radial at which the field strength values of the radiated emissions are maximized. The maximum field strength at the frequency being measured shall be reported in the equipment authorization report. This paragraph shall not apply to Access BPL equipment on overhead medium voltage lines. In lieu thereof, the measurement guidelines established by the Commission for Access BPL shall be followed."
While these changes may seem as minor right now, they could impact ham radio and other services in the future. This, when and if B-P-L ever becomes a major player in the area of direct to home high speed Internet access. (FCC)
**

THE BPL FIGHT: ITS NOT BPL IN WESTERN VK

Meantime, some good news on the B-P-L front from down-under. Word that interference being heard by hams in Western Australia is not coming from a powerline broadband installation. The problem is that nobody is sure exactly what the source is. W-I-A newsman Dennis Muldownie, VK6KAD, is in Redcliff with more:

--

One of the rumors persisting in VK6 is that our power authority is running BPL. This has been denied several times. I may have found the source of these rumors, as I have stumbled across a website dating back to 2002, in which the testing of Broadband by the power company was mentioned.

However it was not BPL technology. There is an ongoing project here to "rewire" the West by placing low voltage and some higher tension

feeders underground. This is - or was - progressing slowly. It improves the street-scape out of sight and reduces the potential for damage in bad weather. In providing these services apparently optical fiber cable was also placed in the trench, and the Broadband was under test on the fiber. Not you will note on BPL.

Very little of WA was ever wired by Cable as in Sydney and Melbourne for Cable TV, and therefore Cable Modems are not an option. The way is clear for the power authority to provide such services by Fiber as it replaces the overhead with underground. I have not found out what the tests revealed.

And having said all that, I am finding excessive noise in isolated pockets on the AM Broadcast band, from power lines in my area. I suspect the approved items used on Power lines obtainable from many outlets are not as bullet proof as we would like to suspect...

The saga continues.

--

The saga does indeed continue and Dennis is one of those at the forefront of the search. (WIA News)

Break 1

From the United States of America, We are the Amateur Radio Newsline, heard on bulletin stations around the world including the N9TO Repeater serving Westmont Illinois.

(5 sec pause here)

**

RADIO AND THE LAW: CLUBS AND THE FCC

Still with legal issues, for a group to be eligible for a club callsign, the FCC has four criteria thar must be met. It says that a club must be made up of at least four members, have a name and legal document of organization and a primary purpose of being devoted to Amateur Radio activities consistent with FCC rules. But do you know how many of the members of a radio club need to hold ham radio licenses?

These and many other questions are answered by former FCC rules Chief John B. Johnston, W3BE, in an article titled "What Is a Club"

appearing in the just out December issue of Worldradio Magazine. And filling close to two pages, Johnston explains in great detail the recognition given clubs by the regulatory agency and the rules regarding club call signs.

If you have ever had questions regarding radio clubs and their dealings with the FCC, this is the tell all definitive article you have been waiting for. More about subscribing to Worldradio and sample issues is on-line at www.wr6wr.com

And less we forget, the answer to how many members of a radio club must hold a valid FCC issued ham radio license is only one. The rules say that at least one member must have an operator and primary station grant from the agency to apply for a club station license. (Worldradio)

**

RESCUE RADIO: US COAST GUARD AUXILIARY SEEKS RADIO AMATEURS

The ARRL Letter says that the U-S Coast Guard Auxiliary is looking for Amateur Radio operators or prospective amateur licensees. Amateur Radio Newsline's Bruce Tennant, K6PZW, has more:

--

Wayne Spivak, KC2NJV, is with the Coast Guard's National Public Affairs Department. He says that because the service operates every day, in good weather and in bad, that the U-S Coast Guard Auxiliary is on the air whether there is power to operate or not. And at times like these, the Coast Guard and the Auxiliary rely on the Auxiliary Net as a backup radio network. In areas with a large U-S Coast Guard presence, the AuxNet operates in both a support and backup capacity. More important, in regions where there is no regular Coast Guard presence, the Auxiliary may rely solely on its AuxNet for communication.

And because of this, Spivak says the Coast Guard Auxiliary is seeking ham radio volunteers. He says that this is because amateurs are good communicators. That they have developed both in everyday radio operation and participation during emergencies through RACES, ARES and SKYWARN.

Spivak believes that Amateur Radio and the U-S Coast Guard Auxiliary are an ideal fit. He says that the US Coast Guard Auxiliary is open to all US citizens over the age of 17. A security background check, paid for by the US Coast Guard, is required before an applicant is accepted. If you are interested in expanding your public service horizons, please visit the US Coast Guard Auxiliary Web site. Its in cyberspacw at www.cgaux.org. Again, that U-R-L is www.cgaux.org and I'm Bruce Tennant, K6PZW, reporting for the Amateur Radio Newsline.

--

A direct link to the U-S Coast Guard Auxiliary application webpage is at http://www.cgaux.org/cgauxweb/getzip.html (ARRL)

**

RESCUE RADIO : MARITIME MOBILES SERVICES NET NOW STREAMING AUDIO

The sound of the daily Maritime Mobile Service Net can now be heard in streaming audio on the Internet.

The net meets daily on 14.300 MHz between 16:00 UTC and 03:00 UTC. The audio streaming originates from the receive site of W-L-O Marine Radio in Mobile, Alabama using a Japan Radio Company N-R-D 535 D receiver fed from a T-C-I ground mounted loop antenna.

As with any streaming audio on the Internet, there will be an inherent lag from the time its encoded in Alabama and when you hear it on your computer. In this case the delay could be anywhere from 4 seconds to 1 minute, as compared to live on-the-air audio.

Because of this, this streamed audio is not meant to be used to control the net. Rather, it is intended as another means for non hams to listen to the net, family of boat crews to listen for the boat and a way to monitor the net when you are away from the radio or when you have no propagation to hear the net control station.

You can hear the streamed audio daily when the net is in operation. You will need a media player like Winamp or Real installed on your computer. Simply take your web browser to www.mmsn.org and click on the yellow icon that says "Listen Live." (MMSN)

**

ENFORCEMEMT: CBS PROTESTS JACKSON WARDROBE MALFUNCTION FINE

Viacom Corporation, the parent of the CBS network says the FCC's proposed 550-thousand-dollar fine for Janet Jackson's Super Bowl "wardrobe malfunction" is "entirely illogical." Viacom says neither it nor anyone at CBS knew Justin Timberlake would yank off a piece of Jackson's black leather top.

The move exposed Jackson's right breast for less than a second, but generated a-half (m) million complaints to the Federal Communications Commission. The fine is the largest ever imposed against a T-V outlet. Viacom is seeking to have it rescinded and has indicated that it will fight the matter in the Federal courts. (Published news reports)

**

ENFORCEMENT: WLFK-LP ADMONISHED FOR BROADCASTING ADVERTISEMENTS

Low Power FM stations are prohibited from broadcasting advertisements by the Communications Act of 1934 and by the FCC's own rules. And
doing so has brought a letter of admonishment to a Wisconsin based LPFM station.

This hand-slap went to WLFK-LP and is looked at as a fair warning to all Low Power F-M stations not to broadcast commercial

advertisements. A letter of admonishment carries a warning to cease and desist but no punitive action such as a fine. More is on-line at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-04-3555A1.doc (FCC)

**

TELECOMMUNICATIONS LAW: SPAMMER BOUNTY SUGGESTED BY FTC

The U.S. Federal Trade Commission has given its endorsement to a plan that would reward insiders for information leading to the arrest and conviction of people or companies that produce spam. In a recent report the FTC said that some anti-spam proposals, such as a "Do Not Spam" list similar to the agency's highly successful "Do Not Call" list, would not work and could make spam worse. But the agency said that providing monetary rewards for turning in spammers could work in some cases. The FTC is suggesting rewards ranging from $100,000 to $250,000 to turn spammers in. (FTC)

**

SPECIAL EVENTS: PEARL HARBOR DAY COMMEMORATIVES - DEC. 4 - 7

Two upcoming special event stations will be on the air to commemorate Pearl Harbor Day. The first will be operated by the Historical Electronics Museum Amateur Radio Club from December 4th to the 7th using the call sign W2W. Operation will be in the General; class segments of all of the high frequency bands. Further information is on-line at www.qsl.nwt/w3gr or by e-mail to w3gr@arrl.net (Worldradio)

The other operation we have heard about will be one day only on December 7th. This one by the U-S-S Kidd Amateur Radio Club down in Baton Rouge, Louisiana. Look for this operation mainly SSB on 30 meters from 14.250 to 14.320 MHz and C-W near the popular QRP calling frequencies on 40 through 10 meters. More on this one is on the web at www.lsu.edu/brarc (Worldradio)

**

SPECIAL EVENTS: THE BATTLE OF THE BULGE - DEC. 16 - 20

And a bit later in December the Anaheim California Police Amateur Radio Club will sponsor special event station K6B. This, to commemorate the 6oth anniversary of the famed Battle of the Bulge that took place during World War 2. Operation will be on 40 through 15 meters from December 16th through the 20th. For more information please e-mail km6hb@arrl.net. (Worldradio)

**

BREAK 2

This is ham radio news for today's radio amateur. From the United
States of America, We are the Amateur Radio Newsline with links to the world from our only official website at www.arnewsline.org and being relayed by the volunteer services of the following radio amateur:

(5 sec pause here)

**

NAMES IN THE NEWS: A FLY-IN TO HONOR K9TRG

He served the ham radio community for years, especially in the early days of F-M. And on Veterans Day, Thursday, November 11th, some nineteen hams from around the nation gathered at a restaurant in Suburban Chicago to honor their friend Art Householder, K9TRG, of Spectronics fame.

If you operated F-M in the 1960's or 1970's using radios like a
Motorola 80 D or a General Electric Progress Line, then the name Art Householder and the call sign K9TRG has to ring a bell. Back when F-M was in its infancy, Art was the premiere supplier of decommissioned police and taxi dispatch radios to the growing world of Amateur Radio F-M.

Now retired and in declining health, he cannot travel as he used to. So this year his friends came to the Rose Garden restaurant in Elkgrove, Illinois to spend the day with him.

And the list reads like a whose' who of ham radio including such notables as Evelyn Garrison, WS7A, who came from Washington State and F-M pioneer Dick McKay, K6VGP, of Los Angeles. From the Chicago area ATV pioneer Henry Rue, AA9XW, the FCC's Russell "Joe" Moonie and RAIN producer Hap Holly, KC9RP, were among those sharing the day with .

While the luncheon is held every Thursday, this was notable event for Art because of the number of people who either took time off from work or traveled thousands of miles to attend. And many say that they plan to do it again next year. (KC9RP)

**

RADIO LAW FOLLOW-UP: COURT ORDER ON PET CHIPS THAT CAN'T BE READ

Remember our story a few months ago about a particular pet identification transponder chip that were not compatible with most scanners in use in the United States? Well, it took some time but a judge now barred a company from selling or advertising these microchips.

The preliminary injunction from San Diego Superior Court Judge William C. Pate yesterday blocks several named defendants from

selling or advertising its unit called "Recovery Chip," If and when the company wants to resume selling or promoting the Recovery Chip product, the court must first approve the company's proposed advertisements. Also, any new ads must disclose that the Recovery Chip cannot be read by the majority of microchip scanners in U.S. shelters.

Banfield, the Pet Hospital has been the U.S. distributor of the particular per I-D chip. It is based in Portland, Oregon and operates in Pets Mart stores throughout the United States. Banfield voluntarily suspended microchip sales in early May, before the lawsuit was filed, and has no immediate plans to resume its microchip program. (Published news reports)

**

EMERGING TECHNOLOGY: FREE WIRELESS INTERNET ACCESS IN VAN NUYS CA

A pilot program to provide free wireless Internet access in part of Los Angeles began on October 29th. This at the Marvin Braude Constituent Services Center in the suburban of Van Nuys. During the six-month program, anyone in the area will be able to use a wireless-enabled notebook computer, P-D-A or other mobile device to access the Internet. The high-speed access will be available in the outdoor plaza, along Van Nuys Boulevard and in public meeting rooms and service counters in the building. (Computing)

**

WORLDBEAT - BELGIUM: QRP POWER TESTS ANNOUNCED

Sunday November 21st, , December 26th and January 16th are the dates announced of the second Belgian U-B-A 'Candlelight Tests." In these tests, several stations transmit simultaneously on 80, 40 or 30 meters running micro power levels ranging from 100 milliwatts down to 5 milliwatts. The challenge for participating amateurs is to copy the code words embedded in the transmitted messages. Full information is on the U-B-A website. A link to it appears ay www.uba.be/actual/candlelight/candlelight_en.html. (GB2RS)

**

DX

In D-X, PF5X, informs the Ohio Penn D X newsletter that he has received his license from the local authorities in Singapore. Also that his station was inspected and approved for active usage. His callsign is 9V1CW, and Enno says that he will be in Singapore for about 3 years. All QSLs via PA0KHS direct or via the bureau. (OPDX)

And word that N3SIG has been redeployed to McMurdo Station in Antarctica. Chris says that he expects to be there until March 5th. Thats the good news. The bad comes in a report that says the ham shack's antennas there were destroyed, and there us also damage to

the main HF rig. So he plans to hand carry a HF rig from his home in Pennsylvania to Antarctica. When he arrives, Chris says that he will construct a dipole and will be on the air as N3SIG stroke KC4. Listen for him mainly on 14 dot 243 MHz which is the unofficial Antarctica ham radio calling frequency. (OPDX)

Lastly, a real rare one with word that Christmas Island as VK9XG will be active from the 22nd of November until the 8th of December. The station will be operated by W0YG and W0MY and will be operational in the CQ world wide CW contest plus a much-needed RTTY activation on 40, 80 and 160 meters. QSL this one as directed on the air. (OPDX)

**

THAT FINAL ITEM: THE BAGDHAD REMOTE BASE - REVISITED

Two weeks ago we reported that former 73 Magazine Editor Keith Lamonica, W7DXX, had arranged for the installation of a remotely controlled transceiver in Baghdad, Iraq. A transceiver whose functions could be controlled by hams world wide over the Internet.

Well, that announcement by W7DXX has created quite a stir in ham radio circles because of the armed conflict taking part in that nation. This has resulted in many questions from the ham radio community that Lamonica recently addressed in an interview with Rain's Hap Holly, KC9RP. W7DXX says that some hams don't spend the
time to read whats in front of them:

--

Lamonica: "There has been a lot of activity, especially on the qrz.com site about the operation and people just don't take a breath and sit back and read the instructions. We have outlined everything that should satisfy anyones curiosity, but you still have people that just put their blinders on and go off to make wild statements."

--

Lamonica has lots more to say about the Baghdad remote and other uses of the Internet by ham radio. You can her it all on this weeks RAIN Report. Its on line in streaming audio at www.rainreport.com or on your phone at 847-827-7246. That number is easy to remember as 847-827-R-A-I-N. (ARNewsline(tm), RAIN)

2194. Regency HR-220 Crystal information?

Newsgroup: rec.radio.amateur.misc
Date: 2004-11-20 02:46:06 UTC
From: Jimmy Mac <no-spam@manicarcade.com>
Message-ID: <Odynd.6377$_3.81508@typhoon.sonic.net>
Source record: 55456

Hello all, I am wondering if any of you could shine some light on the formula the Regency HR-220 uses to determine the frequency of the RX crystals?

A fellow ham gave me a Regency 220 Xtal rig and I have a few hundred crystals but I do not have any documentation on this rig. Any assistance would be greatly appreciated!

TIA.

Yeah, it sounds highly suspicious that the people who are interested in utilizing the abilities of amateur radio in emergency communications would want to have a list of the amateur radio operators who are going to participate. Who knows, next the state will want a list of people licensed to drive. Could they be planning on confiscating cars? Of course the current lack of a centralized government database of licensed amateurs (complete with addresses) is all that's keeping the government from moving against us. ;<)

Don't want to be in this Homeland Security database, don't join ARES! Simple as that.

Going to take a guess that the RX is 10.7 MHz IF.
Most of the radios of that vintage used 10.7 IF as
the IF parts were available for Broadcast FM receivers.
So Operating frequency minus 10.7 divide by three should
work if you have a crystal in that range, worth a try.

Mumbai Amateur Radio Society is pleased to host HamFest India 2004. Mumbai, the commercial capital of India, is the host this year and being the central economic hub offers to be an ideal venue for the Ham Fest.

HamFest India 2004 will introduce interesting and interactive sessions for the first time in India. It will be a 3 days festival full of fun and frolic.

The Main Highlights of the Festival are :

Lucky Draws for registrations before 25 November 2004

Quiz Contests for Individuals / Societies or Clubs

Special Movie Sessions on interesting topics related to Ham Radio

Events like Fox Hunt, Treasure Hunt

Special Trips of Mumbai Darshan or Elephanta Caves

Parallel Forums on topics like Disaster Communication,
Ham Radio Scenario in India, etc.

Stalls, Exhibition and Swap-meet of Amateur Radio Products

Demonstrations of new amateur radio technologies

Awards, Prizes and Raffle Draws

Ham Fest 2004 aims to be the platform for discussions and sharing of ideas by the delegates. Also it will be a wonderful opportunity to have an eyeball QSO with hams one has only heard on air, but never met.

Ham Fest 2004 will also give an opportunity for the visiting delegates, a taste of the Grand Indian Culture with local Indian culinary delights to tingle the tongue and cultural programmes to give a true perspective of the kaleidoscopic India.

Announcement (in chronological Order)
Invitation for Technical Papers / Presentation
Hams interested in giving a presentation during the Hamfest or wishing to publish his/her paper in our souvenir may please send their details to us latest by
25th November 2004.

Date : 24-12-2004 To 26-12-2004

Venue : P.L.Deshpande Kala Academy (Ravindra Natya Mandir),
Prabhadevi, Mumbai

For more information please visit www.hamfest2004.org

Regards,

Shailesh Deshmukh.

HI all wish I was there to see you all. I do miss the
picnics. Maybe someday soon I will be down that way.

I have been so busy don't have much time to even get
on the radio. I was doing a lot of boat trips and was
trying to find repeaters to connect but had no luck.
Anyhow just wanted to say hi for now. I will try to
keep in touch as much as possible.

Miss you all KG4YYU
Captain Oran

Hello all our friends on the .640 in Tampa Bay :)
Just a quick reminder just icase you did not get an email from the
F.C.C as follows:

The FCC
has stopped issuing Amateur Service license grants while it
attempts to unravel an apparent computer programming glitch. The FCC
posted a public alert on the Universal Licensing System (ULS) site
on November 5. At this point, no one seems to know when the problem
will be fixed.

''The granting of Amateur applications has been temporarily
suspended,'' the FCC announcement says without further explanation.
''We apologize for the inconvenience.'' The Commission has given no
indication when processing might resume, but when it does, the FCC
likely will pull back more than 125 Group D (2x3) amateur call signs
it mistakenly issued out of sequence and grant the applicants new
in-sequence call signs. Although they eventually may be set aside
and replaced, all call signs showing up in the ULS database are
legal to use on the air...

For more info please hit this link:
http://www.arrl.org/news/stories/2004/11/08/100/

Thank you All

Mark Shaw, Gayle Shaw
K4EEZ, KG4QOZ

Grid# DM26, Nevada
==========

****EDITORS NOTE****
The F.C.C. has now resumed prossessing new calls again.The computer
problems have been fixed ....

#1
ARRL PUBLISHES THE 2004 FIELD DAY RESULTS.

64 group
N9EE 630 contacts 51 ops 2,306 points WCF (West Central
Florida ARRL Section)

For 3A (having 3 HF rigs on emergency power, generators) we took
number 1 in 3A for WCF section and placing us in top 40% in 3A total.
If we were in 2A (largest category) we would have been close second
for WCF.

Tampa ARC, N4TP, took first in WCF and 9th in 2A total entries with
2611 contacts and 9,846 points. .

First in 3A was Pikes Peak DX Group, W0GG, 4907 contacts and 15,936
points. First in 2A was BARC/NCAARS, W5ZN, with 4424 contacts and
13,972 points.

The effort by all was fantastic. We need to thank so many especially
Bruno for the tower, antennas, tent and food and Rich for the use of
his 2 great HF rigs and the 6 & 2 meter station and antennas and Rob
for coordinating it all. Also the park for their help and letting us
use the park with facilities.

And we had a great time. Remember Field Day is 4th weekend of June.
Get ready for another great time.
******PLEASE SEE EDITORS NOTE BELOW*****

#2
We have re-started the Skywarn net on Tuesdays at 8 PM. All are
invited to check in, Skywarn Spotter or not. Hope to have SAME
weather alert receiver on 64 soon.

#3
We are still running the code practice each day at 10 AM and 7:30 PM
at 5 wpm using the Farnsworth sending method.

#4
The FCC is still studying comments for 18 Notices of Proposed Rule
Making which, among other items, would keep or remove the code for
getting a ham license. Some want the code done away with and others
want it to stay and some wanting it to stay, but would be only for say
the Extra. So for now the code is still required for HF. The ARRL
does not anticipate any action until 2006.

==========
****Editors Note*****
We all give great thanks to N9EE and all the hams that made the 2004
Field Day such a success.Without the very hard work done by all the
equipment owners,the Rangers and operators at the park,our field day
might not have gone as well. The 2nd 146.640 Repeater Group Field Day
was great ! Planning our 3rd is going on now and I hope ALL OF YOU
get involved in next years event which will be bigger and better.
If interested in be a part of this event please feel free to contact
this forum for more information.
Thankyou.
==========
Thankyou for your interest in "The 64 Newsline".
This newsletter contains news that may be of interest to the users of
the Tampa Bay N9EE,146.640 repeater.
==========
If you have anything to share with the 64 Ham community (ie: Radio
related websites or Ham related news,etc) you can send it here to be

sent out to our mail list.Any mailings sent here become property of
the Editor and will be sent out as soon as possible.
==========
FEEL FREE TO SEND THIS TO ANYONE THAT MIGHT LIKE TO READ IT...

Has anyone used this software to program memory channels on a PC and download to an IC-706MKIIG?? I have the software and gave up trying to use it. If anyone has simple instructions, I would appreciate it greatly. Tried using support from TRX but we never were on the same page. H E L P..

Finally got that clean sweep after a couple years of just missing it.
Thanks to Hans, K0HB for the QSO, ran into lots of folks I know in the
contesting circle.

If anyone still needs Alabama I'll be on 40 and 75 till its done.

Dan/W4NTI

The Ohio/Penn DX PacketCluster
DX Bulletin No. 686
BID: $OPDX.686
November 22, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, W2LO, NG3K, W3UR & The Daily DX, K4VUD, N4AA & QRZ DX, K5WW, NA5U, N6TJ, WA6CDR, K8YSE, W8KVU, W8LU, 9A7K, CE6TBN, DL1EK & The DX News Letter, DL4KQ, EC8AUA, F5CWU & La Gazette du DX, F5NQL & UFT, G3SWH, I1JQJ/IK1ADH & 425 DX News, IZ8BRI, IZ8CGS, JH7BZR, JI3ERV/NH2C, JI6KVR & JA-IOTA Islands News, K6SRZ, LA5YJ, OH2BN, PA7FM, PS7AB, SP5UAF, VA3RJ & ICPO, VK4FW and VK6VZ for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 14th/November, through Sunday, 21st/November there were 211 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9N, 9Q, 9V, 9Y, A3, A4, A6, A7, A9, AP, BV, BY, C3, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FK, FM, FO, FR, FY, G, GD, GI, GM, GU, GW, HA, HB, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, JA, JD/m, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P4, PA, PJ2, PY, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T8, T9, TA, TF, TG, TI, TJ, TK, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V5, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

160 METERS NEWS.....
* Ijaz, AP2IA, states that he will be on daily at 0200z on 160 meters No frequency was provided.

* Operators Yasunori/JI1NJC and Yuu/JR2KDN will be active from Iceland (TF) from November 25th to December 1st. They will use a Rhombic antenna and KW, and are interested in the low band. Here is a good chance to get TF on 160 and 80 meters (espcially for Asia). Suggested frequencies are 1828.5 kHz (listening down 5) and 3503 kHz (listening up 5).

* By the time you read this, Charlie/W0YG and Burt/W0MY should have arrived on Christmas Island (VK9X) for a two week plus stay as VK9XG. Their major aim on this operation is 160 and 80 meter DX QSOs. According to Steve, VK6VZ, the "VK9XG is likely to be the last lowband DXpedition on Christmas Island for some time, as accomodation on the island that is suitable for radio purposes is increasingly difficult to find." Look for the operation to be on 1828.5, listening 5 kHz up and down. Charlie and Burt will operate from sunset until sunrise every day, while dozing in the dead periods. VK9X is a much easier shot on 160m for Europe than North America, so few USA stations have worked VK9X on 160m. A maximum effort will go into working North America on both SP and LP. Please QSL direct to W0YG. Instead of sending through the Bureau, please use the "Logbook of The World" (LoTW).

4K, AZERBAIJAN. Operators Rashad/4J9RI, Aleksandr/4J7WMF, Sergey/4J5A, Andrey/4K6DI and Igor/4K5D are in Baku and will be active as 4K7Z in the CQ WW DX CW Contest (November 27-28th) as a Multi-Op/All-Band/Single-Transmitter entry. QSL via UA3FDX (direct or by the bureau); and also for 2004 CQ WW DX SSB Contest and other periods of activity.

6O, SOMALIA. Baldur/DJ6SI and Thomas/DL1QW are now active until November 26th. Callsigns being used are 6O0X (CW) and 6O0W (SSB and RTTY). Activity will be on 160-10 meters. QSL 6O0X via DJ6SI and QSL 6O0W via DL1QW.

6W, SENEGAL. Look for Jacques, F6BEE, to be active as 6W1RW during the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via F6BEE.

8Q, MALDIVES. Operators Igor/UA9CDC, Willy/UN9LW, Andrei/RA9CKQ, Alexey/UA9DD, Mikhail/RW6AN and Vadim/UA9CLB will be active as 8Q7DV in the CQ WW DX CW Contest (November 27-28th) as a Multi-Single entry. QSL via UA9CLB.

9K, KUWAIT. Faisal, 9K2RR, will be active as 9K2HN during the CQ WW DX CW Contest (November 27-28th) as a Single-Op/Single-Band (40m) entry. QSL via 9K2HN.

9N, NEPAL. QSL Manager Dennis, PA7FM, informs OPDX that Michael, PA5M (aka ST2DX, TZ6M, 9U5M, 5U7DX and TY5M) is now in Nepal for a period of 3 weeks. He will apply for a licence, and if possible for 30, 20, 17 and 6 meters. It seems a radio licences in 9N-land is given for 2 bands at a time, so when you want 4 amateur bands, you will have to pay twice as much for the licence. (6 bands = 3 times the price). As this was being written, the callsign is not yet known. This time he will also try some digital modes like RTTY, PSK31 or JT6M. However, it's his first operation with this modes, so please be patient and don't expect too much. He will be using 100 watts

into a long wire for HF and a dipole for 6 meters. He is very anxious to work anything on 6 meters (Let's hope for some propagation). QSL direct only to PA7FM. There is a Web site with online logs and pictures as soon as they are received, at: http://www.pa7fm.nl

ACIAG. The members of Croatian Amateur Radio Asociation, a member of the IARU, formed the "All Croatian Islands Award Group" (ACIAG) at the beginning of October 2004. The ACIAG is opened to all radio amateurs and people who like chasing islands. The ACIA Group is an organization where you do not have to pay a membership fee; the membership is free. Your membership includes a membership award with a membership number; all you need to do is send the membership application with 3 IRC coupons to cover the postage expenses. The ACIA Group issues two awards:
All Croatian Islands Award (Basic)
All Croatian Islands Award (Diamond)
Awards above are available as Trophies, Diplomas, Certificates and Medals. Islands are "activated" very regularly. Also, this is appealing and available to the SWLs. Everything concerning the ACIAG and ACIA awards can be found on the Web page at: http://www.9a7k.com

AH2, GUAM. The Guam Contest Club (GCC) will be on the air during the CQ WW CW Contest (November 27- 28th) as AH2R. This time they set a target as the Oceanic leader in the Multi-OP Single-TX category and World Top 5. Also, they are trying to build an Oceanic record in this category. The GCC team on Guam Island (KH2, Zone 27, IOTA OC-026) consists of: Aki/JI3ERV/NH2C, Toshi/JR7OMD/WI3O, Seo/JR3RVO/WX8M and Masaki/JO1DFG/KH2XC. QSL via JH7QXJ, Direct (see QRZ.com) or the JA bureau ("NOT" the KH2 bureau). Their Sunrise/Sunset is: 2026/0750z

BW2, TAIWAN. Ayumi, JH7BZR, informs OPDX that operator Hack/JL1EEE, Iku/JL1WQO, Tad/JL1ANP and himself (JH7BZR) will be active from here starting Thursday, December 2nd (Late Midnight) through Monday, December 6th (Early Morning). Operators will sign BW2/JL1EEE, BW2/JL1WQO, BW2/JL1ANP and BW2/JH7BZR. They may have two stations active on 160-10 meters including the WARC bands. Suggested frequencies are:
CW - 1827.5 (listning up/down), 3505, 7005, 10135, 14030, 18090, 21030, 24915 and 28030 kHz
SSB - 3560, 7060, 14175, 18130, 21275, 24950 and 28475 kHz
RTTY - proper operating segments
The team will also take part in the 2004 ARRL 160 Meter Contest. Ayumi states, "We are not serious DXers or Top band specialists. But we would like to work many NA/EU/JA,etc. on top band as much as we can. Please be patient!! Suggestions will be appreciated. (We are studying the rules)" QSL via their home callsign; the bureau is welcome. There may be a log search. Visit the Web page at: http://homepage1.nifty.com/jh7bzr

CT3, MADEIRA ISLAND. Ken, W8LU, will be traveling to Madeira Island (AF-014) for CQ WW DX CW Contest (November 27-28th). During the contest he will be operating as a team member from CT9L. Outside of the contest he will be active, signing his home callsign portable, CT3/W8LU, beginning November 22nd. Please QSL CT3/W8LU via W8LU.

EA8, CANARY ISLAND. Jose, CT1BOH, will be active as EA8ZS during the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power entry. QSL via EA8ZS.

EA8, CANARY ISLAND. Ville, OH2MM, will be active as EA8EA in the CQ WW DX CW Contest (November 27-28th) as Single-Op/Single-Band (20m) entry. QSL via OH2MM.

EA8, CANARY ISLAND. Toivo, ES2RR, will be active as EA8EW in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/Single-Band (15m) entry. QSL via OH1MA.

EI, IRELAND. Wes, SP4Z, will be active as EI/SP4Z during the last week of November. He will participate CQ WW DX CW Contest as a Single-Op/All-Band/Low-Power entry. Also, there will be some activity before the contest. QSL via his home callsign.

HS0ZDZ/G3NOM AND HS0AC/HS72B CLUB STATION UPDATE. Robin, WA6CDR, informed OPDX with good and bad news. First the good. The HS72B CQWW CW and Special Operations team (DL3DXX, DL5LYM, G4ODV, G4UZN, WA6CDR, HS1CKC, HS0ZDX and HS0ZDZ) have received a very generous donation, and they will use it as matching funds toward a new, well equipped FT1000MarkV, shipping & customs costs for several FT980s they received with another generous donation, and repair/re-tube of their amplifiers, including a newly donated FL2100. They need your help to complete this project and bring the RAST club station online as a permanent full performance station. The team members are putting up their own money to make this happen; they need your help to finish the job properly. Now for the bad news. This project, however, was put on hold last week when station leader, Ray, HS0ZDZ/G3NOM, suffered a heart attack and is still hospitalized. The project has gotten everything back on track through major efforts of HS1CKC and HS0ZDX, but they still need your help. However, the news about Ray, HS0ZDZ/G3NOM, is not good, according to HS0ZDX. Anyone who would like to send their wishes for Ray's recovery may send them to: dx@thai.com
HS0ZDX will print out the messages and pass them on to his wife, daughter and son-in-law in Bangkok. OPDX and its readers would like to send out our best wishes and prayers for Ray's speedy recovery.

I0QHM/IA0PS, ANTARCTICA. The Mario Zucchelli Station (formerly known as Baia Terra Nova) at Terra Nova Bay, Victoria Land (AN-16), is improving the personnel. Among the 80 people present at the Base, there is Dr. Mario Pillon, a researcher from the Italian ENEA Dept. who holds a personal Ham callsign,I0QHM. He has been showing up on 14180 kHz at 1845z signing I0QHM/IA0PS. However, as this was being typed, Mario is now signing I0QHM/KC4. Mario is expected to remain in Antarctica until around mid-February. He could also operate from Dome C&#65533; and probably from other remote camps in the future if time and equipment permit. The Mario Zucchelli Station (MZS) is referenced for WAP as: WAP ITA-01

IOTA NEWS.....
AF-004. Members of the Canary Islands DX Society will activate Tufia Rock as EF8TDX, December 11-12th. Tufia Rock is valid for the Spanish Islands Award (D.I.E), reference: S-101. Activity

will be on 15 meters SSB only. The team that is activating AF-004 are licensed EC8 operators and are restricted to only operate below 21200 kHz. QSL Manager is EC8AUA (more details on QRZ.com). All QSLs will be posted through the URE Bureau after the operation. For more updated information, and also video/pictures after the EF8TDX activation, visit the Web page at: http://www.cidxs.com

SA-NEW. Marco, CE6TBN, informed OPDX on the following updated news on the Rennell Island IOTA (SA-NEW) DXpedition. The team now consists of CE6NE/Mario, K9AJ Mike, KD6WW Bruce, HA1AG Zoli and CE6TBN/Marco. The team will be on the air as CE8A on SSB and CW with two stations on 80-10 meters. The pilot stations are: VE3LYC/Cezar (EU & NA) and JA1QXY/Gou (AS & OC). Activity will take place February 10-15th (weather depending). QSL Manager is CE6NE; by the Bureau or direct to: P.O.Box 866, Temuco, Chile. Please visit the Web site at: http://www.ce6ne.cl

SA-020. (Update) Operators F9IE, F5TVG, F5VHQ, F8BJI and OE3GCU will activate Salut Islands (Royale) (DIFO FY-008), French Guiana, as TO7C from March 10-17th. The team is currently preparing and looking for input on bands and modes wants/needs. There is a survey available on the Web at: http://to7c.free.fr/traficuk.html
A online log will be available from the first days of activity for this F6KOP ARS DXpedition.

KC4, ANTARCTICA. Chris, KC4/N3SIG, reports that he "finally hooked up the ICOM 706 to the Amp in the ham shack, the antennas are all fixed and it's time to DX!" Look for him on 14243 kHz at or around 1930-2000 Local Eastern Time. ALL QSLs go to his home address and will be answered when he gets home.

KP1 & KP5, NAVASSA AND DESECHEO ISLAND. "The Lone Star DX Association (LSDXA) has joined the effort to get Navassa (KP1) and Desecheo (KP5) islands back on the air! As the primary DX organization associated with this effort, the LSDXA will assist in many important ways to achieve our common goal by encouraging Amateur radio operators to contact their Congressmen to support new legislation to re-open these islands, and help raise needed funds for court review of the U.S. Fish and Wildlife Service (FWS) ban of Amateur Radio on these islands. Action continues to be pursued aggressively on multiple fronts. The inital grass roots effort conducted by the DX and Contest community during the summer of 2004 has resulted in legislation being drafted to force the FWS to allow access to KP1 & KP5. As a result your help is immediately needed! Congressman Nick Rahall (D-WV) has introduced HR5361 in the House of Representatives. Congressman Richard Pombo (D-CA) has also signed on, making this a bipartisan effort. It is critical that each and every DXer and interested Contester contact their U.S. Representative now to tell them that this legislation is important to you. Ask them to contact Rep. Rahall's office (202-225-3452; fax 202-

225-9061) and offer to sign-on to this pending legislation. With your support, this legislation will be successful and move onto the Senate and ultimately the President to be signed into law." The above is just part of a very long press release by the LSDXA. It is important for interested DXers and Contesters to read the whole press release. It can be downloaded as a PDF file at:
http://briefcase.yahoo.com/michael.l.thomas@sbcglobal.net
(Click on "Island Project" and download "News ReleaseR8")
As the host organization for the project, the LSDXA has donated 500 USD to a fund it will administer to help pay for the costs of moving the effort forward in Congress and in court. If you or your organization would like to help, please send your donation to the Lone Star DX Association, c/o Jim Bass, K5KQI, 2709 Monarch Dr., Arlington, TX 76006. Mark your donation for the "Navassa-Desecheo Project." Your help, in whatever amount, will be greatly appreciated! LSDXA has been granted 501(c)(3) tax exempt status by the Internal Revenue Service. News updates, additional information and resources can be found at: http://www.dxer.org

LIGHTHOUSE ACTIVITY. Members of the LABRE/RN will activate the Lighthouse Gameleira, December 3-5th. They will use the callsign ZY7LH. Activity will be on CW, SSB, PSK31 and RTTY. Bands were not mentioned. Reference numbers are: DFB RN 05, ARLHS BRA 133 and Grid HI24GS. QSL via PS7AA: LABRE/RN, P.O. Box 251, 59010-970, Natal / RN - BRAZIL.

OFFICERS ELECTED FOR 2005. The Southwest Ohio DX Association officers for 2005 are: President Peter Meyer, N0FW
Vice President Ron Moorefield, W8ILC
Secretary William Moore, W8KVU
Treasurer Jay Slough, K4ZLE

OH0, ALAND ISLAND. Toni, OH2UA, will be active as OH0B during the CQ WW DX CW Contest (November 27-28th) as a Single-Op/Single-Band (40m) entry. QSL via OH2BH.

P4, ARUBA. John/W6LD, Denny/KX7M and Rick/N6XI will be participating as P40L in the CQ WW DX CW Contest from John's station on Aruba. QSL via the bureau or direct to K5WW. The log will also be uploaded to the LoTW.

P5, NORTH KOREA. There is a Web page reporting that Mark, OH5XL, will try to activate North Korea during Christmas. The Elstar Web page also states the following details:
"Problem is money. We wish support and donation to Mark for his trip. Permission will be for CW and SSB. Operation mainly on CW. Using AEA PK-232DSP, Alinco DX-70TH and Smart Tuner. ELSTAR Oy, Ltd supports on USD 1000, - We wish your firm could do the same. Full three day operation takes at least USD 5000 more. Antennas: Smart GP, Smart Qwiere, all from ELSTAR. If Mark is not in the Air, the donation will be used for other trip during 2005. At least Mark will be there. Permission is not sure yet. All support helps."
To see the announcement (and possible updates), visit the Web page at:
http://www.elstar.fi/hinnastot/dx_today/dxtoday.htm

PACIFIC DXPEDITION. Just a reminder that Dominique/F6EPY, Kar/F6GNZ and Michel/F6COW will start their Pacific operations this week (November 24th) starting from Rarotonga (OC-013), South Cook Islands. Please refer to OPDX.683 for more details on islands to be activated and QSL routes.

QSL INFO AND NEWS.....
QSL Manager Patrice, F6JOB, announced that he is no longer the manager for the expeditions (past and future) organized by Dominique, F6EPY. This includes the following callsigns: YJ0APY, ZK1EPY, 5W0DA, and now FO/ZK1EPY and ZK1EPY (2004).

QSL TM6OLM via F6KFO. This is activity is to celebrate the 60th anniversary of the liberation of the town of Metz, France. Members of the F6KFO ARS will be active until the 26th of November. However, the main activity was to happen between November 21-22nd.

TX9 ONLINE LOG. It has been reported that the TX9 group is citing some problems with the online log and have turned it off. They have further stated that they do not plan to reinstate it. The link to the TX9 site with this news is: http://www.df3cb.com/chesterfield/news.html

VK9LA/VK9LW QSL cards are now at the printers. Bill, VK4FW, states, "We should have them back in 14 days. QSLING will begin immediately. As cards are done, they will be posted . This will take place daily until all requests are out. Those that have not sent the required return postage will be done last. Some people have put VK stamps on their return envelopes..... this is not acceptable as most times the amounts are incorrect..... it is better to just send IRCs, Euros or USDs."

YV0D QSLS. "The Daily DX" reports that the YV0D QSL cards are expected to be shipped on November 20th and in the hands of QSL Manager KB6NAN, Dianna, around Thanksgiving. She will start to answer requests as soon as she gets the QSLs.

S9, SAO TOME AND PRINCIPE. Excerpts from a press release by Jarmo, OH2BN, states that operators Pekka/OH2TA, Pertti/OH2PM and Martti/OH2BH will be active from the Democratic Republic of Sao Tome and Principe, starting Saturday, November 20th, and running for two weeks, including the CQWW DX CW Contest. They will activate two stations covering all bands, CW and SSB. The callsign S9BB will be used outside the contest and S9RR in the contest. QSL manager is Pekka, OH2TA. The expedition is supported by Charles Lewis/S9SS, Mike Mertel/K7IR (SteperIR), Vertex Standard (Yaesu) and Marlin Beach Hotel, Sao Tome. Suggested frequencies are:

CW - 1823/1833, 3503, 7003, 10103, 14023, 18073, 21023, 24893, 28023 kHz
SSB - 3795, 7045, 14195, 18145, 21295, 24945, 28,495 kHz

Daily contacts will be maintained with Pertti/OH2RF, Bill/K6GNX and Yoichi/JP1NWZ.

SPECIAL ACTIVITY. Wojtek, SP8MI, will use the special Polish callsign HF8IARU, from January 25th through March 6th. Activity will be on the HF bands, CW and possibly more modes. QSL via SP8MI. No details or reasons

were provided for this special activity.

SPECIAL EVENT. French amateurs in the Loire and Sarthe Departments are involved with a "French 36 hours Telethon 2004" (which collects funds in fighting genetic dieases) and will be active with special callsigns before, during and after the event. Look for the following French stations to be active:
* The Loire Department and F6KRG hams will be active December 3-4th as TM8TLN. Activity will be on HF/VHF, CW, SSB and SSTV. QSL via operator's instructions.
* The Sarthe Department hams will be active as TM6TLT, from December 1-8th, with the main activity on the 3rd and 4th. QSL via operator's instructions.

SPECIAL EVENT. To celebrate the 100th anniversary of the Dutch Coastal Station, (PCH Scheveningen Radio which closed down December 31, 1998) look for special event station PC100H to be active from 0700z Saturday, December 18th until 1900z Sunday, December 19th. Suggested frequencies are:
CW - 1830, 3530, 7030, 10130, 14030, 18090, 21030, 28030
SSB - 1850, 3650, 7050, 14250, 18150, 21250, 28250
FM - 144.250 and 145.250
RTTY/PSK31 - 10145
For the actual schedule, please refer to the Web page at:
http://www.remeeus.nl/pch/pc100h.htm

ST, SUDAN. Hugo, LA5YJ, is now in Khartoum, and will apply for a license as soon as the holy days have passed. He will try to get ST7YJ, and this time the QSLs for the Sudan will go to LA4YW. All of his other operations (9N7YJ, XU7ACW, MI0YJR and his home callsign LA5YJ) will still be handled by him. All QSL cards received via the bureau and direct were taken care of before his departure on the 13th of November. More details are forthcoming.

ST. SUDAN. QSL Manager Dennis, PA7FM, informs OPDX that Paul, ST2PN, is in Khartoum for his work for the WFP of the UN, and will remain active until the 3rd of December, and then return back home to Norway. However, as things look right now, he will go back to the Sudan for another half a year in January 2005. He will also be active again as ST2PN. That is only when time allows and when he's not in the field in Darfur (the problem area in Sudan and where radio operations are not allowed), the work area for Paul. Online logs and photos (of his the 10 element log-periodic that came down in a storm) are available on: http://www.pa7fm.nl
QSL direct only to PA7FM (QRZ.com address), as Paul is not a member of the PA bureau.

SU, EGYPT. Tom, N9NC, will be active as SU9NC during the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/Low-Power entry. QSL via OM2SA.

T33C VIDEO. "The T33C Banaba Dxpedition video is now available. The video package includes two discs, one is a DVD record of the expedition, including

details of the radio operation and scenes of Banaba and its people. The soundtrack includes lots of wonderful music performed by Banaban musicians, recorded during the expedition. This is an expanded version of the video that premiered at the Northwest DX Convention earlier this year. The second disc contains still photographs of Banaba and many of the Powerpoint slides that were shown at the recent Friedrichshafen hamfest. It's easy to order on-line, and, if desired, pay with PayPal. On-line ordering details are at: http://www.dx-pedition.de/banaba2004/order_dvd.htm
The price is 15.00 USD plus 2.50 USD postage in the USA and territories. Outside of the USA, the package sells for 12 Euro plus 3 Euro postage. Outside of the USA, please follow order instructions on our Web site. USA hams can order through my PayPal account doctore@well.com or direct to my address: Alan Eshleman., K6SRZ, 2213 Vine Street, Berkeley CA 94709. All proceeds will go toward paying off the expenses of the expedition. .... 73, Alan/K6SRZ"

TF3, ICELAND. Sigurdur, TF3CW, will be active during the CQ WW DX CW Contest (November 27-28, 2004) as Single-Op/All-Band/High-Power entry. QSL via LX1NO.

TO4, MARTINIQUE. Jim, N6TJ, will be active as TO4A in the CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band entry. He will be operating from FM5BH's QTH. QSL via VE3HO.

VE2, CANADA (Zone 2). Vladimir/VE3JM and Nikola/VE3EY will be active as VE2/homecall from Sept Iles, Quebec, which is located in CQ Zone 2, between January 13-19th. Their main focus will be on the lower bands. They will use verticals for 80/160 meters. QSL via their home callsigns.

VQ9, CHAGOS ISLANDS. Roger, W9ROG, will be on Diego Garcia (AF-006) until the end of the year with the United States Air Force Security Forces. He is currently operating as VQ9OG on his days off and will be operating on 80-10 meters including the WARC bands. Watch 7067 and 7088 kHz after 1930z. Watch 15 meters SSB between 1200-140 and 20 meters SSB after 1400z. QSL via his home callsign of W9ROG.

VU4, ANDAMAN ISLANDS (Update). A flurry of press releases were sent out this past week. In short, it is now offical, Bharathi, VU2RBI, has received permission to operate from the Port Blair, Andaman Islands. Her press release states:

"A special permission of Ministry of Communications and Information Technology, Department of Telecommunication is accorded on 19th November, 2004 to Mrs. D. Bharathi Prasad, VU2RBI (Team Leader) along with Mr. D. N. Prasad, VU2DBP, Mr. D.S. Varun Sastry, VU3DVS, Mr. S. Ram Mohan, VU2MYH and Mr. R. Sarath Babu, VU3RSB, respectively to use special callsigns VU4NRO and VU4RBI and shift their location to Andaman and Nicobar Islands from 3 December 2004."

The Chairman, Governing Council & Members of NIAR & Hams wish the members of Andaman Dxpedition team a grand success.

For Dxpedition News / Site will be updated in www.niar.org

All correspondence related to this Expedition to niarvu4@gmail.com

73s D.Bharathi Prasad, VU2RBI
Chief Co-ordinator, NIAR
Team Leader, Andaman Dxpedition - 2004

Word has it that she and her team have permission to operate between December 3-31st. Earlier in the week (while Bharathi was waiting for the official permission to be granted), Bharathi sent out a press release stating she was extremely grateful to the DX Community for the encouragement by their letters and E-mails. She states, "It is your opinions/suggestions/ recommendations made to Mr. Dayanidhi Maran, Honorable Minister of Communications and others made it possible for me and the National Institute of Amateur Radio (NIAR is a national organisation for Amateur Radio in India is fully supporting me) to achieve very good results."

Please remember that funds are still needed for this operation. Donations/ funds should be directed to: National Institute of Amateur Radio
Raj Bhavan Road
Hyderabad 500 082
India

Funds can also be sent to the Charles, K4VUD. Charles states, "Any and all donations that come to me will be completely used to assist this DXpedition via the National Institute of Amateur Radio in India, the umbrella sponsoring agency who, BTW, is allowed to receive foreign funds." K4VUD mail address is: Charles Harpole, 3100 N. Hwy. 426, Geneva, FL 32732 USA. Charles also states/recommands the following words to the DX community: "This is truly an exciting moment for ham radio DXing, activating an entity silent for about 17 years. Please be on your best on-air behavior when calling. We want to show ham radio to the India government and the world regulatory bodies that we are a disciplined and worth while activity, fully deserving of precious spectrum space. There are no firm answers yet as to what bands/modes nor what rigs/antennas. This DXpedition is not a mass group of crack operators arriving with tons of gear. However, there is some possibility of a continuing re-newal of permits to VU4 by many India hams, thus, we have the hope of more contact opportunities in the future. Warm up the rigs ... here we go !"
73, Charles Harpole

2210. *** who is this K4BKT mud-duck?***

Newsgroup: rec.radio.amateur.misc
Date: 2004-11-22 04:52:41 UTC
From: Left-Lane Leroy <tripleL@yomomma.org>
Message-ID: <41a16ebb$1_1@newspeer2.tds.net>
Source record: 55472

Beware of this individual.
K4BKT - Rick Patterson

Individual is heard on 146.880 repeater in Richmond, Virginia around 6am or earlier.

Runs his mouth about nonsense!

He brags bout group called virginia defenseless force.

I ain't never heards of the group. nor do I wanna hears abouts it.

all i hear is dis dudes mouth flappin around every mornin on the rats repeater.

see, i have a scanner --- maybe not a digital but it a Pro-200x series.

I loves this scanna and I don't keeps up wit all this digital mess, hear?

Just stays away from him cause he ain't nuthin' to worry bouts.

I goestoos meetings and I get alls my 411 on dis 5150.

(laughin)

I knows somethins bout someone by listenins (laughin)

I be on cb and I aint gots to worry bouts mr k4bbt or whatsever comin in an' droppin his droopy jaws. cause I be droppin' da maul on that mudduck fo shore!

i'm out

> more likely a "BUSTED CALLSIGN". As always, you never know - "Work
> First Worry Later" (WFWL).
>
> 160 METERS NEWS.....
> * Ijaz, AP2IA, states that he will be on daily at 0200z on 160 meters
> No frequency was provided.
>
> * Operators Yasunori/JI1NJC and Yuu/JR2KDN will be active from Iceland
> (TF) from November 25th to December 1st. They will use a Rhombic
> antenna and KW, and are interested in the low band. Here is a good
> chance to get TF on 160 and 80 meters (espcially for Asia). Suggested
> frequencies are 1828.5 kHz (listening down 5) and 3503 kHz (listening
> up 5).
>
> * By the time you read this, Charlie/W0YG and Burt/W0MY should have
> arrived
> on Christmas Island (VK9X) for a two week plus stay as VK9XG. Their
> major aim on this operation is 160 and 80 meter DX QSOs. According to
> Steve, VK6VZ, the "VK9XG is likely to be the last lowband DXpedition
> on Christmas Island for some time, as accomodation on the island that
> is suitable for radio purposes is increasingly difficult to find." Look
> for the operation to be on 1828.5, listening 5 kHz up and down. Charlie
> and Burt will operate from sunset until sunrise every day, while dozing
> in the dead periods. VK9X is a much easier shot on 160m for Europe than
> North America, so few USA stations have worked VK9X on 160m. A maximum
> effort will go into working North America on both SP and LP. Please QSL
> direct to W0YG. Instead of sending through the Bureau, please use the
> "Logbook of The World" (LoTW).
>
> 4K, AZERBAIJAN. Operators Rashad/4J9RI, Aleksandr/4J7WMF, Sergey/4J5A,
> Andrey/4K6DI and Igor/4K5D are in Baku and will be active as 4K7Z in the
> CQ WW DX CW Contest (November 27-28th) as a Multi-Op/All-Band/Single-
> Transmitter entry. QSL via UA3FDX (direct or by the bureau); and also for
> 2004 CQ WW DX SSB Contest and other periods of activity.
>
> 6O, SOMALIA. Baldur/DJ6SI and Thomas/DL1QW are now active until November
> 26th. Callsigns being used are 6O0X (CW) and 6O0W (SSB and RTTY). Activity
> will be on 160-10 meters. QSL 6O0X via DJ6SI and QSL 6O0W via DL1QW.
>
> 6W, SENEGAL. Look for Jacques, F6BEE, to be active as 6W1RW during the
> CQ WW DX CW Contest (November 27-28th) as a Single-Op/All-Band/High-Power
> entry. QSL via F6BEE.
>
> 8Q, MALDIVES. Operators Igor/UA9CDC, Willy/UN9LW, Andrei/RA9CKQ, Alexey/
> UA9DD, Mikhail/RW6AN and Vadim/UA9CLB will be active as 8Q7DV in the
> CQ WW DX CW Contest (November 27-28th) as a Multi-Single entry. QSL via

> UA9CLB.
>
> 9K, KUWAIT. Faisal, 9K2RR, will be active as 9K2HN during the CQ WW DX
> CW Contest (November 27-28th) as a Single-Op/Single-Band (40m) entry.
> QSL via 9K2HN.
>
> 9N, NEPAL. QSL Manager Dennis, PA7FM, informs OPDX that Michael, PA5M (aka
> ST2DX, TZ6M, 9U5M, 5U7DX and TY5M) is now in Nepal for a period of 3
> weeks.
> He will apply for a licence, and if possible for 30, 20, 17 and 6 meters.
> It seems a radio licences in 9N-land is given for 2 bands at a time, so
> when you want 4 amateur bands, you will have to pay twice as much for the
> licence. (6 bands = 3 times the price). As this was being written, the
> callsign is not yet known. This time he will also try some digital modes
> like RTTY, PSK31 or JT6M. However, it's his first operation with this
> modes,
> so please be patient and don't expect too much. He will be using 100 watts
> into a long wire for HF and a dipole for 6 meters. He is very anxious to
> work anything on 6 meters (Let's hope for some propagation). QSL direct
> only to PA7FM. There is a Web site with online logs and pictures as soon
> as they are received, at: http://www.pa7fm.nl
>
> ACIAG. The members of Croatian Amateur Radio Asociation, a member of the
> IARU, formed the "All Croatian Islands Award Group" (ACIAG) at the
> beginning
> of October 2004. The ACIAG is opened to all radio amateurs and people
> who like chasing islands. The ACIA Group is an organization where you do
> not have to pay a membership fee; the membership is free. Your membership
> includes a membership award with a membership number; all you need to do
> is send the membership application with 3 IRC coupons to cover the postage
> expenses. The ACIA Group issues two awards:
> All Croatian Islands Award (Basic)
> All Croatian Islands Award (Diamond)
> Awards above are available as Trophies, Diplomas, Certificates and Medals.
> Islands are "activated" very regularly. Also, this is appealing and
> available to the SWLs. Everything concerning the ACIAG and ACIA awards
> can be found on the Web page at: http://www.9a7k.com
>
> AH2, GUAM. The Guam Contest Club (GCC) will be on the air during the CQ WW
> CW Contest (November 27- 28th) as AH2R. This time they set a target as the
> Oceanic leader in the Multi-OP Single-TX category and World Top 5. Also,
> they are trying to build an Oceanic record in this category. The GCC team
> on Guam Island (KH2, Zone 27, IOTA OC-026) consists of: Aki/JI3ERV/NH2C,
> Toshi/JR7OMD/WI3O, Seo/JR3RVO/WX8M and Masaki/JO1DFG/KH2XC. QSL via
> JH7QXJ,
> Direct (see QRZ.com) or the JA bureau ("NOT" the KH2 bureau). Their
> Sunrise/Sunset is: 2026/0750z
>
> BW2, TAIWAN. Ayumi, JH7BZR, informs OPDX that operator Hack/JL1EEE,
> Iku/JL1WQO, Tad/JL1ANP and himself (JH7BZR) will be active from here

> starting Thursday, December 2nd (Late Midnight) through Monday, December
> 6th (Early Morning). Operators will sign BW2/JL1EEE, BW2/JL1WQO,
> BW2/JL1ANP
> and BW2/JH7BZR. They may have two stations active on 160-10 meters
> including
> the WARC bands. Suggested frequencies are:
> CW - 1827.5 (listning up/down), 3505, 7005, 10135, 14030, 18090,
> 21030, 24915 and 28030 kHz
> SSB - 3560, 7060, 14175, 18130, 21275, 24950 and 28475 kHz
> RTTY - proper operating segments
> The team will also take part in the 2004 ARRL 160 Meter Contest. Ayumi
> states, "We are not serious DXers or Top band specialists. But we would
> like to work many NA/EU/JA,etc. on top band as much as we can. Please be
> patient!! Suggestions will be appreciated. (We are studying the rules)"
> QSL via their home callsign; the bureau is welcome. There may be a log
> search. Visit the Web page at: http://homepage1.nifty.com/jh7bzr
>
> CT3, MADEIRA ISLAND. Ken, W8LU, will be traveling to Madeira Island
> (AF-014)
> for CQ WW DX CW Contest (November 27-28th). During the contest he will

> HS0ZDZ/G3NOM AND HS0AC/HS72B CLUB STATION UPDATE. Robin, WA6CDR, informed
> OPDX with good and bad news. First the good. The HS72B CQWW CW and Special
> Operations team (DL3DXX, DL5LYM, G4ODV, G4UZN, WA6CDR, HS1CKC, HS0ZDX and
> HS0ZDZ) have received a very generous donation, and they will use it as
> matching funds toward a new, well equipped FT1000MarkV, shipping & customs
> costs for several FT980s they received with another generous donation, and
> repair/re-tube of their amplifiers, including a newly donated FL2100. They

> need your help to complete this project and bring the RAST club station
> online as a permanent full performance station. The team members are
> putting
> up their own money to make this happen; they need your help to finish the
> job properly. Now for the bad news. This project, however, was put on hold
> last week when station leader, Ray, HS0ZDZ/G3NOM, suffered a heart attack
> and is still hospitalized. The project has gotten everything back on track
> through major efforts of HS1CKC and HS0ZDX, but they still need your help.
> However, the news about Ray, HS0ZDZ/G3NOM, is not good, according to
> HS0ZDX. Anyone who would like to send their wishes for Ray's recovery
> may send them to: dx@thai.com
> HS0ZDX will print out the messages and pass them on to his wife, daughter
> and son-in-law in Bangkok. OPDX and its readers would like to send out
> our best wishes and prayers for Ray's speedy recovery.
>
> I0QHM/IA0PS, ANTARCTICA. The Mario Zucchelli Station (formerly known as
> Baia Terra Nova) at Terra Nova Bay, Victoria Land (AN-16), is improving
> the personnel. Among the 80 people present at the Base, there is Dr.
> Mario Pillon, a researcher from the Italian ENEA Dept. who holds a
> personal
> Ham callsign,I0QHM. He has been showing up on 14180 kHz at 1845z signing
> I0QHM/IA0PS. However, as this was being typed, Mario is now signing
> I0QHM/KC4. Mario is expected to remain in Antarctica until around mid-
> February. He could also operate from Dome C. and probably from other
> remote
> camps in the future if time and equipment permit. The Mario Zucchelli
> Station (MZS) is referenced for WAP as: WAP ITA-01
>
> IOTA NEWS.....
> AF-004. Members of the Canary Islands DX Society will activate Tufia
> Rock as EF8TDX, December 11-12th. Tufia Rock is valid for
> the Spanish Islands Award (D.I.E), reference: S-101. Activity
> will be on 15 meters SSB only. The team that is activating
> AF-004 are licensed EC8 operators and are restricted to only
> operate below 21200 kHz. QSL Manager is EC8AUA (more details
> on QRZ.com). All QSLs will be posted through the URE Bureau
> after the operation. For more updated information, and also
> video/pictures after the EF8TDX activation, visit the Web page
> at: http://www.cidxs.com
>
> SA-NEW. Marco, CE6TBN, informed OPDX on the following updated news
> on the Rennell Island IOTA (SA-NEW) DXpedition. The team now
> consists of CE6NE/Mario, K9AJ Mike, KD6WW Bruce, HA1AG Zoli
> and CE6TBN/Marco. The team will be on the air as CE8A on SSB
> and CW with two stations on 80-10 meters. The pilot stations
> are: VE3LYC/Cezar (EU & NA) and JA1QXY/Gou (AS & OC). Activity
> will take place February 10-15th (weather depending). QSL
> Manager is CE6NE; by the Bureau or direct to: P.O.Box 866,
> Temuco, Chile. Please visit the Web site at:
> http://www.ce6ne.cl

>
> SA-020. (Update) Operators F9IE, F5TVG, F5VHQ, F8BJI and OE3GCU will

From: brad.johnson@turner.com
Message-ID: <af57b211.0411220149.4cd29887@posting.google.com>
Source record: 55476

I am looking for TV and radio broadcasts of the JFK and RFK assassinations. I am particularly interested in audio recordings of such broadcasts made by amateurs.

If you personally tape-recorded or obtained -- or know of anyone else who tape-recorded or obtained -- any television or radio broadcasts concerning one or both of the two Kennedy assassinations in 1963 and 1968, please contact me.

Whether it's a network or local broadcast, whether the sound recording of that broadcast is of good quality or poor quality, whether it was recorded in a major market or in a minor market, I want to know about it.

I'm a collector, so if you have any of this or know about someone else who does... please email me or have them email me at:

bkj333@aol.com

Thanks!

Ya mean like that FCC database which lists all the licensed radio operators including their addresses?

Sunuvagun! Next you'll need to register your automobiles, and I hear they've been keeping records for years on who you're married to, who your parents are(were), and where your children attend school. Next thing you know the phone company will publish a list of anyone who has a telephone line to their home!

I bet they're up to something!

73, de Hans, K0HB

Congrats on the sweep.

I'd like to know who nuked WMass ?

Never heard even one, and didn't have enough hardware to snag 5 others.

I was really sweating late sunday afternoon when I hadn't heard a single Iowa station (close enough to be worked on 2 meters!) Of course, after I worked the first one, they were everywhere.

BINGO

2223. Newbie Ham question: Antenna (Diamond X-50)

Newsgroup: rec.radio.amateur.misc
Date: 2004-11-23 18:33:38 UTC
From: "Daniel J. Morlan" <dmorlanderschpammtrapp@sbcglobal.net>
Message-ID: <6oLod.29744$5b1.2557@newssvr17.news.prodigy.com>
Source record: 55485
Cross-posted to: rec.radio.amateur.misc,rec.radio.amateur.equipment,rec.radio.amateur,alt.ham-radio,alt.ham-radio.fm,alt.ham-radio.vhf-uhf,rec.ham-radio

How far away from this little guy do I need to be when transmitting with 75 Watts? I'm assuming (ASSUMING) at least 10 feet or so, but can this thing be closer to me whilst I'm transmitting? I know it will also be most effective standing upright, but can this thing receive and transmit reasonably well if I am not able to mount this antenna upright? I have an awkward shaped house, and am a little too "husky" to venture climing up, and mounting the antenna on my own without extreme risk of injury, or potential to fall and kill myself.

(I'd pay someone to do it for me, but honestly, I'm not sure who to contact for something such as this.)

Please excuse the ignorance... And the EXTRAORDINARILY RARE instance of cross-posting. I won't make it a habit to do this in the future, but I'm praying for an answer soon, as my free time is limited.

73, WW6DJM

Tell me about it. WMA was really absent. I managed it as one of my last in the sweep. My last section was OK believe it or not. As usual I managed the close in states like LA and MS late afternoon on Sunday. This seems to be the norm for whatever reason on twenty from this part of Bama.

VE2 was rare again, guess they are still mad at us (you know Frenchy and all).

Managed the hard ones right off like NWT, KL7 and KH6 on Saturday early.

WMA was easy here in NH, of course. I had six of them. The ones I
missed were: BC, ID, NE, NL, NT, ORG, and PAC. I didn't get a sweep
this time on CW, either, but closer. This one (SSB) was 334/73. CW was
300/76, missed AK, NT, PAC, and QC. I can throw a rock and hit QC from
here. I don't get that one.

Hey Daniel
I need to ask this. It's not about license class. Why does it seem
that so many Technician class don't have a clue about the simplest of
things about radio or antennas but they know how to get a vanity call?

To answer your question. You would want the antenna outside and I
would get the antenna up as high as you can, maybe hire a neighbor kid
to do the climbing and use good coax. Maybe get on the local repeater
and ask for help, most hams are helpful!

I've been told that if you had $1000 to spend, spend $900 on the antenna
system and $100 on the radio!
Good luck
73

Well I would start with the ARRL page URL:
http://www.arrl.org/news/rfsafety/

Then a calculator at URL:
http://n5xu.ae.utexas.edu/rfsafety/

Call a TV shop that installs antennas -- most can handle small roof top
installations.
Be sure they read and understand the installation instruction sheet.

Good Luck

Do not assume. Although you would have studied this for your Tech license, it didn't stick with you (that's normal by the way) since there was so much to learn at the time. Get out your copy of the "Now You're Talking" study guide . Now that you have a need for the radiation safety information, you will absorb it much better than when you studied for the test. Go through the charts, tables, equations and you will be able to tell what is a safe operating distance.

Antenna orientation is important and depends on the application. Most repeaters have vertical antennas and so the signal is vertically polarized. Thus you want your antenna to be the same for maximum signal compatibility. If you turn it horizontally for example, your signal will be horizontally polarized and the effective result is that your signal will sound only half as strong into the repeater. If the repeater is close, this is no big deal but if it's a ways off it is important. On the other hand, if you are into working VHF/UHF sideband or CW, most of these folks use horizontally polarized antenna setups and you should do the same.

You might put the antenna up in the attic. Many people are quite successful with this setup.

>

As some one else has send, join a local club and/or get on the local repeater. They can help you find some one. Or have enough beer and pizza on hand and have an antenna party! I met my current husband through ham

radio. The first time I ever saw him was when he came to help me with an antenna. Being on a roof doesn't bother me but I'm scared to death of climbing a ladder!

Every one starts out as ignorant. It is only through time, experience, and making mistakes that people develop knowledge. We've all been where you are at in our ham radio careers.

Thank god, someone answers the question.

Newsgroups are so much different from the ham bands. People here are 95% losers, present company excluded, of course. If the original poster would have been able to ask the question on the air, he would have gotten a great reply. On this newsgroup, it was mostly ascerbic (again, Keyboard excepted), which is typical from people who never get on the air, and who probably don't have a license in the first place.

I'm afraid that newcomers will judge the hobby by the bulk of losers on this media, instead of getting on the air.

GET ON THE AIR, PLEASE.

You will find that most of the people who get on the air are a lot more positive and upbeat than people who can't get the antenna up.

All the best, and 73,
Dave

Ya gotta start somewhere.

When I first started in 1976 I ran 15 watts from a homebrew transmitter on 40 meters to a 'dipole' that was 15 ft on one side and 30 feet on the other. SWR? Huh?

I worked 20 states like that.

I like to think I've learned a few things since then.

Dan there are a lot of people on these NG's who are helpful and keep things
on track.

But there are those that "put others on" or are trolls.

Reason for the mish mash mix of folks on these NG's is they are unmoderated
and free.

To avoid this

1. Weed thru the goofy replies and IGNORE the ones that are not helpful --
NEVER respond as they are hoping you will.

2. Join a moderated group like the YAHOO forums. Tis free but you must
subscribe
see URL:
http://groups.yahoo.com/search?query=amateur%20radio

There are 1500 different Ham groups there - most are moderated.

Lots of expertise and good interchanges there as well as here (if you learn
to expect and ignore the negative or goofy posts)

Hey Daniel
I answered your question, but I also asked you a question which you never answered, for some reason I think your troll remark is meant for me? I wasn't being a troll nor do I feel you are trying to ruin the hobby for me! My question wasn't to berate you or your license class nor was it about no code. I just wondered why some people want all the techs grand fathered into generals but so many don't have the knowledge or experience yet to operate radios at 1500 watts. Please don't anybody take this personal but yesterday alone I saw 4 different post from tech class license's that had vanity calls that asked some of the most basic questions, 1 had been licensed less than a month and wanted to know the difference between a hand held a a "table top" radio another wanted to know how to hear the input of the "tower".
All I was doing was asking a simple question for my own knowledge.
It's great that you asked your question before transmitting 75 watts less than 10 feet from your head. I fear that if tech's are grand fathered into generals that some may just transmit 1.5k watts into an antenna strung across the ceiling!
Please go back and read my answer to your first post, I did give you a hint to hire a neighbor kid to climb for you (I do that all the time), I also told you that you should put your antenna outside and as high as you could with good coax, also to ask local hams on the repeater (tower)[this is my joke :)] for help, and for this you call me names?
I really think you took my question the wrong way am I'm truly sorry that you feel that way, and that you feel you have to be "funny for everyone else", and that you have no respect for me because I unlike you wasn't trying to wound anybody's feelings.

You need to go back and read up on the respective privileges of the various classes. Techs are already allowed 1500 watts of power at all ham frequencies above 30mhz. This is actually riskier than using 1500 watts at HF since the VHF/UHF frequencies are in a range that is the same as the resonant frequencies of the human body and are therefore more hazardous to the operator and others in the vicinity of the radio. This is why all the questions on radio frequency safety are on the TECHNICIAN exam not the General exam.

In addition to that, there are a significant number of people who test straight to General at one test session and have no more experience than a new Tech. Then of course there are also significant numbers of Techs testing to General within weeks or months of getting their Tech licenses. They also have little experience at that point. In any case, all are allowed to use high power for VHF and up. Of course at HF, one must be a General to use high power.

Everyone starts out with similar basic, simple questions. This is not covered in studying for any of the exams, not Tech, not General, and not Extra. The only way to learn these things is to ask people, read the manuals (which are often confusing), make mistakes, etc.

> All I was doing was asking a simple question for my own knowledge.

A Tech can already legally do that on frequencies above 30 mhz, i.e. 6m, 2m, 222mhz, 440mhz, 1.2ghz, etc. He/she doesn't have to be a General.

You ("whoever") really need to go back and read the "Now You're Talking" Technician study guide instead of slamming the inexperienced.

"everyone else" refers to anyone who was trying to get their kicks off by
being condescending. I never really took anything you said to heart, nor
did it bother me any. My only excuse is... It's been a year, I've not been
on the air due to personal challenges, and I want to get more into the hobby
again. It's been a long time since I've been on the air, and I've been
doing a lot of things since... Buying a house, trying to find a decent job
moving all the way across the country from California.

Don't sweat it bud! Nothing was said that bothered me. I was mostly trying
to reassure some of the extra sensitive folks on the board. I'll not spend
any more time on this thread, as I've thankfully been given all the
information I need, and I appreciate everyone's contributions. No hard
feelings, bro..

Best...

Have a great holiday.

You ("Dee D. Flint) really need to go back and take your own advice
instead of slamming the inexperienced. I never said I knew it all. Heck,
I don't know much of anything. I asked a still unanswered question and I
answered his question. I get called a troll and told I'm being
condescending? You have taken everything I said to somebody else way out
of context, and I don't see why you feel such a need to bash me while
protecting Daniel? I never was a tech so I guess I don't know their
privileges, sorry. I don't feel the need to go back a read the "Now
You're Talking" Technician study guide. So I'm wrong about how much
power a tech can use, all the more reason for my question! I guess I
should go back and remember all of the novice operating frequencies
while I'm at it?

You slammed the guy and acted like a know it all even though you did not say
you knew it all. And yes you should go back and read "Now You're Talking"
as you've forgotten too much. I reread my manuals periodically and get new
ones when they come out just for the purpose of keeping up to date.

Just to prove a point, I have used a lawnchair, and a metal garbage can,
to make HF contacts. If you really want to get on the air, you can.

So you're saying that you area know it all and can be condescending to me?
I didn't see where Daniel needed you to speak for him, and I don't see
any reason to know the operating privileges of any other class then my
own to ask the question that I asked? I never called any names nor tried
to put anybody down. My answers to Daniel should have been helpful, but
he chose to ignore that and call me a troll and you are doing to me 10
times worse then what you are accusing me of doing?
But I forgot you know so much more about everything then me so please
forgive me and I'll ask your husband to ask your promission before I
post next time.
My question is still unanswered!
Al the rest I have to say to you deleted.

Big mistake - beer cans help, if for no other reason, it makes it easier
to lie about the results after emptying said can.

But isn't it true that you really can get on the air with anything?
Sure, you won't win DX contests with a 6" wire, but if you really want
to get on the air, you can.

Woo-hoo! I think I will get on 80 CW right now. See ya!

Hmmm.... as I read this in six different newsgroups, I will take that advice to heart.

But seriously, I think you are right. I'm one of the biggest proponents of acting like ham operators here, instead of acting like the rest of Usenet. Hams act like friends right from the start; people here act like sociopaths. This (these?) newsgroup is not a fair representation of ham radio. Ham radio is a whole lot better. Give it a try.

2252. Jamming on the air: why?

Newsgroup: rec.radio.amateur.misc
Date: 2004-11-25 03:21:39 UTC
From: Dave Bushong <db@9y.com>
Message-ID: <KomdnSfIW55Z0jjcRVn-jg@adelphia.com>
Source record: 55414

On the way to work and back, I listen to ECARS on 7.255 MHz, and check in when the traffic (road traffic) isn't too bad. Often, there are people jamming, or offering catcalls, without identifying.

During the SS last weekend, there were stations who were sending strings of 30-wpm dits for many minutes at a time, with the intent of jamming.

My question is: Why do this?

It's like throwing a brick at a parade that you don't like.

Plus, with the FCC giving out $10,000 fines these days, I really wonder if these unidentified RF vandals have that kind of money to spare.

I would really like to open this subject for discussion. Am I missing something?

73,
Dave

Well, that would be a great comeback from someone with a
room-temperature IQ, but what about the point in question?

Do you really have a point, or a reply?

My guess is that you will reply now with a "really smart" barb, instead of something thoughtful.

Go ahead, and we will really listen to your ideas. No, really --we care. Please give us more.

Anyway, getting back to the original point, any ideas?

2255. I don't understand 'split'

Newsgroup: rec.radio.amateur.misc
Date: 2004-11-25 06:16:38 UTC
From: David Snyder Hale <david@isi.mtwilson.edu.REMOVE>
Message-ID: <co3tc6$2tup$1@agate.berkeley.edu>
Source record: 55417

I don't understand split operation. So, I tried googling for articles, and found one at http://www.guam.net/pub/midxa/nl/nl_apr98.html

Here is an excerpt which emphasizes my confusion:

"When do you need to go to a split operation ? When the people you are giving reports to are not answering, or when you are not getting your report from the station you are working because of other stations who are continuously calling. Simply, when the QRM starts slowing you down. Split operation moves the QRM and you are no longer forced to wait for 20 or 30 stations to stop calling you so you can work one of them Modern transceivers today come equipped with two VFO's - some even come with two receivers. The RIT (on Yaesu rigs, the CLARIFIER) can also be used for split operations. The primary goal of a split operation is to get the calling stations (the pileup) far enough away from the DX station so that the pileup causes no interference on frequency the DX station is transmitting on."

So, this seems to say that if you are getting so much QRM that you can't hear the calling stations, you move them to a different frequency.

OK, so you move them to a different frequency. How does that help anything if they are at 14.12 instead of 14.10? They are still all calling in the same place.

I guess I do see that you might be better heard, if you have a transmit frequency and a listen frequency, no one is talking over your transmit frequency so stations can hear you without QRM. But if you have a listen frequency, that's where everyone will be and the DX station will always have to deal with QRM.

Am I missing something?

Dave,

You have the right idea, but there are some nuances that you're overlooking. Look at it this way...

First -the advantage to the members of the pileup: Imagine 100 stateside hams calling some rare DX station. The DX station's signal will be tiny compared to the 100's calling, and if the ham who is lucky enough to be selected has to wait until the mob quiets down to hear his call and his signal report (even with the best-behaved group of hams!), it could take minutes to complete even one contact. Without split operation, none of the pileup members would be able to consistently hear the DX station, increasing the likelihood of them transmitting over the top of the DX station. So, you reach a point of diminishing returns real fast.

Second - the advantage to the DX station: when operating split, they actually roam +/- a few KHz (and the bigger the pileup, the bigger the spread), so the DX station is actually tuning around listening for calls. So, it is not just the case of picking off the strongest station (especially in CW or RTTY) but of spreading out the group to allow for some differentiation between calling stations.

If the real objective of a DX operation is to distribute a rare call area to as many hams as possible, then the best solution is one which allows for high throughput of callsigns and signal reports. Operating split certainly prevails over simplex operation in that pursuit.

I have made HF contacts while using a KW Kan dummy load as an antenna.
I was doing some Transceiver alignment while transmitting into the dummy
load and to my surprise when I unkeyed, I had a station calling me.
I know people who have made HF contacts while using bed springs or a piece
of aluminum foil as an antenna.
I always thought an aluminum ladder would make a great vertical especially
with a few ground radials under it.

Tin the tips of two wires -- Smash them flat with a ball-peen hammer --
Trime the tinned leads to a wee bit less than the diameter of the
battery -- Assemble the wires and the battery by slipping some heat
shrink tubing over the whole mess -- Shrink to taste.

If you have some pices of Very Thin brass, cut two brass pieces to
a somewhat smaller diameter than the battery -- Solder each wire to
one pice of brass -- Assemble the brass pieces and the battery by
slipping some heat shrink tubing over the whole mess -- Shrink to taste.

Use hot melt glue to tack the battery in place inside the radio.

I replaced the soldered-in battery in the TS-60 by buying a battery
holder at radio shack, soldered that in, and then slipped in a $1.50
CR20xx battery.

I sure do agree with this statement:

>"This (these?) newsgroup(s) is not a fair representation
> of ham radio. Ham radio is a whole lot better. Give it a try."

On our local repeater - hundreds of questions are asked each week and the
replies are helpful and courteous.
Discussions vary from tech ham Q and A, driving directions, attractions for
vistors, old car repair, welding, emergency procedures, repeater locations,
and much more.
On HF the same applies

Also we have a Ham Help net on our repeater weekly with 20 or 30 folks
checking in to ask and help with questions

Does your repeater have such a net ???

hi frank,

http://www.mouser.com and digikey has them.

for those with the ts-50, either the battery holder replacement with
slip in cell works fine.

The solder the wire on the cell can work but why take the chance
of heating the insides up and possible leaks later destroy the rig.

wally

www.mouser.com. Part #639-CR2016-T, Sanyo CR2016 coin cell with tabs,
$3.75 in onesies. I imagine Digi-Key has something like this as well.

The non-tabbed versions are a fraction of the cost... I suspect the
tabbed ones are rather a specialty item.

Earlier this year I modded an Icom IC-228 which had one of these
tabbed batteries, nearing the end of its useful lifetime. I pulled a
coin-cell holder off of a defunct PC motherboard, stuck it down in a
convenient area inside the radio with double-sided foam tape (I used
the spot where a tone-squelch board would normally have gone),
jumpered it over to the existing coin-cell attachment leads, installed
an ordinary coin cell, and then clipped the tabs on the old battery
and removed it. The memory never lost power, and I can now replace
the battery again (in another 5-10 years) without having to desolder
anything.

Source record: 55433

Split operations are almost always over a range -- for phone -- the DX station might say listening 14.200 to 14235 thus spreads out the multitude.

For CW -- the spread is smaller -- maybe 5 to 10kHz

The point you may be missing is a couple of things

1. when operating on the same frequency (simplex) -- the DX calls you -- but big gun newbie's timing is off and he/she calls just as the DX was calling you -- thus wiping out the DX so you can't here that you were called.

Same scenario -- the DX calls you -- since the multitude is calling up -- you here the DX with no problem

2. The other point is that the DX is typically weaker than the domestic big guns. So if the DX is several thousand miles away with an S-5 signal, and big gun caller is across country and is S-9 + 40 db --- you will hear the big gun and probably very little if anything from the DX if the big gun is clueless and calls endlessly out of rhythm

Simplex pileups can work very well IF the DX is a top notch operator and tells the mob --- "Call once -- otherwise I will put you on the black list. And NO COPS -- I'll run the show. Don't ask my call -- I give it every 5 minutes as well as the QSL route."

Well now -- man does that shut up the howling mob and the DX runs em one after the other like a well oiled machine

Nuff sed.

Glendale, WV AP

It is reported that area police arrested an intoxicated motorist near his home in Glendale, W.V. The driver, according to police was identified as Roger L. Wiseman.

Police reports indicate that Wiseman refused a roadside sobriety test and was thereby taken into police custody and lodged in jail without bond.

Reports indicate that his bac was 2.7 at the time of his arrest.

His car was impounded at the scene and can be claimed by a licensed driver once the impound fees are paid.

However, there is a viable alternative to ''running split''. That is
selecting the calling stations by number (in their callsigh), or areas of
the world, i.e. US Only, VE only, etc.

However this requires the calling stations to PAY ATTENTION. Which
apparantly is a rare commidity, especially amongt the US Stations.

And yes I have operated on the DX end of a pileup, so I do know of what I
speak.

Let me possibly answer your question with a question....How long has ham radio allowed dumb assed CBers in with basically no knowledge or desire to learn anything about ham radio in the service?

There is your answer.

2276. TX Distance question

Newsgroup: rec.radio.amateur.misc
Date: 2004-11-26 15:14:46 UTC
From: James <Nonethanks@NOSPAM.com>
Message-ID: <KMHpd.58953$Ro.2196328@news20.bellglobal.com>

Hi Folks

I have limited experience (ok almost none really) with respect to Amateur Radio outside of the 2M band. However I just recently got my code ticket & installed a radio on my sailboat. I am using a TS-50 with an automatic tuner and a long copper wire to the top of the mast (probably 50 feet or so long).

My ground plane/counterpoise consists of tying the ground to a large aluminium area in the stern of the boat with a copper foil.

My very first contacts were established with 2 land stations on 14300 at 100W that were about 1000 miles away. They both reported that my signal was good and that it sounded like I was "sitting right next to them". I have no idea if this was a good distance, great, or mediocre.

I realize that propogation variables prevent anyone from giving a really clear answer to this question, but in general, what sort of distance should I expect to achieve? I'm trying to decide whether I need to improve my antenna ground by adding a dynaplate (costly and requies the boat to be taken from the water for installation) or whether the range I am getting is decent.

Can anyone comment?

Thanks

Propagation will have a HUGE effect on your distance capability. Under good conditions your station should be able to work any point on earth. On the other hand, when the 14MHz band "goes out" (which at this point in the sunspot cycle will happen pretty much every night) you'll be lucky to work 30 miles.

I think the ground you describe should be more than adequate. (many land-based mobiles settle for something MUCH, MUCH worse!)

You'll need lower frequencies for nighttime operation. 7MHz and 3.5MHz. The antenna *may* (or may not) be too short for effective operation on these bands. Try it, the worst that can happen is the automatic tuner will refuse to make a match. (I think you'll probably be OK on 7, 3.5 may be a problem)

Good luck!

Good call, Dan. Interestingly, they are anonymous on the air, as well as off the air, in newsgroups. I guess it has something to do with low self-esteem, or maybe just as you said: dumbass CBers. But isn't that redundant?

The Ohio/Penn DX PacketCluster
DX Bulletin No. 687
BID: $OPDX.687
November 29, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, KF2HC, NG3K, W3UR & The Daily DX, K4VUD, N4AA & QRZ DX, N4BAA, KG6DX, W7DRA, K8YSE, K9NW, WD9DZV, CE6TBN, CO8TW, DL1EK & The DX News Letter, EA1KI, F5CWU & La Gazette du DX, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, IZ8BGY, IZ8BRI, JH4RHF, JI6KVR & JA-IOTA Islands News, OH2BN and OK1JR/YB0AJR for the following DX information.

** EDITOR'S SPECIAL NOTICE: This week's bulletin was sent out earlier than normal to accommodate the late CQWW DX CW Contest announcements. Also, we wanted to provide the readers with a consolidated listing of the CQWW DX CW Contest participants.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Saturday, 20th/November, through Friday, 26th/November there were 230 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 4J, 4L, 4S, 4X, 5B, 5N, 5R, 5T, 5U, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9V, 9X, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HC8, HI, HK, HL, HP, HR, HS, HZ, I, IS, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH1, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0S, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T2, T5, T7, T8, T9, TA, TF, TG, TI, TI9, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V6, V7, V8, VE, VK, VK9C, VK9L, VK9N, VK9X, VP2E, VP2M, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, XE, XT, XU, XW, XX9, XZ, YA, YB, YI, YJ, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

4U1VIC, VIENNA INTERNATIONAL CENTRE. Jun/JH4RHF and his DL friends will activate 4U1VIC during the upcoming CQWW DX CW Contest as a Multi/Single entry. Station 4U1VIC is located in Vienna, Austria. PLEASE NOTE: Although 4U1VIC is a separate multiplier for the CQWW DX CW Contest (also, separate country for CQ DX and WAE awards), it is not a separate entity for DXCC purpose. All QSLs go to the CBA, or via the OE Bureau.

ANTARCTIC NEWS. Operator VU3BPZ will be leaving to go to Maitri Base for a second term on December 2nd and promises to be active from India's Antarctic Base (WAP IND-03). He is expected to reach Maitri Base on December 22nd. He is expected to check into the AIRNET on 14150 kHz every day at 1400z, and then he will try working DX on his own.

BV0, TAIWAN. Look for operators Robert/BV3FG, Bill/BV3BW, Kenichi/JP1RIW, Shigeyuki/JH0KHR and Tatsuhiko/JD1BKQ to be active as BV0J during the CQ WW DX CW Contest (November 27-28th) as a Multi/2TX entry. QSL via BW0IR, by the Bureau or direct.

CE0 ISLAND HELP NEEDED. Marco, CE6TBN, informs OPDX that he is gathering information of past expeditions and operations in Chilean islands, such as San Felix (CE0X), Easter Island (CE0Y), Juan Fernandez (CE0Z) or any other island, from 1980 through now. This is to update his Web site. To help him update it, please check out his Web page at: http://www.qsl.net/ce6tbn/actv.html

CE0Z, JUAN FERNANDEZ. Eliazar, CE0ZIS, will be on the air next week from here for about 10 days. Activity will be on all bands. QSL via his "NEW ADDRESS" at: P.O.Box 157, Los Andes, Chile.

CO8, CUBA. Juan Carlos, CO8TW, will be active in the CQWW DX CW Contest (November 27-28th) as Single-Op/Single-Band (20m)/Low-Power entry. QSL is via IZ8CCW and the log will be available online at: http://www.qsl.net/co8tw

CO8, CUBA. Eduardo, CO8LY, will be active in the CQWW DX CW Contest (November 27-28th) as Single-Op/Single-Band (15m)/Low-Power entry. QSL via EA7ADH.

KG4, GUANTANAMO BAY (Update). Operators Jose/N4BBA, Tip/N4SIA and two others will be heading down to KG4-land, January 18-25th. Callsigns will be KG4SB (QSL to N4BAA) and KG4AS (QSL to N4SIA). Two other callsigns will follow for the other operators. They will have up to three radios going at a time, and they will be concentrating on CW/RTTY/DIGITAL on all bands 160-6 meters. There are no amplifiers available at the club station as this was being written, so barefoot rigs will have to do the trick for now. The group is looking for a small 6 meter antenna to take down and possibly donate to the club station. If you have a point of contact or info, please E-mail Jose at: n4baa@arrl.net

KP2, U.S. VIRGIN ISLANDS. Ann/W2AZK and Brian/KF2HC will sign homecall/KP2 from the island of St. Croix, USVI, January 7-14th. Look for them on 160-6 meters SSB and CW with a special emphasis on the WARC bands as conditions permit. QSL to their home calls direct or via the bureau.

LIGHTHOUSE ACTIVITY. Members of the Union de Radioaficionados de Gijon (EA1URG) will be active from the Faro de Cabo de Penas Lighthouse (ARLHS SPA-037) on December 18-19th. The callsign will be ED1PFA. The operation will be under the authority of the "Autoridad Portuaria de Gijon". This is one of the most emblematic lighthouses in Spain, situated on the Cape of Penas, Asturias. Today it serves as a differential GPS navigation service station. They plan to show up on HF, VHF and UHF on all modes. Also, there will be PSK31 and RTTY. QSL via EA1URG; by the bureau is OK. More info will soon be available on their Web page at: http://www.ure.es/ea1urg/

PJ4, NETHERLANDS ANTILLES. Operators Jeff/KU8E, Mike/W9RE, Harold/N4GG and Mark/N5OT will be active from Bonaire between February 15-22nd. The team will be active as PJ4R for the ARRL DX CW Contest (February 19-20th) as a Multi-2 entry. QSL via N4GG. For activity before and after the contest, the operators will sign PJ4/homecall.

PY0S/ZW0S, SAINT PETER AND SAINT PAUL ROCKS. Joca, PS7JN, will operate from here from November 25th to December 10th. The callsign is unknown as this was being typed. It may be PY0S/PS7JN, ZW0S or PY0SA. Jose states that the government will issue the callsign once the DXpedition begins. He intents to operate on all bands and modes in his spare time or during good propagation.

QSL INFO AND NEWS.....
Online logs for HF0QF and HF0POL operated by Voytek, SP5QF, are now available at: http://www.sp7iwa.republika.pl
The current logs include QSOs made through September 18th, and they will be updated as soon as Wanda, SP7IWA, receives the new ones. HF0QF/HF0POL operates from the Polish base 'Arctowski' (SP-01 for the Antarctica Award) on King George Island, South Shetlands (AN-010). QSL via SP7IWA. Wanda is also the Antarctica Award checkpoint for Poland.

Tim, WD9DZV, informs OPDX that he is now the QSL Manager for Greg, SU9FL. Greg was heard this past week on 20/15/12 meters RTTY.

TOP 5 QSL MANAGER NOMINEES. John, K1XN, of the GOLIST (QSL MANAGER LIST), conducts an annual survey to determine the TOP 5 QSL MANAGERS for the year, based upon nominations from DXers world wide. This is, of course, just an opinion poll and not a scientific poll, so it is just RELATIVE. DXers around the world are asked to submit the callsigns of their TOP 5 QSL Managers for 2004 based solely upon their opinion of how the QSL Manager responded to there QSL requests. John is accepting your nominees for TOP 5 QSL MANAGERS starting December 1st and ending February 1st, 2005. He will keep a running tabulation and then report the results mid-month February 2005. John stated that he had over 2500 responses last year, and maybe we will again surpass this mark this year. Send the nominations to: golist@golist.net
John also reminds us that all QSL Managers do a great job and are a major source for those QSL card confirmations we all seek for the various awards sponsored by Ham Radio Clubs and groups World Wide. MANY THANKS TO THE QSL MANAGERS OF THE WORLD for all the work they

do.

S9, SAO TOME AND PRINCIPE (Update/Change). Another press release was sent out by Jarmo, OH2BN, on November 23rd, which updated the OH team's activities: "The group at Sao Tome and Principe, S9 - OH2BH, OH2PM and OH2TA - has had a slow start on setting up because of a tropical storm, lightning and heavy rain. Also, low bands have been very noisy all along, but things may get better. Today they have managed to hoist StepperIR beams and a 160M antenna. Activity can be expected on additional high bands as well as on 160M tonight. Low band operating will turn to CW only as of Wednesday, and return to SSB only after the CQWW CW Contest. The operation will last another week, until December 3. Sao Tome may well become another DX location for this group as they observe propagation and local conditions. So far they have found everything friendly and workable. They have a large back-up generator, for example, on site. As another gesture from the local telecom administrators, the first 1x1 callsign was released for the upcoming contest: S9A will be activated as of 2359 UTC on Friday. QSL via OH2TA. The group is grateful to the licensing authority, Sr. Fernando J. Pasquete da Costa of CST, Sao Tome as well as to their local manager, Mark Davis of Marlin Beach Hotel of Sao Tome: http://www.bom-bom.com
The group has decided to put only one station into the CQWW contest for all bands, while the other station will be active on 10 MHz and 18 MHz during the contest period."

VK9N, NORFOLK ISLAND. Mike, K9NW, informs OPDX that he will be here November 24-30th. He plans to be active in the CQ WW DX CW Contest as VK9NW as a Single-Op/All-Band/Low-Power entry. Mike will only use wire antennas. QSL via K9NW.

VU4, ANDAMAN ISLANDS (Update). Bharathi, VU2RBI, and her team will be leaving for Port Blair, South Andaman Island (IOTA AS-001), before December 3rd. Charles, K4VUD, reported this week that the VU4 DXpedition's budget is 20,000 USD. He has bank wire transfers of 2,000 USD (donations received so far) to Bharathi/NIAR. Charles also mentions a few items in his updates on the upcoming operation. He states:
1. HUGE thanks to all who donated money to date. Bharathi and her family will now NOT be in debt for the airplane tickets. We are still working on paying for her hotel stay at 85.00 USD/night in the hotel with the clear over-water shot to E, N, and W on high cliff overlooking the ocean.

2. The plan is to have two locations active, separated by several miles, on the same island. So far, no linears are available.

3. Due to the rapid formation of this DXpedition, no organization has been able to get support together and no manufacturers of equipment (except XM tuners) have been able to get on line.

4. The only pilot possibility is VU2MY at the NIAR (niarvu4@gmail.com). He will know QSL info.

5. Please remember this is a "mighty lite" operation that is establishing that ham radio is "OK" on Andaman, NOT a huge arrival of top opertors with tons of gear, so be nice and patient, please.

Please remember that funds are still needed for this operation. Donations/funds should be directed to: National Institute of Amateur Radio, Raj Bhavan Road, Hyderabad 500 082, India. Funds can also be sent to the Charles, K4VUD. Charles states, "Any and all donations that come to me will be completely used to assist this DXpedition via the National Institute of Amateur Radio in India, the umbrella sponsoring agency who, BTW, is allowed to receive foreign funds." K4VUD mail address is: Charles Harpole, 3100 N. Hwy. 426, Geneva, FL 32732 USA.

WH2, GUAM. Joel, KG6DX, informs OPDX that he will be active as WH2A in the CQ WW DX CW Contest as a Single-Op/Single-Band (15m) entry. Please QSL via KG6DX, CBA or QRZ.com address.

YE0, INDONESIA. Stan, YB0AJR (OK1JR), will be active as YE0X from Jawa Island (OC-021) during CQ WW DX CW Contest as a Single-Op/Single-Band (80m)/High-Power entry. He will be looking for EU, JA and USA especialy around his sunrise/sunset time (2300z/1100z). QSL via OK1JN (his dad).

ZK1, SOUTH COOK ISLANDS. Mike, W7DRA, informed the Topband/Contest community that he will be at Victor's house (ZK1CG/ZK1USA) for the CQWW DX CW Contest and possibly the ARRL 160m Contest. He will probably be using his TS930 and antenna farm. Mike states that for the intervening days, he will be at the edgewater or the Kii Kii cottages with his HW16 on the following frequencies: 1808, 1818, 1828, 1841, 3514, 3533, 3541 and 3560 kHz (or possibly other frquencies if he uses his VFO instead of his "ROCKS"). He will be on most nights from the November 25th to December 6th.

The following stations are expected to be active in the
CQ World Wide DX CW Contest (November 27-28th, 2004)

Thanks to Bill, NG3K, for providing OPDX readers with the following consolidated listing of the participants in the 2004 CQWW CW Contest. For a more detailed listing in HTML format, please visit the Web page at:

Special Permission of Govt. of India to Andaman and Nicobar Islands-2004 Dxpedition team is granted – the copy of the letter enclosed. This team will reach out to over 5,00,000 families in every nook and corner of the world. There are over 30,00,000 lakh in entire world including 12,000 in India looking to make a contact with the expedition station.

Similar Dxpedition was conducted to Lakshadweep Islands was conducted in 1983 and 1989 and Andaman and Nicobar Islands in 1987. This has brought tremendous worldwide publicity earlier.

Radio amateurs come from all walks of life like Students, Professionals, Engineers, Doctors, Consultants, Military officials, Bureaucrats, Political Leaders, Kings etc., Mr.Dayanidhi Maran, VU2DMK, Mrs. Sonia Gandhi, VU2SON, Late Mr.Rajiv Gandhi, VU2RG are also HAMs. Realizing potential of HAMs to promotion / developments in Science & Technology and Tourism and others like Sports, Youth etc., it was given first priority by late Mr.Rajiv Gandhi, VU2RG in 1980-83 as Congress Party General Secretary as M.P. It was his direct involvement NIAR came into existence at Hyderabad.

Amateur Radio activities (Hams) is much more than Disaster Management/Disaster Mitigation as is generally perceived in India. Thus, Dxpeditions are also part of promotional and developmental activity.

The main objective of this expedition:

1. To conduct basic evaluation, R & D on radio propagation tests with state of the art equipments held by Indian Hams. Thanks to Department of Information & Technology, Government of India support received in this regard.
2. To prove the capabilities of Indian Hams to reach out to millions of people across the globe by establishing direct radio contact with as many people as possible. i.e., To promote International understanding.
3. To Promote Tourism to India more particularly to NIAR, Hyderabad and popularize our developmental issues.
4. To prove Indian Ham's capabilities in Science and Technology excellence by operating several modes of latest state of the art in communication equipment in this expedition which is watched by all the world.
5. To encourage many leading International Institutions/Individuals of the world appreciate the developments - facilities available at Hyderabad for conducting international Hamvestion. The size/capacity of over 10,000 delegates are held regularly in 25 developed countries USA/ Europe / Japan etc., These are held very frequently in every year.
6. To demonstrate/Exhibit "People's participation in many developed & high tech areas - To/attract Professional / Amateur visitors to India" on a scale that is never seen before.
7. The publicity generated by this expedition can be seen from several journals all over the world. This is besides regular appreciations that is going on already in the air.

Since this DX Pedition operations between 03-31st December 2004
provides great opportunity to develop "Public relations to several
countries of the World" at a cost that is negligible to the tangible
benefits acquired for a long time. This is an International event with
International Participation. The Govt. of India, Govt. of AP are
encouraging this event besides sponsorship by Many International
associations /Hams and NIAR.

For favor of publication.

From: j999w@aol.com
Message-ID: <20041126140419.21648.00001102@mb-m11.aol.com>
Source record: 55344

>> My very first contacts were established with 2 land stations on 14300 at
>> 100W that were about 1000 miles away. They both reported that my signal
>> was good and that it sounded like I was "sitting right next to them". I
>> have no idea if this was a good distance, great, or mediocre.
>>

If your system wasn't working, then you'd know it.

"who's that? ... sorry old man ... too weak!'

Sounds like you've got a winner.

Enjoy.

> MANY THANKS TO THE QSL MANAGERS OF THE WORLD for all the work they
> do.
>
> S9, SAO TOME AND PRINCIPE (Update/Change). Another press release was
> sent out by Jarmo, OH2BN, on November 23rd, which updated the OH team's
> activities: "The group at Sao Tome and Principe, S9 - OH2BH, OH2PM and
> OH2TA - has had a slow start on setting up because of a tropical storm,
> lightning and heavy rain. Also, low bands have been very noisy all along,
> but things may get better. Today they have managed to hoist StepperIR
> beams and a 160M antenna. Activity can be expected on additional high
> bands as well as on 160M tonight. Low band operating will turn to CW
> only as of Wednesday, and return to SSB only after the CQWW CW Contest.
> The operation will last another week, until December 3. Sao Tome may
> well become another DX location for this group as they observe propagation
> and local conditions. So far they have found everything friendly and
> workable. They have a large back-up generator, for example, on site.
> As another gesture from the local telecom administrators, the first 1x1
> callsign was released for the upcoming contest: S9A will be activated as
> of 2359 UTC on Friday. QSL via OH2TA. The group is grateful to the
> licensing
> authority, Sr. Fernando J. Pasquete da Costa of CST, Sao Tome as well as
> to their local manager, Mark Davis of Marlin Beach Hotel of Sao Tome:
> http://www.bom-bom.com
> The group has decided to put only one station into the CQWW contest for
> all bands, while the other station will be active on 10 MHz and 18 MHz
> during the contest period."
>
> VK9N, NORFOLK ISLAND. Mike, K9NW, informs OPDX that he will be here
> November 24-30th. He plans to be active in the CQ WW DX CW Contest as
> VK9NW as a Single-Op/All-Band/Low-Power entry. Mike will only use wire
> antennas. QSL via K9NW.
>
> VU4, ANDAMAN ISLANDS (Update). Bharathi, VU2RBI, and her team will be

> leaving for Port Blair, South Andaman Island (IOTA AS-001), before
> December
> 3rd. Charles, K4VUD, reported this week that the VU4 DXpedition's budget
> is 20,000 USD. He has bank wire transfers of 2,000 USD (donations received
> so far) to Bharathi/NIAR. Charles also mentions a few items in his updates
> on the upcoming operation. He states:
> 1. HUGE thanks to all who donated money to date. Bharathi and her
> family will now NOT be in debt for the airplane tickets. We are
> still working on paying for her hotel stay at 85.00 USD/night in
> the hotel with the clear over-water shot to E, N, and W on high
> cliff overlooking the ocean.
>
> 2. The plan is to have two locations active, separated by several
> miles, on the same island. So far, no linears are available.

>
> My question is: Why do this?

because they are stupid/bored/etc.
It reminds me a lot of the Citizens Band Heydays of the mid 1980's.

>
> It's like throwing a brick at a parade that you don't like.
>
> Plus, with the FCC giving out $10,000 fines these days, I really wonder

thats hard to tell. some surely do (and have no common sense) but others
don't (and will soon shut up in the face of a large liability).

>
> I would really like to open this subject for discussion. Am I missing
> something?

nope. its just that these "jammers" are too stupid to realize the trouble
they are in.

huh? theres a lot of good radio ops that came from that service.
the problems you describe were there long before the "no-code" issue ever
came up. its just like you to TAR BRUSH an entire group based on poor
research or bad opinions.

>
> There is your answer.
its not an answer at all, just a poorly formed opinion.

Hello, Dave and Dan

Either of you guys remember W2OY? About the only difference between him and some today is that he wasn't anonymous. But he *loved* to jam folks. There have been others of more recent vintage as well that also were not anonymous.

Best regards from Rochester, NY
Jim

Yep....it can indeed be frustrating.

I remember when I operated from the Marshal islands in the 80s. I was
really impressed with the Japanese amateurs. They were and are a very
disciplined group. Later on I found out why. They were using a simplex 2m
FM channel to cooridinate DX hunting. Kept down the doubles and talking
over folks really well.

Actually the most troublesome ops were the US hams. I found this to be true
when I operated in Europe also.

Just some thoughts.

No, not really. One can be a dumbass and not a CBer, and can be a CBer
without being a dumbass. However in this context they are inseperable.

Sorry Eric Oyen, I didn't mention the ''no code debate''. Nor do I intend
to go there.

The reason I say what I say is this. Just listen to CB radio. Then listen
to what is going on with ham radio. See how similar it sounds?

So why did this happen? Again it is simple.

How many hams of today are ex or PRESENT CB Operators? Most to all I would
venture.

See how obvious it is?

Any questions?

Bill,

50 foot is only too long if you are sticking with the resonant length
situation. Which is not really necessary with his setup. In fact he
probably gets better versatility with the longer length. Just an opinion.

Places like Battery Mart can weld tabs to any battery that they carry.
You could also just install a battery holder from a dead computer
motherboard. I have a couple here if you need one for the price of
postage.

Ha! Gotta love people that just blindly rip CB users. Oh, I see the
mental midget has taken his 'parked' website down now. :D

Hehe, only in rare cases such as Dave KZ10 and Dan W4NTI. Could they
possibly be as moronic or demented as N8WWM!?
```

Well, we know Dan is, Dave kind of sounds he could be. Good example these clowns are setting. If they use morse code, and use a key to send morse code, would that make them keyclowns?

I'm 50 years plus at this and an Extra since 1954, plus have held a First Class Telegraph commercial ticket as well. With virtually all CW and low band only interests, well able to handle 50-60 WPM at it, my now 315 confirmed on 40CW only are a large part due to the contribution of whatever I can glean from DX bulletins like this. At 326 now worked on 40CW I can tell you that I am, and from what I know, many others are, deeply greatful to sources of information on the DX world like this one.

Each of us in this pursuit has our own way of optimizing our satisfaction with the time and effort we put into it. My personal goal in life is to create as many choices for everyone with which I come in contact, at the same time as I create and optimize them for me. I believe that the worst thing we can do to others is to take away their freedom of choice, however you wish to define how that deprivation is accomplished.

It's your choice and right to criticize the posting of the bulletin. But from experience I can tell you that it gets a lot harder and lonelier way up above the 300 mark to accomplish working and getting cards from various 'countries'. I owe a couple of these latest wanted contacts and card opportunities to this posting. For which I am very greatful. And also upon contact with other DX for which I'll *GLADLY* spot what I hear for others and feed it to the bulletin world as well.

If what you advocate is to take away this source of information, that, to me, is depriving others of choices here. To me this would be wrong, but that's obviously my opinion..

Hello, Dan

Well, the 'gentleman' I am thinking of was Mike, W2OY, and he was active out of the Buffalo, NY, area back in the 60s (when I first got on the air) and probably some decades before as well. He was a class "A" licensee.

Best regards from Rochester, NY

Folks,

Idiots are idiots and it has nothing to do with cb or amateur radio. I've heard my share of idiots over the years - going back into the 60s - on amateur radio.

Your holier than thou attitude does not help the image of amateur radio. It turns folks off. A *lot*.

Please think about that before you go posting flames in the cb group.

Best regards from Rochester, NY
Jim AA2QA

Walt .. I may be wrong and it was '55. Don't think so though. I got it not long in months after it was first introduced. While on vacation in Erie, Pennsylvania, from our home in Texas that summer, Dad took me to Buffalo, New York to take the exam. I was told that at that time I was the youngest kid to pass it at 15, but lots of others younger have since passed it.

As the years go forward, the mind confuses the body .. and the body confuses the mind. In all the confusion I can vouch for the fact that all I've ever grown to be in many ways has derived totally from ham radio. The organization of the sport, the competitiveness, the technical springboard that it offers - and the log and record keeping fences and proofing it demands are worth a great deal in helping learn a lot about life. I'm very thankful for everything, all the doors it has opened, and the many people who have helped me along the way - W5GDK, the original W5VO, and W4AUT who were all mentors and took special time to help me.

Hey Jerry Oxendoof, are you chasing the old folks on their walkers through
the camp grounds yet & beating them up?

99.9% of them are using their 2 way walkie-talkies without obtaining the
"official" $25 FCC license!

Tom

I am after the operator and tech manuals for an IFR multimeter lid assembly
model MM-100E - commonly found on the later IFR Fm/Am 1000s and Fm/Am 1100s
series test sets.
I would also like to get the technical and calibration manual for the
Philips/Fluke PM97 scopemeter.
Thanks in advance for any help offered :-)

Thanks for the feedback folks. Doc is on the right track. THe tuner works really well (way to go SGC, nice product!) and the antenna length doesn't seem to be impeding transmission distance.

Furthermore, the length, although not electrically correct for all frequencies, is convenient physically for a sail boat.

Glad to hear that the 1000 mile distance I attained was acceptable performance. My actual planned use is for keeping in touch with other vessels (friends) that are within a couple of thousand miles tops. Hopefully it will do the trick.

Thanks for the feedback folks. Muuch appreciated.

Jimmy

That would be intelliegent, using a frequency out of either the ham bands
or CB, and then signing an FCC call for easy ID!

Exactly what I was going to suggest. This will be easy to do if you have a
pully on the top end so you can easily drop the wire to change the shorting
straps. With the 50 foot wire, I would be concerned about getting high angle
radiation on 10/15/20 metters. Dog bone insulators might put less capacitive
loading on the top of the disconnected section.

Hello Tom:

Couldn't help but to crack up on that one. Tears are coming out of my
eye's. Nothing like a good laugh in the Morning.

I saw some kids the other day on skateboards using FRS Radios to avoid
the authorities in the local mall, (Barstow Ca.) must have been 9 or 10
years old, as they were skate boarding around the parking lots.

I'll get Jerry to get after those terrible kids as well.
hehehehehehehehehheehee OH where's the Kleenex!!!!

Greetings, one and all!

The Ham Radio Deluxe Development Team is pleased to announce the release of Ham Radio Deluxe v3.1b as of today.

The major changes are the addition of Icom PCR1000 support, improved sat tracking for the FT-847, a re-vamped satellite tracking window - now called Ground Control - a bandscope (use a narrow filter and fast AGC for this option!) and Cabrillo format support for the logbook option. Lots of other detail work has been carried out, and you will find full details of changes since v3.0 at:

http://www.ham-radio.ch/forums/viewtopic.php?t=1725

Remember: Ham Radio Deluxe is FREEWARE - by radio amateurs for radio amateurs.

http://hrd.ham-radio.ch

and

http://www.ham-radio.ch/forums

for more info.

LATEST K1MAN NEWS

ON THE WEB:
QRZ.COM WEBSERVER DE-LISTS K1MAN

QRZ has removed the listing of International Amateur Radio
Network net manager Glenn Baxter,
K1MAN, from its database.
Fred Lloyd, AA7BQ, says that he
took the action because the staff
at QRZ reached the collective
opinion that K1MAN does not
represent a view of amateur
radio activities that is
conducive to the furtherance
of the hobby. In other words,
Lloyd said, "We dont think that
he represents the true nature of
the hobby and in many ways may
be detrimental to it."

BAXTERS RESPONSE TO QRZ DELISTING

Baxter called QRZ posters who
commented on the delisting
"American Amateur Nazi Party
Members." Those members are,
according to Baxter: WA8MEA,
K1XS, K4FSC, K7JBQ, K8SOR,
WB2WIK, K9RIF, W5DHM, K3UD,
W6EM, KG6JEV, KI7DG, K3ESE,
N0NWO, N3IVK, KC0SUZ, KJ0L, KD5OLK,W4AMP, K9REH, K7JAZ,
KE4UMD, K7OV, K1KW, W0MT, AD6JZ,
KC4WMS, K3VR, WS5X, N7SPY,
KD5PSH, N8CPA, KB2KAB, KC6VJD,
K7UNZ, K7JAZ, W4NTU, N0KLT,
WD4HXG, KC0KBH, KD5FOY, K2WH,
N2ACX, NF0A, K3WQ, KV9U, KC2KVZ,
K0ZL, W7TUX, AC7DX, AE4FA, K9JRN, KB5CQF, KA1KJZ, KA9RFE, KC2IFR,
WD8KDG, KU4GW, WS5X, K1LWI,
W0PEE, W8CEI, KT0DD, W5MMX,
K7ABV, N3JJA, WD4AWO, ND8V,
N9CJT, K1EEA, K4KIO, KC2EGL,
K8SWL, N9VO, W5JON, KB1GYQ,

KC9GGV, WX7B, KG4ZYY, WD8OQX,
WG5B, K3EKO, NJ5R, N0ZU, KC9AAE,
N0ZU, WB5HZE, NJ5R, KF6WTC, K3PD, KB0UZR, ON6ZK, WB4TJH, WD8BIL,
KE1LP, N0NOP, W1NK, KD4LEI,
MW0HRD, WB4THJ, KE4PJW, W9GRN,
WS4Y, W4IKO, N0ZU, KB9LQC, W0LC,
and AC7DX. Some time after
dozens of complaints were
sent to AOL and MAINEHOST,
Baxters ISP and server, the
word Nazis was changed to Nerds
on Baxters webpage. GOOGLE
continues to cache the original defamation.

ACCORDING TO THE IRS: THE IARN
COULD LOSE ITS STATUS AS A CHARITY

The Internal Revenue Service
has reportedly notified Glenn
Baxter that he must obey Federal
Laws regarding reporting of
tax information to those who ask
for it. According to the IRS,
If Baxter does not obey Federal
Law, IARN could be in danger
of losing its charitable status.
The IRS tells noncompliant
charities: "You may be liable
for fines of twenty dollars
for every day you fall behind
in providing the information,
up to a maximum of $10,000
per return. In addition, a
$5,000 penalty for "willful
failure" may also be applied."

AT THE FCC: K1MAN RECEIVED
WARNING LETTER

On September 15th, the FCC
informed K1MAN that they had
received approximately a dozen complaints that Glenn Baxters
Amateur radio stations
transmissions started while
the communications of
individual operators and groups
such as the Salvation Army Team Emergency Radio Net were
ongoing. K1MAN was warned that publishing a "transmission
schedule" does not give him
the right to begin transmitting
on a certain frequency at a

certain time if there are
ongoing communications on
that frequency. The letter went
on to ask K1MAN for the name,
address, and callsign of the
control operator(s) at K1MAN
and told him "that a willfully
false or misleading reply
constitutes a separate violation
made punishable under United
States Code Title 18, Section
1001. Failure to reply also
constitutes a separation violation
of Commission rules."

ON THE AIR: OBSERVERS SAY
K1MAN APPEARS TO BE BROADCASTING

Complaints have been sent to
the FCC regarding observations
that K1MAN appears to be
broadcasting, in violation of
97.113b. A partial list of
topics on this weeks K1MAN
talk show appear to indicate
that K1MAN is broadcasting vs.
airing an amateur bulletin:

American aircraft carriers
similarities between Canadians
and Americans Americas defense
of western Europe the Canadian
medical system vs. the American
medical system the war in Iraq Canadas refusal to engage
in the war in Iraq Canada
and Americas difference on
opinion on the Iraq war
French foibles German stupidity Imperial Hubris Hillary
Clintons effort to reform
American medicine oil reserves
running out heating our homes
and driving to work the white
man disappearing when the oil
runs out Karols investigative journalism piece called The Life
of Riley conspiracy theories
regarding Freedom of Information
Act requests a callers opinion
that Glenns mother should have
aborted him noted racist Daniel Carvers phone number:
770-967-3479, the indecent
expression "Why dont you

piss Hollingsworth off some
more," etc. Bulletins are defined
as "a message directed only to amateur operators consisting solely of
subject matter of direct interest
to the amateur service."
(CFR 47, Part 97.3, Definitions)

K1MAN BROADCASTS OBSCENITIES AND TELEPHONE CALLS WITHOUT CONSENT

Telephone calls from K3VR, WD4AWO,
and ND8V were aired on the K1MAN bulletin without the consent of
those callers. This practice is
a felony in the states of
Michigan and Pennsylvania.

Two phone calls broadcast last
week on the K1MAN talk-show were apparently indecent and obscene.
K1MAN broadcast the words,
"Glenn, you think you know who
the radio nazis are, you dont
have a fucking..." and
"Youre about as welcome on 3890
as a fart in church."

IN MAINE: COMPLAINTS TO THE BOARD
OF PROFESSIONAL ENGINEERS

Complaints have been sent to
the board of registration for professional engineers in Maine regarding Glenn Baxters
latest
bout of defamation. Baxter
apparently violated section
14 III c. of the professional
code of ethics which prohibits
injuring, maliciously or falsely, directly or indirectly, the
professional reputation of other registrants. W. Lee McVey, P.E.,
was one of the hams called a Nazi by Baxter who objected to that characterization.

INTERFERENCE FROM K1MAN CONTINUES

Numerous complaints have been sent
to the FCC about Glenn Baxters interference to ongoing
communications. Several
stations operating on 3890,
3975, and 3977 KHz have
recently sent complaints
to the FCCs Chief Enforcement
Officer, Riley Hollingsworth. Mr. Hollingsworth acknowledges that
this is an ongoing investigation
that also involves the Maine
Department of Justice.

How about adequate performance and convenience?

Ever been aboard an ocean going sail boat when the waves hit 5 meters and the wind is howling like a freight train? If not you can't imagine the fury. I've been there. It's exhilirating but not easy to endure. In fact it's damned hard work. That is NOT the time to be playing with knobs and switches trying to tune for a particular band. Believe me, I will have more imporant things to do. But I do want to know that I can tranmsit immediately if something terrible happens by just keying the mic. No fuss.

No offence but I've always been intrigued watching amateur enthusiasts wiggling knobs and waggling switches. Reminds me of a scene from the wizard of oz for some reason. Seems so unnecessary in this day and age.

CONVENIENCE is a VERY good a reason as any to use a tuner. And they're not all that costly either. A few hundred bucks at best.

Just my 2 cents worth.

Jimmy

In what world does an "L network" not equal exactly what a tuner does
for a wire antenna? An autotuner is nothing more than a binary
incremented L Network with autofeedback of directional power, and phase.
You suggestion is the same thing with no feedback or incremental changes.

With a 50' antenna length and an adiquate RF Ground, one could
consider that a respectable Marine Radio Installation.

One thing that needs to be understood is that ALL Autotuners
have a REALLY BIG difficency that is inherent in their design.
They can NOT tune wires at the Half Wavelength point and 50Khz on each
side. At this point antenna impedance becomes Infinite and can't be
tuned. so a boater must make sure that he never intends to transmit
on the frequency that is at the electrical Half Wavelength of the
antenna. He may need to lengthen ot shorten the wire to adjust
for this condition.

Hi James,

Well, as to the DX range, that has been responded to. So, to add to
all the comments in regard to height of antenna, tuners, automatic
tuners and the rest - another comment.

Take a fishing reel full of the Wireman's Flex weave (no doubt this
will provoke comments about wire corrosion) and drive it. Use your
hoist to pull out the correct height for any band.

I do take note of your admonition about fumbling with knobs, dials,
switches when a rogue wave is overtaking you. Your knottage may vary.

I caught a half dozen stations on 40 before running off to work last night, and managed one JA almost 2 hours past sunrise when i got home this morning.

Am off work tonight so will be able to see what I can do with my 100 watts and full wave loop.

Lots of fun!

If you mean GMRS its $85 for a 5 year license.

Thanks for the words of wisdom Bill.

In fact I made a point of purchasing a tuner that comes in a water tight (read that water PROOF according to the manfacturer) case. It's high up mounted in a lazerette that "theoretically" stays dry. The ground and antenna stud are both 316 Stainless (highly corrosion resistant and intended for use in salt air). Furthermore, the electrical connection between antenna stud and wire is soldered, crimped, and then heat shrunk with adhesive lined shrink. Instead of using high tension wire for the antenna connection to the backstay wire, I used tinned copper heavy gauge insulated electrical wire. The environment that I live in is so corrosive that, believe it or not I had to strip back the jacket to expose the tinned copper wire, and then seal the cut edge of the jacket to prevent salt water ingress between jacket and wire. If that isn't done even tinned copper wire will corrode. Salt water will creep under the jacket and corrosion will occur for a few feet distance from the

stripped jacket.

All connections (RF, power and control) between tuner and radio are made with crimp and solder, then sealed with liquid electrical tape, then adhesive lined heat shrink. I bought really big insulators to go at both ends of the wire antenna too. Salt water is conductive and the larger insulator with heavy ribbing will hopefully reduce the surface coating of salty water to a level that precludes conductivity. Hopefully. the copper wire I ran up the mast is on it's own pulley (well it will be when I find time to go up the mast) and is already a lovely shade of green. I have a spare, and hope this one lasts a year before needing replacement.

Even so, I expect to have to service the connections about once a year or so.

And you thought putting a beam on a tower was hard! Just thought you'd find the lengths we have to go to in the ocean environment interesting.

The KISS principle is followed where ever I can too. I sincerely agree. When things go badly on board, it's rarely one big bad thing that bites ya. It's a string of small problems that...when combined, lead to a bad day. I guess that's true in a lot of endeavors come to think of it. Last time I was in a bad storm (a really bad one at that) I was on the radio seeking information from someone else who had radar (I do not). My autohelm had failed (a lousy 25 cent pin broke) and so I had to hand steer in heavy seas. I couldn't leave the wheel. Fortunately the mic on my marine VHF radio ~just~ reached the wheel from inside. Unfortunately that is when I discovered that if I pulled on the mic cable it became very intermittent. And that led to me spending a half hour trying to raise a nearby boat with radar to ask which way the storm appeared to be moving. Then the lightning started hitting the water all around me...from there...well...let's just say it went downhill some.

Simple is good.

Thanks again for the feedback.

Most of them are keyclowns. They jerk off over interfering with hams.
They have the money for fines because they go to truckstop toilets and
do business on their kneepads.

Prop to Europe was so/so last evening. Right now I just worked OK5W, and hearing several weak ones. It is about 4 pm CST and the sun is beginning to set.

The collinear I put up on 40, working into JA and SA is really working well. This in conjunction with my vertical loop makes things nice.

Will be on till about 8 or 9 tonight. Catch some zzz and be up about 3 am again for the Asia run. May get lucky with some good ones. Managed 3d2 in Fiji and both VK and ZL last evening.

Yeah that is it...Mike. I have always been terrible with names. Calls I remember... hi.

I actually talked to him once. On 75 meters in an abortive attempt to get on for the first time. He throughly thrashed my attempt. But as they say.....What don't kill ya, makes ya stronger.

Sounds good, but I'd be putting in jeopardy my commercial license as well as my amateur license. I can't do that. I obtained my 1st class radiotelephone license in 1966 (now a GROL), my commercial telegraph license in 1966, and my amateur extra. Although I let the telegraph ticket drop, I cannot jeopardize my other licenses.

Best regards from Rochester, NY
Jim AA2QA

Hello, Dan

Well, I did manage to talk with him, despite being a "wet-bottom boy"
(WB2). Had a nice conversation with him and finally he said that the
grandkids had arrived and he wanted to go give them a paddling. I've heard
(and won't go by this) that he was actually a nice guy but liked to stir the
soup, so to speak, on the air.

Heck, I found 40 words per minute or so got his blood pressure to rise
through the roof and we couldn't even hear him LOL.

Life is too short; I need to stick around a few years as I haven't pi**ed on
enough graves yet ;)

Best regards from Rochester, NY
Jim AA2QA

BAXTER WILL LOSE HIS LICENSE SOON.

Now Woger, do you want Chief Stenger
to lock you up again? You know
how you had an awful fit last time
and shit your pants when they put the cuffs on according to Pancho!

Youve been anaughty boy impostering Lloyd and getting Jon upset.

You must be miserable without Pam to kick around and without your
adoptive Mommy to beat up.

Do I have to call Riley and tell
him youve been qrming again
two-test?

Now fuck off you stupid corn hole
and get back behind those curtains!

Baxter is a fool and a menace. Get it
dickhead? Now if you cant
leave an intelligent comment, you
should go back to Belmont Tech and
take a creative writing course.

-Gino Paris

PS Dont make me come over again
this Christmas.

Hey, I just wanted to open it for discussion. Thanks for replying - I mean it. I'm not casting asparagus on anyone; I just would like to know what people think.

I certainly have opinions about what people do, but I always like to hear what other people think, particularly people who disagree with me. Here is why: if they make a valid point, and I see that I am wrong, then I can change my position before I do something stupid. If they make a point that is patently stupid, then they help reinforce my position. Either way, they help me.

If someone is closed-minded, and never listens to opposing opinions, he is doomed to fail. If someone listens to alternatives, and then makes a decision, it is an informed opinion.

On the other hand, if he is a script kiddie who hangs out on CB newsgroups without a life, ohmygawd, what a WFL.

All the best,
Dave

But notice how they are avoiding the original question.

I asked: "Why do people QRM?"

Answer: "Dude, what a lame web site you have."
Answer: "[something in a drunken haze about] CW."
Answer: "moronic or as demented as [name dropping]"
Answer: "[some lame anonymous reply, showing brains fried before the age of 21, which should be any day now].

This newsgroup used to be all about ham radio. Now, not so much. It's more about who can be the biggest asshole. And that is a tough contest to judge.

But do any of them get on the air? My guess is that anyone who doesn't sign their postings here with their callsigns, are either not hams, or are too ashamed to say so.

2377. Is AB8MQ behind K1TP's Spam?

Newsgroup: rec.radio.amateur.misc
Date: 2004-11-28 07:48:11 UTC
From: Mo Fo? <NotRich@nospam>
Message-ID: <41a97ff2$1_3@127.0.0.1>
Source record: 55238

Most folks think this is so. Roger, AB8MQ is ever the worm and often hides behind the identities of Hams with whom he has an argument.

Roger has a history of cowardice while assuming the identities of those with whom he disagrees.

Roger often assumes the identities of others and then uses their names and callsigns to foment illegal activities over the names of those he misrepresents.

The FBI and local law enforcement agencies are and have been looking closely at AB8MQ.

While working split is no replacement for good operating practice, on phone it's necessary on 80 and 40 meters for east-west dx. I don't have a choice, I can only transmit on 7000-7100, and while I can do it anywhere in that band, the low end is full of CW and 7070 up is full of digital signals.

So the best place for me to call CQ is around 7050, but US hams cannot answer me. I have to "listen up" for you guys.

20 and 10 meters are the same here as the US, so I don't have the problem. The problem that I have is that except for contest weekends nobody seems to be out there. :-(

Perhaps someone can explain this to me.

Why do people who obviously have a interest in radio (other than breaker ten four skipland sort of crap) and who have the ability to operate a mode, other than voice, operate on a illegal segment of the spectrum?

Why not just get a ham ticket? I am serious here, I simply do not comprehend the reason or intent.

Yep, that is the way it is. I have been on both ends of that circuit.
Stateside and in Europe (Germany as DA2LJ in the 70s).

But 40 will be better soon, if BPL don't wipe it out that is.

Yes indeed I am eat up with dioxin. And that has what to do with the
discussion?

You think your cw profiency is better than mine do you? How do you intend
to back that up sir? Or are you just running your mouth ?

I propose a simple chat on the bands. Your choice, time is your choice
also. You name the speed. Oh and no computers allowed.

Your turn ....I am waiting.. Oh but before you step in it any more
please some of those on here that know me and then check any major contest
for my call on CW. Shall we continue? Your turn......

6 AM sunday ... I give up for this morning. Even the XE stations are getting big pileups, will try again this evening before the end.

Seemed to me that condx to EU were not as good as friday night with the exception of during their sunrise, nice peak then. Heard a OK1 station at 1000z !

Am very pleased with my progress though:

71 q's/ 45 mults/ 16 grids on 40m only with 100 watts and quad loop barely clearing the ground!

Worst signal award: CO2UG, loud but chirpy and 'clunky'. Horrible!

Clip: http://members.aol.com/j999w/DX/CO2UG.WAV

Hope I get some QSL's out of this!

The Radio Brotherhood Packet Net is completely legal and has
been given special permission to operate on 27545 for the
purpose of promoting harmonious relations between the radio
services. Check it out. Whats the harm? Go to net freq.,
27545 and start copying the packet there. You will see ham radio
call signs freely mixing with CB calls. You do know how to work
packet now, don't you?

packet ID us5tx (special event)

Are you sure you're calling at the right time of day? Anytime I hear a 4X1 station there's a pile up so deep that it takes real finesse to get through! If you don't want to deal with pileups, just answer one person and let everyone know that you are interested in a ragchew only. Or just wait and answer some one else's CQ although that does take a little patience as so many people just listen instead of call.

Please cite the government document that grants such permission and list the website where it is shown so that anyone interested can verify that and not risk their license.

Bill,
In most cases, anything you do on a boat is a compromise between what it 'ought to be' and what's possible. Since the backstay (or frontstay) is ~there~ anyway, why not use it? Certainly not the 'best' thing in the world (whatever that is), but 'better' than most alternative$.
Some people have a 'phobia' about tuners. If you don't want to use one, that's fine. They do make 'things' much easier and the difference in performance is 'acceptible' in most cases (acceptible being relative). Since there are alternatives, pick the one you think you can 'live' with and go with it. "You pays your money and takes your choice", as they used to say in the house with the red velvet wall paper...
'Doc

PS - Not that I've ever been in one of those houses, I've just read about them...

I think I can handle it. Since I was one of the first stations on packet in this area back in the 80s. Even built up the TNC kit from heathkit. And guess what I used my TRS-80 computer with Autoterm for the program. Now I have a KAM TNC and the TRS still works. But I don't use it with it now of course.

The major problem I have is this. You sir, are full of crap. There is NO special authorization, if you believe that, then you are a fool, a ignorant one at that.

No sir, I spent too much time getting my Extra class, and have been a Amateur Radio Operator since the age of 14. So I have no desire to lose my license to satisfy some idiotic fault in YOUR personality.

You continue to march. But thanks for the tip. I will certainly 'pass it along'.

Now could you answer my question please?

Have a good day.

Dan/W4NTI

I am at 159 qso and 94 mults, 40 only. I gave up early this AM. Too much QRN and same same stations. Yeah I was hearing Europe quite well, much later than 'normal'. It would have been mid morning there. Interesting.

I think I will hit one of the higher bands and pick a spot and CQ. Pass out some QSO's, then about 4.30 CST hit 40 for a few stragglers.

2408. Recommendation: Text For Online Ham Radio Class

Newsgroup: rec.radio.amateur.misc
Date: 2004-11-28 18:57:37 UTC
From: RST Engineering <jim@rstengineering.com>
Message-ID: <10qk7t3pe1i3ec8@corp.supernews.com>
Source record: 55269
Cross-posted to: rec.radio.amateur.misc,alt.radio.amateur

I'm about two weeks away from launching an online ham radio class. I've selected a lot of good sites with excellent study aids, but I'm having trouble selecting an optional text for the class(es). I'm teaching all three grades (Tech, Gen, & Extra) from the same website.

I've researched the Gordon West series, the ARRL series, and a few others. I'm open to any recommendations from you all as to which one YOU find the easiest to learn from. Basically, I'm "teaching to the test" and what I really need is a book with the EXPLANATIONS as to why a particular answer is "correct".

At one time I used Tony Lacy's "Nutest" series, but I find the explanations sadly lacking in detail.

As I said, suggestions certainly appreciated. As this class can be taken by anybody with internet access anywhere in the world, a series that is available from Amazon or other online bookstore would be most useful.

Jim

You should replace the copper wire with the stuff the BIG BOYS use.
It is called Phospher/Bronze Antenna wire and it Doesn't turn green
when in contact with Seawater or salt air. Stuff was designed for this
spacific purpose.

Yeah, but that's no guarantee.

My return rate is about 75% on VHF, 6 and 2 meters, and that is WITH S.A.S.E.s

I've even included a pre-printed note stating that a QSL letter is quite acceptable if they don't have any cards, or can't make any on the computer (I do). This has helped in a few instances, chances are if I'm working a guy on 6m FM from his mobile, he won't have any cards. Yet there have been a lot of SASE's wasted.

I imagine the HF rate of return is better, but it's been a number of years since I've played this game on HF.

So I still say, " I hope I get some cards out of this!" There aren't many A51's or VK9's out there to work on 40 !

I've followed the instructions for assigning a memory channel to a frequency. However, after the lower window clears there is no number attached to the frequency.

I'm wondering if this has something to do with internal battery?

thanks,

Sorry, forgot to include that the class is free (zip, nada, nothing) with the exception of the books that I will recommend. The exam at the end is whatever the local examining group is getting for the exams. I get absolutely nothing for the class with the exception of the satisfaction of minting new hams.

This is strictly a learning experience for me before I refine it and convince my college to offer it for college credit.

Very true. But I have a story that had a happy ending. I had worked the Desecheo Island dxpedition in 1993 and sent a QSL with SASE. However due to frequent moves starting shortly after working them, I did not receive the card. Well this year I was going through my log to see what I had and didn't have and noticed the very, very, rare Desecheo Island. I was able to track down the operators, get in touch with them, explain my situation, and just a month or so ago, I got the card.

So good luck.

Seeing ham radio call signs does not mean:
1) They are legitimate call signs
2) If legitimate call signs, that the particular holder of that callsign is the individual sending out that callsign.

I've heard bootlegged calls - one back in 1964, so it is not something new. That idiot happened to be "borrowing" the call of a good friend of mine who lived about 2 miles away. A signal of around S-2 was not originating 2 miles away. These are folks that want to operate ham radio but don't want to expend any energy at all to get a license.

Best regards from Rochester, NY

Can anybody hear this "net"? QTH here is south Texas, and I am
copying some packet on 27545. I am listening ONLY, and am
NOT transmitting! There are several stations, using call signs.
Sigs here vary from QSA1 to QSA5 with a load of QSB. If
anybody is interested, I will post some of the traffic extracts I am
copying?

Dave

[UPDATE] HOUSTON, TX: The FCC sent an Official Notice of Violation April 2 to Technician licensee Leonard Martin, KC5WHN, for unlicensed operation February 27, on 27.535 MHz (Industrial Radio Service) and 27.545 MHz (US Government) and March 15 on 27.370 MHz (CB guard channel), and for refusing a request by FCC Field Office personnel to inspect his station. The FCC's Riley Hollingsworth, K4ZDH, reports that he has spoken with Martin on numerous occasions. Field Office personnel in Houston monitored Martin and located him using direction-finding equipment on two occasions. He was interviewed by Commission personnel and local police officers, but the FCC says he refused to allow an inspection. The FCC had warned Martin in writing last November 3 about operation on amateur frequencies (20 meters) other than those authorized under his Amateur Radio license. The FCC has requested that Martin reply in writing within 10 days to the FCC's Houston Field Office explaining specific actions taken to correct each violation and to preclude recurrence.

WALLER, TX: The FCC sent an Official Notice of Violation April 2 to General licensee Greg F. Nolan, W5UDX, for unlicensed operation after FCC Field Office personnel monitored his station February 27, on 27.535 MHz (Industrial Radio Service) and 27.555 MHz (US Government/Forest Products Radio Service). The FCC has requested that Nolan reply in writing within 10 days to the FCC's Houston Field Office explaining specific actions taken to correct each violation and to preclude recurrence.

HOUSTON, TX: The FCC sent an Official Notice of Violation April 2 to Technician licensee Daniel R. Furman, KD5BCI, for unlicensed operation after FCC Field Office personnel monitored his station February 27, on 27.535 MHz (Industrial Radio Service) and 27.545 MHz (US Government). The FCC has requested that Furman reply in writing within 10 days to the FCC's Houston Field Office explaining specific actions taken to correct each violation and to preclude recurrence.

And single-banded, one thing a tuner is not. :-)

The antenna need not be resonant. Under certain easily obtainable
conditions, the length of the open-wire transmission line can tune
a non-resonant antenna to system resonance and better the losses in
the coax feeding a resonant antenna. How to do that is described
on my web page.

Back to TX distance - you really need to get a good book on propagation and understand the solar cycle and the characteristics of each band.

For example -- on 10M with the right time in the 11 year solar cycle -- a minimum antenna and a few watts will work the world (at the right time of day)

On 160M in the day time in the summer with low power -- you ain't going anywhere

What is the year of issue of these letters? FCC correspondence always includes a FULL date in the text? Did you edit out the years for some reason? Also, it does not appear these letters were issued for packet operations? It would be helpful if you post the years these letters were issued, because that would indicate if the commission is still interested in enforcement in this frequency range. I don't want to got through the effort of copying these guys if the FCC is no longer interested in enforcement in this freq. range.

Dave

It's kind of difficult to get a resonant quarter wave into a back stay
as you don't usually know where ground is. Ground can be any number of
feet from where the feed point is on a boat. Every thing above real
ground is antenna.

first, a handy freebie tip ;-)

see http://www.qsl.net/k3pd/book.html free online book by Frank Harris K0IYE titled A Guide to Building an Amateur Radio Station

this is a free online book emphasizing building and using a station, it can probably fill in holes in other books and your "teach the test" approach ;-)

==========

Have you looked into the online ARRL tech training courses? see http://www.arrl.org/catalog/?item=NO-EC-010

Our campus club has used the ARRL videotape technician course for on-demand training locally. The explanations are not very in-depth, as you noted. We have also used Now You're Talking as the basic text for techs. we have also used powerpoint slides to review the exams, study sheets etc (see http://people.smu.edu/arc near bottom for links)...

Have you seen the instructor's guide(S) that accompany Now You're Talking? ARRL also has or had instructor guides for other license levels. ;-)

My solution for our tech classes has been to offer the other Q&A guides up thru the ARRL extra guide for college students who wanted more info. We have also greatly expanded our club library the last 2 years (see listings at http://people.smu.edu/arc/booktopics.html). Add in access to QST and related ham radio magazines at local libraries for tech topic followups ;-)

I do miss a followup to Understanding Amateur Radio and A Course in Radio Fundamentals from ARRL. Pop Electronics also developed a radio course around the excellent (but now dated) US military training manuals for radio operators, often available in libraries (source of illustrations etc. for your project, since govt funded (no copyrights)? However, I would probably suggest finding online sites with similar content and linking them into a suggested course(s) (with archival backups on the link index site in case sites disappear).

But the technology today is so diverse, so many new operating modes too, that it would take an ARRL handbook sized book to try and cover each class of license. And those classes may be about to morph again into a new series of licenses ;-)

Similarly, the stats show the problem is NOT getting people to pass 75% on the tech exam (or extra etc. ;-). Rather, it is that many don't get on the air after they get licensed (like over half).

So the real problem seems to be making that transition to getting on the air, rather than any issue with understanding the technical or other background issues around the test questions.

This on-the-air experience could be achieved by remote internet access (using passworded transmitters, but with open receiver user access) to digital radios (HF/VHF). There are already lots of scanners online too, making it possible to listen to a lot of ham VHF/UHF activity (as well as police/fire) over an internet link.

Now add in some streaming videos or photo illustrated articles on setting up a station, tuning receivers, building an antenna, and so on. I think these would be more useful to many beginners than more depth on questions, esp. since many won't be exploring the full breadth of each license class.

Let's see, would I rather switch knife switches at my operating
position or go outside in a Texas Thunder Storm to attach the
pigtails? At my age, I could develop pneumonia or catch the flu
(no flu shot this year). Pneumonia and/or flu is not simple or
cheap. Think I'll stick with my Ladder-Line Length Selector. :-)

Moral: Use virtually lossless transmission line and do all the
matching in the comfort of the shack.

Wish you had not edited the FULL date out of these letters.
A local ham whose been reading this thread just called me on two
meters and advised me these letters were from enforcement
actions in the 1990s. Is that correct Dave? In fact, he tells me
KC5WHN no longer even holds an amateur license. (verifiable
in qrz.com) What this confirms is what many of us have heard
at trade shows. The commission no longer has the pool of
technical experts it once had a decade ago and would be hard
pressed to copy and analyze a packet net well enough, if at all,
to assemble a case which would stand up to scrutiny for a
possible enforcement action. I am still copying packet on
27545 and will post later on some of the stuff I see. Again,
calm down you guys, I am NOT transmitting and have no
intention to. I realize these guys, if they are in U.S. jurisdiction,
are probably operating illegally.

Dave

Bill I agree But
The original poster sed:

"My very first contacts were established with 2 land stations on 14300 at
100W that were about 1000 miles away. They both reported that my signal
was good and that it sounded like I was "sitting right next to them". I
have no idea if this was a good distance, great, or mediocre."

So I assume he was after contacts of several hundred (thousand) miles - not
ground wave.

My point was this for the 160M band (From a book on propagation)

"160 meters. Daytime conditions for this band suffer from extreme D-layer
absorption, reducing the amount of signal to levels far below the noise
floor of our receivers. This limits daytime coverage to essentially
ground-wave coverage. At night, the D layer dissipates rapidly and worldwide
160-meter communication becomes possible via the F2-layer and in ducts in
the electron density valley above the E region peak. Depending on the
propagation mode, high or low elevation angles may be required. A limiting
factor is the noise levels prevalent at these frequencies, both atmospheric
and man-made as well as tropical and mid-latitude thunderstorms which cause
high levels of static in the summer season. Winter conditions are much
better, making winter evenings the best time to work 160-meter DX.

So you might have ground wave on 160M during the day to 100 miles or so.

See URL for details and formulas on ground wave distances
http://www.qsl.net/g3cwi/Downloads/Propagation%201.doc

As I sed --- way too much on propagation to put on a post and cover all the
variables and details -- the original poster needs to get a good book or at
least look at this free URL
http://www.ae4rv.com/tn/propflash.htm

And of course -- "on 10 meters at the
> bottom of the sunspot cycle 10 is open nearly every day to
> somewhere."

Sure -- ground wave and perhaps sporadic-E

No possible way that could be accomodated with any degree of safety or convenience at all Bill.

On a sailboat, the conventional way to run a long piece of wire is up the mast at the stern. Either a wire or an insultated backstay is used. The backstay is the guy wire at the back of the boat holding the mast up. Insulators can be cut into the backstay allowing it to be used as an antenna. I don't care for that much as it seems possible for the backstay insulators to fail (even though the manufacturers claim otherwise), leading to a dismasting. People die that way. So I run a simple copper wire up the back between the 2 backstays.

At the stern of most sailboats, there are exterior storage lockers. A very heavy stainless steel "chain plate" is attached to the hull at the stern, and the back stay (or in my case stays, as I have two) are attached to those chain plates. My chain plates are right on the transom which is typical of most sailboats. That's RIGHT at the back of the boat. There is a stern locker nearby for storage of stuff you want to use in the cockpit. That is a typical layout for most sailboats. Then, heading forward there is a cockpit area, then the companionway down into

the cabin. Below the cockpit is engine, and no living space. The livingspace typically begins at the companionway.

Typically, the radio is located at the nav station, which is midship in the cabin, in my case about 15 feet from the stern locker where the tuner is located. My boat is quite typical of most sailboats. There is no living space in the vicinity of the transom nor is there living space under the cockpit. Some sailboats feature a center cockpit, in which case a large master stateroom is usually under the back of the boat. That's not where a radio belongs either. It belongs at the nav station.

In other words, in order to use pigtails "right under the antenna" as you suggest I would have to go outside of the cabin by climbing up the companionway, walk to the very back of the boat (a place you do not want to be when in heavy weather), open a stern locker, get down on my hands and knees and fiddle with the pigtails whilst pitching about as if in a washing machine of the spin cycle. Then go (stagger really) back inside to use the radio. Switch bands? Do the whole thing again. By the way in heavy weather, leaving the cabin also entails strapping on a heavy safety harness, possibly foul weather wear, and then attaching the safety harness to a line that is attached to the boat, before exiting the cabin. As you can surely appreciate, pigtails or any other mechanical connections to be messed with would simply not work in the environmnent.

Simply put, the only practical solution on a sailboat is a tuner. That is why I have never yet (in over 25 years of serious messing with boats and countless sea miles under my keel) seen a ham or marine SSB equipped boat without a tuner.

It is the ONLY practical solution.

There should be no problem at all with some of the antenna being below deck. It would be good to keep it away from metal stuff of course. Longer horizontal runs tend to raise issues, though. Probably a greater chance of coupling rf into the boat's other electrical systems, and a long run of 20 feet or so (say from the backstay to a nav station amidships) can radically alter the radiation pattern. Maybe for the good, maybe not. And that is the main reason that manual tuners are questionable choices for use with backstay antennas. Nobody wants to try to manually tune a backstay antenna located at the stern if the rig is 15=20 feet away.

To avoid this run, some of us have resorted to loading the shrouds (and the whole rig as well) with an L-network quite successfully. I believe a separate wire run up a flag halyard would be an easier antenna to tune, but it would introduce other issues.

As Gary has said, it is difficult (but only mildly so) to get a resonant quarter-wave in a backstay. It would probably require an antenna impedance analyzer to find resonance. Make it a bit short and add a few turns of wire (cheap and reliable) to bring it to resonance.

Chuck

You don't know where I am at. Yes, I let mine expire, but it is valid now.
Had a week before the grace period expired, and renewed. Haven't used it
since I renewed, but I have used a CB. Why are you here?

Interesting copy. Been copying these guys until just after sunset,
when they faded out. They mentioned a qsy to a freq in the
6 mHz band for night operation. Now THAT is a real big
no no, as that, I believe, is in an aero band. Heard several ham
call signs. Not going to repeat them here, as they may very well
be bootleg call signs, being used without the knowledge of the legit
owner of the call. Wonder why the FCC is not on top of this?
Most likely because they no longer have the technical expertise to
process something like this. Just now hearing some stations fade
in on 6680 mHz I think, lots of qrn. Some calls heard: us7az
us7az1, usa4fla, us3md, and several legit ham calls. These guys
are making several references to the FCC in their conversation.
Weird stuff.

Dave

When I said "you don't usually know where ground is" I meant that on a
boat what may look like real ground may not be. Usually there are a
lot of different things tied together to try and get a decent ground
for the radio. The length of those leads are a factor. There is no way
to know for sure how long the actual ground lead is without measuring
where your antenna resonates.

Cut and try with a backstay is not practical.

If this arsehole wants to be like W1AW, he should send his bulletins
in CW, and he should do so in the appropriate band sections for such
transmissions.

Why isn't that what I said? By quoting me in your comment, you make it sound as if I said the opposite of what I actually said.

Perhaps you're just another brainless appliance operator. Go away and play with your little toys.

Cecil,
Changing feed line length is a viable option for a land
station, but a not-so-viable option for a sailboat. Where/how
do you place it to keep it out of the way?

I notice nobody has mentioned traps. That would be another way. 50 feet is long enough to have it work 75 meters, if there are several traps in line. From what I understand, the antenna is mostly vertical. Tuner or not, a 50 foot vertical is getting to be too long for low angle radiation at the higher bands.

Hi,

I'm going to take part at a Cubesat project at my university. I should have a look on whether the use of a s-band-cumminication is useful. Can anyone tell me where to find a introduction into the matter. I need to know which componends to be used to establish a link between an satillite and a ground station.

Thanks in advance

Julian

Anyone can send a string of dits faster than 30 wpm, either with a keyer or a bug.

If you are asking my Morse code receiving capability, then the answer is 50 wpm, and a bit higher on a good day.

No, but I do have a military qualification certificate, but that was only for 20 groups per minute.

Hope that helps some.

Sorry in case this is a reply to the wrong guy. My reply is to whoever
said "Only 30":

RTFP. I said a "string of dits" not an intelligent transmission (in the
voice band, during a voice contest, transmitting in CW).

It sounded like this: dididididididididididididididididit...

I'll slow it down so you can copy the code:

dit

and so on for about 20 minutes. If I need to teach you how to use a clock with hands on it, let me know also. My email address is at the top of this post.

He was probably a dumbassed ham, by the way. And probably has a CB rig in his dumbass ham shack.

Also, not a very strong signal, but it's all he had, in lieu of personality, talent, or experience. But man, did he make a great impression!

NOT.

(Sung to the tune of
Santa Claus is Coming...)

Glennda better watch out,
he better not pout,
he better not cry -
Im tellin you why!

Fedral Marshalls cum
in his mouth!

They know that hes a fat-ass,
Theyve heard he jams boy scouts,
Theyve seen that hes a tax cheat,
and they know he has no clout!

So, he better sign off,
he better shut down,
(or just fire up and
admit hes a clown)

Glennda dresses in his
moms clothes!

We think he is a homo.
Were sure he is a fag.
We know that Chrissy No-cock
holds down sheep so he can shag -
them!

So, he better not jam,
better not in-ter-fere.
(Even Riley knows hes a queer)

Fedral Marshalls cum in his mouth!

NAL Time Glennda

Merrrrrrrry Christmas!

Dan, if you had been paying attention for the past five years, you
would know that military experience, no matter how valid that you
think it may be, is allowed to have no bearing whatsoever in relation
to the amateur radio service. I refer you to N2EY, W3RV, and K4YZ.

Hallo anybody!

I am a journalist and I am writting an article about a new, interesting, rapidly growing webservices. Now I am collecting the information about InfoRelation.com .
I have found that InfoRelation was mentionned in this forum. So I would like to ask you to send me your opinion about the InfoRelation.com service
and its offer: the process of connecting demand and suply for knowledge, skills etc.

I will be grateful for any opinion (also about the problems with InfoRelation, InfoRelation's competitors etc.)!

Best regards,
Tim Kelly
PS. If there is anybody who earned any money on InfoRelation - please describe me the field of interest in case of which the earning has been arrived at.

oh really? and where is this mythical STA that the FCC issued. I have found NOTHING in any of their databases to even point to the use of that frequency by anyone other than "government numbers stations".

At best, your assertion is an extreme misrepresentation of the facts. at worst, its an outright lie. Either way, the STA you speak of does not "officially" exist.

BTW, do you realize that by posting here the above mentioned data, you have admitted to violating federal regulations (and a few laws as well). Since it is now a matter of public record, how do you choose to defend yourself?

you make the allegation, yet you offer nothing else?
ah well, spoken like another one of the idiot club.

Besides, don't you know, it takes one to know one?

I'm looking for other hams that also work in museums that might be interested in starting a net, discussion group, etc. Or, if you know of one that already exists, please point me in the right direction.

Thanks,
Bob, KE3GG

2481. Morse Code training

Newsgroup: rec.radio.amateur.misc
Date: 2004-11-30 13:48:00 UTC
From: Roger <Roger@NOSPAM.com>
Message-ID: <IT_qd.15024$Ad3.906063@news20.bellglobal.com>
Source record: 55193

Hi

I am trying to find some audio files that I can plug into my MP3 player.

I'd like to have something that let's me listen to code and learn it as
it sounds, as opposed to trying to decipher the dashes and dots and
correlate to letters.

Perhaps something where a voice says A, then the code happens, then B, etc.

Is there anything like that available online that I can download?

Thanks everybody.

My daughter, who lives in Charlotte, NC, just told me about a ham
radio exhibit she just found in the Discovery Center in downtown. She
said the guy gave her his call (she has a call, too), but she didn't
remember it. I roundly chastised her.

Anyway, I don't know anything about the exhibit or the guy running it,
but this should be enough information to get you started.

He seems to be off the air today!

14.275 has not seen his crappy RF all morning long.

Does this mean he's finally been "relieved of
his duties" by the FCC ? (..or via the local nuthouse too?)

We can hope so!

Anyone up in ME or the Northeast got any news on this?

If he was finally shut down it's great news!

Just think of it, right now as you r read this, ole RG 'Brother' Stair
the loony SW religious broadcaster is having his court trial
in SC for numerous charges of underage buggery, fraud, theft
and unlawful burying of a dead man on his church property....

Now if K1MAN is gone, and RGS is found guilty later
this week, or the next, it will be TRUE REASONS to
celebrate and bust the hymen on a magnum-sized
bottle of Champagne!

(note: The boy-broadcaster has been known in the past
to shut down his operations for a day or two then come
back on the air all over again, so he may have gone back
into his manhole and snapped down the round cover for
awhile to ostensibly play silly games with the listeners....)

2498. 160m contest this weekend !

Start collecting wire ... the 160m contest starts at 2200z this friday !

Still need to re-install my inverted L, but I should be on most of the weekend handing out points and seeing what DX I can work with 100 watts.

Don't get your hopes up...he has a terrible record of reliable operation and something probably just crapped out again....maybe the Shady O'Rack timers bit the dust, or the el cheapo cassette deck crapped out, or the rig fell through the floor of that decrepid condemned structure he calls a shack....he probably doesn't know it's off the air yet....seeing as how there is never a control op up there...

Just a few thoughts....any other guesses?

Chuck...K1KW

There's a pirate sporadically operating on 3965 kHz.
Claims to be located in NY state. Could be. I am in Boston
area, and he has a qsa5 sig here, whereas people to the s.e.
and west report much lower sig strengths. Format is lots of
anti fcc stuff and satire, some rap music too.

Yes, my radio shack timers crapped out on me again. I will be there later
today to fix the timers.

I don't see the purpose in that. You need to learn Morse in a manner to
actually copy what is being sent. Use the time proven farnsworth method.

Perhaps I wasn't clear. I have a Windows based program that will output code when I type a letter. What I want is something that I can listen to on my mp3 player while driving. The PC is helpful, but what I'd prefer is a wav or MP3 file or files that sound the code and speak the letters.

I think of Morse code as learning any other language. As with any other language you can get tapes and cd's that play the words in whatever language, so that your ear becomes attuned to deciphering it. They repeat a phrase in english, then in say...spanish.

I want something similar so that I can listen while driving.

Roger

try www.arrl.org look for museum ships special event (K1USN)
there are 50+ ship based maritime museums with assoc. ham radio stations,
ranging from the CSS Jackson (remnants of confederate ramship museum) to
the Battleship New Jersey etc. Our club recently received an award
certificate for working last summer's special event, very nice promo ;-)

the league also has a nice ham radio museum, might check with the operator
of that facility too?

I believe you can get audio CDs from both the ARRL and W5YI that teach the code this way so you can play them while driving or otherwise away from your computer.

Baxter does not post from a Comcast account in the
Philadelphia area. However, this does tell me you admire Baxter.
Afterall, remember, imitation is the greatest form of flattery.

Hans, Hans, Hans,

The daily little charade you and your playmates perpetrate on
14275 fools no one. However, what it does tell me is that you
have no life, other than telling sea stories down at the legion hall.

K1MAN owns you. Get help soon.

Dan,

This loser says "Oh yeah, big guy? Bring it on!" And you say "OK, pick a freq". Then he says "Well, um... (sound of pants being peed into, and subject being changed)..."

Why do you bother? I didn't see the whole exchange, because I plonked the douchebag that you were quoting, but it's like watching someone kick a retard. He's probably a 15-year-old kid who uses his mother's AOL account, and doesn't know enough code to pass the no-code exam. This a ham group and he is as much as a ham as Hillary is a New Yorker. But Hillary is more of a man than he is.

73,
Dave

Only a moron would propose a challenge while doing so anonymously.

Either bring it, or shut up.

Or stay in the shadows.

Did you ever think about the fact that you bitched about my web site,
and I wouldn't be able to see who's visited my web site lately?

It was you, douchebag. Maybe when you get some facial hair you will
learn to pick your battles.

I won't give you any advice here... either you will be killed by some
drunk 18-year-old in a frat house, or by an angry goat owner who walked
in on you, or you may live to be as old as me.

Prove that you are as smart as me: I will be 50 years old in a few
months. How old are you?

Oh, and by the way, my earlier question unanswered, is "are you a ham,
and do you belong on this newsgroup"?

Well?

Well, I have no cogent reply to that. Except that to ask, "Why aren't
you on the air?"

The HF bands are hoppin, and during the time stamp of your posting, HF
was worldwide-wide-open.

You were here? So sad.

Roger,

I'm not sure if this posting is for real, but if so, please contact me directly. Use this email address.

I'll make some MP3 files for you, and customized (using the AEA CW Machine, they will call you by name). I do it all the time. It will make you laugh.

Let me know what speed you want to use.

All the best, and 73,
Dave
KZ1O

Why would I give you my name and address, your to much of chickenshit
to post yours.
Steve, if he e-mails his real name and address to you FWD it to me,
bet he won't.

Hey "Whoever" don't worry about it. You didn't do anything wrong. Sounds like "MS FLINT" is just having a wrong time of the month moment. Your comments were sound and well thought out. Most women in ham radio are fat greasy pigs anyway. Just look around at the local events and check out the "ham guwrls"

To answer your question the nocode wonders want a license but not the knowledge. They get a vanity call to feel more like a real ham. Then they go back to the cb band to tell the other idiots how smart they are. The codeless wonders will ruin this hobby and there is nothing we true hams can do about it.

In case you haven't noticed dumbass, your posting to a CB newsgroup.
Don't you know anything about the internet? If your plonking a
douchebag, plonk yourself, you don't have a clue.

In article <f3f9100c.0411300532.a8647a3@posting.google.com>,
ke3gg@yahoo.com says...
> I'm looking for other hams that also work in museums that might be
> interested in starting a net, discussion group, etc. Or, if you know
> of one that already exists, please point me in the right direction.
>
> Thanks,
> Bob, KE3GG

I don't know of a net per se, but there are two museums here in Southern California that would qualify.

One is W6RO, the "Wireless Room" ham station aboard the RMS Queen Mary in Long Beach. They have a fully-functional multi-position ham station aboard ship, which has been operational for many years. They also have a beautiful QSL card, much sought-after by hams, so whenever you hear W6RO on the air it'll often result in a pile-up. W6RO is also the club call for the Associated Radio Amateurs of Long Beach, who operate the Wireless Room station, so on Field Day when you hear W6RO they are NOT operating from the ship. Any other time of the year, W6RO is used aboard the QM. Nate Brightman, K6OSC, is the main point of contact for information about that operation.

There's also a station operating at the Maritime Museum, across the harbor from the Queen Mary in San Pedro, CA but I don't have contact information about their operation. I =think= that's aboard the old WW2 Liberty Ship SS Lane Victory, if memory serves.

Hope that's of some help to you.

Are you confusing a poor operating ham as a pirate shortwave
broadcaster? I've been listening to 3965 kHz for a couple hours, now,
and have only heard some dimwits back east (NA) jabbering about
trivial matters. It's not too hard to find lunatics on the ham bands
transmitting all kinds of illegal stuff. Try to tune into 3840 kHz
sometimes late in your evenings/night and listen for the wacko named
Steve Wingate, KG6TXH. He does everything you've mentioned almost on a
nightly basis running 1500 watts into a fairly good size antenna. He's
the latest edition of idiot-ham to appear on that frequency. I've
received many emails regarding FCC actions that are supposedly in the
works against him by R.Hollingsworth.

Ohhhhh, the Queen Mary station! Do I have a personal experience
to ask you about! First though, were you associated with or can you
answer a question about W6RO from the April 1983 time frame?

Tnx,

Dr Ham

Sorry, didn't get my ham license until 1986. But I'll try to answer
your question for you anyway if I can. If I can't, I probably know who
can.

I had read about W6RO in QST, so when I passed through the area in
April 1983, we visited the ship. Upon locating the ham station, I saw
an elderly gentleman sitting in the station. I knocked on the door,
whereupon he waved me away, acting very annoyed. The QST article
stated that hams were very welcome to visit the station, so I guessed maybe
he thought I was just another tourist, so I proudly showed him my ham
radio license through the glass, so he would know I was a visiting ham.
Now he really got pissed and began screaming and cursing at us to go
away. I found an employee and asked them what was going on. I
was informed that the elderly gentleman was indeed a ham radio operator,
so back we went one more time. He refused to open the door or talk
to us and just kept loudly cursing for us to go away. Months later, I
spoke on the air to someone operating W6RO and was informed I must
have visited the ship on a bad day, because there was one elderly gent
who was known to act that way. Logical question is why did the W6RO
club continue to allow this nut case access to the station?

Yep, you are quite correct there Twist. Here is one of my favorite
invitations from N8WWM, for me to come to Toledo. Check out what
he claims he will do to me, when in fact he's a fucking coward after
I arrive and knock on his section eight slum door.

http://tinyurl.com/5c5ck

Oh and as it turns out, I took his fugly picture. I didn't think
anything this fugly could be found without digging the ground
up.

http://img37.exs.cx/my.php?loc=img37&image=a7-dogieupclosefugly.jpg

Yes, another keyboard tough guy exposed as the coward he truly is.

To spell it out for your small brain.
What I said was that he came out of the house and it looks like you were
the coward for standing in the street.
I never said it wasn't Public domain ASSWIPE.
Why do you idiots have to call everybody that doesn't agree with you a name?

Take your bait someplace else, I ain't biting it. He wouldn't come out
of the house, that's the whole point. I was lucky to get that pic, since
he ducked behind the fucking door every time I put the camera up to
my eye. Now rug along chump, I'm done with ya.

psst, it was Soviets who did more to defeat Germany than all the other
Powers combined. With a fair amount of material aid from the U.S., yes, but
it was their blood. And, no, I am not belittling the sacrifices made by U.S.
troops. My father fought in Africa, Sicily, Italy, France, and Germany and I
have his Sliver Star, Bronze Star, Purple Heart, etc. as a proud reminder.

If those numbers are truly legit, then they are transmitted as a hoax .
Those numbers could not be a true sequence. No interest of any nation would
use it, it follows no protocol. So I would not fret over this thread.

Not sure what you are trying to say. The pirate on 3965 kHz is xmiting
these cryptograms, and many people have had success in breaking
them out, partially and wholly. Interesting stuff, and one cannot
help but wonder why the FCC is showing no interest?

In article <colsch$n71$0@pita.alt.net>, shrink@looneyhamsnet.net says...
> I had read about W6RO in QST, so when I passed through the area in
> April 1983, we visited the ship. Upon locating the ham station, I saw
> an elderly gentleman sitting in the station. I knocked on the door,
> whereupon he waved me away, acting very annoyed. The QST article
> stated that hams were very welcome to visit the station, so I guessed maybe
> he thought I was just another tourist, so I proudly showed him my ham
> radio license through the glass, so he would know I was a visiting ham.
> Now he really got pissed and began screaming and cursing at us to go
> away. I found an employee and asked them what was going on. I
> was informed that the elderly gentleman was indeed a ham radio operator,
> so back we went one more time. He refused to open the door or talk
> to us and just kept loudly cursing for us to go away. Months later, I
> spoke on the air to someone operating W6RO and was informed I must
> have visited the ship on a bad day, because there was one elderly gent
> who was known to act that way. Logical question is why did the W6RO
> club continue to allow this nut case access to the station?

I don't know why they would have allowed him to operate. Certainly that wouldn't be the case now -- all of the operators are told in no uncertain terms that their primary responsibility is to be available to visitors, and operating is only a secondary task. If there's only one operator present, and someone is at the door wanting to talk to him/her, then that person stops operating and caters to the tourist. Doing so "pays the rent" for the station, so to speak.

There was one time during the Disney administration of the Queen Mary, when a couple of the operators decided to pretend to be Animatronics characters sitting at the consoles instead of real people. They didn't get away with it for more than a few minutes, though -- couldn't keep from cracking each other up.... ;-)

Anyway, I'm sure if you visit the Wireless Room now, you won't have a problem. They also have a nice certificate they send you as a Guest Operator, and if you want to "cheat" and get yourself into the logbook so you can get a QSL card, ask the operator -- you can take an HT onto the deck and "work" the station, getting you into the logbook. They can then give you the particulars* so you can send in for the QSL card. An SASE and valid log info is all they require.

I think I mentioned this before, but I'll get it out on the record again just in case: Field Day QSOs with W6RO are NOT actual contacts with the RMS Queen Mary. The Associated Radio Amateurs of Long Beach, CA (the club who operates the Wireless Room on the QM) use their club callsign W6RO from a real Field Day site during that operation, during which time

the QM station goes silent. So if you work W6RO during Field Day, don't expect a Queen Mary QSL card.

Just did a quick Yahoo! search, found:

http://www.mpicomputers.com/ham/queen/

as a good site for info about W6RO. Mike Yaworski, WB6VUB, put it together. (Mike also works part-time Saturdays as a salesman at Ham Radio Outlet in Anaheim, CA.) The site includes great photos, plus a QSL card history.

--

-- //Steve//

Steve Silverwood, KB6OJS
Fountain Valley, CA
Email: kb6ojs@arrl.net

* Each of the several operating positions has its own logbook. The operator will give you your logbook entry number, like B280, so that the QSL Committee can find your entry in the proper log. When you QSL, include that info along with the usual UTC date/time and other data, so that they can find your log entry and issue the QSL. Be sure to include a SASE (use #10 business-size envelope, as the QSL is a large one) with your QSL request.

Actually it was the Japanese that caused Hitlers defeat. Think about it.
If Japan would not have attacked the USA, Hitler would not have had to
declare war on the USA. Which would have given him a year or two more to
work on the USSR. And maybe, just maybe, hold onto Africa and thus giving
him a serious shot at winning it.

But...the USA came in and gave him another front to contend with. Basically
the Allies got lucky.

I have a 2 meter radio. Been thinking of getting into 10 meters. How des 10 meters work? I mean can it be used to reliable talk to people a couple of states away or is it like am radio where reception in iffy and you can only during certain times?

I mean, If there is someone one state away I want to talk to can I any time of day?

Is this band more "fun" than 2 meters?

Hallo,

I have visited InfoRelation.com and I would like to thank you for drawing
my attention to this service ;-). The idea of connecting demand
and supply for info, knowledge etc is great! Thanks to this I was able
to find an expert in the field of my interest and hobby.
As regards your advertisement I think that perhaps you offer too much
money to the members of the projetc team ;-).

Best regards,
Donald Martin

Yes!

On a 24/7 basis it has better ground-wave range than 2 meters, simply because it isn't limited to line-of-sight. With a reasonably good antenna (dipole, ground plane) and 100W a range of around 100 miles is typical.

But the real fun begins when the ionosphere cooperates --- then worldwide communications is possible. I have 271 countries worked on 10 meters, and my station is in the "Joe Tribander on a city lot" category.

Come on down!

I do not intend this to be insulting, but from the way you asked the
question, I have to wonder if you actually have a valid amateur radio
license, that allows you to transmit on 10 meters.

Anyway --
most of the questions you asked can be only answered by "it depends".

"a couple of states away" can be a long distance if you live in the center
of Nebraska, but a much shorter distance if you live in Rhode Island.

A lot of distance can be achieved on 2 meters -- during a good band opening.
Propagation has a lot to do with how far a signal wil travel.

As for more "fun" -- that depends on what you like to do.

Gang,

I've been trying to find my manual for my AEA MM-3 MorseMachine, and have been unable to find one on the net. Does anyone have an electronic version they could send me or point me to? Alternatively, if I could ask a couple of specific questions about some commands that aren't on the label on the front, that would be a big help.

Thanks,
Dave

Hey Don,

Good question. You are looking at things the right way. My friends are tired of hearing me say that "ham radio is a hundred hobbies in one" but it is true. If you get tired or bored of one part of the hobby, there are 99 other parts of ham radio out there just waiting for you.

How about answering these questions for me:

1: Do you already have a 10-meter radio?
2: Do you have room for a dipole antenna? Around 16 feet long
3: Are you licensed now? If so, does your license include 10-meter privileges?
4: Do you know of a ham who lives near you who could show you what he/she has on HF?
5: What do you know about 6 meters? Do you have any interest in that band (it's awfully fun also)?

Feel free to answer me, either directly by email, or by posting back to this newsgroup.

And whatever you do, give us all an update here when you make a decision.

All the best, and 73,
Dave
KZ1O

From "Old Timer." Ten meters was at one
time the real "fun" band. Seventy-five was
the kilowatt-corner band, and one almost
needed an invite to be accepted. However,
for ten meters one started by building a tri-
tet oscillator with a war-surplus crystal and
quadrupled to ten. It was used for ground
wave, and could always be counted on for
surprising skip results. My first ten meter rig
was powered by the automobile vibrator
power supply and probably ran less than
five watts input. My antenna was an old
automobile antenna. That's how some hams
operated in those days. I recall one QSO
with an Aussie with that rig. The receiver
was a surplus ARC-5 with the receiver
oscillator and RF coils rewound. It converted
ten meter signals to the broadcast band
automobile receiver A.M. band. Now there
are repeaters on the ten-meter band and with
a little acquaintance with propagation fundamentals
you can have fun around the world. '73s W6BWY

Hi,

Was wondering where I can find current FCC regulations besides the FCC site, which is difficult to schlep though.

Anyone knowing of a good site that explains current regulations can reply to this posting.

If there is a FAQ for the group, or charter, please advise also.

Thanks,
TrueAmerican

I have worked in this field for years. Most pirates broadcasting numbers are either reading random numbers, or are just having fun with a friend. Unless they use a very very easy key, nobody is going to actually break it. Now it is easy to use brute force to eventually get a meaningful message out of the numbers, but it is almost certainly not the intended message. It is like the monkeys with a typewriter who, statistically, will eventually type out all the works of shakespeare by accident.

2610. Online Ham Class: Comments Appreciated

Newsgroup: rec.radio.amateur.misc
Date: 2004-12-05 01:13:48 UTC
From: RST Engineering <jim@rstengineering.com>
Message-ID: <10r4o6gk9p0iva0@corp.supernews.com>
Source record: 55022

I've completed the online ham class

www.rstengineering.com/hamradio

for people who want to have guided home study. I would appreciate either email (jim@rstengineering.com) or newsgroup comments on what I've created.

It is targeted to the Grass Valley (north of Sacramento CA) area for the exams, but the links are valid for anywhere in the USA.

Comments most appreciated.

Jim

With a little over 3 weeks to go, my time in securing a contact is starting to shrink..

I'm located in New York..

Interested in learning if there are any SSB nets that regularly have Hams from Hawaii?

If there are any hams in Hawaii reading this, I'm open to any frequency at almost any time of day for a quick SSB contact..

Thanks for any pointers..

If you are missing any other state, I've found the 3905 Century Club 40 Meter early net as a great way to make a bunch of contacts. You can find out about them at: http://www.3905ccn.com/

ok,
purchased a "new" (used) motorola converta-comm (model N1244A) which appears
to work fine for receive, but the transmit circuit does n;t appear to work
(key the mic and no action).

request is simple:
1. request full schematics of this device
2. request parts source info (if relevant)
3. request complete specifications on this unit otherwise

my e-amil is posted below (munged).

someone please help here....

I heard a KH6 on 160 last night, and 40 meters in the wee hours should get you there as well.

Perhaps watch the DX clusters such as:

http://www.dxscape.com/ww25.html

The 10 meter contest is next weekend, you might pick one up then. That gives you one week to get your antenna's tweaked to the west!

small problem with your assertion.
I had a room mate at the time. he used my account with a slightly different
username in the news client.....

thats pretty easy to do when one runs LINUX.
so, it may have been my account, but can you really be sure it was *I* who
made the posts?

you will also NOTE that during the same approximate period of time, I am
seen using my "real" identity (as here). so John mackey's assertion (and
your allegation) cannot really be proven 100% in your favor (there is
reasonable doubt).

besides, the point is now moot. this thread died an ugly death a long time
ago and it shall remain dead. any further attempts by you to instigate,
harass or otherwise incite problems will be forthwith ignored.

besides, someone else told you to shut up and thats what I suggest you do.
The more you harp on irrelevant points such as "who did what and where",
the more you discredit yourself (your kind always does).

lastly, be it known: I have a 12 machine LAN in house in use by 3 other room
mates (one of whom isn't a ham) so any postings to these newsgroups from
whatever IP I happen to be using may not necessarily originate from me (and
it is quite easy to NAT upwards of 200+ machines if I really wanted to).

so, with that having been said, I wish you good riddance.

Not too mention the use of the word " cheap " as it is an auction it
may not be cheap, it will be whatever the price is that someone is
willing to bid which may well not be someone else's idea of cheap.
There again maybe you meant that Icom GPSs are cheap in which case who
am I to argue?

Rant over, bye.

RF,

Not true, and I have proof. I saw it on the Simpsons. To quote:

[...] For example, in the same episode, Mr. Burns has a thousand monkeys
feverishly typing at random, hoping they will produce the greatest novel
ever written. This reminds me of the Platonic theory that given enough
time, everything you can conceive of will eventually happen. Random
patterns, given enough time, will show themselves to be not so random
after all.

When Mr. Burns pulls a piece of paper out of one of the typwriters, he
reads "It was the best of times it was the BLURST of times."

Spike,

Man, that takes me back. And what about when the 11-year cycle is at
its peak???!!! You can work the world on a peanut whistle and a wet string.

There is a 10-meter repeater in this area (w1oj) that is occasionally
linked to a popular 2-meter repeater. I've heard guys who otherwise
could not get on HF who use the set up to regularly work guys all over
Europe. I know of three of them who upgraded to General because they
had no idea how much fun HF could be until they tried this!

The Ohio/Penn DX PacketCluster
DX Bulletin No. 688
BID: $OPDX.688
December 6, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NC1L, K2UO, NG3K, W3UR & The Daily DX, K4VUD, N4AA & QRZ DX, K5LBU, AC7DX, K7ZD, KL7JR, K8DD, K8YSE, 4X1VF, DL1EK & The DX News Letter, F5CWU & La Gazette du DX, F5NQL & UFT, HG4I, I1JQJ/IK1ADH & 425 DX News, I1HYW, IZ8BRI, JI6KVR & JA-IOTA Islands News, LA5YJ, RA3XR, SM6WET and WAP Bulletin for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 28th/November, through Sunday, 5th/December there were 234 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4U1U, 4X, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5X, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 8R, 9A, 9G, 9H, 9J, 9K, 9M2, 9M6, 9N, 9Q, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HC8, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, J5, J6, J7, J8, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KH8, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0S, PZ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV/A, SV5, SV9, T5, T7, T9, TA, TF, TG, TI, TK, TN, TR, TT, TU, TZ, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VK9C, VK9L, VK9N, VK9X, VP2E, VP2M, VP2V, VP5, VP8, VP8/h, VP9, VQ9, VR, VU, VU4, XE, XT, XU, XW, XX9, XZ, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3G, EASTER ISLAND. A group of operators from Norway and one operator from Denmark (former S9LA-team of 2002) will be active from here January 8-18th in 2005. The callsigns for the operation will be 3G0YP (SSB) and 3G0YM (CW/Digi-modes). Activity will be on 160-10 meters. Look for more

info to be posted on the LA-DX Group's Web page at:
http://home.online.no/%7Es-roabr/ladxg/

3W, VIETNAM (IOTA Activity). Masa, JA7GAX, is expected to be active here this week and will activate several Vietnamese islands over the next few weeks. His activity will begin as 3W2GAX from Ho Chi Minh City starting December 7th. On December 9th, he will be active as 3W2GAX/C from Con Son Island (AS-130). He'll head back to Ho Chi Minh City on December 16th. On December 19th, look for him to be active as 3W2GAX/4 or possibly 3W2GAX/p from Phu Quoc (AS-128). Masa will return back to Ho Chi Minh City to be active one more time between December 27-29th. QSL via JA7GAX, direct only.

4X0, ISRAEL (Castle Activity). Jan/4X1VF, Ilya/4Z1UF, Shalom/4Z4BS, Mark/4Z4KX, Ruben/4Z5FI, Ruslan/4Z5LA and Yuli/4X6HP will operate for the first time after 16 years from the famous historical site - "Masada Castle" near the Dead Sea, with the special callsign 4X0MS. Activity will start 1000z Friday, December 24th until 1000z Sunday, December 26th. They will be on the air with two complete stations on CW/SSB 80-10 meters. Also, the square for the "Holy Land Program" is L22BS. QSL Manager is Shalom, 4Z4BS. To read more information about this historical site, please visit: http://www.bibleplaces.com/masada.htm

6O, SOMALIA. It has been announced that the Italian group, which is going to Somalia in February 3-17th (see OPDX.683), now has a survey (for needs and wants on bands/modes) on their Web page. You are encourage to fill out the survey (especially the Topbanders). The Web page can be found at:
http://www.i2ysb.com/6o/need.htm

AFRICAN TRIP (Operators Needed!). Frosty, K5LBU, is planning to go back to Africa again for 2005. He states he would like to go to Botswana (A2) or back to Mozambique (C9). This time he would like to have some other operators join him. Frosty would like to have at least 3 other operators or more. Operators need to plan on at least 8 days but more likely 10 days from the time of arrival until leaving. He states, "If all else fails I will go back to 3DA0 Swaziland." Frosty's E-mail address is: frosty1@pdq.net

ANTARCTIC NEWS.....
Dr. Mario Pillon, I0QHM, (along with 2nd operator Danilo) continue to be active as I0QHM/KC4 from the Mario Zucchelli Station (WAP ITA-01). After the operators establish family connections on the air, they will then make an efforts to make contacts with everybody else. They state that they will check-in regularly on 14180 kHz from 1830-1900z. However, due to limited time, Mario can only stay on the air for 30 minutes a day.

You have less than a month to work Finn, VK4LL (OZ2QK), as VK0DX from the ANARE Davis Base Station (AUS-03). His activity has been mainly on 20 meters CW/SSB. There has been a few QSNs on 17/15 meters. Look for him between 0000-0530z. QSL VK0DX via: Finn Olsen, P.O.Box 1544, Brisbane 4001, Australia. His Web page is at: http://www.qsl.net/vk0dx/

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Manager, informs OPDX that the following operation is approved for DXCC credit:
TN3S - Congo; Current operation effective May 15, 2002

HG05, HUNGARY (Special Prefix). Just a reminder that Tibor, HG4I, will be using the special callsign HG05HNY between December 10th and January 31st. The special event callsign, HG05HNY, stands for: The 05 as a call area is the last two numbers of newcoming year and the HNY suffix is the abbreviation of the phrase "Happy New Year". Activity will be on all HF bands (including the WARC bands) on the following modes: CW, RTTY, BPSK, SSB. He will try to take a part in all HF contests during the activity period. The stations are valid as a separate multiplier in the HA-HNY activity contest. See the rules on SM3CER's contest sevice Web site:
http://www.sk3bg.se/contest/c2004jan.htm
QSL via only direct (SASE) to HG4I: Mr Tibor Szabo, A.R.S. HG4I, H-2465 Rackeresztur, Budai u. 6., Hungary.

IOTA NEWS.....
AS-076. Look for JN4MBO/5, JA5BEX/5 and JF0BPT/5 to operate from Wasa Island, Nabe Island, Koyo Island and Yoshi Island from December 23-26th. Activity is scheduled for a one day to a half a day to operate, respectively. QSL via the bureau or direct to their home callsigns.

AS-079. Operators JL2LRO and JK2HVD will sign homecall/6 from Miyako Island (JIIA AS-079-005), December 11-13th. QSL via the bureau or direct to their home callsigns.

NA-102. Members of "THE RADIO CLUB A.C.R.A GUADELOUPE" are organizing a DXpedition to the Island of La Desirade (DIFO FG004, LOTA GUA 005), December 18-19th. They hope to activate the callsign TO7DSR. The A.C.R.A Club's goal is the revival of radio amateur activities on the island. Activity will be on all bands (HF/VHF) and 6 meters CW/SSB/RTTY/PSK31. QSL via RADIO CLUB A.C.R.A GUADELOUPE, BP 126, Messagerie, Pointe-A-Pitre, Cedex 97110, Guadeloupe. Visit their Web page at:
http://site.voila.fr/acra-radioclub

KP2, U.S. VIRGIN ISLANDS. John, KP2/KL7JR, informs OPDX that he has been active from St. Croix, USVI (NA-106), since late October on most HF bands. He will continue his operations through the end of April 2005. He will be concentrating on 10, 12, 15, 17 and 20 meters (40 and 75 meters too). He mentions that he checks into the 14.247 DX Net most days after 2100z. His E-mail for skeds can be sent to: KL7JR@aol.com
QSL direct via his CBA w/SASE.

MD4, ISLE OF MAN. Operators David/G3NKC, Martin/G4XUM and Tim/M0BEW will be active as MD4K during the CQ WW 160m CW Contest (January 29-30th) as a Multi-Op entry. QSL via G3NKC.

QSL INFO AND NEWS.....
Gary, K7ZD, will handle QSL duties for Tony's (W4OI), 5K5Z, operation from last weekend's CQWW DX CW Contest and future operations from there.

He states, "Please be patient as I don't have the printed cards or logs in hand yet. I'll see Tony sometime in the next 2 weeks and we'll get things set up." QSL via the Bureau or direct with SAE & return postage is OK. Cards received with the "old" IRCs will be returned via the bureau. Stateside stations please consider sending a SASE rather than using the bureau - thanks! The logs may possibly be entered into the LoTW in the future, it has not been discussed yet with W4OI. Gary's address is: Gary McClellan, 3422 E Altadena Ave, Phoenix, Arizona 85028-2010 USA.

QSL A61AV/p via ON5NT: Ghis Penny, P.O. Box 93, BE-9700 Oudenaarde, Belgium. Activity was from Sirat Al Khawr (AS-124), and the operators were Mohammed/A61AV and Ghis/ON5NT.

A61AJ QSL UPDATE: George, K2UO, reports that he has received all contest logs for the CQWW SSB and CW Contests, and all QSLs received direct (with an SASE) have been answered. Incoming cards are being answered the same day as received. Cards received without SASE or via the bureau are answered via the bureau when there are enough to warrant the postage, so please be patient if you do not send return postage.
QSL A61AJ as follows:
North/South/Central America, Caribbean, U.S. possessions via K2UO
The rest of the world via DJ2MX.
ADDED NOTE: George mentions, "A box of over 1,000 cards sent directly to the UA bureau over one year ago was returned to me with no explanation, it was VERY beat up! I have resent these cards, this time via the ARRL outgoing bureau, hopefully they will be more successful at getting them delivered to the UA bureau."

QSL VO2AAA (November 24-28th) ONLY to K8DD's callbook address:
P.O. Box 88, Attica, MI 48412-9312.

NOT THE QSL MANAGER. Vlad, UA0ACG, is not the QSL Manager for JT1JA. He can answer QSLs for JT1JA "only" for activity for September 8-9th (2002). All other requests go direct to JT1JA in Mongolia.

NOT THE QSL MANAGER. Ron, AC7DX, reports that he has been receiving many requests for KH9/AH8H. He IS NOT nor has he ever been the QSL Manager for this station.

SOMETHING TO READ ON THE WEB. OPDX was informed that the story and pictures of the recent V6O operation from Pulap Island (OC-155) can be found on the Web at: http://www3.ocn.ne.jp/~iota/newpage90v6o.htm

SPECIAL EVENT. Wade, VE9WGS, is now active as VC9COAL between now and December 31st. Activity is to commemorate the 100th anniversary of the naming of Minto, New Brunswick, for the arrival of the railroad in 1904. Activity so far as been on 20 meters SSB betwen 1630-1700z. QSL via VE9WGS: Wade Smith, 96 Immigrant Rd, New Brunswick E4A 1B7, Canada.

ST, SUDAN (Update). Hugo, LA5YJ, informed OPDX last weekend that he was issued the callsign ST2YJ. He also mentioned that he has found a nice apartment were he can put up antennas (veritcals and or dipoles). He will

be active as work permits. This past week he was very active on 17 and 30 meters CW. Watch on/around 18068 kHz between 0700-0930z (also watch after 1530z). Watch on/around 10105 kHz between 1545-1845z (also as early as 0425z). QSL via LA4YW.

TN, REPUBLIC OF CONGO. Reports indicate that Baldur's, DJ6SI, next stop is here, and he will be active as TN6X until December 12th (possibly the 14th). Activity will be CW ONLY on 160-10 meters. QSL via his home callsign.

TO0, MARTINIQUE. Thomas, KC0W, will be active as TO0O from January 27th to February 13th. Look for him to be active in the CQ WW 160m CW Contest (January 29-30th) as a Single-Op/High-Power entry. QSL direct to KC0W (w/SASE or 1 USD).

VP2M, MONTSERRAT. Operators Mike/N9NS (VP2MNS), Pete/N0FW (VP2MW), Charlie/W6KK (VP2MKK) and John/N7CQQ (VP2MQQ) will be active from here until December 13th. The group participated in the ARRL 160 Meter CW Contest this past weekend as VP2MW and will also be in next weekend's ARRL 10 Meter Contest (December 11-12th) using the same callsign. Look for them to be active outside of the contest on all bands. QSL via all callsigns via W8QID. For more information and online logs which will be updated nightly, please visit the Web page at: http://www.wb8xx.com/vp2m

VU4, ANDAMAN ISLANDS (Update). VU4NRO and VU4RBI are now active. It was announced this past week that the National Institute of Amateur Radio will be the QSL Manager for this operation. QSLs should be sent to VU2NRO: National Institute of Amateur Radio, Raj Bhavan Road, Hyderabad 500082, India. Activity will last through December 31st. Reports indicate that the five operator team is operating three stations from three different locations. According to "The Daily DX", VU2MY, VU2NRO/JOS, VU2MYL and PY7ZZ were the first stations to work VU4RBI. Also reported is that "NO CW" operations have been made by the VU4 operators as this was being typed (1900z, Sunday). It seems the team is not sticking to the frequency suggestions on their Web page. Over past weekend activity was mostly on 20/15 meters SSB. However, there were QSNs on 17 meters. It was also reported that they do have plans to put their logs online, but specific details were not provided. It is suggested to watch their Web page for details. Web page is: http://www.niar.org

YA, AFGHANISTAN. Rene, DL2JRM, is expected to become active as YA7X between December 7th and January 5th. Activity will probably be on 160-10 meters CW/SSB. QSL via DL1JJI.

ZK1, NORTH AND SOUTH COOK ISLANDS. Magnus, SM6WET, informs OPDX that he and a team of operators will be active as ZK1WET, ZK1XMY, ZK1SDE and ZK1SDZ from North and South Cook Islands as follows:

Aitutaki Island (South Cook) - January 31st to February 17th
Manihiki Atoll (North Cook) - February 17-24th
Aitutaki Island (South Cook) - February 24th to March 3rd

The DXpedition will concentrate mostly on 17 and 20 meters, although there will be activity on 160-10 meters. Operations will be mostly SSB, but ZK1WET will be active on CW and RTTY. They will have monoband yagis for 10/17/20 meters and verticals for the other bands. Also, look for ZK1WET to be active in the CQWW RTTY WPX Contest. They plan on having a double sided QSL card printed for each station. Do not QSL via the Bureau. QSLing is preferred via M3SDE direct.

ZL, NEW ZEALAND. Serge, RA3XR, is now active as ZL/RA3XR until December 26th. He tells OPDX that he will be active on CW/SSB/RTTY/PSK modes on HF bands. Over the past weekend he was spotted on 40/20/15 meters CW. QSL via his home call.

ZP0, PARAGUAY. Tomas, ZP5AZL, will be active as ZP0R in next weekend's ARRL 10 Meter Contest (December 11-12th) as a Single-Op entry. QSL via W3HNK.

What definition of SPAM includes that post?

If you're so worried about "wasted bandwidth", why did you repost the
entire article just to add your two-line comment? Why did you read it in
the first place?

Here's a clue for you:

Killfile; learn to use it.

I'm confused. Does this mean that the American Nazi Party has an
amateur radio club?

We used to have a large collection of Nazi's here until Richard Butler
was run out of town and croaked. I know that they did a lot of illegal
shortwave broadcasting from Hayden Lake and Sandpoint, Idaho and
Spokane, Washington. But I wasn't aware that they had an actual ham club.

Newsgroup: rec.radio.amateur.misc
Date: 2004-12-06 20:16:53 UTC
From: Noise From Afar <NFA@wayoutdare.net>
Message-ID: <u83td.200591$hj.42661@fed1read07>
Source record: 55066

Other than some RARE propagation openings on 2M such as ducting (some others too) , the range for 2M is essentially line of sight and depends on height of the receiving antenna and the transmitting antenna, antenna gains, power, noise firgure and some other considerations.

Essentially line of sight LOS -- just like FM.

With good antennas and some altitude -- everyday contacts of up to 100 miles can be made.

Regarding the RARE propagation openings -- you can wait months (years) for these.

A rough idea of LOS transmitter range can be found at URL:

http://www.artscipub.com/simpleton/simp.range.html

Search e-bay for an all mde 2M transceiver for an idea of price.

And you must have the proper class of Ham license to transmit on any Ham band.

To see the principles of Single Side Band -- see URL:
http://www.williamson-labs.com/480_ssb.htm
But be aware of their description of long range communications applies to HF -- not 2M

QTY DESCRIPTION

1 60 FT ROHN 25g TOWER w/pointed top section
and rotator plate
1 ROHN 25g BASE PLATE
1 ROHN 25g, HB25CS, HOUSE BRAKET
1 Icom 551 6m all mode transceiver (works)
1 Icom 211 2m all mode transceiver (works)
1 Heathkit SB200 Amplifier (220v)
1 Ham M Rotator (cked by Norm)
1 Tail-twister Rotator (cked by Norm)
1 Cushcraft R7000 Vertical (40-6)
1 Cushcraft 80m kit for R7000 (never assembled)
1 LJE GP1, RADIAL PLATE FOR 2" MAST, 24 RADIALS
1 Minkota, mdl: 765 MX, 12v remote trolling Motor
(needs new prop)
1 18" Golden Rule for tournament fishing
1pr Replacement 8" Steel Wheels w/rubber tires
3ea ADULT MDL: KA1, KAPOK BUOYANT VEST,
(never in water), LIFE JACKETS.
1 Micronta FS/SWR Meter
1 B&W Dipole Connector [V shape]
1 Bag of various (approximately 10) Xtals, FT243
variety, HAM band frequencies.
1 3/8x24, Spring mount with 2 springs,
11ea Aluminum panels of sorts, 6"x12"x1/8"
3ea Packages of NICE-DUCT, brown color,
3/8"Hx5/8"Wx60"L, each package has 5 pc
totaling 25 feet.
1 12v WHINCH
2ea 50FT ROLLS OF RG6, 75 OHM COAX WITH "F"
CONNECTORS
1 25FT ROLL OF RG6, 75 OHM WITH CONNECTORS
1 CUSHCRAFT BASE RING FOR 10M RINGO
1 SHAKESPEAR FIBERGLASS, 144-174Mhz ANT,
SINGLE HOLE MOUNT
1 QUADSTAR 2M HALO
1 Motorola, MITREK, MDL: T81JJA4900BK, WITH
CONTROL & POWER CABLE - NO CONTROL BOX,
NO MIC OR BOOK (AS IS NOT TESTED)
1 Radio Shack, 8", Antenna Mast Wall Mounting BKT
1 Motorola, MICOR, mdl: 02033a, WITH BOTH CONTROL
CABLE & CONTROL HEAD AND POWER CORD (NO
MIC OR BOOK) (AS IS NOT TESTED)

1 AMPEX 8" REEL TO REEL TAPE RECORDER
1 INTERMATIC TIME CLOCK, 110v
1 SCHUMACHER 10/30/50, BATTERY CHARGER, 12v
1 CROUSE-HINDS 3 LAMP, (RED/YELLOW/GREEN), TRAFFIC
SIGNAL - ANTIQUE - WORKS GREAT!
1 AIPHONE AH108, 10W, 8 OHM, HORN SPKR.
43ea INNOVATIVE SIMPLICITY, MDL: CREST, 2-JACK WALL
PLATES WITH THE JACKS FOR TELCO
2ea SMALL PEDESTAL CAMERA MOUNTS
8ea GARDEN HOSE WALL BRACKETS
1 MOTOROLA, HANDIE-TALKIE POCKET RECEIVER,
MDL: HO3ANC-1000A, FREQ: 152MHZ, NEEDS NEW
BATTERIES, (NO MANUALS) (ANTIQUE)
1 MOTOROLA, HT TRANSMITTER, MDL: Z23NAC-1000A,
WITH MOTOROLA LEATHER CASE & MICROPHONE
AND COLLASPABLE ANTENNTA, NEEDS NEW
BATTERIES,(NO MANUALS) (ANTIQUE)
1 MOTOROLA, HT220, BRICK, 6 CH, W/MOTOROLA
SPEAKER-MIC, ON HAM BANDS, NEEDS NEW
BATTERY.(NO MANUALS)
1 MOTOROLA DESK CHARGER FOR HT220
(NO MANUALS)

If you are interested in any of these items, please send me an email with your offer. If I think it is reasonable, we will do business. If not then I will tell you.

I am in Montgomery County, Maryland, and would perfer not to have to ship, but if I do - please figure postage from 20895.

73's

Generally true, but this past summer, in July, I was talking all over
the East/Central US on 2m and 6m, via some kind of bizarre propagation.
SSB will get you more bang for the buck than FM will, every time. And
CW will do even better.

If I remember right, if you have 100W FM, you will do as well as 25W
SSB, which will do as well as 4W CW.

Message-ID: <5w8td.200651$hj.107109@fed1read07>
Source record: 55073

>Someone wrote Generally true, but this past summer, in July, I was talking
>all over the East/Central US on 2m and 6m, via some kind of bizarre
>propagation.

Yep --- some of the rare propagation modes mentioned by the original
poster -- Yours was probably sporadic E
But as the original poster said -- it can be months before it may occur.

Here is the drill for sporadic propagation seasons.

Studies over many years for sporadic E propagation have shown peak activity
in the summer months with another smaller peak in the winter. Nearly 80% of
the yearly totals of Es propagation take place from May through August, with
maximums occurring in June or July with June being the more common. Some Es
can take place in late April and early September.
A lower but significant occurrence takes place in the month of December.
March usually exhibits a definite minimum of Es. However, Es can occur on
ANY DAY OF THE YEAR and these are termed off-peak openings.

However sporadic E propagation can produce very strong signals on the first
hop and I have worked many 6M stations several hundred miles away on FM,
when asked they sed they only had FM capability. So when you can work
sporadic E with SSB -- also try the FM segment -- I have worked some rare
states this way. Ditto of course with CW usually down band from the SSB
segment.

When multi-hop Sporadic E occurs -- one can work all over the USA

But SSB will do better and CW will get thru when the others failed. Your
power figures are about right.
--
The Modulator -- RF Gotta Go Somewhere

Worked 48 of the 50 States on 6M -- mostly SSB, Some FM and Some CW

With 100w and an old 19 element beam on the roof of the house (up 35 ft), I can work 150 mile circle pretty regularly with ssb and cw.

I had lots of fun with 10 watts and a homebrew 7 element yagi for years though.

Sure beats repeaters IMHO!

I guess you are joking, but if not - do not confuse randomness with
probability. Mathematically they are completely different things, while they
seem similar in everyday life.

I just installed a dipole antenna using Belden coax 9913-F with pl-259 to so-234(?) connectors. I read online the mention of coax seal to keep water out. Is this necessary? Is there a common substance around the house that may work? Thank you.

2671. Winterfest 2005 -- Loveland Colorado

Please plan to attend Winterfest 2005, northern Colorado's
best winter hamfest and electronics swapmeet.

Saturday, January 15, 2005.
Doors open to the public at 8:00 am.

Admission of $5.00
Vendor tables available.
Door prizes (one door prize ticket included with admission)

Location:
McMillian Building at the old fairgrounds.
700 S. Railroad Ave
Loveland, Colorado

Contact me for information

kc0atc@qsl.net

I've used plastic electrician's tape to wrap the outside of coaxial
connectors, and it has generally done a good job of keeping the water
out. It doesn't attack the coax's insulation either, and is easily
removed in case you need to disassemble or replace connectors.

Seal it with GE RTV Window and Door seal.
It's in a blue caulking-style tube at any Home
Depot for about $3.95. Be sure to use the
CLEAR formula. Do not use the black, grey
or white stuff as the pigments (colors) they used
to shade the RTV in this version is RF-conductive.
Dab it around where the coax goes into the PL-259
and at the juncture of the ring and collar. Also apply
it when it's not going to rain for 24 hours as it takes
that long to dry thru.

Good point Bill, but remember that the Russians were using alot of U.S. goods in their efforts to defeat Nazi Germany. If it werent for the U.S. Merchant Marine they would not have had the initial supplies to keep up the fight.

I believe it was a total team effort on all parts. No one nation should take ownership of the overall defeat of a tyrant or a tyranical government of the time. Each had their own reason for entering and fighting and that is what should be respected.

I probably shouldnt bring this up but remember that the soviets did sign a
non-aggression act/treaty with nazi germany. They were only brought into
the war based on Hitlers ignorance in attacking them. Had he not broken
the treaty I would find it hard to believe that they would have entered
and sacrificed so many and and so much for the "western" powers. Remember
nazi germany just about took stalingrad.

They didn't "sacrifice ....for the western powers." We didn't sacrifice for them. Heck, we were not even formal allies (the official term was "associated Powers"). I never mentioned motivation. There seems to a common bad habit of associating "goodness" on one hand and "bravery" and "sacrifice" on the other.

Paul

Poor Lardass, you made the spoofing of the ID and the threatening phone call, your buddy Harry Schwartz confirmed it, since you told him about it in your gay Yahoo! chat room.

Liars are liars, Wogie. Of course it was YOU who spoofed the calls over the name of Lloyd...you have a penchant for doing so.
You called Jon, you forged email addresses, and it is you who casts the blame on others while you snipe at others from the cover of your window blinds.

Easy to see, Wogie.

What an ASS!

I realize that very few in the UK have the twisted view that you express.

However A crowded country smaller than the state of Oregon, Deeply in debt,
Population about 1.5 times that of California, is not a threat to the US.

Lets see, population is 60,270,708 in UK, vs. 293,027,571 in US.
So your out numbered 5/1
17% of your people are below the poverty line.
Median income is abt $10,000 les than the US.

Your almost entirely unarmed, Treated like children by your government.
You have no Constitution nor a bill of rights.

--
Be not afraid of any man
Who walks beneath the skies,
For be he tall or be he strong,
I will equalize.
- Samuel Colt

--
Laws that forbid the carrying of arms...
disarm only those who are neither inclined
nor determined to commit crimes...
Such laws make things worse for the
assaulted and better for the assailants;
they serve rather to encourage than to
prevent homicides, for an unarmed man
may be attacked with greater confidence
than an armed man.

--- Jefferson's "Commonplace Book,"
1774-1776,
quoting from On Crimes and Punishment,
by criminologist Cesare Beccaria, 1764

--
"Do not meddle in the affairs of Dragons,
for you are crunchy and

taste good with ketchup!"

Having traveled in New England (and seen my town government propose
replacing our main road junction with a roundabout...) I think I can say
with confidence roundabouts are the reason for our countries'
disagreements of 1776 and 1812 in the first place....

When I email to that address it says "undeliverable"?

Thanks for responding to my posting. I am new to ham. I have a 2 meter radio mobile. I have been thinking of getting naother one. Is it better to use base or mobile? Have also been thinking of getting into HF. Is this more "fun" than 2 meters.

On another issue I have a little room to make a small base station in my bonus room upstairs. I have a 20 feet or so tower with my tv antenna on it. Can I mount a 2 or 10 meter antenna on this tower?
I appreciate your advice!

Sir Walter -- your "Revocation of the USA independence" is priceless -- UK satire at its best.
Bennie Hill would be pleased. Deserves a place on the USA Comedy Hour TV show.

From the responses so far it has gone over the heads of most of the responders.

However tell your tax collectors not to wear red coats this time and don't bother to send HMS Serapis.
We have a new ship -- DDG-53 USS JOHN PAUL JONES

And from the declaration of independence:

"We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.'
--
See you in LaJolla

Gotta go -- The Dallas Cowpersons are playing some "Rounders" on TV

I post, therefore I am

My recollection is that I've read all this before..Perhaps several of years back. Don't believe Walt deserves the credit for it.

Personally, I find anything more fun than 2m fm, but that's just me.

I say go for it.

Just about time you're ready to throw the thing in the garbage because there aren't many stations on right now, BANG!, you'll talk to someone in California that's breaking your speaker ... then someone in Columbia, South America. Then there will be a contest, and it will blow your mind just how many stations you can work.
That's fun !

Start off with a CB antenna, or wire dipole and keep checking the band. We're at the bottom of the solar cycle, so there aren't many stations on, but there are some. As the sunspots increase, more and more stations can be worked and by then you'll have the knack of it and you'll be hooked. I recall when I first got on 10m, I had a Drake C line running 100w and a used 4 element beam up on the roof of the house turned with an old TV antenna rotator pulled from the trash.. I had the radio at the foot of my bed, and I remember sitting on the end of my bed, talking to a TON of Japanese stations that were so loud, I could hear the dog barking in the background, or their doorbell ringing.

That hooked me!

Go for it.

"breaddead" - LLoyd hasn't got anything upstairs in the oven

"defenseive" - Lardass is "defensive" of his ignorance

"counter-offenseive" - When LARDASS LLoyds attack

"nights" - Athens ASSHOLE was referring to last "night's" masturbation session

"I forget to set the playlist in Winamp to repeat!" - Mongolloyd also "forgets" the use of past tense, maybe he forgot!

"Techincal" - Lloyd just hates those "technical" things

"Dalkes" - Lloyd's granddad remembers when movies became "talkies" too bad LARDASS learned to Dalk <sic>

"That it!" - When Mongolloyds get real mad, they talk like Tor Johnson

"Woger" - LARDASS closely identifies with Elmer Fudd with his lack of hair and all

"decide on weather or not" - It's always "stormy weather" with Lloyd deciding "whether" or not to use correct English

"can not" - Mongolloyd is wondering how he "cannot" seem to get ahead in life

"is'nt" - "Isn't" LARDASS cute when he is mad?

"PAINFULL" - How LARDASS' bathroom scale feels when he steps on it in the morning, real "painful"

"I wish for Roger Wisemand" - Lloyd liked thosed thingd ford Rogerd

"alot" - Davies dreams he can communicate in English a lot

"thier" - Lavender Lloyd sure does lisp after a night behind the dumpster

"dont" - Lloyd says "dont", the rest of the world says "don't"

"Isreal" - Is FATASS Lloyd's retardation for real, or can he blame Israel?

"juist jelous" "extermenate" - A three for one post Athens Asshole axiom

"footting" - What LARDASS doesn't have, an equal "footing" anywhere

"Cant" - Emmanuel?

"th" - When Lloyd gets nervous, he stutte, er stutters

"enfighting" - Lloyd's two brain cells are infighting for control of his stupidity

"YOU STUPID JEW!" - Wasn't Jesus Jewish, so called Christian LLoyd?

"Tonite" - There's nothing in Lloyd's brain "tonight" or any night

"segmant" - What Lloyd's communications are, only sentence "segments"

"I just listening" - Too bad he doesn't listen to his poor English

"buffon" - The Athens, Alabama "buffoon" strikes again!

"museium" - Where LARDASS LLoyd keeps his "muse"

"nastey" - How everybody describes LARDASS' body stench, especially in the ghetto

"loose" - Lloyd's description of his spinchter muscles...

"wont" - Lloyd refuses to learn English, it's Lloyd's "wont"

"awhile" - It will be "a while" before Davies gets a clue

"freinds" - Lloyd's conglomeration of "friends" and "fiends"

"thier" - "There" just isn't any hope for LARDASS Lloyd "ill-educated" Davies

"backstabers" - Lloyd's version of the OJays' hit

"becuase" - Home of the "Deliverance Extras" spelling by LARDASS Lloyd

"obselete" - What LARDASS thinking is to him, others see it as 'obsolete'.....

"belive" - What fools like LARDASS Lloyd "believes"

"thier" - Ill-educated Xtian LARDASS Lloyd shows off his language skills!

"marshalls" - Mongolloyd spell "marshals" real good!

Wisemand - LARDASSd fucksd upd againd

"compay" - Mongolloyd never gets any female "compay," while others do get "company"

" But when we are winning," DUMBFUCK, YOU have NEVER WON anything in your miserable life!

"and do the nasty!" You don't really know what that means, do you, 30 year old VIRGIN?

"It's does" - Mongolloyd use good English

"momnet" - LARDASS Lloyd Davies misses his dead "momnet" for a "moment"

"seriuosly" - Lavender Lad President Mongolloyd wants to be taken "seriously" instead of "seriuosly"

"annouced" - Mongolloyd "announces" his stupidity again

"tonite" - Davies never lets his lack of education stop him from announcing to the world he's a fucking imbecile!

"nite" - When LARDASS Lloyd molests those kids he makes them say "nite, nite" at "night"

"weldare" - Calling Dr. Weldare, LARDASS needs his head out of his FATASS....put it on his welfare bill

"so fuck of" - When Mongolloyds who have man tits talk tough......

"fukcing funney" - Alabama deliverance extra Davies speak

"pictrue" - "Picture" yourself as a Davies Mongolloyd

"isseus" - Davies has "issues" too many to list here

"resortjng" - Is Lloyd from Finland?

"attsxks" - When LARDASS Davies "attacks" he uses illiteracy

"basturds"- What mental illness patient LARDASS Lloyd calls his nurses

"shkt" - Mongolloyd Davies' "Skittles", he likes that "Hershey rainbow"

"law suit" - LARDASS never leaves his HUD apartment with out his law suit

"opinionn" - When LARDASSn postsn whiln drunkn

"intrenet harrasssmint" - Tries to make LARDASS Lloyd's rotting teeth feel fresh

"sneeky" - The teachers always "sneaked" Lloyd through the next grade

"that' wasnet" - LLoyd was out that year of school that they went over English grammar

idiout! - "Lloyid" <sic> strikes out again!

"speling" - Mongolloyd Davies the "spelling" bee champ of the retards!

"reas isseus instaed" - Davies talking out of that cheap beer again

"atttacking" - LARDASS Lloyd stutters when he gets upset.....ttttt.....

"challegne" - When Mongolloyds drink and post

"metnal" - Mongolloyd just doesn't have the "mental" ability to debate......

"debste" - What Lloyd's mommy did to him in the bathtub

"cahllenge" - Mongolloyd speak for "call" and "challenge"

"basturds" - LLoyd ,Amanda's illegitimate "bastard" sure does have a scat fetish

"morsd" - Whend Daviesd drinkd andd postd

"wont" - It is Mongolloyd's "wont" to be stupid, "won't " you let him?

"youd" - Oops, LARDASS did it again!

"poinion" - Must be an Athens Alabama "Deliverance" thing

"Woger Wiseman"- LARDASS Lloyd's got that cocksucker's lisp

"isnt" - "Isn't" LARDASS cute when he slobbers?

"worfh" - Davies' cocksucking lisp has returned

"waset of spaceda" - When Lloyd's only friend Colt 45 malt liquor kicks in

"Oppulant" - The only thing "opulent" in LARDASS is that he is rich in ignorance

"obly" - LARDASS lisp from cocksucking shows when he tries to say his favorite fag artist "Moby"

"wood" - LARDASS LLOYD'S head "would" be made of "wood"

"dserve" - LARDASS lives in that ghetto where they say he sure does "dserve" those pizzas

"frum" - LARDASS LLOYD DAVIES wonders where his real father is "from"

"DISCUST" - Mongolloyd Davies' command of the English language is "disgusting"

"You worthless coward are scared of debating me." - Mongolloyd make good sentence

"jellous" - Most of LARDASS Lloyd's cellulite body is "jealous" of skinny, in shape people

"It just didn't wok out"
"wok out" - When LARDASS tried to stir fry those nutsacks for pizza topping, Pappa John's terminated him saying he didn't "work out".

"entact" - LARDASS' single brain cell isn't "intact" either.

"empahis" - Notice how LARDASS Lloyd's "emphasis" is always on his fucking stupidity.

"Fuck all fo you" - Christian LARDASS Lloyd showing that Jesus spirit.....

"bllod" - How LARDASS Lloyd spells "blood"

"did'nt" - LARDASS "didn't" do very well in school

"PLEASE by a clue" - LARDASS Lloyd's parents couldn't even "buy" him an education

"extrodinare!" - LARDASS is a moron "Extraordinaire"

"unsubsribe" - Mongolloyd Davies "subscribes" to the theory that ignorance is bliss...he must be in heaven

"Must've struck a cord" - LARDASS confuses his favorite sex fetish of tying his penis with a
light cord and masturbating to the word "chord".

"dumass" - Dumbass Davies trips and falls in shit again.

"Them two bigtime losers!" - Mongolloyd mentally ill Davies makes good sentence!

"straming" - Lardass usually has to wash his sheets from the "stream" of piss when he wets the bed or not given his filthy HUD apartment

"surpassinf" - LARDASS is always "surpassing" his previous levels of stupidity.

"pleanty" - <guffaw!> "Plenty" of stupidity coming from LARDASS Lloyd.

"Cause i'll have law lock you up and throw away the key!" - Mongolloyd talk tough!

"pome" - When LARDASS WADSWORTHLESS Stubbyfellow writes a "poem"

"Once she here's my show" - Most people hears a show, LARDASS "here's" them!

"forgotton" - LARDASS has "forgotten" what he was taught in special Ed

"I want your seriousness" - LARDASS does his take on "I want your sex"

"I did'nt ask for your fucking grammer checking!" - LARDASS Lloyd revels in his ignorance!

"agrument" - When the voices in LARDASS Lloyd's mentally ill head collide they have an "argument"

"craetive" - Mongolloyd Davies isn't very "creative" with his stupidity, however.

"You could have posted it, for we know!" - LARDASS make good sentence!

"bottem" - Mongolloyd likes those little boys' "bottoms" from hanging with Steve Holsten

"James Wickstrom talked about tonite that out threre, thier Sherriff's department" - Mongolloyd
shows off those Pulitzer prize writing skills.

"bring yer cents" - Mongolloyd show how he flunked out of school because he had no "sense"

"You peeks out" - LARDASS Lloyd and stupidity a symbiotic relationship.

"Be thier" - LARDASS Lloyd make good sentence!

"If you pussys have balls you confront me!!! Deep down you are scared of me. You our jellous
because I am the great almighty Time Lord!!!!
The Time Lord always wins in the end." - Does it really need to be said about Mongolloyd Davies?

"yerself", "hisself" - LARDASS picked up his language skills or lack thereof from the niggers his mommy Amanda serviced.

"I lost TEN POUNDS on my diet simce first of the year!" - Too bad LARDASS didn't gain any language skills

"The best Amatuer Radio talk show ever!" - Chosen 5 to 1 over literacy by other ill-educated morons and Mongolloyd

"All of my Daleks have been dispached!" - Too bad some extra brain neurons haven't, Mongolloyd.

"satillite" - When LARDASS met the space between his ears

"Tuseday" - LARDASS' usual day to wear his pink tutu

"I am 210 punds now!" - LARDASS lies and fucks up again!

"jelous" - LARDASS Lloyd is "jealous" of those who can spell, read, and write.

"peoples" - LARDASS Lloyd the "people's" choice of the Biggest L-O-S-E-R!

"curtians" - LARDASS LLOYD DAVIES uses those "curtains" in his filthy apartment as a masturbation rag

"depsised" - Mongolloyd Davies, who the entire real ham community has "despised" for his lack of ability
to pass a simple 5 wpm code test or General theory

"sicker" - When Lloyd Davies has a mouth full of cum he can't say "sticker"

"liceneses" - Mongolloyd Davies has one of those exclusive "licenses" on stupidity

"isseus" - LARDASS has "issues" with people of intelligence.

"conquor" - Mentally ill LARDASS Lloyd has yet to "conquer" his obesity and mental illness

"crakheads" - Retard Davies make good sentence!

"servent" - Roger Wiseman's willing "servant" makes another gaffe.

"lesibens" - When Benjamins take the wild side...the "lesbians" don't care, though!

"Los Angles" - Mongolloyd has the wrong "angle" about "Los Angeles"

"busses" - Do they take the motored "buses" or do they take the

"thier" - You say "their," Lardass says "thier".... to-may-to, to-mah-to.....

"eductional" - LARDASS Lloyd's writing is "educational" on how severe illiteracy is in his family.

"She sounded like she really whappy to here from me." - Mongolloyd get rejected again!

"This is morning I weigh at 207 pounds. This should prove to you, that I can succeed if I put my
mind to it. I know some your stupid critics can't see that, but I'm not here to please you." -
- LARDASS makes the "huh?" factor rise.

"This looks much more like sexy Lloyd" - Porky Pig lookalike stubby tubby Davies dreams he looks like a skinny, tall Billy Zane

"I figured you the thought of me owning..." - Lardass dreams the impossible dream of thought

"I took you a long hour and a several minutes..." - Too bad LARDASS Lloyd didn't take and pass English

"I get a laugh over you!" - Mongolloyd make good sentence!

"did'nt" - "Didn't" Lardass ever pass any school subject?

"Proves to show" - Lavender Lloyd proves he is an imbecile

"It' paid off" - Alcoholic LARDASS Lloyd's bar and utility bills never are though.

"I wear if with" - Davies wears his stupidity well

"You need to get al ife and a job." Mongolloyd retardo Davies needs to get English lessons and
not dream of an "Al ife" with "Al Queda"

"I've never fucking pretending attorneys!" - LARDASSclown Davies never had to pretend to be stupid, either!

"...what your life must me like..." - Mongolloyd's life of pizza delivery and trashcan robots is really something
to want, too, isn't it?

"manor" - Lardassclown Davies' "manners" are like those of a hog....

"Christien" - Poor LARDASS Davies, he's shows why ignorance is bliss in the eyes of the Lord.

"reely" - Mongolloyd Davies is "really" stupid, isn't he?

"please don't imposter me more" - Mongolloyd make good sentence!

"distastful" - A description of LARDASSCLOWN DAVIES' eating habits.

"commnet" - Most people make "comments," ill-educated Lloyd Davies makes "commnets".

"None of you refuse to tell me who you are." - Huh, Mongolloyd?

"Millinium" - Even after a "millennium" LARDASS couldn't be smart!

"afriad" - LARDASSclown Davies isn't too smart, I'm "afraid"

"powerfull" - Mongolloyd Davies sure has a "powerful" command of the English language.

�conquor� - Lardass Lloyd has yet to �conquer� his idiocy.

�I always new that your stupidity would trip you up, Mr. Wiseman.� - I just �knew� Llardass Lloyd couldn�t pose as �Christy Davies� without fucking it up and outing himself.

�I have given it some though and decided to come back� - Mongolloyd has never given anything any �thought.� (from another �I�m leaving� speech/lie)

�usaul� - As �usual� Lardass lloyd Davies fucks up!

�Secwet Woger � Llardass Llavender Llad Lloyd�s been sucking so many cocks he�s got a lisp!

�douters� - Even though he has his �doubters�, it�s �doubtful� Llardass Lloyd has an I.Q. over 70.

"bypolar" - Mongolloyd Davies is a �bipolar bisexual�.

"desperite" - Lardass Lloyd is so �desperate� to win at something, anything.

"situtation" - Most people get in �situations, � but not our total fuck-up Lloyd.

"aholt" - Lardass Lloyd usually gets �a hold� of himself on a Saturday night, since he has no date!

"mysteriuos" - Mongolloyd Davies, ?mysterious? survivor of a coat hanger abortion attempt.

"I've did" - Most people say " I did"

"Woger" - When cocksucking, lisping fags try to say " Roger."

"for sometime" - Lardass has been a mentally ill retard "for some time" now.

"mommie's" - When Mongolloyds say "Mommy?s" as in "Mommy's house."

"drop out" - Lloyd was a High school and college " dropout."

"backpedalling" - "Backpedaling" is what Lardass does a lot of.

"Maybe two years back" - Mongolloyd speak.

"outted" - Lardass Lloyd's illteracy at work.

"I've riddled Woger for years as Arf! Arf!" - (Mongolloyd is Arf!Arf!)

"self esteme" - One thng is for sure, Lardass has it..."low self esteem," that is.
"short comings" - Lardass has many, many "shortcomings."
"yahoo" - Lardass always goes into the "Yahoo!" gay chat rooms.
"The truth hurts you see" - So does reading your mangling of the English language, Lardass.

"His stupidity can not be disguised for long." - Lardass' stupidity "cannot" be disquised at all.

"entireity" - Lardass is the embodiment of stupidity in its' "entirety."

"bothe" - Lardass is "both" stupid and retarded.

"got hime" - Lardass has got "him" a case of the dumbass!

"evelope" - Mongolloyd pushes the stupidity "envelope" to the max.

"chiicken" - Lardass Lloyd should eat more "chicken" instead of leftover pizzas.

"dont" - "Don't" ever improve your English skills, Lardass!

"likign" - Huh? More Mongolloyd Ebonics.
"you ignorant spawn of satin" - Lardass ironically confesses his love of wearing lace!

"powerfull" - Mongolloyd's brain cell isn't "powerful" enough to light a christmas light.

Mongolloyd make good spells!

FCC Proposes Additional Fine for Former California Amateur Licensee

NEWINGTON, CT, Dec 3, 2004--Fast on the heels of a $10,000 Forfeiture Order (FO), the FCC has now proposed to fine Jack Gerritsen, ex-KG6IRO, of Bell, California, an additional $21,000 for interfering with Amateur Radio communications. The target of numerous complaints of insistent interference to numerous ham radio repeaters, Gerritsen already faces a $10,000 fine the FCC affirmed in October. The latest proposed fine stems from further specific alleged instances of interference between June and September of this year.

"Gerritsen's threats against other operators and his abusive use of amateur frequencies are the antithesis of good amateur practice and engineering," the FCC said in a Notice of Apparent Liability (NAL) released December 2. "Gerritsen announced to authorized amateur users that he intended to interfere with their transmissions and then proceeded to cause such interference." Based on the information before it, the FCC said it finds that Gerritsen willfully and repeatedly violated §333 of the Communications Act of 1934 by maliciously interfering with the communications of authorized Amateur Service users.

In 2001, the FCC's Wireless Telecommunications Bureau (WTB) swiftly rescinded its Amateur Radio license grant to Gerritsen after learning of his earlier state conviction for interfering with police communications. As a result of the conviction, which he's appealed, Gerritsen ultimately spent some time in jail. He has continued to maintain that the FCC can't take away his operating privileges without a hearing, and that he still has a ham ticket.

Gerritsen's now-pending Amateur Radio application is back in the hands of the WTB, which also will decide the fate of his General Mobile Radio Service (GMRS) license. The FCC set aside that grant last fall because of Gerritsen's alleged continued unlicensed operation and deliberate interference. A Hearing Designation Order for Gerritsen is said to be working its way through the FCC.

In its December 2 NAL, the Commission cited three specific instances of interference attributed to Gerritsen and mentioned several others in proposing the huge fine, which includes an "upward adjustment" from the base forfeiture amount of $7000. The NAL notes that in determining a fine, the Commission may consider the nature, circumstances, extent and gravity of the alleged violations as well as the suspected violator's history of prior offenses and degree of culpability. "Despite warnings and a prior NAL and Forfeiture Order, Gerritsen's unauthorized willful

and malicious interfering radio operations have been ongoing for several months," said the NAL, signed by FCC Los Angeles Office District Director Catherine Deaton.

In one instance in September, the FCC said, a complaint from an ARRL Official Observer alleged that Gerritsen "deliberately and maliciously interfered with the Young Hams Net" on a 2-meter repeater. "The complaint alleged that the prerecorded messages transmitted by Gerritsen were so intense and vile they were reported to have reduced one of the younger participants to tears," the NAL recounted. On other occasions, an individual identifying himself as Jack Gerritsen and/or using the KG6IRO call sign, has monopolized various LA-area repeaters for long periods, the FCC said, preventing other users from accessing the machines.

Several times, FCC agents have tracked interfering transmissions to Gerritsen's residence. Commission representatives have advised him that he does not have authority to transmit on amateur frequencies and warned him to keep off the ham bands.

Unconfirmed but generally reliable reports say Gerritsen has not been heard on LA-area repeaters for more than two weeks now, and there's some evidence that he may be staying south of the US border--at least for the time being. He has 30 days to pay or appeal the proposed fine.

I don't think we're at the bottom yet, but no one will know that until they look at the graphs after the fact.

Your TV tower would be a great place for your antenna, keep it a few feet away from the TV antenna though.

FYI, the ARRL 10 meter contest is this comming weekend, so if you have a receiver that's capable of listening to 28mhz, you'll get a taste of what it has to offer, there will be a TON of activity.

of Bell, California, an additional $21,000 for interfering with Amateur
Radio communications.

Do you know if the infamous L.A. 41 meter pirate has ever been
caught? Seems like he has been running 10 KW on 7 mHz and
thumbing his nose at the FCC for years now.

The solar cycle is going down -- see URL:
http://www.dxlc.com/solar/solcycle.html

Cycle 23 started in May 1996 with the monthly SSN at 8.0 and peaked in April 2000 at 120.8.
The next solar minimum will likely occur sometime in 2006 with cycle 24 peaking in 2010.

Yes you can make your own antenna and put it on the TV tower -- just keep it away from the TV antenna to avoid interaction.

Yes u can build your own antenna See Antenna calculator at URL:
http://ac3l.com/antenna.htm

You do know the FCC gave KV4FZ back his ham license within
a year after taking it away, dont you? Check qrz.com
After he jammed the public service nets for 35 years, they took his
license for less than a year and gave it back to him. A real enforcement
example?!

The trouble with the 98% of USA citizens who are not aware of the existence of the rest of the world, or the damage caused by world-wide indiscriminate use of their weapons of mass destruction, is that they are far too childishly patriotic. They natuarally believe their own distorted, hopelessly biased propaganda, fundamentally generated by their international oil and energy, atmospheric-polluting companies.

Iraq, Palestine and other middle-eastern and central Asian countries are heading, slow-motion, towards another Vietnam, Cambodia and other places left poisoned and in ruins. Your boys in the armed services will return home, not necessarily all in black bags, but in the form of many thousands of unemployed hillibillies, drug addicts, detested outcasts of society.

But it need not end in that way. You are all-powerful and rich. Just find some teachers and educate yourselves before it's too late. For everybody's sake on this small overepopulated, underfed Earth.

Why, recently when Verizon switched my cellphone with
another subscriber who was adding calls to my bill from strange
destinations 100s of miles away, the Verizon technician
assured me that my 600 milliwat phone 1.9Ghz was just connecting up
over hills and valleys to a tower at that far away destination. And you
Hams are using 100 watts...Geez

Typically the numbers in an Armature Radio callsign designates the radio
district the station is located. A "6" is exclusively for California, an "8"
is for Michigan, Ohio, and West Virginia. However for some time the FCC has
allowed people to move to another radio district without requiring a new
callsign to be assigned.

Oh btw Jay. I had to dis-assemble my 10 K, move it, and re-install it.

Flying colors, man. I marked it with a sharpie first, and it went right
back together like it did when it was new.

Nice antenna, Jay.

As a Ham I can very easily talk thru a 2M Ham repeater (5600 feet altitude) with a half watt of power and a rubber duck antenna.
The repeater has a solid local coverage of 2000 square miles and out to 150 mile range in some cases.
The repeater power is about 10 Watts.

Also many Ham repeaters are linked and can cover several states. Several hundred miles via long range linking. No wires or satellites involved

Also I can invoke IRLP or Echolink thru a local repeater and talk from the repeater to the internet to anywhere in the world with other Hams. Again 500 milliwatts and a rubber duck antenna. Yes I know you can do that with your computer, but Hams can be just about anywhere and accomplish that with a 1/2 Watt transceiver

A recent incident in California found a hiker in dire distress and in need of rescue -- the cell phone was useless -- couldn't find a nearbt tower. But a Ham in the hiking party raised a Ham repeater 90 miles away and a helicopter arrived and saved the hikers life.

During dire emergencies -- hurricanes, earthquakes -- the cell phones are overloaded or out of service, but many Ham repeaters resort to battery power and stay operational. Both cell phones and Ham radio has its place.

I use 100 Watts when I am on the HF bands using voice, morse code, or data to make contacts word wide direct (not a hilltop repeater or satellite). I have also made world wide HF contacts with low power - 5 watts -- longest was from Califonia to South Africa about 10,000 miles. Yes I have a good antenna and had superb propagation.

If that helps you -- so inform your Verizon technician

Hams have had repeaters for decades -- easily 35 years plus.
And with very low power HF since the early 1900's

Perhaps now you are intereted in an Amateur Radio License -- see URL:
http://www.arrl.org/hamradio.html

I post, therefore I am

Amazing...only one year loss of license. I don't know why the FCC is so reluctant to take decisive action and so slow to react. Maybe the staff is gun shy from all the free marketeers that have run the commission. The FCC has seen its influence whittled back by changes in the market. People are choosing to communicate over the open and unregulated internet, by cell phone, etc., rather than stand in line for licenses at the FCC. The broadcast industry will be rapidly shifting away from FCC control as more shows are moved to satellite radio. And it is highly unlikely that congress will use the FCC to regulate those new methods of moving information and entertainment.

The FCC does not stand a chance pushing this case.
I have it on first hand experience that the FCC is staffed by
manic-depressive psychotics, and this will invalidate their
case.

FCC Proposes Additional Fine for Former California Amateur Licensee

NEWINGTON, CT, Dec 3, 2004--Fast on the heels of a $10,000 Forfeiture
Order (FO), the FCC has now proposed to fine Jack Gerritsen, ex-KG6IRO,
of Bell, California, an additional $21,000 for interfering with Amateur
Radio communications. The target of numerous complaints of insistent
interference to numerous ham radio repeaters, Gerritsen already faces a
$10,000 fine the FCC affirmed in October. The latest proposed fine
stems from further specific alleged instances of interference between
June and September of this year.

"Gerritsen's threats against other operators and his abusive use of
amateur frequencies are the antithesis of good amateur practice and
engineering," the FCC said in a Notice of Apparent Liability (NAL)
released December 2. "Gerritsen announced to authorized amateur users
that he intended to interfere with their transmissions and then
proceeded to cause such interference." Based on the information before
it, the FCC said it finds that Gerritsen willfully and repeatedly
violated ?333 of the Communications Act of 1934 by maliciously
interfering with the communications of authorized Amateur Service
users.

In 2001, the FCC's Wireless Telecommunications Bureau (WTB) swiftly
rescinded its Amateur Radio license grant to Gerritsen after learning
of his earlier state conviction for interfering with police
communications. As a result of the conviction, which he's appealed,
Gerritsen ultimately spent some time in jail. He has continued to
maintain that the FCC can't take away his operating privileges without
a hearing, and that he still has a ham ticket.

Gerritsen's now-pending Amateur Radio application is back in the hands
of the WTB, which also will decide the fate of his General Mobile Radio
Service (GMRS) license. The FCC set aside that grant last fall because
of Gerritsen's alleged continued unlicensed operation and deliberate
interference. A Hearing Designation Order for Gerritsen is said to be

working its way through the FCC.

In its December 2 NAL, the Commission cited three specific instances of interference attributed to Gerritsen and mentioned several others in proposing the huge fine, which includes an "upward adjustment" from the base forfeiture amount of $7000. The NAL notes that in determining a fine, the Commission may consider the nature, circumstances, extent and gravity of the alleged violations as well as the suspected violator's history of prior offenses and degree of culpability. "Despite warnings and a prior NAL and Forfeiture Order, Gerritsen's unauthorized willful and malicious interfering radio operations have been ongoing for several months," said the NAL, signed by FCC Los Angeles Office District Director Catherine Deaton.

In one instance in September, the FCC said, a complaint from an ARRL Official Observer alleged that Gerritsen "deliberately and maliciously interfered with the Young Hams Net" on a 2-meter repeater. "The complaint alleged that the prerecorded messages transmitted by Gerritsen were so intense and vile they were reported to have reduced one of the younger participants to tears," the NAL recounted. On other occasions, an individual identifying himself as Jack Gerritsen and/or using the KG6IRO call sign, has monopolized various LA-area repeaters for long periods, the FCC said, preventing other users from accessing the machines.

Several times, FCC agents have tracked interfering transmissions to Gerritsen's residence. Commission representatives have advised him that he does not have authority to transmit on amateur frequencies and warned him to keep off the ham bands.

Unconfirmed but generally reliable reports say Gerritsen has not been heard on LA-area repeaters for more than two weeks now, and there's some evidence that he may be staying south of the US border--at least for the time being. He has 30 days to pay or appeal the proposed fine.

I am wanting to get a radio for my bonus room upstairs to use as a "base station" Money is a concern. (Baby on the way.) COuld a handheld such as this be hooked to a tower antenna and maybe an external speaker and be useable?

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&category=40066&item=5736453111&rd=1

What about this one. How much would a Mike be? Is it too much of a gamble?

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&category=40067&item=5736064885&rd=1

I am relatively new to ham radio. I have an Icom 2 meter mobile in my truck.

ANy advice would be appreciated!

> Better the FCC is slow and late than never.

That's usually the case.

> Anyone remember the clown Herb on 14mhz????

Ah yes! The great KV4FZ from St Croix in the USVI.

Glub bless him! (xoxoxo)

Herb was a true JEDI MASTER at the fine artform of
stirring up the shit, getting others to do your dirty work
for you, and attracting every nutcase ham in the USA
to his 'home base' of 14.313 for his daily roundup of
mayhem and insanity. Herb would get the ball rolling
and quietly slip away when the mess was a much like
a self-perpetuating car wreck on the Interstate with
everyone driving 85 in a fog.

If you missed the GOOD OLE DAYS of the infamous
14.313/14.300/3.894.5 radio wars, you really missed
that most comical days ham radio has ever seen since!
It was the archetype "15 minutes of fame" opportunity for
anyone with a microphone. a true "ShowTime At The
Apollo" for ham radio if there ever was until Mr.
Hollingsworth came in and broke up the party, much like
Alan Greenspan does at the FED when he raises Interest
rates.... (...there hasn't been anything like it since - how sad)

> Or the bozo that drove the 7240 SWL net off the air.

There were FOUR Bozos (..that we suspected) to be exact.
One in NJ, one in WPa, One in Ohio and the last one
in W.Va. NJ and Pa got caught red-handed by the FCC.
(the guy from Pa is currently in the Pa State Mental Health
system somewhere in [blank] Pa incidentally, on charges
un-related to his ham activities...)

Ohio and W.Va. are still out there, but are rarely heard
on HF anymore.

All four of em used to go all over many places and
nets on the HF bands like stray feral dogs taking
their respective crap on people's lawns. (that's the

best way to put it....really)

> I'm at a loss as to what motivates guys to be such a royal PITA.

Mostly attention starved sorry individuals with
borderline mental health issues. They are most
often Advanced College Degreed individuals
who never matured socially, white collar at the
office but henpecked or un-marryable at home.
They turn on the ham radio and they become
"Captain RF America" behind their overpriced
Icom electret condenser microphones.......

Get it.....? :)

....AND IN OTHER NEWS:

http://www.guardian.co.uk/arts/news/story/0,11711,1364123,00.html

courtesy of http://www.harrylime.biz

A humble porcelain urinal - reclining on its side, and marked with a false signature - has been named the world's most influential piece of modern art, knocking Picasso and Matisse from their traditional positions of supremacy. Marcel Duchamp's Fountain, created in 1917, has been interpreted in innumerable different ways, including as a reference to the female sexual parts.

However, what is clear is the direct link between Duchamp's "readymade", as the artist called it, and the conceptual art that dominates today - Tracey Emin's Bed being a prime example.

According to art expert Simon Wilson, "the Duchampian notion that art can be made of anything has finally taken off. And not only about formal qualities, but about the 'edginess' of using a urinal and thus challenging bourgeois art."

The Duchamp came out top in a survey of 500 artists, curators, critics and dealers commissioned by the sponsor of the Turner prize, Gordon's. Different categories of respondents chose markedly different works, with artists in particular plumping overwhelmingly for Fountain.

"It feels like there is a new generation out there saying, 'Cut the crap - Duchamp opened up modern art'," said Mr. Wilson.

He said that it was "something of a shock" that Pablo Picasso was not top, particularly since, he argued, the artist's cubist constructions of 1912 to

1914 were Duchamp's "jumping-off point". However, Picasso has not been totally erased: Les Demoiselles d'Avignon and Guernica were second and fourth in the survey.

>Does anyone know if Canadian HAM radio frequencies differ from those in US?

Look on the Radio Amateurs of Canada web page.
<http://www.rac.ca/service/allband.htm> has the Canadian frequencies.
<http://www.arrl.org/FandES/field/regulations/bandplan.html> has the US
frequencies.

Radio manufactures probably publish this information somewhere as well.

Just ordered a new Icom PROIII, need to sell the following.

I will be offering my Kenwood TS870, PS-52, and SP-31 Speaker, MC-90 Microphone as a package deal.

Have no idea what it is worth yet, but this radio is a "Cream Puff". Not a scratch on it, and covered with a towel when not in use.

There are some pictures of the radio on my Website.
Anyone interested, please drop me an email, address is on QRZ.com as well as URL.

You can also rig your mobile radio to some quick connect power connectors of some kind and use it at home and the truck. You would still need to get a battery or power supply for it. If not, either of those radios seem fine. I use a Yeasu VR-2 HT for my base into a attic antenna. No problems working the local repeaters. I didn't look too close at the mobile but I think the HT listed is a bit newer and probably has PL tone generation built in. Most repeaters require tones to turn them on (helps prevent false keying due to noise). Also, since you do have a mobile (that could be brought into the house if needed), I'd lean toward the HT. This way you can baby carriage mobile......

2760. Ex Hammie Jack Jammer Gerritsen Fined Another $21000 And He Runs Away

Newsgroup: rec.radio.amateur.misc
Date: 2004-12-10 19:15:27 UTC
From: netmanager2@yahoo.com
Message-ID: <1102706127.363111.295450@z14g2000cwz.googlegroups.com>
Source record: 54922
Cross-posted to: rec.radio.amateur.policy, rec.radio.amateur.misc, rec.radio.shortwave, rec.radio.scanner, rec.radio.cb

This is from todays News Line report.

ENFORCEMENT: ANOTHER $21,000 FINE PROPOSED FOR EX-KG6IRO

>From the "we told you so department" comes word that the FCC has proposed an additional twenty-one-thousand dollar fine against Jack Gerritsen, the former KG6IRO. This on the heels of a ten thousand dollar fine that the agency affirmed against the former California ham in October. Amateur Radio Newsline's Bruce Tennant, K6PZW, has been following the Gerritsen saga and has the rest of the story:

--

The FCC wants to hand Jack Gerritsen, the ex KG6IRO a proposed fine in the amount of $21,000. But it has to find him first. And for the past three weeks or so, Jack Gerritsen is no place to be found. At least the unlicensed male operator using the null and void call sign KG6IRO has not been heard on any of the Los Angeles area repeaters for that amount of time.

Word of the latest Notice of Apparent Liability to Monetary Forfeiture to Gerritsen has spread like wildfire across the Internet and packet radio networks after the ARRL posted a news item on it to its website. In a nutshell, it said that the FCC was hitting Gerritsen with the $21,000 N-A-L because of interference he caused to hams operating numerous Southern California repeaters. This, in a time frame from June through September of this year.

This latest notice comes on the heels of a $10,000 fine for earlier violations. One affirmed by the FCC only a few weeks ago and not associated with other allegations of jamming Coast Guard Emergency Communications that we reported three weeks ago. That matter is reportedly still under investigation by military authorities.

Gerritsen, or at least the voice on the air claiming to be Jack Gerritsen has never denied making the transmissions. Quite the opposite. On numerous occasions he has come up in the middle of an ongoing Q-S-O and announced that his intentions to take over the channel. He has then proceeded to cause interference, usually by playing a tape of his anti government political rhetoric and his opposition to the U.S. military action in the Middle East.

--

Sample of Gerritsen anti-war audio recorded off-air: "...those high explosives are now in the hands of patriots defending their country from our invasion killing hundreds of the coalition forces and more than a thousand Americans who are still looking for weapons of mass destruction. Do we need four more years of this? Kilowatt Ge 6 (undescernable....) Oscar.)

--

One way that hams in the area have handled these attacks on their repeater systems has been to simply shut them down. Others, with multiple sites tend to turn off receivers that the Gerritsen voice can access to while keeping communications going through other receive sites he cannot reach. Some of these countermeasures have at times seemingly angered the voice claiming to be Gerritsen.

--

Sample of voice claiming to be "KG6IRO voice" admonishing repeater owners: "Your attention please. To all repeater owners and operators. For those of you who demand or request that I not (undescernable) their repeater with my radio signal, I have the same demand and request that you stay out of the receiver of my radio equipment. Kilo Golf 6 India Romeo Oscar."

--

On several occasions he has threatened legal action against those taking him off the air based on his First Amendment Constitutional guarantee to freedom of expression. So far those threats have proven groundless. Now, the real Jack Gerritsen is no place to be found. There are a number of rumors that he has left the United States for Central or South America, but at airtime none have been substantiated.

All that's definite is that former radio amateur Jack Gerritsen owes the government at least $10,000 and has the new proposed $21,000 fine waiting in the wings. And there's still that Coast Guard issue that could bring with it a much harsher penalty. We will all have to wait and see.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

Back in 2001, the FCC's Wireless Telecommunications Bureau rescinded its Amateur Radio license grant to Gerritsen. This, after learning of his earlier state conviction for interfering with Los Angeles area police radio communications. (ARNewsline(tm) from numerous sources includinh K6PZW, ARRL, and numerous others)

Sure it does! Plug in a WinRadio Card and add a transverter
and you're on the air! (what? You don't know how
to DESIGN and BUILD a transverter..? Go buy one at HRO then!)

Very good. An equipment listing on the antenna and digital sites and then
he tells us to take a look at QRZ without giving a callsign.

This guy must be from 11 meters.

Many of us use mobiles - just put it on the table - no mounting required.
get a power supply that can handle the amps
I like to put a car battery in parallel with the power supply.

Outgoing mail is certified Virus Free.

Hello,

I've been interested for quite some time for a friend and I to get a pair of GMRS radios - we have a pair of FRS radios, but we'd like to be able to talk over a slightly longer distance and maybe not have so many idiots on it lol.

I know we'd have to have a license, and I've read that it's no-test - but how would I keep from throwing junk into the amateur GMRS repeaters around here? I certainly wouldn't want to jam them up or anything, I have a lot of respect - I like to use a scanner and listen to ham radio sometimes, and hope maybe someday to get into it...

Anyways, I'd appreciate any help I can get. I was looking at a nice 3-watt pair of Cobras (Model: PR4300-2 WX VP) - any good?

Thank you in advance,
Jeff

Yes -- many do --- need a power supply or batteries for power.

Also you can use a big outdoor high antennas

Good Luck

If you are a member of your local Chamber of Commerce,
there is no need to obtain a license. Why send unnecessary
money to support the Washington bureaucracy?

Source record: 54844

A French Poem

Eleven thousand soldiers
lay beneath the dirt and stone,
all buried on a distant land
so far away from home.

For just a strip of dismal beach
they paid a hero's price,
to save a foreign nation
they all made the sacrifice.

And now the shores of Normandy
are lined with blocks of white:
Americans who didn't turn
from someone else's plight.

Eleven thousand reasons
for the French to take our side,
but in the moment of our need,
they chose to run and hide.

Chirac said every war means loss,
perhaps for France that's true,
for they've lost every battle
since the days of Waterloo.

Without a soldier worth a damn
to be found within the region,
the French became the only land
to need a Foreign Legion.

You French all say we're arrogant.
Well, hell, we've earned the right--
We saved your sorry assed nation
when you lacked the guts to fight.

But now you've made a big mistake,
and one that you'll regret;
you took sides with our enemies,
and that we won't forget.

It wasn't just our citizens
you spit on when you turned,
but every one of yours
who fell the day the towers burned.

You spit upon our soldiers,
on our pilots and Marines,
and now you'll get a little sense
of just what payback means.

So keep your Paris fashions
and your wine and your champagne,
and find some other market
that will buy your aeroplanes.

And try to find somebody else
to wear your French cologne,
for you're about to find out
what it means to stand alone.

You see, you need us far more
than we ever needed you.
America has better friends
who know how to be true.

I'd rather stand with warriors
who have the will and might,
than huddle in the dark
with those whose only flag is white.

I'll take the Brits, the Aussies,
the Israelis and the rest,
for when it comes to valor
we have seen that they're the best.

We'll count on one another
as we face a moment dire,
while you sit on the sideline
with a sign, "friendship for hire."

We'll win this war without you
and we'll total up the cost,
and take it from your foreign aid,
and then you'll feel the loss.

And when your nation starts to fall,
well Frenchie, you can spare us,
just call the Germans for a hand,
they know the way to Paris.

Don Fichthorn,
Major USMC (Retired)

This is from todays News Line report. If the quotes are true then this Gerritsen sounds like hes a traitor. What kind of a nutcase praises al Kida for killing Americans?

>ENFORCEMENT: ANOTHER $21,000 FINE PROPOSED FOR EX-KG6IRO

>From the "we told you so department" comes word that the FCC has proposed an additional twenty-one-thousand dollar fine against Jack Gerritsen, the former KG6IRO. This on the heels of a ten thousand dollar fine that the agency affirmed against the former California ham in October. Amateur Radio Newsline's Bruce Tennant, K6PZW, has been following the Gerritsen saga and has the rest of the story:

--

The FCC wants to hand Jack Gerritsen, the ex KG6IRO a proposed fine in the amount of $21,000. But it has to find him first. And for the past three weeks or so, Jack Gerritsen is no place to be found. At least the unlicensed male operator using the null and void call sign KG6IRO has not been heard on any of the Los Angeles area repeaters for that amount of time.

Word of the latest Notice of Apparent Liability to Monetary Forfeiture to Gerritsen has spread like wildfire across the Internet and packet radio networks after the ARRL posted a news item on it to its website. In a nutshell, it said that the FCC was hitting Gerritsen with the $21,000 N-A-L because of interference he caused to hams operating numerous Southern California repeaters. This, in a time frame from June through September of this year.

This latest notice comes on the heels of a $10,000 fine for earlier violations. One affirmed by the FCC only a few weeks ago and not associated with other allegations of jamming Coast Guard Emergency Communications that we reported three weeks ago. That matter is reportedly still under investigation by military authorities.

Gerritsen, or at least the voice on the air claiming to be Jack Gerritsen has never denied making the transmissions. Quite the opposite. On numerous occasions he has come up in the middle of an ongoing Q-S-O and announced that his intentions to take over the channel. He has then proceeded to cause interference, usually by playing a tape of his anti government political rhetoric and his opposition to the U.S. military action in the Middle East.

--

Sample of Gerritsen anti-war audio recorded off-air: "...those high explosives are now in the hands of patriots defending their country from our invasion killing hundreds of the coalition forces and more than a thousand Americans who are still looking for weapons of mass destruction. Do we need four more years of this? Kilowatt Ge 6 (undescernable....) Oscar.)

--

One way that hams in the area have handled these attacks on their repeater systems has been to simply shut them down. Others, with multiple sites tend to turn off receivers that the Gerritsen voice can access to while keeping communications going through other receive sites he cannot reach. Some of these countermeasures have at times seemingly angered the voice claiming to be Gerritsen.

--

Sample of voice claiming to be "KG6IRO voice" admonishing repeater owners: "Your attention please. To all repeater owners and operators. For those of you who demand or request that I not (undescernable) their repeater with my radio signal, I have the same demand and request that you stay out of the receiver of my radio equipment. Kilo Golf 6 India Romeo Oscar."

--

On several occasions he has threatened legal action against those taking him off the air based on his First Amendment Constitutional guarantee to freedom of expression. So far those threats have proven groundless. Now, the real Jack Gerritsen is no place to be found. There are a number of rumors that he has left the United States for Central or South America, but at airtime none have been substantiated.

All that's definite is that former radio amateur Jack Gerritsen owes the government at least $10,000 and has the new proposed $21,000 fine waiting in the wings. And there's still that Coast Guard issue that could bring with it a much harsher penalty. We will all have to wait and see.

For the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, in Los Angeles.

--

Back in 2001, the FCC's Wireless Telecommunications Bureau rescinded its Amateur Radio license grant to Gerritsen. This, after learning of his earlier state conviction for interfering with Los Angeles area police radio communications. (ARNewsline(tm) from numerous sources includinh K6PZW, ARRL, and numerous others)<

I'll make you a better deal than that. Send me $175.00 to be donated to the
ARRL Frequency Protection Fund (you could take a tax deduction) and I might not
tell Riley you're trying to sell a non-certificated CB set.

Good luck on this on now

ed,
it isn't hard at all. in fact, I can also be an ass if I really try hard.
most of the time though, its a simple matter of:
1. forgeries
2. someones buttons getting pushed a little too frequently
3. other personal "considerations"
4. just venting.

all in all though, it seems to me that some folks just have a harder time
trying to get along than others.

my $0.02 worth.

pardon my asking, but isn't this radio just a tad "extra legal"?
also, it seems that your choice of groups would have been better served with
rec.radio.swap and alt.forsale.

No, you need to accept the blame for that. At one point you thought it was
funny to use someone else's call, and even made it a point to perpetuate it.
Don't now attempt to make yourself appear less than culpable.

He'll never change, ham radios lovable demented snake-oil guy!

BTW, Lake Wobegon is in here in Minnesota. "Where the women are strong, the men are good looking, and all the kids are above average."

Question: Why can't I find Lake Wobegone on the Minnesota map?

Answer: When Minnesota was surveyed, errors were made due to the many lakes and swamps that the surveyors had to work around.. The error that produced the Northwest Angle (the northern most point in the lower 48 states) is probably the most famous.

Lake Wobegone's absence from Minnesota maps is due to another lesser known error, but one that is well known to listeners of Garrison Keillor's "The Prairie Home Companion", a weekly radio variety show which is broadcast live, Saturdays, at 5:00 PM Central Time by Minnesota Public Radio. When the first surveyors reached Minnesota's western border, they were appalled to discover that their survey of the state was one mile too wide. For expediency, their solution for this "problem" was simple, they folded their survey map in the middle to eliminate one mile and made the size of the state come out correctly. Lake Wobegone is "in the fold", and it therefore does not appear on any Minnesota map.

GMRS uses FRS simplex (direct) frequencies. The only advantage to having a GMRS setup would be the use of repeaters.

COOPER CITY
RULES PUT HAMS IN A PICKLE
SOUTH FLORIDA HAM RADIO OPERATORS STRUGGLE TO STAY ON THE AIR
nwaller@herald.com
BY NIKKI WALLER

With pursed lips and a steady hand, WA4YDK spins the dial, searching
for a
voice or a signal somewhere amid the fuzz caused by solar flares and an

especially low-hanging aurora borealis.

Eventually, a voice crackles from the speaker: ``Copy. Copy, WA4YDK.''

A connection made, WA4YDK -- known outside radio land as Elliot Kleiman
of
Cooper City -- smiles faintly.

Ham radio operators like Kleiman delight in moments like this.

Kleiman, 67, has been a federally licensed amateur radio operator, or
ham,
for more than 50 years. The retired computer science professor has been
a
resident of Cooper City's Embassy Lakes gated community for about
three.

But like many hams today, he faces growing pressure to choose between
his
hobby or his home.

As the nation grows more urbanized and more housing developments write
no-antenna rules into their deeds, many South Florida hams find
themselves
squeezed out of their communities or pushed off the air.

''Hams are finding that communities are less friendly,'' said Stephanie

Phillips, a Brevard County ham operator and a Florida spokeswoman for the
Amateur Radio Relay League, or ARRL.

Despite obstacles, ham radio appears to be growing. According to ARRL, about 680,000 Americans are licensed amateur radio operators, up about 25,000 from 1995.

A breed known for ingenuity, hams find crafty ways to stay on the air and
in touch with the world.

Some send signals from radio setups hidden in their cars, some jury-rig

stealth antennas behind bushes or shrubs, or in rain gutters. And more than
one South Florida resident, including Kleiman, has been known to transmit
messages while riding a bike.

Hams insist they serve their communities by maintaining an emergency network that still buzzes with activity when other forms of communication
go down. Towns with rules that send hams elsewhere may find themselves out
of luck when disaster strikes, said Phillips.

Local hams often refer to this year's hurricane season, when hams helped
emergency personnel in several storm-ravaged Florida cities.

Kleiman resolved to give up his ham habit when he learned Embassy Lakes

doesn't permit antenna towers. But he couldn't ignore the hobby that first
fascinated him as a young man.

He considered running an antenna from his yellow Corvette until his wife
reminded him that the 'Vette is a lease. So he set up a spindly antenna on
a stepladder beside his backyard pool, where a glade of palms conceals him
from the neighbors' view.

The weak signal barely allows Kleiman to be heard above the static, but he
can still tune in and talk to someone across the county or halfway around
the world.

A spin of the dial on a recent weekday afternoon yielded lots of static and

some normal ham chatter: reports of weather conditions in different
places,
discussions of antenna setups, and complaints about zealous local
zoning
rules.

''Michael, you would not believe the bureaucracy,'' said one ham to
another
before Kleiman tuned to the next station.

Hams frequently use the word 'magic' to describe moments of two-way
contact, known in ham lingo as QSOs. Some operators go for distance --
DX
to hams -- seeking QSOs from faraway countries.

Ham signals can travel thousands of miles with the help of repeaters
and
other devices that relay signals from one spot to the next.

Alan Wolfe, a Miami-Dade County elementary school music teacher who
gives
after-school ham classes to students, hopes to pass his hobby along to
a
the generations raised on Internet and video games.

Ham radio first enthralled Wolfe at age 9. It hasn't let go, he said.

''I watched my uncle sit there with his microphone at night, I watched
the
[radio] tubes glow, listening to see who in the world would get back to

us,'' he said.

Today, he and his wife, a cellist who lives in New Jersey, talk over
ham
frequencies every night. Married last year in Wellesley, Mass., the
couple
performed some of their vows over the airwaves. Their call letters were

spelled out on the cake.

Wolfe (also known as WB4L) transmits from his home in unincorporated
Miami-Dade, where city rules don't obstruct his antenna. He also has
mounted radio equipment on his car and his bicycle. His wife, WX2L,
communicates with a rotating antenna attached to her Honda Civic.

When they're together, the two sit in a hammock and send signals out
side
by side, said Wolfe.

``We'll look up at the stars through our antennas, and to us, it's like

some beautiful work of art. It's magic.''

> having a GMRS setup would be the use of repeaters.
>

GMRS is allowed up to 5 watts of transmit power,

FRS is only allowed to transmit with up to 500 milliwatts A.K.A. 1/2 watt.

MURS is probably the best choice for short-range local communications, by
Non-Hams.

No license is needed. These radios transmit with up to 2 watts, 4 times the
power of FRS radios!

(MURS) Multi-Use Radio Service Frequencies

95.632 MURS transmitter frequencies. (a) The MURS transmitter channel
frequencies are #1 - 151.820 #2 - 151.880 #3 -
151.940 #4 - 154.570 #5 - 154.600 • These frequencies
were called "dot" frequencies and had required a license to transmit. On
November 12, 2000 the FCC dropped the license requirement and opened them up
just like the FRS frequencies and CB radio. Max power on MURS is limited to
TWO watts. You will be able to talk MUCH farther with MURS radios than with
FRS radios.FRS & GMRS FREQUENCIES
NOTE: Not all FRS Manufacturer's channels correspond with one another. FRS
and GMRS Licenses may contact each other if they wish. They may share some
channels. The "private" squelch channels may not correspond either. Test
your equipment at a distance of at least 100' for compatibility. FRS

"> THIS country pays dearly in money and lives for the rest of the
candy ass
> world."

Another typically Ham-Shank viewpoint...

180,000 Iraqis dead for 1000 Amercians? Nice balance. What did the
average Iraqi do to deserve your "protection"? Where was the threat to
the US from Iraq? I don't believe any Weapons of mass destruction were
found. Nor any links to Al Qaeda. And we all know what links your
former president had with the Bin Laden family. 'Nuff said. Peace

The Ohio/Penn DX PacketCluster
DX Bulletin No. 689
BID: $OPDX.689
December 13, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, NG3K, N3SL, W3UR & The Daily DX, K4UUE, K4VUD, N4AA & QRZ DX, N4BAA, K8YSE, N8TT, NE8Z, DL1EK & The DX News Letter, EA5RM, EA7JX, EI3IO, F5CWU & La Gazette du DX, F5NQL & UFT, HS0ZAA/W2ZWW, I1JQJ/IK1ADH & 425 DX News, I1HYW, IZ8BRI, JI6KVR & JA-IOTA Islands News, OH2BN, OH9MM, ON4MA, ON5NT, PA7DA, PC0H and VA3RJ & ICPO for the following DX information.

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 5th/December, through Sunday, 12th/December there were 228 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4U1U, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5W, 5Z, 6W, 6Y, 7P, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9N, 9Q, 9U, 9V, 9Y, A2, A3, A4, A5, A6, A7, A9, AP, BV, BY, C3, C5, C6, C9, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, E3, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FK, FM, FO, FR, FY, G, GD, GI, GJ, GM, GU, GW, HA, HB, HC, HH, HI, HK, HK0/a, HL, HP, HR, HS, HZ, I, IS, J2, J3, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH2, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PY, PY0S, PZ, R1FJ, S2, S5, S7, S9, SM, SP, ST, SU, SV, SV5, SV9, T32, T5, T7, T9, TA, TF, TG, TI, TJ, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VK9X, VP2M, VP5, VP6, VP8, VP9, VQ9, VR, VU, VU4, XE, XT, XU, XW, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZF, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

3Y, PETER I ISLAND (Update). NODXA and OPDX received the following update (Press Release #8) from Bob/K4UEE and Ralph/K0IR. "Counting the days": "The Peter I Dxpedition team members are counting down the final 30 days until their departure from home and their rendezvous with other team members

in Punta Arenas, Chile. The 40 ft. sea container was loaded with the help of members of the SEDXC and is now just a few days away from arrival in Valparaiso, Chile. Upon clearing Chilean customs, the container will be trucked the 1500 miles to the port in Punta Arenas. The team will begin arriving Jan. 11 for a scheduled departure on Jan. 14th. Here is the itinerary for the Expedition:
Team Itinerary:
Jan. 12, 2005 Team meets in Punta Arenas, Chile
Jan. 13 Expedition equipment loaded onto the vessel Antarctic Dream
Jan. 14 Depart Punta Arenas goes direct Peter I.
Jan. 19-21* Arrive Peter I, move ashore via helicopter
Jan. 21-Feb. 4* Radio operations, ship stands offshore during entire operation
Feb. 5* Depart Peter I
Feb 10 Arrive Punta Arenas
* Weather dependent

The Expedition website has been expanded and now includes pages with basic information for the non-ham viewer, information such as 'What is a Dxpedition', 'Prior Dxpeditions to Peter I', 'Tell me about Peter I Island', etc.. The idea is to help inform and interest others, outside the ham community, in our hobby and adventure. All the members of the team ask you to assist them in this regard: Talk to your local school, Boy or Girl Scout troop, Kiwanis Club, Rotary, the local press, etc. about the Peter I website. Encourage them to follow along as the Dxpedition unfolds - to the most isolated island on Earth. The website can be found at:
http://www.peterone.com
Iridium Satellite, LLC has graciously agreed to be a sponsor of the Peter I Dxpedition and has provided equipment that will allow the team to stay in touch with home, provide daily uploads of log information, and daily updates from the team including pictures of interest. Also, the worldwide pilots, through our chief pilot, Don, N1DG, will have the ability to relay feedback from you about missed or unusual band openings, suggestions, and other timely information to help us get you in the log.
This is a huge undertaking and very, very expensive. The team members are funding 74% of the total cost and need your help with the remaining expenses. Your contribution will be very much appreciated. Send contributions to either: K4UUE, F2JD, JA1ELY or ZL2AL. Check the website for an easy to use donation form."

A6, UNITED ARAB EMIRATES (IOTA Activity). Ghis, ON5NT, informs OPDX that after their A61AV/p operation (QSL via ON5NT) to AS-124 (which netted 3000 QSOs) in the beginning of December, they will be on the road again. Look for A61Q/p to be active from Jazirat Al Siniyah off the coast of the Emirate of Umm Al Qaywayn in the United Arab Emirates. This island has been approved for IOTA and counts for AS-021. With Abu Dhabi Island being deleted from the IOTA directory on February 1, 2005, AS-021 would become very rare. Only a handful of IOTA chasers worked A6XT in the 70's from Das Island. The operators will be Abdullah/A61Q, Mohammed/A61AV, Alex/RV6LNA and Ghis/ON5NT. Operators Abdullah/A61Q, Mohammed/A61AV and Alex/RV6LNA will arrive on Al Siniyah Island in the (local) afternoon of

December 17th. Ghis, ON5NT, will join them in the (local) morning of December 18th. They will stay on the island until December 20th, around 1600 local time. The UAE/A61 is at GMT+4. They will be active mainly on 21260, 14260 and 7060 khz. Also look for CW on 21040, 14040, +/- 10103 and +/- 7003 kHz. QSLs for the A61Q/p operation from AS-021 are via ON5NT: Ghis Penny, P.O. Box 93, BE-9700 Oudenaarde, Belgium. Regular QSL cards for A61Q from his home still go via EA7FTR.

ANTARCTIC NEWS.....
Due to some changes in the schedule, operator VU3BPZ is flying from Mumbai on December 11th to South Africa and from there to India's Maitri Base (WAP IND-03). This will cause a delay in his activity.

2nd Antarctic Activity Week. The WAP (Worldwide Antarctic Program) has announced their "2nd Antarctic Activity Week" which will be held from February 21-27th, 2005. The WW stations wishing to participate in this "2nd AAW" event just have to apply through their Ham organization, according to their country's rules, for a special callsign with ANT in their suffix, and try to be active during the above mentioned week. Operators in Argentina for many years now, have celebrated their "Dia de la Antartida Argentina", which is normally held every year on the 22nd of February, so this year the WAP 2nd AAW will fall within that date. The WAP's aim is to stay close to the researchers and personnel who are spending their time away from home and away from the families studing the Antarctic life and its secrets. Last year the participation was great with several ANT station such as IR1ANT, IR0ANT, TM0ANT, II7ANT, IO8ANT as well as others that were active for that week. This year the WAP has more time to prepare, and they hope that more stations will participate. For any question, please feel free to write to WAP (Worldwide Antarctic Program) @ I1HYW or IZ8BRI. Address and E-mails are OK on QRZ.com. Also, visit the WAP Web site for updates at: http://www.ddxc.net/wap

THE BIG GUY TO BE ACTIVE. Yep, the word from our Finnish friend is that the real Santa Claus is to be active in December as OH9SCL (Santa Claus Land) before he makes his world-wide tour. Activity will take place from the Finnish Lappland, Arctic Circle, on all bands and modes. The "BIG GUY" will be active from the VERY NORTH! Special activity will take place December 17-19th. It is known that Santa is busy before Christmas, so he has N7NG, OH2BH, OH3BHL, OH9KL, OH9MDV, OH9MM, OH9RJ and OH9VC handling the radio traffic part of the preparatory activities! QSL via OH9UV.

FO/M, MARQUESAS ISLANDS. By the time you read this, operators Michel/F6COW, Dominique/F6EPY and Radi/F6GNZ should be active as FO/F6COW, FO/F6EPY and FO/F6GNZ, respectively from Hiva Hoa, Marquesas (OC-027), until December 23rd. They should have two stations active and are expected to operate mostly CW and SSB with some digital modes (PSK31, RTTY, SSTV). Activity will be on 80-10 meters, with some 160m if conditions allow, with a priority on the lower bands. For more details visit the following Web page at: http://perso.wanadoo.fr/dominique.auprince
QSL via their home callsigns. Suggested frequencies are:

CW - 3515, 7015, 10118, 14015, 18095, 21015, 24905 and 28015 kHz
SSB - 3780, 7075, 14215, 18135, 21215, 24985 and 28465 kHz
Digital - 7035, 10145, 14085, 21085 and 28085 kHz.

IOTA NEWS.............
AS-140. Manjurul/S21AM and Dave/EI3IO will operate from Char Dakhin Shahbazpur (Bhola Island), from February 4-th, 2005. A special callsign is being sought from the Bangladesh licensing authority. There will be two 100 watt CW/SSB MF/HF stations operational, and activity on all bands is planned, subject to antenna availability. A 30m communications tower is on-site and half slopers are being considered for 160 meters and 80/30 meters. QSL via EI3IO. Logs will be uploaded to LoTW and eQSL.

EU-016. (IOTA/LH Activity) Fredy, DE0MST, will lead a team of operators to activate the Lighthouse Struga (LH-0815) on Lastovo Island, May 14-21st. The callsign will be 9A0CI (IOCA group). Operators mentioned will be 9A6AA, 9A2WJ, 9A3KB, DJ3XG, DF9MV, DJ1MHS, DL5MFL, DL9CHR and DE0MST. More details are forthcoming.

SA-039. A team of operators from the Southern Group of Montevideo which includes CX2ABC, CX5BW and WQ4O (with EA5KM and EA5RM coming from Spain for this DXpedition), will be active with the callsign CW5R from the Island of Lobo, between January 5-11th (dates could be changed due to weather conditions). They will use directional monobander antennas for 40-10 meters and dipoles for 30, 80 and 160 meters. Activity will be on all modes, including digital. The antennas for the low bands will be installed on the lighthouse of the island. Lighthouse reference numbers are: WLOTA LH-0799 and ARLHS URU-002. The QSL Manager will be announced later. There will be online logs after the operation at: http://webs.ono.com/cw5r

OC-137. Steve, G0UIH, finished-up his activity as 3D2FI from Viti Levu (OC-016) and will head further south to North Stradbroke Island. He will be active as VK2IAY/4 from December 14-17th. Activity will be SSB only on or around the IOTA frequencies on 20/17/15 meters. QSL via G0UIH, direct or by the bureau. More details can be found on the Web page at: http://www.maxproduction.co.uk/vk2iay/vk2iay2004.htm

KG4, GUANTANAMO BAY (Update). Jose Castillo, N4BAA, updates OPDX that the three member group from the VADXCC (VA DX Club) will activate KG4 (Guantanamo Bay, Cuba), January 15-22nd. Callsigns will be as follows:
KG4SB - Jose - QSL to N4BAA
KG4WV - Bill - QSL to W4WV
KG4AS - Tip - QSL to N4SIA
Activity will be on 160-6 meters operating on ALL modes. Jose will have SSTV for those who desire it!

OH0, ALAND ISLAND. An international team of operators will activate OH0I in the CQ WW RTTY WPX Contest (February 12-13th) as a Multi-Multi entry.

QSL via OH3BHL.

OO, BELGIUM. Marc, ON4MA, informs OPDX that in the year 2005, look for Belgium operators to use the "OO" prefix during the entire year. This prefix is being used in celebration of 175th anniversary of Belgium's existence.

PJ4, NETHERLANDS ANTILLES. Dr. Rick, NE8Z, will be active as PJ4/NE8Z from Bonaire, February 4-13th. Activity will be mostly CW/SSB on the WARC bands and 6 meters. Rick mentions that he will use a Kenwood TS680s with an Ameritron AL-84 Amp into a Cushcraft R-7 Vertical (40-10m). He will also use a Yaesu FT-857 into a Cushcraft 3 element yagi on 50 mHz. QSL via NE8Z: Dr. Rick Dorsch, P.O. Box 616, Hamburg, MI 48139 USA.

QSL INFO AND NEWS.....
D2U QSLS. Rod, EA7JX, QSL Manager for D2U, informs OPDX that he has not heard from Joao, D2U, for 6 months. He mentions that Joao told him he sent logs via E-mails, but it seems Rod did not receive them. Rod states that he is sorry for the delay for all the DX stations that sent him envelopes, and he is sure once Joao sends him the logs, he'll answer them quickly. Rod is also QSL Manager for: LU5FF, LQ0F, L45FF, L25FF, L73F, AY5FF, L59EOC, LW9EOC, YN9HAU, D2U, YX1DIG, YV1DIG, YW1D, YW6P, CO3JO, VK3FY and VK3FY/DU8.

NOT THE MANAGER. Tom, N6BP, states that he is not the QSL Manager for C6AKQ. He also mentions that he will no longer return any cards, but instead throw them in the trash. The correct QSL route for C6AKQ is via N4BP.

TOP 5 QSL MANAGER NOMINATIONS (Update). John, K1XN, of the "Go-List" informs us that nominations of the "TOP 5 MANAGERS" has been brisk. He states, "If this rate of response remains level, we will have a record number of nominations again this year. Please remember this is just an opinion survey based upon the responses to your QSL requests for this year 2004 only." John states, "We have several hundred nominations to date, but only 28 different managers nominated." The survey continues until February 1st, 2005. To see the list of those QSL Managers nominated in 2003 to the TOP 5 list and the TOP 5 of the Top 5, visit the GOLIST Web site at this URL: http://golist.net/top_5.htm
If you wish to nominate the 5 best QSL Managers this year, send their callsigns to John via: golist@golist.net

VK4UC QSL MANAGER CHANGE. Kim, daughter of N3SL, is assuming the duties of QSL Manager for John, VK4UC. Cards are on order and expected in early January. John has forwarded nearly 4 pounds of cards received via the VK Bureau to N3SL for processing. About 50 direct cards also were included and will be answered at the same time. They ask that those awaiting cards to please not send another until the bureau system has had a chance to work. John's logs have already been uploaded into LoTW, and a log search will be available at: http://www.qsl.net/n3sl/manager.htm

S9A & S9BB WRAP-UP. The following is an excerpt from a press release received by Jarmo, OH2BN. It has been edited to fit this week's bulletin. The press release states:
"OH2BH and OH2PM now safely back home from Sao Tome, Africa, are busy changing their suntanned outfits to those that will be needed on the Antarctic Peter I expedition (3Y0X) within the next few weeks.
Sao Tome was fun, and with limited manpower they were able to push the QSO total to nearly 25,000. Conditions turned out surprisingly unstable, varying from day to day. The tropical noise came lower at times, allowing the team to make a number of 160M/80M contacts. In particular, 80M CW signals were easier to copy with sharp filters regardless of the noise.
Congratulations to those who made it thru. The log search is up and running at: http://www.df3cb.com/logsearch/s9bb/
The statistics show reasonable results on all bands, probably providing at least one contact for those in need. See the log search website and judge for yourself whether Sao Tome might be your potential destination when spinning the globe in search of new adventures.
The group is grateful to Mike, K7IR at SteppIR for their support and to Charles, S9SS and Lesley, S9YL for their on-site patronage. Also, the crew at S9A & S9BB (OH2BH-OH2PM-OH2TA) wish the DX community a merry Christmas and good luck in contacting the ongoing VU4 expedition."
S9BB & S9A Total QSOs 24617
NORTH AMERICA Total QSOs 9115
EUROPE Total QSOs 12686
ASIA Total QSOs 1637

SPECIAL DUTCH ACTIVITY. Look for the following Dutch stations to be active during the last 2 weeks of 2004 from The Netherlands:
PA6EU - Amsterdam PE6EU - Valkenburg - Maastricht
PB6EU - The Haque and Scheveningen PF6EU - reserved for Groningen
PC6EU - Rotterdam PG6UE - Noordwijk
All these stations will be active because of the last final weeks of the Dutch EU-Presidency. QSL Manager is PA7DA.

SPECIAL EVENT. Look for special event station PC100H (Papa Charlie One Zero Zero Hotel) to be activated from 0700z, December 18th until 1900z December 19th, to commemorate the 100th anniversary of the founding of the Dutch Coastal Radio Station PCH/Scheveningen Radio. Activity will be on 160-10 meters including some WARC bands on CW/SSB/RTTY/PSK31. Also, 2 meters SSB/FM. Suggested frequencies are:
2m - 144.250 (SSB) and 145.250 (FM) MHz
CW - 1830, 3530, 7030, 10130, 14030, 18090, 21030 and 28030 kHz
SSB - 1850, 3650, 7050, 14250, 18150, 21250 and 28250 kHz
RTTY - 10145
QSL via PA1HR. Further information (frequencies, modes and operating hours) will be available via: http://www.remeeus.nl/pch/pc100h/pc100h_uk.htm

VU4, ANDAMAN ISLANDS (Update). Early last week rumors were flying around stating that officials stopped the VU4RBI and VU4NRO operation. Naturally, these turned out to be just rumors. Jim, N8TT, was informed by Jose, VU2JOS, that "Our VU4 Dxpedition will continue till 31 Dec 2004 and there is no truth to the rumour that it has been stopped by officals." Meanwhile,

the activity continues and John, HS0ZAA/W2ZWW, in Minburi, Thailand, states that he talked to Bharthi, VU2RBI, and was told there are 2 separate stations operating with 5 operators, and they are on the air 24 hours per day on the following frequencies:
VU4RBI - 7075, 14250, 21240, 18130, 24930 and 28430 kHz
VU4NRO - 14190 kHz
Only the 5 operators are licensed to operate on these bands, and they will be listening up 5 or 10 kHz on each band. These above frequencies are still not written in stone, and it is recommanded to also watch QSNs on your local/telnet cluster. Reportedly, the team has one beam installed without a rotor.
Charles Harpole, K4VUD, will be traveling to Andaman Isalnds and should be there on December 14th. However, he states that he will be there as a tourist to photograph and video the VU4 Dxpedition. As a non-India citizen, Charles does not have an operating permit for that location. He does hold a one-year India license, VU3CHE, but it is licensed for operations in New Delhi ONLY. Charles does state that he will carry all the advice (he has received) on operating practices and propagation openings to the team." He will be there for 2 weeks. Charles also mentioned this past week that the reason the team is not using the announced frequencies has to do with "unusual odd noise QRM" on these intended operating frequencies. Remember, the NIAR is the ultimate source for news of this operation. Their Web is: http://www.niar.org

ZF2, CAYMAN ISLANDS. Jim, N6TJ, will be active as ZF2TJ in the ARRL DX CW Contest (February 19-20th) as a Single-Op/All-Band/High-Power entry. Activity will be from ZF2NT's QTH. QSL via VE3HO.

Does the mobile provide 12 volts for the radio?
Do you think a 12 volt Power supply, of sufficient current capability, would replace the vehicle voltage source?
Or perhaps a battery charger and a car battery, or preferably a Gel cell would do the job?
Just remember to remove the charger when using the radio, or it will Hummmmmmmm.

Dan/W4NTI

> 3Y, PETER I ISLAND (Update). NODXA and OPDX received the following update
> (Press Release #8) from Bob/K4UEE and Ralph/K0IR. "Counting the days":
> "The Peter I Dxpedition team members are counting down the final 30 days
> until their departure from home and their rendezvous with other team
> members
> in Punta Arenas, Chile. The 40 ft. sea container was loaded with the help
> of members of the SEDXC and is now just a few days away from arrival in
> Valparaiso, Chile. Upon clearing Chilean customs, the container will be
> trucked the 1500 miles to the port in Punta Arenas. The team will begin
> arriving Jan. 11 for a scheduled departure on Jan. 14th. Here is the
> itinerary for the Expedition:
> Team Itinerary:
> Jan. 12, 2005 Team meets in Punta Arenas, Chile
> Jan. 13 Expedition equipment loaded onto the vessel Antarctic
> Dream
> Jan. 14 Depart Punta Arenas goes direct Peter I.
> Jan. 19-21* Arrive Peter I, move ashore via helicopter
> Jan. 21-Feb. 4* Radio operations, ship stands offshore during entire
> operation
> Feb. 5* Depart Peter I
> Feb 10 Arrive Punta Arenas
> * Weather dependent
>
> The Expedition website has been expanded and now includes pages with
> basic information for the non-ham viewer, information such as 'What is a
> Dxpedition', 'Prior Dxpeditions to Peter I', 'Tell me about Peter I
> Island',
> etc.. The idea is to help inform and interest others, outside the ham
> community, in our hobby and adventure. All the members of the team ask you
> to assist them in this regard: Talk to your local school, Boy or Girl
> Scout
> troop, Kiwanis Club, Rotary, the local press, etc. about the Peter I
> website. Encourage them to follow along as the Dxpedition unfolds - to the
> most isolated island on Earth. The website can be found at:
> http://www.peterone.com
> Iridium Satellite, LLC has graciously agreed to be a sponsor of the Peter
> I
> Dxpedition and has provided equipment that will allow the team to stay in
> touch with home, provide daily uploads of log information, and daily
> updates
> from the team including pictures of interest. Also, the worldwide pilots,
> through our chief pilot, Don, N1DG, will have the ability to relay
> feedback
> from you about missed or unusual band openings, suggestions, and other
> timely information to help us get you in the log.
> This is a huge undertaking and very, very expensive. The team members

> are funding 74% of the total cost and need your help with the remaining
> expenses. Your contribution will be very much appreciated. Send
> contributions to either: K4UUE, F2JD, JA1ELY or ZL2AL. Check the website
> for an easy to use donation form."
>
> A6, UNITED ARAB EMIRATES (IOTA Activity). Ghis, ON5NT, informs OPDX that
> after their A61AV/p operation (QSL via ON5NT) to AS-124 (which netted
> 3000 QSOs) in the beginning of December, they will be on the road again.
> Look for A61Q/p to be active from Jazirat Al Siniyah off the coast of
> the Emirate of Umm Al Qaywayn in the United Arab Emirates. This island
> has been approved for IOTA and counts for AS-021. With Abu Dhabi Island
> being deleted from the IOTA directory on February 1, 2005, AS-021 would
> become very rare. Only a handful of IOTA chasers worked A6XT in the 70's
> from Das Island. The operators will be Abdullah/A61Q, Mohammed/A61AV,
> Alex/RV6LNA and Ghis/ON5NT. Operators Abdullah/A61Q, Mohammed/A61AV and
> Alex/RV6LNA will arrive on Al Siniyah Island in the (local) afternoon of
> December 17th. Ghis, ON5NT, will join them in the (local) morning of
> December 18th. They will stay on the island until December 20th, around
> 1600 local time. The UAE/A61 is at GMT+4. They will be active mainly on
> 21260, 14260 and 7060 khz. Also look for CW on 21040, 14040, +/- 10103
> and +/- 7003 kHz. QSLs for the A61Q/p operation from AS-021 are via ON5NT:
> Ghis Penny, P.O. Box 93, BE-9700 Oudenaarde, Belgium. Regular QSL cards
> for A61Q from his home still go via EA7FTR.
>
> ANTARCTIC NEWS.............
> Due to some changes in the schedule, operator VU3BPZ is flying from
> Mumbai on December 11th to South Africa and from there to India's Maitri
> Base (WAP IND-03). This will cause a delay in his activity.
>
> 2nd Antarctic Activity Week. The WAP (Worldwide Antarctic Program) has
> announced their "2nd Antarctic Activity Week" which will be held from
> February 21-27th, 2005. The WW stations wishing to participate in this
> "2nd AAW" event just have to apply through their Ham organization,
> according to their country's rules, for a special callsign with ANT
> in their suffix, and try to be active during the above mentioned week.
> Operators in Argentina for many years now, have celebrated their "Dia
> de la Antartida Argentina", which is normally held every year on the
> 22nd of February, so this year the WAP 2nd AAW will fall within that
> date. The WAP's aim is to stay close to the researchers and personnel
> who are spending their time away from home and away from the families
> studing the Antarctic life and its secrets. Last year the participation
> was great with several ANT station such as IR1ANT, IR0ANT, TM0ANT,
> II7ANT, IO8ANT as well as others that were active for that week. This

What definition of spam includes these weekly posts?

Why do you feel compelled to read them?

Why did you have to re-post the entire article to merely add your comment?

So what's worse, bonehead? 363 lines of on topic, ham radio and DX
related information legitimately posted in the appropriate newsgroups?

Or your 385 lines of duplicated text that you couldn't manage to edit
preceded by (top posted) the above off topic lines of unwarranted
complaint?

You are part of the problem. You are an idiot.

Yea, Eric has been causing problems for many years. Be aware, he also uses aliases (fake ID's). For exameple, if memory serves me correct one fake ID he was caught using here on usenet was "Phoenix radio man" or something like that.

Unfortunately, Eric Oyen gives radio operators a bad name.

HYPE ALERT! HYPE ALERT! HYPE ALERT!

Reg Edwards wrote:
> The trouble with the 98% of USA citizens who are not aware of the existence
> of the rest of the world,

Actually, we are all too aware. Even today, the foundation of our country is based on immigration. Point to any one schoolchild ignorant in geography and histor, and he or she will point to a grandparent from the old country.

or the damage caused by world-wide indiscriminate
> use of their weapons of mass destruction,

We've only deployed two weapons of mass destruction in anger: at Hiroshima and Nagasaki. True, we've made quite a few atmospheric and underground tests since then, but *none* of them have actually been used against a target. And as far as I know, even though the US stockpiles chemical weapons we never even considered germ warfare.

Or are you speaking merely of the damage caused by deterrence? All that managed to accomplish was the quiet collapse of the Warsaw Pact.

is that they are far too
> childishly patriotic.

True, we teach patriotism to children, and hopefully this childish patriotism becomes an adult version based on government by consent of the governed. The true test of this is our continued willingness to pay taxes.

They natuarally believe their own distorted,
> hopelessly biased propaganda, fundamentally generated by their international
> oil and energy, atmospheric-polluting companies.

Sorry now. The last propaganda I have ever heard of has been generated by speechwriters in the Republican, Democratic, Libertarian, and Green parties. I don't notice the speechwriters being in the pay of multinats.
>
> Iraq, Palestine and other middle-eastern and central Asian countries are
> heading, slow-motion, towards another Vietnam, Cambodia and other places
> left poisoned and in ruins.

Not our fault. There was conflict and chaos enough caused by regional despots, absolute monarchs, and fanatics willing to see the human race extinct rather than see even a single person free of the yoke of thier

own religious totalitarianism. Our involvement is slowing this
downhill slide, not exacerbating it.

Your boys in the armed services will return
> home, not necessarily all in black bags, but in the form of many thousands
>

of unemployed hillibillies
Hey, those hillbillies were unemployed before they joined the army to
give themselves college educations and their families a better shot at
the middle class.

, drug addicts,
Soldiers now get therapy as part of their health package. Battle
fatigue is now a recognized illness that even the most gung-ho general
would fail to confuse for cowardice. Further, the Vietnam era US army
had just as huge a drug problem as the rest of society. In modern
times drug addiction rates by veterans are less than our population as a
whole.

detested outcasts of society.
Only because we treated them that way when they came home.

>
> But it need not end in that way. You are all-powerful and rich. Just find
> some teachers and educate yourselves before it's too late.

For everybody's
> sake on this small overepopulated,

A canard. The Western democracies are actually experiencing a
population decline. China and India are presently undergoing
industrial revolutions that are helping greatly to stabilize the
rate of population increase. Africa and South America are still
big problems, caused by persistent poverty, tyrranical governments,
and tribalism in lieu of the rule of law.

underfed Earth.

Another canard. The hunger problem is not caused a lack of production
capacity, but from the inability of much of the people to find work to
earn money to buy the food produced by their neighbors.

Capitalism itself causes
uneven distribution of resources, but as the world has seen, any other
system acheives worse results. Dorothy Day said it best that to tie
worth of a person to usefulness was to sin against the inherent dignity
of that person.

If we had a worldwide welfare state, our world could support a hundred
times its present population.

This is the one instance where the Roman Catholic Church actually has it
right.

Actually, it's NOT SPAM. It's specifically authorized to post [weekly] on "rec.radio.amateur.misc" (where I'm seeing it). As for whether or not it's allowed on the ".dx" group, check the "rec.radio" newsgroup hierarchy unified charter and guidelines document (google reports its availability at 5+ web sites).

Ever wonder why I did not challenge "AR Newsline's" postings here? Simple: The charter allows it to be psoted to ".misc" (but not to ".policy" where I did bitch about it).

I haven't read the charter for r.r.a.dx, but I can't help but think
that somehow, by any definition or construction, a long time (since
the early '90s at least; maybe even longer), well regarded DX bulletin
is going to be tolerated, if not permitted, on a DX newsgroup.

spam patrol, whatever that is, sounds like a big whining pussy. He
even whined twice in response to me.

Betcha a hunnert bucks that gets him to respond to me again. Almost
certainly with more whining.

In article <jHzud.8174$NQ6.5933@fed1read03>, N7ZZT - Eric Oyen
<n7zzt@127.0.0.1> writes:

>you just can't let it go, huh?
>you have to harp on one little obtuse point, HUH?

The "point" is that you have been a nuisance and an annoyance on the radio newsgroups for several years, as evidenced by your (extensive) posting history.

>why don't you just shut up and get a life.
>you've already proven that you are an internet stalker. you've already
>proven that you will go to any length to harass, demean and ridicule. have
>you nothing better to do?

Accusing someone of being an "Internet stalker" is a very serious charge, Eric. What proof do you offer to back up your accusation?

>oh well, you are not my problem. However, if you want to make yourself one,
>be my guest. the responsibility for the results are yours.

More threats, Eric?

You never learn, do you?

PS: Do you have a job yet, or are you still using your "disability" as a crutch and leeching off the taxpayers of Maricopa County?

Somehow, I suspect the latter is true.

I know of a guy who has been operating on 20 meters for
years without his own ham llicense. He just picks out somebody's
call sign and assumes their first name on the air. I've heard him say
it is more fun than freebanding.

First I not a democratic. However, I resent that call Democrats
godless. Yes, I am registered as a republican. However, I more of
independent person. I have open mind unlike some people. I am more of
a split ticket voter.

Speaking of god. God would not want you to call anyone godless.

Your immorality could be much different than my immorality.

2851. Question I am needing help with. (New ham)

Newsgroup: rec.radio.amateur.misc
Date: 2004-12-13 14:15:54 UTC
From: stryped@hotmail.com
Message-ID: <1102947354.083153.45310@z14g2000cwz.googlegroups.com>
Source record: 54812

I copied this from an email I sent to a friend: I appreciate any help!

I was the high bidder all weekend on that radio. Then, late last night someone outbid me right before it was over. I was disappointed.

I did have some questions though. Do you use ssb capabilities alot? I mean, are there alot of people on ssb? Are there ssb repeaters? Seems thid capability adds alot of costs into a radio. What about 440 mhz? I noticed you talked about the skywarn system. I checked into it and it seems I should be able to acess it. It has several repeaters linked. It is just a regular repeater system when there is no severe weather.

I noticed some of the older radios dont have the "tone feature". Does this mean some repeaters can not be acessed?

One of the links you forwarded to me was this one:
http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&category=40066&item=5737063317&rd=1
It seems to be older, and does not have 440 but has ssb capability I think. Is this a very good radio? WHat are these worth?

I noticed some of the add's said "just sent to the factory and aligned" Are there adjustments that have to be made from time to time?

By the way I finially got into the morse code tutor and played around with it a little. It was hard for me to understand the dot's and dashes, they went faster than I could recognize them. What is the test like when you take it? I assume you have to memorize the dots and dashes for each letter, or do you have a "cheat sheet" where you just have to figure out what is being played and can refer to something that is already written down for each letter?

I am sorry for all the questions. Looking at all those radios this weekend made me come up with alot more than I already had!
Thanks for your help,

I downloaded a morse code training program and have been listening to code for a about a week trying to gain an ear for the stuff. It's boring as HELL.

Given that I feel like I truly am wasting my time just to satisfy an old fart bureaucracy by learning this outdated crap, does anyone have any way to somehow turn learning this boring and useless B.S. into something that is even borderline not boring?

Flame away ol'farts! Normal people please feel free to offer sound ideas.

Let's see, your government engaged in an ILLEGAL war, on the basis that there was a huge stockpile of WMD. There wasn't. Turns out it was all a bold faced lie dedicated to justifying and illegal invasion in pursuit of oil (greed).

Once the invasion started, your government started a PR campaign that stupid people bought into, implying that Iraq had something to do with 9-11. It didn't.

So far 100,000 Iraqis are dead and over 1200 American children are dead. The country is in tumoil. The people are suffering. Oh, let's not forget the charming TORTURE chambers that you are no doubt proud of..in Iraw and Gitmo.

Now you think that France should blindly follow your stupid asses into an illegal war, apparently because "they ï¿½we you one". Perhaps you'd like them to man a few Iraqi prison torture chambers for you?

You are remarkably stupid and short sighted. Your government is leading you by the nose. Your pride in being led by the nose is both staggering and frightening.

The only "dire moment" you face is one of your own doing. You made your beds, so quit whining and bellyaching. Lie in it.

First of all..... 5 wpm which is now the top and only speed required, isn't that hard to muster. Secondly, yes, code can get boring. You need to make a sort of game of it. Sort of like when you were a child and may have traveled and did the colored cars or signs game. In this instance, it paid off for me to start doing all signs, labels - even off of shampoo bottles while in the shower, etc - in code as I learned enough letters or numbers to do so. Assume today to be day one - take a combo of 3 letters or numbers and listen to them for a few minutes - then practice them through out the day. Making a game of it can eliminate the boredom. Maybe once you pass the exam, you'll never use it again, but then again - you may. Once you "learn" it, you "may" come to like it. The biggest problem is, (I'm assuming here) you don't know it at all, therefore you hate it because it is presenting itself as a roadblock. While my method may not work for all, I did 3 letters and/or numbers a day. I used all from the previous day as well in that day to sort of sing out the code while reading the labels and such. In about a week or so, all will come to you to the point you'll be able to pass the exam with little problem. You'll have to study the q signals too - to know what they mean for the exam, but the code itself will seem to "drag" on - when the test is being done - once you've mastered the characters. You'll be so familiar with the characters, that you'll be sitting there "waiting" for the next to be sent - rather than hurrying to scribble down a message. Others may have methods which worked for them which differ greatly from mine, but I learned the code very quickly and effortlessly doing it this way. First, admit you're going to need to learn it to get past the "I don't want to do this" hurdle. It isn't much different than dragging yourself out to do a lawn job or whatever you don't want to do. Same psychology. You've got to decide you need to do it - then get started. Then try whatever methods may work best for you to learn it. Once you get started, you'll be surprised how easily that 5 wpm came to you.

Just as a side note, some have said if you have an ear for music, it makes it all the more easier. Not true, well - not entirely. I knew a musician who couldn't pick up code to save his life with that theory in mind. I don't know if he used mine or some other, but eventually he did make it.

I'm currently working to get up to a consistent 5 wpm, and have found
that recording the slow-code broadcasts from W1AW and playing them in
my car as I drive to and from work is good -- with a _MAJOR_ caveat:
the amount of concentration required is _enormous_, and you should be
prepared to abandon the effort and rewind if the driving gets the
least bit demanding. All I have to do now is master Y and Z, which are
being damned resistant: everything else is in place.

Recordings made with he various Morse players also work well, but they
don't have the same "feel": there's no substitute for QSB, QRM, and
QRN when I'm trying to train my ear.

Singing out the code is good, too: you get the auditory input as well
as the exercise of converting text-to-code.

> Just as a side note, some have said if you have an ear for music, it makes

I am, if I do say so myself, a rather accomplished musician, and I'm
having a Hell of a time with this learning process. At the end, I hope
to get my old Novice call from 1963, with the "N" removed, and then to
make my first QSO. Look for me sometime about mid-January, I hope.

I don't entirely agree with the war myself - BUT - the French did go behind our backs and deal with Saddam when he was supposed to be having limited sales of products. As it turns out, the son of the U.N.'s - Anon - made deals contrary to a deal signed off by many - also. In my opinion, the U.N. is worthless. It hasn't had the balls to stand up to do anything productive. Maybe if the UN sent in troops to Iraq, ours could come home, the Iraqis a bit happier and allow the process to continue in a more peaceful manner. IF you don't think we hate seeing 1000+ dead - you are so wrong. I have a son in the service - 3+ years now, a nephew going into the service - presently in boot camp as well as a few young men just graduated this past year from High School. One of which was sent to IRAQ right out of Basic. I don't want to see them end up "dead" anymore than anyone else wants their own to die. However, it is a choice they made and will either live or die by it, by the grace of God.

As to the torture..... Any "torture" going on isn't any where near as "deadly" as the beheadings going on. But - then again, war is war. I can say the US plays by rules (a weakness) when others do not. Those people in Guantanamo - are being fed - probably better than they've ever eaten - and cared for medically, thanks to the US Tax dollars - whilest our seniors struggle to pay for life saving medications and so on. And if you came here on a green or whatever color card to live, just think - you'd qualify for welfare and probably live better here than there - how about that! OR be claimed for diplomatic immunity or political asylum and be set for life. That's how free we are with our tax dollars. Talk about torture, those bastards being held - deserve nothing from my tax dollar. Bread and water - that is all. PERIOD. They're living longer in our custody than many who've ended up in their custody. Our mistake, is the media making it an issue. They need to keep their noses out of it. We need more guys like Patton. He helped save your asses, I'm sure he'd be rolling in his grave to know how pitifully this war is going. We are holding back way too much. Had we went in and kicked ass as we could and should have, this crap would probably be over. WE pissed around with that one cleric for a few weeks trying to talk to him. SCREW THAT. Bomb the S.O.B.

WE don't bomb mosques and churches. Those bastards have - like 8 in the past few months. Yet they hid in one so we wouldn't go in after them - using our weakness against us. They knew we wouldn't attack a mosque. It is they who are cowards. Afraid to fight like men out in the open. It is they who will kill innocent people with out provocation or justification. They're killing their own people now.....women and children alike. What does that say? Yet more and more are signing up to become Police and Military over there for their own country - obviously because they too want change. Yes, the war could have been better planned - especially the post Saddam period, but we're stuck there now and need to do whatever is needed to get the job done - otherwise those 1000+ will have died in vain. Much as it seems our thousands who lie on your soil - have. So much for gratitude. Oh yeah, in case you didn't hear about it - Saddam's own sons were raping young girls of about 12 years of age, maybe younger, killing people as they chose - to live

in luxury. Lawless disregard for human life. Any who dared speak against them - died. They were powerless to stand up to them. I guess you approve of that kind of living? You agree with doing little 12 year old girls?? They tortured their own people for gosh sakes, testing chemical weapons on them. Maybe there was no WMD when we went in, I'd like to have seen it myself, but you must admit, his past torture using weapons of chemical nature and his refusal to come clean - did look suspicious. Actually, I think they recently found some things - hidden. Maybe not the stockpile we were led to believe existed, but still it shows signs of them being in existence when they were being denied all along. Don't forget, we were stupid enough once to be Saddam's supporter - then he turned on us, as do many who we help ------- hint hint.

I don't fully back Bush in his reasons and totally resent some of them, but I do care about this country. There are many things I and many others don't agree with in this country or even with each other regarding policies, but we're here and we have our rights to speak out. We wouldn't have it any other way. I just wish we would cut off ALL foreign aid - cold turkey and let them all fend for themselves. At least we know, our military has balls to do a job, regardless the risk staring them in the face. We don't AND WON'T fold like a house of cards at a mere threat of terror. Oh and - don't worry - we'll be there to save your candy asses again - some day. If I'm not mistaken, sometime recently your leaders sort of snubbed somehow -our fallen soldiers - who helped save your candy asses - on a day when they'd have normally been recognized. And you expect us to be in a good frame of mind about back stabbers? I think not.

To be fair(sigh), I tried to credit the French with something, but I find I was wrong about one thing. I always thought the French - created the "French fries" - which are so popular here. Turns out, the French had nothing to do with it after all. Sheeesh... Just what DID you do for us - to the good?

9/11 is a date "I" will never forget. That - like Pearl Harbor, will live in infamy. These sand sucking cowards started the war, we need to make sure we end it. I will say one thing, rather than go to Iraq, we should have finished Afghanistan first. Making sure Osama's head was hung publicly for all to see. Him and all his followers deserve to die and will. Yesterday isn't soon enough. The U.S. of A. has found one thing out. Many who were supposed to be our friends, are not. They're two faced yellow bellied snakes in the grass. We're taking note.......

Mike,

It sounds like you're on your way to mastering the ole dog. Good luck to you to finish it and pass the exam. I think the other gentleman will do ok too, once he gets past the hurdle of "needing" to get started. Again, it can't be emphasized enough, anything worth having, takes work. To be handed it on a platter, takes all the meaning away from it. Accomplishment makes your life worth something.

DM, you seem like a thinking kind of guy.

Here's some food for thought. Please accept it in the tone is intended.
I am not trying to start a fight.

>
> I don't entirely agree with the war myself - BUT - the French did go behind
> our backs and deal with Saddam when he was supposed to be having limited
> sales of products. As it turns out, the son of the U.N.'s - Anon - made
> deals contrary to a deal signed off by many - also.

These "Facts" are speculation fed into your media. No proof of the facts
that you so liberally support exist. THAT is a fact.

In my opinion, the U.N.
> is worthless. It hasn't had the balls to stand up to do anything productive.
> Maybe if the UN sent in troops to Iraq, ours could come home, the Iraqis a
> bit happier and allow the process to continue in a more peaceful manner. IF
> you don't think we hate seeing 1000+ dead - you are so wrong. I have a son
> in the service - 3+ years now, a nephew going into the service - presently
> in boot camp as well as a few young men just graduated this past year from
> High School. One of which was sent to IRAQ right out of Basic. I don't want
> to see them end up "dead" anymore than anyone else wants their own to die.
> However, it is a choice they made and will either live or die by it, by the
> grace of God.

The U.N is being undermined by the Good ol' USA. In case you missed it,
the U.N. did NOT support invading Iraq, the U.N. was undermined by the
USA and the USA acted outside of the boundaries of the U.N.

If the U.N. is now less trong, it's because your government deliberatly
undermined the U.N. in the interest of oil and greed.

>
> As to the torture..... Any "torture" going on isn't any where near as
> "deadly" as the beheadings going on. But - then again, war is war.

I get it now...torture is justifiable because of the beheadings. Is that
it? It's not Americas fault that Americans tortured...they MADE YOU DO IT?

I can say
> the US plays by rules (a weakness) when others do not. '

How do you figure that the US plays by the rules? Torture is against the
rules.

Those people in
> Guantanamo - are being fed - probably better than they've ever eaten - and

> cared for medically, thanks to the US Tax dollars - whilest our seniors
> struggle to pay for life saving medications and so on.

Those people in Gitmo are being held illegally as "enemy combatants"
which is a non-existign term. They are being denied right to trial,
denied freedom, and denied access to lawyers and even to the Red Cross.

Furthermore, no one knows (including you and I) how they are being
treated or mistreated. Even the Red Cross is being denied access. Well,
that isn't entirely true is it. Seems a few were released to the U.K.,
where they spoke out about being tortured BY AMERICANS.

And if you came here
> on a green or whatever color card to live, just think - you'd qualify for
> welfare and probably live better here than there - how about that! OR be
> claimed for diplomatic immunity or political asylum and be set for life.
> That's how free we are with our tax dollars. Talk about torture, those
> bastards being held - deserve nothing from my tax dollar.

Why are they "Bastards"? You don't even know what they did, nor do you
know what is happening to them. Don't you think a court should decide?
Don't you think that you should hold the hatred until you know what the
facts are?

Bread and water -
> that is all. PERIOD. They're living longer in our custody than many who've
> ended up in their custody. Our mistake, is the media making it an issue.
> They need to keep their noses out of it. We need more guys like Patton. He
> helped save your asses, I'm sure he'd be rolling in his grave to know how
> pitifully this war is going. We are holding back way too much. Had we went
> in and kicked ass as we could and should have, this crap would probably be
> over. WE pissed around with that one cleric for a few weeks trying to talk
> to him. SCREW THAT. Bomb the S.O.B.
>

Might makes right huh? Have you no respect whatsoever for the value of a
human life unless it is American?

> WE don't bomb mosques and churches. Those bastards have - like 8 in the past
> few months. Yet they hid in one so we wouldn't go in after them - using our
> weakness against us. They knew we wouldn't attack a mosque.

Untrue. America is "on the record" in stating that they will bomb
mosques if they are being used for military purposes. And many mosques
in Iraq have been flattened.

It is they who
> are cowards. Afraid to fight like men out in the open.

How do you fight the world's strongest army without equal weapons? Step
out into the open and get blown to bits like "men"?

Simply put, if you believe in your position, you do what you can with
what you have. It isn't pretty, and I do not condone it anymore than I

condone massive bombing raids by America. I hate war. Period. No matter who conducts the violence.

It is they who will
> kill innocent people with out provocation or justification. They're killing
> their own people now......women and children alike. What does that say?

It says that you are only seeing your media. Suggest you balance your point of view by reading other reports. Start perhaps with

http://www.aljazeera.net

It really is helpful to see both sides even though both have their own agenda. I suspect that the truth lies somwhere in the middle. As they say, the first casuality of War is truth.

Yet
> more and more are signing up to become Police and Military over there for
> their want country - obviously because they too want change.

I suspect that all they want is a job, a pay check and the chance to feed their families.

Yes, the war
> could have been better planned - especially the post Saddam period, but
> we're stuck there now and need to do whatever is needed to get the job
> done - otherwise those 1000+ will have died in vain. Much as it seems our
> thousands who lie on your soil - have. So much for gratitude. Oh yeah, in
> case you didn't hear about it - Saddam's own sons were raping young girls of
> about 12 years of age, maybe younger, killing people as they chose - to live
> in luxury. Lawless disregard for human life. Any who dared speak against
> them - died. They were powerless to stand up to them. I guess you approve of
> that kind of living? You agree with doing little 12 year old girls??

Nope. I didn't approve when the U.S. soldiers in Japan got caught raping 12 year old girls a couple of years ago either. Americans, Canadians, the French, the Italians, Germans, and every other race in the world contains bad people. And bad people need to be stopped everywhere. Not just in Iraq, where their oil motivated a response. How about all the other despots of the world? Ignored because they have nothing of value?

That's not right now is it?

They
> tortured their own people for gosh sakes, testing chemical weapons on them.
> Maybe there was no WMD when we went in, I'd like to have seen it myself, but
> you must admit, his past torture using weapons of chemical nature and his
> refusal to come clean - did look suspicious.

Nothing looked suspicious to me except for Powell showing the U.N. and the world satellite images of milk trucks and claiming that they were chemical trucks even though the U.N. inspectors disagreed. The U.N. was conducting inspections and completely America blew them off. It was contrived and you were duped by your government if you believe

otherwise. I feel for you. America's intent was clear LONG before the invasion. All they wanted was a trumped up excuse.

Actually, I think they recently
> found some things - hidden. Maybe not the stockpile we were led to believe
> existed, but still it shows signs of them being in existence when they were
> being denied all along. Don't forget, we were stupid enough once to be
> Saddam's supporter - then he turned on us, as do many who we help -------
> hint hint.
>

Nope. They found remnants from pre-1991 (according to both CNN and Aljazeera.net). Check for yourself.

As for Saddam, he was acutally put in power by your government. What happened to democracy back then? When it suited America a DICTATOR was appointed. When it didn't, he became the enemy, in the name of democracy. It would be funny if it wasn't so awful and sad.

> I don't fully back Bush in his reasons and totally resent some of them, but
> I do care about this country.

I know you do care about your country. It shows in your response. But you need to look at things from a clearer perspective. The facts are there, and should not be ignored. It is not your patriotic duty to ignore wrongs commited by your government. It is not unpatriotic to say "hey, you LIED to us and our kids are dead because you lied."

There are many things I and many others don't
> agree with in this country or even with each other regarding policies, but
> we're here and we have our rights to speak out. We wouldn't have it any
> other way. I just wish we would cut off ALL foreign aid - cold turkey and
> let them all fend for themselves. At least we know, our military has balls
> to do a job, regardless the risk staring them in the face. We don't AND
> WON'T fold like a house of cards at a mere threat of terror. Oh and - don't
> worry - we'll be there to save your candy asses again - some day.

In all seriousness, who is going to save US from your government? And who is going to save YOU from your government? Seriosuly think about the answers to those questions.

If you look closely at things like the patriot act, you'll learn that your "rights" are being diminished big time. Did you know that the patriot act affords your government with the right to strip you of your citizenship if they believe you are a threat? That means that if they (in their unfettered opinion) think you are a threat, you are no longer American and have no right to trial, lawyer, or any other constitutional privileges!! Doesn't that scare the crap out of you?

If I'm not
> mistaken, sometime recently your leaders sort of snubbed somehow -our fallen
> soldiers - who helped save your candy asses - on a day when they'd have
> normally been recognized. And you expect us to be in a good frame of mind

> about back stabbers? I think not.
>
> To be fair(sigh), I tried to credit the French with something, but I find I
> was wrong about one thing. I always thought the French - created the "French
> fries" - which are so popular here. Turns out, the French had nothing to do
> with it after all. Sheeesh... Just what DID you do for us - to the good?
>
> 9/11 is a date "I" will never forget. That - like Pearl Harbor, will live in
> infamy. These sand sucking cowards started the war, we need to make sure we
> end it.

Let's see if I got this straight by reading that last paragraph: Some "sand sucking coward" terrorists in AFGHANISTAN started the war and forced America to respond to their actions on 9-11... by invading IRAQ?

Hmmmm....seems you are buying the media B.S. hook line and sinker.

Perhaps if the Afghan based (Saudi) terrorists do it again you guys should invade Finland? Makes about as much sense.

Oh no wait a sec Finland has nothing the American rulers want. There's that pesky greed thing again.

I will say one thing, rather than go to Iraq, we should have
> finished Afghanistan first. Making sure Osama's head was hung publicly for
> all to see. Him and all his followers deserve to die and will. Yesterday
> isn't soon enough. The U.S. of A. has found one thing out. Many who were
> supposed to be our friends, are not. They're two faced yellow bellied snakes
> in the grass. We're taking note.......
>

I hate to break it to you, but that sounds like a threat. NOBODY like being threatened, especially by the school yard bully. Why can't you Americans play nice instead of threatening anyone who has a differing opinion? Really, threatening people is contemptable.

Last thought.... if you want to really see a different point of view, visit

http://ifamericansknew.com

and read it all. It might give you pause for thought.

Well, some of you anyway. It really is worthwhile raeding...at least so that you understand the other side's perspective.

With understanding comes peace.

OH YEAH -- better get informed -- here is a start
FCC Sends Ex-Ham to the Slammer
from The ARRL Letter / ARRL
Website: http://www.arrl.org on January 26, 2001
View comments about this article!

EX-HAM GETS JAIL, PROBATION FOR UNLICENSED OPERATION

Former amateur Richard Allen Burton this week was sentenced to three months in jail and one year's probation for unlicensed operation of a radio transmitter. Burton also must undergo psychological treatment.

Burton was sentenced January 22. The FCC says he'd been operating without a license on repeaters in Southern California. Burton is scheduled to report to the US Marshal's office on February 26 to begin serving his jail term. He has been free on $20,000 bond.

Formerly WB6JAC, Burton, lost his General ticket in 1981 as a result of unspecified violations. Since then, he's racked up a lengthy history of alleged unlicensed operation, most or all of it on amateur frequencies. He has served jail time and probation as a result of earlier convictions.

Burton was arrested last August 5 following his indictment by a federal grand jury in California. He faced six felony counts of violating the Communications Act of 1934.

I am new to ham. I have a 2 meter only mobile rig in my truck. I have been thinking of getting a dual mode 2m 440 for the truck. Could I work a satelite form my truck with this radio? Can I work on with just my current 2 meter only and scanner? Can I use a homemade antenna? Thanks for any help!

Yes, learning code is a bore. Once you master it though, it is a lot of fun. When listening to a good sender it can be a positive experience. HANG IN THERE!!!!

Most are setup for high band in, low band out. And FM is not a 'normal'
mode for satellite work. However there are some that do/did work FM.
SSB/CW is the prefered mode.

> I did have some questions though. Do you use ssb capabilities alot? I
> mean, are there alot of people on ssb?

Those not on FM are on SSB . It is a different mode of operation. Activity
depends on your local situation.

Are there ssb repeaters?

Possibly, but very few indeed.

Seems
> thid capability adds alot of costs into a radio. What about 440 mhz?

440 is just another band that is authorized for Amateur radio use.
Generally speaking it has less range than 2 meters.

I
> noticed you talked about the skywarn system. I checked into it and it
> seems I should be able to acess it. It has several repeaters linked. It

It means the seller claims it was recently sent to the factory for repair/alignment.

Yes all radio's need a tweaking from time to time. Components change with age you know.

>
> By the way I finially got into the morse code tutor and played around
> with it a little. It was hard for me to understand the dot's and
> dashes, they went faster than I could recognize them.

And?

What is the test
> like when you take it?

If you have learned the International Morse Code the test is a breeze. If you have not then you will fail.

I assume you have to memorize the dots and
> dashes for each letter, or do you have a "cheat sheet" where you just
> have to figure out what is being played and can refer to something that
> is already written down for each letter?

That has to be the dumbest thing I ever heard. Let me ask you this....do you use a cheat sheet when having a conversation with another person? Of course not. Morse Code is a simple language that consists of only TWO characters. A dit and a dah, not I didn't say Dot and Dash.

Memorization will only allow you to achieve up to about 10 words per minute. After that you will have to re-learn the code. So do it right. Go to the ARRL, www.arrl.org and get their code tape, or other folks, your choice. Use the Farnsworth method and have fun.

Lloyd is back because the owner of NIM Busters deleted the forum from Network54.com. Lloyd's other buddies will probably be along shortly.

The reason for the termination of the forum is unknown, but speculation is that someone finally got up the gumption to take legal action after NIM Busters regulars showed up on his forum and trashed it. The victim supposedly had lawyers obtain a subpoena for network54's log files and serve it over the weekend. The intent is to track down the people who regularly used NIM Busters and to take further action against them.

The owner of NIM Busters deleted the board and ran for his life, probably after Network54 informed him that they were going to honor a subpoena concerning his board.

Jon Cunningham could also be involved, since NIM Busters regulars made it a habit to harrass Jon via email, and that has Lloyd badly frightened. Jon blamed Lloyd for his problems at first, and threatened legal action against Lloyd.

But that isn't the end of it. The FBI was also telephoning NIM Busters regulars, thanks to some idiot who kept dumping NIM Busters posts into the FBI's email box in Pittsburgh, PA. The FBI even called Lloyd at one point, another reason why Lloyd is frightened.

My own suspicion is that Lloyd is the victim of an impersonator whom we all know. Hopefully, the investigation of Network54's log files will lead back to the imposter and he will finally have to pay for his actions. I'm looking forward to watching this latest episode play out.

Once you get on the air and have to shut down your voice, RTTY, and PSK31 operations, etc due to bad conditions, you may think twice about the "never use it again" idea.

Once you get involved in contesting and find that CW contacts are double points, you may think twice about the "never use it again" idea.

Once you miss that rare DX station because he is only operating CW due to conditions, you may think twice about the "never use it again" idea.

Once you get past the learning stage and get competent at it, you may find CW to be fun and you may think twice about the "never use it again" idea.

>

Many things that we need to learn, for whatever reason, are boring. Just keep at it. As some have already mentioned, try to make a game of it.

I have found that the biggest "barrier" to learning Morse code is unrealistic expectations. No matter what the "wunderkinds" can do, it takes a typical person 30 hours of study and practice to get to a reliable 5wpm. People seem to think that if they can't emulate the superstars who "learn it in a week" that they are slow or having problems when in reality they are actually doing fine.

Assuming that you are using a good training tool such as the many software trainers out there (I recommend G4FON software), it will only take two 15 minute sessions per day for two months to get the 5wpm. It is important to break it into smaller sessions like this so the brain doesn't get fatigued. It is important to practice daily or nearly daily so that one doesn't backslide and forget what they've already learned.

This is a free country and God is whatever you want to make him or it or ..... I prefer to believe we are just another animal period. Godless yes but I have and most Godless people that I have known and still know have high morals. I do question yours because of your current ignorant statement. Party affiliation has nothing to do with it.

I an nameless because I do not trust the current administration period or for that matter most God fearing people. I have gotten this way over time. Just tell me how many people in your church you really trust.

The current adminstration probably doesn't read the DX newsgroup, so
you're safe here with us.

Is it Whacko Week at the Zoo or what? The DX newsgroup is starting to
look like the results of a program to install AOL and internet service
at mental institutions.....

>
> Let's see if I got this straight by reading that last paragraph: Some
> "sand sucking coward" terrorists in AFGHANISTAN started the war and forced
> America to respond to their actions on 9-11... by invading IRAQ?

Nope... nothing to do with IRAQ, but while I'm at it, and since they all come from that part of the Brain fried region of the world, I may as well include them in the topic. Afghanistan DID cause the war which we're at with - where they are concerned. As I said, we should have finished off Afghanistan. Actually, I'm not so sure it is "all" Iraqi's doing the fighting against us. Many are coming from other countries near by. Oh yeah... A couple of those countries are supposed to be our friends too, but they do nothing to stop the problem. Gee, how about that. And IRAN, some are coming from there, after IRAQ kicked their asses. Damned suck asses.

>
> Hmmmm....seems you are buying the media B.S. hook line and sinker.
>

Not really. I watch several sources, some of which hold nothing back when it comes to bashing the government when they see fit. I take all reports and come up with what they all agree on as being the case. But I'll agree, some media is laced with bull shit. For example, I was watching a news cast one night on a particular channel. They showed the interior of a plane laden with flag draped caskets. You could easily count 20 right quick. The reporter said... Oh, those are not from Iraq, they are those of the Astronauts from the recent shuttle incident. BULL SHIT. There were only 7 of them. Since when do they put a piece here and a piece there in different caskets? THEY DON'T. So, yes... the media can be full of it at times. Some of them, think we were born today. Most of us are too intelligent to buy into that bull shit. IN case you didn't see it, there was a massive show of anger towards Bush for the IRAQ invasion. More people came out to vote than in previous years. I KNOW. Our own polls doubled. Whether you like him or not, he got back in. So, we must deal with the present and future.
As I said, I don't agree with him 100%, nor do many others, but as long as he is commander in chief, he is running the show. IF our "media" were "totally" pro-government, why would they show the "torture" as was happening, to make our government look bad?????? So, they DO set out to bash the government when they can. And again, those who did it - ARE being punished. So, it's not like they're getting away with anything. See, we DO play by the rules. IF we were that ruthless, we'd wouldn't be prosecuting our own.

> Perhaps if the Afghan based (Saudi) terrorists do it again you guys should
> invade Finland? Makes about as much sense.
>

I can agree with your point. I didn't say I "agreed" with the Iraq invasion - least not based on the WMD.

> Oh no wait a sec Finland has nothing the American rulers want. There's
> that pesky greed thing again.
>

Finland minds their own business - too. Come to think of it, no, I don't think Finland does have anything we want... Except maybe a few of their gorgeous women! I could go for that. But certainly not worth fighting over! No woman is.

> I will say one thing, rather than go to Iraq, we should have

>

Threat? Come on..... A figure of speech. It isn't like we're going to come rolling into France to kick your asses. We're just taking note of who our true friends are. Nothing threatening about that! I always take stock in who I can count on when the chips are down. Everyone should. Someday you may need help and find no one home.

> Last thought.... if you want to really see a different point of view,
> visit
>
> http://ifamericansknew.com

Being that isn't Al-Jazeer (at least it doesn't appear so) I may take you up on this one.

> Well, some of you anyway. It really is worthwhile raeding...at least so
> that you understand the other side's perspective.
>
> With understanding comes peace.
>

I am very understanding - until innocent lives are taken for no reason. Then I get pissed off. And until that donkey sap sucker with the towel wrapped around his head and all his followers are dead, I'll remain pissed off.

NO ONE - not even those Muslims who follow the Koran and see it differently than the donkey sap sucker, can't even understand why he thinks he will or should be - ruler of the world. He's got a death wish, and it's too bad it hasn't already happened. IF they want to see Allah so damned bad, we ought to round them all up and give them a free one way ticket. An island with a nuke planted to blow them to Allah and back.

I just hope when Osama comes knocking, you guys don't give in. It would be a shame. For you and everyone else. Sadly, I see your government caving in. Sorry, but I call it as I see it. One other already did. So much for having balls to protect your people against thugs.

If you care to reply back, leave Al-Brazeer out of it. I don't want to hear anything that whacko bunch has to offer. Nothing anyone offers from them - is credible in my book. As far as I'm concerned, they're supporting Osama Bin Laden and his bunch, and need to go to hell with them too.

DM

If that is your attitude then you need to forget about ham radio. Ham radio
is for people that are self starters, like to experiment, enjoy challenges.
That obviously is not you.

wrong. the pojnt is, you *can't* let it go. you are wrong, you know it and
the more you protest it, the more you prove it. its that simple. my history
has very little to do with *your* activities. whats that make now, the 12th
or so aol screen name you have?

like I told john, you really shouldn't be casting stones, not with that
glass house you live in.

Look up Code-Quick. It is a different way of learing morse code. I struggled
for 29 years and never was able to learn it, and in a few months passed
the 13 wpm test and although I never did take it, could have passed the
20.

Morse code is like the old joke, "How do I get to Carnegie Hall?", "practice,
practice, practice".

Geoff.

Do a web search someday on your name or id and you will find every
posting you have ever posted will show up in the search. Newsgroups are
great for the government to find out about lunies or people that don't
agree with them.

Soooo .. now the FBI is involved .. Hmmmm .. that's what can happen when there are high-powered lawyers in the family. Well hopefully Christy and Jim (and who knows how many more) can clean their clock in court.

As for Mr. Davies, we hope he's weathering the storm like a trooper. (Late word is that he *still* has not stopped by KRBC for that "heapin' helpin' of Southern hospitality".

Then again the question arises - was it really Mr. Davies who started this thread.
Here's the acid test - "What kind of *beast* would do this?"
Hint - the answer is 2 words.

I have heard those code quick tapes are a good way to learn code for the 5 wpm requirement. Is this true? Where could I find a used set of tapes/cd's to purchase?

The problem is, it isn't just *me* going on about it. have you noticed that
"southdakotaradio" just has to interject his *opinion*.

They leave me alone, I'll leave them alone. its as simple as that.

former "handle I used when on 11 meters. don't hear me down there do ya? fact is, I haven't been on "11" for a better part of 10 years. ancient history that has no bearing.

>
> Mr. Pot, meet Mr. Kettle.
yeah, he's calling you by the way.

I don't think its obvious to you yet, so I'll make it plain and simple: your attempts to harass will only cause me to dig in deeper (and this you don't want, because I might actually find something on you that can be really damaging). The best advice is for you to leave it alone. don't pursue it any further. you have lost the war (and are too stupid to realize it).

lastly, you are being dropped into the ignore filters, so unless someone else quotes you (or you change screen names AGAIN), you will not hear from me. Any further attempts on your part will be dealt with appropriately.

Doesn't matter. You stop, they stop.

>They leave me alone, I'll leave them alone. its as simple as that.

Which guarantees perpetuation. Did you ever think that the possibility
exists that you're part of the problem. If you were to adopt just the
second half of your statement, and delete the conditional part, you'd
solve the problem.

>the difference between intelligence and stupidity is that intelligence
>has its limits.

Hmmm, now if only you could recognize and heed the advice in your own
tagline.

Just stop. Don't even reply to this post. If you can't keep from
replying then you have tacitly acknowledged you are part of the
problem.

I learned high-speed code when I was in my early teens. I learned code in cub scouts at age 8 (?) I had some advantages, in that A) it was like a 'secret code' which made it fun for a teenager, and 2) I had to use real on-the-air conversations, which made it much more interesting, instead of boring computer-generated text, and III) young teen-agers learn things and keep them much better than us old farts do.

If you are trying to learn anything (CW or anything else), if you think you will hate it, you will. Use positive self-talk (again, CW included, but this works for anything you are trying to do): if you say "I am going to enjoy this", you probably will! Or even "I can do this!" or "No one can stop me from reaching this goal."

Next contest (if you are into contests), tell yourself "I will make 200 QSOs tonight. I can do it. I've been in contests before, and I know I can do this."

If the number is 500, use that.

If the goal is "enjoying learing CW", use that.

You can do it.

If you don't want to learn the code, that doesn't make you a bad guy, but you will be missing a lot, if you like ham radio. You can still have a lot of fun with ham radio without knowing code, of course.

I found this posted today, Thought I would share it with the group.

-JM

I WONT BE IGNORED

I may be a 70 year old man with nothing else going on in my life but I won't be ignored by a bunch of 435er's who I know is spending the day around their radios listening to everything said. I know you think I'm being obserd with my demands for "air-time" on your repeater but I want you all to be my puppets. Watch how I pull the strings here on 435.

My new "Rules Of The Road" for the 147.435 repeater:

I play my tapes when ever I want. You don't complain, You just listen - no turning off your radio - no talking over my taped message - no walking away to take a leak - NOTHING. I don't want my tapes interrupted for any reason whenever I choose to play them you will all need to stand by. If any parts of my taped announcements are interrupted I will punish the repeater with several hours of nonstop feedback. Even if my tape player fails for what ever reason I will punish the repeater for several hours with feedback. If you interrupt the feedback I will add one hour to my feedback schedule for each interruption. If the repeater times-out during my feedback schedule I will start the feed-back schedule timer over again. I will play my tapes over-and-over until I get tiered of hearing them. If when I un-key I hear any complaining I will play them again. When I stop playing my tapes and un-key you are free to start a QSO but keep in mind that as soon as you do so I get to jam over the top of you whenever I want with rude comments about your family background or telling you to "get the fuck outta here retard". You will not go to another repeater or any simplex frequency to continue the QSO that I interrupted, If you do I will call you jammers and proceed to play my tapes over-and-over again. If you don't start any QSO's on 435 so that I can jam them I will start kerchunking the repeater until someone complains about it and then I will call you jammers and retards. If the repeater is turned off while I am playing my tapes or interrupting your QSO's I will go to the output and complain that the repeater owner is a coward and afraid of my words and then make a chicken noise like this BOK BOK while calling him a chicken and a Riley supporter. No QSO will be permitted on 435 without including me in the round-table. If no one is talking and you want to start a QSO you first talk to me asking me how I am doing and if there is anything you can do for me.

As you can tell here my 435 rules of the road pretty much favor me over you in all points of conflict. I have all of the say-so about this

hobby and you have none. I don't care about how much time or money you may have invested in radio and repeater equipment, I mean business here. I may look and sound like a 70 year old senile man but I am a man on the edge. I have absolutely nothing to lose here and everything to gain. I will die sooner rather then later and I'll bet that my death will come long before the FCC and their slow bureaucracy can do anything about me. I have protected my property from possible vandals. I have protected my assets from potential legal confiscation. I signed over power of attorney to undisclosed family members to future protect me.

I am counting on you the 435 users to be my "squeaky wheel". I expect that you will get pissed off enough to daily contact authorities that will find that there is nothing more that they can do other refer to the same FCC and their slow bureaucracy.

For a first timer, I'd put the number a little bit lower. Perhaps 100 on voice or 50 on CW. That way the person doesn't have to try to run the full contest and doesn't get burned out from the effort.

I have found that I actually do better in the CW contests than voice even though my CW skills are rather modest. My personal all time best was on CW and was double the number of contacts from similar contests on voice.

Good point. Pick a number that is something you are happy with. My
point was that if you set a goal, you will know when you have reached
it, and if you plan to enjoy it, you probably will!

hi

I have one of these weather stations
the outdoor sensor is about 12 feet away from receiver
and the receiver is about 6 feet from a hf / 2m and 70cms
radio installation and all is fine , no problems .
however if I put the receiver within 2-3 feet from the radios
I can sometimes pick up the sound of the sensor in my
speaker system , and I have been told that it is also transmitted
on my outgoing audio , must be some sort of mic lead pickup
not too sure , but in general its quite expectable .

hope the info helps.

(ps) mine was from aldi the £9.99p one last year deal.

The best QSLers are the JA's -- nearly 100% + Phone, CW, or DATA

And for WAS -- the novice band -- nearly 100% so my log book sez.

> out.
>

Well Chris, I hope not to hang out for long, just trying to straighten things out, Again!

1. I did not call Mr. Jon Cunningham. He is aware of this and is not pursung any more actions.

2. I did not e-mail the FBI in Pittsburgh or anywhere else. I even called the FBI tonight in Pittsburgh and the lady didnt have the foggiest idea what was going on. I am sure if I was the center of a "major" FBI investigation, I'm sure I would have gotten a call by now, eh? I'm sure the FBI wants to hear my side too?

3. Yes, there are many imposters of me on the internet. Both Jon and FBI are aware of this by now. I'm sure the FBI is very through in its investigations.

Like I said, I aint got nothing to hide....

Gosh, I just hate having to keep having to defend myself against false accusations, it just getting very old!!!!

Just leave me alone...

Lloyd Davies

The ARRL wants Jack Gerritsen ex-KG6IRO thrown in jail!

ARRL Urges Action in Gerritsen Case

NEWINGTON, CT, Dec 14, 2004--In a strongly worded letter to FCC Enforcement Chief David Solomon, the ARRL has called on the FCC to intervene with the US Attorney's office in the case of former amateur licensee Jack Gerritsen, ex-KG6IRO, of Bell, California. The FCC already has affirmed a $10,000 fine against Gerritsen for interfering with Amateur Radio communications and recently proposed imposing another $21,000 fine for additional, similar violations. Gerritsen, who erroneously claims he's still licensed, allegedly has been bombarding numerous Los Angeles-area repeaters with verbal tirades for many months, often identifying with his now-deleted amateur call sign.

"It is urgent that the United States Attorney's office be brought into this matter without delay, and that procedures other than monetary forfeitures be brought to bear," ARRL General Counsel Chris Imlay, W3KD, wrote on the League's behalf in a December 13 letter to Solomon. Imlay asked Solomon to intervene "in this one instance, so that this matter is resolved without further delay." He suggested the time for gathering additional evidence was past, since the malicious interference continues.

Things were comparatively quiet on LA-area repeaters while Gerritsen was said to have been out of the US for about three weeks. When he returned to California on or about December 9, the transmissions resumed "with a vengeance," Imlay said. Repeater owners shut down their machines "to avoid the constant barrage of malicious interference," Imlay said.

In his letter, which also was e-mailed to Solomon's office, Imlay recounted some of the history of the Gerritsen case. In 2001, the FCC's Wireless Telecommunications Bureau (WTB) rescinded Gerritsen's Amateur Radio license grant after it learned of his earlier state conviction for interfering with police communications. As a result of the conviction, which he's appealed, Gerritsen ultimately spent some time in jail. He continues to maintain that the FCC can't take away his operating privileges without a hearing.

Gerritsen's now-pending Amateur Radio application remains in the hands of the WTB, which also will decide the fate of his General Mobile Radio Service (GMRS) license. The FCC set aside that grant last fall because of the allegations of continued unlicensed operation and deliberate interference. A Hearing Designation Order for Gerritsen is said to be

working its way through the FCC. But, Imlay noted, the slow pace of the case has angered and frustrated the Amateur Radio community, which has begun to view the FCC as powerless to halt the interference.

"Deterrence is critical to this effort," Imlay said, adding that the Commission's perceived inability to stop violations of Sections 301 and 333 of the Communications Act of 1934 and numerous Part 97 regulations "stands to quickly evaporate the years-long effort that has been so successful." Suggesting that the FCC will have a tough time collecting the fines it's imposed or proposed to levy on Gerritsen, Imlay said further delay will totally erode the Commission's excellent track record--in particular the work of FCC Special Counsel for Enforcement Riley Hollingsworth.

"Time is very much of the essence in preserving the sense of deterrence that exists generally in the Amateur Service," Imlay concluded.

The FCC's Los Angeles District Office, under District Director Catherine Deaton--not Hollingsworth--has primary enforcement responsibility over the Gerritsen case. Agents from that office already have tracked interfering transmissions to Gerritsen's residence and issued oral warnings that by all evidence have been ignored. The FCC has said that Gerritsen refused to let Commission agents inspect his radio transmitting equipment.

Deaton's office issued the FCC's recent Notice of Apparent Liability, proposing the $21,000 fine for Gerritsen's "unauthorized willful and malicious interfering radio operations." Imlay said the interference extends beyond California, since the repeaters are linked throughout the US Southwest, and the interference has disrupted "not only regular ongoing Amateur Radio communications but emergency communications as well."

Imlay said several hundred ARRL members have "repeatedly and with ample justification" complained to the League about Gerritsen's alleged activities. He called on Solomon and the FCC to "arrange for appropriate proceedings to be initiated to cause the incessant and damaging malicious interference to cease."

FCC Enforcement Bureau Assistant Chief George R. Dillon acknowledged the ARRL's letter December 14. "We are treating the allegations contained in your letter and the complaints we have received regarding his actions very seriously," Dillon said.

Anybody who gives a dime to the ARRL is stupid.

Same for anybody who believes the ARRL has ham radio's
best interests in mind.

Look for a major investigation into corruption, fraud, waste,
abuse, greed, & criminality at the FCC in 2005.

ARRL & FCC are both enemies of ham radio.

> the FBI wants to hear my side too?

No, it was probably Wiseman who forged return addresses in NIM Busters
posts and attached your name to the posts themselves. Replies were
automatically emailed to the FBI by Network54, because Wiseman checked
off the "email replies" option box.

All of those details are still retained in the Network54 log files,
even though the forum owner deleted the forum. If someone is looking
into the logs, it could mean that the imposter is about to be caught.

>
> Just leave me alone...
>

It may be a good idea for you to take your own advice: Just leave
your antagonists alone. What happened immediately after NIM Busters
was nuked a couple of days ago? You showed up at one of your
antagonist's web boards (Pedo Busters) and began to post as though
nothing at all had happened. When NIM Busters was reincarnated, you
immediately returned to that board and resumed posting.

For that reason, the "Just leave me alone" plea you repeatedly use
isn't believeable any more. Your own actions have long ago made a lie
of that request, and any unpleasant situation in which you find
yourself is ultimately your own fault.

All repeaters are in the FM mode and are for the most part put up for general
conversation, but during severe weather, might be used for skywarn.

>
>I noticed some of the older radios dont have the "tone feature". Does
>this mean some repeaters can not be acessed?

There are some 'open' repeaters that don't require a PL tone for access, but
they are getting rare. Most repeaters will require a PL to access, but you can
listen to them without any PL tone capabilities.

>One of the links you forwarded to me was this one:

>think. Is this a very good radio? WHat are these worth?

Dunno what they are worth, but they are a nice older radio. This model is
primarily a SSB radio used for the intention of long distance DX work, but
could be used for FM repeaters. There would be better radios out there for
mainly FM repeater work that have more memories and a PL tone board.

>
>I noticed some of the add's said "just sent to the factory and aligned"

As they age, radios need alignment, but for the most time, it's plug and play.
There isn't anything in there for the operator to adjust unless he has good
experience and equipment for such things.

No, you're question would more appropriately be, "did I?"

And the answer is yes. Because you can't control yourself. It apparently is impossible for you to read something and not respond to it. Therefore you are fair game for any slightly off tilt miscreant to push your buttons and pull your chain. I'm not even one of them and I got you to respond.

If you get your jollies continuing to engage in a pissing contest that's gone on for more than five years, then you'd better stop whining about "he keeps doing it." The fact of the matter is, YOU keep doing it, too.

Maybe, as you allege, you only react, but that's just as bad. When my five year old whines, "he started it," he sounds just like you.

Since I'm not one of the off tilt miscreants, I will stop now, because there's no point in wasting time on those who will not be rehabilitated. Also, I will stop because I can. You, apparently, cannot, as will be aptly demonstrated by your response to this post.

Buh bye.

The call was placed almost right after Lloyd signed off his shoutcast show "On the Domestic Front" where Lloyd was crying for real on the air about what was going on. Lloyd knows he did it and he spoofed the caller id number of Steve Holsten (Lloyd's only friend, but that is why Lloyd did it, thinking Steve would believe him) using a service called camophone.com or a similiar service. After that, Lloyd posted on NIM Busters that he opened up a Yahoo chat room. I went in the chat and spoke with Lloyd. He acted like nothing at all happened but for the last time, I also tried to be a friend to him. Which now I know is impossible until Lloyd gets the professional help he needs. I've talk to Lloyd enough that I am convinced he does need professional help.
>
> No, it was probably Wiseman who forged return addresses in NIM Busters
> posts and attached your name to the posts themselves.

I'm convinced that was Lloyd also. I saw the thread, it was meant for Roger Wiseman and others to reply to that their replies would be forwarded to the FBI.

Replies were
> automatically emailed to the FBI by Network54, because Wiseman checked
> off the "email replies" option box.

I'm convinced it was Lloyd. I saw the threads. Why would Roger set himself up with the FBI? Again, it was a set up against Roger Wiseman and a few others.

>>
>> Just leave me alone...
>>
>
> It may be a good idea for you to take your own advice: Just leave
> your antagonists alone.

He has been told that dozens of times only to come back. Sometimes he outright comes back, sometimes he'll invent characters like Jim Davies or impersonate others. He'll spam a message board into the group using multiple nyms, then use his real name to claim he had nothing to do with it. People have seen this on newsgroups for years from Davies. It is a sign of someone who is mentally ill.

> For that reason, the "Just leave me alone" plea you repeatedly use
> isn't believeable any more.

No it isn't. I even debated him once on a neutral forum and when Lloyd started losing the debate, all he could respond to is "fuck you" and "leave me alone", even though Lloyd challenged me to the debate. I used his own usenet postings against him including his racism, anti-semitism, and hatred toward homosexuals.

Another sign something is wrong with this man.

I've tried several times talking sense into Lloyd. It all failed and Lloyd deserves everything I and others throw at him for it.

Lloyd should simply walk away, drop that stupid "I'm a timelord stuff" that he pretends to be and leave these discussion groups.

Some are

> Is not having pl capability a problem?

Yes a big problem -- repeaters in many places are require PL (PL is a
motorola trademark by the way)
CTCSS Continuous Tone Coded Squelch System ia a better term
But You can add a PL tone generator if need be -- see
http://www.com-spec.com/index1.htm

>How do I tell if a repeater in my area has pl?

See Repeater guide at URL:
http://www.artscipub.com/repeaters/

> I have found a few of these on ebay for about 200 bucks or less. This
> leads me to another question, is ebay as good and cheap a place to find
> used equipment as say a ham fest?

No for e-bay -- tends to be higher priced -- Ham Fests are usually a better
deal -- In either case a question arises "Is the rig fully operational in
all respects and meets mfg specs?"

From e-bay -- I always e-mail the seller asking that and a money back
guarntee.

For Ham fests -- sale is often -- as is -- but since they are local --
hopefully you can get back to them -- ask the same question of the sellers
at Hamfests as well.

Some Hamfests will have the rig hooked up to a power supply so you can check
it to your satisfaction.

I am going to my first one in January.

That is part of the problem, but not all of it. "Sit in front of the computer to have fun studying Morse Code"? Not fun.

It MUST be interesting.

For example: My son wanted to get his code speed up, but couldn't spend much time on the air. Could I send him some links to code practice sites / programs?

I made some tapes where I invented two people talking in CW (one was him; the other was a trash-talking prostitute). Lots of words and terms that CW operators would never use on the air.

Probably, people my age (50-ish) would not enjoy this. But my son, almost 31, thinks that is funny. So I made it interesting, and he can't stop playing the tape (and HAS to learn code in the process).

When I learned the code when I was a teenager, it was very exciting to hear dits and dahs from faraway places. Now, it's exciting for teenagers to hear forbidden speech in Morse code (we'll see).

Whatever works.

All the best, and 73,
Dave
KZ1O

(don't bother to do the lookup - my son's callsign is KA1NHG)

The FCC doesn't give a rat's ass about hams, or about shortwave in general. Why? It's not profitable, it doesn't have massive lobbies spending obscene amounts of money to bring it to their attention, so it gets shafted. Hams interfere with each other all the time, and SW broadcast stations operate out of band (WHO gave WWCR approval to operate on 3210 when everybody knows that the US is not allocated any freqs there, that's tropical band for a REASON?) with impunity and the FCC does nothing because SW is the runt of the litter where broadcasting is concerned. The FCC spends big buck$$$ to hunt down every last FM pirate because the NAB screams about it, while SW pirates operate in the open for YEARS.

Also check the online classifieds. I have purchased several radios from hams on 'eham' or rec.radio.swap and have been quite pleased. I find hamfests to be overpriced because these guys are trying to make a living at selling equipment rather than selling radios for a recent widow, or a "cleaning out the shack" sale.

My advise: if you're looking for a radio to be used on FM repeaters and have no real interest in SSB or CW work, then buy a dedicated FM radio. You'll be happier (more memories, in board PL deck). Of course if you're actually interested in SSB/
CW on VHF then go for the multi mode! (you'll need horizontally polarized antennas for ssb/cw rather than vertical for FM work)

I agree with " Dee D. Flint, N8UZE "

Once you start learning the code, you MUST practice everyday.
I started then quit and restarted many times over.
If I had just stuck in there the first time it would have saved much time
and effort.

Also don't be afraid to take the code exam.
You don't need to have the attitude that you Must pass it the first time,
you will actually do better if you just think of the first time thru the
actual exam as a practice session.
It only costs a few dollars, and who knows you might surprise yourself and
pass. Even if you don't pass the first try it is still money well spent. You
will gain the knowledge of exactly how the exam process works and you should
be more relaxed and comfortable the next time you take the code exam.
Once you pass the code , you can renew your license forever "as it stands
right now".

Being a member of the Chamber of Commerce counts as having a license?
What an odd exception.

Harv, if you want to get the GMRS radios do a froogle search for the
Uniden handsets. I recently purchased my two GMRS/FRS handsets,
complete w/ rechargable battery, charging station and belt clip (the
only thing I think its missing is a slot for an ear piece) for $20
online, shipped.

I recently posted questions on whether or not I should shell out the
$80 for my license or not. After many posts, with recommendations,
I've decided to not get the license. It servers no purpose. There is
not instruction given, expertise needed, or private band assigned when
you get your license. Its a cleverly desguised tax by the FCC. And
from what I've research, not enforced, unless you deliberatly interfere
with other peoples communications, and those notices are sent to
license holders or those applying for thier license.

For SSB/CW work around 144.2mhz, all antennas should be horizontal, otherwise you throw away 20db in signal strength due to you being vertical and everyone else being horizontal. Because of this, omni directional antennas are usually horiz. loops or 'squalos', not verticals, and beams are usually 4 elements or more.

Note that there are no repeaters for SSB/
CW, it's all simplex so the distance you cover is dependent on the equipment you use. Even with 10watts and a homebrew 7 element yagi (and not that good of one) I worked about 8 states on 2m which was a lot of fun. You can work guys with a vertical, but it's tougher than even with a little 4 element beam. Most activity is either in the mornings when band conditions are best, or in the evenings between 5pm and 11pm. Just park your radio on 144.200mhz and let it run for awile. Eventually you'll hear somebody calling CQ and you'll get a feel for it. Both SSB and CW are focused on 144.200 regardless what the ARRL publishes for a CW calling frequency, then it's +/- from there depeneding on QRM. I've NEVER heard anyone on 144.100 which the ARRL still calls the CW calling freq.

Of course when the band opens up ... WHOO HOOO, the sky's the limit and you could find yourself talking to Texas or Florida even with only a couple watts out of your radio!

I'm probably misunderstanding what you are saying, but
you listen to this software, not look at it. There is no reason
to sit at the computer. In other words, it works just like tape.

Jack

No, Eric. The problem is you.

I had no communication with you for several months. Recently, I began a thread about the late Bill Cheek. This posting did not mention you or reference you in any manner. It had nothing to do with you, Eric. Yet, you felt the need to stick your nose in where it didn't belong and get involved. When myself and others took issue with your involvement, you then complained that we won't leave you alone.

This is the same pattern that you have been engaging in for nearly 10 years on the radio newsgroups: You involve yourself in a controversial manner with that which has nothing to do with you. Then, when you're called out for your actions, you whine and complain about how you're the "victim", how you're being singled out and picked on.

I would be happy to repost several previous examples of this if you wish me to do so.

Why must you always search for trouble on the Internet, Eric? From what I've been able to gather about you and your life, you already have plenty of issues to deal with. Do yourself a favor and stay out of that which does not involve you.

You worked 8 states using simplex or ssb?
Can I use a home built "yagi" type for both ssb and regular FM?

.>You worked 8 states using simplex or ssb?

There no ssb repeaters, so all ssb is 'simplex' (transmit and receive on the same frequency).

:^]

>Can I use a home built "yagi" type for both ssb and regular FM?

You can use the same antenna, but all SSB is horizontally polarized and all FM is veritical. So you can use a horizontal antenna to work repeaters, but your signal into it will suffer if it's marginal to start with. You could simply use a vertical to get into your local repeaters, and that will probably work quite well, but don't expect to work much SSB with the vertical since you'll have zero gain (or close to it) AND lose 20db due to cross polarization. That makes you pretty weak. The other way to go would be to put up a horizontal beam (4 el or larger) ... that will work pretty well on SSB, and while you'll still suffer the 20db loss into repeaters, you won't notice it as much.

Depending on how distant your local repeaters are, you could cobble up a simple ground plane antenna built around a SO239 connector for FM, and a simple yagi or quagi for SSB. Yeah that's two antennas, but the ground plane is almost free. I built my first beam on a scrap wood boom and number 12 copper house wire. Get it up in the air as high as you can, stick a cheap TV rotator under it, spend your allowance on *good* coax, and you're set.

:^]

I use my horizontal SSB beam for the repeaters, but then, I don't do much FM work anyway.

Try making recordings of code practice groups you yourself "send" using a code practice oscillator. This way you learn what your own keying sounds like.

Turn the lights down low and imagine that you are in Norway sending essential messages to England's SOE. It sounds silly, perhaps, but it does work.

One more thing. Try singing, yes, singing the letters as you hear them. Singing uses an entirely different section of our brain's memory than does listening to speech. Sounds absurd, but the Russians proved this by observing a veteran of WWII, who could not speak because of an horrific wound to a portion of his brain. The doctors were astonished to observe him singing songs he learned as a child.

Jim,

I've always believed that people who were musically-inclined (and specifically, people who play music) were more easily able to learn the code. I didn't have any reason to believe that, other than a coincidence I noticed from the newcomers I've taught. By jove, maybe you've got something there!

I learned CW as a cub scout and later got my novice ticket at age 13. I also feel that when a person learns something as a kid, he/she will remember it for life. Us older f*rts may not even be able to learn it in the first place, much less remember it.

For example, where did I leave my car keys yesterday?

2980. Walkie-talkie problem

Newsgroup: rec.radio.amateur.misc
Date: 2004-12-18 17:02:19 UTC
From: cynsunshine@hotmail.com
Message-ID: <1103389339.803270.216310@c13g2000cwb.googlegroups.com>
Source record: 54641

I have no idea if this is the correct group in which to post my problem, but I really hope that someone can point me in the right direction or give me some tips.

I have two model # x32x-2 wristwatch 2-way radios (they just say "made in china", there is no manufacturer listed; the box says "2-Way FRS/GMRS Wristwatch Radio") that I got from the Marlboro catalog this year and the other day one of them suddenly stopped receiving. The one radio works fine, you can talk and listen, but with the one that is problematic, you can talk into it and be heard on the good radio, you just can't hear anything on the bad one, like if I talk into the good one, nothing comes out of the bad one. The radios each have a screen that says "Tx" when it's ready for you to talk and "Rx" when it's ready for you to listen and on the bad one, the "Rx" doesn't even appear on the screen now at all, as if the listening/receiving function just suddenly stopped working.

Yes, both radios are set to the same channel (frequency) and there are no privacy codes set on either of them, and my boyfriend and I recently moved and I can't find my folder where I keep all of my instruction manuals so I can't even look for troubleshooting tips in the booklet until I find it and believe me, I've been looking all over the place where I thought it would be and I'm mystified. I'm not a person who misplaces things very often, so I can't understand where the heck that booklet got to...Marlboro, not being the manufacturer, won't be able to tell me squat, my only choice at this point if I can't figure out what's wrong and fix it, is to have them replaced by Marlboro before my item return window closes...I think I have 12 weeks from when I received them (end of October) to return them for replacement. The funny thing is, this is the first year I've actually received my Marlboro order relatively quickly and it's been screwed up...we received a keychain instead of a Zippo at first, then I noticed the cooler bag I ordered has a broken zipper so I have to return that, now the walkie talkie isn't working so I might as well return that with the darn cooler bag...and if they think I'm paying the postage to ship those items back, they're crazy...they already charged me like $24.00 in the first place to send my order the first time and I know my stuff didn't weigh that much, I used to ship stuff at my last job, it would have to weigh a LOT to cost that much. Sorry, I realize this is a bit off-topic and that my message is really long, but I needed to vent about this and I really would like some advice on my walkie talkies! Thanks to anyone who replies although I doubt I'll even get one at this point, that's the story of my life, Murphy's Law (anything that can go wrong, will).

Don't look for any investigations into corruption in the government until at least 2009 - when George Bush is out of office. BTW, with accusations flying about news media being either "left" or "right" oriented, I've bookmarked some news organizations in Australia and England. Interesting stuff. Of course, we may well find our ISPs start blocking these sites for some "unknown" reason too LOL

Did you get a load of the prizes he gave out to some folks who screwed up royally with this Iraqi mess?

Best regards from Rochester, NY

While you're at it, make a note of the frequencies of Radio Australia
and the BBC. I can easily receive Radio Australia here in California,
but I don't know how well it comes in back east. You might try their
morning freqs of 5995 and 7240 (the latter having some US ham QRM).
>
> Did you get a load of the prizes he gave out to some folks who screwed up
> royally with this Iraqi mess?

The BBC had an interesting take on that. They interviewed some woman
from an antiwar group in the US who noted that those three guys should
be being tried for war crimes, not given awards. You might also try
Radio Havana for a different slant on Iraq. It seems to me that lately
they've toned down the "evil imperialist capitalist" rhetoric.

All I have to say at this point is if you dont like Dave Made Fine but if it is because you have to wait for it your childish.

This is a ture story I know a guy that wanted a dave made 32 pill but got sick of waiting and bought a no name 32.
Im Waiting now for a Dave Made 32 pill I Admit I would like to have it now but i know When I get it I am going to stomp all over the No-Name, not just because they are better boxes but as im waiting for my 32 im setting up my car. Making sure everything is well grounded, tuned, and what not. The guy with the no name 32 is running it off of one alternator. I took the time and saved up and bought three big leece-neviles AND YOU KNOW WHAT IT TOOK 2 WEEKS FOR THEM TO BE SHIPPED TO ME. But it beats buying them from some one that has them in stock and charges an extra $100.00

Prozac625 is off the key.

Okay, I'll bite.

First off, I know nothing about these units in particular.

I did a search with Google, but could only find a X2X wristwatch radio, and a pair sells for about $40 or less. Is that the same as the X32X? I have no clue, but it would seem to me that you have three choices ... either send them back for replacement, try to find another pair on ebay for cheap (then you'll have three!), or try to fix it yourself.

If $40 is a strain on your current budget, then I'd send it back.

As for the last method, I wouldn't recommend this unless you're willing to give up on the unit, but you could try to figure out how to open it up without wrecking it and see if there's dirty contacts on a button inside. Sometimes some very careful cleaning of a switch will bring it back to life. The contacts inside may have oxidation on them and just sliding a piece of paper between the contacts, or cleaning them with an eraser will be enough to get rid of the gunk. NOTE: this would be a last ditch effort if you have never tried this before, since you may not be able to get it back together and end up throwing it away, but someone with experience doing this may be able to fix it if it's a simple problem and you'll be back on the air !

Just my .02.

Good luck !

Hi Folks

I have a Kenwood TS50 on a boat. Works great.

One thing though, when transmitting at 100 watts the GFCI electrical outlets open up when I key the mic. Doesn't seem to be a problem at 10 or 50 watts as far as I can see.

It's not realy a big deal but I am curious as to the cause. The coax from radio to tuner is run in a tray with other cables including ac power. No choice, it's the only reasonable path available. I wonder if rfi from the coax is affecting the ac circuits?

I have cables for instruments and auto pilot passing through the same area. THey seem unaffected. Quite a few people have suggested that I might find my autopilot going into fits and turning the boat when I transmit but fortunately that hasn't happened.

I wonder though why the GFCI's pop when I transmit.

Ohio/Penn DX Bulletin No. 690

The Ohio/Penn DX PacketCluster
DX Bulletin No. 690
BID: $OPDX.690
December 20, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, KA2AEV, NG3K, W3UR & The Daily DX, K4UUE, K4VUD, N4AA & QRZ DX, N4JF, K6JAT, K8YC, K8YSE, W0YG, CT1GFK, DL1EK & The DX News Letter, DL2VFR, DL5EBE, F5CWU & La Gazette du DX, F5NQL & UFT, G3SWH, I1JQJ/IK1ADH & 425 DX News, I1HYW, IZ8BRI, IZ8CCW, IZ8CGS & Mediterraneo DX Club, JI6KVR & JA-IOTA Islands News, PA2R, VA3RJ & ICPO, VK4FW and XE1KK for the following DX information.

SPECIAL EDITOR'S NOTE: Once again, where did this year go? Anyway, my family (wife/OPDX's chief proof-reader Linda, Teddy [TJ], Katie) and I (KB8NW) would like to wish all DXers, Contesters and OPDX readers a very "Happy Holiday and Season's Greetings". Because the holiday falls on a weekend day, I am going to do my best to release a bulletin next weekend..... 73 and Have a Great Holiday de Tedd KB8NW

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 12th/December, through Sunday, 19th/December there were 215 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 4J, 4L, 4S, 4U1I, 4X, 5A, 5B, 5H, 5N, 5R, 5T, 5U, 5V, 5Z, 6W, 6Y, 7Q, 7X, 8P, 8Q, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EL, EP, ER, ES, EU, EX, EY, EZ, F, FG, FH, FK, FM, FO, FP, FR, G, GD, GI, GJ, GM, GU, GW, HA, HB, HB0, HC, HI, HK, HL, HP, HR, HS, HZ, I, IS, J3, JA, JD/o, JT, JW, JY, K, KG4, KH0, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, S2, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T31, T32, T5, T7, T9, TA, TF, TG, TI, TK, TN, TR, TT, TU, TY, TZ, UA, UA2, UA9, UK, UN, UR, V3, V4, V5, V7, V8, VE, VK, VK9N, VP2E, VP2M, VP8, VP9, VQ9, VR, VU, VU4, XE, XU, XW, XX9, YA, YB, YI, YK, YL, YN, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD9, ZF, ZK1/s, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work

First Worry Later" (WFWL).

3D2, FIJI. Jim/K6JAT and his XYL, Lilah/KE6EHD will be off on vacation to Matangi Island (OC-016) from January 1-7th. They have procured the callsigns 3D2TJ and 3D2EG, respectively. Jim plans on some casual DXing on 40-10 meters SSB with a FT-857D barefoot into a vertical or wires. QSL via their home callsigns.

3Y0X PETER I ISLAND DXPEDITION (Update). Bob, K4UEE, informs OPDX that the 3Y0X DXpedition team can now take contributions toward the Peter I DXpedition via PayPal and Credit Cards. Just go to the Web site and follow the directions at: http://www.peterone.com
Please be sure to include your callsign!
TOPBAND NEWS. Bob, K4UEE, also informed the 160m enthusiasts on the Topband Mail Reflector that this will be only the third DXpedition to Peter I Island and only the second to offer 160m QSOs. The 3Y0PI DXpedition in 1994 made a little over 300 QSOs on topband. Obviously, this means that most 160m ops today still need Peter I Island for a new one. They are planning a very large operation with eight full-KW stations and a low power 30m station. Modes include CW, SSB and various digital options. There are fifteen antennas in their inventory and many spares. On 160m, they will be running full power to a heavy-duty version of the Battle Creek Special (BCS) antenna (the very same antenna that produced 1250 QSOs from VK0IR in 1997). The BCS will be dedicated to 160m. Additionally, they are planning at least one 3 element wire beam on the ice and maybe more. There will be five experienced topband operators fighting each other to have the opportunity to put you in the log on 160m. Operators are Bob/K4UEE, Pertti/OH2PM, Eric/K3NA, Andy/UA3AB and Alan/K5AB.

4X0, ISRAEL (Castle Activity). Just a reminder that Jan/4X1VF, Ilya/4Z1UF, Shalom/4Z4BS, Mark/4Z4KX, Ruben/4Z5FI, Ruslan/4Z5LA and Yuli/4X6HP will operate for the first time after 16 years from the famous historical site - "MASADA Castle" near the Dead Sea this week. They will use the special callsign 4X0MS, starting at 1000z Friday, December 24th, through 1000z Sunday, December 26th. They plan to operate with two complete stations on CW/SSB on 80-10 meters. QSOs are good for the "Holyland Award" program. The square will be L22BS. QSL Manager is Shalom, 4Z4BS. To get more information about this site, please visit the Web page at: http://www.bibleplaces.com/masada.htm

5T, MAURITANIA. Operators Phil/G3SWH, Jim/G3RTE, Jean/ON8RA and Adriano/ON5GA will be active as 5T0CW from Nuachachott between February 24th and March 4th. Activity will be CW only on all bands 160-10 meters. Propagation permitting, they plan to have at least one station on the air on a 24 hour a day basis. QSL via G3SWH, either direct with SAE and return postage or via E-mail for a bureau reply or via the bureau. Phil's E-mail is: phil@g3swh.demon.co.uk

8Q, MALDIVES. Paolo, IK2QPR, will be active as 8Q7PR from Dunikolhu Island, Baa Atoll, Maldive (AS-013), January 9-17th. Using only 100 watts and a vertical antenna, activity will be CW/SSB on 40/30/20/17/15/12/10 meters. QSL via his home callsign IK2QPR: Paolo Fava, via Bertani 8, 46100 Mantova,

Italy.

CDXA OFFICERS FOR 2005. John Scott, K8YC, CDXA Editor, informs OPDX that on Thursday, December 9th, the Carolina DX Association (CDXA) held its "Annual Meeting" along with its annual "Holiday Party". The following were nominated and elected to serve as officers for the 2005 calendar year:
President: Ted Goldthorpe, W4VHF
Vice President: Tom Wright, N4HN
Sec./Treasurer Jim Miller, K4SQR
Newsletter Editor: John Scott , K8YC
Cluster Manager: Joe Simpkins, K4MD
Assoc. Cluster Mgr: Paul Sturpe , W3GQ
Webmaster: Wayne Setzer, WB4BXW
Visit the CDXA's Web page at: http://www.cdxa.org/

CT2ITZ (Pirated Activity). It seems someone is pirating Paulo's, CT2ITZ, callsign on a PacketCluster and putting out false and missing information on the net. Naturally, this aggravates everyone, especially the owner of the callsign (Paulo). Please ignore this lonely individual who is looking for attention (this is what he wants) and do not take it out on Paulo.

DXPEDITION PICTURES ON THE WEB. Pictures of the recent A61AV/p operation from Sirat Al Khawr Island (AS-124) can be viewed at:
http://www.mdxc.org/a61av-p

EY8, TAJIKISTAN. Nodir. EY8MM, will be active in the upcoming CQ WW 160m CW Contest (January 29-30th) as a Single-Op entry. He states that he will have a full size delta vertical and beverages.

GJ2, JERSEY. Richard, K2WR, will be active as GJ2A or MJ0AWR during the CQ WW 160m CW Contest (January 29-30th) as Single-Op entry. QSL via K2WR. There will be some pre-contest activity, and he will concentrate on 80/40/30/17/12 meters CW.

HI, DOMINICAN REPUBLIC. Curt, W3HQ, will do a two week operation on 160m from here. Look for him to be active as HI/W3HQ and to be active in the CQ WW 160m CW Contest (January 29-30th) as a Single-Op entry. QSL via W3HQ. For E-mail skeds use: fclambert@infonale.com

IOTA NEWS.....
AS-079. Take, JI3DST, will be active as JI3DST/JS6 from Miyako Island, December 29th to January 5th. Activity will be on 160-6 meters CW, SSB, SSTV and RTTY. QSL via JI3DST (QRZ.com).

NA-200. Yuri/XE1UN, Alberto/XE1NK and Ramon/XE1KK will operate from Tamalcab Island on the rare Quintana Roo State South Group as XF3T from 1800z, December 21st to 0000z, December 24th, during local daylight hours. They will be active with two stations on 40-10 meters, including the WARC bands, on SSB, CW and PSK31. QSL via N1NK.

J2, DJIBOUTI. Yves, F5PRU, is currently active from here for the next four months. His stay is job/work related. His callsign is J20FH (This

prefix is given to hams who stay less than 6 months in Djibouti). His activity will be limited to his spare time. Look for him on CW/SSB and maybe some digital, on 80-10 meters. Also, look for Yves during the two parts of the French REF Contest which takes place on each of the last full weekends of January (CW) and February (SSB). QSL to F5PRU via the French REF Bureau; preferred (when he returns).

KC4, ANTARCTICA. Brent, KD4VMM/KC4, is active now from Palmer Station (K-10 for the Antarctica Award and USA-23 for the WAP) on Anvers Island (AN-012). Watch 14243 kHz between 2330-0100z. QSL via KD4VMM:
Brent A. Evers, 5211 Al Jones Drive, Shady Side, MD 20764, U.S.A.

LU2, ANTARCTICA. Look for LU2ZD, the Primavera Base, to be activated in January by an operator named Paolo (home callsign not provided). His flight to the Antarctic Peninsula will be on the 7th or 9th of January. Primavera Base is only open during the summer season, and any activity on the ham bands will be together with QSL Manager Henry, LU4DXU. At the moment they are still trying to organize a suitable transceiver for this operation. More details will be forthcoming soon.

OO, BELGIUM (Update on Special Activity). Egbert, ON4CAS/N1TOI, UBA Award Manager, informs OPDX that to celebrate the 175th anniversary of Belgium's independance, Belgian stations may use the special prefix "OO" instead of "ON" during 2005. The UBA will take part in the celebrations by issuing an offical commemorative award. The "175 Years Belgium Award" can be earned by contacting stations using the OO prefix between January 1st and December 31st, 2005. A sum of at least 175 points are required for the award. For more details on how to earn points and a picture of the award, please visit the following Web page at: http://www.uba.be/hf/awards/175yr_en.html

QSL INFO AND NEWS.....
I0QHN/KC4 QSL MANAGER CHANGE. Egidio, IZ8BRI, informs us the original QSL Manager chosen by the operators was Gianni Varetto, I1HYW, but do to his busy schedule, the WAP Staff and Dr. Mario Pillon, I0QHM, agreed to use Luigi Cervasio, IK8OZZ, a well known WAP Antarctic QSL Manager. QSLs already sent to, and/or received from Gianni, I1HYW, will be forwarded to IK8OZZ. It was mentioned that the QSLs will not be sent out before the operators return home (with pictures for the QSL and logs). This will happen at the end of March 2005.

Gianni, IZ8CGS, Antarctica Award Manager, informs OPDX that there are many online logs seachers for Antarctica stations on the following MDXC Web page at: http://www.mdxc.org/antarctica/log.htm

QSL KH0PR via JJ8DEN. Operator was Yoshi who was active from the Island of Rota (OC-086) in the Marianas Islands.

LLDXT & PRIVATE LOGS NOW ON LOTW! Rob, PA2R, informs OPDX that last month he had uploaded all of the following logs files to the "Logbook of The World" (LoTW). Over 350,000 records have been added to the Database! The logs are still open for normal QSL if you wish. Here are the callsigns for those logs:

HB0/PA3ERC, VP5C (1995), VP5/PA3BBP, VP5/PA3ERC, VP5/PA3EWP,
VP45/PA3EWP, FG/PA3BBP, FG/PA3ERC, FG/PA3EWP, FG/PA3FQA, TO5C (1996),
J79BP, J79RC, J79WP, J79QA, J77C (1996), FM/PA3BBP, FM/PA3ERC,
FM/PA3EWP, FM/PA3FQA, J6/PA3BBP, J6/PA3ERC, J6/PA3EWP, 9Y4/PA3BBP,
9Y4/PA3ERC, 9Y4/PA3EWP, 6Y5/PA3ERC, 6Y5/PA3EWP, ZF9/ZF2RC, ZF9/ZF2WP,
PJ7/PA5ET, PJ7/PA4WM, PJ7/PA3EWP, PJ7/PA3GCV, PJ7/PA4WM, PJ7/PA4EA,
FS/PA5ET, FS/PA4WM, FS/PA3EWP, FS/PA3GCV, FS/PA4WM, FS/PA4EA, V47ET,
V47WM, V47WP, V47CV, V47WM, V47EA, VP2EET, VP2EWM, VP2EWP, VP2ECV,
VP2EWM, VP2EEA, 8Q9RC, 8Q9WP, V26EA, V26ET, V26FM, V26WP, VP2MPA,
8P9JR, 8P9JS, 8P9JT , 8P9JU , J3/PA3EWP, J3/PA5ET, J3/PA7FM, J38PA
(2001), J8/PA3EWP, J8/PA5ET, J8/PA7FM, J8PA (2001), J75ET, J75EA,
J75ZH, J75WP, J75PA (2002), VP2MET, VP2MEA, VP2MWP, VP2MPA, VP2MCV
and VP2MWM (2002), OY7ET, OY7QA, OY7TW, OY7WB, OY7WP, OY8PA (2003),
3D2PA (2004), T30PA (2004) and T33PA (2004), PA3ERC, PA63ERC, PA5ET
and finally PA2R.

If you participate in the "Logbook of The World" program you will
probably get a lot of new band slots and/or new countries! Uploading
logs is free see how to register at: http://www.arrl.org/lotw/

V26B ON THE LOTW. Mike, KA2AEV, reports the V26B logs are now available
on LoTW back to 1995 (he thinks). He states, "We're having problems
finding a copy of the 1993 and 1994 logs, but we expect this problem
to be solved shortly."

VK9LA & VK9LW QSL CARD STATUS. Bill, VK4FW, reports that he is half-
way through answering cards received. All cards are being done on a
"as received basis by date". Bill states, "Some of you will be lucky
to get them before xmas. I hope to have all cards in the mail by late
next week." Statistics on the operation are available on the Web at:
http://www.odxg.org
VK4FW's mail address is: Bill Horner, P.O. Box 513, Nambour, 4560,
Australia.

VK9XG QSL CARD STATUS. Charlie, W0YG, reported this past week that
he should be caught up on mailing all the QSL cards for his recent
VK9XG operation. He states, "For those who have a tendency to use the
bureau, please use LoTW instead. I will upload the logs to LoTW
sometime in the future when I debug the busted calls which is normal
for any DX operation."

SOUTH SHETLAND ACTIVITIES.....
HF0 - A new operator is now in place at the Polish Antarctic Base
Station Henryk Arctowski (SP-01 for the Antarctica Award) on
King George Island, South Shetlands (AN-010). The operator is
Marek, SP3GVX, who is expected to operate as HF0POL through
November 2005. QSL via SP3WVL: Tomasz Lipinski, skr. poczt. 78,
69-100 Slubice, Poland.

OL0 - Jarda, OL0ANT, is currently active from the small Czech "ECO
Nelson" Base Station on Nelson Island (AN-010), South Shetlands.
Activity is until January 10th. His equipment consists of a

battery powered Kenwood TS570D and a vertical antenna for the ususal bands (no WARC). Ham radio activity is mainly of a demonstrative nature. Length of operation and the uses of power depends on the status of his battery. Most of his activity has been on 40 meters CW between 0300-0700z. There was one QSNs on 30 meters around 0345z. QSL via OK1FOW: Jaroslav Jirus, Angolska 609, CZ - 160 00 Praha 6, CZECH REPUBLIC. A new WAP reference number was just issued for the Czech "ECO Nelson Base" station on Nelson Island: CZE-01. Also, the new reference number for the Antarctica Award is: OK-01. The Lat/Long: 62°14'30"S 58°58'48"W. For more information about the "ECO Nelson" base can be found at: http://www.antarctica.cz

VP8 - Jordan "Danny" Yankov, LZ2UU (VP8/LZ2UU), is once again stationed at the Bulgarian base St. Kliment Ohridski (LZ-02 for the Antarctica Award) on Livingston Island, South Shetlands (AN-010). Danny has served as radio engineer for the past eleven Antarctic seasons, and this year he is also the base commander. QSL via his home callsign: Jordan Radkov Yankov, P.O. Box 196, 7200 Razgrad, Bulgaria

SPECIAL EVENT. Look for special event station TM7VM to be active until December 30th . Activity started for the first time on December 16th, to celebrate the opening of the Millau Viaduct (South France, which is said to be the highest one in the world). This viaduct is 343 meters above the ground at its highest part. The activity is organized by the Millau ARC (F6KSM) under the leadership of Patrick, F5UJZ, who is also the QSL Manager. During the year 2005, the special event station will be activated 9 more times. The dates will be announced at a later time. A technical Web page about this viaduct (in English, Spanish and French), is available at : http://www.viaducdemillaueiffage.com/

VU4, ANDAMAN ISLANDS (Update). Charles Harpole, K4VUD, continued to provide updates on the VU4 operations throughout the week to the DX community. He is now in Port Blair and should be there until just about the end of the operation. He reports that he is taking pictures and video of the VU4 operation. Charles states that there are three stations up and operating now. Bharathi's station is in the Hotel Sinclairs. Saraha's operating location is in a dorm room of a local college. Ram's location was in a rented room in a small apartment building, but now he has moved to the Port Blair Science Center where the public can watch the ham radio action. The antenna farm is growing on VU4-land. Charle states that there is a 7 element tribander at 60 ft. above the hotel roof, inverted Vees everywhere, 80m dipole, SteppIR at 15 feet above Science Center roof, and the newly arrived WARC Cushcraft yagi installed at the college dorm. With most of the activity being on SSB and some CW, there has been some activity on PSK and Slow-Scan TV. Look for 40 and 80 meters to get a lot more attention for the next two weeks. The suggested frequency is around 3.503-5 MHz, the approved frequency. Charles mentioned over weekend that Mr. Suri, VU2MY, head of NIAR, has arrived there and is arranging publicity for all the operators all over India. He is cheering the operators on and giving

them lots of encouragement to stay awake and keep the bands hot with their calls!!! Charles is also encouraging all amateur radio operators to be on their best behavior over the next several days as the DXpedition will be hosting several Indian government officials. He also predicts that many youngsters will get VU licenses because of the interest this DXpedition has generated.

The "DX Newsletter" provides the following VU4RBI and VU4NRO operating schedule as follows:
0000 UTC 21240, 21285 kHz; 0100Z: 21240, 21285; 0200Z: 14240, 21240; 0300Z: 21285, 24931; 0400Z: 21285, 24931; 0500Z: 18121, 21285, 24931; 0600Z: 18121, 21285; 0700Z: 18121, 21285; 0800Z: 18121, 21285, 24931; 0900Z: 24931; 1000Z: 24931; 1100Z: 21285, 24931; 1200Z: 14191, 21285, 24931; 1300Z: 14191; 1400Z: 14191; 1500Z: 14191; 1800Z: 14265; 2100Z: 14265; 2200Z: 14265 kHz.

QSL via the National Institute of Amateur Radio (NIAR), Rajbhavan Road, Hyderabad-500 082, Andhra Pradesh, INDIA. HOWEVER, do not include cash in your mail, states Mr. Suri, VU2MY. He also hopes to post on the NIAR Web site a list of all callsigns of received QSLs. If you want to make a donation, please do that by other means rather than the ordinary mail. The team is working on the chance of a stateside QSL address also, but nothing definite at this time. Remember, the NIAR is the ultimate source for news of this operation. Their Web page is: http://www.niar.org

WLH CHANGES. Ric, DL2VFR, informs OPDX that there has been some major changes to the "World LightHouse Program". The entire list of LH had to be reviewed and corrected. The "World LightHouse Program" (WLH) has changed its name to "World Lighthouse On The Air" (WLOTA). A lot more LHs will count now - some LHs were deleted. In order to cope with the large number of LHs in the world, the list of LH counting had to be restricted based on a fixed standard. A multi-national crew has been working on the new award program. The new LH-list is almost completed. For more details and the rules, please visit their new Web site at: http://www.wlota.com

ZD7 & ZD8, ST. HELENA AND ASCENSION ISLAND. Martin, G3ZAY, is expected to be visiting Ascension Island (AF-003) and St. Helena (AF-022) over the Christmas period. Look for him to be on Ascension Island between December 21-22nd and again January 3-7th. Martin will be on St. Helena Island between December 24th and January 1st as ZD7ZA. While on Ascension Island, Martin will activate the Ascension Island Lighthouse (WLOTA LH-0299). QSL via his home callsign.

> First Worry Later" (WFWL).
>
> 3D2, FIJI. Jim/K6JAT and his XYL, Lilah/KE6EHD will be off on vacation
> to Matangi Island (OC-016) from January 1-7th. They have procured the
> callsigns 3D2TJ and 3D2EG, respectively. Jim plans on some casual DXing
> on 40-10 meters SSB with a FT-857D barefoot into a vertical or wires.
> QSL via their home callsigns.
>
> 3Y0X PETER I ISLAND DXPEDITION (Update). Bob, K4UEE, informs OPDX that
> the 3Y0X DXpedition team can now take contributions toward the Peter I
> DXpedition via PayPal and Credit Cards. Just go to the Web site and follow
> the directions at: http://www.peterone.com
> Please be sure to include your callsign!
> TOPBAND NEWS. Bob, K4UEE, also informed the 160m enthusiasts on the
> Topband Mail Reflector that this will be only the third DXpedition to
> Peter I Island and only the second to offer 160m QSOs. The 3Y0PI
> DXpedition
> in 1994 made a little over 300 QSOs on topband. Obviously, this means
> that most 160m ops today still need Peter I Island for a new one. They
> are planning a very large operation with eight full-KW stations and a low
> power 30m station. Modes include CW, SSB and various digital options.
> There
> are fifteen antennas in their inventory and many spares. On 160m, they
> will be running full power to a heavy-duty version of the Battle Creek
> Special (BCS) antenna (the very same antenna that produced 1250 QSOs from
> VK0IR in 1997). The BCS will be dedicated to 160m. Additionally, they are
> planning at least one 3 element wire beam on the ice and maybe more. There
> will be five experienced topband operators fighting each other to have the
> opportunity to put you in the log on 160m. Operators are Bob/K4UEE,
> Pertti/
> OH2PM, Eric/K3NA, Andy/UA3AB and Alan/K5AB.
>
> 4X0, ISRAEL (Castle Activity). Just a reminder that Jan/4X1VF, Ilya/4Z1UF,
> Shalom/4Z4BS, Mark/4Z4KX, Ruben/4Z5FI, Ruslan/4Z5LA and Yuli/4X6HP will
> operate for the first time after 16 years from the famous historical
> site -
> "MASADA Castle" near the Dead Sea this week. They will use the special
> callsign 4X0MS, starting at 1000z Friday, December 24th, through 1000z
> Sunday, December 26th. They plan to operate with two complete stations
> on CW/SSB on 80-10 meters. QSOs are good for the "Holyland Award" program.

> The square will be L22BS. QSL Manager is Shalom, 4Z4BS. To get more
> information about this site, please visit the Web page at:
> http://www.bibleplaces.com/masada.htm
>
> 5T, MAURITANIA. Operators Phil/G3SWH, Jim/G3RTE, Jean/ON8RA and Adriano/
> ON5GA will be active as 5T0CW from Nuachachott between February 24th and
> March 4th. Activity will be CW only on all bands 160-10 meters.
> Propagation
> permitting, they plan to have at least one station on the air on a 24
> hour a day basis. QSL via G3SWH, either direct with SAE and return postage
> or via E-mail for a bureau reply or via the bureau. Phil's E-mail is:
> phil@g3swh.demon.co.uk
>
> 8Q, MALDIVES. Paolo, IK2QPR, will be active as 8Q7PR from Dunikolhu
> Island,
> Baa Atoll, Maldive (AS-013), January 9-17th. Using only 100 watts and a
> vertical antenna, activity will be CW/SSB on 40/30/20/17/15/12/10 meters.
> QSL via his home callsign IK2QPR: Paolo Fava, via Bertani 8, 46100
> Mantova,
> Italy.
>
> CDXA OFFICERS FOR 2005. John Scott, K8YC, CDXA Editor, informs OPDX that
> on Thursday, December 9th, the Carolina DX Association (CDXA) held its
> "Annual Meeting" along with its annual "Holiday Party". The following were
> nominated and elected to serve as officers for the 2005 calendar year:
> President: Ted Goldthorpe, W4VHF
> Vice President: Tom Wright, N4HN
> Sec./Treasurer Jim Miller, K4SQR
> Newsletter Editor: John Scott , K8YC
> Cluster Manager: Joe Simpkins, K4MD
> Assoc. Cluster Mgr: Paul Sturpe , W3GQ
> Webmaster: Wayne Setzer, WB4BXW
> Visit the CDXA's Web page at: http://www.cdxa.org/
>
> CT2ITZ (Pirated Activity). It seems someone is pirating Paulo's, CT2ITZ,
> callsign on a PacketCluster and putting out false and missing information
> on the net. Naturally, this aggravates everyone, especially the owner of
> the callsign (Paulo). Please ignore this lonely individual who is looking
> for attention (this is what he wants) and do not take it out on Paulo.
>
> DXPEDITION PICTURES ON THE WEB. Pictures of the recent A61AV/p operation
> from Sirat Al Khawr Island (AS-124) can be viewed at:

>
> EY8, TAJIKISTAN. Nodir. EY8MM, will be active in the upcoming CQ WW 160m
> CW Contest (January 29-30th) as a Single-Op entry. He states that he will
> have a full size delta vertical and beverages.
>
> GJ2, JERSEY. Richard, K2WR, will be active as GJ2A or MJ0AWR during the

> CQ WW 160m CW Contest (January 29-30th) as Single-Op entry. QSL via K2WR.
> There will be some pre-contest activity, and he will concentrate on
> 80/40/30/17/12 meters CW.
>
> HI, DOMINICAN REPUBLIC. Curt, W3HQ, will do a two week operation on 160m
> from here. Look for him to be active as HI/W3HQ and to be active in the
> CQ WW 160m CW Contest (January 29-30th) as a Single-Op entry. QSL via
> W3HQ. For E-mail skeds use: fclambert@infonale.com
>
> IOTA NEWS.....
> AS-079. Take, JI3DST, will be active as JI3DST/JS6 from Miyako Island,
> December 29th to January 5th. Activity will be on 160-6 meters
> CW, SSB, SSTV and RTTY. QSL via JI3DST (QRZ.com).
>
> NA-200. Yuri/XE1UN, Alberto/XE1NK and Ramon/XE1KK will operate from
> Tamalcab Island on the rare Quintana Roo State South Group
> as XF3T from 1800z, December 21st to 0000z, December 24th,
> during local daylight hours. They will be active with two
> stations on 40-10 meters, including the WARC bands, on SSB,
> CW and PSK31. QSL via N1NK.
>
> J2, DJIBOUTI. Yves, F5PRU, is currently active from here for the next
> four months. His stay is job/work related. His callsign is J20FH (This
> prefix is given to hams who stay less than 6 months in Djibouti). His
> activity will be limited to his spare time. Look for him on CW/SSB and
> maybe some digital, on 80-10 meters. Also, look for Yves during the two
> parts of the French REF Contest which takes place on each of the last
> full weekends of January (CW) and February (SSB). QSL to F5PRU via the
> French REF Bureau; preferred (when he returns).
>
> KC4, ANTARCTICA. Brent, KD4VMM/KC4, is active now from Palmer Station
> (K-10 for the Antarctica Award and USA-23 for the WAP) on Anvers Island
> (AN-012). Watch 14243 kHz between 2330-0100z. QSL via KD4VMM:
> Brent A. Evers, 5211 Al Jones Drive, Shady Side, MD 20764, U.S.A.
>
> LU2, ANTARCTICA. Look for LU2ZD, the Primavera Base, to be activated in
> January by an operator named Paolo (home callsign not provided). His
> flight to the Antarctic Peninsula will be on the 7th or 9th of January.
> Primavera Base is only open during the summer season, and any activity
> on the ham bands will be together with QSL Manager Henry, LU4DXU. At
> the moment they are still trying to organize a suitable transceiver for
> this operation. More details will be forthcoming soon.
>
> OO, BELGIUM (Update on Special Activity). Egbert, ON4CAS/N1TOI, UBA Award
> Manager, informs OPDX that to celebrate the 175th anniversary of Belgium's
> independance, Belgian stations may use the special prefix "OO" instead of
> "ON" during 2005. The UBA will take part in the celebrations by issuing
> an offical commemorative award. The "175 Years Belgium Award" can be
> earned

> by contacting stations using the OO prefix between January 1st and
> December
> 31st, 2005. A sum of at least 175 points are required for the award. For
> more details on how to earn points and a picture of the award, please
> visit the following Web page at: http://www.uba.be/hf/awards/175yr_en.html
>
> QSL INFO AND NEWS.....
> I0QHN/KC4 QSL MANAGER CHANGE. Egidio, IZ8BRI, informs us the original
> QSL Manager chosen by the operators was Gianni Varetto, I1HYW, but
> do to his busy schedule, the WAP Staff and Dr. Mario Pillon, I0QHM,
> agreed to use Luigi Cervasio, IK8OZZ, a well known WAP Antarctic QSL
> Manager. QSLs already sent to, and/or received from Gianni, I1HYW,
> will be forwarded to IK8OZZ. It was mentioned that the QSLs will not
> be sent out before the operators return home (with pictures for the
> QSL and logs). This will happen at the end of March 2005.
>
> Gianni, IZ8CGS, Antarctica Award Manager, informs OPDX that there are
> many online logs seachers for Antarctica stations on the following
> MDXC Web page at: http://www.mdxc.org/antarctica/log.htm

> to be solved shortly."
>
> VK9LA & VK9LW QSL CARD STATUS. Bill, VK4FW, reports that he is half-
> way through answering cards received. All cards are being done on a
> "as received basis by date". Bill states, "Some of you will be lucky
> to get them before xmas. I hope to have all cards in the mail by late
> next week." Statistics on the operation are available on the Web at:
> http://www.odxg.org
> VK4FW's mail address is: Bill Horner, P.O. Box 513, Nambour, 4560,
> Australia.
>
> VK9XG QSL CARD STATUS. Charlie, W0YG, reported this past week that
> he should be caught up on mailing all the QSL cards for his recent
> VK9XG operation. He states, "For those who have a tendency to use the
> bureau, please use LoTW instead. I will upload the logs to LoTW
> sometime in the future when I debug the busted calls which is normal
> for any DX operation."
>
> SOUTH SHETLAND ACTIVITIES.....
> HF0 - A new operator is now in place at the Polish Antarctic Base
> Station Henryk Arctowski (SP-01 for the Antarctica Award) on
> King George Island, South Shetlands (AN-010). The operator is
> Marek, SP3GVX, who is expected to operate as HF0POL through
> November 2005. QSL via SP3WVL: Tomasz Lipinski, skr. poczt. 78,
> 69-100 Slubice, Poland.
>
> OL0 - Jarda, OL0ANT, is currently active from the small Czech "ECO
> Nelson" Base Station on Nelson Island (AN-010), South Shetlands.
> Activity is until January 10th. His equipment consists of a
> battery powered Kenwood TS570D and a vertical antenna for the
> ususal bands (no WARC). Ham radio activity is mainly of a
> demonstrative nature. Length of operation and the uses of power
> depends on the status of his battery. Most of his activity has
> been on 40 meters CW between 0300-0700z. There was one QSNs on
> 30 meters around 0345z. QSL via OK1FOW: Jaroslav Jirus,
> Angolska 609, CZ - 160 00 Praha 6, CZECH REPUBLIC. A new WAP
> reference number was just issued for the Czech "ECO Nelson Base"
> station on Nelson Island: CZE-01. Also, the new reference number
> for the Antarctica Award is: OK-01. The Lat/Long: 62°14'30"S
> 58°58'48"W. For more information about the "ECO Nelson" base
> can be found at: http://www.antarctica.cz
>
> VP8 - Jordan "Danny" Yankov, LZ2UU (VP8/LZ2UU), is once again stationed
> at the Bulgarian base St. Kliment Ohridski (LZ-02 for the
> Antarctica Award) on Livingston Island, South Shetlands (AN-010).
> Danny has served as radio engineer for the past eleven Antarctic
> seasons, and this year he is also the base commander. QSL via

> his home callsign: Jordan Radkov Yankov, P.O. Box 196,
> 7200 Razgrad, Bulgaria
>
> SPECIAL EVENT. Look for special event station TM7VM to be active until
> December 30th . Activity started for the first time on December 16th,
> to celebrate the opening of the Millau Viaduct (South France, which is
> said to be the highest one in the world). This viaduct is 343 meters
> above the ground at its highest part. The activity is organized by the
> Millau ARC (F6KSM) under the leadership of Patrick, F5UJZ, who is also
> the QSL Manager. During the year 2005, the special event station will
> be activated 9 more times. The dates will be announced at a later time.
> A technical Web page about this viaduct (in English, Spanish and French),
> is available at : http://www.viaducdemillaueiffage.com/
>
> VU4, ANDAMAN ISLANDS (Update). Charles Harpole, K4VUD, continued to
> provide
> updates on the VU4 operations throughout the week to the DX community. He
> is now in Port Blair and should be there until just about the end of the
> operation. He reports that he is taking pictures and video of the VU4
> operation. Charles states that there are three stations up and operating
> now. Bharathi's station is in the Hotel Sinclairs. Saraha's operating
> location is in a dorm room of a local college. Ram's location was in a
> rented room in a small apartment building, but now he has moved to the
> Port Blair Science Center where the public can watch the ham radio action.
> The antenna farm is growing on VU4-land. Charle states that there is a 7
> element tribander at 60 ft. above the hotel roof, inverted Vees
> everywhere,
> 80m dipole, SteppIR at 15 feet above Science Center roof, and the newly
> arrived WARC Cushcraft yagi installed at the college dorm. With most of
> the activity being on SSB and some CW, there has been some activity on PSK
> and Slow-Scan TV. Look for 40 and 80 meters to get a lot more attention
> for the next two weeks. The suggested frequency is around 3.503-5 MHz,
> the approved frequency. Charles mentioned over weekend that Mr. Suri,
> VU2MY, head of NIAR, has arrived there and is arranging publicity for all
> the operators all over India. He is cheering the operators on and giving
> them lots of encouragement to stay awake and keep the bands hot with their
> calls!!! Charles is also encouraging all amateur radio operators to be on
> their best behavior over the next several days as the DXpedition will be
> hosting several Indian government officials. He also predicts that many
> youngsters will get VU licenses because of the interest this DXpedition
> has generated.
>
> The "DX Newsletter" provides the following VU4RBI and VU4NRO operating
> schedule as follows:
> 0000 UTC 21240, 21285 kHz; 0100Z: 21240, 21285; 0200Z: 14240, 21240;
> 0300Z: 21285, 24931; 0400Z: 21285, 24931; 0500Z: 18121, 21285, 24931;
> 0600Z: 18121, 21285; 0700Z: 18121, 21285; 0800Z: 18121, 21285, 24931;
> 0900Z: 24931; 1000Z: 24931; 1100Z: 21285, 24931; 1200Z: 14191, 21285,
> 24931; 1300Z: 14191; 1400Z: 14191; 1500Z: 14191; 1800Z: 14265;

> 2100Z: 14265; 2200Z: 14265 kHz.
>
> QSL via the National Institute of Amateur Radio (NIAR), Rajbhavan Road,
> Hyderabad-500 082, Andhra Pradesh, INDIA. HOWEVER, do not include cash
> in your mail, states Mr. Suri, VU2MY. He also hopes to post on the NIAR
> Web site a list of all callsigns of received QSLs. If you want to make a
> donation, please do that by other means rather than the ordinary mail.
> The team is working on the chance of a stateside QSL address also, but
> nothing definite at this time. Remember, the NIAR is the ultimate source
> for news of this operation. Their Web page is: http://www.niar.org
>
> WLH CHANGES. Ric, DL2VFR, informs OPDX that there has been some major
> changes to the "World LightHouse Program". The entire list of LH had to
> be reviewed and corrected. The "World LightHouse Program" (WLH) has
> changed its name to "World Lighthouse On The Air" (WLOTA). A lot more
> LHs will count now - some LHs were deleted. In order to cope with the
> large number of LHs in the world, the list of LH counting had to be
> restricted based on a fixed standard. A multi-national crew has been
> working on the new award program. The new LH-list is almost completed.
> For more details and the rules, please visit their new Web site at:
> http://www.wlota.com
>
> ZD7 & ZD8, ST. HELENA AND ASCENSION ISLAND. Martin, G3ZAY, is expected to
> be visiting Ascension Island (AF-003) and St. Helena (AF-022) over the
> Christmas period. Look for him to be on Ascension Island between December
> 21-22nd and again January 3-7th. Martin will be on St. Helena Island
> between December 24th and January 1st as ZD7ZA. While on Ascension Island,
> Martin will activate the Ascension Island Lighthouse (WLOTA LH-0299). QSL
> via his home callsign.

I just got my TH-F6A a couple of weeks ago, but haven't really used it yet. A few days ago, I tried to test the TH-F6A's receiver by using one of my Midland GXT 400 GMRS/FRS radios (supposedly puts out 4 Watts maximum). I set the GXT 400's power output to low (3 settings are available -- High, Medium, and Low). I then tuned the TH-F6A's A-band receiver to the frequency corresponding to GMRS channel 1 and transmitted a couple of times with the TH-F6A about a foot or so away from the GMRS radio.

Well, just a few hours ago I learned about how receivers can be desensitized by nearby (I hate it when I find out about things like that after the fact). So now, I'm worried that I have just ruined my brand new rig.

I'm wondering how the desensitization process occurs -- does maximum damage occur during the first few hits, or is it a more gradual process?

If you fried the front end, it happened immediately. Do you know in fact that
it's damaged? Unless the radios were EXTREMELY close (inches apart), there
shouldn't be a problem.

Agree. Desensitization is not the same thing as damaging the front end, which is your immediate concern. Desensitization is strictly a temporary problem that goes away when the offending transmitter goes off the air. I have a packet rig in my garage, operating in the 2-meter band. If I am listening to an FM broadcast radio, I will hear my FM station go silent whenever the packet radio transmits. The FM radio is not harmed in any way.

The amount of desensitization is variable, as you might expect, depending on the power of the transmitter and the coupling between the antennas.

I have a newer mobile Icon 2 meter in my truck. Several of the settings are "automatic" when calling into repeaters. Like, when I call into a repeater at 147.330 when I transmitt the frequency changes.

I have been thinking of getting an older, cheap radio for inside my house. Would like ssb capability. On these radios, how does the frequency change when transmitting using a repeater? I have people telling me that these older radios are not "pl tone capable" which would not allow me to use some repeaters. (Only a few around here use that). How exactly does pl tone work. Like I said my radio in my truck is pretty much automatic.

Receiver desense is the response of the receiver under certain strong-signal interference conditions, and is a performance issue, not a permanent hardware failure condition. Suggest you Google "receiver desensitization" to get a better idea of the process.

New to ham radio. Interested in building an antenna for a base station. I dont have anything yet, just in the planning stage.

Thought about buying a handheld and using that as part of my "base station" one maybe capable of 2 440 and 6. These seem cheaper used than the home units.

My question is, is there information out there on how to build one? I have a radio shack book at home that has a plan for a 440. It uses aluminum ground wire. What I find when working with this stuff is it is impossible to make it perfectlyu straight. Doesn't that effect the performance? I mean it comes coiled and when I cut it to length I cant get it perfectly straight.

Also, it is posisble to have good performance with one antenna for all the bands? Or is it absolutely necessary to have one antenna for each band? I have limited room.

I appreciate your help!

SSB won't work through any repeaters I am aware of. But other than that, there is a function switch which would take you from FM to SSB. I've not seen many Multimode "2 meter" rigs to know exactly what all "they" had, but aside from the SSB function, they're not much different than the standard 2 meter rig with maybe one exception - some of the older 2 meter rigs had a +600 and a -600 setting on the switch to make sure you had the right offset. It wasn't done automatically via memory.

PL is a subtone which is sent out on key up of your transmitter (if PL equipped), which rides in with your signal. It opens up a special Squelch circuit in the receiver which won't allow any other signal through, unless that PL accompanies it. This is done for either - keeping out interference and/OR to close the repeater to anyone but club members or some similar set up. In the earlier case, PL tones are usually listed in the ARRL Repeater directory or others. In the latter case, they aren't printed anywhere - usually. There are external PL tone modules you can buy to put in the radio. Most I've seen though, are single frequency PLs which means once set to "a" PL, you can't jump from repeater to repeater to talk if they all have PLs unless you retune the module - usually dip switch settable. There may be more sophisticated units out there, I'm sure someone can advise.

Your newer radio is most likely PL equipped, perhaps you should dig out the manual to read that part of it to familiarize yourself with how it works.

Desense basically is an off channel frequency signal which overloads your front end, thereby making an "on channel" signal undetectable or not received well. While that won't ruin your radio, this will -> an extremely strong signal on frequency or close - could possibly blow out the RF amplifier transistor or protect diode(s) in the front end of the receiver. You'll know if it happens. Your receiver won't be working so hot in any manner.

I think that getting a book on VHF that covers the subjects of FM repeaters, half duplex, offset, simplex, PL, sub-audible tones, CTCSS, SSB, line of sight range, antennas and antenna height will answer your questions.

It really is too much to cover here.

Here are some books you need to read.
The ARRL Operating Manual for Radio Amateurs
http://www.arrl.org/catalog/?category=Operating&words=

GUIDE TO FM REPEATERS
http://www.ac6v.com/FM101.htm

A Great ON-Line Guide for
Repeaters - What they are and how to use them
http://www2.arrl.org/tis/info/pdf/repeater1.pdf

This may require ARRL membership -- but it is exactly what you need to read

Just one comment on your question"I have people
> telling me that these older radios are not "pl tone capable" which
> would not allow me to use some repeaters.

Again see Communication Specialists -- they make add on PL units for older radios
http://www.com-spec.com/

What type of gain does that antenna have on your page?

Could I weld togther some emt tubing as radials? Seems like it would last longer.

Are you from Bedford, Indiana? Funny, my family is origionally from there back through the 1800's. (I have never lived there myself).

>

The antenna doesn't care whether you are putting SSB or FM through it. So it will perform the same. However, the custom is to use vertically polarized antennas for FM (i.e. working repeaters, mobile, etc) and horizontally polarized antennas for SSB work. You will get the best signal if you match the polarization of the station that you are trying to work.

"The Shrub" as you call him is entirely right in what he does as
commander-in-chief, no where in the CFRs nor the Constitution is there an
implied right that GPS belongs to all the peoples of the world.
The system was funded with DOD monies and is used by the general public at
the discretion of the controlling agency, namely the U.S. Air Force.
I guess everyone will have to negivate the way it was done for many years by
map and compass.

If Kerry ("The Idiot") was in office he would most certainly do the same
thing in the same situation.

So quit bitchin' and go buy a compass and topograpical map to find out where
in hell you are at.

duh! Homer

I met old Wayne back in 1972 at the Dayton Hamvention my senior year in high school.
One thing that immediately came to mind, he was a first rate BS artist, at title for which he lived up to all his career in publishing and now apparently on Public TV.
The only person that came close to being as big of BS artist was S9 and Popular Communications magazines' Tom Knietle (spelling?) who probably still thinks (if he is still alive) the CIA is after him for exposing the Numbers Stations at Vint Hill Farms Virginia.

The massive croos-posting would suggest this is a lame'ish troll.

3029. HELP: 2 meter repeater intermod problem from pager transmitters

Newsgroup: rec.radio.amateur.misc
Date: 2004-12-21 01:54:05 UTC
From: Photoman <photoman28@hotmail.com>
Message-ID: <HZqdnYyvfJC3H1rcRVn-hw@adelphia.com>
Source record: 54591

We have 146.04/.64 repeater on a nearby mountain top. It worked great for years with a range of 100 miles or more. Since the phone company and a pager company installed their high power transmitters near the site of the repeater (within 100 yards) the repeater is virtually useless. After much head scratching I believe that the difference in frequency of the pager transmitter of 600 khz is the problem but have no idea how to solve the problem without going to an odd split. The repeater coordinator for this area of Virginia won't even consider that as an option.

The equipment that we are using is excellent. The transmitter and receiver on the repeater are both Motorola Micor and were modified with to the repeater frequencies by FCC 1st class licensed hams using Motorola parts. This is not an equipment problem. We are running a set of Wacom cavities which were bought new and are correctly tuned and the antenna is a Phelps-Dodge Stationmaster. When the intermod occurs it is dependant on BOTH pagers transmitting at the same time. If only one pager is transmitting there is no problem. This may at first sound unusual but the pagers are in the 150 mhz band and they are exactly 600 kc apart. These transmitter are both 250 watts or more output.

My theory is that the 600 kc (difference of the 2 pagers) is mixing with the output of the repeater 146.64 and producing the 146.04 signal, the repeater input frequency. We are using sub-audible tone for repeater access and as soon as a station working the repeater drops carrier the repeater drops. The intermod cannot hold up the machine once the tone is removed. This may be happening in the antenna or hardline connectors prior to the cavities. Every test I have run, and there have been many, supports this conclusion.

We are not the only 2 meter repeater that has fallen victim of this problem and in every case we have found two pager transmitters situated 600 kc apart near the repeater. Most of the other machines have been taken off the air, others just put up with it. No one has been able to solve the problem and many technicians have studied it.

Moving the repeater far enough away is not an option since the peak of the mountain is so small. Also we are using an existing tower which we would not have access to at other locations. The searches I have done on Google has turned up the stock answer of helical resonators which would apply to 2 meter radios but not repeaters. If you are familiar with the Micor equipment you know that the receiver has excellent helical resonators built in.

Tonight I have considered the possibility of splitting the receiver and the transmitter of the repeater and linking the rx signal by a 220 mhz link. I am hoping that by reducing the level of the 146.64 signal by 50-60 db would alleviate the problem. Maybe not, but I'm out of ideas. This split would be only about 100 yards but could that be sufficient to relieve the problem?

Have any of you ever had this problem and solved it? Any input (pun intended) on this matter would be appreciated.

Coaxial stubs to notch out 150mhz?

Additional duplexer to notch 150mhz?

How about adding a sense antenna fed into a noise phasing unit tuned to phase one of the pager signals into the noise? It would have to be home brew I imagine, but this is done often on HF for powerline noise, on the AM BC band, and by hardcore FM BC DXers to listen through local stations. An LC circuit would phase just one station, but a broadband phaser would eliminate both if they are on the same tower.

Poor Lardass, he never finished high school, so obviously has trouble reading....

July 11, 2000

CERTIFIED MAIL--RETURN RECEIPT REQUESTED

Mr. Roger L. Wiseman

610 Glen Haven Avenue

Glendale, WV 26038-1302

SUBJECT: Amateur Radio license KC8JBO

Dear Mr. Wiseman:

Pursuant to Section 97.519(d)(2) of the Commission's Rules, 47 C.F.R.
Section 97.519(d)(2), the Commission has the authority to re-administer any
examination element previously administered by Volunteer Examiners (VE's).
The Commission may either administer the examination itself, or under the
supervision of a Volunteer Examiner Coordinator (VEC) or VE designated by
the Commission.

Accordingly, we are requiring you to re-take the General Class Amateur
Examination, (Elements 2, 3(A) and 3(B)) under the supervision of an
American Radio Relay League Volunteer Examiner Coordinator. This examination
must be completed on or before September 11, 2000. The required code speed
that you must demonstrate is 5 words per minute.

Please be prepared to verify your current address and to present a photo
identification. Pursuant to Commission rules, your license will be cancelled
if you do not appear for re-examination. You will be granted an Amateur
Radio license consistent with the elements you pass upon re-examination.

Sincerely,

W. Riley Hollingsworth

Special Counsel, Amateur Radio

Enforcement Bureau

Why doesn't the letter state the reason for retesting was "jamming," little mentally ill Lloydie?

Here is the reason:
"Pursuant to Section 97.519(d)(2) of the Commission's Rules, 47 C.F.R. Section 97.519(d)(2), the Commission has the authority to re-administer any examination element previously administered by Volunteer Examiners (VE's). The Commission may either administer the examination itself, or under the supervision of a Volunteer Examiner Coordinator (VEC) or VE designated by the Commission."

Roger was tested under the VE system, he or anybody else could be retested at any time.

Set it up near the computer if you want to use the computer as part of your operating. Sounds simple, doesn't it? ;-)

Computers are required for some of the digital modes and can be used for logging, call lookups, etc. There is no FCC or ARRL requirement to have one. Paper logging is still used by many operators. If you plan to go digital, build near the computer. If you want to operate away from the wife so as not to bother her durring her school work, do so. There's plenty to do on the air that does not require computer assistance.

Source record: 54602

I recently installed a new Icom 706 MK IIg radio and when the power is set to all the way to high (H) the Po meter reads no more than half of the 10.0 scale. Using a dipole cut to reasonance for 10 & 20 meters, the SWR according to the radio's meter is ~1.0. Should I expect high power (100 watts) to give a 10.0 reading? The owners manual does not provide this information. Thank you for your answers.

Having the computer next to your radio is beneficial in many ways. You can use it to keep track of which stations you've heard, to record what you're hearing, as an active audio filter, to decode morse code or digital communications, as a bountiful resource to determine what you're tuned in to, or to post what you're hearing on message boards to alert others so they may tune in what you hear.

You may experience some interference from your computer, or you may not, but that's a whole new subject!

It's up to you. People have tuned the shortwaves for almost 100 years without computers so it certainly isn't necessary, just a nice tool to have handy.

73,

Why not list the frequency of the pager transmitters here? Also, I
don't see what type duplexers that you have? Are they pass/pass,
pass/reject, what do you have?

If you think the paging transmitter may be mixing with your signal, what about a circulator or isolator on your transmitter? I don't see that listed in your equipment list.

Why not list the frequency of the pager transmitters here? Also, I
don't see what type duplexers that you have? Are they pass/pass,
pass/reject, what do you have?

If you think the paging transmitter may be mixing with your signal, what about a circulator or isolator on your transmitter? I don't see that listed in your equipment list.

You may also want to make sure that the paging transmitters have some soft of filter cavities on their outputs.

3048. Open wire feedlines

Newsgroup: rec.radio.amateur.misc
Date: 2004-12-21 21:41:54 UTC
From: Doug <dslosty@pipeline.com>
Message-ID: <7t5hs09r6kgdo5r6mtn1kg0639mauuht9h@4ax.com>
Source record: 54610

I recently put up a 135 ft dipole with open wire (ladder line) feed.

It worls fine on all bands except for 40 mters. I'm only using around
35 feet of open wire line and the result is that the antenna presents
a very high impedance on 40 meters. I'm losing much of the power in
my tuner.

I need to lengthen the feed line but what to do with the excess
length?

Can I simply tie it up into a bundle, suspending it in air?
Wind it spirally around the tree that acts as a center support?
Any other suggestions?

tnx,

Doug

3049. Re: Icom 706 Internal Power Meter Usage

Newsgroup: rec.radio.amateur.misc

Source record: 54611

I have a 706 and have seen this before, the swr meter is not all that
accurate.
Measure the swr with a wattmeter or an antenna analyzer to get a good
picture of how the antenna is really doing.
The 706 shuts the radio down as the swr climbs and when it is fully
delivering 100 watts it will be full scale.

One other thought is this, on AM the power is about 1/2 that of CW or RTTY,
so it needs to be used in either one of those modes to see a full 100 Watts.

Understandable. Someone who really wants answers about ham radio is getting non-responsive answers... like yours. No wonder he keeps having to ask.

This group has a very bad signal to noise ratio. I can see that, because I've been around for a while. I feel bad for newcomers. They might get the mistaken impression that this group represents ham radio.

It doesn't.

There aren't as many jerks on the air as there are here, because most of the jerks are... well, right here (present company excluded, Evan).

/ / The massive US Intelligence Reform Bill weighed in at over 3,000 pages and though unread by individual Members of either the House or Senate nevertheless passed all of the legislative hurdles needed in order to become law. \ \

TREASON BIG TIME.

/ / The contract company blamed for the bad food is identified as a small, Qatar-based firm called American Service Center. \ \

/ / From snatch and grab operations to warantless searches, Patriot Act II is an Adolf Hitler wish list.

You can understand why President Bush, Dick Cheney and Dennis Hastert want to keep this legislation secret not just from Congress, but the American people as well. \ \

/ / MIT and the Pentagon have been involved in a fraud that has promoted a weapon system that will have little or no utility and could cost hundreds of billions of dollars. \ \

--
THE SON OF MAN

/ / Anybody who supports George W. Bush is my ENEMY. George W. Bush committed 9/11 with his buddy, General Ahmad who funded the mastermind ring leader. That's

according to the FBI. Any bushite who gets in my way,
who says that isn't the case,

I WILL KILL. \ \

http://la.indymedia.org/uploads/son-of-man.mp3

http://jerusalem.indymedia.org/uploads/son-of-man.mp3

http://baltimore.indymedia.org/newswire/display/9099/index.php

/ / Mr. Sattler, if you don't want US to arrest those
responsible for 9/11, don't you think we Americans
should kill you? \ \

/ / They got this plan, in it's final stages, just prior
to 9/11, to invade Afghanistan. They couldn't invade
Afghanistan, without some sort of attack occurring that
would instigate an actual war. they got this plan, and
it's all about accusing bin Laden for terrorist
activities, and they've spent a year or more working on
it, or more. And through all the time they put it
together, they never thought to include, one single
shred of evidence. Knowing already as Taliban
fundamentalists, through an experience that Mr. Clinton
had, it is their fundamental religion not to persecute
the innocent. \ \

INTERVIEWER: Are you aware that this tank is
contaminated with radiation?

BUSHITE DUMFUK SOLDIER: No, it isn't radioactive.

INTERVIEWER: But we have measured it.

BUSHITE DUMFUK SOLDIER: No, it isn't radioactive, not
this tank.

--

/ / It said the TF 6-26, the designation for a special
operations task force in Iraq, did not make a record of the
medical treatment given the prisoner and ordered the DIA
debriefers out of the room. \ \

As Leader of the Free World, I will insure a multi-million
dollar payout, for each, still livng-now dead TF 6-26 member.

/ / "I'm not sure what this means. However, if this refers to
intell gathering, as I suspect, it suggests he [MILLER] has
continued to support interrogation strategies we not only

advised against, but questioned in terms of effectiveness,"
the email said. \ \

--

/ / Despite these concerns, the Bush Administration
continues to reject the recommendations of its auditors
that 15% of Halliburton's LOGCAP reimbursements be
withheld until the company can provide better
substantiation for its charges. \ \

/ / His mind was changed, however, when the true
intentions of Feeney became clear: the computer program
was going to be used to suppress the Democratic vote in
counties with large Democratic registrations. \ \

/ / San Juan, Puerto Rico -- Prisoners at the U.S.
detention centre in Guantanamo Bay, Cuba, have been
beaten while blindfolded and handcuffed, terrorized by
attack dogs and forced to take drugs, an Australian
detainee said in an affidavit released Thursday. \ \

/ / He stormed back over to the army psychiatrist, and
according to the witness I have, literally forced her,
browbeat her and intimidated the psychiatrist to change
her evaluation to read 'mentally unstable,' and ordered
her to ship Sergeant Ford medically out of the country
to receive a psychological evaluation in Germany. \ \

[KILL ENEMY] Captain Artiga

/ / One officer characterized conditions for the
[BUSHITE] wounded by saying, "They're being treated like
dogs." \ \

/ / This discrepancy is 3.5-times (350%) between the
number of wounded in combat listed by the military and
the number of service personnel medically evacuated from
Iraq for treatment in Germany! \ \

U.S. deserter 'didn't want to have to kill babies'

/ / Mr. House will argue that American soldiers are
guilty of war crimes and that forcing Mr. Hinzman to

fight in Iraq would have made him a war criminal.

He will call as a witness former U.S. Marine Staff Sergeant Jimmy Massey, who is expected to testify that he and other soldiers shot more than 30 unarmed Iraqis, including women and a six-year-old child, at a U.S. military checkpoint. \ \

--

CNN.com - Aid group 'told to freeze' Falluja work - Dec 6, 2004

/ / Only about 100 families are thought to remain in Falluja, as most fled the city before the U.S.-led operation aimed at flushing out insurgents. \ \

Huh? Again, witness wealthy CNN "news" staffers, didn't even bother to seek for an update on their "about 100", that had not ever been given. Red Cresent, the day previous to Dec. 6, no... actually reported on, Dec 3rd!, stated, (from their limited circle of reference) they had witnessed a minimum of many corpses, of completely innocent pro-Iraqi women, children, youths, and men.

/ / Iraqi Red Crescent spokesman Muhammad al-Nuri estimates that some 6,000 people have been killed, many of them civilians. \ \

(That is discounting murdered armed defenders of Freedom in Iraq we can prusume.)

But, again, the true bushite enemies of loyal bushite enemies, thay'l' "bushite lie" to the bushite nation about the "holy" benefits of, sacrificing America's young life., all done for the glorious betterment of the traitor demon anti-Christ liar, the war criminal, Our Mr. bush Jr., along with his treasonous evil cabal of anti-semitic Palestinian Christ haters. A compassionate, "conservative", war mongering cabal whos warring of America is done to secretly steal further from the innocence of God in silence. Without a honest to Johnny, bushite killin' God-Man to speak on the nature of reality itself from living Creation's time-less prospective. Naturally leaving ourselves to save all of humanity with my "magic" - guitar, notebook, cybercafes, and super cool Akeido, leaves me in wonder of where life could lead as committed to freedom through justice for all?, as truly ourselves democractically represented?, Miraculous?. or will we choose as ENEMY bushite instead not to, ending to devolve ourselves from existence?

I know of some pretty, almost miraculous words in which
can bring about positive change, and man, if you could
see the world for America's Dream, where all People are
judged not by the color of their skin, but the content
of their character, the entire bushmob would be behind
bars awaiting trial for treason, and the Iraqi People
would have American Forces demanding Allawi be arrested
for failing to explain himself regarding the needless
bombing of our Humanity in Samarra and Falluja.

--

SEE BUSHITE, KILL IT FOR GOD'S AMERICA

/ / Another humiliating proposal, which even triggered
debate among Marine officers in control of the city, is
to force all Fallujan men to work in military-style
battalions, reported the Globe. \ \

This is the best the ENEMY bushite could dream up in
all possible worlds?

/ / His company of tanks and Bradley Fighting Vehicles
had roamed the eastern third of the city [Falluja] for
13 days, shooting holes in every building that might
pose a threat, leaving behind a landscape of
half-collapsed houses and factories singed with soot. \ \

--
http://www.wsws.org/articles/2004/dec2004/iraq-d06_prn.shtml

/ / Of course, none of the assembled media pointed to
the absurdity of Bush's comments. \ \

--

http://billmon.org/archives/000172.html

/ / Bush administration official says: "Saddam never
had WMDs, and we never said he did." \ \

--

/ / Goldsborough said the reason he was given after the
fact is that the column, about why Jewish voters
overwhelmingly cast their presidential ballots for John
Kerry, was "offensive."

"The publisher said it might be offensive. To whom? \ \

--

/ / twenty-seven Israeli pilots indicated that they
would no longer fly missions in the Occupied Territories
(Boston Globe). The pilots said "We veteran and active
duty pilots are against carrying out illegal and immoral

attacks" and they "refuse to continue attacking innocent
civilians." \ \

--

KILL ENEMY BUSHITE FOR OUR LIVING LOVING GOD MAN

/ / They should put dynamite in their behinds and drop
them from 35,000 feet, the whole pack of scum out of
that jail."

Remember, these are the same prisoners that the Red
Cross estimates 70 to 90% of them were innocent and
later released. \ \

--

/ / It gets worse. We already knew about the Franklin
County, Ohio, precinct that tallied 4,258 votes for Bush
when only 638 people had actually voted. \ \

--

See? The bushite knows that bush murdered thousands of
Americans on 9/11, yet, will advocate fascism, to censor
America, from finding the truth for ourselves.

That enemy of God, the demon anti-Christ told US the
conflict he began, was because Saddam wouldn't let the
inspectors in. While, corporate nazi whores, refused to
correct ourselves on our sacrifices, for they enjoy
remaining impartial, when it comes to the crimes they
inflict upon our humanity. Enemies to all humanity CBC
and CNN are by refusing OUR facts to speak for
themselves. No betterment could be garnered, by the
demon anti-Christ's war crimes against civilization,
WITHOUT DOUBT. And, it's only the enemies of our
dumfukked and dimmer soldiers, in corporate mind
control, who refuse to allow anyone to state THAT FACT,
for, the enemy bushite would be exposed, and America
would be hunting them down with the Law as the traitors
to freedom they clearly are.

/ / Mr. bush is sending them into these military
conflicts, to create more hostility for them to die
over. So bush can rob ever more, from the undefended
American People left back home there, still, victimized
without repremand to those who ripped them off for their
pensions as example. \ \

--

Bush Lies to Canada

Demon bush spew "I made some decisions obviously that
some in Canada, didn't agree with. Like for example
removing Saddam Hussein, and enforcing the demands of
the UN security council."

Saddam was not found in violation of 1441, so the war
criminal anti-Christ's demands were not our world's, nor
that of the UN Security Council. How does thieving our
assets, destroying our infrastructure, and
indiscriminately murdering more than a hundred thousand
innocent people, (in turn to sacrifice more worthless
bushite nazi teens) bring about their closer fraudster
bushite "Freedom"? Again, CNN, and CBC let the demon
liar spew his hatred of our liberties, without factually
challenging his lies with our un-debatable established
truths. CNN and CBC would "sell" seeing our dimmer
youths sacrificed as bushmob thieves through blatant
bushite lies, to truly, steal our freedoms and liberty
with further murders by proxy.

/ / .. or when [bush] just told you for no reason
possible, why American soldiers are DYING, "Saddam
wouldn't let inspectors in", \ \

This should be a time when the People rise up as angels
of mercy, and hunt with Law to kill George W. Bush,
Rumsfeld, and Condoleeza Rice for the crimes committed
on 9/11. Just because the corporate T.V. doesn't
mention the facts to draw our own conclusions, doesn't

make it not so out of our realms of expertise
as Freedom's true represention.

--
http://www.opednews.com/fitrakis_113004_GOP.htm

/ / "It's about a will to dignity. It's
not too much to ask for our vote to count." \ \

/ / Colonel Ron Johnson "If I could have an Iraqi
security force guy who's honest, reliable and
dependable, it's worth five Marines," \ \

--

This is Hockey

US general John Sattler declared: "We have liberated
the city of Fallujah."

Sattler openly lies to the lives of America with this
insult, and the bushite nazi dumfuk, is too stupid or
evil to frag him as enemy proudly for it. The People of
the world, look, see.. bushites are murderous liars,
cheats, and thieves as the enemies of America, who even
lie to THEMSELVES on how many have been sacrificed to
blood the coffers of the American pension thieving war
monger bushite 9/11 cancer. A liar nazi bushite
commander would sacrifice his nation, along with own
family, before saying a word in defence of our freedoms,
our humanity, or our God. COWARDS. American nazi
bushite commander gets killed american nazi bushite
grunts, in dreams they too, can financially profit off
the talentless continuing THEFTS for enslavement to
sacrifice themselves as fascist tyrannies. Hmmm. but
the nature of American freedom, is to be one as everyone
being equal scores. "Gee, maybe some day even you could
be Presidential."

Weak intellectually, prone to cuss, the bushite nazi
dumfuk, is a worthless piece of crap.

http://bellaciao.org/en/article.php3?id_article=4591

/ / I have the impression that there are no other words
except "fuck" and "shit". Each communication, each
order is accompanied by a flow of 'fucks', 'shits' and
'bullshits'. I look at Americans with a pity.

Among the "colored-skin" GIs "Latinos" are largest
group, then Africans and semi-Africans. The officers
are mostly whites but there are also blacks... But I

cannot understand at all, why the US Army soldiers speak broken English!! \ \

/ / During the five days, while the count was yet conducted, more than three thousand wounded passed through our hospital. These were the people who lived nearby. The people who could be delivered to us. Nobody knows how many people in the city are dead. \ \

/ / I cannot recognize the city. Only ten days ago it was an Iraqi town with its regular for centuries Arabic life. Boling bazaars, noisy streets. And here I am going through the empty dead city, between the ugly "pyramids" of destroyed buildings, broken streets, whole quarters wiped from the face of earth. \ \

--

old nazi tricks

/ / The Red Crescent's Falluja coordinator, Jotiar Nafaa, estimates that between 150 and 175 families are left in the city that once had a population of 300,000. \ \

REUTERS up to their old nazi tricks again. Jotiar Nafaa, "coordinator", should surely know, that it is 175 families that had requested for the help of Red Crescent totaled several days previous, (without phones, nor abilities to leave their homes (150?)), NOT, "left in the city". [THINK: how could they possibly know? (nazi bushite whores were ordered to murder innocents indiscriminately as enemies to God)] Also, is "Jotiar Nafaa", the same woman hater, who LIED in REUTER"S anonymous hand previously, as the Red Cross, that the women held illegally as hostages by the thieving evil nazi bushite forces, didn't really exist? (and who the "sovereign" Justice system of Iraq, along with World opinion, God, and JOHNNY had demanded to be let go for lack of any real criminal charges? (despite CNN and CBC WILLFULLY refusing to report on the issue as important. (You know, INNOCENT women held hostage by bushite goons who acquiesce COWARDLY for rapists and torturers? (Just like Jew killer Ariel Sharon never gets a fair mention by "America", nor Zarqawi, as he was in the second Bigley flick, right before Samara.)))

LOOK AT THIS - LOOK AT THIS - LOOK AT THIS

Aljazeera.Net - Aid trickling in to desperate Fallujans

/ / The organisation estimates that only 150 to 175 families stayed in Falluja after the start of the US-led offensive on 8 November \ \

The organization does not estimate the incorrect fantasy conclusion held by this pro-irrational Bush article from Aljazeera.NET. By god Johnny, where tell us could such lies begin at? Well, let's go investigate... If as it is, a misrepresentation of Red Crescent's actual findings, wouldn't you think "they" would put out a press release to correct this falsehood of public claim?, to suggest 150 remain in a city the size of 300,000+?, but no greater than 175? without access for numbering by anyone, but for the only near 15,000 HUMAN BEINGS known escaped as refugees??? Or, are the "reporters" just conveying the "facts", by putting no investment in our validity? Leaving us for further victimhood, by hiding ourselves from the war crimes the anti-Christ bushite nazi savage commanders have committed in my name, America's name, God's name? as our enemies?

Our cause as Humanity is for freedom's reign, not to sacrifice Humanity as misled bushite nazi facist teens further, so bush, condi and rummy can fi-nah-lly escape "The True Patriot's Wrath", for the crimes they committed against Freedom America on "bush win", 9/11. So... Why so do I think Justice is going to get GW, making no mistakens? Because the Patriot's Patriot is you too my sworn believer, and now that's this: America's craftier than that George Bush Jr. makes living out for, in "our"-OWN news broadcasts. As the "censored" contributors who learned our gathering skills some time ago already, I say, Freedom is paramount. Mr. bush's unbiased corporate news agenda doesn't hold America to an account before the Lord, nor to God as being, an honest spoken word, or deed of good measure. Of friendship, of kindness, of compassion and caring for our fellow human beings. I have rights too you know. As cowards, the bushite refuses to defend the innocent they rob and murder from to serve as enemies of Life, done in to die pleasing their false idol, corporate america's glorious leader, the un-elected dictator, Our Mr. bush Jr..

It should be further noted, as reported, that all aid agencies contributing have accounted for only near 15,000 families stationed in refugee camps that escaped the indiscriminate anti-Christ demon bombing campaigns. So, total deaths tolls could exceed 200,000 just for Falluja alone., what with the napalm, land mines, 1000 lb bombs, snipers, tanks, mortars, essential services, police protections, denials of foods or water, thefts, vandalism, and so on. All along with the refusal to allow the People to escape before hand, or even enter now. I've only heard that the nazi grunts will only

allow the "staff" of "Red Crescent", to quickly as can be, come into the demolished city, and dispose of our corpses with bulldozers likely. You know?, any males between 15 to 50?, like their "Hero", the bush family's Hitler regime did. You tell me, would you enjoy as a True Patriot Warrior, killing a LYING enemy bushite nazi bomber, on behalf of saving yourself and family, God and Humanity? God?, that the demon anti-Christ disciples murder to steal from US as the innocent? To kill an evil and mindless devaluating corporate bushite facist slave, is to save the untold lives of thousands of US innocent they target indiscriminately for criminal plunder. Dying as cowards too weak to defend their own country from the neo-con conspirators, they die. Die.. Get this measage out to the American forces, and stand back, cause America's gonna win this fight for freedom, or die as slaves remaining unworthy to a blind comitment of tyranny by furthering enslavement against our Human species.

Continue doubting in silence fledgling Patriot, and bushite america's war will continue refusing to speak on it's needless sacrificing through bushite criminal decree. We know, wealthy con man Art Bell, Limbaugh, and O'Really will try and refuse such truths discussed in Your America, care for the lives of sacrificing American teen soldiers are of no concern to their profit margins., so far. You, my friend, just need to try starting a demand for justice as Freedom commands. (And, if you wish, you can thank us with a small cash donation to help me escape this nearing starvation.)

I'd, as the Son of Man, (but you can call me Dad.) proudly teach, or kill godless thieving bushite to save the lives of any child, and so would the rest of Humanity likewise. There is no known fate worst, than a Mother Nature scorned, or near 7 billion People really very angry with you.

"if the USA's honor can go along with these [bushite] tactics . . then the USA is a country without honor."

And, boy, real America wouldn't take kindly to George W. Bush Jr. as understanding, the elected President has leadered the murder, of thousands of decieved Americans as the innocent, all to only steal from, as the left "officially" undefended. Hell, as the true Leader of this Free World, and holy roller god child, George W. Bush Jr. pisses me off to no end, how about you?

/ / Washington says the Falluja campaign was necessary to bring the Sunni Muslim city back under the control of

the central Baghdad government ahead of planned Iraqi elections in January. \ \

Reuters up to their old nazi tricks again. It was only mindless nazi savages who indiscriminately murder good honorable people, who advocate thieving and torture, rape and murder, and the willful destruction of America, that were banned from entering the Holy city.

No evidence, so then, for what? What but to get more cowardly american marines dead, to serve soullessly further - as the stolen riches of the evil enemy demon anti-Christ, evil personified, Our Mr. bush Jr.. (the same from 9/11 fame)

http://www.truthout.org/docs_04/112604I.shtml

/ / By targeting civilians, he said, an army could advance more rapidly. ``Air-delivered terror'' effectively removes civilian obstacles. \ \

Pure, unadulterated fascist nazi evil. "Never again"? Killing un-arrested bushite (Saudi wahabbi) commanders, is like killing the enemies of America, Humanity, and Jesus' God. Do ourselves and Johnny a great big favor, when you see a loyal bushite nazi grunt, thief and murderer, imagine, "yah, that's right, that's what being a kind neighbor is all about, for Christ said so in John's Revelations." Bushite! your false Idol religion is too stupid to remain for dying spark under the anti-Christ's evil criminal dictatorship of, wannabe dumfuks. I'm Your God see, and Your coming and going. As for Royal King Johnny, he's just standing in for this time being,..' hey you!, pay no attention to anyone behind what curtain! Boo!

America is wonderful to truly believe of it as in the making. So, let's get the work done that needs doing, so God can get back to trying to enjoy some time at home. I'm here for a good time, not a long time, and the sun don't shine every day. So get off your asses, and demand some real Justice for Christ's sake. Johnny has awoken, and he's cranky they say.

Israeli Soldiers Going In For The Kill: A 13 year old Palestinian JEWISH school girl is about to die

/ / "It's a little girl. She's running defensively eastwards, a girl of about 10. She's behind the embankment, scared to death."

"Anyone who's mobile, moving in the zone, even if it's a three-year-old, needs to be killed.

..soldiers in the company, [...] Givati Brigade, complained that they had been "besmirched"

The soldiers said that the commander had fired two shots at the girl from close range as she lay on the ground.. \ \

Will all Jews join me in calling for the public World trial of crimes against God's Humanity, done by these truly godless fascist nazi enemies of the Holy Jewish faith? Or, will the anti-Jewish Ariel Sharon crowd again, march more Jews silently to their graves, refusing to speak for the Bible's Word that all people

are created in God's loving image?

Victimizing the innocent to steal from, is not acts becoming of a religious person or a truly "democratic" government.

--

http://www.topplebush.com/article54_recpres.shtml

/ / Musil said the [rumsfeld's] Pentagon's effort to draw a distinction between the weapons was outrageous.

"It's Orwellian. They do not want the public to know. It's a lie," he said. \ \

--

/ / Hammad said he had seen elderly women carrying white flags shot by U.S. soldiers. ''Even the wounded people were killed. The Americans made announcements for people to come to one mosque if they wanted to leave Fallujah, and even the people who went there carrying white flags were killed.'' \ \

--

http://www.globalresearch.ca/articles/BOH411A.html

/ / But we have to be very cognizant of the fact that the media's adamant refusal to address the very real irregularities of the 2004 vote is a deliberate act of psychological warfare. [...]

"if the USA's honor can go along with these tactics . . . then the USA is a country without honor." [...]

The word 'jihad' (holy war) from which 'el moudjahid' (fighter for the faith) derives, has always been, because of an anti-Islamic prejudice that dates from the Crusades, taken in the Christian West in a limited and restrictive sense. It is taken as a symbol of religious aggressiveness. This interpretation is rendered absurd by the very fact that Islam is tolerant, and the respect of religions, in particular Judaism and Christianity, is one of its fundamental precepts, something which, in fact, has been in practice over the centuries. \ \

--

/ / Ending this bloodbath is the most honorable task Americans can perform to restore progressive priorities and our respect in the world. We have passed the point for graceful exit strategies. Our policy is to go on mechanically killing people unless they vote in January

for us to keep on killing people. \ \

TREASON.

--

/ / UN officials, at U.S. request, placed a curtain
over a tapestry of Picasso's Guernica, located at the
entrance to the Security Council chambers. As a TV
backdrop, the anti-war mural would contradict the
Secretary of State's case for war in Iraq. \ \

/ / In August, US National Guardsmen discovered and
sought to stop the torture of detainees in a Baghdad
prison by Allawi's new interior ministry police, but
were ordered by US commanders to leave the victims in
the hands of their tormentors. \ \

--

/ / The leak about the money and the rigged election
apparently came from technicians who were promised to be
paid a certain amount for their work but the Bush
campaign interlocutors reneged and some of the
technicians are revealing the nature of the vote rigging
program. \ \

Yawn. Yet another act of high treason by the enemy
bushite, that should warrant prosecution under American
law, but look!, CNN and CBC couldn't care less about the
legitimacy of US elections, or our freedoms and the
irrational sacrifices of life made by cowardly and
soulless teen-age disciples of the true enemy evil
anti-Christ. Why bother to arrest those who committed
MASSIVE fraud during the election, the crime is over,
and corporate amerikkka have already declared themselves

our enemies of freedom, as committed, to kill, or have killed, America for stolen gains without virtue. Besides, what is such a charge in amerka know-a-daze?, "fifth degree felony"? Why even bother. Reading is for the stupid people, and math is even quackier, har har.

--

/ / I retired in 1999 as a lieutenant colonel with 30 years total service. I am now also a 60% disabled vet due to combat wounds which have worsened over the years.

At the same time my day job was as a police officer. I served 26 years with the Tulsa PD, working uniform, plain clothes, SWAT, bomb squad and finally as a police helicopter pilot for 3600 hours of flight time. I received the department's Medal of Valor, two Chief's Medals, and the Department Commendation Medal. Not exactly the profile of a terrorist suspect, eh?

My sin, evidently, was using the First Amendment. \ \

God is Great

A person accused in our name(s) of a criminal offence,
needs to be established somehow to be as such, and the
only way to do that, is to present evidence that formed
your/our conclusion. Without evidence our accused is
ourselves as the innocent, being falsely imprisoned,
tortured, or murdered. Murdered, as the Allawi and the
bushite nazi forces did to our friends and family in
Falluja, to please the demon liar, lawless George Bush
Jr. as their central thief system of dishonor and
betrayal to the human cause, Your own.

Now, when bush stated that Laden was guilty, without
evidence needed to form a conclusion, or when he just
told you for no reason possible, why American soldiers
are DYING, "Saddam wouldn't let inspectors in", the
bushmob thieves plundered in our "lost" confusion. All
the while bush always seeking to close America's
on-going criminal investigations, by causing even more
have nots among US. So, as a free person, to side for
the, bush wars America, God, and Johnny issue, you would
seek out to find for Yourself beholding likewise as We
all are: bush is actually super fuking evil, like
personified or incarnate even, and Johnny's almost like
a stranger Messianic figure who just wants to be known
as a semi-normal average GUY/god fellow. (Sheesh.. We
gotta bring ourselves everywhere we go) I "hate" bush
for being so not himself stupid to think there was no
actual walking, talking, godly Persons from the
outer-reaches coming in to get him for the crimes he has
committed ourselves to. Corporate news dictate without
a human presence, doesn't rule this world of
communication, we do. (Jesus wasn't buying Satan's
misconception.. SEE THE BIBLE AND THE KORAN CAN BOTH BE

RIGHTiOUS!!..! Just ignore the misconceptions others have, and join the party!!! The Time is Now, and man, do I know how to make an entrance or what?)

A demand for Justice is our birthright as the human species struggling to survive.

We could be on good terms with the "unthinking", greatly special loving Earth as the no longer leaving ourselves to be silently victimized, and I think, we'd think, we want to live in a freedom bound for glory, not a hell hole of, ignorance is bliss, look there! your dying needlessly victimized, oh.. too late who cares your dead nonexistence. Did you say something?

Trust me America, YOU WANNA correct this George Bush Jr. problem before it becomes the "law" of the "land". Don't fear though, for, God's here, there, everywhere!!! It's you over... there! and under here.. and then... we said hello to Johnny, the miracle worker. God People, I have so many good words to tell you, and wonders that would surely boggle some senses. Our hope for a better future doesn't have to die here on a cross for the war mongering bushmob thieves, but, it's going to require You personally taking some action, be it however slight, to bring a remedy to this current, "Look People, bush thinks he has almost escaped accountability for the commitment of crimes he perpetrated on 9/11 against US interests." Strange but.. REMEMBER: people like Americans, are currently needlessly still dying for the bushmob war monger thieves., dying by only our continuing censored voices on the seriousness of our commitment to defend the rights of every free person standing; ourselves as God being victimized with these unjustly expensive, neo-con bushite terrorist campaigns against Civilization's better judgement.

God is great I know it's true, just put a little faith in yourself, and demand America soldiers fight instead to protect DYING America from the tricky, evil bushmob cabal of THIEVES. Cheney looks bad there, as does Myers, and didn't Goss have some pre-9/11 meetin' with 9/11's General Ahmad that he has still yet to answer for, or.. is it we guess, to be "legally" done in by... the Secret Order. The American good cop is all we're expecting, and all we need when dealing with the likes of a self-depreciating bushite conspirator..

We don't get to be Magnificent without you likewise. This alien world we have victimized against our better interests, is a failing spirit of Life from our vantage point. Going back before the Age of Reason, is not

where I believe America wants to be taken any further, thank you, but no thanks, besides, the King of Kings is here. Johnny Wizard looking to break into prime-time with his very own Special special.

I'd have ta be one crazy mixed up loon to follow this world over with the universal principles of justice as freedom, to set course for the dreams of my trying, and you might be right. Get You to talk TRULY will, guaranteed, freak you out. REMEMBER: Mr. bush Jr. should have been arrested day one, with that fifty billion. That was before 9/11, Afghanistan, Haiti, Iraq, a few hundred thousand innocent lives, 300 billion plus a few hundred more stolen, and for what? I can only see, we needed myself as King here yesterday. I wasn't chosen for this freedom post per say, but, me and the stars had a dream one time, and it continues through out to this day, enough to say but, this is not what you read about in the manuals. Freedom to be yourself, is the freedom to dream something bigger that your wildest imaginations. I am the Son of Man, and do I have tales to tell. (I know, it sounds crazy, but it's just like a performance gimmick to increase my Q ratings. And, it seems to be somewhere working with me.. I've got a story down pat for anything if someone should ask what fear is.., now, open that curtain so we can start the show!)

I have a treat for you strange friends and friendly strangers out there. Some art work from me. Now, I used the drawing myself, for posters of different sizes, explaining in small writing some key 9/11 questions, while with maybe block letters, things like "bush is EVIL", 'did 9/11', can you hear me?, as what have you.. So, here I will offer you something I created, a Johnny Wizard pencil drawing in jpg format. Enjoy!

http://la.indymedia.org/news/2004/11/119755.php

Hmm, perhaps I'll give out other of my drawings as thankyous for fifty dollar donations? Or prints for $500! You know, they could be worth a substantial amount of money in a few years, hmm, a real investment for your future... A wise move for the prudent investor really when you think about it. But hey, no pressure, no pressure.

Being me out to destroy bushite just sucks. I'm really not naturally so angry about what bush has done to our world all the time. My voice is getting hoarser, and I'm occasionally grunting, bad sign. I want to live like it's 1999!

Arrest for immediate trial, bush, rumsfeld and condi for the crimes of 9/11 back in New York City, and all will be well with my World,

A friend of living on for a brighter day,

Johnny Wizard

--

Truth is Telling

/ / Major-General Richard Natonski prepared his troops for the battle ahead. 'We're goin' in to raise the Eye-raqi flag above Falluja - to give it back to the Fallujans,' \ \

So, was it Major-General Richard Natonski's decision to drop 2000 lb bombs then? Was it his charge to indiscriminately shoot at US innocent, on the street, in our cars, our homes?, cause somebody's gotta pay then with their lives for lying to die the dumfuk marines, who it turns out, weren't so dumb, or hard of hearing after all. Those responsible for the bombing campaign targeting hospitals and groups of innocent people, need to be hunted down with extreme prejudice, and publicly executed on behalf of our Humanity. So too, do those who ordered the NEEDLESS bombing campaign in Samara. And, for those who have worn the American flag while willfully committing the sadistic crimes of torture and rape, we shall all join together, and hunt down as our enemies without mercy. The bushite are enemies of all our humanity, demanding we sacrifice our honor, like they have done to family and friend, and sacrifice our courage, because they refuse to defend their own flag and the freedom of which it stands, one nation, indivisible.

I will not rest until every traitor of the America I remember, is summarily executed by death sentence for the convicted war crimes Humanity and God has suffered under their heinously satanic barbarity. I HATE the anti-Christ, and all the bushite has tolled against our better station. As I tell again, killing bushite is a godsend. They as a satanic force of evil, torturing and murdering, rob from America as they "willfully" allow the robbery of Iraqis, and they truly, rob from themselves when refusing to join US in the demands to have bush condi and rumsfeld downed for the crimes of 9/11. We also demand all stolen assets taken through the bushite mongering war privateers, returned to a legitimate Iraqi government. All done by firstly, arresting Allawi for the murderous war crimes in

Samarra, and then in Falluja. Also, hunting down to kill those who forbad humanity from helping US in Falluja, or turned off the utilities, shall be tried and publicly executed for commiting war crimes against MY humanity.

Weak intellectually as fascist nazis, the slave whore bushite's commitment is to only die for as enemy. They FEAR to have to stand up for fellow thieving soldiers and say, "damn, this war is evil to the 'n degree, Jesus would surely be angry, And from what I hear, the Son of Man is pretty upset about what we enemies of God have done too, and, well.. we do not have to thoughtlessly serve under anti-Christ war crime decree any longer, as the cowardly lying chicken shits, too afraid to defend our own nation., instead, let's go bag US some enemy bushite for America's America!" We do all together want to convict those who murdered thousands in New York City, and we're definitely not combating global terrorism, by fighting a needless war against the innocent, lying to ourselves that by doing so, brings about a fair just government of "The People"., to then in turn arrest whom? American soldiers need to say, to hell with bush, and corporate professionalism, my loyalty is with Christ as a truth telling demon slayer.

For those who still continue, to sacrifice our rights to life and liberty, for a no better good deal as the bad guys, are TRAITORS to America, who are attempting to help escape bush and rumsfeld from the murder scene of 9/11. Never gonna happen. So, why should yet another, promising young man, die as a dumfuk bushite, the most hated and reprehensible nazi savage America has ever gleamed of? The indiscriminate bombing of our communities rightly gets dead, another, good for nothing, nazi soulless bushite vermin, AND RIGHTLY SO. I'd kill thieving bushite bombers to save the innocent life of anyone.. like a,.. cluster dud dropper., wouldn't you?, in all honestly, if you had the power, kill such an evil nazi betrayer to Freedom and America who blindly targets our residential communities to enrich the UN-AMERICAN demon anti-Christ bushite thieves further? That, as bushite nazi grunt, they die for? Paleeze.

America is dying to prosper their false-deity war criminal demon anti-Christ, Our Mr. bush Jr, the same responsible for the nine eleven travesty, who attempts escape only through fascist americans who willfully betray America by condoning the furthering of bushite censorship for tyranny. Is America the cesspool of

corruption and greed, without a People person present willing to make a stand for God and Country? BUSH IS EVIL. Let's arrest'em, or kill'em for committing high treason on 9/11 with condi and rumsfeld.

What do yah say?

Under the witness of every freedom loving person this universe over, I am proclaiming, a war against the liar George Bush Jr., the vilest contempt for mankind this World will not stand by to be destroyed because of.

/ / claiming that the United States went to war because Saddam wouldn't let inspectors in; the media has treated this as not really a lie because it's so obviously untrue. \ \

America is a coming to kill the truly evil George Bush Jr.,

Johnny Wizard

--

The King Commands

/ / Rumsfeld replied to a direct question yesterday as to whether he knew Zarqawi was in Fallujah with the answer: ``I have no idea if he is there.'' \ \

So, America! there is your reason for dying America's sons and daughters, Johnny's brothers and sisters. "No idea" rumsfeld states while his private partners cash in the blood checks for everything but the funeral services. I ask sacrificing soldiers to help grant me space to debate bush and rumsfeld on international radio. We gotta take away Art Bell's turn off button to thank him for all the enlightenment he has been a part of in America, but that these life death top priority issues of ours, he hasn't the right to censor communication on. This is your World that I wish to play servant of. As my subject; I promise a fight to return Justice through freedom for all. How? By believing in you to do as you should, demanding the immediate arrest or execution of bush, rumsfeld, and condi for the crimes of 9/11. Demanding the return of all stolen Iraqi assets, made by those who personally profited off the criminal transactions. Demand the arrest or execution of Allawi for the bombing campaign of Samara, along with bushite military commanders who organized the satanic attack. Why would America do this? To free the dying lives of their bushite nazi whored, dying grunt savage slave population. .or perhaps not...

/ / Joseph Bowman, a 20-year-old marine from Texas: ``We're ready to go. I'm just ready to get this done. I want to go and kill people, so we can go home. Kill them, and go home, that's all we can do now.'' \ \

Where is home for the Joseph Bowmans? A devolving backward wasteland?, where brother kills brother for a stolen nickel? Who would want to share the same home?, street?, or community with such contempt for life and liberty? God and Johnny? Who's home does bushite Bowman SEE the joys of his humanity flourishing?, or being destroyed as the true enemy? Is that the place where the pursuit of freedom is done by sanctioning first degree murder for no reason in particular? And is

that the bushite america we've all come to getting to know of these last few days through corporate news contempt for the loss of our life's love?, and God's voice? It is all up to us, You included. In battle against the evils of this world, we should start on getting back to those that did US wrong on 9/11: bush, rumsfeld, and condi., just for starters, while keeping a careful watch on those that jump to their cause for furthering tyranny.

A terrorist to target: Major Todd Desgrosseilliers

/ / US forces unleashed more than 20 air strikes and some 60 artillery rounds on Monday, said Major Todd Desgrosseilliers. [...] An AFP reporter in the Jolan district said one building in every 10 had been flattened. As US-led troops closed in on the neighborhood overnight, at least four 900-kilogram bombs were dropped in the city's northwest. \ \

What is it that the major is warring Falluja's defenders for? Is it to thieve the assets of the war torn city through the sacrifice of American boys and girls?, or is it to set up a representative government that would firstly stand demanding immediate reparations? The return of all stolen assets? (referring to the satanic bushite documents: the lawless 13303 and the, "THIEVING bushite dying soldiers stole it, so" now, G.W. can sell it privately to his no-national robber baron "Economy Plan"sters.) Would not a free and liberated Iraq demand a return of the "missing" or "lost" billions through the humanitarian Iraqi Development Funds? The practice of human rights law? Criminal investigations? World wide Public arrests or executions of the rapists and torturers, along with the war crime commanders?, who mostly command from sunny Florida as pension thieves, and the lucrative Halliburton billionaire war pressure lobbyists?., For all together as represented, we instead (they claim) advocate the mistreatment of US innocents in Your name. Sacrificed? Why do you let them get away with that? How about instead my friends, for Christ's sake, we decide together to go after the criminals? Allawi must pay with his remaining life for the needless bombing of Samara that got many an American soldier KILLED for nothing. Nothing. Died for nothing, but to sacrifice more of America to the war crimer bushite, the lawless demon anti-Christ's followers of evil personified., the most popular Presidente' ever all-act-dud. .!!.

Yeah yeah, bush and rumsfeld did 9/11, but did you know the Pentagon has not so mysteriously misplaced near 3 trillion dollars?, that a couple few claim was forever lost? Shucks? And did you know, it is the Treasury Department that loaned the Federal Reserve American currency to begin with, not the other way around, when they in turn, lent it back to ourselves.., at private interest. Whoms? Hmm... a quest for answers to the name on the bill We Trust?

At the same time while we're all parting, we got like, American soldiers indiscriminately murdering people. That isn't an accusation I make against the nazi bushite, they freely confess it. and for what purpose? They say, "we'll kill more than them that they'll kill of US"

Yeah but, why bomb ANYBODY? Why do you have to sacrifice American soldier's lives for no greater good? What benefit does it bring to the DYING bushite grunts who are ordered to stick around and try to placate hostilities with "good" intentions? as within the sites of Humanity - as enemies to US all? Will the commanders argue from sunny Florida, that yeah but, we killed more of them, than them of US. And.. they are who? ordering the commitment to indiscriminate murder? as the bad guys?. The bushites bombed, the willing to placate Samarra, to only get killed, more American Marines. And for what but the few bucks wasted on the ammo?.. to get killed more "uncounted" Marines naturally., for the bushites are waging to make a real killing on this American sacrifice. Look, we can sit down with each arrested bushite individually, talk to them about wether they are personally committed to thieving further from America, all to die benefitting the likes of an Enron, and those that thought they'd get away from the crime scene of 9/11; before deciding ultimately, wether the born again have any real hope left. The bushites are enemies to God, Amnerica, Johnny, and themselves truly dying US for. We can see how easy the manipulation of the American soldier's mind is, they have no ability to rationalize while speaking, and as a consequence, have no understanding of their bad-faith based satanic system. George W. Bush Jr. threatens the grunt soldier to always fear what they don't understand, like, the wisdom contained within the American Constitution, or the dreaded, free to speak any mind Internet. Terrified of growing up like real men do to make their own decisions in this big world, the bushite nurse instead on the teat of sadomasochism, as bushwhore nazi dumfuk slaves. Dying brain dead limp as noodles mushing. And why? All because Americans don't

want to trouble American Talk radio with our freedoms. I again challenge Art Bell, Limbaugh and O'Really to a three hour debate entitled, "Wizard's War of Words: A Super Duper Special" all about their un-worthiness to censor our screams for Justice.

Joy to the world, or more misery and suffering under the demon anti-Christ, Our lawlessly evil Mr. bush Jr.? It is up to you really. Where do you want to go? Up, or down? You decide, but don't wait until forever never coming; these times demand for the victim, some real accountability. It is the power of our nature to being, that demands a call to arms against the war crime instigating, nine eleven perpetrators. Military commanders who don't support the arrest or execution of said individuals: bush, rumsfeld, and condi, are traitors guilty of mutiny.

/ / because having photographers or reporters present could have interfered with the count \ \

What we do now is accuse ES&S, along with Diebold of falsifying the election, then when they're pressed to prove "their" findings, they'll tell US, they can't, no ballot trail. Their convictions on our accuracy is misplaced. Pen and paper with ballots secured in locked boxes that never leave public scrutiny is the answer. Those who deny US that privilege, are enemies of freedom and democracy, wether they know it or not.

What for you say?, up for a challenge?

Your, coming to town, lovable loyal American King,

Johnny Wizard

--

http://www.awesomelibrary.org/Classroom/Social_Studies/Government/Fraud_in_Voting.html

/ / But not until Friday did they begin to spill into the more conventional news media. That's when the Cincinnati Enquirer reported that officials in Warren County, Ohio, had "elocked down" its administration building to prevent anybody from observing the vote count there.

Suspicious enough on the face of it, the decision got more dubious still when County Commissioners confirmed that they were acting on the advice of their Emergency Services Director, Frank Young. Mr. Young had explained that he had been advised by the federal government to implement the measures for the sake of

Homeland Security. \ \

MSNBC Covers Voting Problems

/ / He said that there were 90,000 more votes cast in Ohio than registered voters

He said that all the irregularities in Florida and Ohio have happened in counties using non-paper-trail e-voting from the companies run by Bush's friends. \ \

--

/ / Meanwhile, the U.S. continued its targeting of medical facilities in the city. A makeshift clinic that is serving as the main first-aid facility was bombed this morning after U.S. and Iraqi forces took over Fallujah General Hospital early Monday. \ \

--

Praise Jesus! I killed ten lawless bushite disciples of the demon anti-Christ today, and I'm just getting started.. Praise Jesus!

/ / Here is a city, surrounded and cut off, whose male population between the ages of 15 and 50 faces being ``put to the sword'' by the US military, and no one in the media can stir himself to raise an objection. \ \

We all can only hope and pray all US Godly innocent people will wake up, and starta' hunting bushite to the ends of this Earth. There is no pleasure greater, than destroying fascist nazi bushite grunts, to save the lives of the innocent they target for pillage and murder. Enemies of America are the cowardly and soulless disciples of the demon tyrant anti-Christ, Our evil Mr. bush Jr.. Disciples of evil who war God as our enemies in attempt to escape bush, condi, and rumsfeld for the crimes of nine eleven. No dice, for Johnny's now, truly coming around like some kinda godly American Man of Virtues most can not even begin to understand. Don't be afraid my brothers and sisters, unless of course you're a bushite, for as a Christ Crusader I'll kill you myself, before allowing you to murder another innocent soul in My name. "Death to the bushite instead of our good friends and family", is our King's reply. Bushite commanders responsible for ordering the irrational bombing campaigns in Iraq, (to steal profit for rumsfeld's partners, while sacrificing weak and stupid American teens in the process,) such as in Samarra and Falluja, I am now offering a ten million dollar bounty on, per. If your organization bags three

or more, before December 25th, there will be an extra
something under the Christmas tree this year.

Do you Love me now as the Son of Man you'll
ever know?

King Johnny Wizard

P.S.

(to steal profit for rumsfeld's partners, while
sacrificing weak and stupid American teens in the
process,)

See? Evil bushite kill "other" bushite to steal our
freedoms and money, and US true freedom fighters would
kill'em too to defend our innocent families. Like I
said, un-principled nazi facist savages is the
un-American enemy bushite without contention but for
lifeless corporate censorship on our core values.
Demand our voices be heard, or die not trying to do any
greater. I'm serious this time.

God bless America - Now, let's arrest or kill US some
enemy bushite, what do you say People?

--

/ / "I have no other choice but to resort to extreme
measures to protect the Iraqi people from these killers
and to liberate residents of Fallujah so they can return
to their homes." \ \

American Patriot Warriors, kill Allawi as our number
one, Iraqi People killer. Thanks in advance my friend.

In Fallujah, U.S. Declares War on Hospitals, Ambulances
http://newstandardnews.net/content/index.cfm/items/1208

snpd

Or, is it another of those, why bother-who cares?-fifth
degree felony things?

--

/ / Despite this, the Bush administration denies any
responsibility for the missing explosives. \ \

Nor for sabotaging the ORHA for franks and rumsfeld to rob the pro-Iraqi central bank. It's just more American deaths as dumfuk sacrifices for the evil anti-Christ, like bush and rumsfeld committed as stolen from America on 9/11. Who cares about America Limbaugh would quietly trumpet, he's making a killing like Art Bell and O'Reilly do, keeping US masses PORTRAYED uninformed and ignorant beyond belief. Did you hear? Mr. bush is the most popular President ever ellected!

--

/ / Not one "chicken hawk" or a clique of shirkers, but an entire platoon of seventeen soldiers decided to face arrest rather than die needlessly because THE MAN doesn't support our troops. \ \

/ / stupid people prefer President George W Bush over Senator John Kerry by a 4-to-1 margin \ \

--

Getting Started

<http://www.yubanet.com/artman/publish/article_14748.shtml>

/ / ..a call for immediate inquiry into evidence that suggests high-level government officials may have deliberately allowed the September 11th attacks to occur. \ \

I would suggest all living American medias to join the 911 Truth Statement, then, if we did that, America might settle her own affairs, and I could then just center on my upcoming "Wizard's World Wide Wonder Tour" plans currently in the finishing stages. This great World is yours, treat yourself well. A National radio program is just waiting for your call on what you know now about freedom.

/ / So, at the time of the invasion, the Iraqi government had already disclosed and disarmed, and was thereby in compliance with the major provisions of UN Security Council resolution 1441, to which Bush refers in this quote. Diplomacy had, in fact, worked. \ \

Demon bush spew "Saddam Hussein would still be in power, he would control all those weapons and explosives, and could share them with our terrorist enemies."

Yet, it was rummy and tommy franks who TREASONOUSLY threw out the State Department's semi-thought through ORHA plan of, securing the weapon sites and preventing anarchy, and, it was the IAEA that had tabs on the weapons before the bush demon kicked them out

irrationally. Done so to instigate looting and the deaths of American soldiers, all so to allow traitor franks and company to rob the public bank of uncounted billions, along with the museum. See? bushite would truly get the dumfuk cowardly bushite killed for a stolen dollar, and US real men would kill bushite too, as so would this eternal Universe, done so to protect our loving innocent families. Being a bushite disciple of the evil anti-Christ, is something all wish hardship and death for instead of the innocent they, un-apologetically, as enemies of God, openly target for rape, pillage, and murder. Johnny Wizard pays ten cents for every bushite tagged and bagged, ten cents. And, an even share of at least 3 billion to those who kill the bushite commanders responsible for the criminal bombing of Samara. Hint: You kill the individuals who ordered the bombing MURDER campaigns of Samara, then stand up proud to our media as a real American soldier should or would, and say yeah, I killed the nazi bushite traitors as a true Patriot Warrior to protect my fellow brothers and sisters. (Optional close: "All hail Johnny!) Do that, and I promise you'll get what coming to you: all the riches this world of God's can afford., But don't, as bushite nazi soldier grunt, and likely die sacrificed as a coward and a traitor to the Human cause of liberty and Justice for US all. WARRING military corporate commanders that don't support the arrest of those responsible for 9/11, or the return of all stolen assets taken through the neo-con's war crime actions, we should all just frag for America.., what do you say Patriot(s)?

/ / Marine Colonel Michael Schupp dismissed the sputtering dialogue as a sham. "The negotiations are a ruse. They are just stalling for time," he told reporters near Falluja. \ \

What negotiations? Allawi has repeatedly informed American soldiers he has no evidence whatsoever, establishing his therefor, FALSE allegations. Mr. bremer's Zarqawi moves freely throughout Iraq, including the green zone. Question: When all those children were targeted for murder, by what was reported at the scene with remote controls in one truck and under the street, why would Zarqari take credit for it even if he was truly responsible? And so on..? I think Michael Schupp is a fuk up dumfuk, who thieves from America for bush, and who clearly doesn't have the intellect to command anyone but himself to his own rightly death. Why would Zarqawi target children, when bushite nazi grunts are all so close by coming and going?, for days at least constructing stuff?, that rumsfeld broke?, then over

billed to fix for even further takings? Remember several un-arrested bushite NAZI commanders openly confesses to AMERICA in having no public objections about murdering the innocent, without even having a military objective established in some cases, but only for to sacrifice another soulless bushite grunt/slave, all so to enrich the comfy neo-con war mongers left back home in our luxuries., Luxuries from where America's very own grand parents are left un-treated as the still victimized.

What do You think People? Needlessly murder thousands upon thousands irrationally making no sense, or, return stolen Iraqi assets while arresting American enemy Iraqi People killer Allawi, along with maybe Michael Schupp while we're at it? For, who cares about what is right, just, or true is this dying world of Yours?, er.. I mean bush's. You remember, Saddam wouldn't let the inspectors in, and that was why bush took a serious look at this real world situation and decided unilaterally, what the hell, he'd start a war against our Humanity left "undefended" as an enemy to everyone. (Satan's wager, that if i Remember correctly, Christ/God refuses(d).) Evil is Our Mr. Bush Jr.. Thank Johnny we had the time to intervene finally, now eh? Spooky is not the word, but baby, we sure could be on the winning side of this evolution by revelations thing. We are it together, bound for freedom through the practice of Justice, or bound to tyranny through acts of ignorance, ignorance propped by fascist censorship regarding our news content., Censorship of our human cause for liberation.

It is up to You brothers and sisters to demand evidence a requirement to convince ourselves on who shall be deemed the free person, or be sentenced to jail without trial somewhere. Tyranny through criminal dictatorship, or democracy expressing the true will of us people? It is all up to you.

"the Trial and Conviction of Our Mr. bush Jr."

--

/ / Wednesday on the campaign trail, responding for the first time to the Al-Qaqaa story, President Bush said that John Kerry, in using the story as he has, was ``denigrating the actions of our troops and commanders in the field.'' \ \

It was the actions of rummy and franks, not the mindlessly obeying war crime instigators as iliterately

truly stupidly dying bushite dumfuk nazi grunt teen
soldiers.

--

/ / How many more thousands will have to die before God
will tell Mr. Bush to get out of Iraq? \ \

--

/ / Eighty percent of Bush supporters believe Bush wants
to participate in the treaty banning landmines. \ \

--

No Retreat, No Surrender
by Bruce Springsteen

/ / That's why "united we stand" -- that's why "one
nation indivisible" -- aren't just slogans, but they
need to remain guiding principles of our public policy. \ \

--

/ / "It is also important to note that this was the main
high explosives storage facility in Iraq, and it was
well-known through IAEA reports to the Security
Council," Fleming said. \ \

--

/ / AMY GOODMAN: So again, this top news, as many as
58,000 absentee ballots have gone missing in Broward
County, \ \

/ / Broward county commissioners had purchased the
touch-screen machines from ES&S over the objection of
Elections Supervisor Miriam Oliphant; notably, one
commissioner's campaign treasurer was an ES&S lobbyist.
Governor Bush responded to the Broward fiasco by firing
Oliphant, an African-American, for "misfeasance." \ \

/ / Garner's 90-days-to-democracy pledge ran into a hard
object: The Economy Plan's 'Annex D.' \ \

-

Oh my God!!! - Johnny Wizard talks to America nationally broacasted!

<http://la.indymedia.org/news/2004/10/118305.php>

Oh my God!!!

Get your own copy! Wow!

-

/ / Pentagon officials said a facility housing 380 tons of (now missing) explosives "was not high on U.S. commanders' list of sites to guard." What was high on that list? Spokesman Scott McClellan said we had to "make sure that the oil fields were secure." \ \

/ / 'Those ammo dumps have been looted and raided, and kids and our young American forces are being shot at from weapons stolen from the ammo dumps that this president didn't think were important enough to guard,' \ \

Who cares?

/ / Roughly half of the $5 billion in reconstruction funds distributed by the U.S.-managed Development Fund for Iraq cannot be accounted for, according to an audit commissioned by the United Nations. \ \

Yawn.

/ / A highly detailed program, begun years before the tanks rolled, for imposing a new regime of low taxes on big business, and quick sales of Iraq's banks and bridges-in fact, "ALL state enterprises"-to foreign operators. \ \

Big deal. To the war mongering mass murdering thieves go the stolen spoils., as the bushite's devolving american new century would say.

/ / The American public is told that this butchery is part of keeping up pressure in the war on terror. All these terrorist brides and grooms and terrorist kids rushing round in party clothes ; all the terrorist musicians and the terrorist wedding guests, by God, they have to pay for 9/11 because (as millions of Americans still believe), the Iraqis were responsible for 9/11. \ \

50 percent of Americans polled support bush, and the vast majority of those believe Saddam Hussein was behind the Sept. 11 terrorist attacks, and that freedom by justice through understanding is too complicated and wordy, ...yeah. and so corproate news control is lying to US all, cheating everyone, including You, who cares?

Americans murdered on 9/11, and those responsible are let to go on their way. Yeah, and so what?, for Americans are absent any real Patriot warriors willing to protect their now officially perverted Amerkan flag. Look at the nazi grunt soldier's uniform, and you'll see. All bushite nazi grunts, who fight cowardly with rapists, torturers, and South African apartheid death squad goons, wear a flag reversed from the original design. The bushite attack the weak, innocent, and

practically defenseless as betrayers to God, freedom
and the human cause. Yeah, and so what?

/ / The administration not only doesn't admit mistakes,
but also doesn't believe in accountability. \ \

But for the sacrifice of dumfuk bushite nazi grunts.
Leaderless degenerates that any real human would destroy
to protect their innocent families. Innocent families
the bushite bombers commanding from Florida murder for
no good reason but get more soulless bushite teens
rightly killed, all done so to put more stolen money in
the pockets of their ungodly satanic cult. Solution:
hunt to kill those left un-arrested who willfully,
criminally, ordered the needless bombing of Samara to
get killed the bushite grunts for the further thievings
of the bush backer traitors who bask in your stolen
expenses.

Support calls for open dialog.

-

> More of the same garbage! Your comments don't even make coherent
sense!
>

Read up on the "ORHA", from the leading newspapers of our time,
then make up your own mind, on who is paying instead for franks'
"unsolved" crime(s).

100 Facts and 1 Opinion
The Non-Arguable Case Against the Bush Administration
<<http://www.thenation.com/doc.mhtml%3Fi=20041108&s=facts>>

/ / 67. The Bush Administration blocked a proposal
to ban the use of arsenic-treated lumber in playground
equipment, even though it conceded it posed a danger to
children. \ \

-

An open letter to the news media of America by the webmaster of
WhatReallyHappened

http://www.whatreallyhappened.com/let2ed.html

/ / And that is why I don't believe the headline that
voters are split evenly between Bush and Kerry.
It is just too fantastic. \ \

-

The End of Evil?

Hey! Art Bell! I recorded our conversation yesterday!!! Now, many people may not know, but Art Bell purposefully with malicious intent, lies to America when he states, he doesn't censor America's voices for Freedom. The first of THREE calls I made to Art Bell yesterday within his first break, was on the topic of polls. He asked myself between the first break, - off air -, what was it that I wished to talk about? I told him, I recently discovered that the opinion polls done in America by CNN are tabulated by firstly insuring half polled are known bush supporters, and half are known Kerry supporters. But by doing so in such fashion, 99.9 percent of America could be unapproving of Kerry's politics, but Americans who trust the media's intelligence would never know of it. He abruptly hung up on me. I called back. Recorded. (My fricken modem program didn't start immediately so I had to stall.) I said something like "Yeah, it's me again Art, I don't know weather you hanged up on me, but I just spoke to five seconds ago about that poll idea, what do you think?

R E C O R D E D
http://la.indymedia.org/news/2004/10/118109.php

Art Bell "You'll have to find another phone line"

[He didn't explain why the West of the Rockies line was not in service [of which he ended using twice publicly in the following call-in segment]]

Johnny "Okay.. what did you think of the poll idea though?, did you think it'll work?"

Art Bell " YEAH, YEAH, COOL".

snpd

a dream come true, depending on your views,

Pleased for thanks and listening,
over and out willco,

Johnny Wizard

-

Treason this is.

/ / The 46-page report argued that Pentagon assertions of a link between al Qaeda and Iraq's President Saddam Hussein were not supported by intelligence reports on which they were purportedly based. \ \

Treason this is.

-

/ / As for who in Iraq warrants comparison with the
political leadership of Nazi Germany and its policies of
reprisal and collective punishment in occupied Europe,
it is the American ruling elite, not the resistance
fighters of Fallujah. \ \

/ / In the ultimate Orwellian twist, they were turned
into "unpersons"; even their names were withheld from
the media. Any president who endorses such atrocities,
as Bush has repeatedly done in speeches, is against
everything that America purports to stands for. \ \

/ / If this is the way the majority feels, then
suppressing the realities of Iraq serves only to deprive
the American public of the real facts enabling our
government to ignore the will of the people. This is
not conducive to a truly safe, secure and free society. \ \

> 109 Italian Soldiers Dead So Far From DU In Iraq
> <<http://rense.com/general58/frff.htm>>
>
> / / denying the significance of such data is purely
> acting out of ill faith, and the truth is that our
> soldiers are dying out there due to a lack of adequate
> protection against depleted uranium". \ \

The Last Straw - Carl Worden Makes His Vote Official
<<http://www.sierratimes.com/04/10/20/carlworden.htm>>

/ / What I do know is that any party that would find
the words, "Protect Our Civil Liberties" offensive or
even threatening, is a party I won't belong to anymore. \ \

-

For What Other Hope?

/ / The military insisted it hit targets linked to
Al-Qaeda operative Abu Mussab al-Zarqawi, Iraq's most
wanted man, who has claimed responsibility for a series
of car-bombings and hostage-takings in the country. \ \

All true American soldiers must stand against this "the
military" person, and kill it. Allawi, has already put
forward that he doesn't have, nor has he seen one shred
of information linking Zarqawi to his false, untrue,
wrong accusations regarding an entire city he leaves us
unconvinced for blame by bombing. It seems I will now
be taking command of the entire American Military for
this one time defensive operation. Insist evidence be
made forthright, and kill these anonymous un-arrested

"the military" person(s) along with anti-Iraqi Allawi. Then, we hunt down and arrest or kill those responsible for ordering the needless bombing of the Samara citizenry. See?, the ungodly and tyrannical bombing of the good people of Samara, brought about now approaching more than one worth acknowledging DESERVED deaths of the ungodly bushite teens, the bushite teens who didn't need to die thoughtlessly for the bushmob. Think: Any real man would kill an enemy bushite to save the lives of the innocent they admittingly target for plunder to please the neo-con God haters. The bushite soldiers that are now commanded to die sacrificed in Samara, will die directly from the instigated criminal bombing assault against our good friends, the Iraqis, bombed irrationally by the ungodly, unwise, and seriously un-American evil anti-Christ disiples, John Batiste, and the self confessed Iraqi People killer, Allawi. Allawi blames a city, Johnny blames Allawi. Kill un-arrested Allawi, and we'll save some GI's lives in the process of winning this battle against the dark evil forces of blind and stupid tyranny.

I, a man of many masks, beg again asking you to help me gain our talk radio access. America truly needs you, and so do I. Art Bell forbids America to hear our calls for Justice. The bushite fraudsters fear of me is that I actually understand regressive tax policy, and the judicial principles enshrined indivisibly within the holy American Constitution.

snpd

Believe in yourself, for what other hope do I have?

Johnny Wizard

-

<<http://www.wsws.org/articles/2004/oct2004/iraq-o20.shtml>>

/ / a meagre $2 million has gone to healthcare, $19 million to water projects and sanitation and $300 million to rebuilding of the electrical system. \ \

-

Do We See A Pattern Here?
<<http://rense.com/general58/pattern.htm>>

-

<<http://911review.org/Wiki/StanleyHiltonLawsuit.shtml>>

-

These following bushite terrorists kidnapping Americans, look the most so far like the likely secret Zarqawi gang, no? Maybe, someone should ask bremer if he has ever had words with the bushite group, "Custer Battles"?

/ / When Isakson objected to the scams, two unnamed "top company officials" burst into his office with machine guns, \ \

-

Who is Hamad Hamoud?

/ / It turns out that the ``major victory'' over the Iraqi resistance consisted of American forces blasting away indiscriminately in Samarra's city center, killing innocent men, women and children, damaging property and buildings-including a mosque and a kindergarten-and further enraging the local population.

The Samarra incident in its various aspects-the battle itself, the military's claims, the media's role-is a microcosm of the US occupation of Iraq. \ \

Exactly. Prior to this most recent war crime against Samarra, there had been dialog to allow bushite thieving troops in without dropping bombs indiscriminately to murder our friends, (and then to get killed the evil bushite in rightly retaliation). Those who ordered the NEEDLESS bombing campaign (who I advocate the open public execution of) didn't like that prospect of saving GI lives to lose money for the bush junta though, and, Zarqawi, my god, going on about how he wasn't interested in freeing the Iraqi people from tyranny didn't help the bushite anti-Christ cause much neither, especially with Bigley still hanging on alive. (Oh yeah, killing Bigley sure suited the women haters bush and blair just there eh?) Killing un-arrested bushite, (who fight for rapists and torturers who thieve from America, while attempting to censor our voices calling for real Justice,) is the best anyone can do fighting for true freedom. Kill an irrational censoring fascist bushite, and you've saved the potential lives of millions of innocent American people. Innocent people the bushite nazi soldier freely confesses to targeting to profit the corporate bushmob back home who continues to rob from the nation because of it.

Witness this pro-bushite Knight Ridder article, of which, if I were "officially" recognized, would demand swift and immediate public accountability.

/ / Some noted that while tribal leaders in Samarra sought government assistance to rid the city of

insurgents, leaders in places such as Fallujah have been more supportive of the guerrillas. \ \

Some noted? Who? The head of Sammara's political affiliations, comprised of more the 100 separate poltical groups, in Samarra, asked that no killing of innocent women and children was needed, for, the "pro-Iraqi forces" would be allowed to come in if they obeyed themselves. (Like as if any Samarrian would ask for help by attacking residential communities blindly as the evil bushite almost always without exception do.) But no, they go in recklessly bombing, raping and pillaging, shooting innocent women, men and children, then tell 1200 or so soldiers to sit in the middle, and stay put, indefinitely, and Knight Ridder tells US all how john batiste, a Frenchman, made such a successful go at it. Is john batiste going to sit with the loyal troops in the carnage he ordered, and bite the bullets for the team? Hell no, he's probably commanding from Florida, basking in the sun with his personal cut of that two billion with buford blount's two timing nazi whore of a wife.

Hmmm funny..

snpd [forgivness only comes if one truly understands enough to ask.]

/ / The U.S. troops made only limited use of aerial bombardment and artillery, Batiste said. That limited civilian casualties and damage to city buildings. \ \

An admission that the thieving bushite dumfuks target for murder us innocent people, and have so far figured, that by not committing as many "precision strikes" with guess work or anonymous tips, they wont anger so many?.. I think they may be a little late for that considering when they arrived, (like they did every time), they needlessly still murdered unarmed, innocent, defenseless whomevers for whatever. Remember: there was no need to bomb or shoot any innocent people, for the terms negotiated with Allawi were to enter AS THIEVES without any bombing needed. Will john batiste tell us the lawless rapists, torturers, and apartide death squad goons he fights our Humanity with, bombed less Iraqis in hopes to anger less Iraqis?, and if so, why not give up on the bombing innocent pro-Iraqi part all together?, then also the raping, torturing, and pillaging part by tracking down the actual criminals while we're at it? John? No, can't do that, for those who ordered the needless bombing runs over Samarra would be tried publicly, then shot dead by surviving Patriot American

Warriors, and that demon traitor, Our Mr. bush Jr. with rummy, would meet the same fate for the crimes of 9/11 back in New York City. And of course, the Iraqis would get back everything that was stolen from them with massive interest paid for by those personally responsible.

The bushite bombing commanders figure, lie to the entire first division about the true threat levels, their weak minded dumfuks anyway, they can't stand up proudly for their commitment to real freedom and democracy, instead they'll fall rightly dead and nobody'll hear to care anyway. Mr. bremer's double crosser "Zarqari" will get'em if need be, again. Could be. I watched "Who wants to be a Millionaire", a TV program in America, and the contestant was a Mr. Sheriff (who had just given up religion and joined the Israeli faith to continually thief), he was in the first Gulf War, and now, his own flesh and blood brother was serving for the bushite neo-cons to rob even more from America through Iraq in this second blast. The entire audience questioned uncomfortably his answer that he had no idea who cheney is. I kid you not. You can be sure that episode won't be running in syndication. As a dumfuk bushite nazi grunt, dying of radio-active contamination, does he have any real care for his likely now dying too or already dead as forsaken brother? I doubt it. Godless nazi bushite are as stupid as they are evil disciples of the demon anti-Christ: the most hated and reprehensible illiterate savages as so well documented in the lights of Man. Ten cents for every bushite bagged and tagged, ten cents. Twenty billion if you can magically teach them real quickly, to understand honor, virtue, heroism, and the meanings of the American Constitution.

/ / If their political goal is to have all the major cities full of people that really, really hate the Americans, then is this really a victory?" Cole said. \ \

Well of course! As parasites led by the wims of a, behind the scene bombing campainer, the bushites die cowardly for the billioniare bushmob to profit robbing from the folks back home left un-defended.

/ / Some Samarra residents and a major organization of Sunni clerics have condemned the attack, and even the province's governor, who appeared with Batiste at a news conference Wednesday, said he was shocked and surprised by the operation. \ \

See how the writer(s) of this news wire claim that those who didn't support such lawlessness are only some?

You'd figure, since the news piece repeatedly refers to the wanting of such barbaric attacks, it would at least site one legitimate quote.. instead it pulled this...

/ / "We didn't have any intention to take war actions. We were always hoping for peace," said Hamad Hamoud, governor of Salahuddin province. The insurgents, he said, ultimately left the Iraqi government no alternative. \ \

Governor of Salahuddin province, who hasn't been quoted for anything in the world, except for this that he wasn't. And besides, from what I understand, Salahuddin are provinces, not a province. Or perhaps Knight Ridder is referring to the governor of Salahuddin, a teensy tiny ghost town in Kurdistan? Regardless, this Hamad Hamoud must be a huge nobody then, and the best the bushites could get to float their patently false story line that leads to the untimely death for Americans. Sacrificed for the anti-Christ. But, I digress.

Listen: Is a man who would kill an un-arrested bushite rapist, or kill an apartheid death squad racist who murders only black people because their darker skinned, or who joyously kills a bushite sniper, (a sniper that freely confesses to shooting innocent women, men, and children,) classified as an "insurgent" by the uniformed enemy anti-Iraqi forces I ask? Art Bell, the nazi censor, and his propagandizing bushmob ilk, is America's true enemy. Free speech must be spoken for, for the bushites of Talk Radio america, don't want dying America to think as a free America to speak on the top priorities of Your true survival. Use it, or lose it.

Johnny Wizard

-

/ / He described meeting an old man who was forced to watch his sons being tortured until he signed a confession admitting links to Osama bin Laden. "Tears were streaming down his face. I have no doubt they had as much connection with bin Laden as I do." \ \

-

/ / Yet when Sen. John Edwards led CNN's debate poll Tuesday night, the Time Warner network abruptly yanked it from their front, only to replace it 13 hours later with a blank poll. Edwards had been leading in the first poll 78-18.

Some 200,000 previous responses to the poll were deleted when the new poll was posted. \ \

The corporate news polls are a crock. Look at the literate world of Internet content. 99.9% hate the evil bushite lies that sacrifice American lives to profit the criminal bushmob fraudsters. As I've told many, CNN and CBC execs know bush and rummy committed 9/11. Why? Becasue I've told them so, if they would seek to ask for only the facts to decide for ourselves.

General Ahmad funded Atta.

-

/ / "I don't want to die. I don't deserve it. And neither do the women deserve to be in prison in Iraq. Release the female prisoners that are held in Iraqi prisons. Please help them. \ \

/ / Iraq's justice minister announced Tuesday night that Rihab Taha, the female scientist known as "Dr. Germ," would be released from prison. \ \

/ / But then the U.S. Embassy said Taha and Huda Ammash, known as Mrs. Anthrax, would remain in U.S. custody for the foreseeable future. \ \

/ / Straw added: "At no stage did they abandon their demands relating to the release of women prisoners, even though they were fully aware there are no women prisoners in our custody in Iraq." \ \

/ / ..one air strike had killed eight people at the home of Hamad Hdaib Mohammedi, who was known for his opposition to the militants. \ \

-

BE AMERICAN

/ / Early reports said a U.S. convoy was passing by the celebration when the attack occurred. The U.S. military said later that American soldiers were taking part in the celebration but that no convoy was passing through the area. \ \

Yeah?.. but what about the comments made by the bushite child killer phil smith? Maybe he'll tell us again why innocent children were targeted for murder to get rightly killed loyal enemy bushite nazi brethren? Since phil smith isn't cogent as the godless, what can he know of his true meaning? What is phil smith's America where innocent children are murdered for his contempt of the America we remember? Is it honorable service where the

leadership of the US military feels it is right to lie to fellow troops about what they are dying for as "THIEVES for bush"? Is it the conduct of a honorable creed to steal from US honest hard workers?, to indiscriminately bomb civilians with guess work and secret paid informants while calling themselves dis-honorably in Your name pro-Iraqi? They are not men, for they can not stand proud on their false convictions, instead, they lie as cowardly traitors to the American cause. Is it the conduct of a brave crew of patriot freedom fighting warriors serving a just cause to bomb a city to teach our God something? Or is it my friends, the conduct of fascist enemy bushite nazi vermin led to die for not so secret criminal transgressions? A war mismanaged purposefully to benefit off the sacrifices of American soldier's lives, dying or being maimed to give in to lying criminal fraudsters that OPENLY rob from all American families like tommy franks did?, robbing the principles of Justice once thought respected, and only expected in the true land of the brave and free? If you were face to face with a mass murdering bushite cluster dud land mine dropper who attacked residential school districts, would You not, kill it for the begged mercy of God and children everywhere? What we ideally need to do is, find who has been responsible for ordering the indiscriminate bombing campaigns, and kill them openly, rightly, publicly, for all our World to see. Killing the NOT HIDDEN enemy bushite is the best any human can do for the survival of our species. When you see the bushite, spewing their hatred for humanity while censoring the voices of reason and freedom, justice and liberty, do US all a great big favor and kill the nazi fuck for the love of yourself, God and country, please.

/ / It added: "Unimpeded access throughout the city for Iraqi security forces and multi-national forces is non-negotiable." \ \

IT ADDED? Er, sorry enemy of humanity bushite dumfuks. US men out here, hunt to kill un-arrested bushite rapists, torturers and thieves that hide behind the stolen American uniform as ungodly enemy savages. Third Infantry for example: No American present. For if there were, Saudi Wahabbi child killer buford blount would be dead at the hands of US pro-Iraqis for TREASON. The slave bushite die as godless fascist cowards who target US as the innocent to die themselves for benefitting the further thieving of America, The People, back home they leave left unguarded. General Ahmad funded the mastermind 9/11 ring leader Atta. I HATE bushite. Killing un-arrested bushite is what all real

men of America should get started on, like with firstly, George W. Bush Jr., condi and rumsfeld for 9/11. Then we need to make some demands of the corporatist censors who deny our Humanity free access to the substantiated impartial facts that stand irrespective of ideology or spin doctoring. Plutonium in depleting uranium is scientifically bad for your health without question, for we do understand the measured effects of radio-active contamination. How can "our" corporate news media continue to ignore Our growing concerns on the subjects of Your dying freedom and liberty my friend? "They" can't. America's multi-millionaire corporate news producers need to be made accountable, when it comes to the refusal to allow public reporting that INNOCENT women and children are being held hostage in our names, and in some cases photographed raped or murdered by the still, un-arrested ungodly enemy bushite nazi evil forces. ENEMY!

/ / London - The International Committee of the Red Cross insisted on Friday that Britain does not hold any women prisoners in Iraq, and said it was ready to act as a mediator to help free British hostage Kenneth Bigley. \ \

The Red Cross said what? No mention of the two innocent "Sisters" held hostage? Who does the Red Cross serve on the issue of our human rights? Can they not be aware of statements reported widely on the specific issue of Bigley's commentary? Surely they do us a disservice when portraying ourselves otherwise by claiming Britain isn't involved in the criminal plunder of Iraq at all our vital expenses? Have they not seen, nor heard the big news about innocent Iraqi women held hostage by the terrorists? Should they not be demanding blair speak up for the human rights of innocent People being victimized by Humanity's mutual enemy, war criminal George W. Bush Jr.. and his mindless minions of dying godless barbaric savages?

/ / He repeated the kidnappers' demands that the US release all women from Iraqi jails. "Have some compassion for the [INNOCENT] female prisoners," \ \

/ / Blair pledges 'If kidnappers get in touch, we'll respond' \ \

As for the innocent women held against their will by the bushite terrorists, no negotiations for US by this "politician" of a "Democracy". He'll just pretend that he hadn't heard of the request, for the corporate media hasn't reported, therefor, he'll plead, implausible deniability. (Again, who's conning who here?)

The two innocent women were planned for release prior to the Zarqawi hostage taking according to Justice officials in the Iraqi government. Things that make you go hmmmm...

/ / Britain's foreign secretary, Jack Straw, said today that Britain will not meet any political demands to secure Bigley's release. \ \

Now they figure releasing the innocent women would be giving into still the just demands of the sovereign Iraq? Or, will they argue, persecuting the innocent is what the enemy bushite do to steal our human values of virtue and the American ideal? Stealing our Freedoms and Democracy? Again, bushite is the enemy of America, kill it.

/ / Iraq's [bushite] National Security Minister Kasim Daoud told a news conference in Baghdad that the offensive was launched in response to a call for help from Samarra's residents to tackle the insurgents in their midst. \ \

/ / "We were in talks with Prime Minister Iyad Allawi about the situation in Samarra, including reaching an agreement to allow Iraqi forces to enter the city. We were surprised by this military offensive," said Khaled Naji al-Samarrai. \ \

Khaled is leader of Samarra's political association.

/ / ...said [bushite] Daoud. "Even if they didn't ask us, we would have still gone into the city." \ \

Surprised? Hardly. The closer we get to saving American GI lives, and saving the lives of our children, the more likely the bushite's false deity G.W. will be arrested for mass murder on nine-eleven, and bush bitch Saudi wahabbi buford for all the needless subsequent murder rampages against our forsaken civilization. Do me and humanity a favor, kill the bushite traitors who steal our lives from Justice for enslavement of our human species through blatantly evil corporatist fascist tyranny. What kind of ungodly reality is bush taking US for where evidence is no longer a requirement to convince US who is evil? A criminal? The evil bushite bombers use "guess work" and paid informants to decide what neighborhood to indiscriminately bomb as targeted killings, while the rich corporate TV news celebs state how they're all so proud of what American soldiers are blindly dying for as. I say nah, bad idea, instead, we hunt to kill the self confessed rapists and torturers for the beginners.. Now, who's with me as a true Christ

like Patriot God Warrior?..

Join me, I seek bushite then I destroy it for the love
of God has no challenger.

Why Samara?

* Battle Of Samara - 7 Helicopters Downed, 147 Troops Killed
*
<<http://iraqwar.mirror-world.ru/tiki-read_article.php?articleId=25148>>

"Zarqawi" killed Berg in a building identical to Abu
Graib, now he's been reported to have made a slight
correction about mistakenly asking for the falsely
imprisoned to be set free. No no... he didn't mean
those women who are held against their wills without
evidence regarding any alleged criminal impropriety, who
are being held by child rapists and torturers. Zarqawi
actually meant, those women who nobody knows of, except
perhaps rummy who stated the Red Cross shouldn't be
co-operated with when we're talking Our human rights and
the falsely imprisoned. [LIKELY REASON WHY Samara was
NEEDLESSLY attacked. Who commanded the NOT NEEDED
attack in attempt to take US off the true criminal's
path? For, that would likely be the "surprise" American
GI terrorist killer in the flesh holding America's
children hostage.] Then, Zarqawi went on about leverage
with "Jews" and the "Crusaders", but, Arabs ain't so
dumb, nor is Arab TV actually. There was a large Arab
Jewish and Christian community who despised areil sharon
as an enemy of G-D in secularist Iraq from the start
before the fundamentalist bushite war crimes began
there, and the Islamic faith holds the eternal Son of
Man, Johnny Wizard in Holy god respect. Remember I
represent the freedom and wisdom granted by Allah to
Humanity through Jesus as Savior Hillel taught US all
about oh so many moons ago: namely, to worship and love
all things that God made. But alas, the illiterate nazi
bushite are dumfuk slaves as enemies to freedom, and as
consequence, don't think for themselves, or much about
my true significance in this World of US gods suffering
under their evil as criminal misconduct inflicting
suffering misfortunes against our God's good graces.
Being the goodie two shoe Creator has it's
misconceptions let me all tell you. I have to deal with
contending with the primed to die satanic bushite who
tinks I as a Christ wanna be stick figure or something
similar, am going to hang lifeless on a cross somewhere
and just take their abuse forever crying for a God who
never wrote the book on Sacrifice. Shhh... [The commi
bushites are as fukin stoopid, as they are truly evil as

enemies of life and this Universe.. So evil are the bushite, that they give even the Devil a bad name.]

/ / Witnesses said the American troops were offering candy to the children and were preparing to leave when the bombers attacked. \ \

So, the soldiers were there for the festivities, handing out cheap candies, taking credit for the plant rummy likely bombed then left these "soldiers" to have credited to re-built back up by themselves. [Don't want to be over paying Iraqis with their own stolen money right?] If true, it would be something to write home about, but have you heard of all the work GIs have done in attempting to repair all the damage they've criminally instigated against our innocent families? No you haven't because, for then we would be demanding a return of all stolen assets, and the arrest or public execution of the bushite torturers and rapists. Also, who handled the military contract? Imagine this: Halliburton is paid billions in overhead to hire the American government to take back over. Sounds somewhat familiar where military fuel shipments are bought then escorted by the professional military fuel transport units, but no ones asks, why should Halliburton off shore tax exempt billionaires, all of a sudden, now, out a nowhere, be allowed middle ground to almost take all the cash expenses?, from America's America?, especially since America is still doing all the paying for all the work being done regardless like they use to before Halliburton magically appeared in between? [The only thing Halliburton execs want is to be left alone in a mansion far away from conflict with the American tax payer paper work to do that they confess publicly to not having the resources to accomplish fairly!!! [TIGER TEAM]] Do the soldiers transporting the fuel now even wear COMMI Halliburton caps instead of helmets? Likely.. because they're so fuking weak and stupid as fascist nazi bushite grunts who die as enemies to God and Creation by forsaking the America I know of as once respected as universally truly admired. The bushite trash the Bill of Rights by saying it's no longer needed when fighting against US People. Then they demand that no evidence be used in reaching their guilty verdicts by Your american firing squads. Again, get your gun soldier and instead, kill un-arrested traitor, George W. Bush Jr. for America as a true Patriot only would. Or, why don't You bag US a proud enemy bushite for the Gipper?!? For what pleasure could be greater, than doing our Humanity and God such a great favor? I mean come on, they as our enemies, war the defenseless and

innocent fighting with rapists and torturers without shame or apology, while demanding by threat of murder to US innocent, we all must slave as loyal bushite soldiers do, like they have no mind to believe in freedom. Liberty or Death? More like hunt to kill mindless bushite nazi vermin and save the precious lives of countless innocent others that they murder by dropping bombs from our sky. We know who the boastful and proud bushite is, who is granted full talk radio media access in corporate america to trumpet the sacrifice of American teens to please their deity, George W. Bush Jr. and his war mongering thieves, who profit off mass murders and over billing like they did at 9/11 in New York City. The bushite slave is the enemy of themselves to life, love, and God.

Back to the story: Like if "anti-Iraqis" planted a bomb, or we're driving cars, wouldn't they use it to kill enemy bushite nazi dumfuks before innocent children? It is the bushite nazi forces who target the same locations repeatedly to kill only good honest hard working innocent pro-Iraqis trying to save the lives of their loved ones... or who have demanded a free press and democratic elections. But look, the corporatist press takes the credit in condemning the murder of children, but they don't call for the head of buford, mattis, russell or vacant minded phil smith? Nor, speak for ourselves when American paid for anti-Semitic invading Israeli nazi soldiers from tanks, shoot innocent Christian children as all of our life's enemies? A happy, waving goodbye child was shot dead from behind in front of UN workers by bigoted racist truly evil demonic Israeli nazi forces, and Annan never spoke a reported word for our Humanity, or against the condoned crimes of Jew killer areil sharon as reminiscent of Hitler's reign of terror. Where is corporate news america regarding their humanity then in reporting the care for the lives of our innocent children? All left there for US to witness the betrayal to America's freedom, and on all we stand together, justice for all, especially for You left corporately forsaken, but not so easily dismissed. For what does it profit our corporate News for your benefit my dying brothers and sisters? Or for our Dads or Mothers "lost" pensions if you make no effort to speak up for your rights denied, your values stolen, or for our freedoms and liberty you know not of as the portrayed enslaved by fascist corporate news tyranny? A corporate news agenda that denies US a place for human rights to life and liberty, is not an agenda we can continue to freely live

with. And, I, as John, can not rule this complicated media world of immense toil and troubles, God needs Your help for your own salvation. I can only do so much as a wonder mostly to myself. I wonder if "Americans" can actually ever read this far into life's desperate pleas I've now put out for years and years going barely anywhere?.. Paradise on Earth where we get a little credit could happen if we just keep dreaming along for a better future, a future where we are respected by the establishment for our goodly works of self determination. A cure for our sufferings? No the corporate professionals are not interested, nor taking calls from any of US with grievances. It costs them too much in stolen revenues to allow freedom reign.

Back to this Zarqawi thing.

If Zarqawi had planned the targeting of a convoy, why would they decide instead to hit the desperately needed treatment plant surrounded by mostly children, with no bushite convoy in sight ever, but a location troops had been REPORTED at for at least days to have built ALL BY THEMSELVES as so alleged? AND done after with bull horns edged children from the surrounding community to come witness their good deeds by getting cheap free candy? Does that sound like the prime time to plan striking at the ungodly evil war criminal bushite when it's widely known they're in a planning stage to bring around as many children as they can, convinced with bribes, there giving something back? A photo op? Where are the photos then??? Remember, bushite rapists and torturers have yet to be hunted down by US true Patriot forces, and evil bushite phil smith freely confesses to targeting children in America's name. Also, firstly, it was reported not one soldier was known killed. Yet, they must be all over the area for later to be reported ten wounded. How did they miss being so far away from such a lethal blow designed to kill evil lying enemy bushite nazi grunts to attempt true Justice for our World I ask? The details still remain at large on why a bull horn was used to attract MAINLY children to the scene of such carnage, however, the last report of bushite forces using a bull horn, was when looting and chaos was being encouraged all so tommy franks could get killed BUSHITE DUMFUKS to rob the central bank with several large trucks that came and went unimpeded by infiltrated enemy military forces. Same bull horn perhaps?

snpd

I don't know about you, but I hate bushite rapists and
torturers celebrated by corporate American Talk Radio
news censors. As enemies of God and all that is great
with this world, the bushite bombers should be called
out for a man to man fight for their core beliefs, or be
rightly killed as better dead than allowed to continue
in our names. No True Patriot can be proud of all the
warring bushite america is doing in Iraq to free George
W. Bush Jr. and "sexy" rummy from arrest for 9/11, for
that would be in support of the enemies to God hiding
inside our glorious American freedom fighter uniform.
We must weed out the war criminalling rapists and
torturers through evidence if we want to truly get
started on this warring terrorism idea, then we have to
hunt down all the stolen money bush foolishly stole with
13303, and give it back to Iraqis once a legitimate
representing government of the People there is in
control as the situation. Firstly to begin on that path
for Iraq however, Allawi must be arrested or executed
for the first degree murders he has confessed to already
being completely responsible for.

How to Avoid Becoming an Anti-American
<<http://www.dissidentvoice.org/Sept04/Alam0925.htm>>

-

Notice the corporatist bushite nazi whore reporters,
make no mention in their "reporting" that innocent
women are being held hostage by those confessed
by themselves as enemies of Freedom and Humanity.
(Suadi Wahabbi buford blount kills innocent women men
and children without apology, and there ain't nobody
there in the bushite third infantry American enough
to gun him down as the traitor he is rightly.)

See bushite, kill bushite.

We, as Humanity, are tortured or raped by un-arrested
sadistic satanic bushite vermins, hiding in the easily
spottable, cowardly American bushite soldier grunts

uniform.

See bushite, kill bushite.

/ / "Please could you on my behalf, on behalf of my brother somehow ask Mr Blair to pick up the bloody phone and call President Bush and ask him to take off the blockade on these [INNOCENT] women prisoners?" \ \

/ / The appeal, he said, urged the kidnappers to free Mr Bigley for the sake of his family and as "a clear message to the British people to see their government's weakness and crime in not freeing [INNOCENT] prisoners held by [bushite enemy] coalition forces to spare their sons". \ \

/ / Working people in Britain should themselves be steadfast-in rejecting all appeals by pro-business politicians and newspapers to accept the need for any sacrifice in order to preserve the [CRIMINAL] occupation of Iraq. \ \

-

Enemies of US all Humans being

Nazi enemy the bushite truly is, when they try to take America away from the crime scene of 9/11 to protect their evil false deity, demon bush Jr., as enemies of US all Humans being.

"When we say serious consequences, for the sake of peace there must be serious consequences."

It is he, the demon anti-Christ, Our Mr. bush Jr. as true evil personified, who broke with the WORLD'S 1441, when LYING Saddam wouldn't let the inspectors in, and that was his as "America's" justification for ignoring these serious consequences by sending thousands of American kids out stupidly to die for all the wrong reasons as the bad guys.

/ / Therefore, the U.S.-led invasion did not ``enforce the just demands of the world'' since the demands were already being enforced without the use of military force. \ \

snpd

Take this recent diliberate criminal position to leave women, men, and children incarated without charging them for any criminal offenses, while spewing that means their "pro-Iraqi" freedom fighters, even if they also decide on their own to maybe torture some for sadistic

wanton lawlessness. Obviously, the UNJUSTLY imprisoned are hostages held by the enemy bushite terrorists. Right?

/ / According to the Justice Ministry, an Iraqi judge had ruled there was no evidence of criminality to justify her continued detention. \ \

/ / "What are the accusations?" ex-U.N. inspector Blix asked in an interview Friday, referring to one leading Iraqi prisoner, Amer al-Saadi. \ \

/ / Iraq's justice ministry insisted yesterday it still wanted to release the women, although it said this had nothing to do with the kidnapping of Mr Bigley.. \ \

/ / "Under international law, no one can be held indefinitely without charge." \ \

/ / ``We have not been negotiating and we will not negotiate with terrorists on the release of hostages. No release takes place unless I authorise it.'' \ \

Obviously, the UNJUSTLY imprisoned are hostages held by the enemy bushite terrorists. Right? Who would disagree? Only liars, cheats, and murderers who target US as the innocent to please their satanic deity George W. bush who will rob from their very own families left back home undefended. Then, as soon as they're dead or maimed, they're of no further use to their fellow "loyal" bushite savages, who leave them to go alone without support to die in the gutter like so many others have from Gulf War I. Dumfuk the bushite is as our lying, cheating, ungodly enemies, who lay their lives down in cowardly servitude for bush and his billioniare banker company as their sourced intelligence providers.

The dumbuk bushite as TRAITORS soullessly war our Humanity to STEAL our treasures of love and compassion, justice and freedom, money and job prospects, forcing our Humanity to aim our loaded guns towards killing George W. bush Jr., the parasitic "leader" of their debauchery as self inflicting debasement. We, as Humanity, kill un-arrested evil bushite to bring mercy to our dying species. The bushite is too cowardly to hunt down and kill the rapists and toturers of the innocent, or the war profiteering war mongers because it's one of their own they DIE for. Killing bushite, is like killing the ungodly protection of self confessed un-arrested rapists of women, men, and children, who openly have confessed to murdering thousands of innocent people for no military objective like Saudi wahabbi

buford blount has stated bluntly, when regarding the
commitment of first degree murder against thousands of
pro-Iraqis:

<<http://www.wsws.org/articles/2003/apr2003/bagd-a07.shtml>>

/ / [Saudi wahhabi] Major General Buford C. Blount, the
field commander of the Third Infantry Division, told
journalists: ``We just wanted to let them know that
we're here.'' \ \

all done for to sacrifice more of themselves for nothing
but being tyranically enslaved as the weak and truly
evil disciples of the enemy anti-Christ, enemies of GOD
and all our Creation. Saudi Wahabbi commander of the
third infantry buford blount freely confesses to
murdering innocent people to enrage US pro-Iraqis to
hunt down and kill easily spottable bushite soldiers
freely in retaliation; bushites, who hide inside the
cowardly American uniform. Okay for the newly wealthed
Saudi buford and his chatty wife cause they gets that
share of two billion American to get killed GI teens,
who are too stupid as iliterate dumfuks to think about
the values they lie about holding true. While dying.
The bushite hide in my America? Never. US true Patriot
Warriors will kill all un-arrested enemy bushite nazi
brethren who think they're going to get away from
torturing and raping our families as the innocent just
because they can say they're lawlessly "pro-American",
while robbing all our families of common decency and our
life savings to serve dying for tyranical lawlessness as
enemies to Johnny and GOD. Ten cents is what I pay out
for every bushite tagged and bagged. Ten cents.

snpd

/ / the mission guidance is to shoot anyone who is in the street. \ \

-

/ / Bush, indeed, has an audacious personal quality that
has somehow served him well so far: full frontal
repudiation of facts known to all. \ \

/ / This assumes that the armed resistance in Iraq is not
because a Western power invaded and occupied their
country, failed to provide basic services and security,
sold off key sectors of their economy to foreigners, and
installed a puppet regime, but simply because they don't
want democracy. \ \

/ / Bush explained that, for him, intelligence is not to
inform decision-making, but to be used or rejected to
advance an ideological and political agenda. His
dismissal is an affirmation of the politicisation and
corruption of intelligence that rationalised the war. \ \

/ / "I don't want to die. I don't deserve it. And
neither do the women deserve to be in prison in Iraq.
Release the female prisoners that are held in Iraqi
prisons. Please help them. \ \

-

/ / "We know that dictators are quick to choose
aggression, while free nations strive to resolve
differences in peace, [...] And across the world, the
enemies of human rights are responding with violence. "
"Instead of harboring terrorists," he said of the
Iraqis, "they're fighting terrorist groups." \ \

Best reason I've heard for killing the demon bush at
the hands of US freedom fighters.

New Recruit

Destroying enemy bushite is a gift to Humanity, it is
saying you care for the lives of the innocent a bush
bitch nazi grunt freely confesses to targeting for

murder. Liars are the bushite, who steal Iraqi resources, allow racists and rapists to commit their demon crimes in America's name un-challenged, and who absent mindedly bomb the innocent without just reason given. All the while, labeling themselves, "pro-Iraqi". The mindlessly evil attack against the Turks recently with an ordered bombing campaign that actually murdered people, sighted yet another, example of the bushite's idiotic ungodly satanic barbarity against us the Humans as INNOCENT. After the carnage, the war criminalizing America into bushite commanders were advised, it would be better to pick other completely innocent families to indiscriminately murder while lying, for the demon bushite provisions come through that big ol' Turkey, and if the Middle Easterners eventually learned together of their fellow Turks who were murdered by ungodly enemy nazi forces for admittingly doing nothing worth noting, with the middle east's indirect help with essential supplies coming from somewhere in that surrounding billion man vicinity, you know, I know, we all know, "Americans" as NAZI war criminal enemy bushite, would massively die as the immediately recognizable to most everyone, and rightly too as leaderless cowardly, dumb, and real sadistic evil, dying at the hands of all US Family men. Being as bushite, the enemies to everyone, including themselves we've witnessed them already dying as nazi dumfuks who eat plutonium. Or, IED? They mean "sexy" rummy cluster dud land mine more like! (Just where is the Middle of East anyway?) History HAS learned these lessons already, while the corporatist bushite plays US just dumb enough through malicious censorship for plunder by parasitic bushite suicide, for a bushite has no soul worth defending. See?, the committed nazi automaton bushite enemy of America soldier has no mind to know freedom for the individual. Therefor my friend, kill the evil nazi George W. bush Jr. not just for me as Johnny, but for US all man who refuse to be subjected further as only counted by the corporate dictums to pronounce "pro-American": as those that go silently rooted backing "un-accountable" rapists and torturers of the innocent, the innocent, that the bushite OPENLY rob from with American's hard earned tax dollars funding. Funding through leadership directed towards their very own self destruction. See bushite, kill bushite, at least until we are granted living access to OUR corporate dead end news media to speak FREELY for ourselves without bushite lies tying US down for furthering that demon's hellish ungodly tyranny as an enemy to all our Humanity and Royal King Johnny.

Real Americans are those of US as humanity that believe in liberty as Justice for all. Demon bushite nazi whores, don't like those principles of freedom through evidentiary findings though, for their false deity, George W. bush Jr, wouldn't be stealing from the honest hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful suffering and fright and death at the hands of the enemy bushite. The bushite: who the demon anti-Christ states, are un-accountable to any rules of law in this Universe, like with his extremely foolish criminal decree, 13303. I kill mindless parasite bushite nazi enemy soldiers just for that alone as eternal defender, and I do it for to win some mercy for a real living God, who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America. Why? Because Mr. Bell, the bushite propagandist, knows too, I speak and act truthfully, honorably, and righteously, while the talk radio american bushite lies, cheats and steals from America's America, that as bushite, leave undefended for criminal plunder in Your name call censored from classed enrollment. You have just as much a right to be here as I do, and the demon bush, he ain't no better than any of US when he is "excused" for the murder of well more than a hundred thousand confessed as completely innocent people on this planet called Earth.

The fascist control bushite, don't like You to think independently for Yourself, for we independents out here make them look as stupid as they are. Thank you very much for that not so secret info.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for indiscriminate killing of our families and friends while parading it's all done in bush's name for our freedom, or for 9/11, doesn't fool me, and should get you thinking about reaching for your guns too, for bushite rapists and torturers will not walk this world freely un-accountable, for as long as we remain alive to hunt them down and kill them if so be. As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr.,

their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way.

REMEMBER: Demon bush is stupid, yaw, but he knows that he and rumsfeld with condi planned and carried out the crimes of 9/11 with likely cheney orchestrating, don't ever forget that part when attempting assessment how good four more years in going to do for the state of freedom in Your dying world. Serious this situation truly is for everyone. Everyone.

Now, what are You going to do about this, DEMON George W. bush Jr. actually playing US like he would like to continue victimizing our dying world as ENEMY for four more years towards furthering lawless tyranny? Don't we already have it bad enough, that corporate journalists think there is actually some merit to George bush's re-election bid? Especially after that 9/11 thang? Then there is the needless criminal wars, fraught with embarrassing massive billion dollar criminal frauds as .oops, more government fuk ups? Then of course all the bushite thefts. I did a Internet Google search of "Tiger Team" and I found next to nothing in all the professional media corporate news outlets we have advertising on our information service providers top notched list as best sourced material. And that should say as much or more to you too, about who's really conning who. So, who cares about where this world is going? I do, and so should you too.

Johnny Wizard

How can those who want accountability be termed anti-Iraqi? only through cowardly liars, is an American told America's not going to hunt down those who stole in their names for dying.

/ / "Few have though, as the town is still without electricity or water and full of unexploded bombs, our sources there tell us." \ \

snpd

Look, as this world's top cop, rare can a person understand my writing as such, but this, I'll make plain:

I'm here to arrest or kill bush and rumsfeld for 9/11.

If you can't as a man or woman of America help get those with the law who have stolen America's good name in other districts, so be it, to hell with you all. We, the America I dream about all alone, want bush and rumsfeld for 9/11, and we ain't going nowhere until our freedom to say as much is granted on higher ground.

However.

Billions upon billions of dollars have been stolen from soon to have once been, millions of American pensioners. Now, corporate news TV tells US, that money is lost to political indifference of the status quo getting to the bottom of rising back up with the stolen cash at hand, as if like, pulling a bunny rabbit out of your hat they might say.. Stolen Enron money for example: It's sitting in the Cayman Islands. Not hidden. In the Cayman Islands. The hypnotizing, sometimes devilishly clever billionaire bushite bankers will say, if you dare quest for further inquiry, "America will learn better for next time", then they pause, and look right back at you blindly.... waiting... and by golly, as if by magic, You just need to tell them: "there is always a first time for miracles". Solved. Our problems seem mostly related to the struggle, that solving many most

critical of our issues, requires so little in effort by understanding, that many in the corporate world think the nature of truth just can't be so. Well... Simple. Demon bush doesn't want, [or seem at all interested] to having arrested General Ahmad, who according to the FBI, was the principle terrorist funder to the mastermind ring leader Mohammed Atta of the notorious 9/11 blame game fame. That should be all you need to know. The failure to con US into thinking otherwise is a ruse. The bushite corporatists mislead America away from the freedom principles of following a criminal case to attempt bringing about a resolution. Getting those who done did do America wrong on 9/11 is where true Patriots stand, and forever will. General Ahmad and his bushmob cohorts need to be nabbed for public trial when we're talking about truly fighting back those that struck at the heart of America when they thought we weren't looking in all directions. The bushite soldiers are being led instead furthering as war criminals, for we're told, they have no interest as the well being of family and friends who love them back home getting the wrong impressions. Don't let the bushite stand to get away stealing for Uncle Sam. Because, Uncle Sam wouldn't do that to our boys. Even to men who never lost the dreams of a boy trying to be a good man, a honorable and brave man, and a man that could be loved, is no stranger to another believing in that same vision.

/ / ``People trying to help us were wounded or ran away.
After a minute, the helicopters came back and fired
again. They came three or four times.'' \ \

This action is typical for the enemies of Life bushite.
Nazi bushite bomber forces have repeatedly, after
indiscriminately bombing innocent people, waited five or
ten minutes, then struck again to kill those who would
dare try to save the lives of god loving innocent men
women or children, that they admittedly target by
"guesswork". All to get killed more GI grunts for bush,
who don't have the courage or mental agility to defend
their fellow Americans by freely destroying the
anti-American Saudi wahhabi buford blount, child killer
mattis, bomb whoever russell, Baathist WMD bremer, women
hater kimmit, Iraqi People killer Allawi, or of course
bush and rumsfeld for 9/11. 9/11, in New York City?,
where thousands were murdered, and cheney immediately
called a halt on all police investigations pertaining to
the terrorist offense, for forbid, Americans might find
out for themselves what really happened.

US Snipers Said Killing Iraqi Women, Kids, Medical Teams

<<<http://rense.com/general57/sharprr.htm>>>

-

/ / A freed detainee told the Arabic-language Al-Wasat, a weekly supplement of the respectable London-based Al-Hayat newspaper, about her ordeal inside a US prison and how she had been gang-raped by US forces. \ \

-

/ / The daily pointed out then that Iraqi female prisoners were kept in solitary confinement up to 23 hours a day, adding it saw pictures of US soldiers raping Iraqi women or photographing them naked in prison. \ \

-

George W. Bush is a coward

<<<http://gadflyer.com/articles/?ArticleID=205>>>

-

/ / What is taking place in Iraq on a daily basis constitutes a terrible war crime. One has to go back to the Vietnam War or to the atrocities carried out by Nazi armies in Europe to find a parallel for such a systematic slaughter of civilians. \ \

They're mostly lifeless cowards the bushite disciples that drop bombs on the innocent and freedom loving.

snpd

-

Of Our Own

snpd

/ / "The helicopter fired on the Bradley to destroy it after it had been hit earlier and it was on fire," said Major Phil Smith of the 1st Cavalry Division. "It was for the safety of the people around it." \ \

Oops.. er.. the bushite mean

/ / Helicopters that flew in to protect the Bradley were then fired on from the ground and fired back, the military said in a statement. \ \

But the firing didn't come from the Bradley vicinity.. so, who cares how many Americans are lead to die then right? Traitors to Freedom, Justice, and Liberty are the enemy bushite liars who war God to steal from our

Humanity with their blatant cowardice and betrayals.

snpd

Allawi "We intend to confront them and bring them to
justice." Allawi is surely one wicked criminal enemy of
Allah. Allawi seems to figure as the incredibly stupid,
that by saying he supports the fight for Justice, he
can't therefor be arrested or executed for the murders
in Iraq that he has completely confessed to ordering.
Nor, apparently, under Allawi's brand of tyranny, can
the enemy bushite be arrested for criminally destroying
vitally needed Public utilities. or who has openly
stolen Iraqi assets in the billions for "tax exempt"
bush backers basking in the sun away from it all. All
the while, working to convince God or Humanity that
evidence is no longer required to convince ourselves on
who is the guilty party.

/ / cheney: "[...] in fact these terrorist attacks are
just criminal acts and that we're not really at war." \ \

Does America still hold a death sentence for the paltry
criminal act of mass murder as so committed in New York
City on 9/11 by bush and rumsfeld?, someone should ask
private citizen cheney. You know?, cheney, who worked
diligently to close the outstanding criminal
investigations on said crime scene for whatever reason.

See bushite, kill bushite.

What Secret Mystery?

/ / Undated-AP - President Bush says a Senate report critical of his administration's reasoning for going to war in Iraq is "useful." \ \

Let's get something understood about the evil enemies of God, the hated degenerate soulless disciples of the demon anti-Christ, Our Mr. George bush Jr.. Both stated goals: ridding Iraq of weapons of mass destruction, and Liberating the people of tyranny, were sabotaged by indiscriminately assaulting the country, that had prior, under Saddam's leadership, granted full unrestricted access to do whatever bush pleased. [Did bush complain about prisoners not granted due process?, or demanding evidence as being an evident pre-requisite for real Justice to work for our Liberation?, or perhaps demanding right NOW where all the charitable oil-for-food funds went missing in his name?] There was nowhere in Iraq closed to immediate inspection, to illustrate as Kamel had proven with all relevant documents, [that he brought with him in several boxes],

http://globalresearch.ca/articles/RAN302B.html

that yes, in deed, the WMDs, some like anthrax, was
burned beyond recognition back in 1992. But!!!, even if
there were WMD uncertainly hidden secretly from everyone
in Iraq, [along with Kamel claimed as highly reliable by
almost everyone in bush's secret inner circle,] BUSH
STILL, lowered his and his ilk's ability over the threat
as so alleged, then excitedly sacrificed no less than
three times 800, easy. making both claimed tasks far
more difficult by paying his buddies for "whatever" over
at commi, we're too dumb to know where American values
went regarding Your freedom sucker, while leaving more
Americans to die sacrificed to benefit the bushite
billionaire over billing backers. Left unaccountable by
corporate american news standards of public
accountability. It's only your direct family taken for
by CNN and CBC's un-challenged selling of the bushite
war crime spree my American friends. I've called
literally hundreds at CNN in Atlanta, and as so, at CBC
in Toronto regarding General Ahmad funding Atta, and
bush's 9/11 plan dated 9/9, but they say, sadistically,
it's not the story they've been presently still selling
You about murdering now more than two hundred thousand
innocent people as arguably, an acceptable alternative
to not allow the support of Freedom and Justice in your
real World dying.

Tommy Franks sabotaged the ORHA plan of gaining control
over the nuclear facilities, [and preventing anarchy,]
just so he and bush, [along with the clear collusion of
the World Bank and IMF,] could "get away" robbing the
Public central bank in Iraq of billions. Couldn't have
been done as planned, without letting in those they
begged by gun point to loot the Iraq Museum, so to
collude with the bushmob's secret intent with furthering
war crimes in America's name left forsaken. Bushdum
Amerka.

Hi Doug,

Is your antenna 135' long and 35' high? I'm not sure if you were implying that the 35 feet of open wire line was only part of the transmission line. So, how high is the center of the antenna, and how high are the ends?

If, in fact, it is a relatively low antenna (under 40' above ground), then yes, that will present a high impedance to your tuner. But don't add more transmission line to it. And never coil it up. Either one will only degrade the antenna's performance.

I don't know what kind of tuner you are using, but a center-fed fullwave antenna is a challenge to just about any tuner, from this end of the wire.

Try this, just for grins (only for 40 meters): take your end of the twinlead and gently twist them together and stick them into the center conductor of the output connector. I assume you have a great, short ground that you are working against.

That should be something that you can tune, and assuming that your twinlead doesn't get too close to metal on its way to the tree, you should do better.

My preference would be that you could load up your original configuration with the tuner, but you are trying to center-feed a

fullwave dipole (see links below - the last one).

One other option, if you can do this, would be to feed if offset from the center. The Windom antenna does this successfully, and works great (not just good; great!) on 80 and 40 both. Links are at the bottom of this posting.

Hope this helps, and let us know what you do!

73,
Dave

That could be a good top-loaded vertical.
make sure you have a good ground, like he said.

I wanted to try that with my G5RV, but never got a chance before moving to a
new qth.
Its on my list of things to do.

I've also heard of folks switching in and out different lengths of feedline.
but the same problem arises - that is - what to do with the extra feedline.

Hi Dave,

Thanks for your info.

The antenna is only 25 ft up with a total transmission line length of 35 ft.

I know that the feed point of any such low antenna will not be 50 ohms,
however,
it will not necesarily be higher than that at the center feedpoint of the
antenna.
The impedance will vary with a lot of factors.

If I understand my antenna theory correctly, a 135 ft dipole is essentially
a full wave
antenna on 40 mtrs with a high impedance feedpoint regardless of ground
height.
At 1/4 wave lengths of feedline (which is approximately what I currently
have)
there will be high impedance nodes. Thus my idea of lengthening the ladder
line to
eliminate the high impedance feedpoint.

However, your idea of tying the ladderline together at the tuner and feeding
the antenna as
an end fed wire against ground (I do have a good short earth ground), is a
good one.

73,

Doug

He specializes in cluelessness and being bass ackward. Along with a few others around here. Fact is that GPS has grown far beyond it's original design purpose and into another example of the old "swords into plowshares" phenomenon Micollis likes to cite. Back when integrated circuit chips were developed as part of the 1960s race for the moon there were nitwits who wanted them kept secret for "national security purposes". Flat Earth Society mindsets.

> Not to worry, the Shrub will send up some B58's to bomb them out of

/ / What happens when the "Democracy" says, we are
outlawing torture?\ \

/ / Depraved as America is in some respects, [they] can't find fifty cents to help some homeless vet on the ground. \ \

--

/ / Yet the American establishment has not seen fit to allow anyone who opposes the Iraq war to make his or her case in front of the media. \ \

/ / We often killed the helpless, the wounded and many civilians. My own squad did. I did. And I will do whatever I am ordered to do, but it doesn't stop me from not liking it. \ \

This BUSHITE, who COWARDLY refused to kill it's commander, I would happily hunt down and execute for Freedom. It states it's unaccountable to committing first degree murders while robbing and pillaging Iraqis for the evil nazi neo-cons - because, he's only taking orders by the tyrannical enemies of God and Humanity. I'd kill this attacker from Louisiana, and all those who served the same as enemies of America, how about You my likewise LOYAL Patriot Brother? Killing bushite THIEVES left lawlessly "un-accountable" by the bushmob, bushite thieves that target the innocent, including women and children, all REAL men, would take easy pleasure in killing for the Love of Christians, Jews, Budists, and the Atheists included too.

/ / A lot of people are too afraid to come out. But after we would warn them, we would go in. You know how? We would riddle the building and every window with high-caliber, armor piercing machine gun fire, then often we would throw in a grenade for good measure. If any civilians were in there they ended up either dead or wounded. \ \

Only possibly done through the "help" of "unbiased" CBC and CNN national news "people". Corporatist "celebs" who purposefully propagandize our airwaves with their LIES by censorship to un-supportingly, steal further from our robbed and dying communities.

Example: General Ahmad funded Atta, and corporate news finds no interest in informing the bushite grunt, that yes indeed depleted uranium is radioactive and toxic as a microscopic heavy metal, and will kill you easily for the ignorance "they" sell impartially as the "unbiased". See?, enemy bushite kills enemy bushite for a stolen nickel., that they likely stole from an American grand parent. I HATE bushite.

http://207.44.245.159/article7466.htm

/ / Baghdad was full of booming businesses, restaurants
were full, and families walked freely along well-lit
parks. Compare and contrast that image with the reality
of Baghdad today, and the ultimate corruption that was
the oil-for-food programme becomes self-evident. \ \

--

/ / Honorary firefighter Mike Bellone claims he was
approached by unknown bureau agents a short time after
he and his partner, Nicholas DeMasi, a retired New York
firefighter, found three of the four "black boxes" among
the WTC rubble before January 2002. \ \

--

/ / The families of those risking their lives in Iraq
ought not be reassured but enraged. This was a war of
opportunity, not necessity, so there is no excuse for,
as Rumsfeld put it, "going to war with the army you
have, not the army you might want or wish to have." \ \

--
http://web.takebackthemedia.com/geeklog/public_html/article.php?story=200412151547261

/ / No papers! Well, that meant the suspect was going
to be hauled downtown to police headquarters for a good
beating or worse. Well, thanks to the cowardly members
of the U.S. Congress, in 2005, and at the explicit
direction of the Bush()-Cheney Gang, the above scenario
could become part of our national nightmare. \ \

--
http://www.washingtonpost.com/wp-dyn/articles/A45373-2004Dec7.html

/ / that a clandestine military task force in Iraq was
beating detainees, ordering Defense Intelligence Agency
debriefers out of the room during questioning,
confiscating evidence of the abuse and intimidating the
debriefers when they complained." \ \

--

/ / Combat veterans wounded in Iraq were left waiting
weeks and even months for proper medical attention at
military bases. According to an officer, their living
conditions were so unacceptable for injured soldiers he
said they "were being treated like dogs." Then the
Pentagon underreported the number wounded. \ \

--

http://www.truthout.org/docs_04/printer_121004W.shtml

/ / A sacked CIA official is reportedly suing the agency for allegedly retaliating against him for refusing to falsify his reports on Iraq's weapons of mass destruction to support the White House's pre-war position. \ \

--

/ / Ford describes incidents of asphyxiation, mock executions, arms being pulled out of sockets, and lit cigarettes forced into detainee's ears while they were blindfolded and bound."

Ultimately, Ford was strapped down to a gurney and literally shipped out of Iraq illegally on the basis of non-existent mental problems - all because he had the courage to speak out against abuses he personally witnessed. \ \

--

/ / ``I was faced with being deployed to Iraq to do what the infantry does, kill people, and I had no justification for doing so,'' he testified. ``This was a criminal war. Any act of violence in an unjustified conflict is an atrocity.'' \ \

/ / He cited the case of five members in the Mississippi National Guard who had been wounded in a booby-trap bomb explosion. Incredibly, their injuries were listed by the military as "non combat." \ \

/ / Williams's squad stopped a dump truck, and an Iraqi climbed out. "Light him up!" the sergeant ordered, according to testimony, and the squad opened fire, killing the unarmed man. Williams and a squadmate reportedly got into an argument over which of them had scored Company C's first kill. \ \

--

http://www.counterpunch.com/alam12132004.html

/ / What becomes of those military veterans who undergo amputation? \ \

--

/ / What about the damning report of Charles Duelfer and his Iraqi Survey Group, which announced last month that Saddam Hussein destroyed all of his weapons of mass destruction and their programmes in 1991? \ \

--

/ / ...and we were yelling, 'Train to kill, kill we will,' over and over again. I kind of snuck a peek around me and saw all my colleagues getting the red in the face and hoarse yelling - and at that point a light went off in my head and said, 'You know, I made the wrong career decision.'" \ \

/ / Throughout the 12-year Vietnam War, for example, fewer than 100 Guard troops were killed, compared with the 145 who have died in less than two years in Iraq. \ \

/ / Greene County Director of Elections Carole Garman claimed that she had withdrawn access to the voting records at the direction of Secretary Blackwell. \ \

/ / Blackwell not only did not have the authority to take this action, he is actually in violation of the law. \ \

/ / Williams ordered that the Iraqi man, who had been handcuffed and was being held on his knees in front of the house, be brought inside...

William cut off the plastic handcuffs, laid the rifle near the Iraqi and said aloud to other soldiers in the room, 'I feel my life has been threatened.'

Williams then shot the man twice..." \ \

/ / That America has spent billions upon billions of dollars on the war and the occupation and hasn't even managed to provide sufficient armor to protect its own soldiers is a metaphor for the failure of the whole operation. \ \

/ / It is now estimated that more soldiers have been injured in Iraq than during the Revolutionary War, the War of 1812, or the first five years of the Vietnam conflict. \ \

/ / Webb reported that U.S. law enforcement agents complained that the CIA had squelched drug probes of Blandon and his partner Norwin Meneses in the name of "national security." Blandon's drugs flowed into L.A. and elsewhere thanks to the legendary "Freeway" Ricky Donnell Ross, a supplier of crack to the Crips and Bloods gangs. \ \

/ / The Press Release, just issued, headlined "Conyers Alarmed at Efforts to Obstruct Ohio Recount Effort, Calls Witness to Monday Hearing to Detail Such Efforts", outlines the troubling reports, discussed here yesterday, of Ohio Sec. of State J. Kenneth Blackwell (also Co-Chair of the Ohio Bush/Cheney Re-Elect

Committee!) reportedly attempting to obstruct efforts by Green/Libertarian Recount Volunteers in Ohio over the last several days. \ \

--

/ / The "Texas Strike Force" members paid their way to Ohio, but their hotel accommodations were paid for by the Ohio Republican Party, whose headquarters is across the street. The hotel worker heard one caller threaten a likely voter with being reported to the FBI and returning to jail if he voted. \ \

/ / In a half-dozen precincts in Franklin County, people who were not inside polling places by 7:30 PM were told to leave - even if they had waited in line for hours. This is a violation of the Voting Rights Act. \ \

/ / In other words, the exit polls were made to conform to a political decision to declare Bush the victor. \ \

--

http://www.whatdoesitmean.com/index575.htm

/ / The massive US Intelligence Reform Bill weighed in at over 3,000 pages and though unread by individual Members of either the House or Senate nevertheless passed all of the legislative hurdles needed in order to become law. \ \

TREASON BIG TIME.

/ / The contract company blamed for the bad food is identified as a small, Qatar-based firm called American Service Center. \ \

/ / From snatch and grab operations to warantless searches, Patriot Act II is an Adolf Hitler wish list.

You can understand why President Bush, Dick Cheney and Dennis Hastert want to keep this legislation secret not just from Congress, but the American people as well. \ \

/ / MIT and the Pentagon have been involved in a fraud that has promoted a weapon system that will have little or no utility and could cost hundreds of billions of dollars. \ \

--
THE SON OF MAN

/ / Anybody who supports George W. Bush is my ENEMY. George W. Bush committed 9/11 with his buddy, General Ahmad who funded the mastermind ring leader. That's

according to the FBI. Any bushite who gets in my way,
who says that isn't the case,

I WILL KILL. \ \

http://la.indymedia.org/uploads/son-of-man.mp3

http://jerusalem.indymedia.org/uploads/son-of-man.mp3

http://baltimore.indymedia.org/newswire/display/9099/index.php

/ / Mr. Sattler, if you don't want US to arrest those
responsible for 9/11, don't you think we Americans
should kill you? \ \

/ / They got this plan, in it's final stages, just prior
to 9/11, to invade Afghanistan. They couldn't invade
Afghanistan, without some sort of attack occurring that
would instigate an actual war. they got this plan, and
it's all about accusing bin Laden for terrorist
activities, and they've spent a year or more working on
it, or more. And through all the time they put it
together, they never thought to include, one single
shred of evidence. Knowing already as Taliban
fundamentalists, through an experience that Mr. Clinton
had, it is their fundamental religion not to persecute
the innocent. \ \

Johnny Wizard

--

INTERVIEWER: Are you aware that this tank is
contaminated with radiation?

BUSHITE DUMFUK SOLDIER: No, it isn't radioactive.

INTERVIEWER: But we have measured it.

BUSHITE DUMFUK SOLDIER: No, it isn't radioactive, not
this tank.

--

/ / It said the TF 6-26, the designation for a special
operations task force in Iraq, did not make a record of the
medical treatment given the prisoner and ordered the DIA
debriefers out of the room. \ \

As Leader of the Free World, I will insure a multi-million
dollar payout, for each, still livng-now dead TF 6-26 member.

/ / "I'm not sure what this means. However, if this refers to
intell gathering, as I suspect, it suggests he [MILLER] has
continued to support interrogation strategies we not only

advised against, but questioned in terms of effectiveness,"
the email said. \ \

--

/ / Despite these concerns, the Bush Administration
continues to reject the recommendations of its auditors
that 15% of Halliburton's LOGCAP reimbursements be
withheld until the company can provide better
substantiation for its charges. \ \

/ / His mind was changed, however, when the true
intentions of Feeney became clear: the computer program
was going to be used to suppress the Democratic vote in
counties with large Democratic registrations. \ \

/ / San Juan, Puerto Rico -- Prisoners at the U.S.
detention centre in Guantanamo Bay, Cuba, have been
beaten while blindfolded and handcuffed, terrorized by
attack dogs and forced to take drugs, an Australian
detainee said in an affidavit released Thursday. \ \

/ / He stormed back over to the army psychiatrist, and
according to the witness I have, literally forced her,
browbeat her and intimidated the psychiatrist to change
her evaluation to read 'mentally unstable,' and ordered
her to ship Sergeant Ford medically out of the country
to receive a psychological evaluation in Germany. \ \

[KILL ENEMY] Captain Artiga

/ / One officer characterized conditions for the
[BUSHITE] wounded by saying, "They're being treated like
dogs." \ \

/ / This discrepancy is 3.5-times (350%) between the
number of wounded in combat listed by the military and
the number of service personnel medically evacuated from
Iraq for treatment in Germany! \ \

U.S. deserter 'didn't want to have to kill babies'

/ / Mr. House will argue that American soldiers are
guilty of war crimes and that forcing Mr. Hinzman to
fight in Iraq would have made him a war criminal.

He will call as a witness former U.S. Marine Staff Sergeant Jimmy Massey, who is expected to testify that he and other soldiers shot more than 30 unarmed Iraqis, including women and a six-year-old child, at a U.S. military checkpoint. \ \

--

CNN.com - Aid group 'told to freeze' Falluja work - Dec 6, 2004

/ / Only about 100 families are thought to remain in Falluja, as most fled the city before the U.S.-led operation aimed at flushing out insurgents. \ \

Huh? Again, witness wealthy CNN "news" staffers, didn't even bother to seek for an update on their "about 100", that had not ever been given. Red Cresent, the day previous to Dec. 6, no... actually reported on, Dec 3rd!, stated, (from their limited circle of reference) they had witnessed a minimum of many corpses, of completely innocent pro-Iraqi women, children, youths, and men.

/ / Iraqi Red Crescent spokesman Muhammad al-Nuri estimates that some 6,000 people have been killed, many of them civilians. \ \

(That is discounting murdered armed defenders of Freedom in Iraq we can prusume.)

But, again, the true bushite enemies of loyal bushite enemies, thay'l' "bushite lie" to the bushite nation about the "holy" benefits of, sacrificing America's young life., all done for the glorious betterment of the traitor demon anti-Christ liar, the war criminal, Our Mr. bush Jr., along with his treasonous evil cabal of anti-semitic Palestinian Christ haters. A compassionate, "conservative", war mongering cabal whos warring of America is done to secretly steal further from the innocence of God in silence. Without a honest to Johnny, bushite killin' God-Man to speak on the nature of reality itself from living Creation's time-less prospective. Naturally leaving ourselves to save all of humanity with my "magic" - guitar, notebook, cybercafes, and super cool Akeido, leaves me in wonder of where life could lead as committed to freedom through justice for all?, as truly ourselves democractically represented?, Miraculous?. or will we choose as ENEMY bushite instead not to, ending to devolve ourselves from existence?

I know of some pretty, almost miraculous words in which can bring about positive change, and man, if you could see the world for America's Dream, where all People are judged not by the color of their skin, but the content

of their character, the entire bushmob would be behind bars awaiting trial for treason, and the Iraqi People would have American Forces demanding Allawi be arrested for failing to explain himself regarding the needless bombing of our Humanity in Samarra and Falluja.

--

SEE BUSHITE, KILL IT FOR GOD'S AMERICA

/ / Another humiliating proposal, which even triggered debate among Marine officers in control of the city, is to force all Fallujan men to work in military-style battalions, reported the Globe. \ \

This is the best the ENEMY bushite could dream up in all possible worlds?

/ / His company of tanks and Bradley Fighting Vehicles had roamed the eastern third of the city [Falluja] for 13 days, shooting holes in every building that might pose a threat, leaving behind a landscape of half-collapsed houses and factories singed with soot. \ \

--
http://www.wsws.org/articles/2004/dec2004/iraq-d06_prn.shtml

/ / Of course, none of the assembled media pointed to the absurdity of Bush's comments. \ \

--

http://billmon.org/archives/000172.html

/ / Bush administration official says: "Saddam never had WMDs, and we never said he did." \ \

--

/ / Goldsborough said the reason he was given after the fact is that the column, about why Jewish voters overwhelmingly cast their presidential ballots for John Kerry, was "offensive."

"The publisher said it might be offensive. To whom? \ \

--

/ / twenty-seven Israeli pilots indicated that they would no longer fly missions in the Occupied Territories (Boston Globe). The pilots said "We veteran and active duty pilots are against carrying out illegal and immoral attacks" and they "refuse to continue attacking innocent civilians." \ \

--

KILL ENEMY BUSHITE FOR OUR LIVING LOVING GOD MAN

/ / They should put dynamite in their behinds and drop
them from 35,000 feet, the whole pack of scum out of
that jail."

Remember, these are the same prisoners that the Red
Cross estimates 70 to 90% of them were innocent and
later released. \ \

--

/ / It gets worse. We already knew about the Franklin
County, Ohio, precinct that tallied 4,258 votes for Bush
when only 638 people had actually voted. \ \

--

See? The bushite knows that bush murdered thousands of
Americans on 9/11, yet, will advocate fascism, to censor
America, from finding the truth for ourselves.

That enemy of God, the demon anti-Christ told US the
conflict he began, was because Saddam wouldn't let the
inspectors in. While, corporate nazi whores, refused to
correct ourselves on our sacrifices, for they enjoy
remaining impartial, when it comes to the crimes they
inflict upon our humanity. Enemies to all humanity CBC
and CNN are by refusing OUR facts to speak for
themselves. No betterment could be garnered, by the
demon anti-Christ's war crimes against civilization,
WITHOUT DOUBT. And, it's only the enemies of our
dumfukked and dimmer soldiers, in corporate mind
control, who refuse to allow anyone to state THAT FACT,
for, the enemy bushite would be exposed, and America
would be hunting them down with the Law as the traitors
to freedom they clearly are.

/ / Mr. bush is sending them into these military conflicts, to create more hostility for them to die over. So bush can rob ever more, from the undefended American People left back home there, still, victimized without repremand to those who ripped them off for their pensions as example. \ \

--

Bush Lies to Canada

Demon bush spew "I made some decisions obviously that some in Canada, didn't agree with. Like for example removing Saddam Hussein, and enforcing the demands of the UN security council."

Saddam was not found in violation of 1441, so the war criminal anti-Christ's demands were not our world's, nor that of the UN Security Council. How does thieving our assets, destroying our infrastructure, and indiscriminately murdering more than a hundred thousand innocent people, (in turn to sacrifice more worthless bushite nazi teens) bring about their closer fraudster bushite "Freedom"? Again, CNN, and CBC let the demon liar spew his hatred of our liberties, without factually challenging his lies with our un-debatable established truths. CNN and CBC would "sell" seeing our dimmer youths sacrificed as bushmob thieves through blatant bushite lies, to truly, steal our freedoms and liberty with further murders by proxy.

/ / .. or when [bush] just told you for no reason possible, why American soldiers are DYING, "Saddam wouldn't let inspectors in", \ \

This should be a time when the People rise up as angels of mercy, and hunt with Law to kill George W. Bush, Rumsfeld, and Condoleeza Rice for the crimes committed on 9/11. Just because the corporate T.V. doesn't mention the facts to draw our own conclusions, doesn't make it not so out of our realms of expertise as Freedom's true represention.

--
http://www.opednews.com/fitrakis_113004_GOP.htm

/ / "It's about a will to dignity. It's
not too much to ask for our vote to count." \ \

--

security force guy who's honest, reliable and
dependable, it's worth five Marines," \ \

--

This is Hockey

US general John Sattler declared: "We have liberated
the city of Fallujah."

Sattler openly lies to the lives of America with this
insult, and the bushite nazi dumfuk, is too stupid or
evil to frag him as enemy proudly for it. The People of
the world, look, see.. bushites are murderous liars,
cheats, and thieves as the enemies of America, who even
lie to THEMSELVES on how many have been sacrificed to
blood the coffers of the American pension thieving war
monger bushite 9/11 cancer. A liar nazi bushite
commander would sacrifice his nation, along with own
family, before saying a word in defence of our freedoms,
our humanity, or our God. COWARDS. American nazi
bushite commander gets killed american nazi bushite
grunts, in dreams they too, can financially profit off
the talentless continuing THEFTS for enslavement to
sacrifice themselves as fascist tyrannies. Hmmm. but
the nature of American freedom, is to be one as everyone
being equal scores. "Gee, maybe some day even you could
be Presidential."

Weak intellectually, prone to cuss, the bushite nazi
dumfuk, is a worthless piece of crap.

http://bellaciao.org/en/article.php3?id_article=4591

/ / I have the impression that there are no other words
except "fuck" and "shit". Each communication, each
order is accompanied by a flow of 'fucks', 'shits' and
'bullshits'. I look at Americans with a pity.

Among the "colored-skin" GIs "Latinos" are largest
group, then Africans and semi-Africans. The officers
are mostly whites but there are also blacks... But I
cannot understand at all, why the US Army soldiers speak
broken English!! \ \

/ / During the five days, while the count was yet
conducted, more than three thousand wounded passed
through our hospital. These were the people who lived
nearby. The people who could be delivered to us.

Nobody knows how many people in the city are dead. \ \

/ / I cannot recognize the city. Only ten days ago it
was an Iraqi town with its regular for centuries Arabic
life. Boling bazaars, noisy streets. And here I am
going through the empty dead city, between the ugly
"pyramids" of destroyed buildings, broken streets, whole
quarters wiped from the face of earth. \ \

--

old nazi tricks

/ / The Red Crescent's Falluja coordinator, Jotiar
Nafaa, estimates that between 150 and 175 families are
left in the city that once had a population of 300,000. \ \

REUTERS up to their old nazi tricks again. Jotiar
Nafaa, "coordinator", should surely know, that it is 175
families that had requested for the help of Red Crescent
totaled several days previous, (without phones, nor
abilities to leave their homes (150?)), NOT, "left in
the city". [THINK: how could they possibly know?
(nazi bushite whores were ordered to murder innocents
indiscriminately as enemies to God)] Also, is "Jotiar
Nafaa", the same woman hater, who LIED in REUTER"S
anonymous hand previously, as the Red Cross, that the
women held illegally as hostages by the thieving evil
nazi bushite forces, didn't really exist? (and who the
"sovereign" Justice system of Iraq, along with World
opinion, God, and JOHNNY had demanded to be let go for
lack of any real criminal charges? (despite CNN and CBC
WILLFULLY refusing to report on the issue as important.
(You know, INNOCENT women held hostage by bushite goons
who acquiesce COWARDLY for rapists and torturers? (Just
like Jew killer Ariel Sharon never gets a fair mention
by "America", nor Zarqawi, as he was in the second
Bigley flick, right before Samara.)))

LOOK AT THIS - LOOK AT THIS - LOOK AT THIS

Aljazeera.Net - Aid trickling in to desperate Fallujans

/ / The organisation estimates that only 150 to 175
families stayed in Falluja after the start of the US-led
offensive on 8 November \ \

The organization does not estimate the incorrect fantasy
conclusion held by this pro-irrational Bush article from
Aljazeera.NET. By god Johnny, where tell us could such
lies begin at? Well, let's go investigate... If as it
is, a misrepresentation of Red Crescent's actual
findings, wouldn't you think "they" would put out a

press release to correct this falsehood of public claim?, to suggest 150 remain in a city the size of 300,000+?, but no greater than 175? without access for numbering by anyone, but for the only near 15,000 HUMAN BEINGS known escaped as refugees??? Or, are the "reporters" just conveying the "facts", by putting no investment in our validity? Leaving us for further victimhood, by hiding ourselves from the war crimes the anti-Christ bushite nazi savage commanders have committed in my name, America's name, God's name? as our enemies?

Our cause as Humanity is for freedom's reign, not to sacrifice Humanity as misled bushite nazi facist teens further, so bush, condi and rummy can fi-nah-lly escape "The True Patriot's Wrath", for the crimes they committed against Freedom America on "bush win", 9/11. So... Why so do I think Justice is going to get GW, making no mistakens? Because the Patriot's Patriot is you too my sworn believer, and now that's this: America's craftier than that George Bush Jr. makes living out for, in "our"-OWN news broadcasts. As the "censored" contributors who learned our gathering skills some time ago already, I say, Freedom is paramount. Mr. bush's unbiased corporate news agenda doesn't hold America to an account before the Lord, nor to God as being, an honest spoken word, or deed of good measure. Of friendship, of kindness, of compassion and caring for our fellow human beings. I have rights too you know. As cowards, the bushite refuses to defend the innocent they rob and murder from to serve as enemies of Life, done in to die pleasing their false idol, corporate america's glorious leader, the un-elected dictator, Our Mr. bush Jr..

It should be further noted, as reported, that all aid agencies contributing have accounted for only near 15,000 families stationed in refugee camps that escaped the indiscriminate anti-Christ demon bombing campaigns. So, total deaths tolls could exceed 200,000 just for Falluja alone., what with the napalm, land mines, 1000 lb bombs, snipers, tanks, mortars, essential services, police protections, denials of foods or water, thefts, vandalism, and so on. All along with the refusal to allow the People to escape before hand, or even enter now. I've only heard that the nazi grunts will only allow the "staff" of "Red Crescent", to quickly as can be, come into the demolished city, and dispose of our corpses with bulldozers likely. You know?, any males between 15 to 50?, like their "Hero", the bush family's Hitler regime did. You tell me, would you enjoy as a

True Patriot Warrior, killing a LYING enemy bushite nazi bomber, on behalf of saving yourself and family, God and Humanity? God?, that the demon anti-Christ disciples murder to steal from US as the innocent? To kill an evil and mindless devaluating corporate bushite facist slave, is to save the untold lives of thousands of US innocent they target indiscriminately for criminal plunder. Dying as cowards too weak to defend their own country from the neo-con conspirators, they die. Die.. Get this measage out to the American forces, and stand back, cause America's gonna win this fight for freedom, or die as slaves remaining unworthy to a blind comitment of tyranny by furthering enslavement against our Human species.

Continue doubting in silence fledgling Patriot, and bushite america's war will continue refusing to speak on it's needless sacrificing through bushite criminal decree. We know, wealthy con man Art Bell, Limbaugh, and O'Really will try and refuse such truths discussed in Your America, care for the lives of sacrificing American teen soldiers are of no concern to their profit margins., so far. You, my friend, just need to try starting a demand for justice as Freedom commands. (And, if you wish, you can thank us with a small cash donation to help me escape this nearing starvation.)

I'd, as the Son of Man, (but you can call me Dad.) proudly teach, or kill godless thieving bushite to save the lives of any child, and so would the rest of Humanity likewise. There is no known fate worst, than a Mother Nature scorned, or near 7 billion People really very angry with you.

"if the USA's honor can go along with these [bushite] tactics . . then the USA is a country without honor."

And, boy, real America wouldn't take kindly to George W. Bush Jr. as understanding, the elected President has leadered the murder, of thousands of decieved Americans as the innocent, all to only steal from, as the left "officially" undefended. Hell, as the true Leader of this Free World, and holy roller god child, George W. Bush Jr. pisses me off to no end, how about you?

/ / Washington says the Falluja campaign was necessary to bring the Sunni Muslim city back under the control of the central Baghdad government ahead of planned Iraqi elections in January. \ \

Reuters up to their old nazi tricks again. It was only mindless nazi savages who indiscriminately murder good

honorable people, who advocate thieving and torture, rape and murder, and the willful destruction of America, that were banned from entering the Holy city.

No evidence, so then, for what? What but to get more cowardly american marines dead, to serve soullessly further - as the stolen riches of the evil enemy demon anti-Christ, evil personified, Our Mr. bush Jr.. (the same from 9/11 fame)

http://www.truthout.org/docs_04/112604I.shtml

/ / By targeting civilians, he said, an army could advance more rapidly. ``Air-delivered terror'' effectively removes civilian obstacles. \ \

Pure, unadulterated fascist nazi evil. "Never again"? Killing un-arrested bushite (Saudi wahabbi) commanders, is like killing the enemies of America, Humanity, and Jesus' God. Do ourselves and Johnny a great big favor, when you see a loyal bushite nazi grunt, thief and murderer, imagine, "yah, that's right, that's what being a kind neighbor is all about, for Christ said so in John's Revelations." Bushite! your false Idol religion is too stupid to remain for dying spark under the anti-Christ's evil criminal dictatorship of, wannabe dumfuks. I'm Your God see, and Your coming and going. As for Royal King Johnny, he's just standing in for this time being,..' hey you!, pay no attention to anyone behind what curtain! Boo!

America is wonderful to truly believe of it as in the making. So, let's get the work done that needs doing, so God can get back to trying to enjoy some time at home. I'm here for a good time, not a long time, and the sun don't shine every day. So get off your asses, and demand some real Justice for Christ's sake. Johnny has awoken, and he's cranky they say.

--

http://news.independent.co.uk/low_res/story.jsp?story=586062&host=3&dir=506&dir=506&host=3

/ / The [Anti-terrorism] source added that the fact that the story of the 11 September-style plan came from lobby correspondents, rather than security or crime specialists, "gives you a good clue to where they got their information".

[...] Barry Hugill, a spokesman for Liberty, the civil liberties organisation, said: "The timing and contents of this story look very, very suspicious indeed." \ \

Yah! Way to go! We're'a gonna hunt US down some enemy bushite in Britain with the Law of the land on this issue... If you guys need me from over there across the pond, just give me holler!

/ / He added: "Ten days ago Mr Blunkett announced that the intelligence services had thwarted a major al-Qa'ida plot, then added that that they might not be able to convict the people involved. \ \

It is Mr. Blunkett that shall be arrested for terrorist activities involving the said major al-Qa'ida plot, tried, then.. well, we'll let you Brits decide that end on your own part. Call me. Cheerio!

Israeli Soldiers Going In For The Kill: A 13 year old Palestinian JEWISH school girl is about to die

/ / "It's a little girl. She's running defensively eastwards, a girl of about 10. She's behind the embankment, scared to death."

"Anyone who's mobile, moving in the zone, even if it's a three-year-old, needs to be killed.

..soldiers in the company, [...] Givati Brigade, complained that they had been "besmirched"

The soldiers said that the commander had fired two shots at the girl from close range as she lay on the ground.. \ \

Will all Jews join me in calling for the public World trial of crimes against God's Humanity, done by these truly godless fascist nazi enemies of the Holy Jewish faith? Or, will the anti-Jewish Ariel Sharon crowd again, march more Jews silently to their graves, refusing to speak for the Bible's Word that all people are created in God's loving image?

Victimizing the innocent to steal from, is not acts becoming of a religious person or a truly "democratic" government.

http://www.topplebush.com/article54_recpres.shtml

/ / Musil said the [rumsfeld's] Pentagon's effort to
draw a distinction between the weapons was outrageous.

"It's Orwellian. They do not want the public to know.
It's a lie," he said. \ \

--

/ / Hammad said he had seen elderly women carrying white
flags shot by U.S. soldiers. ''Even the wounded people
were killed. The Americans made announcements for
people to come to one mosque if they wanted to leave
Fallujah, and even the people who went there carrying
white flags were killed.'' \ \

--

http://www.globalresearch.ca/articles/BOH411A.html

/ / But we have to be very cognizant of the fact that
the media's adamant refusal to address the very real
irregularities of the 2004 vote is a deliberate act of
psychological warfare. [...]

"if the USA's honor can go along with these tactics . .
. then the USA is a country without honor." [...]

The word 'jihad' (holy war) from which 'el moudjahid'
(fighter for the faith) derives, has always been,
because of an anti-Islamic prejudice that dates from the
Crusades, taken in the Christian West in a limited and
restrictive sense. It is taken as a symbol of religious
aggressiveness. This interpretation is rendered absurd
by the very fact that Islam is tolerant, and the respect
of religions, in particular Judaism and Christianity, is
one of its fundamental precepts, something which, in
fact, has been in practice over the centuries. \ \

--

/ / Ending this bloodbath is the most honorable task
Americans can perform to restore progressive priorities
and our respect in the world. We have passed the point
for graceful exit strategies. Our policy is to go on
mechanically killing people unless they vote in January
for us to keep on killing people. \ \

--

God is Great

A person accused in our name(s) of a criminal offence, needs to be established somehow to be as such, and the only way to do that, is to present evidence that formed your/our conclusion. Without evidence our accused is ourselves as the innocent, being falsely imprisoned, tortured, or murdered. Murdered, as the Allawi and the bushite nazi forces did to our friends and family in Falluja, to please the demon liar, lawless George Bush Jr. as their central thief system of dishonor and betrayal to the human cause, Your own.

Now, when bush stated that Laden was guilty, without evidence needed to form a conclusion, or when he just told you for no reason possible, why American soldiers are DYING, "Saddam wouldn't let inspectors in", the bushmob thieves plundered in our "lost" confusion. All the while bush always seeking to close America's on-going criminal investigations, by causing even more have nots among US. So, as a free person, to side for the, bush wars America, God, and Johnny issue, you would seek out to find for Yourself beholding likewise as We all are: bush is actually super fuking evil, like personified or incarnate even, and Johnny's almost like a stranger Messianic figure who just wants to be known as a semi-normal average GUY/god fellow. (Sheesh.. We gotta bring ourselves everywhere we go) I "hate" bush for being so not himself stupid to think there was no actual walking, talking, godly Persons from the outer-reaches coming in to get him for the crimes he has committed ourselves to. Corporate news dictate without a human presence, doesn't rule this world of communication, we do. (Jesus wasn't buying Satan's misconception.. SEE THE BIBLE AND THE KORAN CAN BOTH BE RIGHTiOUS!!..! Just ignore the misconceptions others have, and join the party!!! The Time is Now, and man, do I know how to make an entrance or what?)

A demand for Justice is our birthright as the human species struggling to survive.

We could be on good terms with the "unthinking", greatly special loving Earth as the no longer leaving ourselves to be silently victimized, and I think, we'd think, we

want to live in a freedom bound for glory, not a hell hole of, ignorance is bliss, look there! your dying needlessly victimized, oh.. too late who cares your dead nonexistence. Did you say something?

Trust me America, YOU WANNA correct this George Bush Jr. problem before it becomes the "law" of the "land". Don't fear though, for, God's here, there, everywhere!!! It's you over... there! and under here.. and then... we said hello to Johnny, the miracle worker. God People, I have so many good words to tell you, and wonders that would surely boggle some senses. Our hope for a better future doesn't have to die here on a cross for the war mongering bushmob thieves, but, it's going to require You personally taking some action, be it however slight, to bring a remedy to this current, "Look People, bush thinks he has almost escaped accountability for the commitment of crimes he perpetrated on 9/11 against US interests." Strange but.. REMEMBER: people like Americans, are currently needlessly still dying for the bushmob war monger thieves., dying by only our continuing censored voices on the seriousness of our commitment to defend the rights of every free person standing; ourselves as God being victimized with these unjustly expensive, neo-con bushite terrorist campaigns against Civilization's better judgement.

God is great I know it's true, just put a little faith in yourself, and demand America soldiers fight instead to protect DYING America from the tricky, evil bushmob cabal of THIEVES. Cheney looks bad there, as does Myers, and didn't Goss have some pre-9/11 meetin' with 9/11's General Ahmad that he has still yet to answer for, or.. is it we guess, to be "legally" done in by... the Secret Order. The American good cop is all we're expecting, and all we need when dealing with the likes of a self-depreciating bushite conspirator..

We don't get to be Magnificent without you likewise. This alien world we have victimized against our better interests, is a failing spirit of Life from our vantage point. Going back before the Age of Reason, is not where I believe America wants to be taken any further, thank you, but no thanks, besides, the King of Kings is here. Johnny Wizard looking to break into prime-time with his very own Special special.

I'd have ta be one crazy mixed up loon to follow this world over with the universal principles of justice as freedom, to set course for the dreams of my trying, and you might be right. Get You to talk TRULY will,

guaranteed, freak you out. REMEMBER: Mr. bush Jr. should have been arrested day one, with that fifty billion. That was before 9/11, Afghanistan, Haiti, Iraq, a few hundred thousand innocent lives, 300 billion plus a few hundred more stolen, and for what? I can only see, we needed myself as King here yesterday. I wasn't chosen for this freedom post per say, but, me and the stars had a dream one time, and it continues through out to this day, enough to say but, this is not what you read about in the manuals. Freedom to be yourself, is the freedom to dream something bigger that your wildest imaginations. I am the Son of Man, and do I have tales to tell. (I know, it sounds crazy, but it's just like a performance gimmick to increase my Q ratings. And, it seems to be somewhere working with me.. I've got a story down pat for anything if someone should ask what fear is.., now, open that curtain so we can start the show!)

I have a treat for you strange friends and friendly strangers out there. Some art work from me. Now, I used the drawing myself, for posters of different sizes, explaining in small writing some key 9/11 questions, while with maybe block letters, things like "bush is EVIL", 'did 9/11', can you hear me?, as what have you.. So, here I will offer you something I created, a Johnny Wizard pencil drawing in jpg format. Enjoy!

http://la.indymedia.org/news/2004/11/119755.php

Hmm, perhaps I'll give out other of my drawings as thankyous for fifty dollar donations? Or prints for $500! You know, they could be worth a substantial amount of money in a few years, hmm, a real investment for your future... A wise move for the prudent investor really when you think about it. But hey, no pressure, no pressure.

Being me out to destroy bushite just sucks. I'm really not naturally so angry about what bush has done to our world all the time. My voice is getting hoarser, and I'm occasionally grunting, bad sign. I want to live like it's 1999!

Arrest for immediate trial, bush, rumsfeld and condi for the crimes of 9/11 back in New York City, and all will be well with my World,

A friend of living on for a brighter day,

Johnny Wizard

--

Truth is Telling

/ / Major-General Richard Natonski prepared his troops for the battle ahead. 'We're goin' in to raise the Eye-raqi flag above Falluja - to give it back to the Fallujans,' \ \

So, was it Major-General Richard Natonski's decision to drop 2000 lb bombs then? Was it his charge to indiscriminately shoot at US innocent, on the street, in our cars, our homes?, cause somebody's gotta pay then with their lives for lying to die the dumfuk marines, who it turns out, weren't so dumb, or hard of hearing after all. Those responsible for the bombing campaign targeting hospitals and groups of innocent people, need to be hunted down with extreme prejudice, and publicly executed on behalf of our Humanity. So too, do those who ordered the NEEDLESS bombing campaign in Samara. And, for those who have worn the American flag while willfully committing the sadistic crimes of torture and rape, we shall all join together, and hunt down as our enemies without mercy. The bushite are enemies of all our humanity, demanding we sacrifice our honor, like they have done to family and friend, and sacrifice our courage, because they refuse to defend their own flag and the freedom of which it stands, one nation, indivisible.

I will not rest until every traitor of the America I remember, is summarily executed by death sentence for the convicted war crimes Humanity and God has suffered under their heinously satanic barbarity. I HATE the anti-Christ, and all the bushite has tolled against our better station. As I tell again, killing bushite is a godsend. They as a satanic force of evil, torturing and murdering, rob from America as they "willfully" allow the robbery of Iraqis, and they truly, rob from themselves when refusing to join US in the demands to have bush condi and rumsfeld downed for the crimes of 9/11. We also demand all stolen assets taken through the bushite mongering war privateers, returned to a legitimate Iraqi government. All done by firstly, arresting Allawi for the murderous war crimes in Samarra, and then in Falluja. Also, hunting down to kill those who forbad humanity from helping US in Falluja, or turned off the utilities, shall be tried and publicly executed for commiting war crimes against MY humanity.

Weak intellectually as fascist nazis, the slave whore bushite's commitment is to only die for as enemy. They FEAR to have to stand up for fellow thieving soldiers

and say, "damn, this war is evil to the 'n degree, Jesus would surely be angry, And from what I hear, the Son of Man is pretty upset about what we enemies of God have done too, and, well.. we do not have to thoughtlessly serve under anti-Christ war crime decree any longer, as the cowardly lying chicken shits, too afraid to defend our own nation., instead, let's go bag US some enemy bushite for America's America!" We do all together want to convict those who murdered thousands in New York City, and we're definitely not combating global terrorism, by fighting a needless war against the innocent, lying to ourselves that by doing so, brings about a fair just government of "The People"., to then in turn arrest whom? American soldiers need to say, to hell with bush, and corporate professionalism, my loyalty is with Christ as a truth telling demon slayer.

For those who still continue, to sacrifice our rights to life and liberty, for a no better good deal as the bad guys, are TRAITORS to America, who are attempting to help escape bush and rumsfeld from the murder scene of 9/11. Never gonna happen. So, why should yet another, promising young man, die as a dumfuk bushite, the most hated and reprehensible nazi savage America has ever gleamed of? The indiscriminate bombing of our communities rightly gets dead, another, good for nothing, nazi soulless bushite vermin, AND RIGHTLY SO. I'd kill thieving bushite bombers to save the innocent life of anyone.. like a,.. cluster dud dropper., wouldn't you?, in all honestly, if you had the power, kill such an evil nazi betrayer to Freedom and America who blindly targets our residential communities to enrich the UN-AMERICAN demon anti-Christ bushite thieves further? That, as bushite nazi grunt, they die for? Paleeze.

America is dying to prosper their false-deity war criminal demon anti-Christ, Our Mr. bush Jr, the same responsible for the nine eleven travesty, who attempts escape only through fascist americans who willfully betray America by condoning the furthering of bushite censorship for tyranny. Is America the cesspool of corruption and greed, without a People person present willing to make a stand for God and Country? BUSH IS EVIL. Let's arrest'em, or kill'em for committing high treason on 9/11 with condi and rumsfeld.

What do yah say?

Under the witness of every freedom loving person this universe over, I am proclaiming, a war against the liar

George Bush Jr., the vilest contempt for mankind this
World will not stand by to be destroyed because of.

/ / claiming that the United States went to war because
Saddam wouldn't let inspectors in; the media has treated
this as not really a lie because it's so obviously
untrue. \ \

America is a coming to kill the truly evil George
Bush Jr.,

--

The King Commands

/ / Rumsfeld replied to a direct question yesterday as to whether he knew Zarqawi was in Fallujah with the answer: ``I have no idea if he is there.'' \ \

So, America! there is your reason for dying America's sons and daughters, Johnny's brothers and sisters. "No idea" rumsfeld states while his private partners cash in the blood checks for everything but the funeral services. I ask sacrificing soldiers to help grant me space to debate bush and rumsfeld on international radio. We gotta take away Art Bell's turn off button to thank him for all the enlightenment he has been a part of in America, but that these life death top priority issues of ours, he hasn't the right to censor communication on. This is your World that I wish to play servant of. As my subject; I promise a fight to return Justice through freedom for all. How? By believing in you to do as you should, demanding the immediate arrest or execution of bush, rumsfeld, and condi for the crimes of 9/11. Demanding the return of all stolen Iraqi assets, made by those who personally profited off the criminal transactions. Demand the arrest or execution of Allawi for the bombing campaign of Samara, along with bushite military commanders who organized the satanic attack. Why would America do this? To free the dying lives of their bushite nazi whored, dying grunt savage slave population. .or perhaps not...

/ / Joseph Bowman, a 20-year-old marine from Texas: ``We're ready to go. I'm just ready to get this done. I want to go and kill people, so we can go home. Kill them, and go home, that's all we can do now.'' \ \

Where is home for the Joseph Bowmans? A devolving backward wasteland?, where brother kills brother for a stolen nickel? Who would want to share the same home?, street?, or community with such contempt for life and liberty? God and Johnny? Who's home does bushite Bowman SEE the joys of his humanity flourishing?, or being destroyed as the true enemy? Is that the place where the pursuit of freedom is done by sanctioning first degree murder for no reason in particular? And is that the bushite america we've all come to getting to know of these last few days through corporate news contempt for the loss of our life's love?, and God's voice? It is all up to us, You included. In battle against the evils of this world, we should start on getting back to those that did US wrong on 9/11: bush, rumsfeld, and condi., just for starters, while keeping a

careful watch on those that jump to their cause for furthering tyranny.

A terrorist to target: Major Todd Desgrosseilliers

/ / US forces unleashed more than 20 air strikes and some 60 artillery rounds on Monday, said Major Todd Desgrosseilliers. [...] An AFP reporter in the Jolan district said one building in every 10 had been flattened. As US-led troops closed in on the neighborhood overnight, at least four 900-kilogram bombs were dropped in the city's northwest. \ \

What is it that the major is warring Falluja's defenders for? Is it to thieve the assets of the war torn city through the sacrifice of American boys and girls?, or is it to set up a representative government that would firstly stand demanding immediate reparations? The return of all stolen assets? (referring to the satanic bushite documents: the lawless 13303 and the, "THIEVING bushite dying soldiers stole it, so" now, G.W. can sell it privately to his no-national robber baron "Economy Plan"sters.) Would not a free and liberated Iraq demand a return of the "missing" or "lost" billions through the humanitarian Iraqi Development Funds? The practice of human rights law? Criminal investigations? World wide Public arrests or executions of the rapists and torturers, along with the war crime commanders?, who mostly command from sunny Florida as pension thieves, and the lucrative Halliburton billionaire war pressure lobbyists?., For all together as represented, we instead (they claim) advocate the mistreatment of US innocents in Your name. Sacrificed? Why do you let them get away with that? How about instead my friends, for Christ's sake, we decide together to go after the criminals? Allawi must pay with his remaining life for the needless bombing of Samara that got many an American soldier KILLED for nothing. Nothing. Died for nothing, but to sacrifice more of America to the war crimer bushite, the lawless demon anti-Christ's followers of evil personified., the most popular Presidente' ever all-act-dud. .!!.

Yeah yeah, bush and rumsfeld did 9/11, but did you know the Pentagon has not so mysteriously misplaced near 3 trillion dollars?, that a couple few claim was forever lost? Shucks? And did you know, it is the Treasury Department that loaned the Federal Reserve American currency to begin with, not the other way around, when they in turn, lent it back to ourselves.., at private interest. Whoms? Hmm... a quest for answers to the

name on the bill We Trust?

At the same time while we're all parting, we got like, American soldiers indiscriminately murdering people. That isn't an accusation I make against the nazi bushite, they freely confess it. and for what purpose? They say, "we'll kill more than them that they'll kill of US"

Yeah but, why bomb ANYBODY? Why do you have to sacrifice American soldier's lives for no greater good? What benefit does it bring to the DYING bushite grunts who are ordered to stick around and try to placate hostilities with "good" intentions? as within the sites of Humanity - as enemies to US all? Will the commanders argue from sunny Florida, that yeah but, we killed more of them, than them of US. And.. they are who? ordering the commitment to indiscriminate murder? as the bad guys?. The bushites bombed, the willing to placate Samarra, to only get killed, more American Marines. And for what but the few bucks wasted on the ammo?.. to get killed more "uncounted" Marines naturally., for the bushites are waging to make a real killing on this American sacrifice. Look, we can sit down with each arrested bushite individually, talk to them about wether they are personally committed to thieving further from America, all to die benefitting the likes of an Enron, and those that thought they'd get away from the crime scene of 9/11; before deciding ultimately, wether the born again have any real hope left. The bushites are enemies to God, Amnerica, Johnny, and themselves truly dying US for. We can see how easy the manipulation of the American soldier's mind is, they have no ability to rationalize while speaking, and as a consequence, have no understanding of their bad-faith based satanic system. George W. Bush Jr. threatens the grunt soldier to always fear what they don't understand, like, the wisdom contained within the American Constitution, or the dreaded, free to speak any mind Internet. Terrified of growing up like real men do to make their own decisions in this big world, the bushite nurse instead on the teat of sadomasochism, as bushwhore nazi dumfuk slaves. Dying brain dead limp as noodles mushing. And why? All because Americans don't want to trouble American Talk radio with our freedoms. I again challenge Art Bell, Limbaugh and O'Really to a three hour debate entitled, "Wizard's War of Words: A Super Duper Special" all about their un-worthiness to censor our screams for Justice.

Joy to the world, or more misery and suffering under the demon anti-Christ, Our lawlessly evil Mr. bush Jr.? It is up to you really. Where do you want to go? Up, or down? You decide, but don't wait until forever never coming; these times demand for the victim, some real accountability. It is the power of our nature to being, that demands a call to arms against the war crime instigating, nine eleven perpetrators. Military commanders who don't support the arrest or execution of said individuals: bush, rumsfeld, and condi, are traitors guilty of mutiny.

/ / because having photographers or reporters present could have interfered with the count \ \

What we do now is accuse ES&S, along with Diebold of falsifying the election, then when they're pressed to prove "their" findings, they'll tell US, they can't, no ballot trail. Their convictions on our accuracy is misplaced. Pen and paper with ballots secured in locked boxes that never leave public scrutiny is the answer. Those who deny US that privilege, are enemies of freedom and democracy, wether they know it or not.

What for you say?, up for a challenge?

Your, coming to town, lovable loyal American King,

Johnny Wizard

--

http://www.awesomelibrary.org/Classroom/Social_Studies/Government/Fraud_in_Voting.html

/ / But not until Friday did they begin to spill into the more conventional news media. That's when the Cincinnati Enquirer reported that officials in Warren County, Ohio, had "elocked down" its administration building to prevent anybody from observing the vote count there.

Suspicious enough on the face of it, the decision got more dubious still when County Commissioners confirmed that they were acting on the advice of their Emergency Services Director, Frank Young. Mr. Young had explained that he had been advised by the federal government to implement the measures for the sake of Homeland Security. \ \

MSNBC Covers Voting Problems

/ / He said that there were 90,000 more votes cast in Ohio than registered voters

He said that all the irregularities in Florida and Ohio have happened in counties using non-paper-trail e-voting from the companies run by Bush's friends. \ \

--

/ / Meanwhile, the U.S. continued its targeting of medical facilities in the city. A makeshift clinic that is serving as the main first-aid facility was bombed this morning after U.S. and Iraqi forces took over Fallujah General Hospital early Monday. \ \

--

Praise Jesus! I killed ten lawless bushite disciples of the demon anti-Christ today, and I'm just getting started.. Praise Jesus!

/ / Here is a city, surrounded and cut off, whose male population between the ages of 15 and 50 faces being ``put to the sword'' by the US military, and no one in the media can stir himself to raise an objection. \ \

We all can only hope and pray all US Godly innocent people will wake up, and starta' hunting bushite to the ends of this Earth. There is no pleasure greater, than destroying fascist nazi bushite grunts, to save the lives of the innocent they target for pillage and murder. Enemies of America are the cowardly and soulless disciples of the demon tyrant anti-Christ, Our evil Mr. bush Jr.. Disciples of evil who war God as our enemies in attempt to escape bush, condi, and rumsfeld for the crimes of nine eleven. No dice, for Johnny's now, truly coming around like some kinda godly American Man of Virtues most can not even begin to understand. Don't be afraid my brothers and sisters, unless of course you're a bushite, for as a Christ Crusader I'll kill you myself, before allowing you to murder another innocent soul in My name. "Death to the bushite instead of our good friends and family", is our King's reply. Bushite commanders responsible for ordering the irrational bombing campaigns in Iraq, (to steal profit for rumsfeld's partners, while sacrificing weak and stupid American teens in the process,) such as in Samarra and Falluja, I am now offering a ten million dollar bounty on, per. If your organization bags three or more, before December 25th, there will be an extra something under the Christmas tree this year.

Do you Love me now as the Son of Man you'll ever know?

King Johnny Wizard

P.S.

(to steal profit for rumsfeld's partners, while
sacrificing weak and stupid American teens in the
process,)

See? Evil bushite kill "other" bushite to steal our
freedoms and money, and US true freedom fighters would
kill'em too to defend our innocent families. Like I
said, un-principled nazi facist savages is the
un-American enemy bushite without contention but for
lifeless corporate censorship on our core values.
Demand our voices be heard, or die not trying to do any
greater. I'm serious this time.

God bless America - Now, let's arrest or kill US some
enemy bushite, what do you say People?

--

/ / "I have no other choice but to resort to extreme
measures to protect the Iraqi people from these killers
and to liberate residents of Fallujah so they can return
to their homes." \ \

American Patriot Warriors, kill Allawi as our number
one, Iraqi People killer. Thanks in advance my friend.

In Fallujah, U.S. Declares War on Hospitals, Ambulances
http://newstandardnews.net/content/index.cfm/items/1208

snpd

Or, is it another of those, why bother-who cares?-fifth
degree felony things?

--

/ / Despite this, the Bush administration denies any
responsibility for the missing explosives. \ \

Nor for sabotaging the ORHA for franks and rumsfeld to
rob the pro-Iraqi central bank. It's just more American
deaths as dumfuk sacrifices for the evil anti-Christ,
like bush and rumsfeld committed as stolen from America
on 9/11. Who cares about America Limbaugh would quietly
trumpet, he's making a killing like Art Bell and
O'Reilly do, keeping US masses PORTRAYED uninformed and
ignorant beyond belief. Did you hear? Mr. bush is the

most popular President ever ellected!

--

/ / Not one "chicken hawk" or a clique of shirkers, but an entire platoon of seventeen soldiers decided to face arrest rather than die needlessly because THE MAN doesn't support our troops. \ \

/ / stupid people prefer President George W Bush over Senator John Kerry by a 4-to-1 margin \ \

--

Getting Started

<http://www.yubanet.com/artman/publish/article_14748.shtml>

/ / ..a call for immediate inquiry into evidence that suggests high-level government officials may have deliberately allowed the September 11th attacks to occur. \ \

I would suggest all living American medias to join the 911 Truth Statement, then, if we did that, America might settle her own affairs, and I could then just center on my upcoming "Wizard's World Wide Wonder Tour" plans currently in the finishing stages. This great World is yours, treat yourself well. A National radio program is just waiting for your call on what you know now about freedom.

/ / So, at the time of the invasion, the Iraqi government had already disclosed and disarmed, and was thereby in compliance with the major provisions of UN Security Council resolution 1441, to which Bush refers in this quote. Diplomacy had, in fact, worked. \ \

Demon bush spew "Saddam Hussein would still be in power, he would control all those weapons and explosives, and could share them with our terrorist enemies."

Yet, it was rummy and tommy franks who TREASONOUSLY threw out the State Department's semi-thought through ORHA plan of, securing the weapon sites and preventing anarchy, and, it was the IAEA that had tabs on the weapons before the bush demon kicked them out irrationally. Done so to instigate looting and the deaths of American soldiers, all so to allow traitor franks and company to rob the public bank of uncounted billions, along with the museum. See? bushite would truly get the dumfuk cowardly bushite killed for a stolen dollar, and US real men would kill bushite too, as so would this eternal Universe, done so to protect

our loving innocent families. Being a bushite disciple of the evil anti-Christ, is something all wish hardship and death for instead of the innocent they, un-apologetically, as enemies of God, openly target for rape, pillage, and murder. Johnny Wizard pays ten cents for every bushite tagged and bagged, ten cents. And, an even share of at least 3 billion to those who kill the bushite commanders responsible for the criminal bombing of Samara. Hint: You kill the individuals who ordered the bombing MURDER campaigns of Samara, then stand up proud to our media as a real American soldier should or would, and say yeah, I killed the nazi bushite traitors as a true Patriot Warrior to protect my fellow brothers and sisters. (Optional close: "All hail Johnny!) Do that, and I promise you'll get what coming to you: all the riches this world of God's can afford., But don't, as bushite nazi soldier grunt, and likely die sacrificed as a coward and a traitor to the Human cause of liberty and Justice for US all. WARRING military corporate commanders that don't support the arrest of those responsible for 9/11, or the return of all stolen assets taken through the neo-con's war crime actions, we should all just frag for America.., what do you say Patriot(s)?

/ / Marine Colonel Michael Schupp dismissed the sputtering dialogue as a sham. "The negotiations are a ruse. They are just stalling for time," he told reporters near Falluja. \ \

What negotiations? Allawi has repeatedly informed American soldiers he has no evidence whatsoever, establishing his therefor, FALSE allegations. Mr. bremer's Zarqawi moves freely throughout Iraq, including the green zone. Question: When all those children were targeted for murder, by what was reported at the scene with remote controls in one truck and under the street, why would Zarqari take credit for it even if he was truly responsible? And so on..? I think Michael Schupp is a fuk up dumfuk, who thieves from America for bush, and who clearly doesn't have the intellect to command anyone but himself to his own rightly death. Why would Zarqawi target children, when bushite nazi grunts are all so close by coming and going?, for days at least constructing stuff?, that rumsfeld broke?, then over billed to fix for even further takings? Remember several un-arrested bushite NAZI commanders openly confesses to AMERICA in having no public objections about murdering the innocent, without even having a military objective established in some cases, but only for to sacrifice another soulless bushite grunt/slave, all so to enrich the comfy neo-con war mongers left back

home in our luxuries., Luxuries from where America's very own grand parents are left un-treated as the still victimized.

What do You think People? Needlessly murder thousands upon thousands irrationally making no sense, or, return stolen Iraqi assets while arresting American enemy Iraqi People killer Allawi, along with maybe Michael Schupp while we're at it? For, who cares about what is right, just, or true is this dying world of Yours?, er.. I mean bush's. You remember, Saddam wouldn't let the inspectors in, and that was why bush took a serious look at this real world situation and decided unilaterally, what the hell, he'd start a war against our Humanity left "undefended" as an enemy to everyone. (Satan's wager, that if i Remember correctly, Christ/God refuses(d).) Evil is Our Mr. Bush Jr.. Thank Johnny we had the time to intervene finally, now eh? Spooky is not the word, but baby, we sure could be on the winning side of this evolution by revelations thing. We are it together, bound for freedom through the practice of Justice, or bound to tyranny through acts of ignorance, ignorance propped by fascist censorship regarding our news content., Censorship of our human cause for liberation.

It is up to You brothers and sisters to demand evidence a requirement to convince ourselves on who shall be deemed the free person, or be sentenced to jail without trial somewhere. Tyranny through criminal dictatorship, or democracy expressing the true will of us people? It is all up to you.

"the Trial and Conviction of Our Mr. bush Jr."

--

/ / Wednesday on the campaign trail, responding for the first time to the Al-Qaqaa story, President Bush said that John Kerry, in using the story as he has, was ``denigrating the actions of our troops and commanders in the field.'' \ \

It was the actions of rummy and franks, not the mindlessly obeying war crime instigators as iliterately truly stupidly dying bushite dumfuk nazi grunt teen soldiers.

--

/ / How many more thousands will have to die before God will tell Mr. Bush to get out of Iraq? \ \

--

/ / Eighty percent of Bush supporters believe Bush wants
to participate in the treaty banning landmines. \ \

--

No Retreat, No Surrender
by Bruce Springsteen

/ / That's why "united we stand" -- that's why "one
nation indivisible" -- aren't just slogans, but they
need to remain guiding principles of our public policy. \ \

--

/ / "It is also important to note that this was the main
high explosives storage facility in Iraq, and it was
well-known through IAEA reports to the Security
Council," Fleming said. \ \

--

/ / AMY GOODMAN: So again, this top news, as many as
58,000 absentee ballots have gone missing in Broward
County, \ \

/ / Broward county commissioners had purchased the
touch-screen machines from ES&S over the objection of
Elections Supervisor Miriam Oliphant; notably, one
commissioner's campaign treasurer was an ES&S lobbyist.
Governor Bush responded to the Broward fiasco by firing
Oliphant, an African-American, for "misfeasance." \ \

/ / Garner's 90-days-to-democracy pledge ran into a hard
object: The Economy Plan's 'Annex D.' \ \

-

Oh my God!!! - Johnny Wizard talks to America nationally broacasted!

<http://la.indymedia.org/news/2004/10/118305.php>

Oh my God!!!

Get your own copy! Wow!

-

/ / Pentagon officials said a facility housing 380 tons
of (now missing) explosives "was not high on U.S.
commanders' list of sites to guard." What was high on
that list? Spokesman Scott McClellan said we had to
"make sure that the oil fields were secure." \ \

/ / 'Those ammo dumps have been looted and raided, and
kids and our young American forces are being shot at

from weapons stolen from the ammo dumps that this president didn't think were important enough to guard,' \ \

Who cares?

/ / Roughly half of the $5 billion in reconstruction funds distributed by the U.S.-managed Development Fund for Iraq cannot be accounted for, according to an audit commissioned by the United Nations. \ \

Yawn.

/ / A highly detailed program, begun years before the tanks rolled, for imposing a new regime of low taxes on big business, and quick sales of Iraq's banks and bridges-in fact, "ALL state enterprises"-to foreign operators. \ \

Big deal. To the war mongering mass murdering thieves go the stolen spoils., as the bushite's devolving american new century would say.

/ / The American public is told that this butchery is part of keeping up pressure in the war on terror. All these terrorist brides and grooms and terrorist kids rushing round in party clothes ; all the terrorist musicians and the terrorist wedding guests, by God, they have to pay for 9/11 because (as millions of Americans still believe), the Iraqis were responsible for 9/11. \ \

50 percent of Americans polled support bush, and the vast majority of those believe Saddam Hussein was behind the Sept. 11 terrorist attacks, and that freedom by justice through understanding is too complicated and wordy, ...yeah. and so corproate news control is lying to US all, cheating everyone, including You, who cares?

Americans murdered on 9/11, and those responsible are let to go on their way. Yeah, and so what?, for Americans are absent any real Patriot warriors willing to protect their now officially perverted Amerkan flag. Look at the nazi grunt soldier's uniform, and you'll see. All bushite nazi grunts, who fight cowardly with rapists, torturers, and South African apartheid death squad goons, wear a flag reversed from the original design. The bushite attack the weak, innocent, and practically defenseless as betrayers to God, freedom and the human cause. Yeah, and so what?

/ / The administration not only doesn't admit mistakes, but also doesn't believe in accountability. \ \

But for the sacrifice of dumfuk bushite nazi grunts.
Leaderless degenerates that any real human would destroy
to protect their innocent families. Innocent families
the bushite bombers commanding from Florida murder for
no good reason but get more soulless bushite teens
rightly killed, all done so to put more stolen money in
the pockets of their ungodly satanic cult. Solution:
hunt to kill those left un-arrested who willfully,
criminally, ordered the needless bombing of Samara to
get killed the bushite grunts for the further thievings
of the bush backer traitors who bask in your stolen
expenses.

Support calls for open dialog.

-

> More of the same garbage! Your comments don't even make coherent
sense!
>

Read up on the "ORHA", from the leading newspapers of our time,
then make up your own mind, on who is paying instead for franks'
"unsolved" crime(s).

100 Facts and 1 Opinion
The Non-Arguable Case Against the Bush Administration
<<http://www.thenation.com/doc.mhtml%3Fi=20041108&s=facts>>

/ / 67. The Bush Administration blocked a proposal
to ban the use of arsenic-treated lumber in playground
equipment, even though it conceded it posed a danger to
children. \ \

-

An open letter to the news media of America by the webmaster of
WhatReallyHappened

http://www.whatreallyhappened.com/let2ed.html

/ / And that is why I don't believe the headline that
voters are split evenly between Bush and Kerry.
It is just too fantastic. \ \

-

The End of Evil?

Hey! Art Bell! I recorded our conversation
yesterday!!! Now, many people may not know, but Art
Bell purposefully with malicious intent, lies to America
when he states, he doesn't censor America's voices for
Freedom. The first of THREE calls I made to Art Bell

yesterday within his first break, was on the topic of polls. He asked myself between the first break, - off air -, what was it that I wished to talk about? I told him, I recently discovered that the opinion polls done in America by CNN are tabulated by firstly insuring half polled are known bush supporters, and half are known Kerry supporters. But by doing so in such fashion, 99.9 percent of America could be unapproving of Kerry's politics, but Americans who trust the media's intelligence would never know of it. He abruptly hung up on me. I called back. Recorded. (My fricken modem program didn't start immediately so I had to stall.) I said something like "Yeah, it's me again Art, I don't know weather you hanged up on me, but I just spoke to five seconds ago about that poll idea, what do you think?

R E C O R D E D
http://la.indymedia.org/news/2004/10/118109.php

Art Bell "You'll have to find another phone line"

[He didn't explain why the West of the Rockies line was not in service [of which he ended using twice publicly in the following call-in segment]]

Johnny "Okay.. what did you think of the poll idea though?, did you think it'll work?"

Art Bell " YEAH, YEAH, COOL".

snpd

a dream come true, depending on your views,

Pleased for thanks and listening,
over and out willco,

Johnny Wizard

-

Treason this is.

/ / The 46-page report argued that Pentagon assertions of a link between al Qaeda and Iraq's President Saddam Hussein were not supported by intelligence reports on which they were purportedly based. \ \

Treason this is.

-

/ / As for who in Iraq warrants comparison with the political leadership of Nazi Germany and its policies of

reprisal and collective punishment in occupied Europe,
it is the American ruling elite, not the resistance
fighters of Fallujah. \ \

/ / In the ultimate Orwellian twist, they were turned
into "unpersons"; even their names were withheld from
the media. Any president who endorses such atrocities,
as Bush has repeatedly done in speeches, is against
everything that America purports to stands for. \ \

/ / If this is the way the majority feels, then
suppressing the realities of Iraq serves only to deprive
the American public of the real facts enabling our
government to ignore the will of the people. This is
not conducive to a truly safe, secure and free society. \ \

> 109 Italian Soldiers Dead So Far From DU In Iraq
> <<http://rense.com/general58/frff.htm>>
>
> / / denying the significance of such data is purely
> acting out of ill faith, and the truth is that our
> soldiers are dying out there due to a lack of adequate
> protection against depleted uranium". \ \

The Last Straw - Carl Worden Makes His Vote Official
<<http://www.sierratimes.com/04/10/20/carlworden.htm>>

/ / What I do know is that any party that would find
the words, "Protect Our Civil Liberties" offensive or
even threatening, is a party I won't belong to anymore. \ \

-

For What Other Hope?

/ / The military insisted it hit targets linked to
Al-Qaeda operative Abu Mussab al-Zarqawi, Iraq's most
wanted man, who has claimed responsibility for a series
of car-bombings and hostage-takings in the country. \ \

All true American soldiers must stand against this "the
military" person, and kill it. Allawi, has already put
forward that he doesn't have, nor has he seen one shred
of information linking Zarqawi to his false, untrue,
wrong accusations regarding an entire city he leaves us
unconvinced for blame by bombing. It seems I will now
be taking command of the entire American Military for
this one time defensive operation. Insist evidence be
made forthright, and kill these anonymous un-arrested
"the military" person(s) along with anti-Iraqi Allawi.
Then, we hunt down and arrest or kill those responsible
for ordering the needless bombing of the Samara
citizenry. See?, the ungodly and tyrannical bombing of

the good people of Samara, brought about now approaching more than one worth acknowledging DESERVED deaths of the ungodly bushite teens, the bushite teens who didn't need to die thoughtlessly for the bushmob. Think: Any real man would kill an enemy bushite to save the lives of the innocent they admittingly target for plunder to please the neo-con God haters. The bushite soldiers that are now commanded to die sacrificed in Samara, will die directly from the instigated criminal bombing assault against our good friends, the Iraqis, bombed irrationally by the ungodly, unwise, and seriously un-American evil anti-Christ disiples, John Batiste, and the self confessed Iraqi People killer, Allawi. Allawi blames a city, Johnny blames Allawi. Kill un-arrested Allawi, and we'll save some GI's lives in the process of winning this battle against the dark evil forces of blind and stupid tyranny.

I, a man of many masks, beg again asking you to help me gain our talk radio access. America truly needs you, and so do I. Art Bell forbids America to hear our calls for Justice. The bushite fraudsters fear of me is that I actually understand regressive tax policy, and the judicial principles enshrined indivisibly within the holy American Constitution.

snpd

Believe in yourself, for what other hope do I have?

Johnny Wizard

-

<<http://www.wsws.org/articles/2004/oct2004/iraq-o20.shtml>>

/ / a meagre $2 million has gone to healthcare, $19 million to water projects and sanitation and $300 million to rebuilding of the electrical system. \ \

-

Do We See A Pattern Here?
<<http://rense.com/general58/pattern.htm>>

-

<<http://911review.org/Wiki/StanleyHiltonLawsuit.shtml>>

-

These following bushite terrorists kidnapping Americans, look the most so far like the likely secret Zarqawi gang, no? Maybe, someone should ask bremer if he has

ever had words with the bushite group, "Custer Battles"?

/ / When Isakson objected to the scams, two unnamed "top company officials" burst into his office with machine guns, \ \

-

Who is Hamad Hamoud?

/ / It turns out that the ``major victory'' over the Iraqi resistance consisted of American forces blasting away indiscriminately in Samarra's city center, killing innocent men, women and children, damaging property and buildings-including a mosque and a kindergarten-and further enraging the local population.

The Samarra incident in its various aspects-the battle itself, the military's claims, the media's role-is a microcosm of the US occupation of Iraq. \ \

Exactly. Prior to this most recent war crime against Samarra, there had been dialog to allow bushite thieving troops in without dropping bombs indiscriminately to murder our friends, (and then to get killed the evil bushite in rightly retaliation). Those who ordered the NEEDLESS bombing campaign (who I advocate the open public execution of) didn't like that prospect of saving GI lives to lose money for the bush junta though, and, Zarqawi, my god, going on about how he wasn't interested in freeing the Iraqi people from tyranny didn't help the bushite anti-Christ cause much neither, especially with Bigley still hanging on alive. (Oh yeah, killing Bigley sure suited the women haters bush and blair just there eh?) Killing un-arrested bushite, (who fight for rapists and torturers who thieve from America, while attempting to censor our voices calling for real Justice,) is the best anyone can do fighting for true freedom. Kill an irrational censoring fascist bushite, and you've saved the potential lives of millions of innocent American people. Innocent people the bushite nazi soldier freely confesses to targeting to profit the corporate bushmob back home who continues to rob from the nation because of it.

Witness this pro-bushite Knight Ridder article, of which, if I were "officially" recognized, would demand swift and immediate public accountability.

/ / Some noted that while tribal leaders in Samarra sought government assistance to rid the city of insurgents, leaders in places such as Fallujah have been more supportive of the guerrillas. \ \

Some noted? Who? The head of Sammara's political affiliations, comprised of more the 100 separate poltical groups, in Samarra, asked that no killing of innocent women and children was needed, for, the "pro-Iraqi forces" would be allowed to come in if they obeyed themselves. (Like as if any Samarrian would ask for help by attacking residential communities blindly as the evil bushite almost always without exception do.) But no, they go in recklessly bombing, raping and pillaging, shooting innocent women, men and children, then tell 1200 or so soldiers to sit in the middle, and stay put, indefinitely, and Knight Ridder tells US all how john batiste, a Frenchman, made such a successful go at it. Is john batiste going to sit with the loyal troops in the carnage he ordered, and bite the bullets for the team? Hell no, he's probably commanding from Florida, basking in the sun with his personal cut of that two billion with buford blount's two timing nazi whore of a wife.

Hmmm funny..

snpd [forgivness only comes if one truly understands enough to ask.]

/ / The U.S. troops made only limited use of aerial bombardment and artillery, Batiste said. That limited civilian casualties and damage to city buildings. \ \

An admission that the thieving bushite dumfuks target for murder us innocent people, and have so far figured, that by not committing as many "precision strikes" with guess work or anonymous tips, they wont anger so many?.. I think they may be a little late for that considering when they arrived, (like they did every time), they needlessly still murdered unarmed, innocent, defenseless whomevers for whatever. Remember: there was no need to bomb or shoot any innocent people, for the terms negotiated with Allawi were to enter AS THIEVES without any bombing needed. Will john batiste tell us the lawless rapists, torturers, and apartide death squad goons he fights our Humanity with, bombed less Iraqis in hopes to anger less Iraqis?, and if so, why not give up on the bombing innocent pro-Iraqi part all together?, then also the raping, torturing, and pillaging part by tracking down the actual criminals while we're at it? John? No, can't do that, for those who ordered the needless bombing runs over Samarra would be tried publicly, then shot dead by surviving Patriot American Warriors, and that demon traitor, Our Mr. bush Jr. with rummy, would meet the same fate for the crimes of 9/11 back in New York City. And of course, the Iraqis

would get back everything that was stolen from them with massive interest paid for by those personally responsible.

The bushite bombing commanders figure, lie to the entire first division about the true threat levels, their weak minded dumfuks anyway, they can't stand up proudly for their commitment to real freedom and democracy, instead they'll fall rightly dead and nobody'll hear to care anyway. Mr. bremer's double crosser "Zarqari" will get'em if need be, again. Could be. I watched "Who wants to be a Millionaire", a TV program in America, and the contestant was a Mr. Sheriff (who had just given up religion and joined the Israeli faith to continually thief), he was in the first Gulf War, and now, his own flesh and blood brother was serving for the bushite neo-cons to rob even more from America through Iraq in this second blast. The entire audience questioned uncomfortably his answer that he had no idea who cheney is. I kid you not. You can be sure that episode won't be running in syndication. As a dumfuk bushite nazi grunt, dying of radio-active contamination, does he have any real care for his likely now dying too or already dead as forsaken brother? I doubt it. Godless nazi bushite are as stupid as they are evil disciples of the demon anti-Christ: the most hated and reprehensible illiterate savages as so well documented in the lights of Man. Ten cents for every bushite bagged and tagged, ten cents. Twenty billion if you can magically teach them real quickly, to understand honor, virtue, heroism, and the meanings of the American Constitution.

/ / If their political goal is to have all the major cities full of people that really, really hate the Americans, then is this really a victory?" Cole said. \ \

Well of course! As parasites led by the wims of a, behind the scene bombing campainer, the bushites die cowardly for the billioniare bushmob to profit robbing from the folks back home left un-defended.

/ / Some Samarra residents and a major organization of Sunni clerics have condemned the attack, and even the province's governor, who appeared with Batiste at a news conference Wednesday, said he was shocked and surprised by the operation. \ \

See how the writer(s) of this news wire claim that those who didn't support such lawlessness are only some? You'd figure, since the news piece repeatedly refers to the wanting of such barbaric attacks, it would at least site one legitimate quote.. instead it pulled this...

/ / "We didn't have any intention to take war actions. We were always hoping for peace," said Hamad Hamoud, governor of Salahuddin province. The insurgents, he said, ultimately left the Iraqi government no alternative. \ \

Governor of Salahuddin province, who hasn't been quoted for anything in the world, except for this that he wasn't. And besides, from what I understand, Salahuddin are provinces, not a province. Or perhaps Knight Ridder is referring to the governor of Salahuddin, a teensy tiny ghost town in Kurdistan? Regardless, this Hamad Hamoud must be a huge nobody then, and the best the bushites could get to float their patently false story line that leads to the untimely death for Americans. Sacrificed for the anti-Christ. But, I digress.

Listen: Is a man who would kill an un-arrested bushite rapist, or kill an apartheid death squad racist who murders only black people because their darker skinned, or who joyously kills a bushite sniper, (a sniper that freely confesses to shooting innocent women, men, and children,) classified as an "insurgent" by the uniformed enemy anti-Iraqi forces I ask? Art Bell, the nazi censor, and his propagandizing bushmob ilk, is America's true enemy. Free speech must be spoken for, for the bushites of Talk Radio america, don't want dying America to think as a free America to speak on the top priorities of Your true survival. Use it, or lose it.

Johnny Wizard

-

/ / He described meeting an old man who was forced to watch his sons being tortured until he signed a confession admitting links to Osama bin Laden. "Tears were streaming down his face. I have no doubt they had as much connection with bin Laden as I do." \ \

-

/ / Yet when Sen. John Edwards led CNN's debate poll Tuesday night, the Time Warner network abruptly yanked it from their front, only to replace it 13 hours later with a blank poll. Edwards had been leading in the first poll 78-18.

Some 200,000 previous responses to the poll were deleted when the new poll was posted. \ \

The corporate news polls are a crock. Look at the literate world of Internet content. 99.9% hate the evil bushite lies that sacrifice American lives to profit

the criminal bushmob fraudsters. As I've told many, CNN and CBC execs know bush and rummy committed 9/11. Why? Becasue I've told them so, if they would seek to ask for only the facts to decide for ourselves.

General Ahmad funded Atta.

-

/ / "I don't want to die. I don't deserve it. And neither do the women deserve to be in prison in Iraq. Release the female prisoners that are held in Iraqi prisons. Please help them. \ \

/ / Iraq's justice minister announced Tuesday night that Rihab Taha, the female scientist known as "Dr. Germ," would be released from prison. \ \

/ / But then the U.S. Embassy said Taha and Huda Ammash, known as Mrs. Anthrax, would remain in U.S. custody for the foreseeable future. \ \

/ / Straw added: "At no stage did they abandon their demands relating to the release of women prisoners, even though they were fully aware there are no women prisoners in our custody in Iraq." \ \

/ / ..one air strike had killed eight people at the home of Hamad Hdaib Mohammedi, who was known for his opposition to the militants. \ \

-

BE AMERICAN

/ / Early reports said a U.S. convoy was passing by the celebration when the attack occurred. The U.S. military said later that American soldiers were taking part in the celebration but that no convoy was passing through the area. \ \

Yeah?.. but what about the comments made by the bushite child killer phil smith? Maybe he'll tell us again why innocent children were targeted for murder to get rightly killed loyal enemy bushite nazi brethren? Since phil smith isn't cogent as the godless, what can he know of his true meaning? What is phil smith's America where innocent children are murdered for his contempt of the America we remember? Is it honorable service where the leadership of the US military feels it is right to lie to fellow troops about what they are dying for as "THIEVES for bush"? Is it the conduct of a honorable creed to steal from US honest hard workers?, to indiscriminately bomb civilians with guess work and

secret paid informants while calling themselves dis-honorably in Your name pro-Iraqi? They are not men, for they can not stand proud on their false convictions, instead, they lie as cowardly traitors to the American cause. Is it the conduct of a brave crew of patriot freedom fighting warriors serving a just cause to bomb a city to teach our God something? Or is it my friends, the conduct of fascist enemy bushite nazi vermin led to die for not so secret criminal transgressions? A war mismanaged purposefully to benefit off the sacrifices of American soldier's lives, dying or being maimed to give in to lying criminal fraudsters that OPENLY rob from all American families like tommy franks did?, robbing the principles of Justice once thought respected, and only expected in the true land of the brave and free? If you were face to face with a mass murdering bushite cluster dud land mine dropper who attacked residential school districts, would You not, kill it for the begged mercy of God and children everywhere? What we ideally need to do is, find who has been responsible for ordering the indiscriminate bombing campaigns, and kill them openly, rightly, publicly, for all our World to see. Killing the NOT HIDDEN enemy bushite is the best any human can do for the survival of our species. When you see the bushite, spewing their hatred for humanity while censoring the voices of reason and freedom, justice and liberty, do US all a great big favor and kill the nazi fuck for the love of yourself, God and country, please.

/ / It added: "Unimpeded access throughout the city for Iraqi security forces and multi-national forces is non-negotiable." \ \

IT ADDED? Er, sorry enemy of humanity bushite dumfuks. US men out here, hunt to kill un-arrested bushite rapists, torturers and thieves that hide behind the stolen American uniform as ungodly enemy savages. Third Infantry for example: No American present. For if there were, Saudi Wahabbi child killer buford blount would be dead at the hands of US pro-Iraqis for TREASON. The slave bushite die as godless fascist cowards who target US as the innocent to die themselves for benefitting the further thieving of America, The People, back home they leave left unguarded. General Ahmad funded the mastermind 9/11 ring leader Atta. I HATE bushite. Killing un-arrested bushite is what all real men of America should get started on, like with firstly, George W. Bush Jr., condi and rumsfeld for 9/11. Then we need to make some demands of the corporatist censors who deny our Humanity free access to the substantiated impartial facts that stand irrespective of ideology or

spin doctoring. Plutonium in depleting uranium is scientifically bad for your health without question, for we do understand the measured effects of radio-active contamination. How can "our" corporate news media continue to ignore Our growing concerns on the subjects of Your dying freedom and liberty my friend? "They" can't. America's multi-millionaire corporate news producers need to be made accountable, when it comes to the refusal to allow public reporting that INNOCENT women and children are being held hostage in our names, and in some cases photographed raped or murdered by the still, un-arrested ungodly enemy bushite nazi evil forces. ENEMY!

/ / London - The International Committee of the Red Cross insisted on Friday that Britain does not hold any women prisoners in Iraq, and said it was ready to act as a mediator to help free British hostage Kenneth Bigley. \ \

The Red Cross said what? No mention of the two innocent "Sisters" held hostage? Who does the Red Cross serve on the issue of our human rights? Can they not be aware of statements reported widely on the specific issue of Bigley's commentary? Surely they do us a disservice when portraying ourselves otherwise by claiming Britain isn't involved in the criminal plunder of Iraq at all our vital expenses? Have they not seen, nor heard the big news about innocent Iraqi women held hostage by the terrorists? Should they not be demanding blair speak up for the human rights of innocent People being victimized by Humanity's mutual enemy, war criminal George W. Bush Jr.. and his mindless minions of dying godless barbaric savages?

/ / He repeated the kidnappers' demands that the US release all women from Iraqi jails. "Have some compassion for the [INNOCENT] female prisoners," \ \

/ / Blair pledges 'If kidnappers get in touch, we'll respond' \ \

As for the innocent women held against their will by the bushite terrorists, no negotiations for US by this "politician" of a "Democracy". He'll just pretend that he hadn't heard of the request, for the corporate media hasn't reported, therefor, he'll plead, implausible deniability. (Again, who's conning who here?)

The two innocent women were planned for release prior to the Zarqawi hostage taking according to Justice officials in the Iraqi government. Things that make you go hmmmm...

/ / Britain's foreign secretary, Jack Straw, said today that Britain will not meet any political demands to secure Bigley's release. \ \

Now they figure releasing the innocent women would be giving into still the just demands of the sovereign Iraq? Or, will they argue, persecuting the innocent is what the enemy bushite do to steal our human values of virtue and the American ideal? Stealing our Freedoms and Democracy? Again, bushite is the enemy of America, kill it.

/ / Iraq's [bushite] National Security Minister Kasim Daoud told a news conference in Baghdad that the offensive was launched in response to a call for help from Samarra's residents to tackle the insurgents in their midst. \ \

/ / "We were in talks with Prime Minister Iyad Allawi about the situation in Samarra, including reaching an agreement to allow Iraqi forces to enter the city. We were surprised by this military offensive," said Khaled Naji al-Samarrai. \ \

Khaled is leader of Samarra's political association.

/ / ...said [bushite] Daoud. "Even if they didn't ask us, we would have still gone into the city." \ \

Surprised? Hardly. The closer we get to saving American GI lives, and saving the lives of our children, the more likely the bushite's false deity G.W. will be arrested for mass murder on nine-eleven, and bush bitch Saudi wahabbi buford for all the needless subsequent murder rampages against our forsaken civilization. Do me and humanity a favor, kill the bushite traitors who steal our lives from Justice for enslavement of our human species through blatantly evil corporatist fascist tyranny. What kind of ungodly reality is bush taking US for where evidence is no longer a requirement to convince US who is evil? A criminal? The evil bushite bombers use "guess work" and paid informants to decide what neighborhood to indiscriminately bomb as targeted killings, while the rich corporate TV news celebs state how they're all so proud of what American soldiers are blindly dying for as. I say nah, bad idea, instead, we hunt to kill the self confessed rapists and torturers for the beginners.. Now, who's with me as a true Christ like Patriot God Warrior?..

Join me, I seek bushite then I destroy it for the love of God has no challenger.

Why Samara?

* Battle Of Samara - 7 Helicopters Downed, 147 Troops Killed
*
<<http://iraqwar.mirror-world.ru/tiki-read_article.php?articleId=25148>>

"Zarqawi" killed Berg in a building identical to Abu Graib, now he's been reported to have made a slight correction about mistakenly asking for the falsely imprisoned to be set free. No no... he didn't mean those women who are held against their wills without evidence regarding any alleged criminal impropriety, who are being held by child rapists and torturers. Zarqawi actually meant, those women who nobody knows of, except perhaps rummy who stated the Red Cross shouldn't be co-operated with when we're talking Our human rights and the falsely imprisoned. [LIKELY REASON WHY Samara was NEEDLESSLY attacked. Who commanded the NOT NEEDED attack in attempt to take US off the true criminal's path? For, that would likely be the "surprise" American GI terrorist killer in the flesh holding America's children hostage.] Then, Zarqawi went on about leverage with "Jews" and the "Crusaders", but, Arabs ain't so dumb, nor is Arab TV actually. There was a large Arab Jewish and Christian community who despised areil sharon as an enemy of G-D in secularist Iraq from the start before the fundamentalist bushite war crimes began there, and the Islamic faith holds the eternal Son of Man, Johnny Wizard in Holy god respect. Remember I represent the freedom and wisdom granted by Allah to Humanity through Jesus as Savior Hillel taught US all about oh so many moons ago: namely, to worship and love all things that God made. But alas, the illiterate nazi bushite are dumfuk slaves as enemies to freedom, and as consequence, don't think for themselves, or much about my true significance in this World of US gods suffering under their evil as criminal misconduct inflicting suffering misfortunes against our God's good graces. Being the goodie two shoe Creator has it's misconceptions let me all tell you. I have to deal with contending with the primed to die satanic bushite who tinks I as a Christ wanna be stick figure or something similar, am going to hang lifeless on a cross somewhere and just take their abuse forever crying for a God who never wrote the book on Sacrifice. Shhh... [The commi bushites are as fukin stoopid, as they are truly evil as enemies of life and this Universe.. So evil are the bushite, that they give even the Devil a bad name.]

/ / Witnesses said the American troops were offering candy to the children and were preparing to leave when the bombers attacked. \ \

So, the soldiers were there for the festivities, handing out cheap candies, taking credit for the plant rummy likely bombed then left these "soldiers" to have credited to re-built back up by themselves. [Don't want to be over paying Iraqis with their own stolen money right?] If true, it would be something to write home about, but have you heard of all the work GIs have done in attempting to repair all the damage they've criminally instigated against our innocent families? No you haven't because, for then we would be demanding a return of all stolen assets, and the arrest or public execution of the bushite torturers and rapists. Also, who handled the military contract? Imagine this: Halliburton is paid billions in overhead to hire the American government to take back over. Sounds somewhat familiar where military fuel shipments are bought then escorted by the professional military fuel transport units, but no ones asks, why should Halliburton off shore tax exempt billionaires, all of a sudden, now, out a nowhere, be allowed middle ground to almost take all the cash expenses?, from America's America?, especially since America is still doing all the paying for all the work being done regardless like they use to before Halliburton magically appeared in between? [The only thing Halliburton execs want is to be left alone in a mansion far away from conflict with the American tax payer paper work to do that they confess publicly to not having the resources to accomplish fairly!!! [TIGER TEAM]] Do the soldiers transporting the fuel now even wear COMMI Halliburton caps instead of helmets? Likely.. because they're so fuking weak and stupid as fascist nazi bushite grunts who die as enemies to God and Creation by forsaking the America I know of as once respected as universally truly admired. The bushite trash the Bill of Rights by saying it's no longer needed when fighting against US People. Then they demand that no evidence be used in reaching their guilty verdicts by Your american firing squads. Again, get your gun soldier and instead, kill un-arrested traitor, George W. Bush Jr. for America as a true Patriot only would. Or, why don't You bag US a proud enemy bushite for the Gipper?!? For what pleasure could be greater, than doing our Humanity and God such a great favor? I mean come on, they as our enemies, war the defenseless and innocent fighting with rapists and torturers without shame or apology, while demanding by threat of murder to US innocent, we all must slave as loyal bushite soldiers do, like they have no mind to believe in freedom. Liberty or Death? More like hunt to kill mindless bushite nazi vermin and save the precious lives of countless innocent others that they murder by dropping

bombs from our sky. We know who the boastful and proud bushite is, who is granted full talk radio media access in corporate america to trumpet the sacrifice of American teens to please their deity, George W. Bush Jr. and his war mongering thieves, who profit off mass murders and over billing like they did at 9/11 in New York City. The bushite slave is the enemy of themselves to life, love, and God.

Back to the story: Like if "anti-Iraqis" planted a bomb, or we're driving cars, wouldn't they use it to kill enemy bushite nazi dumfuks before innocent children? It is the bushite nazi forces who target the same locations repeatedly to kill only good honest hard working innocent pro-Iraqis trying to save the lives of their loved ones... or who have demanded a free press and democratic elections. But look, the corporatist press takes the credit in condemning the murder of children, but they don't call for the head of buford, mattis, russell or vacant minded phil smith? Nor, speak for ourselves when American paid for anti-Semitic invading Israeli nazi soldiers from tanks, shoot innocent Christian children as all of our life's enemies? A happy, waving goodbye child was shot dead from behind in front of UN workers by bigoted racist truly evil demonic Israeli nazi forces, and Annan never spoke a reported word for our Humanity, or against the condoned crimes of Jew killer areil sharon as reminiscent of Hitler's reign of terror. Where is corporate news america regarding their humanity then in reporting the care for the lives of our innocent children? All left there for US to witness the betrayal to America's freedom, and on all we stand together, justice for all, especially for You left corporately forsaken, but not so easily dismissed. For what does it profit our corporate News for your benefit my dying brothers and sisters? Or for our Dads or Mothers "lost" pensions if you make no effort to speak up for your rights denied, your values stolen, or for our freedoms and liberty you know not of as the portrayed enslaved by fascist corporate news tyranny? A corporate news agenda that denies US a place for human rights to life and liberty, is not an agenda we can continue to freely live with. And, I, as John, can not rule this complicated media world of immense toil and troubles, God needs Your help for your own salvation. I can only do so much as a wonder mostly to myself. I wonder if "Americans" can actually ever read this far into life's desperate pleas I've now put out for years and years going barely anywhere?.. Paradise on Earth where we get a little

credit could happen if we just keep dreaming along for a better future, a future where we are respected by the establishment for our goodly works of self determination. A cure for our sufferings? No the corporate professionals are not interested, nor taking calls from any of US with grievances. It costs them too much in stolen revenues to allow freedom reign.

Back to this Zarqawi thing.

If Zarqawi had planned the targeting of a convoy, why would they decide instead to hit the desperately needed treatment plant surrounded by mostly children, with no bushite convoy in sight ever, but a location troops had been REPORTED at for at least days to have built ALL BY THEMSELVES as so alleged? AND done after with bull horns edged children from the surrounding community to come witness their good deeds by getting cheap free candy? Does that sound like the prime time to plan striking at the ungodly evil war criminal bushite when it's widely known they're in a planning stage to bring around as many children as they can, convinced with bribes, there giving something back? A photo op? Where are the photos then??? Remember, bushite rapists and torturers have yet to be hunted down by US true Patriot forces, and evil bushite phil smith freely confesses to targeting children in America's name. Also, firstly, it was reported not one soldier was known killed. Yet, they must be all over the area for later to be reported ten wounded. How did they miss being so far away from such a lethal blow designed to kill evil lying enemy bushite nazi grunts to attempt true Justice for our World I ask? The details still remain at large on why a bull horn was used to attract MAINLY children to the scene of such carnage, however, the last report of bushite forces using a bull horn, was when looting and chaos was being encouraged all so tommy franks could get killed BUSHITE DUMFUKS to rob the central bank with several large trucks that came and went unimpeded by infiltrated enemy military forces. Same bull horn perhaps?

snpd

I don't know about you, but I hate bushite rapists and torturers celebrated by corporate American Talk Radio news censors. As enemies of God and all that is great with this world, the bushite bombers should be called out for a man to man fight for their core beliefs, or be rightly killed as better dead than allowed to continue in our names. No True Patriot can be proud of all the

warring bushite america is doing in Iraq to free George
W. Bush Jr. and "sexy" rummy from arrest for 9/11, for
that would be in support of the enemies to God hiding
inside our glorious American freedom fighter uniform.
We must weed out the war criminalling rapists and
torturers through evidence if we want to truly get
started on this warring terrorism idea, then we have to
hunt down all the stolen money bush foolishly stole with
13303, and give it back to Iraqis once a legitimate
representing government of the People there is in
control as the situation. Firstly to begin on that path
for Iraq however, Allawi must be arrested or executed
for the first degree murders he has confessed to already
being completely responsible for.

How to Avoid Becoming an Anti-American
<<http://www.dissidentvoice.org/Sept04/Alam0925.htm>>

-

Notice the corporatist bushite nazi whore reporters,
make no mention in their "reporting" that innocent
women are being held hostage by those confessed
by themselves as enemies of Freedom and Humanity.
(Suadi Wahabbi buford blount kills innocent women men
and children without apology, and there ain't nobody
there in the bushite third infantry American enough
to gun him down as the traitor he is rightly.)

See bushite, kill bushite.

We, as Humanity, are tortured or raped by un-arrested
sadistic satanic bushite vermins, hiding in the easily
spottable, cowardly American bushite soldier grunts
uniform.

See bushite, kill bushite.

/ / "Please could you on my behalf, on behalf of my
brother somehow ask Mr Blair to pick up the bloody phone
and call President Bush and ask him to take off the

blockade on these [INNOCENT] women prisoners?" \ \

/ / The appeal, he said, urged the kidnappers to free Mr Bigley for the sake of his family and as "a clear message to the British people to see their government's weakness and crime in not freeing [INNOCENT] prisoners held by [bushite enemy] coalition forces to spare their sons". \ \

/ / Working people in Britain should themselves be steadfast-in rejecting all appeals by pro-business politicians and newspapers to accept the need for any sacrifice in order to preserve the [CRIMINAL] occupation of Iraq. \ \

-

Enemies of US all Humans being

Nazi enemy the bushite truly is, when they try to take America away from the crime scene of 9/11 to protect their evil false deity, demon bush Jr., as enemies of US all Humans being.

"When we say serious consequences, for the sake of peace there must be serious consequences."

It is he, the demon anti-Christ, Our Mr. bush Jr. as true evil personified, who broke with the WORLD'S 1441, when LYING Saddam wouldn't let the inspectors in, and that was his as "America's" justification for ignoring these serious consequences by sending thousands of American kids out stupidly to die for all the wrong reasons as the bad guys.

/ / Therefore, the U.S.-led invasion did not ``enforce the just demands of the world'' since the demands were already being enforced without the use of military force. \ \

snpd

Take this recent diliberate criminal position to leave women, men, and children incarated without charging them for any criminal offenses, while spewing that means their "pro-Iraqi" freedom fighters, even if they also decide on their own to maybe torture some for sadistic wanton lawlessness. Obviously, the UNJUSTLY imprisoned are hostages held by the enemy bushite terrorists. Right?

/ / According to the Justice Ministry, an Iraqi judge had ruled there was no evidence of criminality to justify her continued detention. \ \

/ / "What are the accusations?" ex-U.N. inspector Blix asked in an interview Friday, referring to one leading Iraqi prisoner, Amer al-Saadi. \ \

/ / Iraq's justice ministry insisted yesterday it still wanted to release the women, although it said this had nothing to do with the kidnapping of Mr Bigley.. \ \

/ / "Under international law, no one can be held indefinitely without charge." \ \

/ / ``We have not been negotiating and we will not negotiate with terrorists on the release of hostages. No release takes place unless I authorise it.'' \ \

Obviously, the UNJUSTLY imprisoned are hostages held by the enemy bushite terrorists. Right? Who would disagree? Only liars, cheats, and murderers who target US as the innocent to please their satanic deity George W. bush who will rob from their very own families left back home undefended. Then, as soon as they're dead or maimed, they're of no further use to their fellow "loyal" bushite savages, who leave them to go alone without support to die in the gutter like so many others have from Gulf War I. Dumfuk the bushite is as our lying, cheating, ungodly enemies, who lay their lives down in cowardly servitude for bush and his billioniare banker company as their sourced intelligence providers.

The dumbuk bushite as TRAITORS soullessly war our Humanity to STEAL our treasures of love and compassion, justice and freedom, money and job prospects, forcing our Humanity to aim our loaded guns towards killing George W. bush Jr., the parasitic "leader" of their debauchery as self inflicting debasement. We, as Humanity, kill un-arrested evil bushite to bring mercy to our dying species. The bushite is too cowardly to hunt down and kill the rapists and toturers of the innocent, or the war profiteering war mongers because it's one of their own they DIE for. Killing bushite, is like killing the ungodly protection of self confessed un-arrested rapists of women, men, and children, who openly have confessed to murdering thousands of innocent people for no military objective like Saudi wahabbi buford blount has stated bluntly, when regarding the commitment of first degree murder against thousands of pro-Iraqis:

<<http://www.wsws.org/articles/2003/apr2003/bagd-a07.shtml>>

/ / [Saudi wahhabi] Major General Buford C. Blount, the field commander of the Third Infantry Division, told journalists: ``We just wanted to let them know that

we're here.'' \ \

all done for to sacrifice more of themselves for nothing
but being tyranically enslaved as the weak and truly
evil disciples of the enemy anti-Christ, enemies of GOD
and all our Creation. Saudi Wahabbi commander of the
third infantry buford blount freely confesses to
murdering innocent people to enrage US pro-Iraqis to
hunt down and kill easily spottable bushite soldiers
freely in retaliation; bushites, who hide inside the
cowardly American uniform. Okay for the newly wealthed
Saudi buford and his chatty wife cause they gets that
share of two billion American to get killed GI teens,
who are too stupid as iliterate dumfuks to think about
the values they lie about holding true. While dying.
The bushite hide in my America? Never. US true Patriot
Warriors will kill all un-arrested enemy bushite nazi
brethren who think they're going to get away from
torturing and raping our families as the innocent just
because they can say they're lawlessly "pro-American",
while robbing all our families of common decency and our
life savings to serve dying for tyranical lawlessness as
enemies to Johnny and GOD. Ten cents is what I pay out
for every bushite tagged and bagged. Ten cents.

snpd

<<http://www.newsgateway.ca/Fallujah_video_massacre.htm>>

/ / the mission guidance is to shoot anyone who is in the street. \ \

-

/ / Bush, indeed, has an audacious personal quality that
has somehow served him well so far: full frontal
repudiation of facts known to all. \ \

/ / This assumes that the armed resistance in Iraq is not
because a Western power invaded and occupied their
country, failed to provide basic services and security,
sold off key sectors of their economy to foreigners, and
installed a puppet regime, but simply because they don't
want democracy. \ \

/ / Bush explained that, for him, intelligence is not to
inform decision-making, but to be used or rejected to
advance an ideological and political agenda. His
dismissal is an affirmation of the politicisation and
corruption of intelligence that rationalised the war. \ \

/ / "I don't want to die. I don't deserve it. And
neither do the women deserve to be in prison in Iraq.
Release the female prisoners that are held in Iraqi

prisons. Please help them. \ \

-

/ / "We know that dictators are quick to choose
aggression, while free nations strive to resolve
differences in peace, [...] And across the world, the
enemies of human rights are responding with violence. "
"Instead of harboring terrorists," he said of the
Iraqis, "they're fighting terrorist groups." \ \

Best reason I've heard for killing the demon bush at
the hands of US freedom fighters.

New Recruit

Destroying enemy bushite is a gift to Humanity, it is
saying you care for the lives of the innocent a bush
bitch nazi grunt freely confesses to targeting for
murder. Liars are the bushite, who steal Iraqi
resources, allow racists and rapists to commit their
demon crimes in America's name un-challenged, and who
absent mindedly bomb the innocent without just reason
given. All the while, labeling themselves, "pro-Iraqi".
The mindlessly evil attack against the Turks recently
with an ordered bombing campaign that actually murdered
people, sighted yet another, example of the bushite's

idiotic ungodly satanic barbarity against us the Humans as INNOCENT. After the carnage, the war criminalizing America into bushite commanders were advised, it would be better to pick other completely innocent families to indiscriminately murder while lying, for the demon bushite provisions come through that big ol' Turkey, and if the Middle Easterners eventually learned together of their fellow Turks who were murdered by ungodly enemy nazi forces for admittingly doing nothing worth noting, with the middle east's indirect help with essential supplies coming from somewhere in that surrounding billion man vicinity, you know, I know, we all know, "Americans" as NAZI war criminal enemy bushite, would massively die as the immediately recognizable to most everyone, and rightly too as leaderless cowardly, dumb, and real sadistic evil, dying at the hands of all US Family men. Being as bushite, the enemies to everyone, including themselves we've witnessed them already dying as nazi dumfuks who eat plutonium. Or, IED? They mean "sexy" rummy cluster dud land mine more like! (Just where is the Middle of East anyway?) History HAS learned these lessons already, while the corporatist bushite plays US just dumb enough through malicious censorship for plunder by parasitic bushite suicide, for a bushite has no soul worth defending. See?, the committed nazi automaton bushite enemy of America soldier has no mind to know freedom for the individual. Therefor my friend, kill the evil nazi George W. bush Jr. not just for me as Johnny, but for US all man who refuse to be subjected further as only counted by the corporate dictums to pronounce "pro-American": as those that go silently rooted backing "un-accountable" rapists and torturers of the innocent, the innocent, that the bushite OPENLY rob from with American's hard earned tax dollars funding. Funding through leadership directed towards their very own self destruction. See bushite, kill bushite, at least until we are granted living access to OUR corporate dead end news media to speak FREELY for ourselves without bushite lies tying US down for furthering that demon's hellish ungodly tyranny as an enemy to all our Humanity and Royal King Johnny.

Real Americans are those of US as humanity that believe in liberty as Justice for all. Demon bushite nazi whores, don't like those principles of freedom through evidentiary findings though, for their false deity, George W. bush Jr, wouldn't be stealing from the honest hard working blokes who live for a better day that way.

The Iraqi children did nothing to deserve such awful suffering and fright and death at the hands of the enemy

bushite. The bushite: who the demon anti-Christ states, are un-accountable to any rules of law in this Universe, like with his extremely foolish criminal decree, 13303. I kill mindless parasite bushite nazi enemy soldiers just for that alone as eternal defender, and I do it for to win some mercy for a real living God, who the fascist enemy bushite hold in their ungodly contempt as LIARS.

I have the backing of every real man alive on this planet, and we all know it. No voices of reason have apposed my factual claims in FREE Usenet, and Art Bell makes no attempt to defend himself as internationally painted enemy traitor, and that says a whole lot to Talk America. Why? Because Mr. Bell, the bushite propagandist, knows too, I speak and act truthfully, honorably, and righteously, while the talk radio american bushite lies, cheats and steals from America's America, that as bushite, leave undefended for criminal plunder in Your name call censored from classed enrollment. You have just as much a right to be here as I do, and the demon bush, he ain't no better than any of US when he is "excused" for the murder of well more than a hundred thousand confessed as completely innocent people on this planet called Earth.

The fascist control bushite, don't like You to think independently for Yourself, for we independents out here make them look as stupid as they are. Thank you very much for that not so secret info.

Through the pronounced bush demon's gaffes, embarrassments, and told complete total ignorance on subjects like the science of economics, the whys of constitutional law, or when the bushite takes credit for indiscriminate killing of our families and friends while parading it's all done in bush's name for our freedom, or for 9/11, doesn't fool me, and should get you thinking about reaching for your guns too, for bushite rapists and torturers will not walk this world freely un-accountable, for as long as we remain alive to hunt them down and kill them if so be. As the soulless disciples of the enemy anti-Christ, Our Mr. bush Jr., their "officially" granted legal immunity from all prosecution means nothing to me as a honorable man defending my humanity, or as living Creator, who brought all into this new world to be free, and can just as soon, take you all nazi bushite out the old school way.

REMEMBER: Demon bush is stupid, yaw, but he knows that he and rumsfeld with condi planned and carried out the

crimes of 9/11 with likely cheney orchestrating, don't ever forget that part when attempting assessment how good four more years in going to do for the state of freedom in Your dying world. Serious this situation truly is for everyone. Everyone.

Now, what are You going to do about this, DEMON George W. bush Jr. actually playing US like he would like to continue victimizing our dying world as ENEMY for four more years towards furthering lawless tyranny? Don't we already have it bad enough, that corporate journalists think there is actually some merit to George bush's re-election bid? Especially after that 9/11 thang? Then there is the needless criminal wars, fraught with embarrassing massive billion dollar criminal frauds as .oops, more government fuk ups? Then of course all the bushite thefts. I did a Internet Google search of "Tiger Team" and I found next to nothing in all the professional media corporate news outlets we have advertising on our information service providers top notched list as best sourced material. And that should say as much or more to you too, about who's really conning who. So, who cares about where this world is going? I do, and so should you too.

Johnny Wizard

snpd

How can those who want accountability be termed anti-Iraqi? only through cowardly liars, is an American told America's not going to hunt down those who stole in their names for dying.

/ / "Few have though, as the town is still without electricity or water and full of unexploded bombs, our sources there tell us." \ \

snpd

Look, as this world's top cop, rare can a person understand my writing as such, but this, I'll make plain:

I'm here to arrest or kill bush and rumsfeld for 9/11.

If you can't as a man or woman of America help get those with the law who have stolen America's good name in other districts, so be it, to hell with you all. We, the America I dream about all alone, want bush and rumsfeld for 9/11, and we ain't going nowhere until our freedom to say as much is granted on higher ground.

However.

Billions upon billions of dollars have been stolen from soon to have once been, millions of American pensioners. Now, corporate news TV tells US, that money is lost to political indifference of the status quo getting to the bottom of rising back up with the stolen cash at hand, as if like, pulling a bunny rabbit out of your hat they might say.. Stolen Enron money for example: It's sitting in the Cayman Islands. Not hidden. In the Cayman Islands. The hypnotizing, sometimes devilishly clever billionaire bushite bankers will say, if you dare quest for further inquiry, "America will learn better for next time", then they pause, and look right back at you blindly.... waiting... and by golly, as if by magic, You just need to tell them: "there is always a first time for miracles". Solved. Our problems seem mostly related to the struggle, that solving many most critical of our issues, requires so little in effort by understanding, that many in the corporate world think the nature of truth just can't be so. Well... Simple. Demon bush doesn't want, [or seem at all interested] to having arrested General Ahmad, who according to the FBI, was the principle terrorist funder to the mastermind ring leader Mohammed Atta of the notorious 9/11 blame game fame. That should be all you need to know. The failure to con US into thinking otherwise is a ruse. The bushite corporatists mislead America away from the

freedom principles of following a criminal case to
attempt bringing about a resolution. Getting
those who done did do America wrong on 9/11 is where
true Patriots stand, and forever will. General Ahmad
and his bushmob cohorts need to be nabbed for public
trial when we're talking about truly fighting back those
that struck at the heart of America when they thought we
weren't looking in all directions. The bushite soldiers
are being led instead furthering as war criminals, for
we're told, they have no interest as the well being of
family and friends who love them back home getting the
wrong impressions. Don't let the bushite stand to get
away stealing for Uncle Sam. Because, Uncle Sam
wouldn't do that to our boys. Even to men who never
lost the dreams of a boy trying to be a good man, a
honorable and brave man, and a man that could be loved,
is no stranger to another believing in that same vision.

SNPD

What Secret Mystery?

/ / Undated-AP - President Bush says a Senate report critical of his administration's reasoning for going to war in Iraq is "useful." \ \

Let's get something understood about the evil enemies of God, the hated degenerate soulless disciples of the demon anti-Christ, Our Mr. George bush Jr.. Both stated goals: ridding Iraq of weapons of mass destruction, and Liberating the people of tyranny, were sabotaged by indiscriminately assaulting the country, that had prior, under Saddam's leadership, granted full unrestricted access to do whatever bush pleased. [Did bush complain about prisoners not granted due process?, or demanding evidence as being an evident pre-requisite for real Justice to work for our Liberation?, or perhaps demanding right NOW where all the charitable oil-for-food funds went missing in his name?] There was nowhere in Iraq closed to immediate inspection, to illustrate as Kamel had proven with all relevant documents, [that he brought with him in several boxes],

http://globalresearch.ca/articles/RAN302B.html

that yes, in deed, the WMDs, some like anthrax, was burned beyond recognition back in 1992. But!!!, even if there were WMD uncertainly hidden secretly from everyone in Iraq, [along with Kamel claimed as highly reliable by almost everyone in bush's secret inner circle,] BUSH STILL, lowered his and his ilk's ability over the threat as so alleged, then excitedly sacrificed no less than three times 800, easy. making both claimed tasks far more difficult by paying his buddies for "whatever" over at commi, we're too dumb to know where American values went regarding Your freedom sucker, while leaving more

Americans to die sacrificed to benefit the bushite billionaire over billing backers. Left unaccountable by corporate american news standards of public accountability. It's only your direct family taken for by CNN and CBC's un-challenged selling of the bushite war crime spree my American friends. I've called literally hundreds at CNN in Atlanta, and as so, at CBC in Toronto regarding General Ahmad funding Atta, and bush's 9/11 plan dated 9/9, but they say, sadistically, it's not the story they've been presently still selling You about murdering now more than two hundred thousand innocent people as arguably, an acceptable alternative to not allow the support of Freedom and Justice in your real World dying.

Tommy Franks sabotaged the ORHA plan of gaining control over the nuclear facilities, [and preventing anarchy,] just so he and bush, [along with the clear collusion of the World Bank and IMF,] could "get away" robbing the Public central bank in Iraq of billions. Couldn't have been done as planned, without letting in those they begged by gun point to loot the Iraq Museum, so to collude with the bushmob's secret intent with furthering war crimes in America's name left forsaken. Bushdum Amerka.

http://globalresearch.ca/articles/ROT304A.html

/ / Do you mean to say that it was the US troops that initiated the looting? \ \

Homer I have a couple clues for you. Those "DoD monies" came from us taxpayers. The Constitution sez that anything the military does with OUR money in this country is ultimately done under the command and control of us taxpayers via our representatives in Congress, the Oval Office and in the courts. In other words it's US who "own" the GPS system, NOT the USAF. GPS has proven to have a huge range of public benefits which is why the USAF is being relieved of command of the system and is why it's being moved into the public domain. Globally.

The Shrub doesn't undestand a lotta things. GPS is one, Arabs is another . .

Here's another piece of it: It has taken *bloody forever* for the FAA to finally even alow GPS to be used for navigation in the skies. I was using it before before my hangermate who had a nice old Cessna 140 was allowed to have a GPS xvcr anywhere in the 140 during flight ops never mind in his panel. I was legal because my ultralight was not a certificated A/C, his 140 is certificated. Somebody had to be on the leading edge. Heh. Thus it was in the early 1990s.

It's all changed now. Commercial GPS airliner navigation has enormous implications as they relate to a reduction in fuel consumption and flight durations. Has to do with the airliners FINALLY being able to get off the twisted 1930s Victor airways system and it's archaic and expensive-to-maintain FAA ground-mounted electronic waypoints, omnis, VORs, etc. and instead fly point-to-point via GPS. I'm rattling on too much here.

It's happening, precision GPS is coming to the airline biz, bye-bye omnis, FAA jobs, whatever. It's all about money.

Let's say that at some given moment a few years out after GPS has become the nav aid of choice and that there are 20 airliners jammed with citizens on final in cruddy WX and some intellectual giant like Rumsfeld shuts off the pieces of GPS the pilots are using to find the

runway . .

My daughter and her husband farm about 2,200 acres of corn and beans in western Minnesota. Their combines, fertilizer spreaders, planters, etc., are all GPS equipped. As the crop is harvested the combine keeps a yield-vs-GPS-location as it passes across the field. Next spring that data is networked to the fertilizer and planting rigs who compare it to last years settings and their rates are adjusted on-the-fly to optimize the yield down to a 2-meter resolution. Interesting that some idiots here had the loopy idea to turn that system off once in awhile just for grins --- military weapons system and all that, doncha know!

Doug,

I think what is happening is that the end of feeder impedance is very LOW on 40 M. The center impedance of a full wave dipole is very high, but transformed over the 1/4 wavelength line you are using as a feeder, it will present a very low impedance to your tuner. Your losses are due to the high currents present at a low feed point impedance. Add another 1/8 wave or about 17 feet of feeder and try it again. The tuning will change on all the other bands but generally, you can find a feeder length that will work on all bands.

The other question is what type of tuner are you using and what is its matching range? QST had an article on tuner efficiency and matching ranges recently and if yours is one of the ones tested, you will find this article very interesting. I always recommend the Johnson "Matchbox" as the best commercially available tuner for open wire line.

73,
Chuck...K1KW

Technology News Printable View
Farmers Making Use of Global Positioning
December 22, 2004 9:42 AM EST
LONDON, Ohio - The tractor weaves to ride the field's dips and rises while perfectly hugging the row previously cut by its black-clawed tiller, creating a seamless pattern of turned soil. But the person in the cab has nothing to do with this precision. Aided by a computer and a Global Positioning System - a constellation of Earth-orbiting satellites - the vehicle is driving itself.

All the farmer has to do is turn the tractor around when it reaches the end of the field.

The use of technology has increased in the past few years as farmers try to cut costs to compensate for relatively stagnant crop prices. Infrared sensors control how much fertilizer is applied. Retinal imaging tracks cattle. On the horizon, perhaps, are tomato-picking robots.

Experts estimate that up to 15 percent of farmers now have GPS precision-controlled tractors or combines, which first began hitting the fields in the late 1990s.

"It's the difference between making money and not making money," said Dave Mowitz, machinery and technology editor for Successful Farming, a national farm publication based in Des Moines, Iowa.

AutoFarm, a company based in Menlo Park, Calif., adapted a $40,000 GPS system for agriculture from an automatic aircraft-landing system. About 300 have been sold since the equipment went on the market last spring.

A GPS receiver placed on top of the tractor pulls in locational radio signals from satellites and a ground station fed by satellites. A computer inside the tractor memorizes the coordinates of the field and guides the tractor over the same path - for tilling, planting, spraying and harvesting.

"Everybody's been looking at that and saying, 'Gosh, can they do it?'" said Thomas Wagner, who was helping demonstrate the GPS precision-curve system last September at the Farm Science Review near this central Ohio city. "Bring your tape measure and we'll show you we can actually do the curves."

Farmer Ernie Hatfield was impressed with the demonstration, but wasn't sure the price tag was justified for his 50 acres near Bethel in southwest Ohio. "We need it," he said, "but it's probably cost prohibitive."

Expense is one reason technology can be a hard sell to farmers. Some believe that precision-guidance systems make economic sense only for large farms.

"They are slow to adapt," said Joe Malone, who raises hogs near Lancaster and once worked in robotics for Goodyear Corp. "Once you get a farmer that looks at what it can do for him from a standpoint of money - that's all he's looking at. Then he'll buy into that project right now."

For some, like John Ikerd, the farm technology boom doesn't look like a good omen for the future of small-time farming.

Ikerd, professor emeritus of agricultural economics at the University of Missouri, is convinced the new technologies will result in more corporate agriculture and fewer family farms. He thinks decisions about what and how much to plant will be made by faraway corporate officers whose primary focus is maximizing return to shareholders and not necessarily what is good for the land.

Savings come in any number of ways. One is driving over the same route each year to minimize the compaction of soil that can reduce yields. Another is cutting the loss of herbicide to evaporation by allowing farmers to work at night, when winds often are calmer.

"It allows them to farm 24 hours a day if they want to," Mowitz said. "It can be pitch black, and you can be planting your fields."

Still another savings comes from reducing the use of fertilizers and pesticides - as much as 5 percent, estimates Dennis Hancock, an agriculture researcher at the University of Kentucky.

Remote sensing also can reduce the use of fertilizer. Photo-diode sensors mounted on a sprayer absorb the color spectrum being reflected by the plants, and a computer determines how much fertilizer or

herbicide to spray. The sensors came on to the scene in the 1980s but have really taken off in the past five years.

"You're putting more on plants that can use more and not putting as much on plants that can't use as much," Hancock said.

A computer/GPS system also produces maps showing where a field is the most and least productive. A farmers can use more seed and fertilizer in less productive areas or take those areas out of production.

As a combine moves through the field threshing corn and spitting it into a bin, a sensor in the bin measures the output while the GPS system marks and records the crop yield in each spot.

The cattle-identification system uses a high-speed digital camera to illuminate and scan the retinas of calves or lambs. The images are loaded into a computer, and a GPS signal tracks the animals from the pasture to the slaughterhouse. The equipment, in use about a year, costs about $2,700.

The system could help quickly identify an animal with mad cow or other diseases, said John Cravens, marketing director for developer Optibrand Ltd. of Fort Collins, Colo. It also provides a profile of each animal, including weight, diet and medical treatment.

More technologies are on the way. Not yet in the fields is the tomato-picking robot. Developed by Ohio State University researchers with a $100,000 grant from NASA, the single-armed robot has a prosthetic hand and a lipstick-sized camera and is mounted on a portable platform.

Researcher Peter Ling said the camera spots tomatoes and determines their size and color even if they are partially hidden behind leaves or stems. Using a suction cup and fingers that employ a loose grip, the hand plucks the tomatoes from the vine and drops them into a bin.

Then they can expect to have severe losses if the Commander in Chief decides to pull the plug on their freeloading of the military navigation system. Everyone seems to think they "deserve" these freebies anymore, and get all out of breath complaining about their "rights". They have no "rights" to use of this system. It's only a privilege that the Government grants, and they can take it back anytime they want.

Doug,
>What to do with the excess
> length?
Suspending it in the air would work.

> Wind it spirally around the tree that acts as a center support?
It would be worth a try.

Here is some info that you might find useful .
(Taken from webpage http://www.bloomington.in.us/~wh2t/zepp.html)

With this type antenna the feed line should be routed away from the antenna
at a right angle for as great a distance as possible. This will prevent
current imbalance in the feed line caused by RF pickup from the antenna. A
right-angle departure of 1/4 wavelength or greater is suggested.

To avoid problems matching any center fed antenna with high impedance open
wire lines, keep the feedline around these lengths.

[The WORST POSSIBLE line lengths are shown in brackets]

40 meter antenna 42-52, 73-83, 112-123 or 145-155 feet
[Avoid 32, 64, 96, 128 ft]

Some slight trimming or adding of feedline may be necessary to accommodate
the higher frequency bands.

Good Luck, Ace - WH2T

Pulling the plug on GPS will happen about the same time the CIC takes
back the Interstate highway system which was also justified by and
designed for use by the military.

This is actually very misleading and in fact UNTRUE!

After careful review of the referenced web site, the suggestions for
feedline lengths to avoid are for a double extended zepp, NOT a centerfed
full wave dipole for 40M, where this original question originated.

My original suggestion stands and I suggest the originator of this thread
try it and report back!

Other than charging for a service which the FCC provides directly for free,
they're legit.

Save your money, and renew directly with FCC.

Yes W5YI is legit, the SS# is now required on your information. You can use their service or go online to the FCC do a FRN application - giving them all this information, they give you a number you keep for life to deal with them, THEN go on line with the FCC in much the same area from their homepage (ULS area) to fill out an electronic license renewal using that FRN number and it won't cost you a dime.. You'll get your license in a couple weeks. If everyone were as suspicious as you, maybe these ass holes who get their information from people who just hand it out, would be hard pressed to succeed.

Here's the link to their home page. Go there, do an FRN application (left
side of home page) - then do the "E-Filing" - found at top of home page.
About 10 minutes total.

http://www.fcc.gov/

Forgot to mention - MAKE SURE - you write down the FRN number to keep in
your files once it is issued - which will be immediately during your filing
process. They tell you to write it down, but it is easily overlooked. You'll
need the FRN to file for a new license and they pretty much require it for
any other business you may be doing with them from herein. Just like the
Social Security Office requires your SS# to do business with you, the FCC
uses the FRN.

Yes Ken
They are liget
The ARRL will do it for free if you are a member.
Do it yourself online
Goto this page
http://wireless2.fcc.gov/UlsApp/UlsSearch/license.jsp?licKey=828914
Goto the bottom and in the box "ULS Online Systems" click on
"ULS Online Filing"
From there you can see
"Need an FRN? Register with the FCC"
You can renew as early as 90 days before it expires.

A new look at the cult of "fat acceptance"

Fat Acceptance: A movement started over 30 years
ago by a thin man who had a "thing" for fat women.
Orginally a movement to help the self hatred that
naturally accompanies obesity, fat acceptance has
mutated into a cult of sexual deviancy and
obesity promotion. Fat acceptance, in it's truest
form, is giving in to gluttony, sloth and self
hatred, eschewing pride and the feeling of self worth.

1) Anyone who'd send W5YI a check or cash in an envelope
just to renew their ham license is **plain damm lazy*** !

Go to the ARRL or FCC website or learn about form 605
over here: http://www.arrl.org/fcc/forms.html
or here: http://www.fcc.gov/Forms/Form605/605.html

Get a 605 copy here: http://www.fcc.gov/Forms/Form605/605.pdf

2) Anyone who'd send their SSN to a party other than the FCC
is just asking to get screwed. You need to supply it to the
FCC for the new ULS (Universal Licence System) processing.

Do your homework, fill out the form (..it's FAR easier to fill out a 605
than it is a Form 1040 - grin!) Send it in to the FCC and tell W5YI to
take his *renewal cash-cow gimick* thingie he's got going an
shove it someplace.

You can also renew ONLINE here: http://wireless.fcc.gov/uls/

2004: "Jake, the handle here is Bill, and we're running a homebrew
xmitter. We have E-layer props today."

Perhaps you confuse the CBer (or CBer-Masquerading-As-A-Radio-Ham)
who buys his rigs from a shop and even sends them back there for
repair with the _REAL_ Radio Ham?

3116. Re: Pse help to get US counties list!

Newsgroup: rec.radio.amateur.misc
Date: 2004-12-25 18:32:59 UTC
From: "brandon@bnwebservices.com" <brandon@bnwebservices.com>
Message-ID: <1103999579.908842.169350@z14g2000cwz.googlegroups.com>
Source record: 54578

I know this is an old post but for those of you who need this same info, I found a great website for inexpensive developer and marketing lists for zip codes. Plus they give free updates.

http://www.listfactor.com

They have lists for united states zip codes, cities, and counties. I needed the counties and found that there are ove 3000 in the united states! Didn't know that.

Brandon

3117. Re: Looking for list of all US counties

Newsgroup: rec.radio.amateur.misc

to
cut up a whole roast than to buy stew meat).

1 stillbirth, de-boned and cubed
½ cup vegetable oil
2 large onions
bell pepper
celery
garlic
½ cup red wine
3 Irish potatoes
2 large carrots

This is a simple classic stew that makes natural gravy,
thus it does not have to be thickened.
Brown the meat quickly in very hot oil, remove and set aside.
Brown the onions, celery, pepper and garlic.
De-glaze with wine, return meat to the pan and season well.
Stew on low fire adding small amounts of water and
seasoning as necessary.
After at least half an hour, add the carrots and potatoes,
and simmer till root vegetables break with a fork.
Cook a fresh pot of long grained white rice.

Pre-mie Pot Pie

When working with prematurely delivered newborns (or chicken) use sherry;
red wine with beef (buy steak or roast, do not pre-boil).

Pie crust (see index)
Whole fresh pre-mie; eviscerated, head, hands and feet removed
Onions, bell pepper, celery
½ cup wine
Root vegetables of choice (turnips, carrots, potatoes, etc) cubed

Make a crust from scratch - or go shamefully to the frozen food section
of your favorite grocery and select 2 high quality pie crusts (you
will need one for the top also).
Boil the prepared delicacy until the meat starts to come off the bones.
Remove, de-bone and cube; continue to reduce the broth.
Brown the onions, peppers and celery.
Add the meat then season, continue browning.
De-glaze with sherry, add the reduced broth.
Finally, put in the root vegetables and simmer for 15 minutes.
Allow to cool slightly.

Place the pie pan in 375 de

turkey stock is fine)
garlic
parsley
fresh cracked black pepper

Season and saut&#65533; the cutlets in olive oil till golden brown, remove.
Add the garlic and onions and cook down a bit.
Add some lemon juice and some zest, then de-glaze with stock.
Add a little cornstarch (dissolved in cold water) to the sauce.
You are just about there, Pour the sauce over the cutlets,
top with parsley, lemon slices and cracked pepper.
Serve with spinach salad, macaroni and cheese (homemade) and iced tea...

Spaghetti with Real Italian Meatballs

If you don?t have an expendable bambino on hand,
you can use a pound of ground pork instead.
The secret to great meatballs, is to use very lean meat.

1 lb. ground flesh; human or pork
3 lb. ground beef
1 cup finely chopped onions
7 - 12 cloves garlic
1 cup seasoned bread crumbs
&#65533; cup milk, 2 eggs
Oregano
basil
salt
pepper
Italian seasoning, etc.
Tomato gravy (see index)
Fresh or at least freshly cooked spaghetti or other pasta

Mix the ground meats together in a large bowl,
then mix each of the other ingredients.
Make balls about the size of a baby?s fist
(there should be one lying around for reference).
Bake at 400&#65533;for about 25 minutes -
or you could fry them in olive oil.
Place t

of protein.

2 human baby rib racks
3 cups barbecue sauce or honey glaze (see index)
Salt
black pepper
white pepper
paprika

Remove the silverskin by loosening from the edges,
then stripping off.
Season generously, rubbing the mixture into the baby?s flesh.
Place 1 quart water in a baking pan, the meat on a wire rack.
Bake uncovered in 250° oven for 1° hours.
When browned, remove and glaze,
return to oven and bake 20 minutes more to form a glaze.
Cut ribs into individual pieces and serve with extra sauce.

Fresh Sausage

If it becomes necessary to hide the fact that you are eating
human babies, this is the perfect solution.
But if you are still paranoid, you can substitute pork butt.

5 lb. lean chuck roast
3 lb. prime baby butt
2 tablespoons each:
salt
black, white and cayenne peppers
celery salt
garlic powder
parsley flakes
brown sugar
1 teaspoon sage
2 onions
6 cloves garlic
bunch green onions, chopped

Cut the children?s butts and the beef roast into pieces
that wi

-2 lbs. coarsely chopped vegetables
(carrots, potatoes, turnips, cauliflower, cabbage...)
Bell pepper
onions
garlic
ginger
salt pepper, etc.
Olive oil
butter

Brown the meat and some chopped onions, peppers, and garilic in olive oil,
place in baking dish, layer with vegetables seasoning and butter.
Bake at 325&#65533; for 30 - 45 minutes.
Serve with hot dinner rolls, fruit salad and sparkling water.

B&#65533;b&#65533; Buffet 1

Show off with whole roasted children replete with apples in mouths -
and babies? heads stuffed with wild rice. Or keep it simple with a
hearty main course such as stew, lasagna, or meat loaf.

Some suggestions

Pre-mie pot pies, beef stew, leg of lamb, stuffed chicken, roast pork spiral ham,
Cranberry pineapple salad, sweet potatoes in butter, vegetable platter, tossed salad with
tomato and avocado, parsley new potatoes, spinich cucumber salad, fruit salad
Bran muffins, dinner rolls, soft breadsticks, rice pilaf, croissants
Apple cake with rum sauce, frosted banana nut bread sherbet, home made brownies
Iced tea, water, beer, bloody marys, lemonade, coffee

The guests select food, beverages, silverware... everything from the buffet table.
They move to wherever they are comfortable, and sit with whoever they choose.
Provide trays so your guests will not spill everything all over your house from
carrying too much, nor will they have to make 10 trips back and fourth from the
service stations.

Roast Leg of Amputee

By all means, substitute lamb

Beef and Vegetable Soup.
Its free, you can sell the crib, baby clothes, toys, stroller... and so easy to
procure if such a lucky find is at hand (just pick him up from the crib and
he?s good to go)!

SIDS victim, cleaned
&#65533; cup cooking oil
Carrots
onions
broccoli
whole cabbage
fresh green beans
potato
turnip
celery
tomato
&#65533; stick butter
1 cup cooked pasta (macaroni, shells, etc.)

Remove as much meat as possible, cube, and brown in hot oil.
Add a little water, season, then add the carcass.
Simmer for half an hour keeping the stock thick.
Remove the carcass and add the vegetables slowly to the stock,
so that it remains boiling the whole time.
Cover the pot and simmer till vegetables are tender
(2 hours approximately).
Continue seasoning to taste.
Before serving, add butter and pasta,
serve piping with hot bread and butter.

Offspring Rolls

Similar to Vietnamese style fried rolls, they have lots of meat
(of course this can consist of chicken, beef, pork, or shrimp).
Who can resist this classic appetizer; or light lunch served with
a fresh salad? Versatility is probably this recipe?s greatest virtue,
as one can use the best part of a prime, rare, yearling, or the
morticians occasional horror: a small miracle stopped short by a
drunk driver, or the innocent victim of a drive-by shooting...

2 cups finely chopped very young human flesh
1 cup shredded cabbage
1 cup bean sprouts
5 sprigs g

stuffing (see index)
&#65533; cup melted butter

Remove the giblets from the infant and set aside.
Stuff the cavity where the child?s genitals and anus were located
using &#65533; cup per pound of meat.
Tie the arms flat to the body, then pull the skin flaps up to close the cavity.
Now tie the thighs up tight to hold it all together.
Place breast side up in a large metal roasting pan.
Bake in 325&#65533; oven covered for 2 hours.
Remove cover, stick a cooking thermometer deep into one of the
baby?s buttocks and cook uncovered till thermometer reads 190&#65533;,
about another hour.

Pro-Choice Po-Boy

Soft-shelled crabs serve just as well in this classic southern delicacy.
The sandwich originated in New Orleans, where an abundance of abortion clinics
thrive and hot French bread is always available.

2 cleaned fetuses, head on
2 eggs
1 tablespoon yellow mustard
1 cup seasoned flour
oil enough for deep frying
1 loaf French bread
Lettuce
tomatoes
mayonnaise, etc.

Marinate the fetuses in the egg-mustard mixture.
Dredge thoroughly in flour.
Fry at 375&#65533; until crispy golden brown.
Remove and place on paper towels.

Holiday Youngster

One can easily adapt this recipe to ham, though as presented,
it violates no religious taboos against swine.

1 large toddler or small child, cleaned and de-headed
Kentucky Bourbon Sauce (see index)
1 large can pineapple slices
Whole cloves

Place him (or ham) or her in a large glass baking dish, buttocks up.
Tie with butcher string around and across so that he looks like
he?s crawling.
Glaze, then arrange pineapples and secure with cloves.
Bake uncovered in 350° oven till thermometer reaches 160°.

Cajun Babies

Just like crabs or crawfish, babies are boiled

with whole roasted children replete with apples in mouths -
and babies? heads stuffed with wild rice. Or keep it simple with a
hearty main course such as stew, lasagna, or meat loaf.

Some suggestions

Pre-mie pot pies, beef stew, leg of lamb, stuffed chicken, roast pork spiral ham,
Cranberry pineapple salad, sweet potatoes in butter, vegetable platter, tossed salad with
tomato and avocado, parsley new potatoes, spinich cucumber salad, fruit salad
Bran muffins, dinner rolls, soft breadsticks, rice pilaf, croissants
Apple cake with rum sauce, frosted banana nut bread sherbet, home made brownies
Iced tea, water, beer, bloody marys, lemonade, coffee

The guests select food, beverages, silverware... everything from the buffet table.
They move to wherever they are comfortable, and sit with whoever they choose.
Provide trays so your guests will not spill everything all over your house from
carrying too much, nor will they have to make 10 trips back and fourth from the
service stations.

Roast Leg of Amputee

By all means, substitute lamb or a good beef roast if the haunch
it is in any way diseased. But sometimes surgeons make mistakes,
and if a healthy young limb is at hand, the

Stillborn Stew

By definition, this meat cannot be had altogether fresh,
but have the lifeless unfortunate available immediately after delivery,
or use high quality beef or pork roasts (it is cheaper and better to
cut up a whole roast than to buy stew meat).

1 stillbirth, de-boned and cubed
½ cup vegetable oil
2 large onions
bell pepper
celery
garlic
½ cup red wine
3 Irish potatoes
2 large carrots

This is a simple classic stew that makes natural gravy,
thus it does not have to be thickened.
Brown the meat quickly in very hot oil, remove and set aside.
Brown the onions, celery, pepper and garlic.
De-glaze with wine, return meat to the pan and season well.
Stew on low fire adding small amounts of water and
seasoning as necessary.
After at least half an hour, add the carrots and potatoes,
and simmer till root vegetables break with a fork.
Cook a fresh pot of long grained white rice.

Pre-mie Pot Pie

When working with prematurely delivered newborns (or chicken) use sherry;
red wine with beef (buy steak or roast, do not pre-boil).

Pie crust (see index)
Whole fresh pre-mie; eviscerated, head, hands and feet removed
Onions, bell pepper, celery
½ cup wine
Root vegetables of choice (turnips, carrots, potatoes, etc) cubed

Make a crust from scratch - or go shamefully to the frozen food section
of your favorite grocery and select 2 high quality pie crusts (you
will need one for the top also).
Boil the prepared delicacy until the meat starts to co

cutlets
Tomato gravy (see index)
4 cups mozzarella, 1cup parmesan, 1cup romano
Seasoned bread crumbs mixed with
parmesan
romano
salt
pepper
oregano
garlic powder
chopped parsley
Flour
eggwash (eggs and milk)
Peanut oil for frying.

Pound the cutlets.
Dredge in flour, eggs, then the bread crumb mixture.
Fry till golden brown in 350° peanut oil.
In a baking pan, place a layer of gravy,
then one of meat, gravy, and cheese.
Another layer each of meat, gravy, and cheese.
Then bake at 350° for 45 minutes.
Serve on hot pasta with romano cheese.

Southern Fried Small-fry

Tastes like fried chicken, which works just as well.
In fact you may want to practice cutting up whole chickens
for frying before you go for the real thing.
Whole chicken is much more efficient and inexpensive than buying pieces.

1 tiny human, cut into pieces
2 cups flour
Onion, garlic
Salt
pepper
garlic powder
cayenne pepper
hot sauce, etc.
Oil for frying

Mix milk, eggs, hot sauce in a bowl, add chopped onion and garlic.
Season the meat liberally, and marinate for several hours.
Place seasoned flour in a paper or plastic shopping bag,

drop pieces in a few a time, shake to coat thoroughly,
then deep fry in hot oil (350&#65533;) for about 15 minutes.
Drain and place on paper towels.

allow to sit for a few minutes.
Saut&#65533; in butter and olive oil until golden brown,
about 6 minutes on each side.

Shish Kababes

As old as the hills, this technique has employed seafood, beef, pork, lamb,
poultry, and vegetables; just about anything can be grilled, and young humans
are no exception!

High quality marinade (Teriyaki and garlic perhaps)
1 inch cubes of tender meat, preferably from the nursery
Onions
bell peppers
Wooden or metal skewers

Marinate the meat overnight.
Get the grill good and hot while placing meat, vegetables, and
fruit such as pineapples or cherries on the skewers.
Don?t be afraid to use a variety of meats.
Grill to medium rare,
serve with garlic cous-cous and saut&#65533;ed asparagus.
Coffee and sherbet for desert then walnuts, cheese, and port.
Cigars for the gentlemen (and ladies if they so desire)!

Crock-Pot Crack Baby

When the quivering, hopelessly addicted crack baby succumbs to death,
get him immediately butchered and into the crock-pot, so that any
remaining toxins will not be fatal. But don?t cook it too long,
because like Blowfish, there is a perfect medium between the poisonous
and the stimulating. Though it may not have the same effect on your
guests, a whole chicken cooked in this fashion is also mighty tasty.

1 newborn - cocaine addicted, freshly expired, cleaned and butchered
Carrots
onions
leeks
celery
bell pepper
potatoes
Salt
pepper
garlic, etc

4 cups water

Cut the meat into natural pieces and brown very well in olive oil,
remove, then brown half of the onions, the bell pepper, and celery.
When brown, mix ev

After at least half an hour, add the carrots and potatoes,
and simmer till root vegetables break with a fork.
Cook a fresh pot of long grained white rice.

Pre-mie Pot Pie

When working with prematurely delivered newborns (or chicken) use sherry;
red wine with beef (buy steak or roast, do not pre-boil).

Pie crust (see index)
Whole fresh pre-mie; eviscerated, head, hands and feet removed
Onions, bell pepper, celery
&#65533; cup wine
Root vegetables of choice (turnips, carrots, potatoes, etc) cubed

Make a crust from scratch - or go shamefully to the frozen food section
of your favorite grocery and select 2 high quality pie crusts (you
will need one for the top also).
Boil the prepared delicacy until the meat starts to come off the bones.
Remove, de-bone and cube; continue to reduce the broth.
Brown the onions, peppers and celery.
Add the meat then season, continue browning.
De-glaze with sherry, add the reduced broth.
Finally, put in the root vegetables and simmer for 15 minutes.
Allow to cool slightly.
Place the pie pan in 375 degree oven for a few minutes so bottom crust is not soggy,
reduce oven to 325.
Fill the pie with stew, place top crust and with a fork, seal the crusts together
then poke holes in top.
Return to oven and bake for 30 minutes, or until pie crust is golden brown.

Sudden Infant Death Soup

SIDS: delicious in winter, comparable to old fashioned Beef and Vegetable Soup.
Its free, you can sell the crib, baby clothes, toys, stroller... and so easy to

of abortion clinics
thrive and hot French bread is always available.

2 cleaned fetuses, head on
2 eggs
1 tablespoon yellow mustard
1 cup seasoned flour
oil enough for deep frying
1 loaf French bread
Lettuce
tomatoes
mayonnaise, etc.

Marinate the fetuses in the egg-mustard mixture.
Dredge thoroughly in flour.
Fry at 375° until crispy golden brown.
Remove and place on paper towels.

Holiday Youngster

One can easily adapt this recipe to ham, though as presented,
it violates no religious taboos against swine.

1 large toddler or small child, cleaned and de-headed
Kentucky Bourbon Sauce (see index)
1 large can pineapple slices
Whole cloves

Place him (or ham) or her in a large glass baking dish, buttocks up.
Tie with butcher string around and across so that he looks like
he?s crawling.
Glaze, then arrange pineapples and secure with cloves.
Bake uncovered in 350° oven till thermometer reaches 160°.

Cajun Babies

Just like crabs or crawfish, babies are boiled alive!
You don?t need silverware, the hot spicy meat comes off in your hands.

6 live babies
1 lb. smoked sausage
4 lemons
whole garlic
2 lb. new potatoes
4 ears corn
1 box salt

crab boil

Bring 3 gallons of water to a boil.
Add sausage, salt, crab boil, lemons and garlic.
Drop potatoes in, boil for 4 minutes.
Corn is add

fine)
garlic
parsley
fresh cracked black pepper

Season and saut&#65533; the cutlets in olive oil till golden brown, remove.
Add the garlic and onions and cook down a bit.
Add some lemon juice and some zest, then de-glaze with stock.
Add a little cornstarch (dissolved in cold water) to the sauce.
You are just about there, Pour the sauce over the cutlets,
top with parsley, lemon slices and cracked pepper.
Serve with spinach salad, macaroni and cheese (homemade) and iced tea...

Spaghetti with Real Italian Meatballs

If you don?t have an expendable bambino on hand,
you can use a pound of ground pork instead.
The secret to great meatballs, is to use very lean meat.

1 lb. ground flesh; human or pork
3 lb. ground beef
1 cup finely chopped onions
7 - 12 cloves garlic
1 cup seasoned bread crumbs
&#65533; cup milk, 2 eggs
Oregano
basil
salt
pepper
Italian seasoning, etc.
Tomato gravy (see index)
Fresh or at least freshly cooked spaghetti or other pasta

Mix the ground meats together in a large bowl,
then mix each of the other ingredients.
Make balls about the size of a baby?s fist

then place the stuffing into a colander and cool;
2 hours
Wrap the rolls:
Place 3 tablespoons of stuffing in the wrap, roll tightly -
corner nearest you first, fold 2 side corners in,
wrap till remaining corner is left.
Brush with egg, seal, and allow to sit on the seal for
a few minutes.
Fry the rolls:
325° if using egg roll wraps, 350° for spring roll wraps.
Deep fry in peanut oil till crispy golden brown, drain on paper towels.

Lemon Neonate

Turkey serves just as well, and in fact even looks a bit like a
well-dressed baby. By the time you turn the child?s breast into
cutlets, it will be indistinguishable. The taste of young human,
although similar to turkey (and chicken) often can be wildly
different depending upon what he or she has consumed during its
10 to 14 months of life...

4 well chosen cutlets (from the breasts of 2 healthy neonates)
2 large lemons (fresh lemons always, if possible)
Olive oil
Green onions
Salt
pepper
cornstarch
neonate stock (chicken, or turkey stock is fine)
garlic
parsley
fresh cracked black pepper

Season and saut° the cutlets in olive oil till golden brown, remove.
Add the garlic and onions and cook down a bit.
Add some

with butter, oil and flour,
brown vegetables in the roux, then add chicken stock and
allow to simmer for 20 minutes.
Add the patties or stuffed heads, and some loose crawfish,
lobster, long piglet, or what have you.
Cook on low for 15 minutes, then allow it to set for at least
15 minutes more.
Serve over steamed rice; this dish is very impressive!

Stuffed Cabbage Rolls

Babies really can be found under a cabbage leaf -
or one can arrange for ground beef to be found there instead.

8 large cabbage leaves
1 lb. lean ground newborn human filets, or ground chuck
Onions
peppers
celery
garlic
soy sauce
salt pepper, etc
Olive oil
breadcrumbs
Tomato Gravy (see index)
```

Boil the cabbage leaves for 2 minutes to soften.
In skillet, brown the meat in a little olive oil,
then add onions, peppers, and celery (all chopped finely)
and season well.
Place in a large bowl and cool.
Add seasoned breadcrumbs and a little of the tomato gravy,
enough to make the mixture pliable.
Divide the stuffing among the cabbage leaves then roll.
Place seam down in a baking pan.
Ladle tomato gravy on top,
and bake at 325° for 30 - 45 minutes.

```
Umbilical Cordon Bleu

secret to great meatballs, is to use very lean meat.

1 lb. ground flesh; human or pork
3 lb. ground beef
1 cup finely chopped onions
7 - 12 cloves garlic
1 cup seasoned bread crumbs
 cup milk, 2 eggs
Oregano
basil
salt
pepper
Italian seasoning, etc.
Tomato gravy (see index)
Fresh or at least freshly cooked spaghetti or other pasta

Mix the ground meats together in a large bowl,
then mix each of the other ingredients.
Make balls about the size of a baby?s fist
(there should be one lying around for reference).
Bake at 400for about 25 minutes -
or you could fry them in olive oil.
Place the meatballs in the tomato gravy, and simmer for several hours.
Serve on spaghetti.
Accompany with green salad, garlic bread and red wine.

Newborn Parmesan

This classic Sicilian cuisine can easily be turned into Eggplant Parmesan
If you are planning a vegetarian meal. Or you could just as well use veal -
after all, you have to be careful - Sicilians are touchy about their young
family members...

6 newborn or veal cutlets
Tomato gravy (see index)
4 cups mozzarella, 1cup parmesan, 1cup romano
Seasoned bread crumbs mixed with
parmesan
romano
salt
pepper
oregano
garlic powder
chopped parsley

Flour
eggwash (eggs and milk)
Peanut oil for frying.

Pound the cutlets.
Dredge in flour, eggs, then the bread crumb mixture.
Fry till golden brown in 350° peanut oil.
In a baking pan, place a layer of gravy,
then one of meat, gravy, and cheese.
Another layer each of meat, gravy, and cheese.
Then bake at 350° for 45 minutes.
Serve on hot pasta with romano cheese.

Southern Fried Small-fry

Tastes like fried chicken, which works just as well.
In fact you may want to practice cutting up whole chickens
for frying before you go for the real thing.
Whole chicken is much more efficient an

necessary every day, don?t
be afraid to alter any dish to vegetarian tastes.

1 premature baby, born dead
Large bunch of mustard greens
2 white onions, 1 cup chopped celery
Vegetable oil (or hog fat)
Salt, pepper, garlic, etc.

Lightly brown onions, celery, garlic and meat in large heavy pot.
Add a little water and the greens (which should be thoroughly cleaned and washed).
Smother slowly for at least 2 hours, adding small amounts of water
when it starts to stick.
Stir frequently.
When ready - serve with rice, grilled smoked sausage, green salad, and iced tea.
Coffee and apple pie then brandy.

Maternity Ward Pot Luck Dinner

If you can?t get anything fresh from the hospital, nursery, or morgue;
you can at least get rid of all the leftovers in your refrigerator.

1 - 2 lbs. cubed meat (human flesh, chicken, turkey, beef...)
1 -2 lbs. coarsely chopped vegetables
(carrots, potatoes, turnips, cauliflower, cabbage...)
Bell pepper
onions
garlic
ginger
salt pepper, etc.
Olive oil
butter

Brown the meat and some chopped onions, peppers, and garilic in olive oil,
place in baking dish, layer with vegetables seasoning and butter.
Bake at 325° for 30 - 45 minutes.
Serve with hot dinner rolls, fruit salad and sparkling water.

B°b° Buffet 1

Show off with whole roasted children replete with apples in mouths -
and babies? heads stuffed with wild rice. Or keep it simple with a
hearty main course such as stew, lasagna, or meat loaf.

Some suggestions

Pre-mie pot pies, beef stew, leg of lamb, stuffed chicken, roast pork spiral ham, Cranberry

As old as the hills, this technique has employed seafood, beef, pork, lamb, poultry, and vegetables; just about anything can be grilled, and young humans are no exception!

High quality marinade (Teriyaki and garlic perhaps)
1 inch cubes of tender meat, preferably from the nursery
Onions
bell peppers
Wooden or metal skewers

Marinate the meat overnight.
Get the grill good and hot while placing meat, vegetables, and
fruit such as pineapples or cherries on the skewers.
Don?t be afraid to use a variety of meats.
Grill to medium rare,
serve with garlic cous-cous and saut&#65533;ed asparagus.
Coffee and sherbet for desert then walnuts, cheese, and port.
Cigars for the gentlemen (and ladies if they so desire)!

Crock-Pot Crack Baby

When the quivering, hopelessly addicted crack baby succumbs to death, get him immediately butchered and into the crock-pot, so that any remaining toxins will not be fatal. But don?t cook it too long, because like Blowfish, there is a perfect medium between the poisonous and the stimulating. Though it may not have the same effect on your guests, a whole chicken cooked in this fashion is also mighty tasty.

1 newborn - cocaine addicted, freshly expired, cleaned and butchered
Carrots
onions
leeks
celery
bell pepper
potatoes
Salt
pepper
garlic, etc
4 cups water

Cut the meat into natural pieces and brown very well in olive oil, remove, then brown half of the onions, the bell pepper, and celery. When brown, mix everything into the crock-pot, and in 6 to 8 hours you have turned a hopeless tragedy into

3152. Re: List of US ZIP Codes

medium rare (150�) and let roast rest.
Pour stock over onions and drippings, carve the meat and
place the slices in the au jus.

Bisque � l?Enfant

Honor the memory of Grandma with this dish by utilizing her good
silver soup tureen and her great grandchildren (crawfish, crab or
lobster will work just as well, however this dish is classically
made with crawfish).

Stuffed infant heads, stuffed crawfish heads, stuffed crab or lobster shells;
make patties if shell or head is not available
(such as with packaged crawfish, crab, or headless baby).
Flour
oil
onions
bell peppers
garlic salt, pepper, etc.
3 cups chicken stock
2 sticks butter
3 tablespoons oil

First stuff the heads, or make the patties (see index)
then fry or bake.
Set aside to drain on paper towels.
Make a roux with butter, oil and flour,
brown vegetables in the roux, then add chicken stock and
allow to simmer for 20 minutes.
Add the patties or stuffed heads, and some loose crawfish,
lobster, long piglet, or what have you.
Cook on low for 15 minutes, then allow it to set for at least
15 minutes more.
Serve over steamed rice; this dish is very impressive!

Stuffed Cabbage Rolls

Babies really can be found under a cabbage leaf -
or one can arrange for ground beef to be found there instead.

8 large cabbage leaves
1 lb. lean ground newborn human filets, or ground chuck
Onions
peppers
celery

garlic
soy sauce
salt pepper, etc
Olive oil
breadcrumbs
Tomato Gravy (see index)

Boil the cabbage leaves

celery, pepper and garlic.
De-glaze with wine, return meat to the pan and season well.
Stew on low fire adding small amounts of water and
seasoning as necessary.
After at least half an hour, add the carrots and potatoes,
and simmer till root vegetables break with a fork.
Cook a fresh pot of long grained white rice.

Pre-mie Pot Pie

When working with prematurely delivered newborns (or chicken) use sherry;
red wine with beef (buy steak or roast, do not pre-boil).

Pie crust (see index)
Whole fresh pre-mie; eviscerated, head, hands and feet removed
Onions, bell pepper, celery
&#65533; cup wine
Root vegetables of choice (turnips, carrots, potatoes, etc) cubed

Make a crust from scratch - or go shamefully to the frozen food section
of your favorite grocery and select 2 high quality pie crusts (you
will need one for the top also).
Boil the prepared delicacy until the meat starts to come off the bones.
Remove, de-bone and cube; continue to reduce the broth.
Brown the onions, peppers and celery.
Add the meat then season, continue browning.
De-glaze with sherry, add the reduced broth.
Finally, put in the root vegetables and simmer for 15 minutes.
Allow to cool slightly.
Place the pie pan in 375 degree oven for a few minutes so bottom crust is not soggy,
reduce oven to 325.
Fill the pie with stew, place top crust and with a fork, seal the crusts together
then poke holes in top.
Return to oven and bake for 30 minutes, or until pie crust is golden brown.

Sudden Infant Death Soup

SIDS: delicious in winter, comparable to old fashioned Beef and Vegetable Soup.
Its free, you can sell the crib, baby clothes, toys, stroller... and so easy to
procure if such a lucky find is at hand (just pick him up from the crib and
he?s good to go)!

SIDS victim, cleaned
&#65533; cup cooking oil
Car

cook uncovered till thermometer reads 190&#65533;,
about another hour.

Pro-Choice Po-Boy

Soft-shelled crabs serve just as well in this classic southern delicacy.
The sandwich originated in New Orleans, where an abundance of abortion clinics
thrive and hot French bread is always available.

2 cleaned fetuses, head on
2 eggs
1 tablespoon yellow mustard
1 cup seasoned flour
oil enough for deep frying
1 loaf French bread
Lettuce
tomatoes
mayonnaise, etc.

Marinate the fetuses in the egg-mustard mixture.
Dredge thoroughly in flour.
Fry at 375&#65533; until crispy golden brown.
Remove and place on paper towels.

Holiday Youngster

One can easily adapt this recipe to ham, though as presented,
it violates no religious taboos against swine.

1 large toddler or small child, cleaned and de-headed
Kentucky Bourbon Sauce (see index)
1 large can pineapple slices
Whole cloves

Place him (or ham) or her in a large glass baking dish, buttocks up.
Tie with butcher string around and across so that he looks like
he?s crawling.
Glaze, then arrange pineapples and secure with cloves.
Bake uncovered in 350&#65533; oven till thermometer reaches

160�.

Cajun Babies

Just like crabs or crawfish, babies are boiled alive!
You don?t need silverware, the hot spicy meat comes off in your hands.

6 live babies
1 lb. smoked sausage
4 lemons
whole garlic
2 lb. new potatoes
4 ears corn
1 box salt
crab boil

Bring 3 gallons of water to a boil.
Add sausage, salt, crab boil, lemons and garlic.
Drop potatoes in, boil for 4 minutes.
Corn is added next, boil an additional 11 minutes.
Put the live babies into the boiling water and cover.
Boil till meat comes off easily with a fork.

Oven-Baked Baby-Back Ribs

Beef ribs or pork ribs can be used in this recipe,
and that is exactly what your dinner guests will assume!
An excellent way to expose the uninitiated to this highly misunderstood
yet succulent source of protein.

2 human baby rib racks
3 cups barbecue sauce or honey glaze (see index)
Salt
black pepper
white pepper
paprika

Remove the silverskin by loosening from the edges,
then stripping off.
Season generously, rubbing the mixture into the baby?s flesh.
Place 1 quart water in a baking pan, the meat on a wire rack.
Bake uncovered in 250° oven for 1½ hours.
When browned, remove and glaze,
return to oven and bake 20 minutes more to form a glaze.
Cut ribs into individual pieces and serve with extra sauce.

Fresh Sausage

If it becomes necessary to hide the fact that you are eating
human babies, this is the perfect solution.
But if you are still paranoid, you can substitute pork butt.

5 lb. lean chuck roast
3 lb. prime baby butt
2 tablespoons each:
salt
black, white and cayen

about 6 minutes on each side.

Shish Kababes

As old as the hills, this technique has employed seafood, beef, pork, lamb,
poultry, and vegetables; just about anything can be grilled, and young humans
are no exception!

High quality marinade (Teriyaki and garlic perhaps)
1 inch cubes of tender meat, preferably from the nursery
Onions
bell peppers
Wooden or metal skewers

Marinate the meat overnight.
Get the grill good and hot while placing meat, vegetables, and

fruit such as pineapples or cherries on the skewers.
Don?t be afraid to use a variety of meats.
Grill to medium rare,
serve with garlic cous-cous and saut&#65533;ed asparagus.
Coffee and sherbet for desert then walnuts, cheese, and port.
Cigars for the gentlemen (and ladies if they so desire)!

Crock-Pot Crack Baby

When the quivering, hopelessly addicted crack baby succumbs to death, get him immediately butchered and into the crock-pot, so that any remaining toxins will not be fatal. But don?t cook it too long, because like Blowfish, there is a perfect medium between the poisonous and the stimulating. Though it may

it simple with a
hearty main course such as stew, lasagna, or meat loaf.

Some suggestions

Pre-mie pot pies, beef stew, leg of lamb, stuffed chicken, roast pork spiral ham,
Cranberry pineapple salad, sweet potatoes in butter, vegetable platter, tossed salad with
tomato and avocado, parsley new potatoes, spinich cucumber salad, fruit salad
Bran muffins, dinner rolls, soft breadsticks, rice pilaf, croissants
Apple cake with rum sauce, frosted banana nut bread sherbet, home made brownies
Iced tea, water, beer, bloody marys, lemonade, coffee

The guests select food, beverages, silverware... everything from the buffet table.
They move to wherever they are comfortable, and sit with whoever they choose.
Provide trays so your guests will not spill everything all over your house from
carrying too much, nor will they have to make 10 trips back and fourth from the
service stations.

Roast Leg of Amputee

By all means, substitute lamb or a good beef roast if the haunch
it is in any way diseased. But sometimes surgeons make mistakes,
and if a healthy young limb is at hand, then don?t hesitate to cook
it to perfection!

1 high quality limb, rack, or roast
Potatoes, carrot
Oil
celery

3165. Re: Looking for manuals: AEA KT-1 keyer, Kantronics UTU

the meat on a wire rack.
Bake uncovered in 250&#65533; oven for 1&#65533; hours.
When browned, remove and glaze,
return to oven and bake 20 minutes more to form a glaze.
Cut ribs into individual pieces and serve with extra sauce.

```
Fresh Sausage

If it becomes necessary to hide the fact that you are eating
human babies, this is the perfect solution.
But if you are still paranoid, you can substitute pork butt.

5 lb. lean chuck roast
3 lb. prime baby butt
2 tablespoons each:
salt
black, white and cayenne peppers
celery salt
garlic powder
parsley flakes
brown sugar
1 teaspoon sage
2 onions
6 cloves garlic
bunch green onions, chopped

Cut the children?s butts and the beef roast into pieces
that will fit in the grinder.
Run the meat through using a 3/16 grinding plate.
Add garlic, onions and seasoning then mix well.
Add just enough water for a smooth consistency, then mix again.
Form the sausage mixture into patties or stuff into natural casings.

Stillborn Stew

By definition, this meat cannot be had altogether fresh,
but have the lifeless unfortunate available immediately after delivery,
or use high quality beef or pork roasts (it is cheaper and better to
cut up a whole roast than to buy stew meat).

1

well. Meat is not necessary every day, don?t
be afraid to alter any dish to vegetarian tastes.

1 premature baby, born dead
Large bunch of mustard greens
2 white onions, 1 cup chopped celery
Vegetable oil (or hog fat)
Salt, pepper, garlic, etc.

Lightly brown onions, celery, garlic and meat in large heavy pot.
Add a little water and the greens (which should be thoroughly cleaned and washed).
Smother slowly for at least 2 hours, adding small amounts of water
when it starts to stick.
Stir frequently.
When ready - serve with rice, grilled smoked sausage, green salad, and iced tea.
Coffee and apple pie then brandy.

Maternity Ward Pot Luck Dinner

If you can?t get anything fresh from the hospital, nursery, or morgue;
you can at least get rid of all the leftovers in your refrigerator.

1 - 2 lbs. cubed meat (human flesh, chicken, turkey, beef...)
1 -2 lbs. coarsely chopped vegetables
(carrots, potatoes, turnips, cauliflower, cabbage...)
Bell pepper
onions
garlic
ginger
salt pepper, etc.
Olive oil
butter

Brown the meat and some chopped onions, peppers, and garilic in olive oil,
place in baking dish, layer with vegetables seasoning and butter.
Bake at 325&#65533; for

the sauce over the cutlets,
top with parsley, lemon slices and cracked pepper.
Serve with spinach salad, macaroni and cheese (homemade) and iced tea...

Spaghetti with Real Italian Meatballs

If you don?t have an expendable bambino on hand,
you can use a pound of ground pork instead.
The secret to great meatballs, is to use very lean meat.

1 lb. ground flesh; human or pork
3 lb. ground beef
1 cup finely chopped onions
7 - 12 cloves garlic
1 cup seasoned bread crumbs
 cup milk, 2 eggs
Oregano
basil
salt
pepper
Italian seasoning, etc.
Tomato gravy (see index)
Fresh or at least freshly cooked spaghetti or other pasta

Mix the ground meats together in a large bowl,
then mix each of the other ingredients.
Make balls about the size of a baby?s fist
(there should be one lying around for reference).
Bake at 400for about 25 minutes -
or you could fry them in olive oil.
Place the meatballs in the tomato gravy, and simmer for several hours.
Serve on spaghetti.
Accompany with green salad, garlic bread and red wine.

Newborn Parmesan

This classic Sicilian cuisine can easily be turned into Eggplant Parmesan
If you are planning a vegetarian meal. Or you could just as well use veal -
after all, you have to be careful - Sicilians are touchy about their young
family members...

This was e-mailed to me this morning by Oris Grim an old friend.

I happened to be traveling through Huntsville, Alabama early this morning, I deceided to stop in Athens and see just how tough Lloyd Davies was going to act when he saw me in person.

Many of you know that a few years ago, Lloyd got smart with several people in the Deja Newsgroup (now Google) and I issued a challenge to him. I told him I would be attending the Dalton, Ga. Hamfest if he wanted to continue the conversation. He said he would be there and he was going to kick my ass.

Well, Lloyd was a no-show and continued the verbal assault on the newsgroups. He always talks tough behind his keyboard. And, I understand he is now doing the same sort of thing on the NIM Busters Board.

Well, about 8.35 this morning (December 23, 2004) I located his apartment in a nasty looking section of town. I'm a pretty good sized man, but I put my gun in my back waistband after exiting the car. I located his apartment and knocked on the door. The doorbell was missing and bare wires were sticking out of the wall. I heard someone say I'm coming and shortly the door opened with a safety chain lock still engaged. He asked what I wanted and I introduced myself and asked if we could have a conversation. He turned white as a sheet and attempted to slam the door, but I already had a foot wedged in the opening. He started shaking uncontrollably and was shouting leave me alone, leave me alone! I told him he didn't seem so tough now face to face and then noticed a putrid odor of urine and he was pissing his pants and crying like a baby. Please leave me alone Oris he said, I was just having fun and meant no harm, please leave, please. I could see the filthy floor of this apartment and the dirty floors and the
ste

This Lloyd is nothing more than white trash that delivers pizzas and could afford to take a trip out of town if the ticket cost $5.00.

I'm sending this to a friend who despises Lloyd Davies and he wanted to post it for everyone to see just what kind of chickenshit asshole this Davies really is.

Oris Grim.

There seems to be a dozen ways to get an individual amateur's zip code, but finding all the amateurs in a particular zip code(s) doesn't seem to be so easy.

I'd like to find half a dozen extras in about five zip codes around the Rocklin or Roseville CA area that would be willing to sign up with Smitty's VEC (GLAARG) to give exams with me at the local community college. Does anybody have a good way of getting a listing either by zip code or (even better) a defined radius from a given point?

(GLAARG does the exams for $4 and I am dealing with relatively low income students, so ARRL is a bit pricey for them.)

Jim

If the pager is only 600 kHz off your frequency, then it is in the amateur band and is therefore illegal and needs to be shut down (since paging is a commercial service, it violates 97.113). I'm willing to suspect that your computation is wrong. It's more likely that the pager is near your frequency plus twice your IF frequency, and your duplexer and system cabinet aren't providing enough shielding.

Have you contacted the pager company and alerted them of this problem? Maybe there's something THEY can do, such as swap a transmitter with one at a different location that uses a different frequency so that the mix doesn't cause a 600 kHz difference.

Since this radio has squelched audio, why not add a line from the audio output to your COS input (as well as your audio in)? That trick does seem to work with some TNCs for packet purposes (I have done it with AEA PK87s, PCB88s, and Kantronics KPC9612s and KPC4s).

SB DX @ WW < KB8NW $OPDX.691
Ohio/Penn DX Bulletin No. 691

The Ohio/Penn DX PacketCluster
DX Bulletin No. 691
BID: $OPDX.691
December 27, 2004
Editor Tedd Mirgliotta, KB8NW
Provided by BARF80.ORG (Cleveland, Ohio)

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, K1XN & GoList, N1NK, W2CE, NG3K, W3HNK, W3UR & The Daily DX, K4VUD, N4AA & QRZ DX, K7ZD, WB7OJV, K8YSE, NW0L, DL1EK & The DX News Letter, DL5EBE, EA5RM, F5CWU & La Gazette du DX, F5NQL & UFT, I1JQJ/IK1ADH & 425 DX News, I1HYW, IV3IYH, IZ8BRI, J6KVR & JA-IOTA Islands News, JH0MGJ, SM7CRW, SQ9FMU, TA3J, TA3YJ, VA3RJ & ICPO, VE7HA, VK4AAR and the ARRL Letter for the following DX information.

SPECIAL EDITOR'S NOTE: It's hard to believe that next week's issue will be in 2005. Where did this year go? Anyway, my family (wife/OPDX's chief proof-reader Linda, Teddy [TJ], Katie) and I (KB8NW) would like to wish all DXers, Contesters and OPDX readers a very "Happy New Year". Also, we would like thank the many who have contributed information over the year (there are too many to list). REMEMBER, without them there would not be an OPDX Bulletin. I would also like to thank the many who sent holiday greetings over the past week.....
73 and Good Luck in the New Year de Tedd KB8NW

DXCC COUNTRY/ENTITY REPORT: According to the AR-Cluster Network for the week of Sunday, 19th/December, through Sunday, 26th/December there were 209 countries active. Countries available: 3A, 3B8, 3B9, 3D2, 3DA, 3V, 3W, 3X, 4J, 4L, 4S, 4U1U, 4X, 5B, 5H, 5R, 5T, 5U, 5V, 5X, 5Z, 6Y, 7O, 7Q, 7X, 8P, 8R, 9A, 9G, 9H, 9J, 9K, 9L, 9M2, 9M6, 9N, 9V, 9Y, A2, A3, A4, A6, A7, A9, AP, BV, BY, C3, C5, C6, CE, CE9, CM, CN, CP, CT, CT3, CU, CX, D2, D4, DL, DU, EA, EA6, EA8, EA9, EI, EK, EP, ER, ES, ET, EU, EX, EY, EZ, F, FG, FH, FK, FM, FO, FO/M, FR, G, GD, GI, GM, GU, GW, HA, HB, HC, HC8, HI, HK, HL, HM, HP, HR, HS, HZ, I, IS, J2, J6, JA, JT, JW, JY, K, KH0, KH6, KL, KP2, KP4, LA, LU, LX, LY, LZ, OA, OD, OE, OH, OH0, OK, OM, ON, OX, OY, OZ, P2, P4, PA, PJ2, PJ7, PY, PY0F, PZ, R1FJ, S2, S5, S9, SM, SP, ST, SU, SV, SV5, SV9, T5, T7, T9, TA, TF, TG, TI, TK, TR, TT, TU, TY, UA, UA2, UA9, UK, UN, UR, V2, V3, V4, V5, V7, V8, VE, VK, VP8, VP8/h, VP9, VQ9, VR, VU, VU4, XE, XU, YA, YB, YI, YK, YL, YO, YS, YU, YV, Z2, Z3, ZA, ZB, ZC4, ZD7, ZD8, ZF, ZK1/s, ZK2, ZL, ZP, ZS

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

8R, GUYANA. Craig, AH8DX, will be active as 8R1/AH8DX during the ARRL DX SSB Contest (March 5-6th) as a Single-Op/All-Band/High-Power entry. QSL via AH8DX.

CQ CELEBRATES ITS 60TH. During the first 60 days of 2005, you will be hearing stations signing "/60". The reason is CQ is celebrating its 60th anniversary with a special "CQ Gang" on-air event (CQ's first issue was published in January, 1945). CQ Amateur Radio Magazine invites all Amateur Radio operators around the world to join in on the celebration and take part in the on the air event between January 1st and March 1st. Who can sign "/60"? Any ham ever associated with CQ as a staff member, contributing editor or author--as well as current subscribers to CQ, CQ VHF and Popular Communications may sign "/60" after their call signs. An endorseable cerificate will be available. Also, a CQ club station, WW2CQ, will be active from various parts of the U.S. during the event. There will be separate certificates available for working WW2CQ in all callsign districts from which it is active. All the complete rules for the "CQ Gang 60th Anniversary" activity appears in the December 2004 issue of CQ Magazine and on the CQ Web site at:
http://www.cq-amateur-radio.com/CQ60 Award Dec04.pdf

FT5W, CROZET ISLAND. Nicolas/F4EGX and Jean Paul/F5BU will take part in a job related mission on Crozet Archipelago at the beginning of 2005. They are hoping to do some ham activity during their spare time. They expect to depart (via a ship) on January 9th and are scheduled to arrive on Possession Island (AF-008 and DIFO FT-009) around February 5th. They expect to begin their activity on the 12th. They will stay on the island until the end of March, and their return to Metropolitan France is expected between the beginning of April and no later than the 15th. At this time (December 21th), they are awaiting for their callsigns. Nicolas, F4EGX, will not be active on HF bands. The reason given is that the CMR03 directives about the possibility of using the HF Bands without Morse code proof exam has not yet been put into effect in the French overseas territories; one being Amsterdam Archipelago. Without this permission, he will be only on 6, 2 and 70cm bands QRP, using FM mode. QSL via F6APU. Nicolas does have a Web page at: http://F4EGX.free.fr
Jean Paul, F5BU, will be active on SSB, mainly 14278 kHz. QSL cards go via F5BU.

HI OPERATION CHANGE. Curt, W3HQ, reports that due to the malaria situation in the Dominican Republic, he has been forced to reconsider his HI tour during the 160 meter contest in January. However, he is considering other islands such as VP2 Tortola, instead. More details are forthcoming as he gets confirmation of travel arrangements.

IOTA/USI/LIGHTHOUSE ACTIVITY. Look for W5TLH to activate several islands and lighthouses between December 27th and January 2nd. Here are the following lighthouses to be activated:
Halfmoon Reef Lighthouse (ARLHS reference USA-363)

Aransas Pass Lighthouse (USA-018)
Matagorda Island Lighthouse (WLH K-096, ARLHS USA-482)
* If time and weather permits they will activate the following
historical locations at:
Corpus Christi Lighthouse (USA-1137)
Saluria Lighthouse (USA-1139)
Swash Lighthouse (USA-1182).
The lighthouse activations will result in the activation of several islands
in the IOTA NA-092 group as follows:
San Jose Island (USI TX-005, Refugio county Texas)
Matagorda Island (USI TX-010S, Calhoun county Texas)
Mustang Island (USI TX-011S, Nueces county Texas).
Activity will be on 40 and 20 meters SSB. QSL via W5LTH (QRZ.com). For
more information, check the W5AZN Web site for further details at:
http://www.w5azn.com

IOTA NEWS.....
EU-166. Operators IT9SSI, IZ8CGS, IZ8FWN, IZ8CCW and possibly others
will be active as IO9TA, January 7-9th, from Lunga Island
(IIA TP-021 and MIA MI-055). Activity will be on all bands
SSB and CW with 2 stations 24 hours a day. For more info,
please visit the Web page at: http://www.mdxc.org/io9ta/

EU-175. Ulf, DL5AXX, will be active as CU7/DL5AXX from Ilha do Faial
now through January 3rd. He is on holiday with his family
here. He will try not to disturb his family's peace and
will try to listen for Asia on CW on the lowbands every
evening. QSL via his home callsign, direct or by the bureau.

SA-039. (Update) Members from the "Radio Grupo Sur of Montevideo"
will be on the air as CW5R from Lobos Island from January
7-11th. Dates may be changed depending on weather conditions.
Operators include Lupo/CX2ABC, Pedro/CX5BW and Orestes/WQ4O
together with Javi/EA5KM and Toni/EA5RM who are travelling
from Spain especially for this DXpedition. They expect to
use monoband antennas on the high bands and dipoles on the
lower bands which will be installed on the top of Lobos
lighthouse (ARLHS URU-002 and WLOTA LH-0799). They will be
active on all modes including digital. QSL Manager will be
CX2ABC. There will be online logs available after their
operation on the following Web page. For updates and more
information, please visit the Web page at:
http://www.dx-men.com

KP2, U.S. VIRGIN ISLANDS. John, KP2/KL7JR, continues to be active as
KP2/KL7JR on St. Croix (NA-106). He checks into the 247 DX Net (14.247
kHz, Mon-Fri) most days at 2100z. John informs OPDX that he will try
to concentrate on 12 and 17 meters SSB until April 2005. For E-mail
skeds, send message to: kl7jr@aol.com
QSL with SASE to QRZ.com address.

LIGHTHOUSE ACTIVITY. Tom, G0PSE, plans to activate the Anvil Point Lighthouse (ARLHS ENG-001) on Wednesday, December 29th, or Thursday, December 30th. The special event callsign GB2APL has been applied for. If the special callsign is not granted in time, the callsigns G0PSE/P and M0AOD/P will be used. Activity will be on 40-10 meters SSB and CW.

NH2, GUAM. Kuro, JH0MGJ, will be active as AL5A/NH2 from March 18-20th. Activity will be on 40-10 meters CW/SSB. Kuro informs OPDX that he will be listening for weak stations in NA and EU. QSL is "OK" via the JARL Bureau.

PACIFIC ACTIVITY. Look for Aki, JA1KAJ, to be active as YJ0AKA from Efate (OC-035) on the Island of Vanuatu now through January 2nd. Activity should be on 80-10 meters CW/SSB/RTTY/SSTV. He will head to New Caledonia after this operation and be active as FK/JA1KAJ from January 3-9th. QSL via his home callsign, direct or by the Bureau.

PY0, FERNANDO DE NORONHA. Look for Bill, W9VA, to be active as PY0FF during the ARRL DX CW Contest (February 19-20th). His operating class is to be announced later. Bill will be on Fernando de Noronha, February 16-22nd. Before and after the contest, he will be mostly on the WARC bands and 6 meters using his personal callsign PY0ZFO. QSL all via W9VA.

QSL INFO AND NEWS.....
Roberto, IV3IYH/9N7CQ (also DJ5CQ, NQ5W, VE3MXQ), informs that Bureau QSL cards for 9N7CQ can be requested online at the following URL:
http://www.df3cb.com/9n7bcc/oqrs/
Bureau cards can also be requested via E-mail to the QSL Manager IK2ILH at the following address: ik2ilh@libero.it
Please do not send your card via the bureai if you requested a card online or via E-mail. QSLs have been ordered and should be ready in a few weeks.

The log book of the recent A52CDX Buthan expedition by the members of Clipperton DX Club (in October/November 2004), is now online at:
http://www.f5lmj.net/Bhoutan2004/a52cdx.htm

AY1ZA QSLS. Rick, NE8Z, reports on QSLs for AY1ZA: "I am NOT the QSL Manager for AY1ZA or LU1ZA. I do not have blank QSLs nor the logs. Henry, LU4DXU, sends me registered/airmail packages of 100 QSLs/SAEs per package to mail out from the USA. The postal rates in LU has risen so high, he can not afford to mail individual SAEs from Argentina. I receive the packages and then send out the SAEs via airmail from Michigan the same day received. As of 12-12-04 I have mailed out about 800 AY1ZA and LU/Z QSLs. More SAEs are on their way to me now. Please be patient. You will receive your card via me if it was sent and received by LU4DXU in Argentina."

Sergey (Jack), RA3SL, informs that Andrej, RW3VZ, states that all the logs for BW3/UA3VCS and BW4/UA3VCS are lost. Artyom, UA3VCS, became a "Silent Key" in July 2004.

NOT THE QSL MANAGER. Marty, NW0L, reports that somehow NW0L has been INCORRECTLY listed as the QSL Manager for PJ2T in one or more QSL

Manager lists. The correct QSL Manager for PJ2T is N9AG.

Nilay, TA3YJ (QSL Manager for TC2K4J), states that all TC2K4J QSL cards and TA40SK awards have been mailed. Details are on the Web page at: http://www.geocities.com/tc2k4j

VP8 LOGS ONLINE. The logs for VP8WWW, VP8WFW, VP8WPF, VP8WMJ and VP8DXL are all online at: http://www.gtdx.com/logs/searchvp8.html

The logbook for VQ9M's operations in 2002 has been uploaded to eQSL and LoTW. Direct requests (green stamp or sase, no IRCs please) may still be mailed to WB7OJV.

SPECIAL EVENT. Look for special event station, HA200CVM, to be active during January. Activity is dedicated in remembrance of the poet Csokonai Vitez Mihaly. QSL via HA0NAR; Bureau cards are "OK".

SPECIAL EVENT. John, SM7CRW, will be using the special callsign SF50A between January 1, 2005, and December 31, 2005. He is celebrating his 50th year of hamming and promises an exclusive QSL for everyone who works him and requests it.

SPECIAL EVENT. Look for special event station SQ75FMU to be active between January 1-20th and February 15 to March 15th. Activity is to celebrate the 75th anniversary of Polish Amateur Radio Union "PZK". QSL via SQ9FMU, by the bureau or direct to: Robert Prorok, P.O. Box 113, 41-800 Zabrze. QSL cards will be sent to all after March 15th, 2005.

TA, TURKEY. Berkin, TA3J, will be active as TA3J/60 from Antalya between 0000z January 1st and 2359z March 1st. Special callsign is for the "CQ/60 Operating Activity" and the "CQ Gang Award" (See "CQ CELEBRATES ITS 60TH" above). Activity will be on 160/80/40/20/15/10/2 meters, 70cm and the WARC bands, on all modes. QSL via Nilay, TA3YJ, direct (only SASE and 1 IRC, no green stamps please) or by the bureau. No eQSL. SWL QSL cards are "OK". Homepage for this activity is: http://www.geocities.com/ta3j60

V4, NEVIS. Just a reminder that Larry, KJ4UY, is expected/should be active now as V47UY from Nevis Island (NA-104) until January 2nd. As this was being typed, no QSNs were reported yet. Activity should be 160-6 meters. QSL via his home callsign.

VP8, ANTARCTICA (Change of plans). There is a good chance that Mike, VP8CMH/mm, will become active from Rothera "T" Base on Adelaide Island (IOTA AN-001 and WAP GBR-20) signing VP8ROT despite previous announcements. Here is a short note from Mike: "I hope to be back in Rothera in around January 25-27th. Our itinerary has just been changed, so I will be going there in a few weeks time..... ice willing."

VU4, ANDAMAN ISLANDS (Update). As this was being typed Sunday morning, December 26th, word came out that a major earthquake (8.9 magnitude) hit the Indonesia area from the eastern Indian Ocean. Reports of many deaths and severe injuries are reported. The effects of the earthquake were very strong in India and tsunami waves have caused problems on

the Andamanns. Charles Harpole, K4VUD, who usually provides updates on the VU4 operations daily, did not Sunday. However, on the air reports and InterNet sources indicate that the VU4 team is fine. Reports also state VU4RBI is now on low power and providing emergency communciations. There is an interesting Web page to view the current earthquakes. Please visit: http://earthquake.usgs.gov/recenteqsww/Quakes/quakes_big.html Let's hope that the reports about the VU4 team are true, and they are all in good health.
In Charle's updates on the VU4 operations this past week, he mentioned that the team is using paper logs. However, a SWL volunteer is taking the logs and typing the QSOs into a computer. The hand logs will be kept to solve any questions that may come up as QSL requests come in. Charles did mention he will explain to the VU4 team the possible use of the LoTW and hope later that all logs can be loaded there. On Thursday, December 23rd, Charles stated that the "team has now passed the 30,000 QSO mark and has mounted HF signals on SSB, CW, Slowscan TV, RTTY, and PSK on all bands -- including all 3 WARC -- from 160-6 meters."

YA, AFGHANISTAN. Look for YA5Y to be active in the CQ WW 160m CW Contest (January 29-30th) as a Single-Op/Low-Power entry. Activity will be 100 watts with a dipole up 15m. QSL via DL5SE by the DARC Bureau.

ZB2, GIBRALTAR. Operators Wolf/DL4WK, Frank,DL7UFR, and Rolf/DL7VEE will be active as ZB2/homecall from December 29th to January 4th. They plan to have two stations active on CW/SSB/RTTY on all bands from 160-6 meters. QSL via their home callsigns; the Bureau is "OK".

ZF2, CAYMAN ISLANDS. Pete, N2LM, will be active from the Grand Cayman Island (NA-016) this week as ZF2PD until January 4th. Activity will be on 80-10 meters SSB and RTTY. QSL via his home callsign.

ZK2, NIUE. Murray, VE7HA, and his wife Konomi, have plans to head to Niue next year; probably the February through March timeframe. He informs OPDX that he has spoken with the Telecom in Niue this past week, and they indicated getting a licence is no problem. He has asked for a special callsign or prefix for contest work, but is not sure if he will get it. Otherwise, hopefully his request for ZK2HA will be met. He will be using a standard 100 watt transceiver with a Steppir BiggIR vertical antenna which covers 40- 6 meters continuously. Expected time on the island is about two months. With no active locals, it seems he is on his own as far as making plans to get on the air there. Planned operation will probably be mostly SSB, but he states that it would be fun to try other modes. However, Murray states, "I have no experience or equipment for newer digital modes, so that is unlikely." More details are forthcoming once he has more concrete information.

Jim go to QRZ - this URL:
http://www.qrz.com/i/names.html

Type in a zip code only

Get Hams in that zip codew area

Or type in Rocklin, ca
Get the results
There are 118 records matching 'Rocklin, ca'.

> QSL via AH8DX.
>
> CQ CELEBRATES ITS 60TH. During the first 60 days of 2005, you will be
> hearing stations signing "/60". The reason is CQ is celebrating its 60th
> anniversary with a special "CQ Gang" on-air event (CQ's first issue was
> published in January, 1945). CQ Amateur Radio Magazine invites all Amateur
> Radio operators around the world to join in on the celebration and take
> part in the on the air event between January 1st and March 1st. Who can
> sign "/60"? Any ham ever associated with CQ as a staff member,
> contributing
> editor or author--as well as current subscribers to CQ, CQ VHF and Popular
> Communications may sign "/60" after their call signs. An endorseable
> cerificate will be available. Also, a CQ club station, WW2CQ, will be
> active from various parts of the U.S. during the event. There will be
> separate certificates available for working WW2CQ in all callsign
> districts
> from which it is active. All the complete rules for the "CQ Gang 60th
> Anniversary" activity appears in the December 2004 issue of CQ Magazine
> and on the CQ Web site at:
> http://www.cq-amateur-radio.com/CQ60 Award Dec04.pdf
>

More like "JERK Patrol."

You've already been told that the newsgroup charter ALLOWS this weekly posting.
Posts that are on topic and/or specifically allowed are not spam.

You seem afraid to reveal your identity.... If you were a real person, you
wouldn't have to obfuscate your "alt.net" return address. Regardless, quoting
the entire message in your reply is more of a bandwidth waste than the original
message ever was.

Ah, NOW I remember the problem. You are correct; this will give me all the hams in a particular zip code. And, as somebody else noted, typing in the city and state will give me the same result.

What I was TRYING to do is to select all the Extras in those zip codes/cities and was spectacularly unsuccessful in the endeavor.

Suggestions? Other than one by one examining the details on a particular license number?

Jim

There used to be a program for intermod calculations. Intermod61.Bas or something to the effect. Anyone have it or a similar program - maybe newer? It was pretty useful the few times I used it. I had it on an older 386, but that machine has long since crashed.

You should have heard Drudge this evening.
Used the event stating his program/site was
the only media covering it early on, and that
other media (CNN, ABC, NBC etc..) followed
his lead and picked up the story after they saw
Drudge report.....how pathetic!

3197. Planet-X caused Indonesia x-mas quake? (shortwave kook alert!)

Newsgroup: rec.radio.amateur.misc

HEY HEY !!!

I'll guess that *message title* above got your attention eh folks...? !
It's bullshi+ of course, as is 100% of the Planet-X
horsecrap that keeps making the rounds is utter crapola.....

BUT WAIT !

----> How much you folks wanna bet that the usual
cadre of SHORTWAVE RADIO KOOKS will
go and jump on this disaster like 'white-on-rice'
with new and wild conspiracy theories...?

Sure...the kooks on WBCQ, WWCR, WHRI and
WWRB will blame everything from the HAARP to
the approach of Planet-X, to the explosion of an
underwater nuke, to this being some new kind of
a distraction to take our eyes off the Iraq war.....(sure
blame the neocons again....and buy that overpriced
berkie water filters you fools ! baaa hahah)

HEY---> Let's have a write-in vote!

Q: What KOOKY CONSPIRACY THEORY will
the usual bag of x-mas fruitcakes blame this ON as
the root cause?

The winner gets a free admission ticket to
Dayton 2005 and a custom made hardhat with a
ball mounted 6' tall antenna on top to wear around
the flea market and a lapdance with the Icom booth
girls at the Pizza Hut later that evening.....)

Bonus round: If the kook theorist makes it to Coast to Coast
AM before they do to Shortwave, we'll toss in a new Icom 706
at no xtra charge! (woooo - hoooo!)

Your childish outburst below classifies you as a CBer.

There is nothing sick in bewailing death and destruction
brought onto innocent civilian populations.

The agency of the earthquake we can do nothing about.

The disaster brought about by the human agencies we
can do something about.

If you could ask the dead innocents, would they have welcomed
death by one agency but not the other? I doubt it. Both
forms of death are equally unwelcome.

As to sickness, you would seem to score highly in that respect.

Not sure of any better place to try for help. A friend has just phoned - she is desperate because her son Richard Mulholland is back-packing on Little Andaman and, of course, she has had not contact for the last couple of days.

It's taken her a day already just to simply register with the official helpline so she asked me if we had contacts inside the amateur fraternity that might be able to help.

If anyone does have a regular contact with the Andamans then on the very slender chance that Richard is known to them she'd appreciate any knowledge of his current situation.

If anyone knows any internet or other resources which might be of help I'd appreciate it.

Thanks

Brian G0UKB

The poster was not trying to do either of what you allege above.

IN FACT just today one of the well known religious nutcases
on USA short-wave was calling it "divine retribution" then this
asswipe of a short-wave preacher tried to justify it by saying that
those resort locations that got hit were all underage sex brothels
that catered to homosexual sex tourists from Europe and elsewhere.

That, my dear friend, is FAR MORE DISGUSTING AND REVOLTING
that someone simply stating (and accurately also!) that some loony on
the SW was going to make "hay" of this. Did you hear Mat Drudge last
night? *He* was claiming that he was the first and *only* person online
covering the story before CNN and other did. (another Neo-Con A-H
feathering his broadcaster ratings nest atop bodies)....along with Wall
Street
and the CBT, who just placed CRUDE RUBBER commodity trades up
almost $17 per troy Lb...talk about profiteering from disaster !

Wake up an smell the coffee Bozo.
After all, a tsunami is what you get when you
live three feet above sea level.

"The world is filled with evil, and there are two ways
to react. The first way is easy, and wrong. To accept
it. The second way is harder, but right. You fight it,
and help others who fight to endure."

FICTION?

The United States today suffered the effects of a 9.0 earthquake and resulting tidal wave. The disastrous events of this morning knocked out many power lines and all cellular and landline communications. Amateur radio operators volunteered to be of service providing life-saving communications, but were unable to be of assistance due to the pervasive Broadband over Power Lines (BPL) radiation that was emanating from nearly every remaining power line.

"We've pretty much been limited to Tech frequencies since BPL was rushed into service," said K. Hurts, press agent for Hams on VHF. "We can talk across the street on HF, but it takes all the power that we have, and since many of us are limited by antenna restrictions, we finally gave up. We can't use HF."

"Where are the hams?" asked President G. W. Bush. "I thought this group of highly-trained volunteer operators would be there to help us when our infrastructure fails." Where indeed. Why do they expect hams to be able to communicate when their multi-million dollar systems fail?

Strange bedfellows

Connie Hunt, president of the homeowners association in Douche, MN, was unable to contact her dear sister in the affected area. Remembering that one of her neighbors was a ham operator, she contacted Mr. Smart. After asking him if he could contact her sister, Smart said that no, he couldn't, because his CCR limited his antenna to 13 feet AGL. "Isn't that enough to get 1200 miles? I can call on my cell phone farther than that, and it only has a 4" antenna!"

"Go ahead," said Smart.

"Well, I can't, because the cell phone isn't working now," said Hunt.

"I wish I had a better antenna so I could help you, you stupid Hunt."

During the rush to approve BPL operations, one news op-ed piece asked "Why should progress in high-speed internet be held back by some hobby that no one needs? We need high-speed connectivity. Ham operators can find another equally-interesting hobby, maybe stamp or coin collecting." When asked for comment about her earlier statement regarding ham operators, the reporter replied

(you finish the story)

When the president was asked why the FCC allowed the HF spectrum to be polluted with BPL, he said

(you finish the story)

When the homeowners organization said that hams should be able to use their small (and still unsightly) antennas to work for the general public during a disaster, we told them

The FCC in my opinion is now a proxy
for corporations and big business.
Amateurs are in for a big struggle
if frequencies and traditional enforcement
provisions are to be upheld. Everything
from income taxes, social security, judicial
appointments is up for sale. That includes
frequencies and protection from BPL. Of
course we voted Republican and really had
little choice considering the condition which
the other party has come into. Stand by for
a ram and listen to the intereference, and
watch businesses grab for frequencies. I
doubt if we hams will get much listening
to from this administration.73s

HF antenna?
found by Mark K4EEZ was KG4OHH

If you take a half-wave dipole, eliminate the feedline and feed it
directly at the end, you have an antenna that has many of the
advantages of the dipole with few of the limitations of other portable
antenna methods. This antenna has been described for years in the
ARRL Antenna Book and other amateur radio publications but it has
received little attention lately. Both K1SWR (ex-NN1G) and W1FMR have
made reference to it in 72 within the last couple of years but it

doesn't seem to have "caught on" very well.

The total overall length of the EFHWA is an electrical half-wavelength, calculated from the formula L (Ft) = 468/F(MHz)

where L is the overall wire length in feet and F is the desired operating frequency in Megahertz.

This is the length of wire right from the tuner terminal to the insulator at the far end. The formula is approximate, taking into consideration the "end" effect which makes the antenna shorter than a half-wavelength in free space. Extreme accuracy isn't necessary, since even the simplest tuner will make up for inaccuracies of five percent or so. Additionally, a wire that is any multiple of a half-wavelength has the same impedance characteristics; for example, a wire cut for 40 meters will also be useful on 20, 15 and 10 meters with a suitable tuner.

you can put up your wire in a number of different ways. Probably the most common method is to make it an inverted L
{{{ please see attached drawing }}}

The antenna wire is stretched vertically as high as possible from the operating position, then extended horizontally to make up the remaining length. This is usually the most practical way to put up the antenna for 7 MHz and below because of the lengths involved. If supports are available, one useful way of arranging the "L" is to make half the length vertical and the remainder horizontal. Since radiation takes place in the middle of a half-wave antenna, this gives a combination of vertical and horizontal polarization to cover both local and distant propagation.
The EFHWA can be used as a "stealth" antenna for use in motels or in houses or apartments where antennas are discouraged or prohibited. The wire can be sneaked out an upper story window and run horizontally to a convenient tree or other structure. Small diameter wire elevated to 20 feet in the air can be very difficult to see unless you know just where to look. W1FMR has reportedly reduced this art to a science.

The EFHWA needs a ground connection, but it does not need to be very extensive. The ground or counterpoise connection simply acts to decouple the tuner and rig from the antenna system by providing a path for ground current to flow. A quarter-wavelength wire, which is half the antenna length, laid out along the ground or tucked out of the way is usually sufficient. Outdoors either the counterpoise or a short jumper connected to a large metallic structure such as an automobile or camper also works fairly well. When one end of the antenna is indoors, such as in a motel room, a heater radiator or air conditioner can be pressed into service. Try whatever ground you have to see if it works. If you find that hand capacitance affects your tuner or if you have a "hot" chassis on your rig, try the quarter-wave counterpoise wire to cool things off.

urge you to try the EFHWA for portable and / or QRP and even bear foot
hamming.
It is truly a minimalist antenna with maximum performance...

COOPER CITY
RULES PUT HAMS IN A PICKLE
SOUTH FLORIDA HAM RADIO OPERATORS STRUGGLE TO STAY ON THE AIR
nwaller@herald.com
BY NIKKI WALLER

With pursed lips and a steady hand, WA4YDK spins the dial, searching
for a
voice or a signal somewhere amid the fuzz caused by solar flares and an

especially low-hanging aurora borealis.

Eventually, a voice crackles from the speaker: ``Copy. Copy, WA4YDK.''

A connection made, WA4YDK -- known outside radio land as Elliot Kleiman
of
Cooper City -- smiles faintly.

Ham radio operators like Kleiman delight in moments like this.

Kleiman, 67, has been a federally licensed amateur radio operator, or ham,
for more than 50 years. The retired computer science professor has been a
resident of Cooper City's Embassy Lakes gated community for about three.

But like many hams today, he faces growing pressure to choose between his
hobby or his home.

As the nation grows more urbanized and more housing developments write
no-antenna rules into their deeds, many South Florida hams find themselves
squeezed out of their communities or pushed off the air.

''Hams are finding that communities are less friendly,'' said Stephanie

Phillips, a Brevard County ham operator and a Florida spokeswoman for the
Amateur Radio Relay League, or ARRL.

Despite obstacles, ham radio appears to be growing. According to ARRL,
about 680,000 Americans are licensed amateur radio operators, up about
25,000 from 1995.

A breed known for ingenuity, hams find crafty ways to stay on the air and
in touch with the world.

Some send signals from radio setups hidden in their cars, some jury-rig

stealth antennas behind bushes or shrubs, or in rain gutters. And more than
one South Florida resident, including Kleiman, has been known to transmit
messages while riding a bike.

Hams insist they serve their communities by maintaining an emergency
network that still buzzes with activity when other forms of communication
go down. Towns with rules that send hams elsewhere may find themselves out
of luck when disaster strikes, said Phillips.

Local hams often refer to this year's hurricane season, when hams helped
emergency personnel in several storm-ravaged Florida cities.

Kleiman resolved to give up his ham habit when he learned Embassy Lakes

doesn't permit antenna towers. But he couldn't ignore the hobby that first

fascinated him as a young man.

He considered running an antenna from his yellow Corvette until his wife
reminded him that the 'Vette is a lease. So he set up a spindly antenna on
a stepladder beside his backyard pool, where a glade of palms conceals him
from the neighbors' view.

The weak signal barely allows Kleiman to be heard above the static, but he
can still tune in and talk to someone across the county or halfway around
the world.

A spin of the dial on a recent weekday afternoon yielded lots of static and
some normal ham chatter: reports of weather conditions in different places,
discussions of antenna setups, and complaints about zealous local zoning
rules.

''Michael, you would not believe the bureaucracy,'' said one ham to another
before Kleiman tuned to the next station.

Hams frequently use the word 'magic' to describe moments of two-way
contact, known in ham lingo as QSOs. Some operators go for distance -- DX
to hams -- seeking QSOs from faraway countries.

Ham signals can travel thousands of miles with the help of repeaters and
other devices that relay signals from one spot to the next.

Alan Wolfe, a Miami-Dade County elementary school music teacher who gives
after-school ham classes to students, hopes to pass his hobby along to a
the generations raised on Internet and video games.

Ham radio first enthralled Wolfe at age 9. It hasn't let go, he said.

''I watched my uncle sit there with his microphone at night, I watched the
[radio] tubes glow, listening to see who in the world would get back to

us,'' he said.

Today, he and his wife, a cellist who lives in New Jersey, talk over ham
frequencies every night. Married last year in Wellesley, Mass., the

couple
performed some of their vows over the airwaves. Their call letters were

spelled out on the cake.

Wolfe (also known as WB4L) transmits from his home in unincorporated
Miami-Dade, where city rules don't obstruct his antenna. He also has
mounted radio equipment on his car and his bicycle. His wife, WX2L,
communicates with a rotating antenna attached to her Honda Civic.

When they're together, the two sit in a hammock and send signals out
side
by side, said Wolfe.

``We'll look up at the stars through our antennas, and to us, it's like

some beautiful work of art. It's magic.''

Space Weather News for December 11, 2004
http://spaceweather.com

GEMINID METEORS: The 2004 Geminid meteor shower is underway. Midnight
sky
watchers this weekend can expect to see bright meteors shooting out of
the
constellation Geminid--at least a few per hour. Rates will increase
many-fold on Dec. 13th when the shower peaks.

Because this meteor shower has such a broad peak, a good display is
possible twice: on Monday morning, Dec. 13th, during the dark hours
before
sunrise and again on Monday evening, Dec. 13th, especially during the
hours around midnight.

Visit spaceweather.com for more information and predictions for
selected
US cities.

COMET MACHHOLZ: While you're out watching the meteor shower, take a
look

at Comet Machholz--a 5th-magnitude fuzzball near the feet of Orion. You

can see it with the unaided eye from dark-sky sites and it looks great
through a small telescope.

I have a KLM KT-34A for sale or trade. If you look for it on your
search sites you will find that it is a very large tribander for
10,15,and 20 meters. It is used and in good shape.All it needs is a
4 to 1 balun which I dont have for it. Baluns can be had fairly at
most hamfests and ham retail stores for under $25.00.
I am looking for best offer cash/or trade for a ssb/fm 2 meter or a
ssb 6 meter mobile trans. in good working order.
It is 45 lbs of antenna and I have no way to tell you the cost of
shipping from the Tampa Bay Area.Prefer to find someone locally and
will deliver it within 40 miles of Tampa Bay.
For more info please contact my email address below.

Although time consuming, this dish seems to take longer than it actually does;
as the entire house is filled with such a heavenly aroma,
the waiting becomes almost unbearable.

1 whole child, cleaned and de-headed
1 batch cornbread stuffing (see index)
 cup melted butter

Remove the giblets from the infant and set aside.
Stuff the cavity where the child?s genitals and anus were located
using cup per pound of meat.
Tie the arms flat to the body, then pull the skin flaps up to close the cavity.
Now tie the thighs up tight to hold it all together.
Place breast side up in a large metal roasting pan.
Bake in 325 oven covered for 2 hours.
Remove cover, stick a cooking thermometer deep into one of the
baby?s buttocks and cook uncovered till thermometer reads 190,
about another hour.

Pro-Choice Po-Boy

Soft-shelled crabs serve just as well in this classic southern delicacy.
The sandwich originated in New Orleans, where an abundance of abortion clinics
thrive and hot Frenc

Tie with butcher string around and across so that he looks like
he?s crawling.
Glaze, then arrange pineapples and secure with cloves.
Bake uncovered in 350° oven till thermometer reaches 160°.

Cajun Babies

Just like crabs or crawfish, babies are boiled alive!
You don?t need silverware, the hot spicy meat comes off in your hands.

6 live babies
1 lb. smoked sausage
4 lemons
whole garlic
2 lb. new potatoes
4 ears corn
1 box salt
crab boil

Bring 3 gallons of water to a boil.
Add sausage, salt, crab boil, lemons and garlic.
Drop potatoes in, boil for 4 minutes.
Corn is added next, boil an additional 11 minutes.
Put the live babies into the boiling water and cover.
Boil till meat comes off easily with a fork.

Oven-Baked Baby-Back Ribs

Beef ribs or pork ribs can be used in this recipe,
and that is exactly what your dinner guests will assume!
An excellent way to expose the uninitiated to this highly misunderstood
yet succulent source of protein.

2 human baby rib racks
3 cups barbecue sauce or honey glaze (see index)
Salt
black pepper
white pepper
paprika

Remove the silverskin by loosening from the edges,
then stripping off.
Season generously, rubbing the mixture into the baby?s flesh.
Place 1 quart water in a baking pan, the meat on a wire rack.
Bake uncovered in 250° oven for 1° hours.

When browned, remove and glaze,
return to oven and bake 20 minutes more to form a glaze.
Cut ribs into individual pieces and serve with extra sauce.

Fresh Sausage

If it becomes necessary to hide the fact that you are eating
human babies, this is the perfect solution.
But if you are still paranoid, you can substitute pork butt.

5 lb. lean chuck roast
3 lb. prime baby butt
2 tablespoons each:
salt
black, white and cayenne peppers
celery salt
garlic powder
parsley flakes
brown sugar
1 teaspoon sage
2 onions
6 cloves garlic
b

perhaps)
1 inch cubes of tender meat, preferably from the nursery
Onions
bell peppers
Wooden or metal skewers

Marinate the meat overnight.
Get the grill good and hot while placing meat, vegetables, and
fruit such as pineapples or cherries on the skewers.
Don?t be afraid to use a variety of meats.
Grill to medium rare,
serve with garlic cous-cous and saut&#65533;ed asparagus.
Coffee and sherbet for desert then walnuts, cheese, and port.
Cigars for the gentlemen (and ladies if they so desire)!

Crock-Pot Crack Baby

When the quivering, hopelessly addicted crack baby succumbs to death,
get him immediately butchered and into the crock-pot, so that any
remaining toxins will not be fatal. But don?t cook it too long,
because like Blowfish, there is a perfect medium between the poisonous
and the stimulating. Though it may not have the same effect on your
guests, a whole chicken cooked in this fashion is also mighty tasty.

1 newborn - cocaine addicted, freshly expired, cleaned and butchered
Carrots
on

thrive and hot French bread is always available.

2 cleaned fetuses, head on
2 eggs
1 tablespoon yellow mustard
1 cup seasoned flour
oil enough for deep frying
1 loaf French bread
Lettuce
tomatoes
mayonnaise, etc.

Marinate the fetuses in the egg-mustard mixture.
Dredge thoroughly in flour.
Fry at 375&#65533; until crispy golden brown.
Remove and place on paper towels.

Holiday Youngster

One can easily adapt this recipe to ham, though as presented,
it violates no religious taboos against swine.

1 large toddler or small child, cleaned and de-headed
Kentucky Bourbon Sauce (see index)
1 large can pineapple slices
Whole cloves

Place him (or ham) or her in a large glass baking dish, buttocks up.
Tie with butcher string around and across so that he looks like
he?s crawling.
Glaze, then arrange pineapples and secure with cloves.
Bake uncovered in 350&#65533; oven till thermometer reaches 160&#65533;.

It still seems that Mr Bean is struggling with reality.

I append a posting, questioning his existence, that I submitted to this newsgroup:

Hello fellow usenet readers.

From what I've read of the posting of both Brian Reay and the person who uses an anagram of his name - aka Airy R Bean - I have noted some very worrying traits, which seem to come and go within this newsgroup:

- Airy R Bean seems to have a very worrying and, near criminal, preoccupation with the Reay family, especially the minor female members - a trait, if demonstrated in everyday life, would be an arrestable offence or at least gain the interest of the police.

- Airy R Bean, again, seems preoccupied with any posting of Brian Reay and will often be-little or respond to any posting Mr Reay makes, often in a very derogatory fashion.

- Airy R Bean, despite all of the skills he seems to possess - which I assume from reading his postings in other newsgroups, seems to just be a 50+ year old man with nothing better to do than spend his life on usenet, despite running his own business.

- Airy R Bean confuses gender easily.

- Airy R Bean, using the manner in which he frequently attacks Mr Reay, has caused many people to leave both this and other usenet newsgroups and takes delight in doing so.

= Airy R Bean only ever posts one useful contribution to the newsgroups but posts many damaging or off-topic remarks.

Basically - I feel - that Airy R Bean is one confused individual who may have been ignored as a child and, only now through the medium of usenet and his interest in amateur radio, is desperate to be heard but goes about it the wrong way.

How about you get a life Mr Bean (who also is known, legally, as Gareth Alun Evans) and maybe people will respect you more?

Presently, you're about as much use as a dog turd - carried around on someones shoe or eventually scooped up and dumped.

I finally leave one question - aimed directly at Airy R Bean - do you ever intend to contribute to any usenet newsgroup in a useful way or are you just totally useless?

David.

Brother Stair pleaded guilty on reduced charges about a month ago. He was sentenced to the time he's already served in jail.

There's still some additional charges as well as some as some civil cases against the Prophet of God, but it looks as if the biggest part of the legal circus has run it's course.

The Prophet, relived of his recent worldly legal entanglements, is capitalizing on the news of these severe earthquakes. Yes, yet again, doomsday is here, right now, for every one of us.

He's again encouraging pilgrimages to Walterboro.

Be sure to bring cash, and plenty of it.

Look out James Lloyd, Pastor David J. Smith, Texe Marrs and all the rest. The real Brother Stair is back!!!

Frank Dresser

Free quick easy money Amazing !!!!!!!!!!!!
Date: 22 Dec 04

Comments

HOW TO TURN $6 INTO $6,000!!!!!! READING THIS COULD CHANGE YOUR LIFE! I found this on a bulletin board and decided to try it. A little while back, I was browsing through newsgroups, just like you are now, and came across an article similar to this that said you could make thousands of dollars within weeks with only an initial investment of $6.00! So I thought, Yeah right, this must be a scam,but like most of us, I was curious, so I kept reading. Anyway, it said that you send $1.00 to each of the 6 names and address stated in the article. You then place your own name and address in the bottom of the list at #6, and post the article in at least 200 newsgroups. (There are thousands) No catch, that was it. So after thinking it over, and talking to a few people first, I thought about trying it. I figured: what have I got to lose except 6 stamps and $6.00, right? Then I invested the measly $6.00. Well GUESS WHAT!!... within 7 days, I started getting money in the mail! I was shocked! I figured it would end soon, but the money just kept coming in. In my first week, I made about $25.00. By the end of the second week I had made a total of over $1,000.00! In the third week I had over $10,000.00 and it's still growing. This is now my fourth week and I have made a total of just over $42,000.00 and it's still coming in rapidly. It's certainly worth $6.00, and 6 stamps, I have spent more than that on the lottery!! Let me tell you how this works and most importantly, why it works....Also, make sure you print a copy of this article NOW, so you can get the information off of it as you need it. I promise you that if you follow the directions exactly, that you will start making more money than you thought possible by doing something so easy! Suggestion: Read this entire message carefully! (print it out or download it.) Follow the simple directions and watch the money come in! It's easy. It's legal. And, your investment is only $6.00 (Plus postage) IMPORTANT: This is not a rip-off; it is not indecent; it is not illegal; and it is virtually no risk - it really works!!!! If all of the following instructions are adhered to, you will receive extraordinary dividends. PLEASE NOTE: Please follow these directions EXACTLY, and $50,000 or more can be yours in 20 to 60 days. This program remains successful because of the honesty and integrity of the participants. Please continue its success by carefully adhering to the instructions. You will now become part of the Mail Order business. In this business your product is not solid and tangible, it's a service. You are in the business of developing Mailing Lists. Many large corporations are happy to pay big bucks for quality lists. However, the money made from the mailing lists is secondary to

the income which is made from people like you and me asking to be included in that list. Here are the 4 easy steps to success: STEP 1: Get 6 separate pieces of paper and write the following on each piece of paper;PLEASE PUT ME ON YOUR MAILING LIST. Now get 6 US $1.00 bills and place ONE inside EACH of the 6 pieces of paper so the bill will not be seen through the envelope (to prevent thievery). Next, place one paper in each of the 6 envelopes and seal them. You should now have 6 sealed envelopes, each with a piece of paper stating the above phrase, your name and address, and a $1.00 bill. What you are doing is creating a service. THIS IS ABSOLUTELY LEGAL! You are requesting a legitimate service and you are paying for it! Like most of us I was a little skeptical and a little worried about the legal aspects of it all. So I checked it out with the U.S. Post Office (1-800-725-2161) and they confirmed that it is indeed legal! Mail the 6 envelopes to the following addresses:

#1)Randall Hines 22 Stature Dr. Newark
DE 19713

#2) Mike Sharrer 921 West State St. Coopersburg PA 18036

#3) Jeffrey Hyun 17414Stark Ave Cerritos,CA 90703

#4) James Adair the third 22 Over Rd. Feasterville PA 19053

#5) TSR Solutions 15907 Golden Eye CT Parker CO 80134

#6) Daryl L. 6063 Roosevelt Blvd Apt# 216 Philadelphia PA 19149

STEP 2: Now take the #1 name off the list that you see above, move the other names up (6 becomes 5, 5 becomes 4, etc...) and add YOUR Name as number 6 on the list. STEP 3: Change anything you need to, but try to keep this article as close to original as possible. Now, post your amended article to at least 200 newsgroups. (I think there are close to 24,000 groups) All you need is 200, but remember, the more you post, the more money you make! This is perfectly legal! If you have any doubts, refer to Title 18 Sec. 1302 & 1341 of the Postal lottery laws. Keep a copy of these steps for yourself and, whenever you need money, you can use it again, and again. PLEASE REMEMBER that this program remains successful because of the honesty and integrity of the participants and by their carefully adhering to the directions. Look at it this way. If you are of integrity, the program will continue and the money that so many others have received will come your way. NOTE: You may want to retain every name and address sent to you, either on a computer or hard copy and keep the notes people send you. This VERIFIES that you are truly providing a service. (Also, it might be a good idea to wrap the $1 bill in dark paper to reduce the risk of mail theft.) So, as each post is downloaded and the directions carefully followed, six members will be reimbursed for their participation as a List Developer with one dollar each. Your name will move up the list geometrically so that when your name reaches the #1 position you will be receiving thousands of dollars in CASH!!! What an opportunity for

only $6.00 ($1.00 for each of the first six people listed above) Send it now, add your own name to the list and you're in business! ---DIRECTIONS ----- FOR HOW TO POST TO NEWSGROUPS---------- Step 1) You do not need to re-type this entire letter to do your own posting. Simply put your cursor at the beginning of this letter and drag your cursor to the bottom of this document, and select 'copy' from the edit menu. This will copy the entire letter into the computer's memory. Step 2) Open a blank 'notepad' file and place your cursor at the top of the blank page. From the 'edit' menu select 'paste'. This will paste a copy of the letter into notepad so that you can add your name to the list. Step 3) Save your new notepad file as a .txt file. If you want to do your postings in different settings, you'll always have this file to go back to. Step 4) Use Netscape or Internet explorer and try searching for various newsgroups (on-line forums, message boards, chat sites, discussions.) Step 5) Visit these message boards and post this article as a new message by highlighting the text of this letter and selecting paste from the edit menu. Fill in the Subject, this will be the header that everyone sees as they scroll through the list of postings in a particular group, click the post message button. You're done with your first one! Congratulations...THAT'S IT! All you have to do is jump to different newsgroups and post away, after you get the hang of it, it will take about 30 seconds for each newsgroup! **REMEMBER, THE MORE NEWSGROUPS YOU POST IN, THE MORE MONEY YOU WILL MAKE!! BUT YOU HAVE TO POST A MINIMUM OF 200** That's it! You will begin receiving money from around the world within days! You may eventually want to rent a P.O.Box due to the large amount of mail you will receive. If you wish to stay anonymous, you can invent a name to use, as long as the postman will deliver it. **JUST MAKE SURE ALL THE ADDRESSES ARE CORRECT.** Now the WHY part: Out of 200 postings, say I receive only 5 replies (a very low example). So then I made $5.00 with my name at #6 on the letter. Now, each of the 5 persons who just sent me $1.00 make the MINIMUM 200 postings, each with my name at #5 and only 5 persons respond to each of the original 5, that is another $25.00 for me, now those 25 each make 200 MINIMUM posts with my name at #4 and only 5 replies each, I will bring in an additional $125.00! Now, those 125 persons turn around and post the MINIMUM 200 with my name at #3 and only receive 5 replies each, I will make an additional $626.00! OK, now here is the fun part, each of those 625 persons post a MINIMUM 200 letters with my name at #2 and they each only receive 5 replies, that just made me $3,125.00!!! Those 3,125 persons will all deliver this message to 200 newsgroups with my name at #1 and if still 5 persons per 200 newsgroups react I will receive $15,625,00! With an original investment of only $6.00! AMAZING! When your name is no longer on the list, you just take the latest posting in the newsgroups, and send out another $6.00 to names on the list, putting your name at number 6 again. And start posting again. The thing to remember is: do you realize that thousands of people all over the world are joining the internet and reading these articles everyday?, JUST LIKE YOU are now!! So, can you afford $6.00 and see if it really works?? I think so... People have said, &quote;what if the plan is played out and no one sends you the money?

So what! What are the chances of that happening when there are tons of new honest users and new honest people who are joining the internet and newsgroups everyday and are willing to give it a try? Estimates are at 20,000 to 50,000 new users, every day, with thousands of those joining the actual internet. Remember: play FAIRLY and HONESTLY and this will really work.

Brother Stair was prosecuted by only one of the U.S., the state of South Carolina. It was a plea bargain in which the prosecutor and judge agreed with. The prosecutor said the two girls also agreed with the plea proceedings. That may or may not be just, but that's as close to justice as we'll get under the Constitution.

As a SWL, I'm glad the greatest of all false shortwave prophets will stay on the air. As I've said before, I'm hoping for a major false doomsday every month for a whole year in 2005!

Frank Dresser

Frank:
When is James Lloyd on the air?
I used to listen to him on 7.490 in
the daytime during the past summer
but he's no longer on that freq.

I miss him and his chicken coop hens
cackling in the background. He was a
real hoot, almost as funny as the Profit!

I guess we could say that if RG Stair were
born sometime in the 1940's and was a
hippie love child potsmoker during the 1960's
he would have turned out like James Lloyd eh?

(..aint it amazing how kooks change, and yet,
remain consistent from generation to generation?
Some Ph.D. should write a paper on this curious
fact of USA sociology someday.)

Finally you forgot to add Elizabeth Border
of The Divided Kingdom radio show (11:00 PM
EST on 5.085 - see http://www.wwrb.org/) to your
list of kooks above. Truly a RARE BIRD!
The female religious shortwave broadcaster.
(both her and her LIVE RADIO SOCKPUPPET
"Barbie". What a fruitcake!!)

At the last meeting, on Oct 17, 2004 we agreed that meetings would be held from 1 to 5 pm on the third Sundays of odd-numbered months, at the Parm-Snow Branch of the Cuyahoga County Public Library (CCPL).

(1)LOCATION of NEXT MEETING on Sunday Jan 16,2005

As we did last time, we will hold the meeting in the large meeting room at the Cuyahoga County Public Library , Parma-Snow branch at 2121 Snow Rd in Parma. It is just a little west of Broadview Rd, across from McDonald's.(Snow Rd is the continuation of Rockside Rd west of Broadview Rd.)Take I-77 to the Rockside Rd exit and go West past Broadview Rd.

This is a private meeting room and holds up to 75 people. Available equiptment includes a large screen TV monitor, and it also has a digital projector for viewing the screen of a laptop (or desktop) computer. A 15 pin "monitor out" connection is needed on the PC. If needed,I can also furnish a mini TV camera for viewing the scanner display and also a laptop running Windows XP Pro that also has internet access. (Let me know if anyone needs to use these items.)

2) MEETING TIME

Sunday Jan 16, 2004 from 1pm to 4:45 pm. The library hours are 1:00 pm to 5:00pm on Sundays. Please turn off your scanners before entering the library. The meeting room is in the North-East corner of the building. Everyone can help setup and we should hopefully start the actual program by 1:15 or so.

3) MEETING TOPICS

Here is what Mark and Erik have been working on:

General MilAir:
- Callsign Database/Listing
- Recorded .wav Files
- MilAir Dictionary/Acronyms
- Web Resources
- Yahoo and Internet Groups
- Webpages of Interest

UHF/VHF:
- Aerial Refueling Frequencies and Map
- Cleveland ARTCC Frequencies
- Other MilAir Frequency Listings
- Proper search techniques and step size

They have also discussed the possiblity of touching on HF Monitoring and Satcomm Monitoring.

If anyone has any related topics that they would like to present, feel free to email Mark at kc8wlz@adelphia.net

5)MEETING PUBLICITY

This is going to be a great meeting, and maybe we can increase attendance if we publicize it a little. I have prepared the following text shown below, if anyone wants to fancy it up, make it into a flyer, and post it in the group files, maybe members would volunteer and get permission from libraries, electronic stores etc to post them. Or, feel free to post the text on related groups. Thanks

I am looking forward to meeting everyone at the meeting!
Scannear Jack
==========

NEXT NORTHEAST OHIO SCANNER GROUP MEETING
(NEOhioScanner@yahoogroups.com)
SUNDAY JANUARY 16,2004 from 1:00 to 5:00 pm

TOPICS WILL INCLUDE A PRESENTATION OF MILAIR SCANNING:

General MilAir:
- Callsign Database/Listing
- Recorded .wav Files
- MilAir Dictionary/Acronyms
- Web Resources
- Yahoo and Internet Groups
- Webpages of Interest

UHF/VHF:
- Aerial Refueling Frequencies and Map
- Cleveland ARTCC Frequencies
- Other MilAir Frequency Listings
- Proper search techniques and step sizE

LOCATION AND TIMES OF MEETINGS:

Meetings are normally held from 1 to 5 pm on the third Sundays of odd-numbered months,in the large meeting room of the Cuyahoga County Public Library, Parma-Snow branch at 2121 Snow Rd in Parma. The meeting room is in the North-East corner of the building.

DIRECTIONS:

Take I-77 to the Rockside Rd exit and go West past Broadview Rd. The Library is just a little west of Broadview Rd, across from McDonald's.(Snow Rd is the continuation of Rockside Rd west of Broadview Rd.)

The library hours are 1:00pm to 5:00pm on Sundays.

PLEASE TURN OFF ALL RADIOS BEFORE ENTERRING THE LIBRARY

We look forward to seeing you at the meeting. Meet us on-line

:
: Mongolloyd even has two groups:
: alt.fuckhead.stagger.lee
: alt.cocksucker.lardass.lloyd-davies*

* As usual, Woger finds it easier to baldly lie where no man has lied before. The fact is that Newzbot - a site which tracks Usenet newsgroups - has this to say about the fictitious second group:

From the URL
http://www.newzbot.com/search.php?q=alt.cocksucker.lardass.lloyd-davies

"Newzbot: search - group 'alt.cocksucker.lardass.lloyd-davies' Sorry, I couldn't find any hosts that carry the newsgroup 'alt.cocksucker.lardass.lloyd-davies'."

Now, it is true that Woger or one of his buddies issued an old-fashioned newgoup control message in an attempt to create the davies group, but they of course fell flat on their face(s). The control message was badly outdated and was ignored.

That same style of control message was able to create a group in my name several years ago, but that format is no longer used. Usenet has moved on, and Woger has not.

P.S. Newzbot *does* list the following groups if you use the search term "wiseman":

* alt.asshole.roger-wiseman
* alt.cocksucker.roger-wiseman
* alt.fag-lamer.roger-wiseman.chucklehead
* alt.fan.fatassed.woger.wiseman-dicksucker
* alt.idiot.roger-wiseman
* alt.pedophile.roger-wiseman

Congrats, Woger. You win the newsgroups sweepstakes. Under your ham call, there is also a very active news group named alt.binaries.pictures.erotica.gaymen.ab8mq, so you've even earned lagniappe!

Try this on for size, mini-Lloyd: The dirtball.com addresses you and
your fellow forgers have been using are all INVALID!

Do you know why? BECAUSE THERE HAS BEEN NO DIRTBALL.COM SINCE THE
DOMAIN EXPIRED ON DEC 11th!! Not only did you continue to use invalid
email addresses supposedly belonging to Oris Grim, you kept on using
them long after the domain didn't even have the ability to receive
email bound for Mr. Grim.

Instead, the only email service left is at Network Solution's resale
host, as the following DNS response proves:

;; QUESTION SECTION:
;dirtball.com. IN MX

;; ANSWER SECTION:
dirtball.com. 7200 IN CNAME resalehost.networksolutions.com.

You see, mini-Lloyd, dirtball.com is up for sale. It has been since
the beginning of the month.

Yes indeed, Woger, you just keep screwing up, and screwing up, and
screwing up, and ...

Bwa HAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHA!!!

Thanks to all the folks that suggested ideas or help. It appears that Little Andaman was less affected than many other areas and Richard, in true ET fashion, was able to phone home today, to a much relieved mother.

Having experienced one mother's grief so close to home really focusses things and my heart goes out to all the other souls missing or perished in this tragedy

Not sure what went on here - my original note certainly contained none
of the above quotes, nor was any spam attempt but a genuine attempt to
see if the amateur fraternity had any comms links that the official
channels had yet to re-open in a real one-in-a-million chance to contact
someone.

Anyway at least for one family all ended well - Richard phoned home
today.

Well, jackass, tell somebody who gives a fuck.
The only reason he had to get a mortgage is he didn't have the cash, and the mortgage goes into the 2030's as to when it can be paid off.

And for somebody "who's not on the internet", Cueball must be sending those many e-mails to K1TP that end up on his webpage by carrier pigeon or something... you are a dumbass!
>

The VU4 DXpedition is suspended, so you don't need your green stamps to get a QSL from them. But those green stamps are urgently needed to save potentially hundreds of thousands of lives around the Bay of Bengal. Dig deep on this one.

The following aid agencies are accepting contributions for assistance that they or their affiliates are providing for those affected by the earthquake and tidal waves in Asia. U.S. organizations are members of InterAction, a coalition of relief, development and refugee assistance agencies.

Might want to be a tad careful rushing to contribute to every "charity" with the words "Asian Flood" or the like in them.

Ever hear of profiteering? It is a sickness that some folks have..they wait to pounce on victims and "contributors" alike after every hurricane or any other genuine disaster. Ask some of the folks in Florida who get ripped off after every hurricane by "charities" and "home improvement" contractors to rebuild their damaged residences. All they need is an address, webpage and a 800 number. Many don't even have that and just drive the streets and knock on doors.....

My advice is to pray for disaster relief workers....

As are the Congress Critters elected by the American public. Who
donates money to the Congress critters Political Action Committees and
such in significant chunks? Right, special interest groups and
businesses.

Tony

Absolutely, then give only to those concerns you are familiar with, such as
Red Cross, Etc. Don't need to fund any "Nigerian Banking Scam", Eh/ 73's

Another classic "Hansism" where Hans opens his mouth and inserts
his foot. There are widely broadcasted warnings not to contribute
to many charities, because of their direct connection to Muslim
interests and their history of diverting donated money from the victims
to support the radical Muslim Jihad (that's global war on terrorism for
you Hans. We know you have trouble with big words.)

Kenny

3252. Re: Have you ever worked at Radio Shack?

Newsgroup: rec.radio.amateur.misc
Date: 2004-12-29 14:14:56 UTC
From: Danny <danny@dannydxzone.org>
Message-ID: <cqudvq$lf3$0@pita.alt.net>
Source record: 54414

The Shack (Tandy) has been running afraid for the last few years
in front of EEO complaints and law suits. If you are a straight white
male and if you are lucky enough to get hired, you will be a victim of
reverse discrimination and see unqualified minorities, gays, and
women shown continual favoritism.

: Wrong again, dumbass....go to QRZ.com or any other ham call lookup, it's
: been his address for quite a while.

Sorry, pencil neck, qrz.com is not authoratative when it comes to domain name registrations. While it is true that dirtball.com used to be Mr. Grim's domain (and no one has disputed that), it is also true that dirtball.com expired on Dec 11, 2004 and that email addresses such as those shown on qrz.com's web pages are no longer valid.

Now try to refocus your mind. (1) the forgery and the forgers claimed that the email they received arrived on Dec 23 from "Oris Grimm [sic]," and (2) they used dirtball.com addresses in their posts -- addresses which had been invalid since at least Dec 11th, if not earlier.

If Mr. Grim had indeed written that email on or after Dec 23rd, it would have arrived from a different address, because dirtball.com was completely incapable of receiving mail intended for Mr. Grim. Yet not one of you used any other address, because you were totally unaware of the fact that the dirtball.com address is no longer valid.

Bottom line: The forger (you) screwed up again.

GLENDALE, WV [UPDATE]: The FCC had written General licensee Roger L. Wiseman, KC8JBO, on March 29, 2000, advising that it had been made aware of "an ongoing personal dispute" between Wiseman and Advanced licensee Steven A. Tunder, N8WGM, that included allegations of interference or jamming on 20 meters. FCC Special Counsel for Amateur Radio Enforcement Riley Hollingsworth cautioned Tunder and Wiseman to review §97.1 of the Amateur Radio rules and "to make certain that whatever disputes that may exist are not carried over to Amateur Radio frequencies." Hollingsworth invited the two licensees to contact him to discuss the matter. Wiseman alleged in a subsequent communication to the ARRL that Tunder had been harassing him and that he had made the FCC aware of it in the first place. Wiseman indicated that he had been in touch with Hollingsworth to clarify the situation. The FCC had sent Wiseman a Warning Notice last November in response to allegations of deliberate and malicious interference on 20 meters.

GLENDALE, WV: The FCC requested July 11, 2000, that Roger L. Wiseman, KC8JBO, retake the General examination elements under the supervision of an ARRL-VEC volunteer examiner team. Wiseman must appear for retesting by September 11, 2000, or his license will be canceled. Applicants appearing for re-examination are granted an Amateur Radio license consistent with the elements passed. The FCC had written Wiseman on March 29, 2000, advising that it had been made aware of "an ongoing personal dispute" between Wiseman and another licensee that included allegations of interference or jamming on 20 meters. FCC Special Counsel for Amateur Radio Enforcement Riley Hollingsworth invited the two licensees to contact him to discuss the matter. Additionally, the FCC had sent Wiseman a Warning Notice last November in response to allegations of deliberate and malicious interference on 20 meters.

GLENDALE, WV: The FCC sent a Warning Notice November 9, 1999, to General licensee Roger L. Wiseman, KC8JBO, citing evidence that the licensee had been "deliberately and maliciously interfering with the radio operations of other licensed amateurs" on 20 meters. "This interference has occurred at various times in the last several months and includes broadcasting music and other unidentified transmissions," said a letter from FCC Special Counsel for Amateur Radio Enforcement Riley Hollingsworth. Hollingsworth warned that continued operation of the type described could result in a fine or license revocation proceeding, and he requested that the licensee contact him to discuss the allegations.

The following is a large collection of stories and anecdotes about clueless computer users. It's a baffling phenomenon that in today's society an individual, who might in other circumstances be considered smart and wise, can sit down in front of a computer screen and instantly lose every last shred of common sense he ever possessed. Complicate this phenomenon with a case of "computerphobia," and you end up with tech support personnel having phone conversations that are funny in retrospect but seem like perfectly valid motives for wild machine gun shooting sprees at the time. You will read stories in this file that will convince you that among the human race are human-shaped artichokes futilely attempting to break the highly regarded social convention that vegetables should not operate electronic equipment. And yet, amidst the vast, surging quantities of stupidity are perfectly excusable technological mishaps -- but that are amusing nonetheless. After all, even the best of us engages in a little brainless folly every once in a while.

Most of these stories are true. Some happened to me personally. Some happened to friends of mine. Some are considered urban legends, but even most of these are more likely to have happened in some form or another than not. Skeptics look at such stories and doubt their truth. But reason, common sense, and experience tell me that if you sit someone who isn't computer literate (even a smart someone) down in front of a computer, you're bound to accrue anecdotes no less outrageous than these. You'd be surprised.

I used to work for MacWarehouse as a tech support representative. One day a gentleman called who had never had a computer before. He was trying to set up his new system. I tried and I tried but I just couldn't make him understand where to plug the cables in. Finally I looked up the details on his order. He had ordered top-of-the-line everything -- monitor, keyboard, printer, modem, scanner, speakers, CD-ROM drive, external hard drive......except, he had not ordered the actual computer itself. No wonder the cables would not plug in anywhere.

* Customer: "One of my friends gave me an ImageWriter printer and this keyboard. He said he gave me all the cables, but I can't figure out how to connect them. Am I missing something?"
* Tech Support: "Well, a computer would help."
* Customer: "You mean this keyboard isn't a word processor?"
* Tech Support: "No ma'am, its just an input device."
* Customer: "Then I need to buy a computer, right?"
* Tech Support: "Yes."
* Customer: "Do you think I'll need a monitor, too?"

* Customer: "Do I need a monitor? I have everything else."
* Tech Support: "Yes, ma'am."
* Customer: "Why? That is the dumbest thing I've ever heard of."

On one occasion, a lady came into the store, apparently interested in buying a home computer. After surveying the models on display, she walked over to one and pointed to the monitor and keyboard saying, "I think I need one of these, and one of those...." She then pointed to the CPU and continued, "...but I don't think I need one of those."

Well, I had one event happen to me, where one lady had just bought a Apple IIc and complained that she was having problems with her monitor, so we told her to bring her monitor in, and we'd check it out. So she brings her monitor in, and we plug it in, and it works without a flaw. We tell her that the monitor isn't the problem, and to bring her CPU in. She stares at us blankly, and asks, "What's the CPU?" Joe explains that it's the piece of equipment that all your devices plug into. So about twenty minutes later, she returns and walks in carrying the surge supressor. When we explained to her the item that we needed her to bring in, she replied, "Oh you mean the keyboard!" (On Apple IIc's, the CPU box and keyboard are part of the same unit.) And to make this all the more interesting, she was a gradeschool computer class instructor.

Back in the mid-eighties, the high school I went to had just purchased a handful of 8086s along with some basic hardware -- at that time these things still were horribly expensive. A few weeks later, the computer

lab was broken into and some of the hardware stolen. But the computers themselves had been left untouched: only the monitors and keyboards were gone. Apparently, the only computers the thieves had known were C64s or Apple II's, where the computer and keyboard are part of the same unit. Imagine the frustration when these guys tried to get the stolen machines to work!

I was one of a group of students who would help other students and teachers at my high school with computer problems. One day I got a call from a teacher saying that her computer was not working at all. I went to her room to find a perfectly good Mac PowerPC on her desk. With one problem.

* Me: "Excuse me, ma'am. Where's the keyboard?"
* Teacher: "Oh, it's over there in my travel bag."

A man who owned a small business asked me to program a sales and inventory system for him. He was replacing his old 286 PC and had been running a DOS-based program.

He wanted all the bells and whistles, wanted it browser-driven, with images of all the products in his inventory. But the most important thing to him was that it all run off of floppies -- his 286's hard drive had crashed in the past and he lost all his records, so now he didn't trust hard drives. Not only did he want the whole thing on floppies, he wanted to be able to do a backup onto one floppy every night.

The other thing was that he didn't want to use a mouse or any other sort of pointing device.

A while back, a friend of mine and I were discussing his new computer when he made a comparison to another friend's computer and said, "I know mine's better because it's bigger." I had a hard time not laughing.

I went with a friend to help him shop for a computer. Looking through the different varieties, he said, "I don't think I can afford one of these big ones [desktop machines]. I think I'll have to go with one of these little ones [laptops]."

I was advising a friend on a used PC she was considering buying from a friend. I asked the friend if it was a Pentium PC, and he laughed, "All computers have Pentium processors!"

A few years ago I was watching TV with a few other people in my college dorm lounge. A commercial for the Pentium II came on. That prompted one of the girls to ask everyone, "Ok, what the heck does that Pentium thing DO in a computer, anyway?"

I was in our University Bookstore the other day looking at software when I overheard a salesman talking to a lady about an iMac.

* Salesman: "It has a built in color monitor and comes with a mouse and keyboard--"
* Customer: "Does this thing come with a battery backup system?"
* Salesman: "No, but we have one over there for $99.00. Do you have problems with power outages?"
* Customer: "No, but I don't want to lose all of my Microsoft documents everytime I turn off the computer!"
* Salesman: "You don't need a battery backup for that. That's why it has a 4 gigabyte hard drive."
* Customer: "A hard what?"
* Salesman: "A hard drive. It's like a whole bunch of floppy disks inside your computer that you can store documents on."
* Customer: "I want the battery backup."
* Salesman: "You don't need it."
* Customer: "Why?"

* Friend: "My 486 is getting too slow; I want to upgrade it. Do you think a couple megabyte SmartDrive would help?"

I own a computer store. One day, two policemen came into the store and told that they owned a 486 and a 286. They asked if a 486 and a 286 could be assembled together into a 686. I replied to the dumb request by asking them if two 200 horsepower police cars can be used to make up a 400 horsepower Ferrari. The policemen didn't get it and replied angrily that altering car engines is strictly forbidden by law.

I was working on my computer one day, and one of my friends came up to me. He said, in a tone that suggested he thought my computer was inferior to his, "Is your computer DIGITAL?"

I burned a CD with some multimedia stuff on it for a friend of a friend. He couldn't get them working, because, it turned out, he had a 486 with 8 megs of RAM.

* Him: "How come they don't work?"
* Me: "You need a new motherboard, CPU, case, power supply, lots more RAM, and maybe a new video card."
* Him: "Can you download them for me?"

[New!]

* Customer: "I'd like to buy 2.5 gigabyte hard disk for my 286."

The machine didn't even have an IDE controller, so I had to explain there was no way he could get the disk.
* Customer: "OK, I'LL GET IT FROM SOMEONE ELSE THEN!"

Here's a cut n' paste from the Christian Media website:

SHORT WAVE
NEW FREQ CHANGE! MON 8/2

7.385 WRMI / 4 - 9 PM Changes To 6.870!

17.495 WBCQ / 9-11 AM M-F

15.725 WRMI / 9 AM - 9 PM M-F

9.330 WBCQ / 6 - 8 PM M-F

7.490 WJIE / 24/7

All Times Pacific

http://www.christianmedianetwork.com/

Now that you've mentioned him, I haven't heard the familiar James Lloyd
psycho laugh interval signal in a while. I've assumed it was lost to bad
propagation, but I sure would like to have confirmation that he's still on
the air.

>
> I miss him and his chicken coop hens

The following may be a better URL for the Red Cross International
Response Fund

https://www.redcross.org/donate/donation-form.asp

==========
You can help those affected by the recent tsunamis in South Asia, the
humanitarian crisis in Sudan and Chad, and countless other crises around
the world each year by making a financial gift. This fund enables us to
provide immediate and long-term support through supplies, technical
assistance, and other support to those in need.
==========

It is a secure site that accepts credit cards. We just made a donation
to the Red Cross International Response Fund

First of all, the cser is a troll. Secondly, if all hams are losers, then that puts him at the lowest level below them. And that is lower than snake shit. He's a big man talking behind a keyboard. Bet he wouldn't go to a hamfest - walk up to some burly hams and say that. He'd have his ass kicked faster than he could say oh shit.

Dancing With Myself
(Billy Idol, 1984/ guess who, 2004)

On the floor of christian dances I show
Or the Wagon Wheel gay Bar I a-go, go
With natural selection
I always get rejection
I'm dancing with myself

When there's no-one else in sight
In the lonely LARDASS Lloyd night
Well I wait so long
For a love connection
And I'm dancing with myself

Oh dancing with myself
Oh dancing with myself
Well it's the Lord I choose
And I never have screwed
I'll be dancing with myself

If I looked all over the world
And there's every type of girl
But you pick the good looking guys
And always pass me by
Leave me dancing with myself

So I drink another drink
'Cause it'll give me time to think
If I didn't have this fat gut
I'd actually get a fuck
But I'll be dancing with myself

Oh dancing with myself
Oh dancing with myself
Well I'm addicted to food

And I have 80 pounds to lose
I'll be dancing with myself

If I looked all over the world
And there's every type of girl
But you pick other guys
And always pass me by
Leave me dancing with myself

So I drink another drink
'Cause it'll give me time to think
If I had the chance
I'd get some romance
But I'll be dancing with myself

Oh dancing with myself
Oh dancing with myself
If I had the chance
I'd ask to get into your pants
If I had the chance
I'd have some romance
If I had the chance
I'd get hair implants

[Fade chorus]

Dancing with myself
Dancing with myself
Dancing with myself
Dancing with myself

Well If I looked all over the world,
And I've never had a girl
Because I study the guys
Not the girls' thighs
Leave me dancing with myself

So I drink another drink
'Cause it'll give me time to think
If I had just the chance
I'd get into your pants
But I'll be dancing with myself

Oh dancing with myself
Oh dancing with myself
If I just had the chance
I'd get into your pants
If I had the chance
I'd have some romance
If I had the chance
I'd get hair implants

>nauseaum.

>One letter?
>No "interference"?

Read everything closely. There were three letters sent.

The letters to both Wiseman and Tunder were a preemptive "warning"
that did not allege any activities. That hardly qualifies as a warning
in the context of someone having actually done something.

The letter with the warning in it ALLEGED interference, and warned of
consequences.

The retest letter made no reference to interference; in fact gave no
reason for requiring the retest. Such a request is part of the
Volunteer Examining program. It could have been made for any number of
reasons that may have had nothing to do with any of the addressee's

actions. An investigation into the VE group that gave the test, would be a good example.

Only one letter was a warning referring to interference.

So, yes; if you are going to tell it, tell it straight.

Lardass Lloydie shows his fucking ignorance:

On 29 Dec 2004 06:31:11 -0800, you wrote:
>
> X-No-Archive: Yes

Pussy. Just like you did the other day hiding behind your front door safety chain.

> > The only reason he had to get a mortgage is he didn't have the cash,
> and the mortgage goes into the 2030's as to when it can be paid off.
>
> Nobody pays cash for a house stupid.

They do if they can afford it. I did. So have others. That will never include you, since you work as a less than minimum wage pizza delivery boy. Some planning for your future, dumbass! You have piss poor credit, as well.

> You get a mortgage at 5% and use
> your own money to make 10% or more in the market while you write off
> your interest every year for 30 years. It's like getting free money
> fool!

No, you fucking imbecile, it's making money for the bank...called INTEREST that has to be paid back along with the borrowed amount. And the stock market is a big gamble, where you can easily lose that money you invest as making a profit. Again, if you had ever held a job other than a minimum wage "service" job all your life, you'd know that.

> > And for somebody "who's not on the internet", Cueball must be sending
> those many e-mails
>
> "those many" WOGER reveals his hillbilly roots once again.

Mongolloyd fucks up again. "Woger"!!!! Lardass reveals his homosexuality, once again.

> >to K1TP that end up on his webpage by carrier pigeon or something...

> you are a dumbass!

[restore]
>>Well dumbass, now you're posting about someone who doesn't
read usenet
>>and probably never heard of Roger Wiseman, but it's obvious to
the rest
>>of us you never sold a house and carried a mortgage for a
buyer.
[end restore]

>
> I said he didn't read USENET, stupid. And I said he probably
doesn't
> even know who you are.

No, Lardass, *you* said he didn't. Funny how Google has his
"posts". I proved you are a liar and a fucking imbecile as
well. And, it's rather obvious, I've never HAD to get a
mortgage, ever. Guess you run in those low income circles, tubby.

>But here you sit bashing him with your stupid comments.

And you sit on your fat ass whining about it.

> I sent him email about your post

Guffaw..this confirms what your ex-classmates say, that you are
a whiny, little girlish tattle-tale. Did you send him any of
that queer porn you have on your hard drive, too?

> and he said "who?" How does
> it feel to be owned by someone who isn't even aware of your
existence?

BWHAHAHA... Was he saying "who" about YOU or about ME? BTW,
fatty, handing somebody their ass isn't being owned, you fucking
ass-backwards imbecile. I could care less if he knows who I am
or not.

> > Soory, dipshit, I have owned the house..you lose again.
>
> "Soory" WOGER make good spell!!!

"Woger" Mongolloyd makes good spell and confesses he is a
cocksucking FAGGOT!!!!!

> "I have owned the house" Is English your first language two-
test?

"Is English your first language two-test?" ??????????

Should have read, "is English your first language, two-test?"

Now, since "two-test" is one of your made-up words, I ask: "Is English your first language, Lardass?" You certainly must've been out the day they went over punctuation. Or do you want me to reveal how you flunked out of high school and had to get a G.E.D.? ...oops! so sorry, too late.

> Now stop proving what a real estate genius you _aren't_ and get back to

Now, stop showing what a fucking fool you are, by just handing banks money when you don't have to.
And get a new keyboard, it's time to throw away your sperm-encrusted one.

> using those anonymous remailers and sock puppets.

You sure do whine about that..... I think I'll keep doing it, since it bothers you so much.

> The FBI is watching
> you, the Glendale PD is watching you, and the FCC is watching you, and

Sure they are, fatty. I heard the FBI is investigating your threatening phone calls, the Athens PD and the FBI wants to know why you keep sending them e-mails through a webboard, and the FCC isn't doing anything, but you keep holding on to your delusions. That's all ytou have left, since your own family didn't want you around this Christmas.

> we're all waiting to have our Roger is going to jail party!

Who's "we," tubby, all those voices you keep hearing in your hollow, empty, malformed skull?

now dead priest daddy)'s post of lies.
Where's the arrest report? Got any specifics? Nope, you're
talking out of your fatass again, tubby.

>
> NO J<poor lardass, can't find exactly where Roger works, at
least not on a pizza boy's take home>

Poor Lardass, his mental illness caused from his botched
abortion has made him psycho.
Lardass Lloydie likves like this:
"I could see the filthy floor of this apartment and the dirty
floors and the stench of a grown man pissing on himself were
almost enough to make me want to vomit, and I don't have a
queasy stomach. Upon telling him that this time he would escape
a ass kicking and not to ever get a smart mouth with me again
and a verbal yes from him, I departed. That apartment complex
looked like a crackhouse, niggers everywhere, filthy grounds and
stairwells. Junk cars everywhere and garbage overflowing the
garbage cans."

In that HUD public assistance housing project in the ghetto of
Athens, AL..and is behind on his rent.

Hypocrite. Get your cocksucking lisp attended to, as well.

While Davies, on the other hand, is clearly identified as a
JEWISH name!
http://www.houseofnames.com/coatofarms_details.asp?sId=&s=Davies

Origin Displayed: Welsh

Origins Available: Welsh, Jewish

Spelling variations include: Davies, Davis, Divis and others.
First found in Flint, where the Davies family was seated from
very ancient times, some say well before the Norman Conquest and
the arrival of Duke William at Hastings in 1066 A.D.

Some of the first settlers of this name or some of its variants
were: Arthur Davies and Dorothy Davies, who both settled in
Virginia in 1623; as did Christopher and Emanuel Davies in 1635;
Daniell Davies, who came to the Barbados in 1635.

3280. Battery Pack Opening- Replacement Cells? Help Needed

Newsgroup: rec.radio.amateur.misc
Date: 2004-12-30 17:56:59 UTC
From: Bill <bvd@earthlink.net>
Message-ID: <LjXAd.12729$RH4.4665@newsread1.news.pas.earthlink.net>
Source record: 54342

I have several Icom BP-83 and BP-84 battery packs for my IC-3SAT that have died due to old age. I want to rebuild them. I can have a "professional" do it for approaching $40 but suspect that the replacement cells can be bought for ~$10. My problem is that I have not figured out how to "bust" them apart. I've asked several folks who know, and I always get a "grin" and the line--- its a trade secret. Tough!!

Well, that attitude whizzed me off, so now I'm on a quest to figure it out. Should not be too difficult, but I know that if I just start prying with a screwdriver and it was hot glued or something else, its going to ruin it. I may find out, but I'll have a pile of plastic landfill. Is the substance holding them together softened by heat-solvent or what? So, before I attempt the project, I'd better ask this forum if anyone knows and is willing to share the "tricks" how to open the plastic cases?

So has anyone opened the cases of the specific listed battery packs and know how they are held together? Has anyone successfully "refurbished" such packs?

Thanks,

Bill

On 29 Dec 2004 03:41:14 -0000, Irv Rabin <Jewish Secwet Woger> wrote:

: Wrong again, dumbass....go to QRZ.com or any other ham call lookup, it's
: been his address for quite a while.

Sorry, pencil neck, qrz.com is not authoratative when it comes to
domain name registrations. While it is true that dirtball.com used to
be Mr. Grim's domain (and no one has disputed that), it is also true
that dirtball.com expired on Dec 11, 2004 and that email addresses
such as those shown on qrz.com's web pages are no longer valid.

Now try to refocus your mind. (1) the forgery and the forgers claimed
that the email they received arrived on Dec 23 from "Oris Grimm [sic],"
and (2) they used dirtball.com addresses in their posts --
addresses which had been invalid since at least Dec 11th, if not
earlier.

If Mr. Grim had indeed written that email on or after Dec 23rd, it
would have arrived from a different address, because dirtball.com was
completely incapable of receiving mail intended for Mr. Grim. Yet not
one of you used any other address, because you were totally unaware of
the fact that the dirtball.com address is no longer valid.

Bottom line: The forger (you) screwed up again.

..

OOPS!!! Roger got caught with his pants down and his mouth open again, huh?

(sounds of Roger backpedaling while tapping madly away at this keyboard to
check out who is...)

3299. Antenna building question

Newsgroup: rec.radio.amateur.misc
Date: 2004-12-31 01:21:07 UTC
From: stryped@hotmail.com
Message-ID: <1104456067.217462.265290@c13g2000cwb.googlegroups.com>
Source record: 54360

I am interested i building my own antennas like to start with a 2meter dipole.
My questions is, say you have a plan that says to use 1/2 inch copper. How do you know what will happen if you use thicker material like 3/4 inch tubing? Is there a formula that shows what the effect will be? Or maybe efen smaller diameter? Or what if you use solid material instead of hollow tubing.

What if you use the same diamter but a different material, such as stainless steel instead of copper or aluminum instead of copper? Please forgive these questions if they seem basic as I am a beginner. My guess is the thickness of the element is not as important as the spacing between elements but this only can be true to a point. I mean for arguments sake what if you used large sewer pipe? I would guess that would not work too well.

: wrote:
:
: I love how you whine about somebody using remailers, while you
: hide through Altopia.

But, wait a minute! You and the entity Schwartz claim to know who I am, so how can I be "hiding?"

I think what *really* bothers you is that you were tossed off Altopia yourself, and that the owner of Altopia now totally ignores your email. You've tried at least one poison pen email (which was forwarded to me) that totally failed in its objective. After that, the owner of Altopia started tossing your email into the bit bucket.

: Hypocrite. Get your cocksucking lisp attended to, as well.

Articulate as always I see.

I simply choose not to give stalkers like yourself any openings at all. You can't make late night hangup calls, you can't sign me up for unwanted magazine subscriptions, you can't order pizza deliveries, and you can't send US mail to all of my neighbors. All of those activities and more are quite familiar to you, aren't they Irving? One of your pals wound up in jail convicted of felony stalking, as a matter of fact, and you were next on the list. That's when you started the anonymous remailer bit.

I, on the other hand, can be located by anyone who can have Altopia served with a legitimate subpoena, and that's true of all Altopia subscribers. Sorry, "Irv Rabin," that leaves you out in the cold along with other net stalkers such as w4amp and the entity Schwartz.

Frustrating, isn't it? [And that's the whole idea.]

: While Davies, on the other hand, is clearly identified as a
: JEWISH name!

It really bothers you, doesn't it Irv, to be called Jewish? I guess
that's the legacy of your now infamous anti-semitic posts on alt.flame.

I think I'll flush the rest of your drivel, because it wouldn't bother
me at all to be called Jewish. I happen to think that Jewish folks
are smarter than the rest of the population, on average, and I would
regard your intended epethet as a compliment.

Baaaaaaaaaaaaaaaaaaaa.................
HA HA HA HA HA HA HA HA !!!

Hey have you been to any hamfests lately? (look around) :)
Been listening to 14.313 of late? (KJI from Indiana
is back on in the afternoon again, stirrin up things in the
truly unique way that only the 'kind jewish indian' can!)
How about 75 meters at night?

Hint: 14.313 is "re-starting again" folks!

I can name a few other freq's but U know them already.

"..faintly embarassing" they say? BOY OH BOY DID THEY
EVER GET THAT NAIL NAILED IN STRAIGHT AN
TIGHT INO THE WALL JOIST ! I don't admit to anyone
that I have a ham license, even some family.

As for stamp collecting, never been to one of those
shows, but if those stamp guys are as bung-holeo-retentive
as are the guys I've seen at train shows, I can understand 100%.

Now with all that said, I got me a Zip-Zap for X-mas.
Now leave me be whilst I torment the cat... ;)

YOu realize that *your* post might be used as evidence of that
"slightly embarrassing bit?

- Mike KB3EIA -
